Mr. Hutton: The national health service vacancy survey collects information on the number of vacancies in the NHS lasting three months or more. As at March 2003, there were 150 three-month vacancies for speech and language therapists, a fall from 240 the previous year.

Ian Lucas: To ask the Secretary of State for Health how many speech therapists are employed by the NHS in England. [147090]

Mr. Hutton: As at September 2002, there were 5,960 speech and language therapists employed in the national health service in England, an increase of 1,090, or 22 per cent., since 1997.

Systematic Spirometers

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the availability and use of systematic spirometers in *(a)* primary and *(b)* secondary care settings. [146209]

Dr. Ladyman: The information is not held centrally.

Primary care trusts, in partnership with local stakeholders, have the responsibility for deciding what services to provide for their populations, including those with respiratory disease. They are best placed to understand local health needs and commission services to meet them.

Variant CJD

Mrs. Calton: To ask the Secretary of State for Health how many recipients of blood products have died of variant Creutzfeldt-Jakob Disease since 1993. [145449]

Miss Melanie Johnson: No recipients of blood products have died of variant Creutzfeldt-Jakob Disease.

Mrs. Calton: To ask the Secretary of State for Health pursuant to his oral statement of 17 December 2003, *Official Report*, column 1571, what assessment he has made of the likelihood of the donor and the recipient of variant Creutzfeldt-Jakob Disease infected blood having independently contracted variant Creutzfeldt-Jakob Disease. [145454]

Miss Melanie Johnson: It is possible that both individuals acquired variant Creutzfeldt-Jakob Disease by eating infected meat products. While it is impossible to be certain how the patient who received a blood donation from a person who went on to develop variant Creutzfeldt-Jakob Disease (vCJD) contracted vCJD, in the light of the case history and the research evidence, the possibility of the route of transmission eing transfusion-related cannot be discounted.

Mrs. Calton: To ask the Secretary of State for Health pursuant to his oral statement of 17 December 2003, *Official Report*, column 1571, what assessment he has made of the state of health of the second recipient of blood from the donor who later died of variant Creutzfeldt-Jakob Disease. [145459]

Miss Melanie Johnson: The patient died of causes unrelated to Creutzfeldt-Jakob Disease.

Waiting Lists/Times

Andy King: To ask the Secretary of State for Health what the average waiting time for an initial referral to a consultant rheumatologist is in each strategic health authority. [144547]

Mr. Hutton: The table shows average waiting times for a first rheumatology out-patient appointment following general practitioner (G(D)P) referral.

Average (median) waiting times for first consultant out-patient appointment following G(D)P referral: rheumatology specialty: Strategic health authorities:

England: Quarter 2 2003–04

Strategic health authority	*Median waiting times (weeks)*
Norfolk, Suffolk and Cambridgeshire HA	11.1
Bedfordshire and Hertfordshire HA	9.9
Essex HA	8.3
North West London HA	10.2
North Central London HA	8.6
North East London HA	10.8
South East London HA	9.1
South West London HA	14.0

DEPUTY PRIME MINISTER

Brownfield Sites

Llew Smith: To ask the Deputy Prime Minister what proportion of the planned new communities development in the south-east is to be undertaken on brownfield sites; and if he will make a statement on criteria used in choosing between brownfield and greenfield sites. [147025]

Keith Hill: Through Planning Policy Guidance Note 3 Housing (PPG3) the Office of the Deputy Prime Minister has introduced a series of tough new measures designed to meet the country's future housing needs in the most sustainable way possible. This includes a sequential approach which gives priority to re-using brownfield sites in urban areas in preference to developing greenfield sites. In addition, we have a national target that, by 2008, 60 per cent. of additional

housing should be provided on previously-developed land and through conversions of existing buildings. Performance against this target has risen from 58 per cent. in 1998 to 64 per cent. in 2002 for England as a whole. In the south-east, including London, the proportion is about 75 per cent.

The Sustainable Communities Plan sets out a strategy for carefully planned, sustainable growth which will protect communities from unplanned suburban sprawl. Much of the £610 million the Office of the Deputy Prime Minister is ploughing into the four growth areas through the Sustainable Communities Plan will go into reclaiming poor quality brownfield land, or into transport improvements which will enable high density developments. For instance, the development of new communities at Ebbsfleet, Eastern Quarry and Barking Reach within the Thames Gateway all involve the redevelopment of large redundant industrial sites. However, in some cases sustainable urban extensions involving some greenfield land will be necessary.

Detailed planning of individual sites within the housing growth areas is not yet complete and it is not therefore possible to provide a figure for the proportion of development which will occur on previously developed land. The sequential approach described above will, however, apply.

Energy Performance of Buildings

Norman Baker: To ask the Deputy Prime Minister what studies he has commissioned regarding the policies being adopted by other member states of the European Union concerning obligations on owners of larger privately-owned buildings to implement Article 7.3 of the energy performance of buildings directive. [147406]

Phil Hope: By January 2006, the energy performance of buildings directive requires the United Kingdom to oblige owners of larger buildings, occupied by certain types of public authorities and institutions, to openly display energy performance labels. The Office of the Deputy Prime Minister is considering how best to implement the directive, and, whilst the Office of the Deputy Prime Minister has not yet commissioned studies of other member states' intentions, the Office of the Deputy Prime Minister seeks relevant information in due course.

GP Services (Thurrock)

Andrew Mackinlay: To ask the Deputy Prime Minister what powers and additional resources are available to Thurrock Urban Development Corporation *(a)* to stem the reduction in general practitioner services within Thurrock and *(b)* to attract additional general practitioners to meet the projected growth planned by the urban development corporation; and if he will make a statement. [147011]

Keith Hill: The statutory objectives and powers of the Thurrock Urban Development Corporation (UDC) are set out in section 136 of the Local Government, Planning and Land Act 1980. The Thurrock UDC's overriding objective is to secure the regeneration of its area and to achieve this it has a general power to "... do anything necessary or expedient for this purpose, or for purposes incidental to those purposes".

The Office of the Deputy Prime Minister has earmarked an initial budget in the region of £60 million to enable the UDC to kick-start the growth, development and regeneration of Thurrock over the next three years. In order to access this funding the UDC's Board will need to develop a comprehensive area strategy, which clearly demonstrates how its intervention will achieve the regeneration of Thurrock.

As part of its work, the Office of the Deputy Prime Minister would expect the UDC to liaise with other Government bodies and agencies that, while not directly involved in regeneration activity, are responsible for the wider social infrastructure that will influence the UDCs ability to deliver sustainable, balanced communities in Thurrock. To this end the Office of the Deputy Prime Minister would expect the UDC to assist and/or influence local, regional and national social/health care providers in the development of plans and strategies that directly relate to the growth, development and regeneration of Thurrock.

Local Government Funding (Nottinghamshire)

Paddy Tipping: To ask the Deputy Prime Minister what the grant settlement for Newark and Sherwood District Council was for each of the last five financial years, and what the provisional grant settlement for 2004–05 is, in *(a)* cash and *(b)* percentage change terms. [146847]

Mr. Raynsford: The following table shows the grant settlements for Newark and Sherwood District Council for the period 1999–2000 to 2003–04, and for the provisional 2004–05 grant settlement.

Year	Previous years grant adjusted on a like-for-like basis with the current year (£ million)	Current years grant (£ million)	Change (£ million)	% change
1999–2000	6.854	7.041	0.187	2.7
2000–2001	7.041	7.300	0.259	3.7
2001–2002	7.349	7.676	0.327	4.4
2002–2003	7.570	7.881	0.311	4.1
2003–2004	7.699	8.610	0.911	11.8
2004–2005	7.830	8.065	0.235	3.0

During the above period, there have been a number of changes to the functions and funding of local services that have affected Newark and Sherwood. For this reason care must be taken in looking at year-on-year changes. The above table shows the year-on-year changes on a like-for-like basis over the period.

Mayor of London

Mr. Prisk: To ask the Deputy Prime Minister what the level of financial provision estimated for the Mayor of London is for the financial years *(a)* 2004–05 and *(b)* 2005–06 is. [147160]

Mr. Raynsford: The Greater London Authority will receive the following funding for 2004–05 from the Government for itself and its four functional bodies (Transport for London, Metropolitan Police Authority, London Fire and Emergency Planning Authority and London Development Agency):

Grant	£ million
GLA general grant	36.3
GLA transport grant (for TfL)	2,224.5
Police grant (for MPA)	1,123.1
Revenue Support Grant (for MPA and LFEPA)	796.5
Non-domestic rates (for MPA and LFEPA)	171.3
LDA grant	[1]326.4
Total	4,678.1

[1] This figure is still indicative, and does not include LDA's share of the RDA performance fund.

Funding for 2005–06 will be decided later this year following the Government's 2004 spending review which will be concluded in the summer.

Planning (Housing and Car Parking)

John Mann: To ask the Deputy Prime Minister what advice was last sent to planning authorities about car parking minimum requirements for new housing development; and when it was sent. [147735]

Keith Hill: Planning Policy Guidance Note 3: Housing (PPG3) makes it clear that car parking policies should not be expressed as minimum standards. It advises that car parking standards that result, on average, in development with more than 1.5 off-street car parking spaces per dwelling are unlikely to reflect the Government's emphasis on securing sustainable residential environments.

The most recent advice for local authorities was set out in an Office of the Deputy Prime Minister Parliamentary Statement of 17 July 2003. This clarified that the PPG3 car parking policy did not expect that 1.5 spaces per dwelling should be provided for every dwelling in all new developments. Parking needs vary and that's why it was announced in the Statement the intention to carry out research to consider how varying car parking levels can be achieved in ways consistent with the Office of the Deputy Prime Minister's policy on securing sustainable residential environments.

Regional Chambers and Local Authorities

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the *(a)* regional chambers and *(b)* local authorities which have an office situated outside the United Kingdom; what the annual expenditure of each was since 1997; and if he will make a statement. [147185]

Mr. Raynsford: There are offices in Brussels representing each of the English regions. Some of them have been established for many years. They represent a range of regional and local interests. The lead organisation for the office and the interests it represents varies from region to region.

The Local Government Association has an office in Brussels and there are also offices for the counties of Cheshire, Essex, Kent, and Lancashire. Hampshire, the Isle of Wight and West Sussex have a shared office.

The Office of the Deputy Prime Minister does not hold details of the annual expenditure on these offices; such information would need to be sought from the individual bodies/authorities concerned.

Mr. Jenkin: To ask the Deputy Prime Minister by what process the composition of regional chambers is determined. [147289]

Mr. Raynsford: The composition of the voluntary regional chambers is a matter for each chamber. However they are designated under the Regional Development Agencies Act 1998 as representative regional bodies to scrutinise the plans and activities of the regional development agencies. To meet the criteria for designation and receipt of grant their membership needs to be representative of the range of views and interests within the region. The Government expect at least 30 per cent. of Assembly members to come from stakeholder groups, including representative of business, trades unions, environmental, consumer and other groups.

The remainder come from local government, and reflect the broad political balance across the region. The selection process for membership varies from region to region.

Mr. Jenkin: To ask the Deputy Prime Minister what proportion of members of regional chambers are local councillors. [147290]

Mr. Raynsford: The proportion will vary slightly between regional chambers but in order to be designated under the Regional Development Agencies Act 1998 as representative regional bodies must not exceed 70 per cent. of the total membership.

Mr. Jenkin: To ask the Deputy Prime Minister if he will list each member of each regional chamber; and what the *(a)* political and *(b)* trade union affiliation of each is. [147291]

Mr. Raynsford: The Office of the Deputy Prime Minister does not record such information. It is up to each regional chamber to decide its own membership within the guidelines that, for designation, at least 30 per cent. of members must come from stakeholder groups.

Supporting People Programme

Harry Cohen: To ask the Deputy Prime Minister what *(a)* progress has been made and *(b)* resources have been allocated to the Supporting People programme in (i) Redbridge and (ii) Waltham Forest; and if he will make a statement. [147378]

Keith Hill: Last October, the Government announced funding of £1.8 billion for 2003–04 financial year for the Supporting People programme in England of which Redbridge was awarded £4,466,479 and Waltham Forest £7,934,650.

The Government also announced an independent review of the Supporting People programme to gain a full picture of how the funding is being utilised. The Government have now received a report from the independent review team and are carefully considering its content. A response will be published in due course, and in time for local authorities to plan their 2004–05 budgets.

Transitional Protection Scheme

Mr. Purchase: To ask the Deputy Prime Minister further to HB/CTB circular S9/2003 paragraphs 46–51, whether he is planning any consultation with local authorities on the ways in which the Transitional Protection Scheme will operate in 2004–05 and 2005–06; if he will provide exemplifications to local authorities before 1 January 2004 setting out the potential financial implications for 2004–05 and 2005–06 at an individual authority level of the transitional protection scheme; and what guidance the Government will be providing to individual local authorities. [145191]

Mr. Pond: I have been asked to reply.

Local authority representatives have been consulted, as part of the wider review of subsidy, on the operation of transitional protection in 2004–05 and 2005–06.

Transitional protection will limit the impact of the change in the housing benefit/council tax benefit subsidy regime from April 2004. The financial implications will not be known until authorities have their subsidy claims audited, after the end of the year. It will then be possible to compare the difference in subsidy under the old and new subsidy regimes.

HB/CTB circular S9/2003, a copy of which is available in the Library, gave an outline of the new subsidy scheme. Further guidance for authorities on how the transitional protection scheme will operate will be provided in the near future. This will provide further advice and information which will enable authorities to estimate possible gains/losses under the new subsidy system and consequently whether they may be affected by the transitional protection arrangements.

PRIME MINISTER

Civil Service (Pay Dispute)

Mrs. Iris Robinson: To ask the Prime Minister what steps have been taken to resolve the pay dispute involving Civil Service employees. [146303]

Mr. Alexander: I have been asked to reply.

Since 1996 pay bargaining below the Senior Civil Service has been delegated to individual departments and agencies. Where disputes in departments and agencies exist it is a matter for the relevant department's management and their trade unions to resolve.

Hutton Inquiry

Mr. Webb: To ask the Prime Minister if he will place in the Library a copy of memoranda he has submitted to the Hutton Inquiry since the conclusion of the Inquiry's oral evidence sessions. [147060]

The Prime Minister: I have nothing to add to the statement made by Lord Hutton on this matter.

Written Answers to Questions

Wednesday 14 January 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Mr. Djanogly: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were collected in Huntingdon in 2002–03; what the average length of time was from notification to collection; and if she will make a statement. [146433]

Mr. Morley: One thousand one hundred and sixty, abandoned vehicles were removed and destroyed in Huntingdon in 2001–02, the most recent year for which data are available from the Municipal Waste Management Survey. Information on the length of time from notification to a local authority of an abandoned vehicle to its collection is not collected as part of the survey.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were collected in Chorley in each of the last three years; and what the average length of time was from notification to collection. [146967]

Mr. Morley: The information requested for Chorley borough council is given in the table.

Financial year	*Number of Abandoned Vehicles Removed and Destroyed*
2000–01	300
2001–02	274

2001–02 is the most recent year for which data are available from the Municipal Waste Management Survey. Information on the length of time from notification to a local authority of an abandoned vehicle to its collection is not collected as part of the survey.

American Ships (Decommissioning)

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with Able UK on how it proposes to dispose of the polychlorinated biphenyls in the US ghost ships. [143441]

Mr. Morley: None. Regulation of this matter is for the Environment Agency. Environmental legislation requires that all wastes arising from the vessels would need to be treated or disposed of at facilities duly authorised to accept and deal with them. This includes disposal of wastes containing non-liquid polychlorinated biphenyls, which is confined to electrical insulation, gaskets, seals and similar uses on the ships.

Animal Medicines

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received about the European Union's changes to the status of animal medicines to veterinary prescription only pharmaceuticals. [147157]

Mr. Bradshaw: We have received letters opposing the European Commission's proposal to require all veterinary medicines for food producing animals to be prescription only. This proposal does not apply to medicines for companion animals.

During the review of the EU medicines legislation officials from the Veterinary Medicines Directorate (VMD) have had regular discussions with interested parties on all aspects of the proposed changes to the veterinary medicines legislation. Particular account has been taken of the distribution of medicines for food producing animals. The Government's aim in the negotiations was to enable a flexible approach to such distribution that takes advantage of existing national practices so long as consumer protection and animal welfare can be demonstrably assured. This has been achieved.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of the cost of veterinary prescription only pharmaceuticals on *(a)* farmers' incomes and *(b)* farm animal health. [147158]

Mr. Bradshaw: I have made no assessment of the effect of the cost of prescription only medicines on farmers incomes or farm animal health as the use of medicines relates directly to the husbandry methods and disease pattern on an individual farm. However, the Government have accepted Competition Commission recommendations in their Report on the supply within the United Kingdom of prescription only veterinary medicines that are designed to lead, over time, to an overall reduction in the cost of all veterinary medicines.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs whether the United Kingdom Government will implement EU changes to the status of animal medicines to veterinary prescription only pharmaceuticals; and if she will make a statement. [147159]

Mr. Bradshaw: The European Parliament adopted a compromise text of amendments under Review 2001 in the second reading stage on 17 December 2003. This is expected to be considered for adoption by the Council of Ministers as soon as the translated texts are available. Once this has been achieved, we will be starting a full review of the UK legislation taking into account the changes to EU legislation, the recommendations of the Competition Commission Report on the supply within the United Kingdom of prescription only veterinary medicines and those of the Independent Review of Dispensing (Marsh Report). This will involve discussion with interested parties and will lead to formal proposals being circulated for consultation in early 2005.

We will implement the EU changes to the status of veterinary medicines for food producing animals. We will discuss proposals to amend national legislation to

introduce POM A, B and C categories as recommended in the Marsh Report. POM C comprise the current Pharmaceuticals and Merchants List products and these would continue to be distributed under the control of Specially Qualified Persons working for registered agricultural merchants.

Animal Welfare Bill

Mr. David Stewart: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the implications of the public consultation held in 2002 on the Animal Welfare Bill on progress of the Bill. [144537]

Mr. Bradshaw: The public consultation on an Animal Welfare Bill ended in April 2002 and attracted some 2,500 replies. The comments received in response to the consultation, together with the subsequent discussions we held with over 100 organisations representing a wide spectrum of views on animal welfare, have contributed greatly to the drafting of the Animal Welfare Bill. A further round of public consultation on a possible draft Bill is anticipated in spring 2004.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there is scope within the new Animal Welfare Bill to cull out contiguous pockets of m.bovis infection in species other than badgers. [144589]

Mr. Bradshaw: No. The proposed Animal Welfare Bill will relate only to the welfare of captive and domestic animals. Wild animals in the wild are therefore outside the scope of the Bill.

CFC Gases

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs when the guidance will be issued to licensed premises for the recovery of CFC gases from disused refrigeration equipment. [147101]

Mr. Morley: The Environment Agency (EA) and Scottish Environmental Protection Agency (SEPA) published guidance in April 2002. A review of this guidance has taken place in conjunction with SEPA and the Environment and Heritage Service (EHS). This revised guidance was sent out for external consultation with Fridge Destruction Industry.

Due to the recent amendment to the ODS Regulations, which now require member states to report on the amount of controlled substances recovered, recycled or destroyed every year, the Environment Agency is now reviewing the guidance, any additional changes will require further public consultation.

Following this consultation the guidance will be issued.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether since the amendment made to EU Regulation 2037/2000 of 7 November 2003, the Government have collated the figure for the tonnage of CFCs recovered from the de-manufacture of refrigeration equipment; and what figure was given to the EU Commission by the deadline of 31 December 2003. [147102]

Mr. Morley: Since the technical amendment was not published until 22 October 2003, and did not come into force until November the obligation on reporting only applies to the months of November and December. We are currently collecting this information.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the average recovery level achieved by licensed UK plants in respect of CFC from refrigeration equipment was in the last year for which figures are available. [147103]

Mr. Morley: From the figures available for the fridge destruction plants, the average recovery rate of CFC from the R11 Blowing Agent in England and Wales in 2003 was 186.13 g per unit.

Denby Poultry

Judy Mallaber: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the statement of the Under-Secretary of State for Health, of 10 December 2003, *Official Report*, column 1172, whether the Cabinet Committee on meat crime will consider issues of co-ordination between government departments and agencies arising from *(a)* the meat fraud conspiracy case at Denby Poultry and *(b)* previous meat fraud cases; [147092]

(2) pursuant to the statement of the Parliamentary-Under Secretary of State for Health, of 10 December 2003, *Official Report*, column 1172, what the remit is of the Cabinet Committee on meat crime. [147093]

Mr. Bradshaw *[holding answer 12 January 2004]:* Although there is no committee looking specifically at "meat crime", there is a Cabinet Committee on Illegal Imports:

The Ministerial Committee on Illegal Imports (MISC 23), has the following Terms of Reference:

"To co-ordinate policy on imports of animals, plants, fish and their products".

Domestic Waste

Dr. Whitehead: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish the results of her Department's investigation of the feasibility of variable charging for domestic waste collection. [145757]

Mr. Morley: In its response to the Strategy Unit report, "Waste Not, Want Not", the Government undertook to carry out further work before a decision is taken on whether to enable local authorities to implement direct or variable charging for waste. This work, which is looking at the practicalities of operating schemes, how potential disadvantages could be overcome and is analysing international experience of such schemes, is under way. The Government will consider the results of this work during 2004.

Environmental Council

Dr. Gibson: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Environmental Council on 22 December 2003; what the Government's stance was on the discussion on the EU Chemical Regulation; and if she will make a statement. [147229]

Mr. Morley: I attended the Environment Council on 22 December 2003, together with my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs.

The Council adopted a Regulation establishing a transitional points system applicable to heavy goods vehicles travelling through Austria for 2004 (known as 'Ecopoints'), a matter previously dealt with by Transport ministers. Agreement had been reached between the Council and the European Parliament through the conciliation process, but there was a discussion in Council as Austria was unable to support the outcome. Council approved the result of the conciliation committee, with Austria voting against.

We held a short discussion on the proposed revision of the Directive on the management of bathing water. A compromise text prepared by the Presidency was unacceptable to the Commission and to a number of member states, including Germany, Greece and Spain, who believed it would produce an insufficiently demanding new Directive. The Secretary of State made it clear that the UK would be unable to agree to the legally binding targets to be reached by 2015, on which the Commission wished to insist. It was evident that there was no realistic prospect of reaching political agreement at this meeting, and the Italian Presidency decided to leave further negotiations to the forthcoming Irish Presidency.

We debated the Commission's proposals concerning the Kyoto Protocol's project mechanisms in relation to the EU scheme for greenhouse gas emissions trading. Ministers expressed their views on a number of questions posed by the Presidency. Most supported early linking to the Clean Development Mechanism, although views were divided on whether such linking could be made available prior to the Kyoto Protocol coming into force. There was also a range of views on the question of qualitative standards for projects, and on the use of sinks. The Secretary of State spoke in support of quantitative limits on the use of credits.

We agreed three sets of Council Conclusions: supporting the preparation of an EU strategy to reduce atmospheric emissions from seagoing ships; agreeing the EU's position for the 7th Conference of the Parties to the Convention on Biodiversity, to be held in Kuala Lumpur in February; and noting the Commission's 2003 environment policy review.

The Commission presented its recently-published proposal for a Regulation on the registration, evaluation and authorisation of chemicals ('REACH'), urging the Council to make rapid progress and to maintain the integrity of the Commission's proposal. There were comments from several member states concerning the significance of this dossier, and the need for appropriate input from both the Environment and Competitiveness formations of the Council. Ireland confirmed that this dossier would be a priority during their Presidency, and that they would continue to involve both industry and environment ministers. There was no UK intervention.

There was an exchange of views on the Commission's proposal for a Regulation to extend the Financial Instrument for the Environment (LIFE) until 2006. Portugal, Spain, Finland, France, Greece and Poland all expressed support for early agreement, and a wish to see LIFE continue beyond 2006. Germany and Sweden were also supportive but emphasised the need for the extension to take place within the existing financial perspective.

The Commission spoke briefly to note that its report on the European Environment Agency was due to be published within days.

There was no discussion of the remaining items under Other Business, which were all written items for information.

Over lunch we discussed the outcome of the 9th Conference of the Parties to the Convention on Climate Change, and heard from Borge Brende, the Norwegian environment minister, who is to chair the 12th session of the UN Commission on Sustainable Development (CSD12) in April. He informed the ministers present that he has asked the Secretary of State to chair the UNECE Regional Implementation Forum in Geneva on 15–16 January, which will help prepare for CSD12.

Fisheries

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what type of trawl is used as standard for scientific fisheries research within the European Union. [146714]

Mr. Bradshaw: The type of trawl used for survey work varies according to target species and area. In the fisheries of interest to UK fishermen, the main trawls used for surveying bottom living fish are the GOV and the beam trawl.

The GOV is a general purpose bottom trawl with a high headline and is used for scientific surveys where the target species are the main commercially important whitefish including cod, haddock, whiting, pout and saithe. The net also samples some of the main shoaling or pelagic species including herring and mackerel. The design and operation of the GOV trawl is co-ordinated by the International Council for the Exploration of the Sea, and all countries involved in the International Bottom Trawl surveys in the North Sea use the GOV trawl with an internationally-agreed specification. In addition to the North Sea, the GOV is used in surveys in the west of Scotland and the eastern English Channel, and has recently been adopted as the main trawl for surveys in the Irish Sea and Celtic Sea.

For flatfish species such as plaice and sole, the main gear used is the beam trawl. Scientific surveys in the North Sea, eastern and western English Channel, the Irish Sea and Bristol Channel are again co-ordinated through ICES. The survey trawls are based on the beam trawls used commercially but vary slightly in size and specification between areas.

Scientifically, it is desirable that survey trawls remain unchanged over a relatively long time period in order to ensure consistency in the survey catch rates from year to year.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government will pay transitional aid to fishing vessels in England adversely affected by effort controls resulting from the Cod Recovery Programme on the same basis as proposed for fishing vessels in Scotland and Northern Ireland. [147161]

Mr. Bradshaw: We have no plans to do so.

Flood Defences (Edgware)

Mr. Dismore: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the flood defence works for the Silkstream, Edgware. [146617]

Mr. Morley *[holding answer 8 January 2004]:* As you know Defra approved the Environment Agency's proposed Silk Stream flood defence scheme in March 2003, subject to satisfactory resolution of negotiations with landowners. I understand that design and land negotiations are proceeding largely to plan, although having to deal with a variety of estates departments has resulted in some delay.

The Agency is undertaking a review of the relative priority of all capital schemes in the programme for Thames region, in the light of the available resources. Until that review is complete, the Agency is unable to provide an update of its planned timetable for the construction of the Silk Stream scheme.

Horse Passport

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs when it will become an offence not to have a passport for all equines. [147946]

Alun Michael: From 1 July 2004.

Hazardous Waste

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs when the Hazardous Waste Regulations will be published. [142598]

Mr. Morley: Draft new Hazardous Waste Regulations will be published when Defra goes out to consultation on the Regulations in early 2004. After a 12 week consultation period, new Regulations should be laid before Parliament in spring 2004.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what mass of hazardous waste was produced in the UK for each of the last five years, broken down by category of hazardous waste. [144919]

Mr. Morley: The Environment Agency has provided the following data for England and Wales to show types of hazardous waste produced each year broken down by European Waste Catalogue (EWC) category. The Environment Agency moved from financial year to calendar year reporting in 2000, and only data for complete years is shown.

Trends in types of hazardous waste produced 1998–99 to 2002

Thousand tonnes

EWC Code	*Broad Category*	*1998–99*	*2000*	*2001*	*2002*
01	Wastes from Mining and Minerals	13	13	7	9
02	Waste from Agricultural and Food Production	6	9	6	4
03	Wastes from Wood and Paper Production	3	7	5	3
04	Wastes from Leather and Textile Production	2	3	3	4
05	Wastes from Petrol, Gas and Coal Refining/ Treatment	259	88	126	68
06	Wastes from Inorganic Chemical Processes	366	295	225	224
07	Wastes from Organic Chemical Processes	573	591	613	593
08	Wastes from Manufacture, Formulation, Supply and Use of Paints, Varnish, Adhesive and Inks	145	141	132	115
09	Wastes from the Photographic Industry	13	22	42	40
10	Wastes from Thermal Processes (inorganic)	113	176	215	191
11	Wastes from Metal Treatment and Coating Processes	146	120	127	115
12	Wastes from Shaping/Treatment of Metals and Plastics	151	96	96	94
13	Oil Wastes	1,036	1,098	1,042	1,008
14	Waste Solvents	109	139	110	63
15	Waste Packaging, Cloths, Filter Materials	48	65	69	52
16	Wastes Not Otherwise Specified	484	753	584	672
17	Construction and Demolition Wastes and Asbestos	1,008	1,064	1,385	1,243
18	Waste from Healthcare	17	17	21	20
19	Wastes from Waste/Water Treatment and Water Industry	235	306	278	346
20	Municipal arid Similar Commercial Wastes	86	129	49	98
99	Unclassified	99	64	78	95
	Total all classes	4,910	5,196	5,213	5,058

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the hazardous waste landfill sites identified by the Environment Agency that will remain as hazardous waste landfills following reclassification in July 2004; if she will identify for each site the types of hazardous waste that the site can dispose of; and whether each site is for private use. [144920]

Mr. Morley: The information requested, as at 16 December 2003 is set out in a table which has been placed in the Library. Under the new regulations, former sites can continue to accept hazardous waste if it is contained within a separate disposal cell. This is likely to lead to additional sites as well as these dedicated sites.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of *(a)* the lead content in glass television screens and *(b)* lead glass in crystal for household use, with respect to the disposal of hazardous waste; and if she will make a statement. [146716]

Mr. Morley: A draft study currently being finalised for Defra shows that lead oxide accounts for approximately 9 per cent. by mass of the cathode ray tube in television sets with screens of 19 inches and over. Lead bound up within the glass of the cathode ray tube does not leach very readily. No formal assessment of lead glass in crystal for household use has been carried out as such material when discarded is not on the hazardous waste list.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the delay of the landfill allowance trading scheme until 2005. [146519]

Mr. Morley: The decision to delay the implementation of the landfill allowance trading scheme until 2005 which was announced by the Minister of State for Local and Regional Government on 19 November 2003, was made as part of Defra's contribution to helping to reduce spending pressures on local government in 2004–05. We expect local authorities to be able to save up to £10 million as a result. (On 6 January 2004 we announced that Defra will also provide a targeted grant of £20 million to local authorities in 2004–05 to help address the spending pressures arising from their statutory recycling targets).

The decision reflects the views of local authorities which we received through our consultation on the implementation of the landfill allowance trading scheme, that they needed more time to prepare for this new scheme which is a significant departure from their normal operations. The delay in starting the scheme will mean that waste disposal authorities will have to make steeper annual reductions in the amount of biodegradable waste they landfill in order to meet the first target year of 2010 but they will have more time to plan how to do this.

The Government will use the additional time to raise awareness of the scheme within local authorities and to educate and support those who will make use of its provisions.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of delaying the introduction of the landfill allowance trading scheme on achieving the UK's compliance with the landfill directive; and if she will make a statement. [146538]

Mr. Morley: Delaying the introduction of the landfill allowance trading scheme in England should not affect the achievement of landfill directive targets for the UK in 2010, 2013 and 2020. The delay is intended to give local authorities more time to decide how, and over what time period, to invest in alternative waste management options to landfill.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether her Department has received requests from waste disposal authorities for the start of the landfill allowance trading scheme to be delayed; [143092]

(2) whether her Department has received requests from waste disposal authorities for the start of the landfill allowance trading scheme to be delayed. [143091]

Mr. Morley *[holding answer 9 December 2003]:* Yes. During regional consultation meetings on the implementation of theLandfill Allowance Trading Scheme held in September 2003, local authorities commented that they would find it difficult to operate the scheme in 2004–05. This view has been reinforced by the written responses to the consultation that have been analysed to date. Local Authorities generally feel that they need more time to prepare for a trading scheme that is a completely new departure from their normal operations. It has already been announced that the start date will be delayed by one year.

Puppy Farms

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent discussions she has had with her counterparts in the European Union on the import into the UK of puppies from puppy farms; [147455]

(2) what recent discussions she has had with her counterparts in the Republic of Ireland concerning the importation of puppies from puppy farms in the Republic of Ireland; [147465]

(3) how many puppies have been imported into the United Kingdom from puppy farms in the Republic of Ireland in each of the last five years; [147466]

(4) what licensing arrangements are in place in respect of importers of puppies from puppy farms in *(a)* the Irish Republic and *(b)* elsewhere; [147467]

(5) what recent representations she has received regarding the importation of puppies from puppy farms in *(a)* the Republic of Ireland and *(b)* elsewhere. [147468]

Mr. Bradshaw: There are no centrally held statistics available for the number of dogs imported into the United Kingdom from the Republic of Ireland because there are no restrictions on trade of animals between the two countries. However, all movements of animals for commercial purposes within the EU must comply with the provisions of EU Directive 91/628/EEC on the protection of animals during transport, which in the UK is implemented by the Welfare of Animals (Transport) Order 1997. There have been no discussions with my counterparts in the Republic of Ireland or the EU on the subject of importation of puppies from puppy farms into the UK.

Sandhurst Explosion

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will hold a Public Inquiry into the explosion at Cleansing Services Group, Sandhurst, Gloucestershire, in October 2000; and if she will make a statement. [143925]

Mr Morley *[holding answer 15 December 2003]:* I have recently received a Final Report (prepared by the Environment Agency and the Health and Safety Executive) into the incident at Cleansing Services Group, Sandhurst. When I have considered the implications of this report, I will make a statement.

Tees Estuary

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what analysis has been made of the risk of the introduction of species of wildlife or plants from the James River estuary to the Tees estuary as a result of the arrival in Hartlepool of the US ships intended for decommissioning; [142332]

(2) what measures were taken to reduce the risk to the Tees estuary from the importation of alien species in ballast water in the US ships intended for decommissioning by Able UK. [142333]

Mr. Morley: The Environment Agency considered the risk of transfer of species of wildlife or plants in ballast water and imposed a condition on the Able UK waste management licence. This requires that no removal or disposal of ballast water may take place from any of the US vessels, except in accordance with a detailed method statement submitted to and approved in writing by the Agency. These are more stringent conditions than apply to the many visiting ships to the UK.

US Warships (Disposal)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the status of the ghost ships in Hartlepool. [145249]

Mr. Morley: Four decommissioned US government-owned vessels are currently being stored by Able UK at Hartlepool. The vessels have been surveyed by the Maritime and Coastguard Agency to assess the integrity of the vessels' structures and safety systems following their passage across the Atlantic, and were confirmed to be in satisfactory condition. The US authorities accept that the four ships will have to return to the US, unless environmentally suitable and legally acceptable methods for their disposal have been identified. The immediate return of the vessels is not practicable. In the meantime the Environment Agency has modified the conditions of Abie's waste management licence so that no dismantling, cutting or breaking of the vessels is permitted, pending the best environmental option for dealing with them.

Waste Management

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many officials in the Department have responsibility for waste management. [142591]

Mr. Morley: As at 15 December 2003, there are 95 officials employed by Defra with responsibility for waste management. In addition to this, there are four secondees who are on temporary placement.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs whether the polluter pays principle applies to management of the municipal waste stream; and if she will make a statement. [146517]

Mr. Morley: The Waste Framework Directive (75/442/EEC as amended by 91/156/EEC) sets out a range of measures on the management of waste—including its collection and disposal. These measures include Article 8 which requires that "any holder of waste has it handled by a private or public waste collector; and Article 15 which provides that "In accordance with the 'polluter pays' principle, the cost of disposing of waste must be borne by.... the holder who has it handled by a waste collector."

The Government has put a range of measures in place under Part II of the Environmental Protection Act 1990, the Controlled Waste Regulations 1992 and the Waste Management Licensing Regulations 1994 to comply with the Directive's requirements. These measures include the arrangements for the collection and disposal of household waste-by-waste collection and disposal authorities. The cost of collection and disposal under these arrangements is met through taxation and charges. Most commercial and industrial waste is collected and disposed of by the private sector under arrangements which comply with the Directive. The cost of collection and disposal under these arrangement is met through charges.

Municipal waste includes household waste and any other wastes collected by a waste collection authority or its agents under Part II of the 1990 Act (Waste Strategy 2000 page 198 (Cm 4693–2)).

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs if she plans to extend the statutory duty on local authorities with regard to recycling and composting beyond 2005–06; and if she will make a statement. [146518]

Mr. Morley: The Government is committed to reviewing the national recycling targets this year, in light of the progress made by local authorities in meeting their 2003–04 Statutory Performance Standards for recycling and composting.

The review will include consideration of whether to set further statutory recycling targets for local authorities for the years beyond 2005–06, to succeed the current Statutory Performance Standards.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of material have been recycled as a direct result of the Waste and Resources Action Programme's activity; what the average cost to public funds was per tonne of such recycled material; and if she will make a statement. [146540]

Mr. Morley: WRAP'S market development programmes are delivering an extra 1,000,000 tonnes/year of additional recycling capacity in the UK, through projects that have been delivered or are close to completion.

It is estimated that all of the capital grant and R&D projects initiated by WRAP, once fully realised, will generate at least four million extra tonnes of recycling per year in the UK. If the reasonable assumption is made that this recycling will continue to be delivered for at least 10 years, the cost to the public purse is estimated to be approximately £1/tonne.

These estimates relate solely to WRAP'S R&D and capital interventions and not to WRAP'S advocacy and procurement work, which make essential contributions to the programme as a whole, but are not so easily related to tonnage figures.

Water Supplies

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the water supply and urban and rural drainage bodies in England which are companies where a holding company or majority of shareholdings are not from the United Kingdom, stating in each case the country and name of the ultimate owner, together with date of acquisition. [145468]

Mr. Morley: The following table lists those water and sewerage and water undertakers that are owned by companies based outside the U.K., the country where the controlling company's head office is and the date of the acquisition. Information about the nationality of shareholders is not available.

Internal Drainage Boards in England have been established in areas of special drainage needs. They are public statutory bodies.

Water and sewerage undertakers	*Ultimate holding company and where headquarters is based*	*Date of acquisition*
Thames Water Utilities Ltd.	Thames Water Aqua Holdings GmbH (RWE AG) (Germany)	November 2000
Wessex Water Services Limited	YTL Power Berhad (Malaysia)	May 2002

Water only undertakers	*Ultimate holding company and where headquarters is based*	*Date of acquisition*
Cambridge Water plc.	Union Electricia Fenosa SA (Spain)	January 2004
Folkestone and Dover Water Services Ltd.	Veolia Environment (France)	February 2003
Tendring Hundred Water Services Ltd.	Veolia Environment(France)	Owned since before 1989
South East Water plc.	Macquarie Bank Ltd. (Australia)	October 2003
Three Valleys Water Services plc.	Veolia Environment (France)	Owned since before 1989

NORTHERN IRELAND

National Sports Stadium

5. **Mr. Grogan:** To ask the Secretary of State for Northern Ireland what discussions he has had with the Northern Ireland Sports Council about a new national sports stadium for Northern Ireland. [146810]

Angela Smith: Support remains in principle for a national stadium but this must be assessed on the grounds of need, sustainability and on the involvement of a number of sports. I am able to confirm that there are on-going discussions with the Sports Council of Northern Ireland about a new national sports stadium. The sports council is also in touch with the governing bodies of the main sports to assess their willingness to use a national stadium bearing in mind that these sports are at various stages in planning for their future facility needs.

Infrastructure Investment

6. **Mr. Bailey:** To ask the Secretary of State for Northern Ireland what plans he has to increase investment in infrastructure in Northern Ireland. [146811]

Mr. Pearson: Yesterday I launched the Northern Ireland Priorities and Budget 2004–06, copies of which have been placed in the Library. This Document shows planned expenditure on capital investment will rise by 40 per cent. over the next two years.

Educational Attainment

7. **Helen Jones:** To ask the Secretary of State for Northern Ireland what steps he is taking to improve educational attainment in disadvantaged communities in Northern Ireland. [146812]

Jane Kennedy: The Government has instituted a wide range of measures to improve educational outcomes among children, young people and adults in disadvantaged areas. These include the School Support Programme, Group 1 schools, curriculum flexibility for work-related learning at Key Stage 4, and a number of Further Education initiatives.

I have also recently announced the creation of Education Action Zones aimed at tackling the root causes of educational failure within communities. All these initiatives contribute to the overarching policy of Targeting Social Need.

Skills Base

8. **Judy Mallaber:** To ask the Secretary of State for Northern Ireland if he will make a statement on Government action to develop essential skills in Northern Ireland. [146813]

Jane Kennedy: The Essential Skills for Living Strategy and Action Plan was launched in October 2002. Our aim is to support 25,000 adults in Northern Ireland to improve their literacy and numeracy skills by 2005. In the first year 6,500 learners were supported and we are on track to meet our target of supporting a further 8,000 learners by March 2004.

Good Friday Agreement

9. **Mr. McGrady:** To ask the Secretary of State for Northern Ireland when the review of the Good Friday Agreement will commence. [146814]

Mr. Paul Murphy: I refer the hon. Gentleman to the answer I gave earlier to the hon. Member for Orkney and Shetland (Mr. Carmichael).

Older People (Security)

10. **John Robertson:** To ask the Secretary of State for Northern Ireland if he will make a statement on measures to improve the security of older people in Northern Ireland. [146815]

Mr. Spellar: The Government is committed to improving security for older people in Northern Ireland. A community safety strategy for older people will be issued for consultation in February 2004 supplemented by practical action through the Stay safe Stay secure campaign launched October 2003 and work in other agencies including the police.

Devolved Government

11. **John Barrett:** To ask the Secretary of State for Northern Ireland what progress is being made towards the restoration of devolved government in Northern Ireland. [146816]

Mr. Paul Murphy: I refer the hon. Member to the answer I gave earlier to the hon. Member for Orkney and Shetland (Mr. Carmichael).

12. **Mr. Luke:** To ask the Secretary of State for Northern Ireland what progress had been made since the November elections to create a working Northern Ireland Executive. [146817]

Mr. Paul Murphy: I refer my hon. Friend to the answer I gave earlier to the hon. Member for Orkney and Shetland (Mr. Carmichael).

Peace Process

13. **Mr. Bill O'Brien:** To ask the Secretary of State for Northern Ireland if he will make a statement on the progress of the peace process following the elections of the November 2003. [146818]

Mr. Paul Murphy: I refer my hon. Friend to the answer I gave earlier to the hon. Member for Orkney and Shetland (Mr. Carmichael).

Broadband

14. **Mr. Connarty:** To ask the Secretary of State for Northern Ireland what plans he has to increase investment in the broadband infrastructure in Northern Ireland. [146819]

Mr. Pearson: The Department of Enterprise, Trade and Investment is actively pursuing 100 per cent. broadband coverage across Northern Ireland by December 2005 through the award of a major contract for the provision of broadband services.

Tenders are at the final evaluation stage and an announcement on the award of the contract is planned for early this year.

Drug Smuggling

15. **Mr. Tynan:** To ask the Secretary of State for Northern Ireland what recent assessment he has made of the success of measures to interdict the smuggling of drugs into Northern Ireland. [146820]

Jane Kennedy: The PSNI has had unprecedented success this year in preventing the importation of drugs into Northern Ireland. Drugs Squad officers have had their most successful year to date and I congratulate them for their work.

Some of the recent successes include the seizure of some £1 million worth of cocaine in Northern Ireland in October that led directly to the seizure of over £7 million in ecstasy tablets in Amsterdam by Dutch police. £2 million of cannabis was seized in August—the largest ever seizure of the drug in Northern Ireland and in September police officers seized cannabis resin with an estimated street value of £250,000 in Belfast.

This high level of seizures and arrests demonstrates the PSNI's and the Organised Crime Task Force's ongoing commitment and effectiveness in tackling this problem.

TRANSPORT

Airports (Scotland)

Mr. Peter Duncan: To ask the Secretary of State for Transport what recent discussions he has had with the Scottish Executive on the timescale for the construction of rail links to *(a)* Glasgow and *(b)* Edinburgh airports. [147689]

Mr. McNulty: The Department has held extensive discussions with the Scottish Executive on both proposals and has been kept informed of progress on the ongoing feasibility work.

Mr. Peter Duncan: To ask the Secretary of State for Transport what recent representations he has received from environmental groups on the proposed expansion of Scottish airports. [147687]

Mr. McNulty: Environmental groups submitted 8 responses to the consultation document "The Future Development of Air Transport in the UK: Scotland". Since the consultation ended on 30 June 2003, we have received no further representations from such groups on the proposed expansion of Scottish airports.

British Charter Airlines (Kazakhstan)

Mr. Hancock: To ask the Secretary of State for Transport what assessment he has made of the reasons for the banning of British charter airlines from operating in Kazakhstan; what representations he has made on their behalf to the Kazakh Government; and if he will make a statement. [146828]

Mr. McNulty: Until December 2003, two UK registered airlines were operating one charter service per week to Atyrau and Uralsk in Western Kazakhstan on contract to oil and gas companies active in the region.

In early December 2003 that permission was revoked. The Kazakh authorities subsequently explained that they will no longer grant permission for these services because the new Kazakh airline, Air Astana, has now started services from Uralsk and Atyrau to Western Europe.

We are concerned that permission for these flights was terminated without due process and at very short notice, with great inconvenience to passengers and to the financial detriment of UK airlines. We are also concerned that UK airlines are being denied the opportunity to offer a competing service. We will pursue this issue further with the Kazakh authorities.

John Mann: To ask the Secretary of State for Transport what representations he has made to the Kazakhstan Government regarding the prevention of UK charter flights from landing in Uralsk and Atyrau. [147537]

Mr. McNulty: Until December 2003, two UK registered airlines were operating one charter service per week to Atyrau and Uralsk in Western Kazakhstan on contract to oil and gas companies active in the region.

In early December 2003 that permission was revoked. The Kazakh authorities subsequently explained that they will no longer grant permission for these services because the new Kazakh airline, Air Astana, has now started services from Uralsk and Atyrau to Western Europe.

We are concerned that permission for these flights was terminated without due process and at very short notice, with great inconvenience to passengers and to the financial detriment of UK airlines. We are also concerned that UK airlines are being denied the opportunity to offer a competing service. We will pursue this issue further with the Kazakh authorities.

Deep Vein Thrombosis

Mr. John Smith: To ask the Secretary of State for Transport what assessment he has made of the impact of the United States Transport Security Administration Directive issued on 24 December 2003 on the Government's advice to air travellers on how to reduce the risk of deep vein thrombosis during long haul flights. [147723]

Mr. McNulty: The Directive aims to prevent people congregating on board flights to the United States for security reasons. The Directive has no impact on the Government's advice on deep vein thrombosis, which encourages passengers to move their feet around or, if possible, to get up and walk around at intervals.

M60 (Flooding)

Andrew Bennett: To ask the Secretary of State for Transport if he will make a statement on *(a)* the causes of flooding on the M60 between Denton and Hollinwood and *(b)* progress in addressing the causes. [146836]

Mr. Jamieson: Areas of water seepage at a number of locations on the M60 have been identified. These areas have been inspected and testing of the road material has taken place. The Highways Agency are awaiting the results of spray and drainage investigations. These results together will be used to identify remedial works that may be necessary.

In the meantime, warning signs have been placed on part of the Denton-Middleton section of the M60 motorway to alert drivers to the possibility of excess water on the carriageway.

Railway Schemes

Mr. Greg Knight: To ask the Secretary of State for Transport if he will list the railway schemes being evaluated by his Department which involve *(a)* the laying of additional miles of track and *(b)* the re-opening of disused rail routes; and if he will make a statement. [147173]

Dr. Howells: The evaluation of such schemes is a matter for the Strategic Rail Authority, who set out their project portfolio in their Strategic Plan. A copy of the latest edition, published last year, is in the Library of the House.

Road Safety

Miss McIntosh: To ask the Secretary of State for Transport what powers local authorities have to erect 30 mph repeater signs on single carriageway roads with street lights. [147072]

Mr. Jamieson: Local authorities have no powers to erect 30 mph speed limit repeater signs on street lit roads as current legislation strictly prohibits it.

Mr. Djanogly: To ask the Secretary of State for Transport if he will estimate how many deaths there have been because of *(a)* dangerous driving, *(b)* driving under the influence of illegal drugs and *(c)* driving under the influence of alcohol in *(i)* Cambridgeshire and (ii) Huntingdon in each year since 2000. [146440]

Mr. Jamieson: The information is not available.

Rural Bus Services

Mr. Edwards: To ask the Secretary of State for Transport what steps he is taking to prevent over-crowding on scheduled bus services taking pupils to school in rural areas; and if he will end the three for two rule. [146821]

Mr. Jamieson: Before a bus enters into service it is a requirement, under regulation 8 of the Public Service Vehicles (Carrying Capacity) Regulations 1984, that it has to be marked with the number of passengers, both standees and seated that it may safely carry. Both children and adults are considered as the same within these regulations. If these numbers are exceeded the vehicle would be deemed as operating illegally and then it becomes a matter for the enforcement agencies to pursue.

Currently there are no plans to abolish the three for two rule.

Street Works

Mr. Damian Green: To ask the Secretary of State for Transport what his latest estimate is of the cost to business of highway authority street works. [147098]

Mr. Jamieson: The Department does not hold figures of the costs to business of highway authority works. However, it is important to minimise the disruption caused by works in the street, regardless of whether they are carried out by utility companies or by highway authorities, and this is reflected in the range of measures included in the Traffic Management Bill.

Vehicle Excise Duty

Mr. Webb: To ask the Secretary of State for Transport what changes have been made to the enforcement of penalties for failure to display an up-to-date vehicle excise duty disc; and if he will make a statement. [146761]

Mr. Jamieson *[holding answer 12 January 2004]:* There are no changes to the penalties for the offence of failure to display a valid vehicle licence. Failure to display is normally enforced by fixed penalty.

A number of changes are being introduced to strengthen the enforcement of the requirement to license a vehicle (or to make a Statutory Off Road Notification (SORN) if a vehicle is being kept off the road). The registered keeper of a vehicle for which a licence or SORN has not been renewed one month after expiry is now liable for a penalty of £80 (reduced to £40 if paid within 28 days of receiving the penalty notice). To ensure that vehicle keepers have sufficient notice to check that their vehicles are properly licensed, extensive publicity is being given to the changes including information leaflets to all registered keepers during the final month of licence validity. The first penalty notices are likely to be issued in March, in respect of vehicles for which licences have not been renewed from 1 January 2004.

In the most serious cases, vehicle keepers can also be prosecuted for the new offence of being the keeper of an unlicensed vehicle.

Vehicles Inspectorate

Mr. Greg Knight: To ask the Secretary of State for Transport how many vehicles have been stopped for roadside checks by the Vehicles Inspectorate in the last 12 months for which figures are available; and how many *(a)* were found to have vehicle faults and *(b)* were motor cars or other non-commercial vehicles. [147235]

Dr. Howells: The number of vehicles stopped at the roadside by the Vehicle Inspectorate (now the Vehicle and Operator Services Agency) in 2002–03 and the percentage found to have roadworthiness faults are shown in the following tables. Further information and statistical analysis of the agency's work can be found in the Vehicle Inspectorate's Effectiveness Report 2002–03, a copy of which has been placed in the House of Commons Library.

Spot checks carried out by the Vehicle Inspectorate in 2002–2003

Vehicle Category	*Number of vehicles checked*	*Prohibition Rate[1] (%)* *Immediate prohibitions[2]*	*Delayed prohibitions[3]*
HGV Motor Vehicles[4]	64,373	9.2	12.7
HGV Trailers	21,225	9.4	16.6
HGV emissions checks	7,748	0.1	0.7
PSV vehicles[4]	20,287	6.9	8.2
PSV emissions checks	5,447	0.05	0.45

[1] Only one prohibition notice is issued per vehicle although it may contain a list of defects/offences where more than one has been found. The most serious defect/offence determines whether an immediate or delayed prohibition is issued.

[2] Immediate prohibition rate relates to all vehicles (including foreign vehicles).

[3] Delayed prohibition rate excludes checks on foreign vehicles. The Foreign Vehicles Act does not provide for the issue of delayed prohibitions to foreign vehicles.

[4] Excludes emissions only checks, but includes foreign vehicles.

Results of light vehicle roadside roadworthiness checks

Vehicle category	*Number examined*	*Number prohibited*	*Prohibition rate (%)*
Cars	4,942	2,223	45
Taxis and private hire cars	6,478	1,593	24.6
Non-testable vehicles[1]	2,836	1,666	58.7
Light Goods Vehicles	16,498	6,061	36.7

[1] Non-testable vehicles include mobile cranes, diggers and non-HGV trailers

Results of light vehicle spot checks for emissions

WALES

Departmental Advertising

Mr. Wiggin: To ask the Secretary of State for Wales what the total expenditure on *(a)* information campaigns and *(b)* advertising was for his Department in each year since 1997. [145383]

Mr. Hain: My department has run no television, newspaper, radio advertising or any other kind of promotional campaign since its creation in July 1999. It has no agencies or departmental public bodies within its responsibilities. We are not responsible for campaigns that may be run by the National Assembly or other Government Departments in Wales.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for Wales how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143900]

Mr. Touhig: The Give as You Earn scheme is available to Wales Office staff and is regularly drawn to their attention. No staff currently contribute to charity through the scheme.

This does not fully reflect the charitable activities of Wales Office staff.

Security Passes

Mr. Oaten: To ask the Secretary of State for Wales how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [147905]

Mr. Hain: None.

FOREIGN AND COMMONWEALTH AFFAIRS

Guantanamo Bay

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the US Government since the state visit of President Bush in connection with the British detainees at Guantanamo Bay; and if he will make a statement. [146501]

Mr. Mullin *[holding answer 8 January 2004]:* Since the recent visit of President Bush to the UK, the position of the British nationals detained at Guantanamo Bay has continued to be the subject of discussions between the government and the US administration. We hope to resolve the situation soon.

Israel

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his policy to seek to persuade Israel to divest itself of all its weapons of mass destruction. [147402]

Mr. Mike O'Brien: The UK government has consistently urged Israel to clarify its nuclear status by acceding to the Nuclear Non-Proliferation Treaty as a non-nuclear weapons state, and signing a full-scope safeguards agreement with the International Atomic Energy Agency (IAEA). We urge Israel to ratify both the Chemical Weapons Convention and the Biological and Toxin Weapons Convention. The UK has also consistently supported UN Resolutions calling for the establishment of a Middle East zone free of weapons of mass destruction. That zone would include Israel.

Pakistan

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's policy regarding the return of Pakistan to full membership of the Commonwealth Parliamentary Association. [147543]

Mr. Mike O'Brien: The United Kingdom wants to see Pakistan readmitted to the Councils of the Commonwealth, including to the Commonwealth Parliamentary Association.

However, it is the Commonwealth Ministerial Action Group (CMAG) that will make a decision whether to recommend to Commonwealth Heads of Government that Pakistan should be readmitted on the basis of its return to democracy. The UK is not a member of CMAG, but the UK Government believes that the recent agreement between the Pakistani Government and opposition over the country's constitution and role of parliament marks an important step in the country's transition to full democracy. We hope this will facilitate progress on joining the full Councils of the Commonwealth.

Thailand

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the advice given to UK visitors to Thailand. [146481]

Mr. Mike O'Brien: The Foreign and Commonwealth Office does not advise against travel to Thailand. The vast majority of visits to Thailand are trouble-free. But due to a general threat to British and other Western targets from terrorism in South East Asia, including Thailand, the Foreign and Commonwealth Office advises that travellers should be particularly vigilant in public places, including tourist sites. It also advises travellers to watch out for crimes of opportunity and against the possession of even small quantities of drugs. The full Travel Advice for Thailand can be viewed on the Foreign and Commonwealth Office website at www.fco.gov.uk.

EDUCATION AND SKILLS

Education (Hemsworth)

Jon Trickett: To ask the Secretary of State for Education and Skills what estimate he has made of the percentage of the population of Hemsworth constituency who have NVQ levels *(a)* 1, *(b)* 2 and *(c)* 3. [147456]

Alan Johnson: The following table shows analysis of the qualification levels of the working age[1] population in the parliamentary constituency of Hemsworth. This is presented alongside England average data for comparison. Data comes from the Local Labour Force Survey for 2001–02.

[1] Working age population refers to males aged 16–64 and females aged 16–59.

Percentage

Qualification level	*Hemsworth*	*England*
NVQ 4 and above	16.2	23.5
NVQ 3	12.6	14.8
Trade Apprenticeships	9.3	7.0
NVQ 2	15.4	18.1
Below NVQ Level 2	21.3	20.5
No qualifications	25.3	16.0

Higher Education

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what assessment his Department has made of the effect on equality of opportunity for students of competition between higher education institutions on price. [147240]

Alan Johnson *[holding answer 12 January 2004]:* In his statement to the House on student support in higher education on 8 January my right hon. Friend the Secretary of State for Education and Skills announced a package of support the purpose of which is to ensure that no student from a poor background would be worse off as a result of proposals in the Higher Education Bill, whichever university they attend and whatever the fee charged for the course. Higher Education institutions wishing to charge higher fees will have to enter into an access agreement with the Office for Fair Access. These access agreements will set out the measures that institutions will take to ensure that students from disadvantaged backgrounds are not deterred from higher education because of higher fees. My right hon. Friend also said that the Government would establish an independent review, working with the Office for Fair Access, to report to the House on the impact of variable fees, based upon the first three years of their operation.

Helen Jones: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time students are enrolled on courses at higher education institutions in the north-west. [143453]

Alan Johnson: The available information is given in the table.

All higher education enrolments[1, 2] at north-west higher education institutions, 2001–02

Institution region	*Full-time*	*Part-time*	*Total*
North West GOR[3]	104,944	45,037	149,981
Total England[4]	1,003,229	591,138	1,594,367

[1] Snapshot as at 1 December.
[2] Includes students from both home and overseas domiciles and covers enrolments to all levels of higher education course.
[3] Government Office Region.
[4] Including higher education institutions in the north-west and the Open University.
Source:
Higher Education Statistics Agency (HESA).

Student Drop-out Rate

Ms Walley: To ask the Secretary of State for Education and Skills what the most recent figures are for the drop-out rate for English university students is in their *(a)* 1st year of study, *(b)* 2nd year of study, *(c)* 3rd year of study and *(d)* further years of study. [143250]

Alan Johnson: The available information on the non-continuation of students beyond the first year in each university, and the projected course non-completion rate in each university is contained in "Performance Indicators in Higher Education in the UK", published by the Higher Education Funding Council for England, a copy of which is available from the House Library. The latest edition, published in December 2003, gives figures for students starting full-time degree courses in the United Kingdom in 2000/01. Table 3 shows that 9 per cent. of students did not continue beyond the first year, and that the projected non-completion rate over the whole course was 16 per cent.

No data are held covering those students who drop out of their course after two or three years. Nationally, the non-completion rate has remained broadly the same since 1991/92, a period of considerable expansion of student numbers.

Figures published in 2003 by the Organisation for Economic Co-operation and Development (OECD) show that the UK has one of the lowest non-completion rates among OECD countries.

Universities

John Barrett: To ask the Secretary of State for Education and Skills how many people domiciled in *(a)* Scotland, *(b)* the City of Edinburgh local authority area and *(c)* the Edinburgh West parliamentary constituency are attending a (i) English and (ii) Welsh university. [142620]

Alan Johnson: Data for students who enter HE are not collated centrally by constituency. The latest available data are shown in the following table.

Domicile of student by location of institution 2001/02

Domicile	*Location of higher education institution* *England*	*Wales*
Scotland	26,456	672
City of Edinburgh	3,798	90

Source:
Higher Education Statistics Agency (HESA).

Malcolm Bruce: To ask the Secretary of State for Education and Skills how much income the university sector has earned from business in each year since 1997, broken down by university. [143135]

Alan Johnson: Details of the income of higher education institutions by source is published annually by the Higher Education Statistics Agency (HESA) in "Resources of Higher Education Institutions", copies of which are available in the House Library. Table 3 shows separately for each higher education institution income from UK industry, commerce and public corporations, although this does not include income from intellectual property rights which are shown separately in Table 4.

Mr. Donohoe: To ask the Secretary of State for Education and Skills how many people from Cunninghame, South enrolled to study at a university in *(a)* 2001, *(b)* 2002 and *(c)* 2003; and how many failed to complete their course. [141929]

Alan Johnson: Enrolment figures at constituency level are not currently available. However, higher education enrolment figures from the county of North Ayrshire for the most recent three years are given in the table.

HE enrolments from North Ayrshire

Academic year	*Enrolments*
1999/00	3,405
2000/01	3,366
2001/02	3,469

Source:
Higher Education Statistics Agency (HESA).

Non-completion rates are published annually by the Higher Education Funding Council for England (HEFCE) in 'Performance Indicators in Higher Education' and cover home domiciled students starting full-time first degree courses. The latest figure covers students starting courses in 2000/01, shows that non-completion rates in the UK are 16 per cent. HEFCE do not publish non-completion rates by any geographical breakdown.

University Tuition Fees

Bob Spink: To ask the Secretary of State for Education and Skills what his estimate is of annual net income to *(a)* Russell Group and *(b)* other universities from the proposed tuition fees after all costs and concessions are taken into account. [147601]

Alan Johnson: Information on the costs and benefits associated with the proposal in the Higher Education Bill to allow universities to set their own tuition fees is contained in the Regulatory Impact Assessment published on 8 January alongside the Bill. The Regulatory Impact Assessment illustrates the income from additional fees in different scenarios. Because of the nature of a variable scheme, the costs vary greatly according to the decisions that higher education institutions take, and they cannot be estimated precisely at this stage. The Regulatory Impact Assessment does not distinguish between individual universities. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

PRIME MINISTER

Social Behaviour

15. **Mr. Allen:** To ask the Prime Minister what action the Government have taken to improve social behaviour; and if he will make a statement. [147494]

The Prime Minister: We have taken a number of measures to improve social behaviour. These include introducing citizenship education into primary schools in 2000 and making citizenship education a statutory part of the secondary school National Curriculum in September 2002. We have also tackled the problem of anti-social behaviour through our introduction of the Anti-Social Behaviour Act.

Appointments Commission

Mr. Gordon Prentice: To ask the Prime Minister when he last met the Chair of the House of Lords Appointments Commission to discuss its work. [147959]

The Prime Minister: I refer my hon. Friend to the answer I gave him on 16 May 2003, *Official Report*, column 439W.

Mr. Gordon Prentice: To ask the Prime Minister pursuant to his answer of 18 December 2003, *Official Report*, column 1076W, on People's Peers, whether he is now in a position to invite the House of Lords Appointments Commission to recommend names for the second round of People's Peers. [147961]

The Prime Minister: I have nothing further to add to my previous answer.

HOME DEPARTMENT

Asylum/Immigration

Mr. Cousins: To ask the Secretary of State for the Home Department how many children have been taken into care as a result of paragraph 1 of schedule 3 to the Nationality, Immigration and Asylum Act 2002; and whether the Home Department have ever referred the possible placing of a child into care to any local authority social services authority. [142325]

Beverley Hughes: No children have been taken into care as a result of the operation of paragraph 1 of Schedule 3; nor have the Home Office referred the possible placing of a child into care to any local authority Social Services authority in connection with this legislation.

Mr. Dawson: To ask the Secretary of State for the Home Department how many failed asylum seekers with children are facing removal from the United Kingdom. [143802]

Beverley Hughes *[holding answer 15 December 2003]:* The information requested is unavailable, partly because it is not possible to determine the number of unsuccessful asylum seekers who leave the United Kingdom voluntarily without informing the Immigration Service of their departure.

Information on asylum applications, decisions, appeals and removals is published regularly on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Malins: To ask the Secretary of State for the Home Department how many *(a)* asylum cases and *(b)* immigration cases were heard by (i) the Court of Appeal and (ii) the House of Lords in the latest year for which figures are available. [143845]

Beverley Hughes *[holding answer 15 December 2003]:* During the period from 1 October 2002 to 30 September 2003, nine immigration cases were heard by the Court of Appeal (five asylum cases and four non-asylum) and four cases were heard by the House of Lords (three asylum cases and one non-asylum).

Information on these cases can be obtained from the website: http://www.lawreports.co.uk

Annabelle Ewing: To ask the Secretary of State for the Home Department if he will make a statement on his policy concerning the best interests of children of asylum seekers with respect to *(a)* removal centres and *(b)* other circumstances for which he has jurisdiction. [142717]

Beverley Hughes: The best interests of children of asylum seekers will always be a key consideration in all dealings the Immigration and Nationality Directorate has with asylum-seeking families .

With respect to removal centres, rule 11 (3) of the Detention Centre Rules 2001 requires removal centre operators to provide everything reasonably necessary for detained persons' protection, safety and well-being and for the maintenance and care of infants and children.

Children who are accommodated in a removal centre as part of a family group are not separated from their parents or siblings and so are able to receive familial comfort and emotional support. Provision is made to ensure that they are safe; they are able to eat well; they are accommodated in quiet, warm bedrooms; they are occupied during the day; they have access to the fresh air, outside play areas, and are able to undertake physical exercise; they also have access to an excellent healthcare facility.

In the community, local authorities in the UK have duties towards all children in need, including the children of asylum seekers and failed asylum seekers.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many applications were made asking for leave to appeal to the Immigration Appeals Tribunal in each of the last five years for which figures are available; and of these, how many were granted leave. [142581]

Beverley Hughes *[holding answer 8 December 2003]:* Data on the number of appeals received and determined by the Immigration Appeals Tribunal, as well as the outcome from Tribunal hearings, in each of the last five years, are given in the following table. The latter data does not necessarily correspond to the number of applications for leave to appeal in any given year.

Information on how many applications for leave to appeal to the Immigration Appeals Tribunal were granted is not available and could be obtained only at disproportionate cost.

Statistics on appeals to the Immigration Appeals Tribunal are published annually. The latest publication, "Asylum Statistics United Kingdom 2002", is available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Asylum Appeals: Further appeals to the Tribunal, decisions, and the outcome of Tribunal Hearings, excluding dependants, 1994 to 2002[1]

Number of principal appellants

	1998	*1999*	*2000*	*2001*	*2002*[2]
Applications for leave to appeal to the Tribunal[3]					
Applications	10,910	8,635	6,020	15,540	25,600
Decisions	[4]10,315	9,575	5,490	13,540	22,825
Appeals to the Tribunal3					
Received	[4]1,775	2,135	1,615	3,860	6,920
Determined	1,090	1,790	2,635	3,190	5,565
Outcome of Tribunal Hearings3

Withdrawn	—	—	220	150	225
Remitted to adjudicators for further consideration	—	—	215	1,430	2,700

[1] Figures rounded to the nearest five. Numbers might not add up due to rounding.
[2] Provisional figures.
[3] Figures based on data supplied by the Lord Chancellor's Department. Decisions and determinations do not necessarily correspond to applications and appeals received in any given year.
[4] Revised figures.

Mr. Gerrard: To ask the Secretary of State for the Home Department how many applications were made by his Department asking for leave to appeal to the Immigration Appeals Tribunal in each of the last five years for which figures are available; and, of these, how many were granted leave. [142583]

Beverley Hughes *[holding answer 8 December 2003]:* The information requested is not available because data on the number of applications for leave to appeal to the Immigration Appeals Tribunal are not separately compiled in relation to whom the appeal is sought by and could be obtained only at disproportionate cost.

The latest available data on total applications for leave to appeal to the Tribunal and the outcomes from hearings at the Tribunal in each of the last five years are given in the following table. The table shows the total number of applications and decisions for leave to appeal

to the Tribunal, the number of appeals received and determined and the outcomes of Tribunal hearings broken down by appellant and Secretary of State. Decisions and determinations do not necessarily correspond to applications and appeals in any given year.

Statistics on appeals to the Immigration Appeals Tribunal are published annually. The latest publication, "Asylum Statistics United Kingdom 2002", is available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

2002[2]	410	1,880	210	215	130	15

[1] Figures supplied by the Presenting Officers Unit. Figures for October–December 1999 are based on data for November-December.
[2] Provisional figures.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the number of families likely to be affected by Clause 7 of the Asylum and Immigration (Treatment of Claimants, etc.) Bill. [143406]

Beverley Hughes: Clause 7 will only affect failed asylum seekers and their families who refuse to take advantage of voluntary return arrangements, or to put themselves in a position to do so, without good cause. The precise number who have support stopped will depend upon the decisions made by individual families.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department for what reason he has not yet replied to the letter sent to him dated 18 September 2003 by the right hon. Member for Manchester, Gorton, with regard to Mr. Sattler. [140781]

Mr. Blunkett: I replied to the right hon. Member on 8 January 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to K.Akhtar. [144643]

Mr. Blunkett: I replied to the right hon. Member on 12 January 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 30 October from the right hon. Member for Manchester, Gorton with regard to Mrs.J.Ferns. [144644]

Mr. Blunkett: I responded to the right hon. Member on 16 December 2003.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to Jamie Sanderson. [144646]

Mr. Blunkett: I responded to the right hon. Member on 31 December 2003.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him dated 6 November from the right hon. Member for Manchester, Gorton with regard to Kwok Hung Lam. [145962]

Mr. Blunkett: I responded to the right hon. Member on 23 December 2003.

Drug Misuse

Mr. George Osborne: To ask the Secretary of State for the Home Department what estimate he has made of the proportion of those convicted of drug misuse offences who had previously been in local authority care in each of the last five years. [147335]

Caroline Flint: No figures are available on the proportion of those convicted of drug misuse offences that have previously been in local authority care.

Firearm Offences

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures are in place to reduce the number of firearm offences. [146268]

Caroline Flint: Our developing programme to tackle gun crime includes:

tackling the links to drug supply and crime;

reducing the supply and availability of firearms;

effective police operations to drive down firearm offences;

tough laws and effective enforcement; and

engaging the worst affected communities to address the underlying gun culture.

We are working closely with the police and other agencies to ensure that the lessons learned from their experience in tackling gun crime are built upon. A detailed action plan to keep action to tackle gun crime at the forefront of the police agenda has been developed and is being implemented.

In addition, the National Firearms Forensic Intelligence Database, launched on 25 November 2003, will provide a central database of seized weapons and help trace guns used in crimes and improve detection.

We are also engaging with communities to help steer young people away from gun crime and gun culture. We are:

providing support for the Disarm Trust, which is providing direct support for community groups working to reduce gun crime, supporting victims of gun crime and providing help for witnesses;

allocating £1.2 million of recovered assets receipts to help tackle gun crime; and

running a major event on 19 to 20 January 2004, which will bring together community representatives, activists, voluntary groups and young people, leading to a sustained community-focused campaign against gun crime and gun culture.

This action will be supported by the provisions of the Criminal Justice Act 2003, which will see a mandatory minimum sentence of five years imprisonment for possession or distribution of prohibited weapons or ammunition, and by the Anti-Social Behaviour Act 2003, which will raise the age limit to 17 for owning air weapons, ban the possession of air weapons and imitations in public without lawful authority or reasonable excuse, and ban the possession, sale and import of self contained air cartridge weapons.

Immigration Appeals

Mr. Oaten: To ask the Secretary of State for the Home Department how many cases were heard by Immigration Appellate Authority adjudicators in the last 12 months; and in how many cases an appeal was taken to the Immigration Appeals Tribunal. [143269]

Beverley Hughes: The number of cases heard by Immigration Appellate Authority adjudicators, for the latest 12-month period for which data are available, are given in the following table. Information on the number of those cases that were taken to the Immigration Appeals Tribunal following successful applications for leave to appeal to the Tribunal are not available and could be obtained only at disproportionate cost by examination of individual case files.

Statistics on the number of asylum appeals heard by the Immigration Appellate Authority are published quarterly. The most recent publication covering the third quarter of 2003 is now available from the Library of the House or on the Home Office Research Development and Statistics Directorate website athttp://www.homeoffice.gov.uk/rds/immigration1.html.

[3] Data are based on manual counts of data received in Appeals Support Section (ASS) of the Home Office. Some cases are received elsewhere in the Home Office before being forwarded to ASS and so may be counted in a later month than when they arrived in the Home Office.
[4] Estimate. Figures rounded to the nearest hundred, and subject to later revision.
[5] Based on information supplied by the Lord Chancellor's Department. Determinations do not necessarily relate to appeals received in the same period.

Merseyside Crime Initiative Unit

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the findings were of the Diversity Monitoring Project established in October 2001 to examine Merseyside Crown Prosecution Service files for racial bias in decision-making. [146245]

The Solicitor-General: I have been asked to reply.

The question has been transferred to me for reply as the Law Officers have responsibility for the Crown Prosecution Service (CPS).

The findings of the Diversity Monitoring Project, an independent study into racial or gender bias in the decision making processes of the CPS, were published in the executive summary report 'Race for Justice' on 21 October 2003. The full report will be available by the end of March 2004.

12,913 CPS files were examined to establish if race or gender bias or discrimination occurred in the prosecution process. Merseyside was one of 10 CPS areas whose files were examined by the researchers. The files were taken randomly from a wide geographical spread of areas to ensure a representative sample. The report sets out the aggregated findings from the 10 area sample and does not set out findings for individual areas.

The report outlines nine recommendations, applicable to the whole organisation, which have been accepted by CPS and which they have developed an action plan to implement.

Prison Service

Dr. Vis: To ask the Secretary of State for the Home Department what plans the Prison Service has to introduce a public interest immunity policy. [145090]

Paul Goggins: There are no plans to introduce a policy specific to the Prison Service. Public interest immunity is a rule of evidence and its application is no different for Prison Service business than for any other business of Government.

The Secretary of State will continue to seek public interest immunity where he considers that material which is relevant in civil or criminal proceedings should not be disclosed because the harm to the public interest that would arise from its disclosure outweighs the harm to the interests of justice that might arise from not disclosing it in those proceedings. It is always for the court to decide whether the Secretary of State's claim to public interest immunity should be upheld.

Wetherby Young Offenders Institution

Miss McIntosh: To ask the Secretary of State for the Home Department (1) what the cost per prisoner place at Her Majesty's Young Offenders Institution Wetherby was in *(a)* 1998–99 and *(b)* 2002–03; [145649]

(2) what the actual cost per prisoner at Her Majesty's Young Offenders Institution Wetherby was in *(a)* 1998–99 and *(b)* 2002–03. [145650]

Paul Goggins: The cost per prison place and cost per prisoner at Her Majesty's Young Offenders Institution Wetherby for the years 1998–99 and 2002–03 are given in the table.

	Cost per prisoner place	*Cost per prisoner*
1998–99	£18,745	£20,827
2002–03	28,226	29,661

Note:
The figures for 1998–99 are expressed in cash terms, while those for 2002–03 are expressed in resource terms. As such, they are not directly comparable given the change in the accounting basis, but an alternative figure for 2002–03 that is broadly comparable with the 1998–99 figures would be £26,705 for the cost per prisoner place and £28,029 for the cost per prisoner.

DEFENCE

Atlantic Crusader

Mr. Carmichael: To ask the Secretary of State for Defence whether his Department have chartered the Atlantic Crusader ship. [147411]

Mr. Ingram: The Atlantic Crusader is currently chartered to the Ministry of Defence and is conducting a Falkland Island re-supply voyage.

Biological and Toxin Weapons Convention

Lynne Jones: To ask the Secretary of State for Defence if he will list the pathogens that the United Kingdom will not export as a signatory of the Biological and Toxin Weapons Convention. [146965]

Nigel Griffiths: I have been asked to reply.

A list of the pathogens controlled for export from the UK is contained in Council Regulation (EC) No 1334/2000, as amended (available from: http://www.dti.gov.uk/export.control/pdfs/1159_annex1.pdf). There is no embargo on the export of pathogens from the UK. All licence applications to export these pathogens from the UK to destinations outside the EU are considered on a case-by-case basis against the consolidated EU and national arms export licensing criteria.

Civil Contingency Reaction Force

Mr. Keetch: To ask the Secretary of State for Defence what impact the reduction in training days will have on the readiness of the Civil Contingency Reaction Force; and if he will make a statement. [146849]

Mr. Ingram: I refer the hon. Member to the Written Ministerial statement I gave on 12 January 2004, *Official Report*, column 18WS. The reduction in training days will not affect readiness of the 14 Civil Contingency Reaction Forces.

Demobilised Reservists

Mr. Swayne: To ask the Secretary of State for Defence what support is available to recently demobilised reservists who suffer stress related illnesses related to the difficulty of readjusting to civilian life.[R] [147037]

Mr. Caplin: The MOD and Department of Health officials are working together to maximise the delivery of mental health services to all Veterans. Those reservists who deployed to Iraq during OP TELIC can be seen at the Gulf Veterans' Medical Assessment Programme (GVMAP) on referral by their doctor. Where appropriate, the Programme will refer them to a country-wide network of specialist psychiatrists and psychologists for expert assessment and diagnosis. The GVMAP pays for this, including the patient's travel costs.

In addition, at the end of each deployment all personnel, including reservists, undergo a period of "normalisation" as a measure to minimise the possibility of stress related disorders. They also receive a presentation about post traumatic stress reactions and are given information leaflets, covering post traumatic stress reactions and the problems which may be encountered on returning home. Reservists will also be provided with details of service related charities such as Combat Stress, SSAFA and the RBL.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Defence (1) what plans he has to establish procedures for assessing the impact of possible relocation of staff in his Department to the regions; and if he will make a statement; [146930]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146885]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146899]

(4) what assessment his Department has made of the benefits of re-location of staff to North Staffordshire; and if he will make a statement. [146869]

Mr. Caplin: I refer my hon. Friend to the answer given on 12 January 2004, *Official Report*, column 516W, by my right hon. Friend the Chief Secretary to the Treasury.

Eurofighter Typhoon

Mr. Keetch: To ask the Secretary of State for Defence what studies have been conducted to ascertain the change in unit cost of Eurofighter Typhoon should the third tranche of the original order not be purchased; what savings could be expected from the cancellation of the third tranche; and if he will make a statement. [146851]

Mr. Ingram: I refer the hon. Member to the answer I gave him on 13 May 2003, *Official Report*, column 154W; the situation remains the same.

Iraq

Glenda Jackson: To ask the Secretary of State for Defence what percentage of British troops are engaged in security duties for American commercial and business interests in Iraq. [146573]

Mr. Ingram: None.

Adam Price: To ask the Secretary of State for Defence whether the anti-malarial treatment mefloquine hydrochloride has been issued to UK forces serving in Iraq. [148291]

Mr. Caplin: The anti-malarial treatment mefloquine hydrochloride was not issued to United Kingdom forces serving in Iraq. The stated malarial prophylaxis for Iraq is Chloroquine/Paludrine.

Mrs. Liddell: To ask the Secretary of State for Defence if he will make a statement on the roulement of UK forces in Iraq. [143735]

Mr. Ingram: I refer my right hon. Friend to the answer I gave on 18 November 2003, *Official Report*, column 755W, to the hon. Member for Truro and St. Austell (Matthew Taylor).

Medical Supplies Agency

Bob Russell: To ask the Secretary of State for Defence what procedures are in place to ensure that suitably

qualified personnel are used by military units in the ordering, delivery, storage and use of materials, equipment, drugs and other medical items; and if he will make a statement. [145350]

Mr. Caplin: Training is provided prior to taking up post and through continuous personal development to ensure that all personnel employed by the Ministry of Defence in medical supply and storage are suitably qualified. Medical personnel who control the use of medical materiel and equipment are also appropriately trained.

MOD Police Pensions

Mr. Peter Duncan: To ask the Secretary of State for Defence how many persons in receipt of a pension for the MOD police were previously employed in the armed forces without any break in employment service. [147684]

Mr. Caplin: The information requested is not held centrally and could be provided only at disproportionate cost.

Scottish Regiments

Mr. Peter Duncan: To ask the Secretary of State for Defence if he will make a statement on the future of the *(a)* Black Watch, *(b)* King's Own Scottish Borderers and *(c)* Royal Scots regiments. [147680]

Mr. Ingram: There are currently no plans regarding the future of any of these Regiments. The Defence White Paper published last month provides the policy context for shaping the structure of our armed forces. Subsequently, the details of individual systems and units within that structure will need to be developed, but presently no decisions have been taken.

Service Children's Education

Mr. Swayne: To ask the Secretary of State for Defence what discussions have taken place between his Department, the Department for Education and Skills and the Treasury regarding the funding of local education authority schools which have a significant number of pupils from service families. [147137]

Mr. Caplin: Funding of local education authority schools is a matter for the Department for Education and Skills and the relevant departments in the devolved Administrations. We have frequent contact with the Department for Education and Skills to discuss the issues faced by schools with children from the Service population and ensure that the provision meets their educational requirements.

Mr. Swayne: To ask the Secretary of State for Defence what recent estimate he has made of the number of children from service families being educated in local education authority-maintained schools. [147142]

Mr. Caplin: We do not hold statistics on the type of school attended by dependent children from service families. However, we estimate that there are between 80,000 and 100,000 attending state schools in the UK.

Service Pensions

Mr. Gerald Howarth: To ask the Secretary of State for Defence by what date he expects work on illustrative models for the proposed armed forces pensions early departure scheme to be completed; and when he will publish the models. [147131]

Mr. Caplin: Work on the detailed design of the new Early Departure Payment (EDP) payments model is now close to being finalised. I will provide further information on our plans shortly.

Type-45 Destroyers

Mr. Keetch: To ask the Secretary of State for Defence what the in-service dates are for each of the Type 45 Destroyers. [146852]

Mr. Ingram: Six Type 45 Destroyers are currently on order. The currently approved in service date for the First of Class, HMS Daring, is November 2007, although this date is currently under review. The remaining ships are planned to enter service at intervals up to the end of 2011.

CABINET OFFICE

Departmental Relocation

Ms Walley: To ask the Minister for the Cabinet Office what assessment he has made of the effect of proposals to relocate Government jobs on his Office's ability to meet its policy objectives. [146874]

Mr. Alexander: I refer my hon. Friend to the answer that the Chief Secretary to the Treasury gave her on 12 January 2004, *Official Report*, column 516W.

Ms Walley: To ask the Minister for the Cabinet Office how many staff in his Office work in *(a)* the West Midlands and *(b)* North Staffordshire. [146913]

Mr. Alexander: As at 2 January 2004, there were 20 staff working in the West Midlands and no staff working (full-time equivalents) in the North Staffordshire area.

Duchy of Lancaster

Mr. Evans: To ask the Minister for the Cabinet Office what the total value is of Duchy grants that have been disbursed to the north west in the last year. [147780]

Mr. Alexander: I am not a Trustee of the Duchy of Lancaster Benevolent Fund. However, the Secretary of the Fund has provided the following information :

> Grants made from the Duchy of Lancaster Benevolent Fund during the financial year ending 31 March 2003 amounted to £231,277.

Government Information and Communication Service

Norman Baker: To ask the Minister for the Cabinet Office pursuant to his answer of 6 January 2004, *Official Report*, column 221W, on Government Information and Communication Service, if he will break down the total sum quoted by budget head; and what the figures were for each year from 1996. [147398]

Mr. Alexander: Financial allocations to the GICS centre in 2003–04 consist of:

	£000
Head of Profession (including secretariat)	262
Development centre (recruitment and career & professional development for members)	808
Operations Unit (cross-cutting emergency communications)	1,388
Total	2,458

Allocations to the GICS and its predecessors (the Information Officer Management Unit and the Government Information Service) were:

	Total (£000)
1996–97	607
1997–98	575
1998–99	680
1999–2000	815
2000–01	962
2001–02	1,888
2002–03	4,079
2003–04	2,458

The role and responsibilities of the GICS in the Cabinet Office have evolved and developed since 1996.

The GICS covered Emergency Communications Co-ordination from 2001–02 and HM Queen's Jubilee Media facilities in 2002–03.

The GICS also funded a full-time Head of Profession from 1998 to December 2003.

The Media Monitoring Unit also became part of GICS centre finances in April 1999 and the Government News Network in April 2002. Both charge other Government Departments for their services and so require no budget allocation.

CONSTITUTIONAL AFFAIRS

Antisocial Behaviour Orders

Chris Ruane: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many hours, and what budgets were allocated, for *(a)* training of magistrates and *(b)* training of magistrates clerks on antisocial behaviour orders in each magistrate authority, listed in descending order according to average amount spent on training for magistrates clerks since the introduction of antisocial behaviour orders. [144832]

Mr. Leslie: The specific information requested is not collected or held centrally and could be researched and provided in the format requested only at disproportionate cost. Statutory responsibility for the training of magistrates currently rests with the 42 independent Magistrates Courts Committees (MCCs).

For magistrates, MCCs generally incorporated Anti-Social Behaviour Order (ASBO) training into Bench meetings, new magistrate training days and other meetings or training events. The JSB produced training materials on ASBOs from within existing budgets, and the majority of MCCs report having used these along with their own written guidance notes, which they issued to all magistrates.

Training for magistrates clerks was similarly delivered by most MCCs through regular meetings. Where MCCs provided information about time spent on ASBO issues, between one-and-a-half to two hours had been allocated at meetings, not including preparation and private study by individual clerks and legal advisers.

Boundary Changes

Mr. Peter Duncan: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Government plan to implement the boundary changes recommended by the Boundary Commission when it reports its findings. [147691]

Mr. Raynsford: I have been asked to reply.

The Boundary Commission for England is required to submit its final report by 12 April 2007 and the Boundary Commission for Wales, by 16 December 2006. It is a matter for the Commissions when, within that timescale, they do so. The Office of the Deputy Prime Minister is required by the Parliamentary Constituencies Act 1986 to lay the reports before Parliament, together with draft Orders in Council giving them effect, with or without modifications, as soon as may be thereafter.

Justice System (Costs)

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps the Government are taking to cut *(a)* costs and *(b)* waste in the justice system. [146676]

Mr. Leslie: The question covers a wide range of initiatives being undertaken by Government Departments and agencies involved in the justice system and could be answered fully only at disproportionate cost.

In this Department the principal measures to improve both the efficiency and effectiveness of the justice system include: the creation of the unified courts administration in April 2005, combining the present Court Service with the magistrates' courts; the Tribunal for Users Programme that will create a single new agency responsible for the majority of tribunal; and savings of £210 million in legal aid to be made over the three years to March 2006 from very high cost criminal cases and asylum, civil and criminal legal aid generally.

Magistrates Courts

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what effect combining magistrates courts with criminal jurisdictions and magistrates courts with civil and family jurisdictions has had, particularly with reference to shared waiting room facilities. [147665]

Mr. Leslie: When magistrates courts combine courts with criminal jurisdictions with courts with civil and family jurisdictions, they will routinely offer separate

waiting facilities where practicable. However, there may be local and unavoidable circumstances when those waiting for criminal and civil and family hearings are required to share facilities.

CULTURE, MEDIA AND SPORT

Departmental Policies

Ms Buck: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the impact of her Department's policies on the constituency of Regent's Park and Kensington, North since 1997. [145419]

Mr. Caborn: The Department for Culture, Media and Sport seeks to improve the quality of life for everyone through improved access to the best in cultural and sporting activities. The Department also champions the tourism, creative and leisure industries. The Department's policies have had a significant impact on the constituency of Regent's Park and Kensington, North since 1 May 1997. For example, Arts Council England funds a diverse range of arts organisations and projects in the constituency. In 2005–06, regularly funded arts organisations in Regent's Park and Kensington North will receive a total of £813,278—an increase of 12 per cent. from 2003–04. These include:

The Union Dance Company and Trust, which will receive an Arts Council award of £250,065 in 2005–06—an increase of 22.1 per cent. from 2003–04;

The London Print Studio (LPS), which will receive an Arts Council award of £181,800 in 2005–06—an increase of 5.1 per cent. since 2003–04;

Paddington Arts, which will receive an Arts Council award of £50,000 in 2005–06—an increase of 5.9 per cent. since 2003–05.

The Regent's Park, one of the eight Royal Parks, lies within this constituency. The park provides a wide range of amenities, including sports pitches for cricket, hockey, softball, football and rounders, tennis courts, golf practice facilities, boating and a running track. The Royal Parks Agency, an executive agency of DCMS, has obtained grants of £780,000 from the Football Foundation and £500,000 from Sport England to reinstate the sports pitches and to build a new pavilion. Work is underway on reinstating the pitches and is expected to be completed by October 2004. This funding also provides for a Sports Development Officer to work with local authorities to involve children from deprived backgrounds from all over London in sporting activities.

The Royal Parks Agency also provides free entertainment every summer between June and September in The Regent's Park. This includes brass bands, music from the Caribbean and North Africa, opera, open air art and photography exhibitions.

In addition to Government spending, the constituency of Regent's Park and Kensington, North has received 398 National Lottery awards since 1 May 1997, with a total value of £39.865 million. The awards include:

A Sport England award of £8,778,720 to the North Kensington Amenity Trust for the extension of facilities at Westway Sports Centre (November 1999);

A Sport England award of £1,536,069 to the Royal Borough of Kensington and Chelsea for a new sports hall and the upgrading of changing and ancillary facilities (May 2000).

The residents of Regent's Park and Kensington, North also have ready access to a wealth of national cultural institutions in London, including the English National Opera, the National Gallery and the British Museum.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Culture, Media and Sport (1) what assessment her Department has made of the benefits of re-location of staff to north Staffordshire; and if she will make a statement; [146872]

(2) what assessment she has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146888]

(3) what assessment her Department has made of the effect of possible relocation of staff in her Department to north Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if she will make a statement; [146903]

(4) what plans she has to establish procedures for assessing the impact of possible relocation of staff in her Department to the regions; and if she will make a statement. [146933]

Mr. Caborn: I refer my hon. Friend to the answer given by my right hon. Friend the Chief Secretary to the Treasury on 12 January 2004, *Official Report*, column 516W.

Euro

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport in how many speeches during 2003 she declared support for the Government's policy on the euro. [147292]

Mr. Caborn: I refer my hon. Friend to the answer given by my hon. Friend the Financial Secretary to the Treasury on 12 January 2004, *Official Report*, column 516–17W.

Historic Wrecks

Mr. Steen: To ask the Secretary of State for Culture, Media and Sport (1) what proportion of those on the Advisory Committee for Historic Wreck Sites are *(a)* vocational divers and *(b)* archaeologists; [145776]

(2) who the members of the Advisory Committee for Historic Wreck Sites are; and what practical experience each member has in diving for historic wrecks. [145818]

Mr. Caborn: The Advisory Committee on Historic Wreck Sites includes members and observers drawn from a wide constituency of interests related to historic shipwrecks.

Jonathan Adams a diver and archaeologist has been carrying out archaeological investigations on historic wrecks since 1979, including the Mary Rose, the Grace Dieu and the Amsterdam.

Dr. Lucy Blue an archaeologist and diver has been working on submerged sites for 15 years.

Stuart Bryan is the Sub-Aqua Association's Nautical Archaeology Co-ordinator, and has widespread experience of vocationally diving on submerged archaeological sites.

Dr. Alexzandra Hildred a diver and archaeologist has been carrying out archaeological investigations on historic wrecks since 1979, including the Mary Rose.

Jonathan Parlour is a vocational diving member of a licensed team carrying out archaeological surveys of the Coronation sites off Plymouth, which are both designated under the Protection of Wrecks Act 1973.

Dr. Mark Redknap is an archaeologist and the diving curator of the National Museum of Wales, and has extensive experience of diving on historic wrecks including leading a team of volunteers to carry out excavations on the Cattewater wreck. He also led an expedition to the Smalls Reef, and has dived on the Mary Rose and Stirling Castle wrecks.

Robin Daniels is an archaeologist and is the non-diving licensee of a designated wreck site. As this is in the intertidal zone, diving is not necessary.

Margaret Deacon is a non-diving representative of the oceanographic research community.

Patrick Griggs is a non-diving marine law specialist.

Wendy Robinson is a non-diving expert in the first-aid conservation of finds from the marine environment.

The Department intends to appoint an additional recreational diving representative on the Committee in early 2004.

Microsoft (Licensing Fees)

Norman Lamb: To ask the Secretary of State for Culture, Media and Sport whether a decision has been taken as to whether her Department intends to continue paying Microsoft for licensing fees in future years; and if she will make a statement. [147550]

Mr. Caborn: No decision has been taken yet on Microsoft licensing.

Norman Lamb: To ask the Secretary of State for Culture, Media and Sport why the amount paid by her Department to Microsoft in licensing fees rose from £9,500 in 2001–02 to £234,000 in 2002–03. [147551]

Mr. Caborn: The license fee increased because the Department moved to MS Office, implemented Microsoft's Content Management Server software as part of the redevelopment of the Department's website and took out upgrade protection on Microsoft products under the OGC agreement with the aim of reducing any costs that might accrue from Microsoft's new charging arrangements commonly known as Licensing 6.0.

Procurement (Outsourcing)

Norman Lamb: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her Department's procurement policy with regard to offshore IT and call centre outsourcing; whether her Department is outsourcing IT and call centre jobs to offshore companies; to which countries her Department has outsourced these jobs; how much her Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147581]

Mr. Caborn: The Department for Culture, Media and Sport follows central guidance from OGC on procurement policy. No IT jobs are outsourced to offshore companies and this Department does not operate any call centres. The Department spent £1.2 million on outsourcing in 2001–02, £1.3 million in 2002–03 and the budget for the next two years is in line with previous years.

Scottish Television

Mr. Gregory Campbell: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to help introduce more viewing of Scottish television in Northern Ireland. [147043]

Estelle Morris: The BBC Scotland television service and ITV Scottish, Grampian and Border services are already available to those consumers in Northern Ireland with digital satellite receiving equipment. The extension of Scottish region television services to other areas in the UK is not possible on terrestrial television because of technical and licensing constraints.

Tourism

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the merger between the British Tourism Authority and the English Tourist Council. [147249]

Mr. Caborn: On 31 October 2002, my right hon. Friend the Secretary of State announced a radical reform of tourism support in Britain aimed at building stronger, more effective and more coherent arrangements through the creation of a single lead body focusing on marketing. Functions of the British Tourist Authority and the English Tourism Council were merged on 1 April 2003 to form VisitBritain, and my right hon. Friend the Secretary of State appointed Sir Michael Lickiss as Chairman.

VisitBritain restructured its overseas operations during 2003. In addition to promoting Britain overseas as a tourist destination, VisitBritain is taking forward its new role as lead body for the domestic marketing of England. The England Marketing Advisory Board (EMAB), chaired by Hugh Taylor, was established on 1 April 2003 to advise the Board of VisitBritain on domestic marketing, and its domestic marketing strategy was published in November 2003. With EMAB's support, VisitBritain has launched a series of domestic 'Enjoy England' campaigns.

The merger enables VisitBritain to use in the domestic market its expertise in marketing Britain internationally, developing more effective partnerships with private investors to support tourism across Britain and building on the success of the Million Visitor Campaign. It brings economies in terms of overheads and central services and it creates opportunities for private industry and the regions to take a stronger leadership role in setting the marketing agenda.

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport how the tourism satellite accounts will be of assistance to the tourism industry. [147254]

Mr. Caborn: Tourism satellite accounts will deliver both improved and more extensive information on the economic value of the tourism sector. Tourism satellite accounts will facilitate the production of much improved estimates of quantities such as value added and employment in the tourism industry, and its linkages with the wider economy.

The tourism industry will benefit directly from this enhanced source of information to assist their business planning and decision-making, and indirectly from decisions taken by public bodies that are informed by this new substantial information source.

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport which bodies will be consulted on the implementation of the tourism satellite accounts. [147255]

Mr. Caborn: The management group of the UK Tourism Satellite Account First Steps Project are currently considering a draft consultation plan.

This proposes a list of consultees which includes the Office for National Statistics as well as the following groups of organisations: devolved administrations, international organisations, regional development agencies, tourist boards, and the tourism industry through trade associations.

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport (1) what the estimated cost of implementing the tourism satellite accounts is; [147256]

(2) when she expects the tourism satellite accounts to be completed; and if she will make a statement. [147257]

Mr. Caborn: The cost of the UK Tourism Satellite Account First Steps project, which has just begun, will be £75,000.

As well as providing provisional figures for the main parts of a tourism satellite account, the project will deliver a report describing further work and data collection that would be required to subsequently develop a full tourism satellite account. This will also give an estimate of the costs that this would incur and the expected time-scale. This phase of the work will be completed by early autumn 2004.

MINISTER FOR WOMEN

Prisons

Mrs. Spelman: To ask the Minister for Women what efforts are being made to prevent suicides among the female prison population. [147104]

Ms Hewitt: Reducing the number of self-inflicted deaths and instances of self-harm in prison establishments is a ministerial and Prison Service priority. A proactive three-year programme to develop policies and practices to reduce prisoner suicide and manage self-harm in prisons commenced in April 2001. The main principles of the strategy apply across all types of prisons and prisoners whether male or female. An investment of over £21 million through the three-year programme is allowing physical improvements (now 75 per cent. complete) to be made at six 'Safer Local' pilot sites, one of which is the women's prison and YOI Eastwood Park.

The learning resulting from this programme will benefit all prisoners; meanwhile, women prisoners are to benefit from a specifically targeted and separate suicide prevention and self-harm management strategy being developed for them. This builds upon a number of interventions including: internal improvements in handling population pressures; individual crisis counselling for women prisoners who self-harm; the continued development and evaluation of Dialectical Behaviour Therapy, which is currently being trialled at Durham, Bullwood Hall and Holloway prisons; investment and planning to ensure progress on the detoxification strategy in the Women's Estate; the development (in collaboration with the University of Newcastle) of a new, three-stage screening process to more effectively detect mental health problems; and the introduction of a new training pack for all staff working with women in custody, which includes a module on the health and well being of women prisoners. £1 million from the Department of Health has been allocated to the Women's Estate to be spent on the recruitment of psychiatric nurses, and 11 out of the 17 prisons for women now have mental health in-reach facilities.

Brockhill, Eastwood Park, Holloway, New Hall and Styal prisons were among the first establishments to have full-time, dedicated Suicide Prevention Coordinators (SPCs); and now all women's prisons have a designated full or part-time SPC. All women's establishments also deliver suicide awareness training to staff and it is an inherent part of all employees' jobs to observe and report behaviour that may indicate a tendency to self-harm.

DEPUTY PRIME MINISTER

Brighton and Hove Albion

Norman Baker: To ask the Deputy Prime Minister pursuant to his answer of 8 December, *Official Report*, column 342W, on Brighton and Hove Albion, if he will list the hon. Members with whom *(a)* he and *(b)* other ministers have discussed this issue. [143943]

Yvette Cooper: Neither the Deputy Prime Minister, nor any other Minister in the Office of the Deputy Prime Minister, has discussed the proposals for a football stadium at Palmer, East Sussex with other hon. Members.

Departmental Relocation

Ms Walley: To ask the Deputy Prime Minister how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146912]

Yvette Cooper: The number of permanent and casual staff employed by the Office of the Deputy Prime Minister in *(a)* West Midlands is 140 and *(b)* Staffordshire as a whole is 41

Joan Walley: To ask the Deputy Prime Minister (1) what plans he has to establish procedures for assessing the impact of possible re-location of staff in his Department to the regions; and if he will make a statement; [146927]

(2) what assessment his Department have made of the effect of possible relocation of staff in his Department to north Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146896]

(3) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146883]

(4) what assessment his Department have made of the benefits of re-location of staff to north Staffordshire; and if he will make a statement. [146867]

Yvette Cooper: I refer my hon. Friend to the answer given by my right hon. Friend the Member for Brent, South (Mr. Boateng) on 12 January 2004.

Education Funding

Mr. Hoban: To ask the Deputy Prime Minister what discussions he has had with the Cabinet Office's strategy and delivery units on changes in the way money is allocated to schools and the impact this would have on the system of local government financial support. [147149]

Mr. Raynsford: I refer the hon. Member to the answer given by my hon. Friend the Member for Paisley, South (Mr. Alexander) on 12 January 2004, *Official Report*, column 554W.

Fire Service (Radio System)

Mr. Caton: To ask the Deputy Prime Minister how the Government will ensure that usable spectrum is available to bidders competing to provide a service wide radio replacement scheme for the fire service. [147807]

Mr. Raynsford: In their response to the Invitation to Submit Proposals documentation suppliers have indicated that spectrum is available which is sufficient to meet the needs of their proposed solutions.

Mr. Caton: To ask the Deputy Prime Minister if he will make a statement on the national competition for a service-wide radio replacement scheme for the fire service. [147808]

Mr. Raynsford: The competition for a national radio system for the Fire and Rescue Services is progressing to plan, with competition scheduled for December 2007.

Housing

Mr. Hayes: To ask the Deputy Prime Minister what arrangements the Government have put in place to ensure that the special needs of disabled people are provided for within its affordable housing policy. [144096]

Yvette Cooper: All new build affordable housing schemes funded by the Government through the Housing Corporation must meet the requirements of 'Part M' of the building regulations, which the Government revised in 1999 to improve the accessibility and convenience of new housing. The revised regulations include requirements to ensure that entrances, lifts, corridors, doorways and WCs are accessible, including to wheelchair users. In addition, all newly built affordable housing schemes funded through the Housing Corporation must comply with the Corporation's scheme development standards, which adopt criteria for accessibility and internal environments that help to make homes even more adaptable to long-term needs.

The Government also provides resources for adaptations to existing homes to meet the needs of people with physical disabilities. Local housing authorities have a statutory duty to offer means tested Disabled Facilities Grants (DFGs) to eligible applicants in both the private and social rented sectors who require adaptations to help them live independently in their own homes. The Government meets 60 per cent. of local authority expenditure incurred on DFGs, with the remaining 40 per cent. being met from the authority's own resources. We have increased funding for this grant to £99 million in 2003–04, compared with £88 million in 2002–03 and £56 million in 1997–98.

Mr. Drew: To ask the Deputy Prime Minister what complaints he has received on the balloting arrangements of local authorities consulting tenants on plans to transfer their housing stocks. [146630]

Keith Hill: None.

Housing Bill

Jon Trickett: To ask the Deputy Prime Minister what assessment he has made of the impact of measures in the Housing Bill on promoting safety of the student population. [147457]

Keith Hill: No formal assessment has been made as to how the proposals in the Housing Bill will impact on the safety of students. However, the Office of the Deputy Prime Minister believes proposals will bring real benefits to students.

The Bill includes measures to license Houses in Multiple Occupation (HMOs), including shared student houses. Local authorities are required to licence HMOs of three or more storeys which are occupied by five or more persons. In addition they will have discretionary powers to license other categories HMOs where there are problems for which licensing is appropriate. The exercise of those powers will be subject to effective local consultation and to approval by the appropriate minister.

Jon Trickett: To ask the Deputy Prime Minister what estimate he has made of the number of houses in multiple occupation which are likely to be licensed under measures in the Housing Bill. [147459]

Keith Hill: The Government are proposing to introduce mandatory licensing for highest risk Houses in Multiple Occupation (HMOs). The Office of the Deputy Prime Minister expects this to cover properties

of three storeys or more and five people or more. It is estimated that about 120,000 houses in multiple occupation are expected to be licensed under this proposal. This estimate, however, does not include properties that could be required to be licensed where a local authority seeks to use in its area the discretionary power that the Bill provides to extend the scope of HMO licensing to HMOs not subject to the national mandatory licensing.

Local Government Finance

Keith Vaz: To ask the Deputy Prime Minister what representations he has received from Leicester city council concerning the proposed local government settlement for Leicester in 2004–05. [148206]

Mr. Raynsford: Since the start of consultation on 19 November, the Office of the Deputy Prime Minister has received two representations from Leicester city council, on the provisional Local Government Finance Settlement 2004–05. Consultation closed on 9 January. I have recently written to the Leader of Leicester city council to express concern about media reports of potentially large council tax increase in Leicester.

Keith Vaz: To ask the Deputy Prime Minister how much additional money Leicester city council has received from his Department in each year since 1997. [148207]

Mr. Raynsford: Grant issued by the Office of the Deputy Prime Minister and its predecessor departments for Leicester city council since 1997 is as tabled:

	£ million
1997–98	215.6
1998–99	223.4
1999–00	227.8
2000–01	236.5
2001–02	242.1
2002–03	252.0
2003–04[1]	273.3

[1] Budgeted figures. Includes Revenue Support Grant, Redistributed Non-Domestic Rates, Neighbourhood Renewal Fund (from 2001–02 onwards).

Source:
RS forms 1997–98 to 2002–03, RG forms 2001–02 to 2002–03, RA 2003–04 form and RA(SG) 2003–04 form.

Parish Clerks

Mr. Key: To ask the Deputy Prime Minister what percentage of parish clerks are paid less than the minimum wage; and if he will make a statement. [147430]

Mr. Raynsford: The information requested is not held centrally, and could be provided only at disproportionate cost.

Rough Sleepers

Mr. George Osborne: To ask the Deputy Prime Minister what estimate he has made of the proportion of rough sleepers who had previously been in local authority care in each of the last five years. [147337]

Yvette Cooper: This information is not held centrally, and could only be provided at a disproportionate cost.

Scalding Accidents

Mr. Gummer: To ask the Deputy Prime Minister how many people *(a)* over and *(b)* under 12 have been seriously scalded in baths or showers in each of the last five years. [147206]

Phil Hope: The total number of injuries due to scalding in baths or showers over the five most recent years for which records are held is in the table.

Year	*Under 12*	*Over 12*
1998	2,700	918
1999	2,560	823
2000	1,863	976
2001	2,000	1,107
2002	1,743	1,148

Data on the severity of these injuries is not held centrally, and could only be provided at a disproportionate cost.

Mr. Gummer: To ask the Deputy Prime Minister how many children under 12 who were seriously scalded in showers or baths in each of the past five years were unaccompanied by an adult. [147207]

Phil Hope: Accident records collected in hospital casualty departments do not record whether children were accompanied or supervised by an adult when bathing.

Social Housing (Plymouth)

Mr. Streeter: To ask the Deputy Prime Minister how many social houses for rent have been built by *(a)* housing associations and *(b)* Plymouth city council in Plymouth in each of the last three financial years. [147164]

Keith Hill: The figures reported by Plymouth city council and the National House Building Council in returns to the Office of the Prime Minister show:

	(a)	*(b)*
2000–01	38	0
2001–02	24	0
2002–03	4	0

INTERNATIONAL DEVELOPMENT

Malawi

Mr. Bercow: To ask the Secretary of State for International Development how much his Department has given to Malawi in 2003–04 to deal with food shortages; and what assessment he has made of the effectiveness of its use. [147347]

Mr. Gareth Thomas: DFID has committed £13 million to assist Malawi with food security in financial year 2003–04. This aid will pay for improved seeds and fertilizers for over 2 million poor households, pay-for-work schemes for rural poor, feeding programmes for the most vulnerable groups and strengthening management in Malawi's safety net

programmes and food crisis early warning systems. DFID also works closely in this area with the World Bank and the European Commission which plans to spend £14 million on food security this year.

Thorough evaluations of the largest schemes are made on a regular basis. DFID's seed and fertilizer scheme shows very high returns. The pay-for-work scheme needs some changes to improve targeting and sustainability. The food crisis early warning system is steadily improving and should meet the information needs identified in the 2001–02 food crisis.

World Trade Round

Mr. Bercow: To ask the Secretary of State for International Development on how many occasions he had discussions with Mr. Pascal Lamy between 10 and 14 September 2003. [146595]

Mr. Mike O'Brien: I have been asked to reply.

The UK delegation was in close contact with the European Commission, at all levels, throughout the duration of the WTO ministerial in Cancun.

Mr. Bercow: To ask the Secretary of State for International Development whether he was consulted about the drafting of the Derbez text at the World Trade Organisation ministerial in Cancun. [146603]

Mr. Mike O'Brien: I have been asked to reply.

The Ministerial Declaration, circulated by the Mexican Foreign Minister, Derbez, was produced following extensive consultations with WTO Members and the European Commission. The UK and other EU member states made their views known to the Commission formally, through meetings of the Article 133 Committee and the European Council, and informally.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development what his latest assessment is of the number of people facing food shortages in Zimbabwe. [147341]

Mr. Gareth Thomas: The Zimbabwe Vulnerability Assessment Committee's survey in April last year estimated that approximately 4.4 million people in rural areas and 1.1 million people in urban areas would require food aid during the pre-harvest months of January, February and March 2004. However, it is now clear that this figure is an underestimate and is being revised upwards to 5.1 million people in rural areas. Results of a comprehensive urban vulnerability assessment are yet to be released, but are also expected to show a significant increase in people requiring humanitarian assistance.

This increase in beneficiary numbers is partly due to spiralling inflation (now over 600 per cent.), which has affected food prices in shops. There is also emerging evidence of up to several hundred thousand people facing crisis in the former commercial farming areas, most of whom are former farm workers displaced by the Government's disastrous land reform programme. Additionally, the state-controlled Grain Marketing Board has proved erratic and unreliable in contributing to food supply and distribution in the country. Donors are monitoring the situation closely, in close consultation with the World Food Programme.

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the Government of South Africa on food imports to Zimbabwe. [147342]

Mr. Gareth Thomas: Apart from being a major exporter of food to Zimbabwe, South Africa is also a donor in the on-going humanitarian relief effort. The South African Government donated approximately 58,000 metric tonnes of maize to the previous WFP emergency operation for 2002–03, and may make a further contribution to the current operation. Accordingly, representatives of the South African Government participate regularly in co-ordination meetings concerning the humanitarian programme in Zimbabwe, where issues such as food imports are discussed.

Outside Zimbabwe, representatives from UK Government regularly discuss the Zimbabwe crisis with the Government of South Africa, though discussions usually focus on broad political and humanitarian issues, rather than food imports.

The UK Government, together with the other major donors (EU and USAID), continue to promote the liberalisation of food imports to Zimbabwe and the role of the private sector.

TRADE AND INDUSTRY

Arms Exports (Israel)

Richard Burden: To ask the Secretary of State for Trade and Industry whether approvals have been given for the export to Israel of categories of equipment covering *(a)* mortars, *(b)* rocket launchers, *(c)* anti-tank weapons, *(d)* military explosives, *(e)* infrared and radar sensors and *(f)* chemical and biological agents. [146989]

Nigel Griffiths: Since May 1997, the Government have published an Annual Report on Strategic Export Controls containing details of all goods authorised for export from the UK and to which destinations. Copies of the Annual Report are available from the Libraries of the House.

British Energy

Anne Picking: To ask the Secretary of State for Trade and Industry pursuant to her written statement of 5 January, *Official Report*, column 1WS, on British Energy, what the current outstanding drawdown on the Government's credit facility by British Energy is. [147777]

Mr. Timms: Nil. As the company stated on 23 December 2003 the proceeds from the sale of Amergen were used to pay down all outstanding drawings on the credit facility.

Business Support Schemes

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much has been spent on business support schemes in the UK in each year since 1997, broken down by region. [146145]

Ms Hewitt: Regional analysis of the Department's net spend on Promotion of Enterprise, Innovation and Increased Productivity (including Regional Development Agency expenditure) for the years 1998–99 to 2001 -02 is as follows:

£ million

Region	*Financial year* 1998–99	1999–2000	2000–01	2001–02
North East	23.6	32.0	45.8	71.0
North West	67.3	71.5	93.8	120.4
Yorkshire and Humberside	49.9	52.8	57.7	72.7
East Midlands	43.4	37.7	49.1	56.5
West Midlands	53.7	62.4	82.2	79.0
South West	49.8	44.4	49.5	66.5
Eastern	68.4	54.9	61.8	73.5
London	103.1	86.0	106.0	116.5
South East	102.4	84.9	103.5	110.0
Total	561.6	526.6	649.4	766.1

Similar data are not readily available for 1997–98 and the full analysis has not yet been completed for 2002–03.

Cancun Summit

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it was her policy to support the decision of the European Union at the World Trade Organisation ministerial in Cancun to pursue negotiations on the Singapore issues. [146601]

Mr. Mike O'Brien: The Government remain convinced that it is important for developed and developing countries alike to reduce bureaucracy on cross border trade (trade facilitation), to encourage a climate which facilitates foreign direct investment, to promote economic growth through fair competition and to encourage transparency in the procurement of public goods and services to help reduce corruption and increase good governance.

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she was consulted about the drafting of the Derbez text at the World Trade Organisation ministerial in Cancun. [146602]

Mr. Mike O'Brien: The draft Ministerial Declaration, circulated by the Mexican Foreign Minister Derbez, was produced following extensive consultations with WTO members and the European Commission. The UK and other EU member states made their views known to the commission formally, through meetings of the Article 133 Committee and the European Council, and informally.

Miners Compensation

Mr. Clapham: To ask the Secretary of State for Trade and Industry what the total amount of full and final settlements and interim payments paid to former miners and their families to date is in South Yorkshire. [147405]

Nigel Griffiths: To date £127 million has been paid in respect of respiratory disease and £163 million in respect vibration white finger to claimants in South Yorkshire.

Credit Registers

Chris Ruane: To ask the Secretary of State for Trade and Industry how many people were placed on a bad creditor register as a result of incorrect information in each of the last 10 years; and what right of appeal those wrongly placed on such registers have. [147699]

Mr. Sutcliffe: There is no register of bad creditors as such. Credit reference agencies hold details of credit accounts and payment histories. In some cases these may show late payments or defaults. Lenders use this information to make decisions regarding the suitability of lending to a particular consumer. These decisions may vary depending on individual lenders commercial decisions.

If individuals believe a particular lender has registered incorrect information about their account with a credit reference agency, they can contact either the lender or the agency to seek correction. Checks should then be made on the accuracy of the information, and corrections made where appropriate. Where individuals can show that the information on their credit file is inaccurate and the lender has refused to amend it, the matter can be referred to the Information Commissioner. Alternatively, individuals have the right to seek redress through the courts.

There are no centrally collated results to show the number of applications for corrections on credit reference files, nor the number of corrections made as a result of those applications.

Departmental Advertising

Michael Fabricant: To ask the Secretary of State for Trade and Industry what the total expenditure on information campaigns and advertising was for her Department in 1997–98. [145329]

Ms Hewitt: My Department's expenditure on advertising through the Central Office of Information in 1997–98 amounted to £2,504,885 excluding VAT and subsequent COI rebates. Records of expenditure on other information campaigns are not held centrally.

Departmental Grants

Brian Cotter: To ask the Secretary of State for Trade and Industry what funding her Department has provided to the Industry Forum Adaptation scheme since its inception; and what time scale applies to this funding. [145487]

Ms Hewitt: My Department undertook to support an initial two-year Industry Forum Adaptation (IFA) programme comprising a number of separate sectorally-focused projects. An initial tranche of £15 million funding was agreed in July 1999. This allocation was fully committed by March 2002. Following a high degree of demand from sectors, I announced a further

£20 million (£11 million devoted to IFA) at the Manufacturing Summit in December 2001. Funding support the majority of IF A projects is over three to five years on a tapering basis. Contractual spending commitments under IFA extend to financial year 2007–08.

Dumping

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy to seek an end to dumping of agricultural produce by developed countries on developing countries as part of a development treaty agreement with the World Trade Organisation. [146640]

Mr. Mike O'Brien: The ultimate goal in WTO agriculture negotiations is to create freer and fairer world markets in agriculture. The Doha mandate commits all WTO members to substantial reductions in trade-distorting domestic support and reductions, with a view to phasing out, all forms of export subsidy. If agreed, this will make a significant contribution to reducing dumping of subsidised produce on developing country markets.

Electricity Grid

Brian Cotter: To ask the Secretary of State for Trade and Industry what action her Department is taking to ensure that the national electricity grid is able to cope in the winter months. [148268]

Mr. Timms: We expect the national electricity grid to be robust over the winter months. However, there are always some exceptional circumstances capable of leading to supply problems. We are not complacent and will continue to monitor the situation with National Grid and Ofgem.

Employment Directive

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry whether the volunteering sector will be covered by the Employment Directive. [146425]

Mr. Sutcliffe *[holding answer 12 January 2004]:* The European Employment Directive applies to employment and vocational training. While it does not cover unpaid volunteers, therefore, people employed in the voluntary sector enjoy the same rights under it as those employed in the private and public sectors.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry whether it will be possible to claim discrimination on more than one ground under the Employment Directive. [146426]

Mr. Sutcliffe *[holding answer 12 January 2004]:* Yes. The grounds covered by this Directive are not mutually exclusive. As with other employment discrimination legislation, parties covered by the Employment Directive will be able to claim discrimination on any of the grounds on which they believe they have been discriminated.

Age Discrimination

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry how her Department will define the legitimate aims an employer may use to justify age discrimination. [146428]

Mr. Sutcliffe *[holding answer 12 January 2004]:* The consultation on proposals for age discrimination legislation ended on 20 October 2003. It sought views on the legitimate aims that employers might use to justify age discrimination. We will decide what kind of approach to take in the light of our analysis of the responses to the consultation. We will consult on the draft regulations this Spring.

Employment Tribunals

Mr. Edward Davey: To ask the Secretary of State for Trade and Industry how long it took on average in each year since 1999 for employment tribunals to issue a decision after a hearing has finished. [147004]

Mr. Sutcliffe *[holding answer 12 January 2004]:* In the last four financial years, based on the information currently held in the Employment Tribunal Service's statistical database, the average length of time taken to issue a decision was as follows:

	Days
1999–2000	20
2000–01	22
2001–02	22
2002–03	20

Source:
Employment Tribunals Service.

Energy Policy

Mr. Tynan: To ask the Secretary of State for Trade and Industry what meteorological studies her Department has *(a)* conducted and *(b)* commissioned on average percentage levels of availability at different points during the year of (i) onshore wind farms, (ii) offshore wind farms and (iii) wave power installations. [R] [147516]

Mr. Timms: Last year my Department commissioned a study in order to assist in determining the priority areas for future commercial exploitation of renewable energy.

The study 'Atlas of UK Marine Renewables' will among other things provide a spatial quantification of offshore wind and wave resources and will also consider the temporal variation of the energy parameters. The first results from the study are expected shortly.

Other supported projects which have included meteorological studies include; 'Predicting Offshore Wind Energy Resources (POWER),[1] project which developed a novel wind resource assessment methodology which can produce long-term and spatially detailed estimates of the wind conditions at offshore sites and the 'Forecasting Short-Term Wind Farm Production'[2] project which developed a method that applies a model to provide site specific forecasts of wind speed and power from one to 36 hour horizons.

Additionally, the Department of Trade and Industry's Wind Speed Database contains estimates of the annual mean wind speed throughout the UK. The database uses the Ordnance Survey grid system each

value stored in the database is the estimated average for a 1km square at 10m, 25m or 45m above ground level.

Full reports of both mentioned projects together with the Wind Speed Database can be seen on the DTI website at www.dti.gov.uk

[1] Predicting Offshore Wind Energy Resources (POWER)—ETSU W/35/00536/00/REP URN 02/1436

[2] Forecasting Short-Term Wind Farm Production—FES W/45/00572/00/00 URN 03/892

Mr. Tynan: To ask the Secretary of State for Trade and Industry what steps her Department has taken in the last six months to ensure that the nuclear energy option remains open. [R] [147519]

Mr. Timms: Skills and Research and Development are key areas for maintaining nuclear power as an option for the future.

The Government have been assisting in the establishment of a Sector Skills Council to represent the needs of the nuclear industry. Cogent Sector Skills Council is undergoing the development process for licensing early this year. It will aim to ensure that the education and training base meet the nuclear employers current and future needs.

New opportunities for fission research, with funding up to £5 million over four years, were recently announced as part of the Research Council's "Towards a Sustainable Energy Economy" (TSEC) initiative. This funding comes from the £28 million allocated to the Research Councils for sustainable energy research under the 2002 Spending review.

We have also been looking closely at energy research needs across the board in the light of the Energy White Paper, including nuclear fission. DTI funding is being considered as part of the 2004 Spending Review, which covers the period 2005–08.

Mr. Tynan: To ask the Secretary of State for Trade and Industry what assessment her Department has made of the report, "An Essential Programme to Underpin Government Policy on Nuclear Power", published by the Nuclear Task Force in July 2003. [R] [147520]

Mr. Timms: The report's recommendations are being considered in the wider context of UK energy research requirements as part of the 2004 Spending Review, covering Government expenditure for the period 2005–08.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how the Renewable Energy Capital Modernisation Fund was allocated in 2003–04, as referred to in her Departmental Report 2003; and what amounts were allocated through non-nuclear expenditure directly related to the creation of open markets in each year since 1997. [147797]

Mr. Timms: The Renewable Energy Capital Modernisation Fund is providing £60 million of the additional £100 million for renewable energy announced by the Prime Minister in March 2001. The allocation of this £100 million to different activities in the renewable energy sector was announced in November 2001 and is set out as follows.

	£ million
Capital grants for offshore wind	25
Biomass capital grants:	30
Energy crops infrastructure (DEFRA)	3.5
Innovative photovoltaic (PV) projects	10
Community and household schemes	10
Planning facilitation	2.5
Metering, storage and control technologies	4
Wave and tidal demonstrations	5
Support for "blue skies" research (OST)	10

Inclusive of the Prime Minister's £100 million, the Government are allocating £348 million over four years in direct support for renewable energy. This is over and above the incentive to renewable energy provided by the Renewables Obligation. All this support will contribute to opening up market opportunities for renewable energy.

Engineering Construction Industry

Mr. Hancock: To ask the Secretary of State for Trade and Industry if she will make it her policy to ensure that the National Agreement for the Engineering Construction Industry is made mandatory. [145490]

Mr. Sutcliffe: The Government believe that voluntary collective agreements should not be legally enforceable unless all the parties covered by such agreements want it. To do otherwise would undermine the voluntarist nature of collective bargaining in this country and dissuade parties from entering voluntary agreements.

Industrial Disease

Mr. Clapham: To ask the Secretary of State for Trade and Industry what the ratio is of live to posthumous claims for chronic obstructive pulmonary disease; and how many new claims were received in each of the last 10 weeks, broken down by area. [147266]

Nigel Griffiths: The ratio of claims is 47 per cent. live and 53 per cent. deceased.

The number of claims received is:

W/E	*Scotland*	*England*	*Wales*	*Total*
2003				
2 November	638	6,762	625	8,025
9 November	419	7,039	302	7,760
16 November	471	6,021	977	7,469
23 November	535	7,189	1,322	9,046
30 November	373	5,833	1,506	7,712
7 December	694	6,395	1,715	8,804
14 December	602	5,136	3,509	9,247
21 December	542	5,122	1,495	7,159
28 December	71	1,097	68	1,236
2004				
4 January	60	1,890	64	2,014

Investment Rules

Mr. Bercow: To ask the Secretary of State for Trade and Industry what her policy is on the development of non-discriminatory multilateral rules for investment. [146588]

Mr. Mike O'Brien: The Government remain convinced that there are potential economic and social benefits to be gained from a multilateral rules on investment for both developed and developing countries. However, we must take account of the views of developing countries, many of whom have expressed their strong opposition to taking forward negotiations particularly in the areas of investment and competition.

I, therefore, welcome the fact that EU Trade Ministers agreed on 2 December that the European Community should "unbundle" the four issues and explore alternative, more flexible approaches, including the possibility of removing some, or all, of the Singapore issues from the Doha Round.

Iraq (Contracts)

Mr. Tynan: To ask the Secretary of State for Trade and Industry what recent assessment she has made of the opportunities for *(a)* United Kingdom and *(b)* Iraqi companies to win contracts and sub-contracts from the Coalition Provisional Authority in Iraq; and if she will make a statement. [147528]

Ms Hewitt: We wish to see UK companies play a substantial role in the reconstruction process in Iraq. The Coalition Provisional Authority (CPA) maintains an open system for the tendering process and several UK companies have already won contracts to assist in the reconstruction in Iraq. A further request for proposals has recently been released by the CPA Project Management Office which provides additional opportunities for UK companies to bid for contracts and sub-contracts.

Iraqi companies are eligible to bid for both the prime contracts and sub-contracts.

Leak Inquiries

Richard Ottaway: To ask the Secretary of State for Trade and Industry if she will list occasions on which her Department have conducted an inquiry into alleged leaks from members of staff since 1997; and if she will list the occasions on which the names of those persons accused of leaking information from her Department have been made public *(a)* by the Government and *(b)* by way of another source. [147193]

Ms Hewitt: The information is as follows:

1997

The DTI conducted nine leak inquiries and assisted other Government Departments in a further four inquiries.

1998

The DTI conducted four leak inquiries and assisted other Government Departments in a further three inquiries.

1999

The DTI conducted one leak inquiry and assisted other Government Departments in a further four inquiries.

2000

The DTI conducted one leak inquiry and assisted other Government Departments in a further three inquiries.

2001

The DTI conducted no leak inquiries and was not asked to assist in any leak inquiry conducted by another Government Department.

2002

The DTI conducted one leak inquiry and assisted another Government Department in one further inquiry.

2003

The DTI conducted one leak inquiry and assisted other Government Departments in a further two inquiries.

On no occasion has the name of any person accused of leaking information been made public.

World Trade Round

Mr. Bercow: To ask the Secretary of State for Trade and Industry on how many occasions she had discussions with Pascal Lamy between 10 and 14 September 2003. [146594]

Mr. Mike O'Brien: My right hon. Friend, and I, had various discussions with Pascal Lamy between 10 and 14 September 2003. The UK delegation was in close contact with the European Commission, at all levels, throughout the duration of the WTO ministerial in Cancun.

Nuclear Energy

Llew Smith: To ask the Secretary of State for Trade and Industry what the basis is for the value of British Energy's spent fuel stockpile under paragraph 10.2, page 27 of the Historic Liabilities Funding Agreement between the Secretary of State for Trade and Industry, British Energy Generation (UK) Limited, British Energy Generation Ltd, Newco1 and Newco2, dated 1 October 2003. [147622]

Mr. Timms: British Energy's spent fuel represents a significant liability, provisions for which are set out in the Company's published accounts. Under the terms agreed for the restructuring of British Energy, the Government will take financial responsibility for the company's historic spent fuel liabilities, but British Energy will retain title to the fuel. In order to give the Government maximum flexibility in dealing with this fuel, for which it will be financially responsible, the Historic Liabilities Funding Agreement contains the option for the Government or another body nominated by the Government to take title to the fuel from British Energy for the nominal sum of £1.

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the implications for security of nuclear materials at Sellafield of the report released on 18 December 2003 of nuclear material unaccounted for at UKAEA, BNFL and URENCO nuclear sites. [147624]

Mr. Timms: There are no security implications associated with the published "materials unaccounted for" (MUF) figures. The MUF values for any accountancy period need to be read in the context of the processing of materials that occurred over that period, and the published figures relating to Sellafield are within acceptable limits. There is no evidence to suggest that there have been any real losses or gains of nuclear material.

Patents

Adam Price: To ask the Secretary of State for Trade and Industry pursuant to her answer to question

reference 145352 of 7 January, if she will list the 13 animals to which patents have been granted; and in each case, to which part of the animal the patent applies. [147738]

Ms Hewitt: The animals are nematode worms (four patents), salmon (one patent), trout, (one patent), Zebrafish (one patent), mice (one patent), and non-human mammals in general (five patents). In each case, the patent relates to the whole organism.

Regional Selective Assistance

Mrs. Calton: To ask the Secretary of State for Trade and Industry how many *(a)* new jobs were created and *(b)* jobs were safeguarded following allocation of Regional Selective Assistance applications in each of the last five years, broken down by region. [147163]

Jacqui Smith: This information can be found in the Industrial Development Act Annual Report published by the Stationery Office and placed in the Library of the House.

Singapore Issues

Mr. Bercow: To ask the Secretary of State for Trade and Industry what the stance of her Department was on the Singapore issues at meetings of European trade ministers and officials before 15 December 2003. [146634]

Mr. Mike O'Brien: The Government remain convinced that there are potential economic and social benefits to be gained from the Singapore issues for both developed and developing countries. However, we must take account of the views of developing countries, many of whom have expressed their strong opposition to taking forward negotiations, particularly in the areas of investment and competition.

I, therefore, welcome the fact that EU Trade Ministers agreed on 2 December that the European Community should "unbundle" the four issues and explore alternative, more flexible approaches, including the possibility of removing some, or all, of the Singapore issues from the Doha Round.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what her policy is on the Singapore issue of trade facilitation. [146591]

Mr. Mike O'Brien: The Government fully support the EU objective of securing an, ideally multilateral, agreement within the WTO on trade facilitation. Research by the World Bank and the OECD, together with the European Commission's own analysis, show the potential for savings and welfare gains. Proportionately developing countries, in particular, stand to gain most.

Single Market

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* European Community draft legislation to create a single market in service; and *(b)* on the effect the proposals will have. [140533]

Jacqui Smith: The proposals, which were expected to be published in the form of a European Framework Directive in mid-December, are the commission's response to a request by leaders at the Lisbon European Council in 2000 that the internal market be made to work for services.

The aim is to remove those barriers to cross-border trade that affect all service sectors and all stages of the business process—establishment, use of inputs, promotion, distribution, sales, after-sales. Since the proposals have not yet been formally published, the Government cannot make any detailed comments at this point on their effect.

The UK has already expressed support for the aim of making the single market a reality for services believing that this will bring advantages to the UK economy, its businesses and consumers. Market services have been increasing in importance to the UK economy over many years and now account for the bulk of UK economic growth.

Greater competition and openness have the potential of providing to recipients more choice of better quality services at cheaper prices and reducing the cost of manufactured goods, thereby creating further gains for consumers. The implications for UK businesses would extend from traditional service companies, such as retailers and accountants, to manufacturers, who use and provide services.

Small Businesses

Mr. Battle: To ask the Secretary of State for Trade and Industry how many firms in Leeds, West have benefited from the small firms loan guarantee; and in which sectors. [147218]

Nigel Griffiths: In the financial year 2002–03, 10 firms in Leeds, West benefited from a loan under the Small Firms Loan Guarantee; eight in the service sector and two in manufacturing.

In the current financial year to 31 December 2003, 14 firms have received loans; seven in the service sector and seven in manufacturing.

Brian Cotter: To ask the Secretary of State for Trade and Industry how many small businesses have *(a)* opened and *(b)* closed in disadvantaged areas in each year since 1997. [147607]

Nigel Griffiths: Value added tax (VAT) registrations and de-registrations are the best official guide to the pattern of start-ups and closures. These cover businesses of all sizes.

The Neighbourhood Renewal Unit has defined 88 local authorities in England as being deprived for the purposes of targeting the Neighbourhood Renewal Fund.

The number of businesses registering and de-registering for VAT in each calendar year from 1997 to 2002 in deprived areas in England is as follows:

VAT registrations and de-registrations in English deprived areas[1]

	VAT registrations	*VAT de-registrations*
1997	58,835	48,045
1998	60,490	48,890
1999	59,450	50,490
2000	60,045	52,470
2001	56,530	52,830
2002	56,255	55,530

[1] Deprived areas are defined by the Neighbourhood Renewal Unit. See http://www.neighbourhood.gov.uk for further details

Tariffs

Mr. Bercow: To ask the Secretary of State for Trade and Industry what quantitive assessment she has made of the effect of *(a)* tariff rates and *(b)* tariff escalation on the economies and living standards of developing countries. [146641]

Mr. Mike O'Brien: The best source of information on this topic are the large number of studies which have already been undertaken by international organisations such as the World Bank, IMF, UNCTAD and the OECD, and by charitable organisations such as Oxfam. The work of these organisations demonstrates the need to look at all barriers to trade and the need for fundamental trade policy reform.

It remains, however, very difficult to make an accurate quantitative economic assessment of the overall impact of tariffs and tariff escalation on developing country markets. The World Bank have, however, estimated that the comprehensive reform of all aspects of agricultural policies in developed countries could boost the income of developing countries by as much as $100 billion.

Trade Support

Mr. Bercow: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of an agreement at the World Trade Organisation with the G20 on subsidies, tariffs and the Singapore issue on *(a)* the G20, *(b)* the United Kingdom, *(c)* the European Union and *(d)* the United States. [146474]

Mr. Mike O'Brien: The potential effect of agreements on any WTO member would depend on the specific provisions and the level of commitments undertaken by that country.

An ambitious conclusion to the current round of WTO negotiations, aimed at reducing trade distorting subsidies, tariffs and non tariff barriers to international trade and investment, would improve the prospects of increased prosperity for all WTO members.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what discussions she has had since 17 September 2003 with her counterpart in the United States about *(a)* the desirability of and *(b)* the timetable for eliminating US subsidies to cotton producers. [146586]

Mr. Mike O'Brien: There is ongoing contact between UK and US officials about all aspects of the WTO Round, including on the question of support for cotton production. In view of the importance of this issue, the UK has provided €50,000 in technical assistance to help the four West African producer countries, all of which are LDCs, promote their case in the WTO. All WTO members are committed to substantial reductions in trade-distorting domestic support and we must work together to achieve that objective including on cotton subsidies.

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether developing countries have produced a list of proposed products to be covered by the proposal in the Derbez text to remove export subsidies for products of particular interest to developing countries. [146721]

Mr. Mike O'Brien: No, there is not a list as far as we are aware.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what comes into the category of green box support. [146605]

Mr. Mike O'Brien: For domestic support measures to qualify as 'green box' under WTO rules, they must have no, or at most minimal, trade-distorting effects on production. A full list of the support categories that can qualify as 'green box' is set out in Annex 2 of the WTO Agreement on Agriculture 1994.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what comes into the category of amber box support. [146606]

Mr. Mike O'Brien: Under WTO rules, amber box support covers all trade-distorting domestic support measures paid to agricultural producers. This means all support to producers other than that:

(i) which is exempted as 'blue box' or 'green box' compatible (for a definition of payments falling under the blue box and green box see answers to PQs 146607 and 146605); or

(ii) which is an integral part of a development programme in developing countries, for instance to assist low-income or resource poor producers; or

(iii) which encourages producers in developing countries to diversify away from illicitly growing narcotic crops.

Members do not have to declare payments to producers below a "de minimis" threshold of 5 per cent. of their total value of agricultural production.

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will make a statement on what constitutes blue box domestic support. [146607]

Mr. Mike O'Brien: WTO rules classify 'blue box' support separately to 'amber box' support as it is less trade-distorting in impact. This is because blue box must take the form of a direct payment under a production-limiting programme and be:

(i) based on fixed areas and yields; or

(ii) made on 85 per cent. or less of the base level of production; or

(iii) (where applied to livestock) made on a fixed number of head.

Working Time Directive

Michael Fabricant: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the Working Time Directive's opt-out clause on industrial relations in the UK. [143828]

Mr. Sutcliffe: The opt-out from the weekly working time limits provides workers with the choice to work longer hours if they want to and flexibility for employers. A recent study, "The Business Context to Long Hours Working" published by my department shows that employers thought the most common barrier to reducing the hours of staff was the needs of the business and workload (55 per cent. of respondents cited this), second to this was the concern that existing staff may resist the reduction in hours as it could limit their choice to work these hours and a reduction in their overtime pay (22 per cent.)

World Trade Organisation

Mr. Bercow: To ask the Secretary of State for Trade and Industry what discussions she has had since 14 September 2003 with the Director General of the World Trade Organisation about the status of papers produced by chairmen and facilitators of working groups, and the role of the World Trade Organisation Secretariat, at World Trade Organisation Ministerials. [146596]

Mr. Mike O'Brien: My right hon. Friend has discussed various issues with Dr. Supachai, since 14 September, including the organisation of WTO Ministerial conferences.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what immediate reforms she has proposed to the conduct of World Trade Organisation Ministerials. [146615]

Mr. Mike O'Brien: The Government have discussed a number of proposals for the reform of the WTO with our EU partners and the European Commission. These proposals are reflected in the commission's strategy paper, "Reviving the DDA Negotiations—the EU perspective", which was endorsed by the European Council of Ministers on 8 December last year.

However, it is vital that reform of the WTO should not distract members from pursuing the Doha Development Agenda.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what submission her Department has made to the Sutherland Commission on longer-term reforms of World Trade Organisation Ministerials. [146635]

Mr. Mike O'Brien: The Government have discussed a number of proposals for the reform of the WTO with our EU partners and the European Commission. These proposals are reflected in the Commission's strategy paper, "Reviving the DDA Negotiations—the EU perspective", which was endorsed by the European Council of Ministers on 8 December last year.

SOLICITOR-GENERAL

Infant Death

Mr. George Osborne: To ask the Solicitor General (1) if she will make a statement on the implications of the Angela Cannings case for the Crown Prosecution Service; [144510]

(2) what guidance she has issued to Chief Crown prosecutors about cases involving mothers accused of killing their infant children; and whether she expects to issue new guidance; [144511]

(3) how many mothers were charged with infanticide in each of the last 20 years; and how many mothers were charged with murder of their own children in each of the last 20 years; [144512]

(4) if the Crown Prosecution Service will review family court cases in which evidence was given by Professor Meadow; [144516]

(5) when the inter-departmental group she established to consider the implications of the Sally Clarke case will decide whether to review cases involving Professor Meadow; [144517]

(6) in how many family court cases evidence was given by Professor Meadow; [144518]

(7) when she expects the Crown Prosecution Service to conclude its review of the cases in which Dr. Alan Williams conducted a post mortem; [144519]

(8) what the total cost to public funds of the prosecution of Sally Clarke, Angela Cannings and Trupti Patel has been. [144524]

The Solicitor-General: We are awaiting the full written judgment of the Court of Appeal in the Angela Cannings case and therefore it is not possible to make a detailed statement on the implications at this stage.

At the Court of Appeal hearing, Lord Justice Judge expressed concern about the difficulties for the trial jury in resolving issues regarding complex scientific evidence in relation to infant death when the present state of scientific knowledge is evolving.

He went on to state that the appeal had raised a number of issues of general public interest in relation to infant deaths and the Court of Appeal would therefore need time to reflect on the terms of its judgment.

The Crown Prosecution Service has taken note of these comments and will study the full judgment carefully when it is released.

Since the written reasons of the Court of Appeal in the case of Sally Clark were made available, and following the acquittal of Trupti Patel, the Crown Prosecution Service has undertaken a number of actions. Interim guidance was sent to all Chief Crown Prosecutors on 17 June 2003 requesting that all cases be identified in which either Doctor Williams or Professor Meadow are witnesses and requiring them to serve a copy of the judgement in the Sally Clark case on the defence and to draw attention to sections of the judgement touching on their evidence.

Following the appeal of Sally Clark, the Attorney General established a Group comprising representatives of the police, Crown Prosecution Service, Home Office and other relevant agencies to consider whether any cases in which Doctor Williams has given important evidence require a more in depth review.

On 28 July, the Group held its first meeting. Progress was made in two areas. Firstly, on how previous cases in which Doctor Alan Williams conducted a post mortem

were to be identified and, secondly, what factors would be used to select the cases on which the Group should concentrate.

Following that meeting, work commenced immediately on the identification of relevant cases. The Group met a deadline of mid-September for the conclusion of that process. By that date, approximately 50 previous cases had been identified, which dated back between five-seven years. These cases all involved charges of murder, manslaughter or infanticide where Doctor Williams had been instructed by the police to conduct the post mortem and which had resulted in a conviction. The cases themselves are now being individually reviewed. An experienced Metropolitan police officer and a Crown Prosecutor are conducting the review. This work is continuing.

When the full written judgement in Angela Cannings is published, the same group will consider whether to extend the review to include cases involving Professor Meadow.

The total cost incurred by the Crown Prosecution Service in the case of Sally Clark will eventually be approximately £320,000. That figure comprises counsels' fees, expert witness costs and approximately £50,000 is estimated as being attributable to Crown Prosecution Service staff costs.

The costs of the Trupti Patel case are approximately £183,716.63. We cannot provide an estimate of CPS costs for this case at this stage, however, I will write to the hon. Member with those details once known.

The costs of the Angela Cannings case have not yet been settled. However, it is estimated that prosecution costs arising from the original trial and the subsequent appeal will be in the region of £220,000.

Owing to the way CPS records are kept, figures on the number of mothers charged with infanticide and mothers charged with the murder of their own children cannot be produced without incurring disproportionate costs.

The Crown Prosecution Service was set up by the Prosecution of Offences Act 1985 to take over the conduct of criminal cases instituted by the police (other than some minor cases). It has no statutory power to initiate a review of family court cases in which evidence was given by Professor Meadow.

Information on the number of cases in the Family Court in which Professor Meadow has given evidence is not held centrally. The Crown is not usually party to Family Court cases.

No guidance to Crown. Prosecutors relating specifically to mothers accused of killing their infant children has been issued.

WORK AND PENSIONS

Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions if the Department will reinstate in its website's section on benefit expenditure tables, tables 1 and 2, showing detailed benefit spending from 1993–94 onwards. [147014]

Mr. Pond: The information requested has been posted on the Department's website, updated to include pre-Budget report 2003 expenditure forecasts.

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many people drew their benefits at *(a)* Belgrave branch post office, *(b)* Dosthill branch post office, *(c)* Kerria road branch post office, *(d)* Hockley branch post office, *(e)* Kettlebrook branch post office, *(f)* Silver Link branch post office, *(g)* Two Gates branch post office and *(h)* Wilnecote branch post office in Tamworth in the last (i) week, (ii) month and (iii) year for which figures are available. [147035]

Mr. Pond: The information is not available in the format requested.

Statistics are not held on payment data on an individual Post Office basis.

Mr. Flight: To ask the Secretary of State for Work and Pensions if he will make a statement on the reasons for differences between the figures in table 5 of his Department's Benefit Expenditure Tables and the estimates for social security benefit expenditure provided in table B13 of the pre-Budget report. [147415]

Mr. Pond: Table 5 of the DWP Benefit Expenditure Tables and the estimates for social security benefit expenditure provided in table B13 of the pre-Budget report do not have the same coverage of Government Spending. DWP Benefit Expenditure Tables cover those benefits for which DWP has policy responsibility, only covering Great Britain (except for Over 75 TV Licences). The pre-Budget report figures represent a broader measure of social security benefit expenditure, covering all of the United Kingdom.

Further details of the differences can be found in the notes accompanying the expenditure tables on the Department's website.

Winter Fuel Payments

Mike Gapes: To ask the Secretary of State for Work and Pensions (1) what percentage of people eligible for Winter Fuel Payments for 2003 received their payments by *(a)* 1 December 2003 and *(b)* 1 January; and if he will make a statement; [147476]

(2) what percentage of people eligible for Winter Fuel Payments for 2003 have received their payments; and if he will make a statement. [147477]

Malcolm Wicks: To date a total of 11,570,389 Winter Fuel Payments have been made in Great Britain for winter 2003–04. Of these 11,543,117 were issued by

1 December 2003. A further 27,272 payments were processed and issued by 1 January 2004.

We cannot provide an estimate of the percentage of eligible people in receipt of a Winter Fuel Payment using DWP administrative data because we do not have complete information on household circumstances and payments are based on household composition.

Mike Gapes: To ask the Secretary of State for Work and Pensions what steps have been taken to ensure that all people eligible for Winter Fuel Payments for 2003 have received their payments; and if he will make a statement. [147478]

Malcolm Wicks: Most payments are made automatically, without the need to claim. Each year, we are able to identify most people likely to become newly eligible for a Winter Fuel Payment using current departmental records and they are sent claim forms automatically with an invitation to make a claim. This year they have until 30 March 2004 to make their claim.

From June each year a publicity campaign is launched which continues through to the cut off date for applications in March. The campaign includes advertisements in national and regional press and leaflets and posters. There is also a Winter Fuel Payment helpline which is open all year round and information on the internet which is updated each year with specific details for that year's payment.

HEALTH

Abortion

Jim Dobbin: To ask the Secretary of State for Health for each of the maternal deaths associated with termination of pregnancy for the period 1991-1999, *(a)* under what section of the Abortion Act 1967 the termination of pregnancy was being performed, *(b)* at what stage of gestation the pregnancy was and *(c)* what the age of the mother was. [146478]

Miss Melanie Johnson: The following information, on the eight maternal deaths associated with termination of pregnancy for the period 1991-1999, has been taken from the relevant triennial Report on Confidential Enquiries into Maternal Deaths in the United Kingdom. This is the only information available as after preparation of the Report, and before publication, all the maternal deaths report forms and related documents and files are destroyed.

Grounds for the abortion were stated only in the reports for one case, which said "foetal abnormalities incompatible with life."

The available information for gestation is shown in the table.

Gestation	*Number of cases*
Weeks	
Under 10	2
10 to 12	1
13 to 19	3
20 plus	0
"early pregnancy"	1
"mid trimester"	1

For age, there were three references to "young woman", two for women in their "twenties" and one for a woman in her "thirties". In the other two cases, age was not stated.

Birth Defects

Norman Baker: To ask the Secretary of State for Health what assessment he has made of the effects on the incidence of birth defects of living close to landfill sites; and if he will make a statement. [143794]

Miss Melanie Johnson: A number of scientific studies have investigated whether there are higher than usual levels of congenital anomalies (birth defects) in populations living near to landfill sites, but no clear picture has emerged.

The Government commissioned the Small Area Health Statistics Unit (SAHSU) at Imperial College to carry out a national study (Elliott et al, BMJ 2001; 323: 363–8, available at http://www.bmj.com. A full report is at http://www.doh.gov.uk/pdfs/report_aug13.pdf). SAHSU found a small increase in congenital anomalies in populations living close to landfill sites. The study has not shown, or indeed could show, a causal link between landfill sites and birth defects. The independent expert Committee on Toxicity of Chemicals in Food, Consumer Products and the Environment (COT) noted that the findings for birth outcomes were not consistent, and that the study provided no evidence that the rates of anomalies increased after sites had opened. COT advised that it is inappropriate to draw firm conclusions from the results. The opinion of COT is at http://www.doh.gov.uk/cotnonfood/landfill.htm. SAHSU also specifically analysed the data on birth outcomes in populations living near "special waste" landfill sites in Scotland, and found no evidence to suggest an excess risk of congenital anomalies (Morris et al, Scottish Medical Journal 2003; 48: 105–107, www.smj.org.uk).

The Government have in place a research programme on the impacts on health of landfill sites. The report of one project, which reviewed the potential for chemicals which may be released from landfill sites to affect the unborn child, is at http://www.doh.gov.uk/landfillrep.pdf. The programme also includes reviews of the known causes and the geographical variation of congenital anomalies. Another project, funded by the Environment Agency, is undertaking detailed monitoring of emissions from landfill sites in order to assess the exposure of people living and working nearby. SAHSU is examining the geographical variation of congenital anomalies and is conducting an epidemiological study of Down's syndrome in relation to landfill sites in England and Wales.

Cardiologists

Dr. Richard Taylor: To ask the Secretary of State for Health how many cardiologists in the West Midlands specialise in the diagnosis and treatment of complex disorders of heart rhythm requiring ablation of parts of the conducting system; and how long the waiting list is for this treatment. [147679]

Dr. Ladyman: The table shows the number of cardiologists working within each of the West Midlands strategic health authority areas as of June 2003.

Strategic health authority	Number of cardiologists
Birmingham and the Black Country	38
West Midlands South	15
Shropshire and Staffordshire	15

Source:
Department of Health Medical and Dental Workforce Census.

The Department does not hold information centrally on the particular specialism of each clinician. Waiting times for this procedure are not collected separately from other cardiological procedures, but the maximum waiting time for all in-patient procedures is currently 12 months and will be nine months by the end of March 2005.

Castle Point and Rochford PCT

Bob Spink: To ask the Secretary of State for Health how many requests for an independent review against Castle Point and Rochford Primary Care Trust's decisions relating to Health Care Funding have been received in the last 12 months; and how many were upheld. [147597]

Dr. Ladyman: I am advised by Essex strategic health authority (SHA) that the continuing care panel has heard one case in relation to Castle Point and Rochford Primary Care Trust (PCT) and has one case pending.

I am further advised that in the case that was heard, the panel was of the view that the PCT's decision was correct and that the SHA was advised accordingly.

The latest published figures for national health service written complaints for 2002–03 are available on the Department's website at www.doh.gov.uk/nhscomplaints.

Dentists

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* principal and *(b)* assistant dentists there were in (i) England, (ii) each NHS region and (iii) each strategic health authority who (A) offered NHS treatment and (B) had vacancies for NHS patients, in each of the last five years. [146218]

Ms Rosie Winterton: The number of dentists providing general dental services dentistry in September in each of the years 1999 to 2003 is shown in table 1, separately for principal dentists and for dental assistants. The figures given prior to 2002 are derived from the old health authority areas.

Information on dentists taking on new national health service patients is available on the www.nhs.uk/ web-site. The number of dentists accepting new NHS patients on 4 December 2003 is shown in table 2 for three main patient categories. This information is not available separately for principals and assistants. Earlier information is not available.

Table 1: Number of general dental service dentists in England by region and strategic health authority for September 1999 to 2003

	1999	2000	2001	2002	2003
Principal Dentists					
Region

Mr. Burstow: To ask the Secretary of State for Health how many people aged *(a)* 17 years or under and *(b)* 18 years or over were registered with an NHS dentist in (i) England, (ii) each NHS region and (iii) each strategic health authority in each of the last five years; and what proportion each represents of the relevant age group. [146219]

Ms Rosie Winterton: The information showing the number of people and the percentage of the population registered with a general dental service dentist by national health service region and strategic health authority at 30 September for each of the last five years, has been placed in the Library. The figures given prior to 2002 are derived from the old health authority areas. Following reorganisation, figures for NHS regions are not available from September 2002 onwards.

Registrations lapse if patients do not return to their dentist within 15 months and so the registration figures exclude patients who have not been to their dentist within the past 15 months. The figures also exclude patients who receive dental treatment from other NHS dental services including dental access centres and those patients who choose not to register and who seek treatment on an occasional basis.

Domiciliary Care

Sandra Gidley: To ask the Secretary of State for Health by what date applications for registration with the National Care Standards Commission are required to be determined. [147310]

Dr. Ladyman: There is no time limit for applications for registration with the National Care Standards Commission to be determined.

Drugs Treatment

John Mann: To ask the Secretary of State for Health which constituencies in the UK do not have a needle exchange. [147763]

Miss Melanie Johnson *[holding answer 13 January 2004]:* We do not measure needle exchange coverage by parliamentary consituency. However, we do record it on a primary care trust (PCT) basis. Every PCT in England has access to a needle exchange service, distributing approximately 27 million needles annually.

Influenza Vaccination

Dr. Starkey: To ask the Secretary of State for Health what guidance his Department has given to local primary care trusts on the provision of influenza jabs to carers. [146453]

Miss Melanie Johnson: Guidance has been issued on the immunisation of health and social care staffs who are recommended to receive flu vaccine. Carers are not routinely offered flu vaccination but general practitioners retain the discretion to give the vaccine to their patients based on an individual assessment of need.

Sandra Gidley: To ask the Secretary of State for Health how many people aged 65 years and over have received the influenza vaccine *(a)* in England and *(b)* broken down by (i) primary care trust and (ii) strategic health authority in each year since 2001. [147183]

Miss Melanie Johnson: The total number of people aged 65 and over who received flu immunisation in England in 2001 was 5,113,036 and in 2002 was 5,487,645. The data for 2003 is not yet available.

Information on the number of people aged 65 and over receiving flu immunisation by primary care trust and strategic health authority since 2001 has been placed in the Library.

Leak Inquiries

Mr. Lilley: To ask the Secretary of State for Health if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [146942]

Ms Rosie Winterton *[holding answer 12 January 2004]:* Since 1997 the department has investigated 37 suspected leaks. In line with exemptions 1(a) and 7(b) set out in Part II of the "Code of Practice" on access to "Government Information", it has been the practice of successive Governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements. Other than cases where legal action has been taken we are not aware of any cases where names have been made public.

Ministerial Visits

John Mann: To ask the Secretary of State for Health how many visits have been made by his Department's officials or ministers to look at drugs treatment in *(a)* Sweden, *(b)* France, *(c)* Australia, *(d)* the Netherlands and *(e)* USA in the last six years. [147764]

Miss Melanie Johnson *[holding answer 13 January 2004]:* Departmental officials have had occasion to visit Sweden, Australia and the Netherlands to look at their drug treatment systems within the last six years. Most regular contact is maintained through the European Monitoring Centre for Drugs and Drug Addiction in Lisbon, Portugal, where Departmental officials meet with colleagues from other countries two to three times a year.

Myoclonic Epilepsy

Bob Russell: To ask the Secretary of State for Health what his policy is on the funding of equipment and clothing for children with myoclonic epilepsy and cerebal palsy; and if he will make a statement. [147244]

Dr. Ladyman: The needs of individual disabled children are assessed by councils with social services responsibilities, principally under provisions of the Children Act 1989. Councils then have a responsibility to provide appropriate services.

NHS Charges

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the responses he received to proposed amendments to the National Health Service (Charges to Overseas Visitors) Regulations 1989: A Consultation. [146353]

Mr. Hutton: 124 specific responses to the consultation exercise were received. Two of the respondents have exercised their right to have their responses kept confidential. The remaining 122 are available in the Library.

Obesity

Mr. Burstow: To ask the Secretary of State for Health what percentage of women were classed as obese in each year since 1990 in *(a)* England and *(b)* each region, broken down by social/economic status. [146332]

Miss Melanie Johnson: Information is not available in exactly the form requested. Figures available from the Health Survey for England are shown in the tables. The tables give, for England, the percentage of women who are obese (with a body mass index over 30) from 1991, when the Health Survey began, to 2002 by social class and for the period 1998 to 2002 by Government Office Region. Figures prior to 1998 are not available by Government Office Region. The samples sizes available in the Health Survey do not allow robust estimates to be calculated for each region broken down by social/economic status.

Prevalence of obesity among women by survey year and social class—aged 16 and over with a valid height and weight measurement—1991–2002

2001	412	2,278	1,304	1,710	1,078	386	7,414
2002[3]	244	1,077	614	775	516	178	3,509

[1] I—Professional, II—Managerial technical, IIIN—Skilled non-manual, IIIM—Skilled manual, IV—Semi-skilled manual, V—Unskilled manual.

[2] The sample sizes in 1991 and 1992 were smaller than in subsequent years and for reporting purposes the estimates from both years were combined. In addition, the figures for social classes I and II, and IV and V were combined.

[3] In these years the focus was on special groups such as children, ethnic minorities and older people. The sample for the special groups was boosted and the sample for the general population correspondingly halved to about 8,000 adults. The figures above are based on the general population sample.

Health Survey for England, Department of Health

Salt Depletion

Ann Winterton: To ask the Secretary of State for Health what recent research has been conducted by his Department on salt depletion in the human body during hot weather. [146680]

Miss Melanie Johnson: The Department has not conducted any research on salt depletion in the human body during hot weather. There is insufficient evidence to suggest that people should modify their normal salt consumption during hot weather conditions. It is, however, important to maintain an adequate fluid intake.

Thyroid Cancer

Mr. Charles Kennedy: To ask the Secretary of State for Health what clinical trials have been conducted to establish the effectiveness of potassium iodate tablets in minimising the effects resulting from inhalation of airborne radioactive iodine, with particular reference to prevention of thyroid cancer; and if he will make a statement. [147205]

Dr. John Reid: Stable iodine (of which potassium iodate is only one form) has been used clinically since the 1940s to protect the thyroid glands of patients (both children and adults) being treated with radio-pharmaceuticals which contain radioactive iodine. Potassium iodate is still routinely used in this way to this day. Its efficacy at protecting against the radiation induced thyroid cancer has been known, therefore, for over 60 years. The largest population administration occurred in Poland following the Chernobyl accident where over 9 million doses were administered. No adverse effects were reported and no increase in the rate of thyroid cancer was subsequently seen, unlike in Belorus and Ukraine were stable iodine was not administered to protect the local population.

Daily Winter Reporting System

Mr. Lansley: To ask the Secretary of State for Health on how many occasions his daily winter reporting system has indicated that NHS trusts are experiencing winter pressures; and in how many of those instances he has authorised escalation procedures to respond. [147033]

Ms Rosie Winterton: The first full month of daily winter reporting was December. In December, there were an average of 20 National Health Service trusts (out of a total of 155 trusts with accident and emergency

departments) per working day reporting operational problems. Such operational problems include the cancellation of elective operations.

All strategic health authorities (SHAs) have developed robust winter plans, which set out escalation procedures to cope with increased seasonal demand for health services. The decision on whether a trust should put these escalation procedures into operation is not made by ministers or the Department of Health. Instead, the locally agreed escalation procedures are activated by the trusts themselves, in agreement with local primary care trusts and the SHA. Such an approach allows the local NHS to be timely in dealing with pressures and is in line with the Government policy of Shifting the Balance of Power to the local NHS. If required, the Department of Health will support a SHA in its local management of winter.

TREASURY

Birth Certificates

Mr. Frank Field: To ask the Chancellor of the Exchequer how many babies were born to unmarried mothers for whom no name of the father was entered on the birth certificate in each of the last 30 years, or in those years for which figures are available; what the *(a)* social class and *(b)* age of the mother at the birth of her first child was in each case; and how many subsequent births, when the name of the father was not entered on the birth certificate of the child, each mother had.

[147176]

Ruth Kelly *[holding answer 12 January 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Frank Field, dated 14 January 2004:

The National Statistician has been asked to reply to your request for information on previous and subsequent births of mothers who had a birth registered without a father's name on the birth certificate (a sole registration) in each of the last 30 years. In particular you asked for information on *(a)* the social class and *(b)* the mother's age at her first live birth, and for information on how many of subsequent sole registered births the mother had. I am replying in the National Statistician's absence. (147176)

Information is readily available, from birth registration records, on sole registration births by age of mother. However under the Population (statistics) Acts 1938 and 1960, information on birth order (that is whether a birth is a first birth, second birth etc.) is not collected at birth registration for women who are not married to the father of the child. Table 1, attached, provides information on the number of sole registrations by age of mother in each of the last 30 years (1973–2002).

Similarly only limited information is readily available by social class from birth registration records. Social class of mother and father first became available separately from 1986. Only 10 per cent. of births are coded for social class and for around two thirds of sole registrations there is insufficient occupation data to assign a social class. Table 2 provides a summary of the readily available information on social class for sole registered births, 1986 to 2001. In 2001 the National Statistics Socio-Economic Classification was introduced, replacing social class, and from 2002 data are not available by social class.

To provide information on age at first live birth and on any subsequent sole registration requires successive birth records to be linked together. This can only be done using the ONS Longitudinal Study, a one per cent. sample of the population in which, since 1971, census records and vital events have been linked together. Extracting this information cannot be done in the time available to answer this Parliamentary Question. I will write to you again in two weeks to let you know whether the information available from this study is of sufficient quality to answer your question. You should note that, as there is currently only 30 years of birth registration records in the study, only a small proportion of women in the sample have a complete birth history that allows identification of sole registrations. It is therefore very unlikely that the last part of your question (on the number of subsequent sole registered births) can yet be answered reliably.

Table 1 Live births outside marriage registered by mother alone (sole registrations), by mother's age 1973–2002. England and Wales

[1] Social class classifications are: non-manual; I professional; II managerial and technical; IIIN skilled occupations (non-manual); manual; IIIM skilled occupations (manual); IV partly skilled occupations; V unskilled occupations; other.
[2] Includes unemployed, armed forces, students and inadequately described occupations.
Note:
Mothers occupation was not recorded before 1986.
Based on a 10 per cent. sample of births.

Correspondence

Mr. Steen: To ask the Chancellor of the Exchequer when he will reply to the letter from the hon. Member for Totnes of 9 December 2003 regarding the overpayment and underpayment of tax credits to constituents in Totnes and Brixham. [147782]

Dawn Primarolo: The Inland Revenue replied on behalf of the Paymaster General on 13 January 2004.

Departmental Advertising

Miss Kirkbride: To ask the Chancellor of the Exchequer how much has been spent on recruitment advertisements in the press, broken down by publication, by *(a)* his Department, *(b)* quangos under the Department and *(c)* non-departmental Government bodies under the Department (i) in the last year and (ii) since 1997. [145809]

Ruth Kelly: Available information concerning recruitment advertising costs is given in the tables. HM Customs and Excise, the Inland Revenue and the Office

for National Statistics delegate much of their recruitment to their various business elements. In consequence, only limited information is available.

A breakdown of all publications used could be provided only at disproportionate cost. The departments and agencies responsible to the Chancellor of the Exchequer use a wide variety of different publications for recruitment advertising, tailored according to the nature of the vacancy to be filled. This includes the use of professional journals and magazines, national and local newspapers, and websites.

HM Treasury

Information for the financial years 1997–2002 could be provided only at disproportionate cost. Recruitment advertising costs for the most recent financial years are as follows:

Financial year	*Cost (£)*[1]
2002–03	[2]126,238
2003–04 to date	[3]173,279

[1] excluding VAT

[2] This does not include the advertising costs for two posts for which figures were unavailable.

[3] This includes advertisements for two 'bulk' recruitment campaigns which were used to fill a number of posts, and advertisements for three roles at a senior level.

HM Customs and Excise

Customs and Excise delegate much of their recruitment to their various business areas. Information held centrally is limited, and therefore data could be provided only at disproportionate cost.

Debt Management Office

Financial year	*Cost (£)*[1]
1998–99[2]	23,950.03
1999–2000	62,895.42
2000–01	101,731.50
2001–02	31,840.15
2002–03	20,790.45
2003–04 to date	65,445.74

[1] including VAT

[2] The DMO was only established on 1 April 1998 and therefore no data exists prior to this date.

The Government Actuary's Department

Information for 1997 to 2001 could be provided only at disproportionate cost. Information for the financial years since 2001 is as follows:

Financial year	*Cost (£)*[1]
2001–02	27,083.75
2002–03	16,614.50
2003–04 to date	22,993.58

[1] including VAT

Inland Revenue

The amount spent on press advertising by the Inland Revenue from April 1997 to March 2003 (the last full financial year for which figures are available) was £4.2 million. The figure for the last full year (2002–03) was £1.3 million. A breakdown of all costs since 1997 could be provided only at disproportionate cost. However, the vast majority of Inland Revenue recruitment advertising appears in local or regional newspapers.

National Savings and Investments

Since January 2003, National Savings and Investments has spent £92,874 on recruitment advertising exclusive of VAT. Costs for previous financial years are as follows:

Financial year	*Cost (£)*[1]
1997–98	5,345
1998–99	32,711
1999–2000	166,731
2000–01	153,243
2001–02	205,878
2002–03	116,778

[1] excluding VAT

Office of Government Commerce

The following costs cover the period from April 2000 when OGC was first established to December 2003. Due to the merger of three ledger systems it has not been possible to disaggregate the April 2000 to March 2001 figures.

Spend on recruitment advertising since formation of OGC in April 2000.

Financial year	*Cost (£)*[1]
From April 2000–01	[2]191,566.13
2002–03	351,576.74
2003–04 to date	280,009.06

[1] including VAT

[2] OGC was only established in April 2000 and therefore no data exists prior to this date.

OGC Buying Solutions

Financial year	*Cost (£)*[1]
From April 2000–01	[2]73,231
2002–03	82,670
2003–04 to date	60,933

[1] including VAT

[2] OGC was only established in April 2000 and therefore no data exists prior to this date.

Office for National Statistics

Recruitment is carried out across several sites, and therefore information held centrally is limited. The data could be provided only at a disproportionate cost.

Royal Mint

Advertising expenditure 1997–2003

Financial year	*Cost (£)*[1]
1997–98	39,070.60
1998–99	53,355.87
1999–2000	64,292.58
2000–01	61,255.66
2001–02	15,375.30
2002–03	17,620.21
2003–04 to date	32,805.44

[1] excluding VAT

Valuation Office Agency

Advertising expenditure 1997–2003

Financial year	*Cost (£)*
1997–98	[1]13,308.71
1998–99	[1]20,637.36
1999–2000	[1]30,089.83
2000–01	[1]36,181.67

Financial year	Cost (£)
2001–02	[1]47,372.60

2003 to date	[2]154,814.20

[1] excluding VAT
[2] including VAT
[3] VOA accounting practices were changed to include VAT with effect from financial year 2002–03 onwards.

Departmental Relocation

Ms Walley: To ask the Chancellor of the Exchequer how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146911]

Mr. Boateng: There are no Treasury staff working in North Staffordshire or the West Midlands.

End of Year Returns

Brian Cotter: To ask the Chancellor of the Exchequer how many businesses employing *(a)* less than 50 staff and *(b)* between 50 and 249 staff have filed their employer's end of year returns electronically for each year since 2000. [147602]

Dawn Primarolo: The Inland Revenue does not have this information.

Brian Cotter: To ask the Chancellor of the Exchequer if he will make a statement on his Department's plan to bring forward regulations for the introduction of mandatory electronic filing of employers' end of year returns. [147608]

Dawn Primarolo: Following consultation two Statutory Instruments (SI 2003/2494 and SI 2003/2495) were laid on 29 September 2003 and came into force on 20 October. The first of these requires the e-filing of an employer's end of year PAYE return from May 2005 where the employer has 250 or more employees, and from May 2006 where the employer has between 50 and 249 employees. The second makes e-filing incentives available to employers with fewer than 50 employees over the five years from the 2004–05 tax year. In accordance with these regulations, the Inland Revenue has sent a letter to every employer on their database setting out the employer size band for 2004–05 and giving guidance about e-filing options.

Family Tax Credits

Mr. Gale: To ask the Chancellor of the Exchequer how many outstanding family tax credit cases were awaiting processing on 31 December 2003. [146842]

Dawn Primarolo *[holding answer 12 January 2004]:* There are currently around 20,000 claims (60 per cent. of which have been received in the past four weeks) which are waiting further information or being verified.

Financial Services

Norman Lamb: To ask the Chancellor of the Exchequer what assessment he has made of the impact outsourcing of financial services operations to foreign countries will have on the UK economy and its skilled labour market. [147640]

Ruth Kelly: Despite fears of outsourcing abroad having an adverse effect on UK employment, the performance of the UK labour market over recent years has been strong by both international and historical standards. The UK has the highest employment rate and the lowest unemployment rate among the G7 economies.

Moreover most jobs outsourced tend to be at low to intermediate skill levels. The Government's policies aim to ensure that those whose jobs are directly affected can acquire new skills and move quickly into alternative employment.

Norman Lamb: To ask the Chancellor of the Exchequer to what extent the Financial Services Sector Skills Council will duplicate the work of existing examining bodies in the financial services sector. [147641]

Ruth Kelly: The Financial Services Sector Skills Council (FSSSC) will not duplicate the work of existing examining bodies in the financial services sector.

The FSSSC will work closely with a range of industry bodies, including the Financial Services Authority and the Qualifications and Curriculum Authority (QCA) to ensure the qualifications that employers want. This will include reviewing the suitability of existing training programmes and qualifications to meet sector needs and, where there are gaps, working with awarding bodies in the sector to develop new qualifications. The QCA will retain responsibility for maintaining the rigour and fitness for purpose of the national qualifications framework, ensuring qualifications are robust and reliable measures of achievement.

Tim Loughton: To ask the Chancellor of the Exchequer how much the Financial Services Authority has levied in fines since its foundation; and how much of this has been rebated to regulated firms by way of reduced fees. [147756]

Ruth Kelly: The Financial Services Authority (FSA) has been able to levy fines on regulated bodies since 1 December 2001, and has levied £18,544,000 to date. The FSA reduces the amount charged to all fee-payers in any one financial year by the amount of financial penalties received in the preceding financial year. To date, £9,269,000 the FSA has been rebated by way of reduced fees.

Public Sector Pensions

Mr. Laxton: To ask the Chancellor of the Exchequer what assessment his Department has made of the level of pension liabilities in the public sector due to final salary pension schemes. [147766]

Ruth Kelly: The level of unfunded pension liabilities are published in the Resource Accounts of the separate schemes. The latest aggregate estimate, based on the 2001–02 accounts, is of accrued liabilities of £380 billion as at 31 March 2002. The figure will be updated when the 2002–03 Resource Accounts are published shortly.

It does not include the liabilities of the funded Local Government Pension Scheme (LGPS). The latest estimate of their liabilities were set out on 17 March

2003, *Official Report*, column 614W. It also does not include the funded liabilities of schemes in the wider public sector run by statutory corporations. Information on these schemes are not held centrally and the responsibility for them rests with the relevant sponsoring Departments.

Mr. Laxton: To ask the Chancellor of the Exchequer what steps his Department is taking to reduce the public sector pensions liabilities caused by final salary pension schemes. [147767]

Mr. Boateng: Public service pension schemes are reviewed regularly to ensure that the benefits represent value for money and continue to contribute to the overall aim of the remuneration package to recruit, retain and motivate staff. As part of this process the Government recently announced its decision to raise the normal pension age of public servants from 60 to 65 in the Green Paper "Action on Occupational Pensions" Cm 5835, June 2003. Schemes are consulting on how this might be achieved.

The pension liabilities arising from rights accrued to date cannot be adjusted: the private sector is protected by section 67 of the Pensions Scheme Act 1995 and the public services by the Superannuation Act 1972.

Small Incorporated Businesses

Mr. Jack: To ask the Chancellor of the Exchequer (1) what studies he has undertaken to determine whether small incorporated businesses are paying the wrong amounts of tax on profits extracted from their companies; [147055]

(2) what proposals he has to ensure that small scale enterprises are fully aware of the tax distinctions between their being *(a)* incorporated and *(b)* unincorporated; [147085]

(3) if he will make a statement on his proposals to ensure that the right amount of tax is paid by owner managers of small incorporated businesses on the profits extracted from their companies; [147056]

(4) if he will define *(a)* profit extraction and *(b)* acceptable profit extraction for small incorporated businesses; [147057]

(5) if he will consult small owner managed incorporated businesses on his proposals to ensure that their tax contributions are correct in the light of the contents of paragraph 5.91 of Command Paper 6042; [147082]

(6) whether it is his Department's policy to encourage sole traders or partnerships to become small limited companies; [147083]

(7) whether his proposals in paragraph 5.91 of Command Paper 6042 will include measures to help small incorporated businesses to unincorporated; [147084]

(8) whether the right amount of tax referred to in paragraph 5.91 of Command Paper 6042 includes National Insurance. [147086]

Dawn Primarolo: The Government have introduced a number of measures to support unincorporated businesses, including cutting the basic rate of income tax, the introduction of the 10p starting rate of income tax, permanent 40 per cent. first year capital allowances and the introduction of the VAT flat rate scheme.

Paragraph 5.91 of the 2003 Pre-Budget Report (Command Paper 6042) announced that the Government would bring forward proposals, to ensure that the right amount of tax is paid by owner managers of small incorporated businesses on the profits received from their company, protecting the benefits of low tax rates for the majority of small businesses.

The appropriate details and definitions will be set out in the Budget Report.

Mr. Jack: To ask the Chancellor of the Exchequer how many owner managed small incorporated businesses pay tax. [147058]

Dawn Primarolo: There is currently no precise definition within current tax legislation of 'owner manager'. This issue is among those being considered by the Government in the context of its announcement in paragraph 5.91 of the 2003 Pre-Budget Report.

Tax Credits

Mr. Webb: To ask the Chancellor of the Exchequer how many child and working tax credit recipients have reported changes in circumstances since being informed of their initial award. [146763]

Dawn Primarolo *[holding answer 12 January 2004]:* Information is not available in the form requested.

UK Company Profitability

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer (1) what the profitability of UK companies with a turnover of *(a)* less than £1 million, *(b)* £1–20 million, *(c)* £20–50 million, *(d)* £50–100 million and *(e)* more than £100 million has been in each quarter since 1997; [148180]

(2) what the profitability of UK companies with *(a)* 1–49 employees, *(b)* 50–99 employees, *(c)* 100–249 employees, *(d)* 250–499 employees, *(e)* 500–999 employees and *(f)* more than 1,000 employees has been in each quarter since 1997. [148181]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Mr. Colin Mowl to Mr. Stephen O'Brien, dated 14 January 2004:

The National Statistician has been asked to reply to your Parliamentary Questions on profitability of UK companies by turnover and also by number of employees. I am replying in his absence. (148180, 148181)

Unfortunately the Office for National Statistics (ONS) do not produce statistics on profitability of UK companies by turnover or by number of employees. The ONS does produce a quarterly First Release called the Profitability of UK Companies, which is available on the ONS website at: http://www.statistics.gov.uk/pdfdir/profit0104.pdf

The Release shows the profitability of all UK companies and also for United Kingdom continental shelf companies, manufacturing companies and service companies. The profits data used in calculating these estimates comes from a relatively small sample inquiry of companies. The sample is too small to enable us to produce estimates in the detail requested.

Written Answers to Questions

Thursday 15 January 2004

TRANSPORT

Cycling

Mr. Hancock: To ask the Secretary of State for Transport if he will make a statement on his Department's strategy for *(a)* increasing cycle journeys and *(b)* reducing cycling injuries and deaths. [146827]

Mr. Jamieson: We are improving cycling infrastructure and have initiated the Cycling Projects Fund to give over £4 million for local cycling facilities and training. On the safety front, we are promoting training and measures which cyclists can take to protect themselves, such as making themselves conspicuous. We are also improving training and testing for motorists.

Euro

Keith Vaz: To ask the Secretary of State for Transport in how many speeches during 2003 he declared support for the Government's policy on the euro. [147294]

Mr. McNulty: I refer my hon. Friend to the reply given on 12 January 2004, *Official Report*, columns 516–17W by my hon. Friend the Financial Secretary.

Inter-city Services (Waterloo)

Mr. Wiggin: To ask the Secretary of State for Transport by what routes passengers will be able to travel from Manchester to Waterloo to connect with the Eurostar following the withdrawal of existing services; and whether the Newport to Waterloo service will be withdrawn in May. [147969]

Mr. McNulty: Passengers can travel to London Euston and connect with London Underground services to Waterloo, a journey of around 3 hours 20 minutes (the Manchester—London Waterloo direct service takes over six hours). Direct services between Newport and London Waterloo will be withdrawn from May. However, alternative services will continue to operate to London Paddington.

DEFENCE

Communications

Mr. Soames: To ask the Secretary of State for Defence when the Cormorant system will enter into service; and what delays have occurred in the programme. [147277]

Mr. Ingram: The Cormorant Communication System has an approved in-service date of May 2004 which is expected to be achieved. This will be some 19 months later than the latest date originally approved for entry into service.

Decoy Munitions

Mr. Key: To ask the Secretary of State for Defence which contractors tendered for the design, development, build and supply of cartridge RF distraction Mark 216 Model 3; when the winner will be announced; when production will commence; and if he will make a statement. [146632]

Mr. Ingram *[holding answer 13 January 2004]:* The closing date for receipt of bids from industry to supply the Seagnat 216 Model 3 RF Distraction Round was 18 December 2003. I am withholding further details in accordance with Exemption 7 of the Code of Practice on Access to Government Information as the tender evaluation process is at a very early stage and is classified Commercial in Confidence. It is anticipated that the contract will be let by the end of May 2004, enabling production to commence to meet the stated in service date for the round, which is December 2007.

Defence Information Infrastructure Programme

Mr. Soames: To ask the Secretary of State for Defence what funding is being made available to the Defence Information Infrastructure (Future) Deployed programme. [147279]

Mr. Ingram: We are continuing to investigate the full requirement and costs for an enhanced Defence Information Infrastructure (DII) (Future-Deployed) capability, and no formal budget has yet been approved. Funding for some elements of the programme will come from existing provision for in-service systems that DII (Future-Deployed) will subsume, such as updates to current Navy and Army administrative information systems. Any additional funding required will be sought through the normal departmental resource planning process.

The Ministry of Defence is also investing significantly in other programmes to develop our information infrastructure for deployed operations, such as Skynet 5 (satellite communications services); Cormorant (voice and data communications services to support Joint Rapid Reaction force deployments); Falcon (tactical formation level secure communications), and Bowman (tactical secure voice and data system).

Leak Inquiries

Dr. Julian Lewis: To ask the Secretary of State for Defence what inquiries his Department has conducted into alleged leaks from members of staff since 1997; and on what occasions the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147007]

Mr. Hoon *[holding answer 12 January 2004]:* Since 1997, the Ministry of Defence has investigated 47 suspected leaks. In line with exemptions 1(a) and 7(b) set out in Part II of the Code of Practice on Access to Government Information, it has been the practice of successive Governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Major Ian Hill

Annabelle Ewing: To ask the Secretary of State for Defence what assessment he has made of the findings of the Cheshire Coroner, regarding the death of Major Ian Hill; and if he will make a statement. [147143]

Mr. Caplin: We are aware of the Cheshire Coroner's conclusion of 24 November 2003 as to the death of Edward Ian Hill. To facilitate our understanding of the Cheshire Coroner's conclusion, officials wrote to him on 19 December 2003 under the Coroner Rules of 1984, requesting copies of reports of the post mortem examination and any special examinations, notes of evidence and documents put in evidence at the inquest. We understand that delivery of the letter was delayed. The Coroner has confirmed that he is dealing with our request.

Medical Flights

Mr. Tynan: To ask the Secretary of State for Defence how many medical flights, involving civilians, were conducted by military aircraft between Scotland and other parts of the United Kingdom in each of the last five years. [147521]

Mr. Caplin: The information requested is not held centrally and could be provided only at disproportionate cost.

We do not hold information about Medevac flights in a form which allows easy analysis of the point of origin and final destination of each trip. Those flights which cross the borders between Scotland and other parts of the United Kingdom are thought to be few in number and mainly confined to transplant patients.

Microsoft

Norman Lamb: To ask the Secretary of State for Defence whether negotiations between his Department and Microsoft regarding future licensing arrangements have been completed; and if he will make a statement. [147552]

Mr. Ingram: The Ministry of Defence has now completed negotiations with Microsoft regarding the continuation of future licensing arrangements for a range of software products (the 'Enterprise Agreement'). However, formal signature has not been completed at this stage. The new licensing arrangements will deliver savings to the Department and will come into effect in April 2004.

MOD Police Pensions

Mr. Peter Duncan: To ask the Secretary of State for Defence for what reason employment services with the armed service is not considered relevant for pensions entitlement for employees who transfer to the MOD police. [147681]

Mr. Caplin: Under the rules of the Principal Civil Service Pension Scheme, a civil servant whose pensionable service begins on or after 1 January 1986 may apply in writing to bring in a transfer value in respect of any accrued pension benefits within 12 months of the date on which he or she takes up pensionable service in the PCSPS.

The Public Sector Transfer Club (the Club) consists of a number of occupational pension schemes which have agreed reciprocal transfer arrangements. The Armed Forces Pension Scheme (AFPS) is a participant of the Club. Members joining the PCSPS before 6 April 1988 had to apply for a Club transfer within six months of becoming a member. Members joining after 6 April 1988 have to apply within 12 months of doing so.

Before this, arrangements were set up in 1979 to enable transfer between the AFPS and the PCSPS under which those who had left the armed forces on or after 1 April 1975 without immediate pension benefits could apply for a transfer into the PCSPS. The deadline for applications was 30 June 1980.

Reserve Forces

Mr. Swayne: To ask the Secretary of State for Defence how many appeals have been made by employers against compulsory call-out notices to their employees in each of the last five years; and how many of those appeals were allowed in each year. [R] [147134]

Mr. Caplin: As at 12 January 2004 only 41 employers had lodged an appeal against the compulsory call-out of their employees under the appeals procedure set out in Part IX of the Reserve Forces Act 1996. Of these, seven were awarded to the Service authority, one was awarded to the employer, one remained outstanding and 32 were withdrawn before going to appeal. All of these appeals were lodged in 2003.

Mr. Swayne: To ask the Secretary of State for Defence how many compulsory call-out notices were issued to serving members of the Territorial Army in 2003; and how many of the recipients were actually mobilised. [R] [147135]

Mr. Caplin: During 2003 9,765 compulsory call-out notices were issued to serving members of the Territorial Army. Of these, 6,681 were subsequently mobilised.

Mr. Swayne: To ask the Secretary of State for Defence how many individuals have been mobilised after receiving a compulsory call-out notice more than once in the last three years. [R] [147262]

Mr. Caplin: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Swayne: To ask the Secretary of State for Defence how many members of the Territorial Army mobilised after receiving a compulsory call-out notice have served for *(a)* up to four months, *(b)* four to six months, *(c)* six months to one year and *(d)* over one year in the last three years. [R] [147263]

Mr. Caplin: The number of Territorial Army personnel who have been mobilised, during the period 1 January 2001 to 31 December 2003, after receiving a compulsory call-out notice is shown according to length of service in the table.

	Number
Up to four months	3,299
Four to six months	1,573
Six months to one year	3,137
Over one year	43

Mr. Swayne: To ask the Secretary of State for Defence pursuant to his written statement of 7 January 2004, *Official Report*, column 9–10WS, on reserve forces, what his policy is in respect of *(a)* full-time regular Service and *(b)* compulsory call-out when making provision for medium-sized operations of low intensity. [R] [147471]

Mr. Caplin: The reserve forces are an integral part of the United Kingdom's military capability for a wide variety of different types of operations. Many factors will determine the number of reservists required to support a particular operation and whether it is necessary to mobilise reservists compulsorily. These factors include: the size of the operation; other concurrent operations; the time available to set up and train a force before deployment; the expected length of a particular operation; the individual skills and trades required; and the pool of people available with the requisite qualifications.

Mr. Soames: To ask the Secretary of State for Defence how many *(a)* Territorial Army, *(b)* Royal Naval Reserve and *(c)* RAF Reserve personnel remain available for mobilisation. [147725]

Mr. Caplin *[holding answer 13 January 2004]:* As at 1 December 2003, the following Volunteer Reserve personnel were available for mobilisation:

Territorial Army: 28,400

Royal Navy Reserve: 2,670

Royal Marines Reserve: 750

Royal Auxiliary Air Force: 1,300.

These figures include untrained strengths (while untrained, they have a call-out liability), but exclude those who are currently mobilised, those serving on Full Time Reserve Service, Additional Duties Commitment and members of the Officer Training Corps.

Mr. Swayne: To ask the Secretary of State for Defence how much has been paid in *(a)* reservist standard award and *(b)* reservist hardship award to mobilised reservists in each of the last five years; and how many individuals were involved in each case. [R] [147260]

Mr. Caplin: The information requested is not centrally held and could be provided only at disproportionate cost.

Mr. Swayne: To ask the Secretary of State for Defence what changes to reservist standard award are planned; and when they will be implemented. [R] [147261]

Mr. Caplin: The Defence White Paper made clear that work is in hand to produce new regulations governing the award of both Reservist Standard Award and Reservists Hardship Award. The new regulations will take into account the lessons arising from the mobilisation for Iraq. It is too early to state what the finalised proposals might be. However, once the MOD has completed our deliberations we plan to publish a consultation document to seek the views of interested parties prior to the issue of the final regulations.

Service Children's Education

Mr. Swayne: To ask the Secretary of State for Defence how many children currently benefit from boarding school allowance; and what the cost of the scheme is in 2003–04. [147138]

Mr. Caplin: The cost of the scheme in each of the school terms in 2003 is as follows:

Term	*Number of children*	*Cost (£)*
Spring 2003 (January-March)	4,332	13,660,611.01
Summer 2003 (April-July)	4,406	13,655,127.27
Autumn 2003 (September-December)	4,277	14,744,626.76
Total cost		42,060,365.04

Mr. Swayne: To ask the Secretary of State for Defence what the funding per pupil by Service Children's Education was in each of the last five years. [147140]

Mr. Caplin: The Agency's Annual Report and Accounts for the past five years contain details of the Annual Operating Costs of Service Children's Education (SCE) together with the pupil numbers served. Copies of these are available in the Library of the House.

It is not possible to provide the information in the format requested. The Quinquennial Review Team recognised that simple cost comparisons between Service Children's Education (SCE) and local education authorities in the United Kingdom cannot be made due to a number of factors. These include the differences in funding mechanisms between the two parent Departments, the accounting requirements placed on SCE as a Defence Agency, and most notably the additional costs incurred by the Agency brought about by operating in an overseas environment.

In addition to the Annual Reports, a series of cost calculations showing a number of different tabulations for pupil costs are contained at Annex E to the Quinquennial Report published in May 2003, a copy is which is available in the Library of the House.

Mr. Swayne: To ask the Secretary of State for Defence if he will list the academic and education targets set for Service Children's Education schools in each of the last five years, and what assessment he has made of the extent to which these targets have been met or exceeded. [147141]

Mr. Caplin: In common with other Defence Agencies, Service Children's Education publishes its Annual Report and Accounts each year. The Agency's Key Targets and performance against them are contained within these documents, copies of which are held in the Library of the House. The Annual Report covering 2002–03 is scheduled for publication in January 2004.

Tornado

Norman Lamb: To ask the Secretary of State for Defence whether all the rear weapon suspension points on all the shoulder pylons fitted to RAF Tornado GR4 aircraft fully comply with Military Standard 1760; and if he will make a statement. [147549]

Mr. Ingram: Military Standard 1760 is specifically concerned with the location of electrical connector access points in relation to the weapon suspension points on the shoulder pylons. Due to space constraints the weapon electrical connector access points cannot be located at the position defined by Military Standard 1760 on the Tornado GR4. NATO Stanag 3558 does

however, provide the option to locate the electrical connector at either the Military Standard 1760 position or at a specified alternative location; it is this alternative that has been utilised on the Tornado GR4.

WALES

Government of Wales Act

Ian Lucas: To ask the Secretary of State for Wales what functions have been transferred to the National Assembly for Wales pursuant to section 22 of the Government of Wales Act 1998 since 1998. [147047]

Mr. Hain: The functions are too numerous to list but they can be found in the following National Assembly for Wales (Transfer of Functions) Orders:

1999 No.672: which made the initial transfer of the functions of the Secretary of State for Wales to the Assembly;

1999 No.2787: which transferred functions under the Water Industry Act 1999;

2000 No.253: which made amendments to the original 1999 Order;

2000 No.1830: which entitled the Assembly to be joined as a party in relevant Human Rights Act cases;

2001 No.3679: which relates to Intervention Board functions.

Procurement

Norman Lamb: To ask the Secretary of State for Wales if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147580]

Mr. Hain: The Wales Office has not outsourced any jobs to offshore companies and has no plans to do so in the future.

Richard Commission Report

Mr. Wiggin: To ask the Secretary of State for Wales what consultations he has had with the First Minister of the National Assembly for Wales on the forthcoming Richard Commission report. [141188]

Mr. Hain: The First Minister and I meet regularly and we have discussed the Richard Commission on a number of these occasions.

CULTURE, MEDIA AND SPORT

Live Music Forum

Lady Hermon: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the remit of the Government's taskforce The Live Music Forum; and whether it extends to Northern Ireland. [147573]

Estelle Morris: The Live Music Forum will work with the music industry and other key stakeholders to:

1. take forward the Ministerial commitment to maximise the take-up of reforms in the Licensing Act 2003 relating to the performance of live music;

2. promote the performance of live music generally;

3. monitor and evaluate the impact of the Licensing Act 2003 on the performance of live music; and

4. make recommendations for further action.

The Licensing Act 2003 applies to England and Wales. Therefore, the Live Music Forum's remit extends only to those countries.

Ofcom

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) what the projected total annual salary bill of Ofcom is for its first year of operation; [145499]

(2) how many Ofcom employees will have an annual salary of £100,000 or over; [145500]

(3) how many people will be employed by Ofcom; [145501]

(4) what the estimated total cost is of setting up Ofcom; [145502]

(5) if she will estimate the *(a)* set-up and *(b)* annual running costs of the Ofcom buildings. [145503]

Estelle Morris: These are matters for the Office of Communications (Ofcom). DCMS officials have, therefore, asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Support

Mr. Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs what the level of *(a)* Green Box support, *(b)* Amber Box support and *(c)* Blue Box support is from the UK Government to agriculture. [146645]

Alun Michael: The level of agricultural support, categorised by Green, Amber and Blue boxes, is notified to the World Trade Organisation for the European Union and is not separately identified by member state. The latest published notification of domestic support for the European Union is for the marketing year 1999–2000 and records the level of Green Box support as €19.9 billion; Amber Box €47.9 billion; and Blue Box €19.8 billion.

Climate Change

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will assess the implications for the United Kingdom of the article on climate change impacts in the United Kingdom and other countries over the next half century by Professor Chris Thomas of Leeds University, published in *Nature* in January. [147688]

Mr. Morley: The article in *Nature* indicated that about a quarter of the land species in the areas studied could be committed to extinction in 2050 under mid-range global climate warming scenarios. However the article did not provide a prediction for extinction rates in the UK.

The Department, along with the devolved Administrations, statutory nature conservation agencies and non-governmental organisations, is contributing to an ongoing research programme on the impacts of climate change on biodiversity in the UK. Results suggest that as climate changes, the distribution of species and the composition of habitats will change. With warmer temperatures, some northern species are likely to retreat, while southern species may be able to expand their ranges. Movement of some species may be strongly impeded by our highly fragmented landscapes, possibly leading to local extinctions.

The Department also plans to commission an update of its "Review of the impact of climate change on UK species and habitat conservation (2000)". The latter report is available on the internet www.defra.gov.uk/wildlife-countryside/climatechange/nature/index.htm and will be placed in the Library of the House.

Departmental Relocation

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment her Department has made of the benefits of relocation of staff to North Staffordshire; and if she will make a statement; [146863]

(2) what assessment her Department has made of the effect of possible relocation of staff in her Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if she will make a statement; [146892]

(3) what assessment she has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146879]

(4) what plans she has to establish procedures for assessing the impact of possible re-location of staff in her Department to the regions; and if she will make a statement. [146923]

Alun Michael: I refer my hon. Friend to the answer given by my right hon. Friend the Chief Secretary to the Treasury, on 12 January 2004, *Official Report*, column 516W.

Euro

Keith Vaz: To ask the Secretary of State for Environment, Food and Rural Affairs in how many speeches during 2003 she declared support for the Government's policy on the euro. [147303]

Alun Michael: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury on 12 January 2004, *Official Report*, column 516W.

European Definitions (Fruit and Vegetables)

Sir Teddy Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she will provide to fruit and vegetable retailers following the Law Lords' decision on the case against Asda relating to European Union definitions of fruit and vegetables. [146719]

Alun Michael: No new guidance is required. The Law Lords' decision does not affect either the EU marketing standards themselves or the existing obligations of fruit and vegetable retailers. Guidance is already available from Defra's Horticultural Marketing Inspectorate, who advise on and enforce the standards, and from the Defra website http://www.defra.gov.uk/hort/hmi.htm. Information on this site includes copies of the standards, contact details for inspectors and a retailers' guide.

Food Exporters

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what sums were made available to *(a)* UK and *(b)* EU companies for the restitution of funds to assist with exporting costs in each of the last three years. [147051]

Alun Michael: During the years 2001, 2002 and 2003 the Rural Payments Agency paid approximately £125.4 million, £138.7 million and £170.2 million respectively in export refunds to companies claiming in the United Kingdom.

For the whole of the European Union, payments made during 2000 and 2001 amounted to 5.6 billion euros and €3.4 billion respectively. The figure for 2003 is not yet available.

GM Rice

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what advice she has received from the Advisory Committee on Releases into the Environment on the proposal by Bayer to import GM rice into the EU for processing and animal feed. [148307]

Mr. Morley: The application by Bayer for the importation of herbicide tolerant rice (event LLRICE62) into the European Union is being considered under the procedures set out in Directive 2001/18/EC. The UK is the lead member state and therefore undertakes the initial assessment. The Government has been advised by ACRE that "This GM rice does not pose a risk to human health and the environment. The marketing of this product for importation and processing in the UK will be no different from that of other rice imported for processing and animal feed purposes. In coming to this conclusion ACRE have taken account of the advice of the Advisory Committee on Animal Feedingstuffs (ACAF). ACRE

also recommends that reports of post market monitoring for general surveillance of this product be provided to the regulatory authorities on an annual basis". The complete ACRE advice is available on the Defra website at: www.defra.gov.uk/environment/gm/regulation/euconsent.htm.

The application and the UK's assessment will now be assessed by other EU member states and the Commission before a collective decision is made. Consent, if granted, would not permit cultivation of the rice in the EU nor, without separate approval, could it be used in human food.

Horse Passport

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether a veterinary inspection and certification is necessary prior to the issue of a horse passport. [147945]

Alun Michael: No.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether the horse passport regulations apply to the wild horses on Bodmin Moor. [147947]

Alun Michael: Yes.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to change the requirement for veterinary certification on horse passports. [147948]

Alun Michael: The silhouette on a passport must be signed by a veterinary surgeon or someone deemed competent to do so by the Passport Issuing Organisation. This is clearly the intention of the legislation but recently we became aware that some passport issuing organisations were allowing individual horse owners to complete and sign the silhouette. Independent verification is clearly essential. In underlining this point to the organisations I have proposed that the owner may complete the silhouette provided a microchip is inserted at the same time. This reflects our approach of working with the industry and seeking to be practical rather than gold plating the legislation.

Marine Stewardship Report

Mr. Sarwar: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has made to introduce legislation to protect and manage the marine environment following the publication of the Marine Stewardship Report. [147538]

Mr. Morley: The Marine Stewardship Report announced a Review of Controls on Development in Marine and Coastal Waters. It also announced a Pilot project in the Irish Sea as the next step of the Review of Marine Nature Conservation. Both of these Reviews are examining whether new arrangements, including new legislation, are required to better manage and protect the marine environment. The Government will take a decision on whether new legislation is needed once it has seen the recommendations from these Reviews.

Single Farm Payment

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the Government's policy is on the single farm payment. [148308]

Alun Michael: We hope to make an announcement on the model for allocating entitlements under the new single payment scheme in a matter of weeks.

Tuberculosis

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned into illegal culling activity in TB hot spot areas. [148304]

Mr. Bradshaw: As part of the Randomised Badger Culling Trial, a proportion of setts within the survey only treatment areas are regularly checked for evidence of illegal activity, including badger digging and other signs of unauthorised culling or interference.

There is currently no Defra commissioned research on illegal culling outside of the badger culling trial areas.

CABINET OFFICE

E-Government Services

Mr. Dhanda: To ask the Minister for the Cabinet Office what new proposals he has to extend e-Government services. [146494]

Mr. Alexander: 66 per cent. of Government services are now available on-line. Departments continue to make progress towards our target for making all services available electronically by 2005, with key services achieving high levels of take-up.

Later this year, we will pilot an enhanced customer offering for the delivery of electronic services designed around the needs of customers.

Leak Inquiries

Dr. Julian Lewis: To ask the Minister for the Cabinet Office what inquiries his Department has conducted into alleged leaks from members of staff since 1997; and on what occasions the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147010]

Mr. Alexander: Since 1997, my Department has investigated 10 suspected leaks.

In line with Exemptions 1*(a)* and 7*(b)* set out in Part II of the Code of Practice on Access to Government Information, it has been the long-standing practice of successive governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Small Business Regulation

Brian Cotter: To ask the Minister for the Cabinet Office if he will estimate the total savings for small businesses that would accrue from those measures listed in the Regulatory Reform Action Plan, which have yet to be implemented. [147606]

Mr. Alexander: The updated Regulatory Reform Action Plan (RRAP), which was published in December 2003, contained over 650 deregulatory measures, many of which will benefit small businesses. Examples of these are highlighted throughout the RRAP. Individual Regulatory Impact Assessments will be produced by the relevant Departments identifying benefits and savings from these measures as appropriate.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Bercow: To ask the Secretary of State for International Development how much money has been allocated by his Department to Afghanistan in each of the last three years; and how much has been pledged for *(a)* 2004–05 and *(b)* 2005–06. [148101]

Mr. Gareth Thomas: The table shows the allocations made to Afghanistan by the Department for International Development Afghanistan in each of the last three years and how much has been allocated for financial years 2004–05 and 2005–06.

£ million

	FY 01–02	*FY 02–03*	*FY 03–04*	*FY 04–05*	*FY 05–06*
DFID Afghanistan Programme	46	75. 5	55	55	60
Global Conflict Prevention Pool (joint DFID-FCO-MOD)		13	16.8	18	tba

We also provide about £40 million each year to Afghanistan through multilateral channels like the United Nations and EC.

Mr. Bercow: To ask the Secretary of State for International Development what proportion of the financial assistance from his Department to Afghanistan in 2003–04 has been directed towards the long-term development of the country. [148582]

Mr. Gareth Thomas: DFID has allocated £55 million so far to Afghanistan this year, in addition to contributions to the joint FCO-DFID-MOD Global Conflict Prevention Pool and various multilateral organisations. £37.5 million of this has been disbursed to date. All of this financial assistance contributes to the long-term development of Afghanistan, including the £8 million we have provided in humanitarian assistance to support returning refugees, health and education.

Street Children

Mr. Bercow: To ask the Secretary of State for International Development how many street children he estimates there are in each country of Asia. [148130]

Mr. Gareth Thomas: It is difficult to provide accurate data on the overall numbers of street children in Asia or to provide a breakdown by country. Estimates are unreliable and coverage is patchy. According to UNICEF there are roughly about 25 million children estimated to be living on the streets in Asia. However there is no reliable information for many Asian countries. In India the Ministry of Social Welfare estimates that there are between 75,000 and 250,000 street children in Calcutta alone. UNICEF estimate there are 15,000 street children in Vietnam and 16,000 in Sri Lanka.

The fundamental cause of children living on the street is poverty. This is exacerbated by chronic hunger, lack of school places and family conflict. Between 30 per cent. to 50 per cent. of children in South Asia are malnourished. Despite improvements in education provision around 41 per cent. of children drop out of school before they reach the fifth grade. Between 30 per cent. to 55 per cent. of school age children are working. Many of these children are exploited through child labour or are involved in the sex industry. Unless these problems are addressed the problems of street children in Asia will continue to grow.

Mr. Bercow: To ask the Secretary of State for International Development how much money has been provided by his Department in each of the last six years to tackle the problem of street children in Asia; what proportion of the money has been spent by whom; and with what results. [148131]

Mr. Gareth Thomas: Urban poverty, homelessness, lack of education and the demand for child labour forces children to leave their families and live on the streets in Asia. It is important that these underlying problems are addressed as well as helping street children directly. Our bilateral programmes in Asia aim to alleviate family poverty more generally as a basis for addressing the needs of street children.

Many of our programmes support NGO activities that advocate for the rights of children and work directly with street children. In Bangladesh we are supporting two NGOs to provide informal education to vulnerable working children in urban areas at a cost of £8 million. In Burma we have been supporting a street and working children project with World Vision at a total cost of £450,000. In India we are supporting a local NGO to work with child street vendors and have several other small projects in the pipeline focusing on vulnerable working children in urban areas.

We are providing £1.6 million to Save the Children to work directly with vulnerable children in the Mekong sub region. This project aims to prevent poor rural children being trafficked to urban areas in the region for purposes of sexual exploitation and under age employment. This helps to reduce the potential for these children to end up on the street.

Other DFID activities also contribute directly to addressing the problems of street children. Improving basic education for every child is the main contribution that Asian Governments can make to reducing child

poverty and indirectly to reducing the numbers of street children. Support to basic education is a major focus of our bilateral programme in Asia and in 2001–02 DFID committed £130 million to support this.

Another example is the £12 million urban poverty reduction project in Cochin in India that has helped to improve basic services for poor families and their children.

NORTHERN IRELAND

Provisional IRA

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of the remaining amounts of weaponry and ammunition held by the Provisional IRA. [147042]

Jane Kennedy: This information requested is only available from intelligence sources and in line with Part 2 of The Code of Practice on Access to Government Information, it would be inappropriate for the Government to comment. The Government and the Independent International Commission on Decommissioning have consistently made clear that they will continue to pursue complete decommissioning by all paramilitary organisations to ensure that there is a permanent end to paramilitary activity in all its forms.

Crime Statistics (Coleraine)

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will list the total value of *(a)* house burglaries and *(b)* attacks on the person in the Coleraine borough in the last three years; and what additional resources have been made available to address this problem. [145103]

Jane Kennedy: The information is not fully available in the format requested and could be obtained only at disproportionate cost.

The table sets out the number of domestic burglary and personal robbery offences within Coleraine District Council.

	Domestic burglaries	*Personal robberies*
2000–01	228	27
2001–02	405	28
2002–03	304	30

Depending on its nature, an 'attack on the person' can be recorded separately as a 'violent crime' (a category which also includes all offences against the person, sexual offences) or as an 'offence against the person' (this also includes assaults, intimidation and harassment offences), but a statistical breakdown could be established only at disproportionate cost.

It is not possible to establish the total value of property stolen or damaged, if any, as a result of these offences as there is no requirement for the police to keep a record of individuals' losses or the cost of repairs to properties.

The police in Coleraine are tackling this type of crime through a number of means including intelligence-led policing and the provision of a full-time analyst dedicated to providing crime pattern analysis and the identification of crime hotspots. Additionally, a local crime team has been initiated and is being supported by a technical support group in respect of specific operations and a property-marking scheme is due to be piloted this year in a particular crime hotspot within the district council area.

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many *(a)* house searches, *(b)* arrests and *(c)* convictions have taken place involving members of Loyalists paramilitary groups in the Coleraine borough in each year since 2000. [145104]

Jane Kennedy: To supply the information specifically with regard to Loyalist groups would incur a disproportionate cost. However, the following table provides details of the number of house searches carried out in the Coleraine borough since 2000. Authorisations were issued to search dwelling houses for munitions, transmitters, scanning receivers and wireless apparatus.

Financial year	*Number of house searches*
2000–01	22
2001–02	25
2002–03	4
2003–04 (to 30 September)	7

Helicopter Accident (Lough Foyle)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the results were of the investigation into the accident involving a military helicopter in Lough Foyle, County Londonderry on 19 July 2002. [147045]

Mr. Caplin: I have been asked to reply.

The Board of Inquiry into the accident is not yet complete. The investigation is expected to be completed later in the year and I will write to the hon. Member with the outcome and a copy of my letter will be placed in the Library of the House.

Local Government Officers Superannuation Fund

Mr. Tynan: To ask the Secretary of State for Northern Ireland what assessment he has made of the current funding level of the Northern Ireland Local Government Officers' Superannuation Fund. [147533]

Angela Smith: The Northern Ireland Local Government Officers' Superannuation Committee is required, by regulation, to obtain an actuarial valuation of the assets and liabilities of its pension fund every three years. The next actuarial valuation exercise takes place on 31 March 2004. Each quarter the Committee and the fund's actuary monitor the position and the Department of the Environment is advised accordingly, on a regular basis.

Mr. Tynan: To ask the Secretary of State for Northern Ireland what the estimated additional cost of a rise in the current employer contribution rate to 11.9 per cent. for the Northern Ireland Local Government Officers'

Superannuation Fund would be to his Department's annual budget; and whether the spending plans for 2005–06 reflect such a possible increase. [147534]

Angela Smith: For all employing authorities contributing to the Northern Ireland Local Government Officers' Superannuation Fund, the estimated cost of an increase from the current employer contribution rate of 4.6 per cent. to 11.9 per cent. would incur further contribution income amounting to £32,605,830 in one year. There are currently 209 employing authorities, including district councils, education and library boards, the Northern Ireland Housing Executive, Housing Associations and certain schools and colleges, all of which would have to budget for any increase.

The rate of 11.9 per cent. is, however, at this stage, an indication of the potential required increase and the position will be determined when the actuarial valuation of the fund, as at 31 March 2004, is obtained by the Northern Ireland Local Government Officers' Superannuation Committee. It is anticipated that a stepped approach to increasing contribution rates would be adopted, over the period 1 April 2005 to 31 March 2007, The position would also be reassessed at the 31 March 2007 valuation. Efforts would be made to keep annual increases in the contribution rate within the range of 2 per cent. to 4 per cent. of pensionable payroll. 2005–06 spending plans do not, as yet, take account of any potential increase.

Paramilitary Beatings

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many paramilitary beatings were reported in each of the last six years. [146307]

Jane Kennedy: The information requested is outlined in the following table.

Number of casualties as a result of paramilitary style assaults

	By Loyalist	*By Republican*	*Total*
1998	89	55	144
1999	90	44	134
2000	78	54	132
2001	93	53	146
2002	89	50	139
2003	102	46	148

Prison Service

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland whether the *(a)* Director General and *(b)* Director of Operations of the Northern Ireland Prison Service have been provided with accommodation on the Stormont estate. [146174]

Jane Kennedy: Neither *(a)* the Director General nor *(b)* the Director of Operations of the Northern Ireland Prison Service has been provided with accommodation on the Stormont Estate.

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland what the cost to public funds has been of providing accommodation in the Stormont Estate for the Director General and Director of Operations of the Northern Ireland Prison Service. [147219]

Jane Kennedy: It is standard practice for office accommodation for all civil servants to be arranged by their individual agency/department.

In the case of the Director General and Director of Operations of the Northern Ireland Prison Service, office accommodation in the Stormont Estate is provided through Northern Ireland Prison Service Headquarters at Dundonald House.

PRIME MINISTER

Government Buildings

Gregory Barker: To ask the Prime Minister (1) if he will make a statement on the rules regarding the use of party political advertising material in Government buildings; [148160]

(2) when the guidance on the use of Government buildings for party political purposes was last updated; [148058]

(3) what measures are taken by his officials to enforce the rules regulating the party political use of Government buildings; and how many times they have been breached since 1997. [148059]

The Prime Minister: Section 6 of the Ministerial Code, which was last revised in June 2001, provides guidance on the use of Government property for party political purposes. Section 3 of the Civil Service Code, which was last revised in May 1999, is also relevant and it is for each Department to enforce the rules. No central records on this are held.

Honours Committee

Mr. Gordon Prentice: To ask the Prime Minister whether the source of the leaked minutes of the Honours Committee has been found; and if he will make a statement. [148399]

The Prime Minister: In order to safeguard security and investigative arrangements, it has been the practice of successive governments not to comment on the conduct and outcome of leak inquiries.

Special Advisers

Mr. Laws: To ask the Prime Minister (1) what the *(a)* number and *(b)* salary cost of special advisers was in each Department in each year from 1995–96 to 2002–03; and if he will make a statement; [147656]

(2) what the total salary cost for special advisers is estimated to be for 2003–04; and how many special advisers there are in each pay band, broken down by Department. [147657]

The Prime Minister: Since July 2002, I have published on an annual basis details of the number of special advisers by pay band and Department and their overall cost. Information for the financial years 2002–03 and 2003–04 is available in the Library of the House. The total salary cost for special advisers in 2003–04 will be published as soon as the information is available at the end of the financial year.

For information for the period 1995–96 to 2000–01, I refer the hon. Member to the answer the Minister for the Cabinet Office gave to him on 31 January 2003, *Official Report*, columns 1056–57W.

CONSTITUTIONAL AFFAIRS

Access to Justice

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment the Department has made of the extent to which *(a)* the closure of county magistrates courts and *(b)* the pressure on the Courts Service's outlying civil and family estate affect the distance people are required to travel to have access to justice in each region. [147673]

Mr. Leslie: The extra time and distance people are required to travel is always carefully considered when magistrates courts are closed. Other factors taken into consideration are workload, the facilities available and the costs of renovations which would be required to bring a court up to standard. All of these are assessed when I consider any appeal on a magistrates court closure.

The Court Service has been working with the Magistrates Courts Committees to look at the opportunities to share court accommodation to ease the pressure on the court estate and thereby improve access to justice.

Asylum

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent discussions he has had with the Secretary of State for Home Affairs on delivering an efficient asylum process. [146671]

Mr. Lammy: In the last 12 months the Lord Chancellor and then the Secretary of State and Lord Chancellor has had eight separate meetings which were scheduled to discuss asylum and 15 separate meetings which were scheduled to discuss reform of the criminal justice system with the Home Secretary. They will also have discussed these issues in the context of other meetings.

The Secretary of State for Constitutional Affairs and Lord Chancellor and I work closely with the Secretary of State for Home Affairs on asylum issues and meet regularly.

Mr. Malins: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many asylum appeals were considered by *(a)* the Court of Appeal and *(b)* the House of Lords in each of the past two years; and how many such appeals succeeded. [143359]

Mr. Lammy: During the two-year period between 1 December 2001 and 30 November 2003, the Court of Appeal Civil Division made decisions in 248 appeals which were classified as relating to Immigration and Asylum matters. Five of these appeals were brought by the Secretary of State.

Of these, 64 were allowed by the court, two of which were brought by the Secretary Of State.

These figures do not include applications for permission to appeal.

We have no information on how many asylum appeals are considered by the Appellate Committee of the House of Lords.

Correspondence

Mr. Kaufman: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he will reply to the letter to him dated 25 November 2003 from the right hon. Member for Manchester, Gorton with regard to Jahangir Shah. [147612]

Mr. Leslie: A reply to my right hon. Friend was signed by the Secretary of State for Constitutional Affairs and Lord Chancellor and sent on Monday 12 January.

International Human Rights Instruments

Lembit Öpik: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Interdepartmental Review on International Human Rights Instruments was due to report to Ministers; when Ministers received this report; when the outcomes of this review will be made available; and if he will make a statement. [147446]

Mr. Lammy: The terms of reference for the review were that it should report in spring 2003. The very wide scope of the review, and the number of Departments involved, have caused the review to take longer than expected. We will announce its outcomes to Parliament as soon as is reasonably possible.

Legal Funding

Mr. Austin Mitchell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions the Secretary of State has had with the Legal Services Commission on the funding of *(a)* human rights cases and *(b)* cases brought through legal aid against the closures of care homes for elderly people; and whether he was consulted by the Commission on the funding of such cases pursued by Hossacks Solicitors, of Kettering. [147464]

Mr. Lammy: Regular discussions take place between my Department and the Legal Services Commission about funding policy, of which human rights issues form an important part, given that cases which allege human rights violations by public bodies are a priority for Community Legal Service funding.

No discussions specifically concerning the funding of individual human rights cases, or publicly-funded cases against the closures of care homes for the elderly, have been held with Ministers. Nor have Ministers been consulted on the funding of such cases pursued by Hossacks Solicitors, as Ministers cannot intervene in individual funding applications.

SOLICITOR-GENERAL

Racial Hatred

24. **Dr. Evan Harris:** To ask the Solicitor-General what guidelines she has issued to the Crown Prosecution Service on the question of deciding what constitutes *(a)* prima facie evidence warranting and *(b)* a public interest supporting consideration of a prosecution for inciting racial hatred. [147846]

The Solicitor-General: The Code for Crown Prosecutors requires, as the hon. Member's question reflects, that in every case the prosecutor considers: *(a)* whether there is enough evidence to make it more likely than not that there will be a conviction and; *(b)* that the public interest supports a prosecution. There is a presumption under the code that it is in the public interest to prosecute racially aggravated offences in any case where there is a racial motivation against the victim.

Norman Baker: To ask the Solicitor-General what criteria are applied to decisions on whether prosecutions for alleged racial hatred are in the public interest. [147849]

The Solicitor-General: The Crown Prosecution Service reviews all allegations of inciting racial hatred in accordance with the Code for Crown Prosecutors.

All cases are considered individually on their own merits, but must meet both tests set out in the Code namely the evidential and public interest tests. When considering the public interest of such prosecutions, the Code for Crown Prosecutors specifically states that

> "a prosecution is likely to be needed if the offence was motivated by any form of discrimination against the victim's ethnic or national origin".

All such cases are dealt with by Casework Directorate at CPS Headquarters where a team of specialist prosecutors reviews them. The consent of the Attorney-General must be obtained before any such prosecution can take place.

Crown Prosecution Service

25. **Mr. Allen:** To ask the Solicitor-General if she will make a statement on the work of the Crown Prosecution Service with the Nottingham Criminal Justice Board in connecting the criminal justice system with local people. [147847]

The Solicitor-General: Ms Kate Carty, the Chief Crown Prosecutor for CPS Nottinghamshire, is an active member of the Local Criminal Justice Board, she chairs two important sub-groups: one on improving the service to vulnerable and intimidated victims and witnesses; the other on improving communications between the criminal justice agencies and the community. She also leads an initiative to ensure, through schools, that young people in Nottinghamshire are aware of the work and structure of their Local Criminal Justice Board.

26. **Mrs. Humble:** To ask the Solicitor-General if she will make a statement on the role of the specialist prosecutors of street crime at the Crown Prosecution Service. [147848]

The Solicitor-General: In the 10 Street Crime Areas there are specialist prosecutors for prosecuting street crime cases (the premium service) in order to prosecute with the charge right first time and to help to secure the best evidence, reduce delays and focus resources.

The premium service has worked well in Lancashire and we have seen sustained improved performance, with significant decreases in the level of early terminations of cases.

Youth Justice

27. **Hugh Bayley:** To ask the Solicitor-General if she will make a statement on her responsibilities in relation to *(a)* anti-social behaviour by youths and *(b)* youth justice matters. [147850]

The Solicitor-General: The Crown Prosecution Service (CPS) is working with local authorities and other criminal justice agencies to ensure a strategic and effective response to anti-social behaviour by youths.

MINISTER FOR WOMEN

Correspondence

Chris Grayling: To ask the Minister for Women when she will reply to the letter sent to her Department on 21 July by the hon. Member for Epsom and Ewell on behalf of Mavish Kentish of Laburnum Road, Epsom. [143199]

Jacqui Smith: In consultation with DWP and HMT officials it has been decided that Inheritance Tax falls within the responsibilities of my right hon. Friend the Chancellor of the Exchequer.

Please accept my sincere apologies for the delay in transferring your letter. I have asked that a response be sent to you as a matter of urgency.

WORK AND PENSIONS

Child Support Agency

Mr. Weir: To ask the Secretary of State for Work and Pensions (1) how many absent parents have subsequently been assessed for a change in circumstances by the Child Support Agency after failing to respond to a request for details of change of circumstances by post; [147472]

(2) what procedure is followed by the Child Support Agency to determine the accuracy of address information on absent parents when they receive no response to postal requests for information on change of circumstances; [147473]

(3) what recent discussions he has had with the Child Support Agency on procedures for contacting absent parents to ascertain changes in circumstances; [147474]

(4) how many requests to absent parents by the Child Support Agency for details of change of circumstances were sent by post in 2003; and how many were returned undelivered by the post office. [147475]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Michael Weir:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the following questions:

how many absent parents have subsequently been assessed for a change in circumstances by the Child Support Agency after failing to respond to a request for details of change of circumstances by post;

what procedure is followed by the Child Support Agency to determine the accuracy of address information on absent parents when they receive no response to postal requests for information on change of circumstances;

what recent discussions he has had with the Child Support Agency on procedures for contacting absent parents to ascertain changes in circumstances;

how many requests to absent parents by the Child Support Agency for details of change of circumstances were sent by post in 2003; and how many were returned undelivered by the post office.

The Agency does not collect information about volumes of post issued or returned undelivered. If we have not received a response to postal requests for information and all other avenues for obtaining it have been exhausted, the case is referred to the Agency Inspectors for a visit to obtain this information. The Secretary of State and the Chief Executive of the Agency meet regularly to discuss all aspects of Agency business.

I hope this is helpful.

Mr. Plaskitt: To ask the Secretary of State for Work and Pensions (1) how many Child Support Agency cases are now operating on the new formula for calculation of maintenance payments; [147994]

(2) how many Child Support Agency cases continue to operate on the original formula for calculation of maintenance payments. [147995]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. James Plaskitt:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the following questions:

how many CSA cases are now operating on the new formula for calculation of maintenance payments, and

how many CSA cases continue to operate on the original formula for calculation of maintenance payments.

Regular reports on the progress of child support reform are made to the House. The most recent of these covered the period to 30 September. As of September there were 30,528 cases operating on the new formula and 882,800 cases operating on the original formula.

I hope this is helpful.

Mr. Plaskitt: To ask the Secretary of State for Work and Pensions (1) when he will begin the process of migrating existing cases to the new formula for calculation of maintenance payments; [147996]

(2) what criteria he will apply to the prioritisation of cases for migration to the new formula for calculation of maintenance payments; [147997]

(3) how long he expects the process of migration of cases to the new formula for calculation of maintenance payments to take. [147998]

Mr. Pond: I refer the hon. Member to the written answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

Plans for transferring the old scheme caseload to the new scheme have yet to be finalised.

Departmental Pay

Mr. Hopkins: To ask the Secretary of State for Work and Pensions what the cost is of the departmental pay bill increase for 2003–04. [147515]

Maria Eagle: Negotiations for the 2003–04 pay award are still ongoing. Subject to acceptance of the current pay offer, the in-year 2003–04 pay bill for the department will increase by around £120 million. This represents a percentage increase of 3.7 per cent.

FOREIGN AND COMMONWEALTH AFFAIRS

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter to him dated 6 October 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. V. Ilyas. [147613]

Mr. Mullin: I apologise to my right hon. Friend for not having replied to his letter of 6 October 2003 to my right hon. Friend the Foreign Secretary.

The Foreign Secretary will write to him shortly.

Eritrea

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of relations between Eritrea and Ethiopia. [147527]

Mr. Mullin: Relations between Ethiopia and Eritrea are tense. We are urging both parties to take forward the Algiers Agreement which ended the war, implement the final and binding Boundary Commission decision, and to engage in dialogue on all of the issues separating the two countries. I am visiting Eritrea and Ethiopia from 13–19 January 2004, and will press these points.

Gambia

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the arrest of Gambia's Information Minister, Yankuba Touray, by President Jammeh's

forces and *(b)* the series of arrests of senior governmental officials, civil servants and businessmen in the last seven weeks. [147677]

Mr. Mullin: The Gambia's Secretary of State for Information, Communication and Technology, Mr. Yankuba Touray, was relieved of his official duties on 16 December 2003. He was not arrested.

A number of other Government officials and businessmen have been arrested in recent weeks, largely in connection with alleged misappropriation or currency irregularities. Those concerned have been arrested, detained, charged or released in accordance with local law. The majority leader of the National Assembly has, separately, been held in custody since 26 December 2003 on matters relating to national security.

We are following these developments closely. We welcome the Gambian Government's determination to tackle corruption. We are encouraging them to continue to ensure full respect for human rights and the rule of law.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of the Sudan about the recent disturbances at Khartoum University. [148303]

Mr. Mullin: We discuss human rights issues on a regular basis with the Government of Sudan, both bilaterally and as part of the EU-Sudan dialogue. As we understand it, the recent disturbances at Khartoum University did not directly result in any arrests or detentions, and we therefore see no reason to raise the matter but we will keep the situation under review.

Zimbabwe

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the security situation in Zimbabwe in respect of British citizens travelling to Zimbabwe; and if he will make a statement. [147209]

Mr. Mullin: We keep the security situation in Zimbabwe under constant review. Our travel advice available on the Foreign and Commonwealth Office website at: www.fco.gov.uk spells out the current situation and is regularly updated to reflect any developments which might affect the safety of British citizens travelling to Zimbabwe.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the England and Wales Cricket Board about the England cricket team's proposed tour of Zimbabwe in respect of players' and supporters' safety. [147210]

Mr. Mullin: The Foreign and Commonwealth Office (FCO) and the England and Wales Cricket Board officials are in close contact. The FCO's advice to visitors to Zimbabwe regarding safety and security is on our website at: www.fco.gov.uk This advice is kept under constant review. The decision whether to tour Zimbabwe this year rests with the ECB.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the situation in Zimbabwe. [147211]

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the situation in Zimbabwe. [147525]

Mr. Mullin: The situation in Zimbabwe continues to deteriorate. 5.5 million people need food aid. The economy continues to collapse; inflation is at 620 per cent. Political violence continues. The Government of Zimbabwe continue to restrict press freedoms. We have made clear our condemnation of the present situation. We will continue to help feed Zimbabwe's starving people and promote a return to democratic governance and the rule of law.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the United Kingdom's ambassador in Harare about the situation in Zimbabwe; and if he will make a statement. [147212]

Mr. Mullin: I receive regular reports on Zimbabwe from our ambassador in Harare. The situation remains grim. We will continue to do all we can to prevent Zimbabweans starving and to secure a return to democratic governance.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs when he next intends to meet the Zimbabwean ambassador to discuss political reform in Zimbabwe. [147213]

Mr. Mullin: I have no plans to meet the Zimbabwean ambassador. We maintain diplomatic relations with Zimbabwe and Foreign and Commonwealth Office officials have occasional contact with his staff. The Government of Zimbabwe are fully aware of our views on the need for a return to democratic governance and the rule of law in Zimbabwe.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Chairman of the Commonwealth Heads of Government Committee on Zimbabwe about encouraging democratic reform in the country. [147214]

Mr. Mullin: My right hon. Friend the Prime Minister met with the Prime Minister of Jamaica. Chair of the Commonwealth Heads of Government Committee on Zimbabwe, at CHOGM in December 2003. Commonwealth leaders agreed that Zimbabwe's suspension from the Councils of the Commonwealth should be maintained, and asked President Obansanjo of Nigeria, and the Commonwealth Secretary General, to encourage and facilitate progress and the return of Zimbabwe to the Commonwealth.

Sir Nicholas Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the conditions for the re-admission of Zimbabwe to the Commonwealth; and if he will make a statement. [147215]

Mr. Mullin: The Zimbabwe Government withdrew Zimbabwe from the Commonwealth. Her re-admission would require a decision by consensus of the current

members. We expect all members of the Commonwealth to adhere to the Harare principles of democratic government, the rule of law and respect for human rights.

Mr. Fallon: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on Mr. Robert Mugabe's continuing tenure of an honorary knighthood; and if he will take steps to strip him of the knighthood. [148256]

Mr Mullin: Mugabe's knighthood was conferred in 1994 under the previous Government. Its removal is not our immediate priority, although we are keeping the matter under review. Our present priorities for Zimbabwe are feeding the hungry and working with our international partners to bring about the restoration of good governance and the rule of law.

TRADE AND INDUSTRY

Broadband

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what action the Department is taking to ensure that broadband is made available more widely to the rural community. [147915]

Mr. Timms: In England, the Broadband Aggregation Project will make sure that the £1 billion Government spend on broadband connectivity for the public sector between 2003 and 2006 will offer the best value for money and widen availability to surrounding communities.

DTI is working with the Devolved Administrations and Regional Development Agencies to extend the availability of broadband still further. We have given them £30 million for pilot schemes to extend the availability of broadband in areas not currently served by the market.

A joint DTI/Defra Rural Broadband Team has been set up specifically to address the issue of availability of broadband in rural areas. It is working to support local community action to secure affordable access to broadband, to ensure rural communities derive the maximum benefit from the deployment of broadband and promote rural access and take up of broadband. Promoting partnerships between the telecommunications industry, government agencies and community organizations, our aim is that every community in the country should have access to broadband by the end of next year.

Correspondence

Mr. Steen: To ask the Secretary of State for Trade and Industry when she will reply to the letter from the hon. Member for Totnes dated 19 November 2003 enclosing one from Mr. Christopher Martin-Gathern of Buckfastleigh about identity fraud. [148057]

Ms Hewitt: My office has no record of receiving the letter from the hon. Member. However, I should point out that identity fraud is a matter for my right hon. Friend the Home Secretary.

Miners' Compensation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry whether compensation payments to be made for eligible estate claims for former miners for *(a)* chronic bronchitis and emphysema and *(b)* vibration white finger are being processed. [146112]

Nigel Griffiths: With regard to respiratory disease, the Department's priority is to settle claims from the eldest and sickest living miners and their widows. Estate claims are a lower priority and are being processed in accordance with the prioritisation process, agreed with the claimants' solicitors. They are processed when there are no higher priority claims to assess.

On vibration white finger (VWF) claims, where IRISC have received the necessary medical report and confirmation of the claimant's employment history, families of deceased miners are having their claims processed along with those from living miners.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) when she expects the last compensation payments to be made for eligible estate claims for former miners for *(a)* chronic bronchitis and emphysema and *(b)* vibration white finger; [146113]

(2) when she expects the last compensation payments to be made to *(a)* former miners and *(b)* widows of former miners for (i) chronic bronchitis and emphysema and (ii) vibration white finger. [146117]

Nigel Griffiths: It is very difficult to give such estimates for either scheme.

The Vibration White Finger (VWF) scheme has closed but claims can only be processed when all relevant documentation has been received from claimants. Estates claims are being processed alongside live claims where supporting documentation is available, we expect that the greater part of general damages claims will be made offers by the end of 2005. Compensation for services will extend beyond that.

The respiratory disease scheme is still open until 31 March 2004 and claims are currently coming in around 8,000 a week, of which around 5,000 are deceased claims (both widows and estates claims). The speed of processing claims will depend, among other things, on how quickly documentation is received from claimants after initial registration. Claims are processed in priority order, as agreed with miners' solicitors and estate claims come behind live individual claims.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of claims for *(a)* vibration white finger and *(b)* respiratory disease for (i) former miners, (ii) widows of former miners and (iii) other eligible estate claims for former miners in (A) the UK, (B) England, (C) Scotland and (D) Wales. [146114]

Nigel Griffiths: The Vibration White Finger (VWF) scheme is now closed.

The figures for VWF are:

	Live claims received (scheme closed 31 October 2002))	*Widows/estate claims received (scheme closed 31 January 2003)*
UK	150,183	19,361
England	122,236	14,899
Scotland	9,625	1,857
Wales	18,322	2,605

The respiratory disease scheme closes at the end of March 2004. It is difficult to make estimates of final numbers as claims are currently coming in at around 8,000 per week. Some 5,000 of which are deceased claims.

As of 21 December 2003 the figures for respiratory disease are:

	Live claims as of 21 December 2003	*Widows/estate claims as of 21 December 2003*
UK	179,775	200,033
England	139,008	119,248
Scotland	13,679	15,351
Wales	27,088	38,781

Figures are not separately available for estate claims received. The Department's claim handlers, IRISC, register claims from both widows and estates as deceased.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many chronic obstructive pulmonary disease compensation claims have been registered; broken down by coalfield area; how many live claimants there are; and how many *(a)* widows and *(b)* estates are claiming. [146115]

Nigel Griffiths: As of 21 December 2003 the figures are:

COPD	*England*	*Scotland*	*Wales*
Live claims	139,008	12,489	26,699
Deceased claims (widow/estate)	145,911	14,556	38,156

Regional statistics by coalfield area can be found on the Department's website—www.dti.gov.uk/coalhealth. The registration figures for deceased cases are not split between widows and estates.

Nuclear Energy

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the report from the Commission to the European Parliament and the Council on the Operation of Euratom Safeguards in 2002, Com (2003) 764 Final, in respect of its application to United Kingdom nuclear facilities and materials. [147623]

Nigel Griffiths: An explanatory memorandum (16077/03) covering the Commission report on the operation of Euratom Safeguards during 2002 has been submitted to Parliament. In the report the Commission notes that its overall conclusion from activities during 2002 was that no evidence was found to suggest that nuclear materials were diverted from their intended uses. Nor was any evidence found to suggest non-compliance with provisions relating to particular safeguards provisions assumed by the Community under agreements concluded with third states. The report includes comments on a number of UK installations; these comments are generally positive. Discrepancies that arose at some UK reactors (Bradwell, Sizewell A and Wylfa) were followed-up and, after consultation with the operator involved, satisfactorily resolved. The Commission acknowledges that the operator had taken steps to correct the discrepancy and prevent its recurrence.

Oil-fired Appliances

Jane Griffiths: To ask the Secretary of State for Trade and Industry if she will put in place a system of compulsory registration for installers and maintainers of oil-fired domestic central heating similar to the CORGI scheme for installers and maintainers of domestic gas appliances. [143014]

Mr. Timms: I have no plans to do so.

Post Office Closures

Mr. Baron: To ask the Secretary of State for Trade and Industry if she will urge the Post Office to re-examine the case of the closure of *(a)* Stock Road sub-post office, Billericay, Essex and *(b)* Barn Hall Post Office, Wickford, Essex, following the representations of the hon. Member for Billericay to the Post Office and Postwatch. [148145]

Mr. Timms: Following public consultation, final decisions on post office closure proposals under the urban reinvention programme are an operational matter for Post Office Ltd., in the light of advice from Postwatch and other consultation responses.

Regional Selective Assistance

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will list the grants to investment projects made under regional selective assistance in 2003–04, stating for each *(a)* the amount of the award, *(b)* the region, *(c)* the type of project and *(d)* the justification for the award; and what amounts were allocated in each year since 1997. [147795]

Jacqui Smith: For reasons of commercial confidentiality details of individual grants offered are generally only published once the first payment of grant has been made. Publication is limited to offers of £75,000 or more and details can be found in the January, April, July and October editions of Labour Market Tends.

Aggregate numbers of regions and sectors are published in the Industrial Development Act Annual Report, which is laid in Parliament about three months after the end of the reporting period.

Technology Transfer Agreements

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will make a statement on technology transfer agreements. [147860]

Ms Hewitt: My Department promotes the transfer of technology between many organisations in the UK and between British and overseas organisations. Our aim is to improve the productivity and competitiveness of British businesses along the lines we have set out in the recent Innovation Report "Competing in the global economy: the innovation challenge".

Although my Department assists the process of technology transfer through business support products such as Knowledge Transfer Partnerships, the vast majority of technology transfer agreements are arranged privately. I welcome the considerable expansion of technology and knowledge transfer in the UK that has occurred in recent years, largely as a result of innovative programmes such as the Higher Education Innovation Fund, that have seeded the idea of spin-out firms or other exploitation of science and technology in the minds of our researchers and technologists in academia and business.

HEALTH

Audiology

Tim Loughton: To ask the Secretary of State for Health what improvements he expects choice in the NHS will have for deaf people *(a)* in arranging an appointment and *(b)* in communicating with their doctor. [147696]

Dr. Ladyman: "Building on the Best: Choice", Responsiveness and Equity in the NHS draws out the main themes that emerged from our recent consultation on what changes would do most to improve the experience of health care for patients, users and carers. Building on the Best confirms that the commitment in the NHS Plan for a national interpreting and translation service has been initiated by NHS Direct. The interpretation component will include a requirement to provide services for people who use British Sign Language. Over time, this contract will be available to help deaf people arrange appointments and communicate with their doctors.

Mr. Chope: To ask the Secretary of State for Health (1) what information his Department collects in respect of waiting times for audiology services; [147751]

(2) which NHS trusts have entered into partnership agreements with private hearing aid dispensers for *(a)* 2003–04 and *(b)* 2004–05. [147752]

Dr. Ladyman: The Department does not collect centrally information about waiting times for non-consultant led specialities such as audiology, nor about contracts entered into by local services.

The national framework agreement awarded to David Ormerod Hearing Centres and Ultravox Holdings plc in October 2003 will provide a service to patients on the same basis as the national health service, which remains responsible for the patients' care. It has so far involved sites in Shrewsbury, Leeds, Bradford, Bath, Bournemouth and East Cheshire. This partnership agreement is now being rolled out nationally.

Cannabis Use (Schizophrenia)

Mr. Drew: To ask the Secretary of State for Health what research his Department has commissioned into cannabis use and schizophrenia. [148275]

Miss Melanie Johnson: Department of Health-funded research completed last year recognised that, while a causative link between early cannabis use and later development of schizophrenia and depression is not conclusively proven, recent epidemiological research has shown a stronger association than was previously evident. Although we have not commissioned further specific research into cannabis and schizophrenia, the Department monitors research is this area and has a range of expert advisers to inform policy.

Carbon Monoxide Poisoning

Jon Trickett: To ask the Secretary of State for Health what steps his Department has taken to improve the understanding among health professionals of the symptoms and effects of carbon monoxide poisoning. [147460]

Miss Melanie Johnson: On 22 February 2002, the Chief Medical Officer (CMO), Professor Sir Liam Donaldson and the Chief Nursing Officer, Sarah Mullally, published an updated letter, "Carbon Monoxide: the forgotten Killer". The letter pulled together the most current information available on carbon monoxide and was forwarded to community nurses, midwives, health visitors and general practitioners, professionals who are most likely to be aware of patients' living conditions and so identify those at increased risk. This letter was originally published on 7 September 1998.

Similarly, the quarterly "CMO Update" has included several reminders to GPs on the importance of diagnosis of carbon monoxide poisoning since 1998. Officials also issued a video in March 2002, prepared for the Health and Safety Executive, to all GP surgeries. The video highlights the main symptoms of carbon monoxide poisoning, as well as advising GPs on how to diagnose possible cases of carbon monoxide poisoning.

Care Homes

Bob Spink: To ask the Secretary of State for Health whether it is appropriate for an independent review panel to take into account, in making their decisions on health care funding for people living in care homes, *(a)* the job status of the carers and *(b)* the classification of the home in which the care is received. [147555]

Dr. Ladyman: Eligibility for fully funded national health service continuing care is decided upon the patient's needs. When considering eligibility for fully funded NHS continuing care, and during any reviews of such decisions, the job status of any carers should make no difference to the decision. The care the patient receives and the setting in which it is provided should be based entirely on the patient's needs.

Bob Spink: To ask the Secretary of State for Health if he will review the eligibility criteria of Essex Strategic Health Authority for health care funding for people living in residential care homes. [147556]

Dr. Ladyman: Establishing and reviewing eligibility criteria for national health service fully funded continuing care is a responsibility of the strategic health authority, which will have taken legal advice when establishing the criteria.

Chemical Regulation

Dr. Gibson: To ask the Secretary of State for Health what discussions he has had with the Department of Environment, Food and Rural Affairs on the forthcoming EU Chemical Regulation; and if he will make a statement. [147232]

Miss Melanie Johnson: The Department has been consulted on the Government Position Statement on the new European Union chemicals strategy that was published in December 2002 and on the Government's response to the European Commission's internet consultation on the workability of its draft proposal in June last year.

Officials from the Department continue to be involved in the cross-Government steering committee that the Department for Environment, Food and Rural Affairs has established on this issue.

Colloidal Silver

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the effectiveness of colloidal silver as a treatment for MRSA and other hospital-acquired infections. [146718]

Miss Melanie Johnson: We are not aware of any peer-reviewed or clinical trial evidence that colloidal silver is an effective treatment for methicillin resistant Staphylococcus aureus (MRSA) or other hospital-acquired infections. Colloidal silver has antibacterial properties, but it is not used as an alternative to antibiotics because of its toxicity when taken internally.

Delayed Discharges

Sandra Gidley: To ask the Secretary of State for Health what targets were set for delayed discharge of patients aged 75 years and over for each quarter in each year since 1997. [147305]

Dr. Ladyman: Performance targets for the delayed discharge of patients aged 75 years and over occupying an acute bed have been set on an annual basis, rather than a quarterly target, since 2000–01. Each of these targets was set out in the relevant year's Planning and Priorities Framework, published by the Department of Health.

These targets are shown in the table.

	Percentage
2000–01	11
2001–02	10
2002–03	9

There was no numerical target set for 2003–04; the NHS Plan target is to end "widespread bed blocking".

Sandra Gidley: To ask the Secretary of State for Health how many delayed discharges of patients aged 75 years and over there were in each quarter in each year since 1997. [147306]

Dr. Ladyman: The information requested is shown in the table and is also available in the Library.

Numbers of adult patients over 75 in acute beds with delayed discharge—quarterly figures 1997–2003

Quarter	*Number of patients*
September 2003	2,988
June 2003	3,100
March 2003	3,031
December 2002	3,502
September 2002	4,147
June 2002	[1]
March 2002	4,691
December 2001	5,117
September 2001	5,673
June 2001	5,396
March 2001	5,938
December 2000	5,801
September 2000	5,958
June 2000	5,538
March 2000	5,431
December 1999	5,419
September 1999	5,552
June 1999	5,276
March 1999	5,891
December 1998	5,772
September 1998	6,219
June 1998	6,180
March 1998	6,265
December 1997	6,451
September 1997	6,854

[1] No date

Note:
Reliable data was not available for over 75s for this quarter, because of structural changes resulting from Shifting the Balance of Power. The figure for all adults was 4,924.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Health (1) what assessment his Department has made of the benefits of relocation of staff to North Staffordshire; and if he will make a statement; [146870]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146886]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146900]

(4) what plans he has to establish procedures for assessing the impact of possible relocation of staff in the Department to his regions; and if he will make a statement. [146921]

Ms Rosie Winterton: I refer my hon. Friend to the reply given by my right hon. Friend the Chief Secretary to the Treasury, on 12 January 2004, *Official Report*, column 516W.

Diabetes

Tim Loughton: To ask the Secretary of State for Health pursuant to his answer of 8 December 2003, *Official Report*, column 310W, on diabetes, what bodies were specifically advised of the 2002 Diabetes Consultation Exercise; what the duration was of the exercise; how it was researched; how many responses the Department received; what its terms of reference were; how the replies were evaluated; and what steps were taken to publish the findings. [147743]

Ms Rosie Winterton: A general public consultation on the broad future research agenda for diabetes was undertaken to support the joint Department of Health and Medical Research Council review of current and future research in diabetes. The remit of the research advisory committee that conducted the review was to consider all research on diabetes in the United Kingdom in the international context, with a view to identifying opportunities for new research, options for strengthening research, and areas where research could support clinical practice, public health and the national service framework for diabetes.

Consultation was conducted mainly electronically and continued for three months. A total of 108 submissions were received and evaluated. The review was published in October 2002. A copy is available in the Library. Full details of the process of consultation and the results are set out in Annex 4 of the Review.

Tim Loughton: To ask the Secretary of State for Health on what basis the Department decided during the joint Department of Health and Medical Research Council's review in 2002 of current and future research on diabetes not to make a comparison of clinical outcomes, mortality and complications between the use of animal insulin and human insulin. [148049]

Ms Rosie Winterton: The Department of Health and the Medical Research Council's review of current and future research on diabetes identified the principal opportunities for research across the whole field from molecular biology to health services research, including clinical research. The complications of diabetes which give rise to morbidity and to premature mortality were the subject of particular consideration by the members of the advisory committee and of a specific sub-group. A major determinant of the development of these complications in Type 1 diabetes is the control of the blood glucose by self-injection of insulin. The review identified research into the most effective use of existing and new insulin's, better insulin delivery systems, and training in self-management as fundamental to good control in these patients. Much research is being done in these areas. The Committee members did not consider, nor was it suggested to them, that the minor differences in the effects on humans of insulin from different species might contribute to differential rates of development of the complications of diabetes.

Disease Screening

Mr. Steen: To ask the Secretary of State for Health if he will ensure that all *(a)* economic migrants, *(b)* asylum seekers and *(c)* those with work permits receive a health screen for (i) hepatitis B, (ii) hepatitis C, (iii) tuberculosis and (iv) HIV/AIDS before they are admitted to the United Kingdom; and what the current policy is. [144006]

Miss Melanie Johnson *[holding answer 15 December 2003]:* The Cabinet Office is currently co-ordinating work between relevant Government Departments, including the Department of Health, to review imported infections and immigration. The review aims to establish the facts about the impact of immigration on public health and national health service expenditure, consider all relevant issues including health screening and propose solutions should action be required. It is on-going and no decisions have been taken yet.

Asylum seekers are offered health assessments and screening for tuberculosis (TB) at the Home Office induction centre in East Kent (and will be offered them at other induction centres as they are rolled out). Testing for HIV is offered as part of the health assessment on request or where medical history indicates they have been at risk. The aims of the health assessment are to identify the immediate healthcare needs of the asylum seeker and to protect public health. Imposing mandatory health screening on asylum seekers would breach their human rights and would be contrary to the 1951 Refugee Convention.

In relation to other migrants, long-standing policy is that any person subject to immigration control who either mentions health or medical treatment as a reason for coming to the United Kingdom, or appears unwell; or is seeking leave to enter the UK for six months or more and is at high risk of having been exposed to TB should be referred by the immigration officer to a medical inspector. These arrangements are governed by Schedule 2 of the Immigration Act 1971 and the Statement of Changes in Immigration Rules (HC 395).

Drugs Treatment

John Mann: To ask the Secretary of State for Health what assessment he has made of the variance in criminal offending between patients using the Mapperley Hospital Formula of prescribing and National Treatment Agency for Substance Abuse-recommended methadone dosages and use. [147760]

Miss Melanie Johnson *[holding answer 13 January 2004]:* Departmental officials are aware of the Mapperley Hospital Formula and can confirm that this is fully in line with Department of Health and National Treatment Agency guidance. Drug treatment is one of a number of factors shown to impact on criminal offending. In reflecting current guidance, we would expect the Mapperley Hospital Formula to make a comparable contribution in other areas of the country.

John Mann: To ask the Secretary of State for Health what assessment he has made of the Mapperley Hospital Formula for prescribing for drug addiction. [147761]

Miss Melanie Johnson *[holding answer 13 January 2004]:* The Mapperley Hospital Formula uses an option that drug specialists have shown to be effective over many years and is fully in line with Department of Health and National Treatment Agency guidance.

Emergency Readmissions

Sandra Gidley: To ask the Secretary of State for Health what targets were set for 28-day emergency re-admissions of people aged 75 and over in each quarter since 1997. [147307]

Dr. Ladyman: The target for emergency re-admissions within 28 days of discharge has always been to retain zero growth in the rate, year on year. Up to 2001–02, the target related to emergency re-admissions for those aged over 75 only. Since then, the target has related to patients of all ages.

Ethnicity

Ms Buck: To ask the Secretary of State for Health what assessment he has made of the effect of a person's ethnicity on their access to public services within the responsibilities of his Department. [143577]

Miss Melanie Johnson: The Department is committed to transforming the health and social care system so that it produces faster, fairer services with equity of access for all.

The most extensive survey on the health of minority ethnic groups ever carried out in England was published in February 2001. The 1999 "Health Survey for England" identified significant health inequalities among people from black and minority ethnic communities and found higher rates of general practitioner consultations for minority ethnic groups.

The Department recognises that, as the frequent gateway to other national health service services, access to general practice services for all populations is of primary importance. The 2002 NHS Patient's Survey, based on a sample obtained from the electoral register and with 145,000 responses, found that at least 99 per cent. of people from each ethnic group were registered with a GP.

Since 2003, these surveys have been carried out by individual NHS organisations but are collated and analysed at the national level by the Commission for Health Improvement (CHI).

Equality of access is also central to the Department's policy on social services and the Personal Social Services Performance Assessment Framework indicators provide statistical overview of social services performance in key areas including fair access.

The Department has made a commitment to the collection of ethnic origin information using the 2001 Census categories and has guidance in place to ensure that consideration of the collection of relevant race equality information is part of the process of establishing all new central data sets.

The creation of more equal access for black and minority ethnic people is an integral and vital aspect of the Department's programme of investment and reform. "Building on the Best, Choice Responsiveness and Equity in the NHS", December 2003, aims to promote equality of access to health care for all and sets the challenge of providing high quality, accessible services that meet the individual needs of an increasingly diverse population while also being underpinned by the values of fairness and equity. Copies are available in the Library.

Euro

Keith Vaz: To ask the Secretary of State for Health in how many speeches during 2003 he declared support for the Government's policy on the euro. [147297]

Ms Rosie Winterton: I refer my hon. Friend to the answer given by my hon. Friend, the Financial Secretary to the Treasury, on 12 January 2004, *Official Report*, columns 516–17W.

Health Promotion England

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* budget allocation and *(b)* actual spending of Health Promotion England for each year since 2000. [144786]

Miss Melanie Johnson: The budget allocation and actual spend for Health Promotion England for each year since 2000 is shown in the table.

£ million

	Budget	*Actual spend*
2000–01	5.683	5.232
2001–02	6.265	6.061

Health Services (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health how much earmarked funding has been provided to *(a)* Lancashire county council and *(b)* district councils in Lancashire for (i) older people's services and (ii) adults with learning disabilities in each of the last five years for which figures are available. [147855]

Miss Melanie Johnson: The Department does not provide earmarked funds to county councils for services for older people or for adults with learning disabilities. Lancashire county council decides how much to make available for these services from the overall amount provided for adult services by the Department. Lancashire county council will receive a £14 million, or 7.4 per cent., increase for adult personal social services in 2004–05.

Hospital-acquired Infections

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the extra bed days caused by extended stays in UK hospitals due to hospital acquired infections in each of the last six years, broken down by hospital trust. [144147]

Miss Melanie Johnson: These data are not available, but a 1994–95 study[1] suggested that patients who acquire an infection in hospital remain in hospital on average an extra 11 days.

[1] The Socio-economic Burden of Hospital Acquired Infection—Public Health Laboratory Service, 1999, also available at: www.doh.gov.uk/haicosts.htm

Influenza Vaccine

Sandra Gidley: To ask the Secretary of State for Health what the take-up rates for influenza vaccine were as at 1 December 2003 *(a)* in England and *(b)* broken down by (i) primary care trust and (ii) strategic health authority. [147184]

Miss Melanie Johnson: The overall uptake of flu vaccine in England in those aged 65 and over as at 1 December 2003 was 67.9 per cent.. A breakdown by strategic health authority and primary care trust has been placed in the Library.

Landfill Sites

Norman Baker: To ask the Secretary of State for Health what studies have been carried out into the incidence of birth defects within the proximity of landfill sites. [147233]

Miss Melanie Johnson *[holding answer 12 January 2004]:* I refer the hon. Member to the response I gave him on 14 January 2004, *Official Report*, column 798W.

Mental Health Services

Mr. Burstow: To ask the Secretary of State for Health how much was spent on adult mental health services in each year since 1997–98; what the projected expenditure is in financial year 2003–04; if he will provide the figures in *(a)* cash terms and *(b)* Retail Price Index-adjusted terms using 1997–98 as a baseline; and if he will make a statement on the method used for compiling the figures. [143715]

Ms Rosie Winterton: The table sets out the mental health services expenditure on patients aged 16 or over since 1997–98.

£ million

	Expenditure	*RPI-adjusted expenditure*
1997–98	2,849	2,849
1998–99	3,011	2,894
1999–2000	3,188	3,016
2000–01	3,729	3,427
2001–02	4,006	3,617

It is not possible to estimate the expenditure for mental health services for 2002–03 and 2003–04 until the national health service accounts for these years are finalised, at the end of January 2004 and 2005 respectively.

The figures are taken from the Expenditure Per Head of Population (EPHoP) analysis of healthcare spend. EPHoP measures activity from in-patients, out-patients and community based patients against expenditure taken from the hospital and community health service programme budget. The programme budget is compiled using NHS accounts—a combination of finance returns from strategic health authorities, NHS trusts, primary care trusts and the strategic health authority summarisation schedules.

Activity data from a range of sources, for example hospital episode statistics, Körner community returns, the Living in Britain survey, etc. are used to distribute the expenditure figures for each sector—mental health, acute services, etc. proportionally across the whole population.

Using the combination of expenditure and activity figures, the treatment cost is for each person within each age group and for each type of activity is calculated.

Mid Essex Hospital Services NHS Trust

Mr. Burns: To ask the Secretary of State for Health how many people were waiting for in-patient treatment in the Mid Essex Hospital Services NHS Trust area at the latest date for which figures are available; and how many people have been waiting over 12 months for in-patient treatment. [147989]

Dr. Ladyman: As of 31 October 2003, 8,040 patients were waiting for elective in-patient admission, and no patients were waiting over 12 months. The source of this data is the Department of Health monthly monitoring.

Patients Forums

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 5 January 2004, *Official Report*, columns 203–04W, on patients forums, how many applications were made for membership of each patients forum; and how many members each has. [147951]

Ms Rosie Winterton: Information on applications received for each patients forum is not available because some applicants expressed multiple preferences or no preference for a particular forum. The total number of applicants at 9 January, the latest figures, was 5,776. At the same date, 549 of the 572 forums had seven or more volunteers.

Prostate Cancer

Jon Trickett: To ask the Secretary of State for Health what measures his Department is taking with *(a)* the NHS and *(b)* voluntary organisations to tackle prostate cancer. [147461]

Miss Melanie Johnson: In September 2000, the Government published the national health service prostate cancer programme, which set out what was known about prostate cancer and established a framework for future action. Good progress has been made on prostate cancer since the programme was published.

Over 98 per cent. of patients with suspected urological cancers, including prostate, were seen for their first outpatient appointment within two weeks of their general practitioner referral between July and September 2003.

There has been a 38 per cent. increase in the number of consultant urologists since 1997; from 343 to 473.

We have increased funding for research into prostate cancer twenty-fold since 1999–2000, which means in 2003–04, the Department is directly funding £4.2 million of research into prostate cancer.

We have provided Section 64 funding to the Prostate Cancer Charity to increase public awareness of prostate cancer, and funded the Database of Individual Patient Experiences in prostate cancer.

In the summer of 2001, we launched the prostate cancer risk management programme. This programme was established to ensure that men who are considering a prostate specific antigen (PSA) test for prostate cancer are given information concerning the benefits, limitations and risks associated with receiving a test. As part of this programme, an evidence based pack of materials has been sent to all general practitioners in England to help them counsel men in making an informed choice about the PSA test.

Much has been achieved on prostate cancer but we recognise that there is still much to be done. That is why we welcomed the launch of the Prostate Cancer Charter for Action on 29 January 2003 and set up the Prostate Cancer Advisory Group (PCAG) to ensure better collaboration and communication between the charter members and Government. PCAG is already working hard and is taking forward work on information for prostate cancer patients, public awareness, prostate cancer treatment and a national prostate cancer resource website.

Residential Care

Mr. Frank Field: To ask the Secretary of State for Health what research he has commissioned on the need for more residential care places for people below pensionable age. [147216]

Dr. Ladyman: It is up to local councils to determine the range of care options, including residential care places for people below pensionable age, that are needed locally. This information should then inform their commissioning strategies and decisions.

The vast majority of people prefer to receive care at home rather than enter residential care.

Mr. Frank Field: To ask the Secretary of State for Health how many residential care homes cater for people only below pensionable age; and how many places this represents in total. [147217]

Dr. Ladyman: The number of residential care homes catering primarily for 18 to 64-year-olds in 2001 was 11,400 and the number of places was 81,100. This represents 24 per cent. of all places in residential care homes.

Figures for later years have been collected by the National Care Standards Commission, but comparable details are not available.

Security Passes

Mr. Oaten: To ask the Secretary of State for Health how many security passes have been reported *(a)* lost and *(b)* stolen by staff in departmental agencies in the last 12 months. [147906]

Ms Rosie Winterton: I refer the hon. Member to the response I gave to the hon. Member for Sutton and Cheam (Mr. Burstow) on 12 January 2004, *Official Report*, column 622W.

Staff Costs

Mr. Burstow: To ask the Secretary of State for Health if he will list salaries and wages costs for *(a)* general and senior managers, *(b)* nurses and midwives and *(c)* administrative and clerical staff for (i) 2002–03 and (ii) 2003–04, broken down by NHS trust. [146053]

Mr. Hutton: Provisional information for 2002–03, which remains subject to standard checks, has been placed in the Library.

Information for 2003–04 will not be available until after the financial year has ended.

Voluntary Euthanasia Society

Jim Dobbin: To ask the Secretary of State for Health how many times the Government have consulted the Voluntary Euthanasia Society on end of life decision making since 1997, and on what issues. [146480]

Ms Rosie Winterton: We are not aware of any formal consultation with the Voluntary Euthanasia Society regarding end of life decision-making since 1997. The Government have been in dialogue with a range of groups, including the Voluntary Euthanasia Society, particularly during the preparation of a series of leaflets on making decisions on behalf of mentally incapacitated adults and continue to listen carefully to arguments put forward by all sides.

DEPUTY PRIME MINISTER

Dredging

Norman Lamb: To ask the Deputy Prime Minister how much income has been raised by the Crown Estates from dredging licences issued in respect of *(a)* all dredging offshore and *(b)* dredging of sites off the Norfolk coast, broken down by individual dredging licence, in (i) 2002 and (ii) 2003; and if he will make a statement. [147546]

Keith Hill: While my right hon. Friend the Deputy Prime Minister is responsible for determining the environmental consents which are needed to support marine dredging licences issued by the Crown Estate, he has no responsibility for the Crown Estate itself or for its royalty revenues from marine minerals dredging.

I refer the hon. Member to the answer given on 30 October 2003, *Official Report*, column 334W, which included information from the Crown Estate that stated that its royalty income for 2002 from marine minerals dredging off the Norfolk coast was £5.29 million. The Crown Estate has now informed me that its total royalty income for 2002 from all offshore marine minerals dredging was £13.02 million. Comparable figures for 2003 are not yet available. The Crown Estate has also advised me that its policy is to release financial details of individual licences or leases only with the agreement of the companies involved because the information can be commercially sensitive.

Information about marine dredging licences and licensees can be obtained from the Crown Estate website at www.crownestate.co.uk

Failed House Sales

Mr. Hammond: To ask the Deputy Prime Minister by what percentage he estimates the number of failed

housing market transactions will fall as a consequence of the proposed introduction of homebuyers packs. [148302]

Yvette Cooper: Research carried out on behalf of the Office of the Deputy Prime Minister has indicated that under the present home buying and selling process 28 per cent. of transactions fail after terms have been agreed, and that this costs consumers some £350 million each year in wasted expenditure.

It is not possible to estimate accurately at this time by how much this failure rate will reduce following the introduction of home information packs. In evidence to the Housing, Planning, Local Government and the Regions Committee an estate agent who has operated home information packs since 1996 said that in her agency the failure rate where homes are marketed with a pack is 3 per cent. compared to 26 per cent. where homes are marketed without a pack.

This reduction is due to information that could threaten or delay the transaction (e.g. a survey that both seller and buyer can rely on) being made available at the beginning of the process.

Firefighters

Mr. Gummer: To ask the Deputy Prime Minister (1) what estimate he has made of the job losses in *(a)* Suffolk and *(b)* East Anglia which will result from the regionalisation of the Fire Service; [146522]

(2) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Fire Service in East Anglia; [146523]

(3) what *(a)* operational benefits and *(b)* other advantages to the people of East Suffolk he expects to accrue from his plans to regionalise the Fire Service; [146525]

(4) what financial benefits to *(a)* the Treasury, *(b)* Suffolk county council, *(c)* taxpayers and *(d)* council taxpayers in Suffolk he expects to accrue from his plans to regionalise the Fire Service; [146526]

(5) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Suffolk on his plans to regionalise the Fire Service; and what their advice was; [146527]

(6) what community consultation he has held in Suffolk on his plans to regionalise the Fire Service; [146528]

(7) what discussions he has had with the Suffolk Police Authority on his plans to regionalise the Fire Service; [146531]

(8) what discussions he has had with Suffolk county council on his plans to regionalise the Fire Service; [146532]

(9) whom he has consulted on the plans to regionalise Suffolk's Fire Service. [146533]

Mr. Raynsford: The Government are not proposing to regionalise the fire and rescue service in the East of England. Suffolk county council will continue to be responsible for the Suffolk Fire and Rescue Service. The White Paper (Cm 5808) made clear that only where voters choose to have an Elected Regional Assembly will there be a change to the democratic accountability of the service.

The Government's overriding objective is to save lives by doing more to prevent fires occurring in the first place. The White Paper also set out the government's expectation that existing fire authorities, including those in the East of England, would develop robust regional management arrangements to deliver the functions which are most efficiently and effectively performed at a regional level. Under these arrangements staff numbers in the East of England will continue to be a matter for the individual Fire and Rescue Authority employers concerned.

Operationally, the benefits of the regional approach will be improved resilience to terrorism and to major incidents such as flooding, integrated modern control rooms with the latest technology and improved specialist fire investigation.

Financially, procurement, training and human resource functions will all benefit from standardisation and pooling of resources and expertise. It is not possible to provide a meaningful breakdown of the respective benefits these savings will bring to central Government, individual citizens and localities, but all will benefit from a reduction in the £6.63 billion annual cost of fire to the economy in England and Wales.

The Government are currently consulting on their draft National Framework for the Fire and Rescue Service. Those to whom the document has been sent include the Chairs of individual Fire Authorities, the Local Government Association and a wide range of bodies representing both retained and full time staff. Police authorities have not been specifically consulted, but comments from all stakeholders are invited by 12 March 2004.

In addition, all aspects of fire modernisation are discussed when we meet interested parties from time-to-time in the course of our Ministerial duties. The Chief Fire Officer for Suffolk attended the Fire and Rescue Service seminar on 3 December 2003 addressed by the right hon. Nick Raynsford MP and Phil Hope MP, and officials from the Office of the Deputy Prime Minister expect to visit the Suffolk Fire and Rescue Service shortly.

Mr. Gummer: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire Service without the consent of Suffolk county council. [146524]

Mr. Raynsford: It is expected that the voluntary arrangements proposed in the White Paper "Our Fire and Rescue Service" will succeed. However, the Fire and Rescue Services Bill will strengthen and streamline the existing power in Section 6 of the Fire Services Act 1947 to combine Fire and Rescue Authorities, after consultation with the existing authorities and other persons affected.

Mr. Gummer: To ask the Deputy Prime Minister (1) what evidence he has received to support his proposal that the fire station in Orford would provide a swifter and more efficient service if controlled by the same centralised system as Rickmansworth; [146529]

(2) what research relating to East Anglia he has commissioned to provide factual backing for his plans to regionalise the Fire Service. [146530]

Mr. Raynsford: The Government's conclusions about the benefits of a regional approach are set out in the White Paper "Our Fire and Rescue Service" (Cm 5808), and are informed by, a number of reviews of the service, culminating in the report of the Independent Review of the Fire Service published in December 2002. These reports are listed in the White Paper.

The Mott MacDonald report on the "Future of Fire and Rescue Service Control Rooms in England and Wales", published in December 2003, concluded that the optimum solution to secure efficiency and effectiveness in the delivery of fire and rescue service control rooms would be nine control rooms in England one matched to the areas of the Government Offices for the Regions. The Government accepts the conclusions of the Mott MacDonald report, and is consulting on implementation. Copies of the report and a related one by Her Majesty's Fire Service Inspectorate are available in the Library of the House.

A recent report by Her Majesty's Fire Service Inspectorate concluded that local purchasing arrangements based on individual preferences are not the most efficient means of obtaining goods, services and equipment. I am placing copies in the Library. These documents, while not specific to East Anglia, are applicable to the area.

Home Improvement Agencies

Mr. Waterson: To ask the Deputy Prime Minister what progress has been made on national coverage of home improvement agencies (HIAs); how this progress measures against the Government's targets for HIAs; and if he will make a statement. [148238]

Keith Hill: The Office of the Deputy Prime Minister has invited Supporting People administering authorities to bid for a proportion of the extra £2 million being made available from 1 April 2004 to restructure and to expand the Sector's current geographical coverage. Bids must be submitted to Foundations, the National Co-ordinating Body for Home Improvement Agencies, by 31 January 2004.

Mobile Phone Masts

Keith Vaz: To ask the Deputy Prime Minister when he last met representatives of the mobile phone industry to discuss siting of phone masts. [148208]

Keith Hill: I have not held any meetings with representatives of the mobile phone industry to discuss siting of phone masts. However, my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) will be meeting representatives of the Mobile Operators' Association and the five commercial network operators on 19 January.

Somerset County Council

Mr. Liddell-Grainger: To ask the Deputy Prime Minister how much funding was provided to Somerset County Council in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [145764]

Mr. Raynsford: The table gives details of revenue grants received by Somerset County Council as part of gross Aggregate External Finance (AEF) between 2001–02 to 2003–04.

£000

	2001–02	*2002–03*	*2003–04*
Revenue Support Grant	117,071	112,197	140,412
National Non-Domestic Rates	120,178	131,815	133,669
Specific Grants within AEF[1]	48,090	45,981	64,472
Total Central Government Support	285,339	289,993	338,553

[1] Information on specific grants up until 2002–03 is taken from local authority outturn returns. For 2003–04, where outturn information is not yet available this is based on local authority budget returns.

Note:
The grants are on an unadjusted basis and may not be comparable between years, because transfers of function may have taken place.

TREASURY

Child Trust Funds

Mr. Gardiner: To ask the Chancellor of the Exchequer what measures his Department has taken to prevent investment companies offering child trust funds from offering reduced services to customers who do not invest the maximum sum permitted. [148666]

Ruth Kelly: Providers who want to offer child trust fund accounts will need to be approved by the Inland Revenue and will have to satisfy various conditions. All Child Trust Fund providers will be required to offer a stakeholder account. This will mean that a simple, low cost, accessible and risk-controlled account will be available for all. Full details of this and other conditions, such as the requirement for all children to receive annual statements, will be set out in the child trust fund regulations. We will publish draft regulations during the passage of the Child Trust Funds Bill, which is currently going through Parliament.

Ethical Financial Policies

Mr. Gardiner: To ask the Chancellor of the Exchequer what assistance the Treasury offers local authorities in developing *(a)* ethical and *(b)* environmental (i) investment, (ii) banking and (iii) procurement policies. [145715]

Ruth Kelly: The Office of the Deputy Prime Minister (ODPM), together with other Government Departments, offers assistance to local authorities in relation to these matters.

The standards of ethical conduct expected from members of local authorities in all areas are laid down in a model code issued by ODPM in November 2001.

Local authorities have wide discretion to determine policies on investment and banking. New guidelines on prudent investment practice will come into effect from 1 April 2004. These guidelines enable ethical and environmental considerations to be fully taken into account by local authorities.

Guidance on Sustainable Procurement has been issued by The Office of Government Commerce and the Department for Environment, Food and Rural Affairs.

Gift Aid

Mr. Wiggin: To ask the Chancellor of the Exchequer (1) if he will make a statement on the withdrawal of Gift Aid from charitable membership; [147150]

(2) how much he expects to raise from withdrawing Gift Aid from charitable membership; [147153]

(3) what assessment he has made of whether charities are likely to close as a result of the withdrawal of Gift Aid from charitable membership; [147267]

(4) what timescale he envisages for the withdrawal of Gift Aid from charitable membership; [147151]

(5) what assessment he has made of the cost to charities of the withdrawal of Gift Aid from charitable membership. [147152]

John Healey *[holding answer 12 January 2004]:* Gift Aid is designed to promote giving to charity by individuals. It has delivered significant benefits to all fundraising charities. Donations to charities using Gift Aid are subject to rules governing the level of benefit that a donor can receive from the charity in return for a gift. If a gift exceeds these limits then Gift Aid cannot be claimed on the gift. However, under a special exemption introduced in 1989 and imported into Gift Aid as part of a wider reform in 2000, certain heritage and conservation charities are able to claim Gift Aid on membership subscriptions in the same way as they were previously able to claim tax refunds under Deeds of Covenant. Deeds of Covenant lasted for at least three years, meaning that a donor was required to have an ongoing commitment to a charity, but Gift Aid can apply to one-off donations as well.

A number of charities eligible for the special exemption are claiming Gift Aid tax refunds under so-called 'day membership' schemes. These schemes do not generate additional giving, but simply reclassify admission fees as donations on which Gift Aid is being claimed.

The Chancellor of the Exchequer announced in the pre-Budget report (Cm 6042) that the Government will amend the Gift Aid legislation to ensure that the special exemption applies as it was originally intended and not to these 'day memberships'.

This will mean that heritage and conservation charities will continue to benefit from the special exemption where a donor has an ongoing commitment to the charity, such as an annual membership, and these charities—like other fundraising charities—will continue to benefit from Gift Aid on other donations of money.

No estimate is available of the amount of money being claimed by charities which are taking advantage of this. Charities are not required to differentiate on their Gift Aid claims the amounts they are claiming for 'day membership' income from other amounts they are claiming. However, the purpose of this measure is not to raise revenue but to maintain a level playing field for all charities. It is unfair that some charities are claiming Gift Aid payments on what is in effect an admission fee when most other charities cannot.

We will work closely with those charities affected to ensure that the change operates as intended and that the impact on them is minimised. The Government intend to announce final details of the changes in this year's Budget and introduce legislation in the next Finance Bill.

Iraq

Mr. Tynan: To ask the Chancellor of the Exchequer what recent discussions he has had *(a)* as part of the Paris Club, *(b)* with Gulf states and *(c)* with other states regarding the cancellation, reduction and rescheduling of Iraq's sovereign debt. [147530]

John Healey: The UK believes that Iraq's external debt is unsustainable and that creditors will need to agree a significant reduction through a clear multilateral process in order to restore Iraq to sustainability. This is likely to lead to the writing off the vast majority of Iraq's external debt. The UK would like to see this agreed by creditors before the end of 2004.

The UK welcomed the success of the US Presidential Envoy, James A. Baker III, in creating a G7 consensus on the need for substantial debt reduction for Iraq in the Paris Club during 2004.

The UK frequently discusses Iraq's debt problems with international partners and with international financial institutions, including discussions in the Paris Club, with the aim of broadening and deepening the emerging international consensus.

Public Sector Pensions

Mr. Laxton: To ask the Chancellor of the Exchequer what assessment his Department has made of the level of the Government's public sector pensions liability. [148317]

Ruth Kelly: I refer the hon. Gentleman to the answer I gave him on 14 January 2004, *Official Report*, column 816W.

Tax Credits

Mr. Webb: To ask the Chancellor of the Exchequer pursuant to the letter of 2 December 2003 from the Paymaster General to the hon. Member for Northavon, on tax credits compensation, how many claims for compensation were submitted to the Inland Revenue up to the end of September 2003; and what the *(a)* minimum and *(b)* maximum compensation payments were that were made. [147991]

Dawn Primarolo: I refer the hon. Gentleman to the answer I gave to the hon. Member for Roxburgh and Berwickshire (Sir Archy Kirkwood) and the hon. Member for North Norfolk (Norman Lamb) on 19 November 2003, *Official Report*, column 1100W.

Tax Returns (Self-Assessment)

Norman Lamb: To ask the Chancellor of the Exchequer if he will make a statement on the investigation by the Inland Revenue and the e-Envoy into the breaches of confidentiality relating to self-assessment tax returns filed via the internet. [147634]

Dawn Primarolo: SA Online, the Inland Revenue tax return software was temporarily withdrawn on 27 May 2002 following reports from some customers that they had seen information relating to another person. The actual internet service for self assessment remained available to users of alternative tax return software.

The Inland Revenue acted quickly to safeguard taxpayer information. They immediately withdrew the service and called in Qinetiq, an independent security company, as well as experts from the e-Envoy's office.

After an extensive investigation Qinetiq and the experts from the Office of e-Envoy agreed that the Inland Revenue had

identified the root cause of the problem; and

implemented the necessary changes to ensure it does not occur again.

There has been no repeat of this incident.

Key findings were shared with the Office of E-envoy and other Government Departments.

Norman Lamb: To ask the Chancellor of the Exchequer if he will make a statement on the studies by the Inland Revenue into introducing new methods of payment of self-assessment liabilities. [147635]

Dawn Primarolo: IR is currently carrying out studies aimed at expanding the payment methods that are already on offer.

Direct Debit—For customers who are interested in making regular payments on account in advance of their SA tax becoming due IR offers a limited service called Budget Payment Plan. A current study is looking to develop a national service that will extend the use of the Inland Revenue's Direct Debit systems.

Debit card—A current study is looking at the feasibility of providing a National system to enable all IR Local Recovery Offices to accept Debit card payments.

Credit cards—Work on payment by credit card is on-going but there are many factors to consider before offering the facility to pay self-assessment debts by Credit card.

Norman Lamb: To ask the Chancellor of the Exchequer if he will make a statement on current delays in processing self-assessment tax returns received by the Inland Revenue. [147636]

Dawn Primarolo: The Inland Revenue have met their targets for capturing the information included in self-assessment tax returns every year since self assessment was introduced and fully expect to do so again this year.

Norman Lamb: To ask the Chancellor of the Exchequer what percentage of taxpayers filed their self-assessment tax returns by the due date in 2003; and if he will make a statement. [147645]

Dawn Primarolo: 90.5 per cent. of self-assessment taxpayers filed their 2001–02 self assessment tax returns by the due date (31 January 2003).

Norman Lamb: To ask the Chancellor of the Exchequer if he will change the inquiry window regarding self-assessment tax returns from running for 12 months from 31 January to 12 months from the date a return is received; and if he will make a statement. [147646]

Dawn Primarolo: There are no plans to change the self-assessment inquiry window to run for 12 months from the date a return is received.

Norman Lamb: To ask the Chancellor of the Exchequer how many self-assessment tax returns have remained outstanding from each year since the system was introduced; and if he will make a statement. [147647]

Dawn Primarolo: Out of approximately nine million self-assessment returns issued annually, the number outstanding for each tax year as at the end of November 2003 was as shown in the following table:

Return year	*Returns outstanding*
1997	36,065
1998	55,357
1999	83,954
2000	136,984
2001	219,088
2002	389,939

Norman Lamb: To ask the Chancellor of the Exchequer how many taxpayers have filed their self-assessment tax returns via the internet in each year since this service became available; whether he expects that the 50 per cent. target for internet filing of self-assessment tax returns will be met by 2005; and if he will make a statement. [147648]

Dawn Primarolo: The Inland Revenue received the following number of returns electronically in the following years:

2000–01: The number of returns received electronically by the Inland Revenue was 336,127. 296,837 of these were received via the Electronic Lodgement Service and 39,290 via the Internet Service.

2001–02: The number of returns received electronically by the Inland Revenue was 419,236. 343,009 of these were received via the Electronic Lodgement Service and 76,287 via the internet service.

2002–03: The number of tax returns received electronically by the Inland Revenue was 705,690. 370,051 of these were received via the Electronic Lodgement Service and 335,639 via the Internet service.

2003–04: The number of tax returns received electronically by the Inland Revenue at 9 January 2004 was 649,338. 209,515 of these were received via the Electronic Lodgement Service and 439,823 via the Internet service.

The target for electronic filing of self-assessment tax returns is that 25 per cent. of all self-assessment returns will be received electronically by 5 April 2006. Electronically means by the Internet service or the Electronic Lodgement Service. The Inland Revenue is on course to meet this target.

Taxation Adjustments

Mr. Gray: To ask the Chancellor of the Exchequer what the value was of adjustments in favour of taxpayers resulting from compliance cases processed by the Large Business Office of Inland Revenue in each year since 1997–98; and in which years these sums were included in the Large Business Office's total compliance performance reported in Inland Revenue annual reports. [147949]

Dawn Primarolo: The figures for the value of adjustments in favour of taxpayers as a result of LBO inquiries are:

	£ million
1999–2000	132
2000–01	75
2001–02	130
2002–03	209

Data to provide this analysis is not available for earlier years.

The amounts for 1999–2000 to 2001–02 were included in the total given for the effect of LBO interventions for those years. For 2002–03 only the amount for revenue favour adjustments was shown.

Adjustments are recorded for the year in which they are settled.

UK Company Profitability

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what proportion of total UK company turnover has been spent on *(a)* company taxation, *(b)* national insurance contributions and *(c)* corporation tax in each of the last 10 years. [148182]

Dawn Primarolo: It is not possible from the tax records available centrally to provide the information requested.

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what the productivity of UK companies with *(a)* 1–49, *(b)* 50–99, *(c)* 100–249, *(d)* 250–499, *(e)* 500–999 and *(f)* more than 1,000 employees has been in each quarter since 1997. [148178]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Stephen O'Brien, dated 15 January 2004:

The National Statistician has been asked to reply to your Parliamentary Question on the productivity of UK companies. I am replying in his absence. (148178)

The Office for National Statistics does not produce quarterly (or annual) estimates of productivity by size band of number of employees. Existing quarterly surveys are not suitable for producing output series by size band. They have a relatively small sample and do not include the very smallest companies (1–9 employees) and include very few with fewer than 50 employees in order to limit the statistical reporting burden on business.

HOME DEPARTMENT

Animal Experiments

Phil Sawford: To ask the Secretary of State for the Home Department (1) how many animals have been used in scientific procedures in each of the last 10 years; and what action he is taking to reduce these numbers; [145438]

(2) what action he is taking *(a)* to reduce the numbers of animals used in scientific procedures and *(b)* to encourage the use of alternatives; [145439]

(3) what action he is taking to ensure that the use of animals in scientific experiments is restricted to those experiments where no alternative methods are available. [145440]

Caroline Flint: The number of animals used in scientific procedures in Great Britain in each of the last ten years for which figures are available is as follows:

	Number
1993	2,759,940
1994	2,772,758
1995	2,637,847
1996	2,646,026
1997	2,573,088
1998	2,593,587
1999	2,569,295
2000	2,642,993
2001	2,567,713
2002	2,655,876

Under the Animals (Scientific Procedures) Act 1986, the Home Office can only license the use of animals for scientific purposes where there is no non-animal alternative, and then only when both the number of animals to be used and any resulting suffering is minimised. This reflects the principles of the 3Rs—the refinement of scientific procedures, the reduction of the number of animals used and their replacement with other methods wherever possible. However, as a demand-led regulator working on a case-by-case basis, we have no control over the total amount of research taking place. That is determined by a number of factors, including the economic climate and global trends in scientific endeavour.

It is essential that we continue to regulate effectively. We must also continue to apply fully the 3Rs, and to support and encourage their development and promotion. We do this in a number of ways. For example, all applications are subjected to scrutiny within institutional local ethical review processes at licensed establishments, and are also assessed separately by Home Office Inspectors, who are all either medical or veterinary graduates, to ensure that no relevant replacement, reduction or refinement measure has been overlooked.

We are also currently exploring the recommendation by the House of Lords Select Committee on Animals in Scientific Procedures that there should be a United Kingdom centre for research into the 3Rs. This is being considered by the Inter-Departmental Group on the 3Rs, led by the Home Office and also comprising officials from the Department of Health, the Department for the Environment, Food and Rural Affairs, the Department of Trade and Industry, the Office of Science and Technology, the Food Standards Agency, the Health and Safety Executive, and other agencies. The Inter-Departmental Group is also reviewing the effectiveness of the Inter-Departmental Data Sharing Concordat announced in August 2000, which commits United Kingdom regulatory authorities to help resolve legal and other obstacles and encourages

data sharing between clients to reduce animal testing. The Inter-Departmental Group will report back to me on both of these issues shortly.

In addition, every year the Home Office makes available to the Animal Procedures Committee a budget aimed at developing or promoting the 3Rs. The amount made available to the Committee for 2003–2004 for this specific purpose is £280,000. Work aimed at improving the environmental conditions in which laboratory animals are kept and transported has also been sponsored. This is not the only money spent by Government on the 3Rs. We estimate that Government Departments, agencies and funding bodies spend up to £10 million each year on such research. Industry spends a great deal more.

On an international level, the United Kingdom Government supports the European Centre for the Validation of Alternatives Methods (ECVAM) through contributions to the European Union. It is the task of ECVAM to monitor and co-ordinate research into alternatives and to develop the processes of validation, that is, the assessment of alternative methods to see whether they are reliable and whether they produce a level of information similar to the animal based tests they are to replace.

This is not, however, an area where quick gains can be expected. In the longer term, we believe that further significant reduction in animal use will, and must, continue to rely largely on the scientific community's own efforts to develop, validate and adopt more advanced methods based on the 3Rs.

Phil Sawford: To ask the Secretary of State for the Home Department what action he is taking to ensure that the highest standards of animal welfare are implemented in establishments using animals to carry out scientific procedures. [145441]

Caroline Flint: The Government are fully committed to the effective and efficient implementation of the Animals (Scientific Procedures) Act 1986 which makes provision for the protection of animals used for experimental and other scientific purposes while recognising the need to use animals in medical research, the development of new medicines, and scientific testing.

Under the 1986 Act, both personal and project licences are required. These ensure that those doing the work are qualified and suitable; that alternatives to animals are used wherever possible; that the number of animals used is minimised; and that any suffering or other harmful effects experienced by the animals have been weighed against the potential benefits (to humans or animals) and have been minimised.

In addition, work can only be carried out at designated establishments which have suitable veterinary and animal welfare personnel and the standards of accommodation and care provided for the animals must meet or surpass the provisions of Home Office codes of practice. Under the Act, the Animals (Scientific Procedures) Inspectorate is charged with inspecting designated places to monitor compliance with these codes of practice and the licence authorities. About 2,500 inspections are made annually of which two thirds are made without notice. The number of visits made to each establishment during the year is determined by its size and the type of work carried out.

Lady Hermon: To ask the Secretary of State for the Home Department how much money has been made available to the Animal Procedures Committee in each year since 1997 specifically aimed at *(a)* developing and *(b)* promoting alternatives to animal experimentation; and if he will make a statement. [145442]

Caroline Flint: Since the financial year 1988–89, the Home Office has made available to the Animal Procedures Committee a budget for the development and promotion of alternatives which replace animal use, reduce the number of animals used, or refine the procedures involved to minimise suffering (the 3Rs). Work aimed at improving the environmental conditions in which laboratory animals are kept and transported has also been sponsored. Details of completed research are published in the Annual Reports of the Animal Procedures Committee, which are available from The Stationery Office and, for recent years, on the Committee's website.

The Committee seeks to allocate 60 per cent. of the budgets provided on research into reducing, refining and replacing the use of animals in scientific procedures and another 20 per cent. on the development and promotion of awareness and use of alternatives. The Committee seeks to allocate the remaining 20 per cent. to research into the operation of the Animals (Scientific Procedures) Act 1986.

The budget provided to the Committee for these purposes in each year since 1997–98 was:

	£
1997–98	242,000
1998–99	182,000
1999–2000	259,000
2000–01	259,000
2001–02	265,000
2002–03	280,000
2003–04	280,000

Asylum

Keith Vaz: To ask the Secretary of State for the Home Department what recent discussions he has had with EU partners concerning asylum. [145414]

Beverley Hughes: Government Ministers have regular discussions with counterparts in other member states on asylum issues. These discussions take place within formal bilaterals and Justice and Home Affairs Councils, as well as in the margins of other meetings.

Mr. Sarwar: To ask the Secretary of State for the Home Department how many asylum applications were made in 2003; what the countries of origin were; and if he will make a statement.

Beverley Hughes: The table shows asylum applications to the UK by nationality for the first three quarters of 2003.

Information on asylum applications is published quarterly. Data for the fourth quarter and consequently the whole of 2003 will be available in the next publication at the end of February 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Applications[1] received for asylum in the United Kingdom, excluding dependants, by nationality and location where made, January-September 2003

[1] Figures are provisional and have been rounded to the nearest 5 with * = 1 or 2.

[2] Serbia and Montenegro (SAM) replaced Federal Republic of Yugoslavia (FRY) from 5 February 2003. SAM comprises the Republic of Serbia, the Republic of Montenegro, and the Province of Kosovo (administered by the UN on an interim basis since 1999)

Mr. Malins: To ask the Secretary of State for the Home Department how many initial decision makers for asylum applications were in post on 1 October in each of the last six years. [142155]

Beverley Hughes: Records are available for the years from 2000. The number of staff deployed on decision-making depends on the volume of cases. Internal management information indicates that, as the backlog of outstanding applications has fallen and decisions have been made more quickly, the number of full-time equivalent staff deployed on making initial decisions for asylum applications was 477 in October 2000, 465 in October 2001, 396 in October 2002 and 365 in October 2003.

Annabelle Ewing: To ask the Secretary of State for the Home Department what written representations he has received from the First Minister of Scotland concerning his policy in relation to the detention of families with children in removal centres. [142763]

Beverley Hughes *[holding answer 8 December 2003]*: No written representations have been received from the First Minister of Scotland on detention policy as this is a reserved matter. The First Minister has, however, written recently to me emphasising the importance of the UK Government's careful engagement with this issue.

Annabelle Ewing: To ask the Secretary of State for the Home Department what plans he has to permit asylum seekers in general to take up employment. [142768]

Beverley Hughes: There are no plans to allow asylum seekers in general to take employment. The European directive on reception standards for asylum seekers comes into force in February 2005. At that time asylum seekers who have waited more than one year for an initial decision on their claim will be able to seek permission to work. Although the employment concession for asylum seekers was abolished on 23 July 2002 we retain discretion to allow asylum seekers to work. The discretion is exercised sparingly but might be appropriate in cases where an asylum seeker has, through no fault of their own, waited for longer than 12 months for an initial decision on their claim. The majority of asylum claims receive an initial decision well within this period. 81 per cent. of applications for asylum received in the period April to June 2003 had initial decisions reached and served within two months.

We are currently considering whether asylum seekers and failed asylum seekers currently in work whose employment would meet the requirements for the issue of a work permit should be allowed to remain in employment.

Mr. Gale: To ask the Secretary of State for the Home Department when Kent county council will receive central government funding in respect of the costs of asylum seekers outstanding for the financial years *(a)* 2001–02 and *(b)* 2002–03; when funding will be received for the 2003–04 financial year; and what estimate he has made of the cost to Kent county council in respect of support of asylum seekers between April and November. [144468]

Beverley Hughes *[holding answer 16 December 2003]*: All amounts claimed for 2001–02 by Kent county council—in respect of support for Adults and Families and Unaccompanied Asylum Seeker Children (UASCs)—have been settled. Payments on account of the 2002–03 claim have been made but the final claim is subject to audit before it can be settled.

Payments on account for Adults and Families have been made to Kent county council for 2003–04, based on grant claims submitted for the first two quarters. Payments on account have also been made in respect of UASC support costs, using the provisional rate for 2003–04.

Claims for the third quarter have not yet been submitted and so the Home Office's estimates have been made on the basis of the previous claims submitted for the current year.

Mr. Brazier: To ask the Secretary of State for the Home Department how many asylum seekers were removed or made a voluntary departure to the 10 East European candidate states for membership of the European Union *(a)* in each of the last three years and *(b)* in the first half of 2003. [141552]

Beverley Hughes *[holding answer 4 December 2003]*: Information on the destination of removals and voluntary departures is not available.

Estimates of the number of nationals of the 10 East European candidate states who had sought asylum at some stage and who were removed between January 2001 and June 2003 are shown in the following table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, and persons leaving under Assisted Voluntary Returns Programmes run by the International Organization for Migration.

Information on the nationality of persons removed in 2000 and on those persons who departed voluntarily without informing the Home Office is not available.

Removals and voluntary[1] departure of asylum applicants, excluding dependants, of EU accession states, January 2001 to June 2003[2,4]

Nationality	*2001*	*2002[5]*	*January to June 2003[5]*
Poland	605	635	470
Czech Republic	800	790	585
Hungary	5	10	5
Lithuania	320	310	125
Latvia	170	175	90
Estonia	60	65	25
Slovakia	60	75	30
Slovenia	*	—	*
Cyprus[3]	5	15	5
Malta	*	—	—
Total	2,035	2,070	1,340

[1] Includes persons departing 'voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Figures rounded to the nearest five, with * = 1 or 2, and may not sum due to rounding.
[3] Data exclude nationals of the Turkish Republic of North Cyprus.
[4] Data have been estimated due to data quality issues.
[5] Provisional figures.

The number of applications from nationals of the accession countries fell from 250 in October 2002 to 25 in June 2003 following the introduction (in November 2002) of the non-suspensive appeal measure included in the Nationality, Immigration and Asylum Act 2002.

The Home Office will continue to remove nationals of the candidate states in the same circumstances as now up until accession, although this will be kept under constant review. This is being done in the interests of maintaining an effective immigration control and the need to control numbers prior to accession; because we are not legally obliged to grant free movement rights under 1 May; and because we are giving free movement rights earlier than some other member states.

Data on the removals by nationality are available from the Home Office website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Gerrard: To ask the Secretary of State for the Home Department in how many cases heard by the Immigration Appeals Tribunal in each of the last five years for which figures are available the tribunal upheld the decision being appealed. [142582]

Beverley Hughes *[holding answer 8 December 2003]*: Data on the number of cases in which the Immigration Appeals Tribunal upheld the decision being appealed, in each of the last five years for which figures are available, are given in the following table. Appeals received do not necessarily correspond to appeals determined in any given year.

Statistics on appeals to the Immigration Appeals Tribunal are published annually. The latest publication, Asylum Statistics United Kingdom 2002, is available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Asylum appeals—Further appeals to the Tribunal, decisions, and the outcome of Tribunal Hearings, excluding dependants, 1994 to 2002[1]

Number of principal appellants

	Appeals to the Tribunal[2]		*Outcome of Tribunal Hearings*[3]			
	Received	*Determined*	*Allowed*	*Dismissed*	*Withdrawn*	*Remitted to adjudicators for further consideration*
1998	1,775	[4]1,090	—	—	—	—
1999	2,135	1,790	—	—	—	—
2000	1,615	2,635	815	1,385	220	215
2001	3,860	3,190	475	1,140	150	1,430
2002[5]	6,920	5,565	620	2,015	225	2,700

[1] Figures rounded to the nearest 5. Numbers might not add up due to rounding.
[2] Figures based on data supplied by the Lord Chancellor's Department. Decisions and determinations do not necessarily correspond to applications and appeals received in any given year.
[3] Figures supplied by the Presenting Officers Unit. Figures for October to December 1999 are based on data for November to December.
[4] Revised figures.
[5] Provisional figures.

Tim Loughton: To ask the Secretary of State for the Home Department on what basis he judges that the terms of the Asylum and Immigration (Treatment of Claimants, etc.) Bill as regards the removal of the children of asylum seekers are compatible with *(a)* the Human Rights Act 1998, *(b)* the UN Convention on the Rights of the Child and *(c)* section 1 of the Children Act 1989. [143061]

Beverley Hughes: The Bill creates no powers for the removal of children of failed asylum seekers from their parents. Insofar as the withdrawal of support from people who have failed to establish a right to political asylum and who refuse to co-operate in their removal from the country leads to consideratipn by local authorities of the need for support for their children, it will be provided in a way that is consistent with the Human Rights Act, the Children Act and the United Kingdom's obligations under the UN Convention on the Rights of the Child.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many asylum seekers have been granted permission to work due to exceptional circumstances; and what criteria are used to determine whether an application will succeed. [143461]

Beverley Hughes: The information requested could only be obtained at disproportionate cost. Generally speaking, however, asylum seekers are not now allowed to take employment while their claim for asylum is pending. Prior to 23 July 2002 asylum seekers could request permission to work if their claim remained outstanding for longer than six months without a decision being made on it. The concession was abolished on 23 July 2002.

The majority of asylum claims receive an initial decision well within six months. 81 per cent. of applications for asylum received in the period April—June 2003 had initial decisions reached and served within two months. 74 per cent. of applications for asylum received in 2002–03 had initial decisions reached and served within two months, 84 per cent. within four months and 87 per cent. within six months. The number of asylum seekers who would have been able to benefit from the concession had it remained in force is now much reduced.

Tim Loughton: To ask the Secretary of State for the Home Department what estimate he has made of the cost to West Sussex county council of the judgment in Behre and others *v.* Hillingdon London borough council, on asylum seekers in local authority care. [144993]

Beverley Hughes: The Home Office and the Department for Education and Skills are at present reviewing the grants arrangements for support of unaccompanied asylum seeker children (UASC) in the light of the Hillingdon judgment. A decision on the 2003–04 grant will be made shortly.

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what representations he has received from local authorities on the implications for them of children being taken into care under the provisions in the Asylum and Immigration (Treatment of Claimants, etc.) Bill. [145189]

Beverley Hughes *[holding answer 5 January 2004]:* We received six representations on the provision in question from local authorities, or organisations representing them or the services they administer, during the consultation exercise we carried out recently. As we made clear in our response to this exercise, it is our objective to ensure that few, if any, children need to be taken into care as a result of this provision, and officials are meeting the Local Government Association in order to discuss its practical application.

Mr. Lansley: To ask the Secretary of State for the Home Department how many individuals have been housed at Oakington Immigration Reception Centre during 2003 as a result of the detention overspill facility. [145366]

Beverley Hughes: Following the success of the NSA process in 2002 that resulted in considerable intake reduction earlier than anticipated, there was the potential for utilisation of the Oakington facility. In line with considerations of public financial accountability a decision was taken to use part of the facility to detain families prior to removal on flights from nearby Stansted. It continued to be used for this purpose successfully throughout 2003.

The latest available information on people held in the immigration removal estate show that as at 27 September 2003–260 people were housed at the Oakington Immigration Reception Centre. Information on the number of these who were there as a result of the detention overspill facility and on the total number of people detained in 2003 is not available except by examination of individual case-files at disproportionate cost.

Mr. Lansley: To ask the Secretary of State for the Home Department for what purposes, in addition to making initial decisions on asylum applications, detainees are housed at the Oakington Immigration Reception Centre. [145369]

Beverley Hughes: Oakington is a designated place of detention and may be used to house persons under any of the published detention criteria, including detention under fast track procedures.

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what specific actions he expects local authorities to take to protect children who are not taken into care but whose parents have had their benefits stopped as a consequence of the implementation of clause 7 of the Asylum and Immigration (Treatment of Claimants, etc.) Bill. [145584]

Beverley Hughes: We are discussing with representatives of local authorities whether guidance on the way in which they would exercise their responsibilities under these circumstances would be helpful.

Mr. Peter Duncan: To ask the Secretary of State for the Home Department what plans he has to change the system to record the number of asylum seekers *(a)* entering the UK illegally, *(b)* applying for asylum and *(c)* being detained awaiting deportation; and if he will make a statement. [145676]

Beverley Hughes: There are no plans to change the system to record the number of asylum seekers *(a)* entering the country illegally, *(b)* applying for asylum and *(c)* being detained awaiting deportation. Information on asylum applications, detainees and removals is published quarterly. The next publication will be available at the end of February 2004 on the Home Office Research Development and Statistics Directorate website.

Mr. Coleman: To ask the Secretary of State for the Home Department what plans his Department has to abolish the support only provision for asylum seekers; and if he will make a statement. [146971]

Beverley Hughes: There are no plans to do so at present. Section 50 of the Nationality Immigration and Asylum Act 2002 allows us to withdraw the opportunity for asylum seekers to apply for financial support only. During the passage of the Bill through Parliament we gave a commitment that there would be a full public consultation process before the provision was introduced. The provision is also subject to the affirmative resolution procedure.

Mr. Gerrard: To ask the Secretary of State for the Home Department what arrangements have been made for the UN High Commission for Refugees to work with Home Office training programmes to improve decision making on asylum applications; what the terms of reference are for UNHCR involvement; and when these arrangements will be brought into effect. [147728]

Beverley Hughes *[holding answer 13 January 2004]:* The London office of the United Nations High Commissioner for Refugees already contributes to the training of asylum caseworkers. We intend that this fruitful relationship should continue and we are presently discussing with UNHCR what further assistance they might provide in support of our measures to assure high quality decision making processes.

Mr. Crausby: To ask the Secretary of State for the Home Department what the cost was in each of the last five years of police involvement in immigration controls. [147789]

Ms Blears: This information is not held centrally. Local police involvement in immigration controls forms part of the arrangements made by Chief Constables in the light of police authorities' policing plans.

Mr. Gerrard: To ask the Secretary of State for the Home Department on how many occasions the powers

under section 6 of schedule 3 of the Nationality, Immigration and Asylum Act 2002 have been used. [146492]

Beverley Hughes *[holding answer 8 January 2004]*: We have not so far withdrawn support from any family under this provision, although its availability may have helped induce a number of failed asylum seekers to depart voluntarily.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter to him dated 16 October 2003 from the right hon. Member for Manchester, Gorton, with regard to Miriam Adebeshin; [141584]

(2) when he intends to reply to the letter to him dated 4 November 2003 from the right hon. Member for Manchester, Gorton with regard to Miriam Adebeshin; [144642]

(3) when he will reply to the letter to him dated 16 October 2003 from the right hon. Member for Manchester, Gorton with regard to Miriam Adebeshin; [147614]

(4) when he will reply to the letter to him dated 12 October 2003 from the right hon. Member for Manchester, Gorton, with regard to Miriam Adebeshin; [142953]

(5) when he intends to reply to the letter to him dated 16 October 2003 from the right hon. Member for Manchester, Gorton, with regard to Miriam Adebeshin. [145961]

Mr. Blunkett: I replied to the right hon. Member for Manchester, Gorton, on 12 January 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he will reply to the letter to him dated 4 November 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. John Alosine Bangura; [147616]

(2) when he will reply to the letter to him dated 4 November 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. John Alosine Bangura; [144637]

(3) when he will reply to the letter to him dated 4 November 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. John Alosine Bangura; [145964]

Mr. Blunkett: I replied to the right hon. Member on 8 January 2004.

Crime

Mr. Woodward: To ask the Secretary of State for the Home Department what expenditure has been allocated to *(a)* St. Helens, *(b)* Merseyside and *(c)* the North West region to tackle crime in each year since 1992. [141292]

Ms Blears: General grants to police authorities are unhypothecated to particular purposes and may be used as each police authority and chief officer decide, to support local policing plans. Government grant takes into account the whole range of policing activity, including tackling crime.

It is a matter for the Chief Constable and Police Authority to decide on the distribution of resources within the force area.

Police funding allocated to Merseyside and the North West is set out in the following tables. These figures also include specific grants agreed for particular purposes.

£ million

	Government grant[1] *Merseyside*	*North West*[2]
1992–93[3]	n/a	n/a
1993–94[3]	n/a	n/a
1994–95[3]	n/a	n/a
1995–96	196.92	752.65
1996–97	203.40	789.41
1997–98	207.64	805.79
1998–99	213.22	834.17
1999–2000	215.31	852.13
2000–01	222.23	884.26
2001–02[4]	234.24	939.82
2002–03[4]	238.42	962.04
2003–04	253.72	1,022.16

[1] Government Grant includes Home Office police grant, ODPM Revenue Support Grant and non-national domestic rates, Crime Fighting Fund, Rural Policing Grant, Basic Command Unit funding, Community Support Officer funding, DNA Expansion Programme, Street Crime Initiative and Special Priority payments.

[2] The North West region is policed by Cheshire, Cumbria, Greater Manchester, Lancashire and Merseyside forces.

[3] Before 1995–96, when most Police Authorities became independent local authorities, revenue support grant and non-national domestic rates were paid as part of respective county council grant funding.

[4] The grant figures for 2001–02 and 2002–03 are not directly comparable, owing to changes from 2002–03 in the method of funding the National Crime Squad and the National Criminal Intelligence Service. These bodies became centrally rather than locally funded.

In addition, Merseyside and the North West forces received the following funding in capital grant, including Airwave and the Premises Improvement Fund.

£ million

	Merseyside	*North West Region*
1995–96	6.69	22.54
1996–97	5.46	17.73
1997–98	6.64	19.05
1998–99	3.52	12.92
1999–2000	3.13	13.46
2000–01	3.97	17.59
2001–02	3.94	45.46
2002–03	14.0	36.56
2003–04	9.52	34.96

Drug Intervention Policies

Paul Flynn: To ask the Secretary of State for the Home Department what effect drug intervention policies have had over the last five years in reducing *(a)* drugs crime, *(b)* drugs use and *(c)* drugs deaths. [146754]

Caroline Flint: The Updated Drug Strategy 2002 aims to concentrate resources on the most dangerous drugs, the most damaged communities and those individuals whose addiction and chaotic lifestyles are the most harmful.

Indicators of the effect of the strategy include:

(a) Drug crime (including supply)

The level of seizure of drugs and drug related assets is one indicator of the effectiveness of policies to reduce the supply of illegal drugs. Recently, over £20 million worth of cocaine was seized in one of the UK's biggest ever drugs operation, while over £37 million, suspected of being the proceeds of crime or intended for use in crime, has been recovered.

The Government are also addressing drug related crime—which includes high levels of acquisitive crime such as theft and burglary—by getting more offenders out of crime and into treatment. The numbers of problematic drug users entering treatment in 2002–03 increased by 41 per cent. to 140,900, against a baseline of 100,000 in 1998–99. In April 2003, the Criminal Justice Intervention Programme (CJIP) was introduced to break the link between drugs and crime and is now operating in the 25 Drug Action Team areas with the highest level of acquisitive crime. It will be extended to a further 22 DATs in 2004–05.

(b) Drug use

Data from the British Crime Survey (2003) demonstrate reductions in overall levels of drug use. For Young People (16 to 24-year-olds):

Reported use of Class A drugs in the last year has remained stable since 1996. Around 8 per cent. of young people had used a Class A drug in the last year;

Since 1998, those individuals reporting use of any illicit drug in the last year decreased from 31.8 per cent. to 28.1 per cent.;

Large decreases have been seen in the use of amphetamines (9.9 per cent. to 3.7 per cent.) and hallucinogens (5.3 per cent. to 2.0 per cent.) in the last year since 1998. However the number of individuals reporting cocaine use in the last year has increased from 3.1 per cent. in 1998 to 4.7 per cent. in 2002–03; and

Among young people cannabis use has remained stable since 1998. In 2002–03 25.8 per cent. said that they had used it in the last year.

For 16 to 59-year-olds:

Since 1998, those reporting use of any illicit drug in the last year has remained stable at approximately 12 per cent. in 2002–03, while those individuals reporting use of Class A drugs in the last year has slightly increased (2.7 per cent. to 3.3 per cent.);

Since 1998, there have been increases in last year use of cocaine (1.2 per cent. to 2.1 per cent.), crack (0.1 per cent. to 0.2 per cent.) and ecstasy (1.5 per cent. to 2.0 per cent.), although decreases in reported use of amphetamines (3.0 per cent. to 1.6 per cent.) during this period; and

Among 16 to 59-year-olds cannabis use has remained stable since 1998. In 2002–03 10.9 per cent. said that they had used it in the last year.

(c) Drug deaths

Department of Health figures for England and Wales indicate that there was a steady increase in the number of drug related deaths between 1993 and 2000, when 1,662 drug related deaths were recorded. In 2001 the number of drug related deaths decreased to 1,623.

The Government produced "The Action Plan to Prevent Drug-Related Deaths" in 2001. The implementation of this action plan is expected to make a vital contribution to reducing drug-related deaths.

Eurostar Terminal (Ashford)

Alistair Burt: To ask the Secretary of State for the Home Department what the staffing levels were at the Immigration and Customs posts at the Eurostar Terminal in Ashford on Friday 28 November between 18.00 and 00.00. [144902]

Beverley Hughes: The immigration office at the Ashford Eurostar Terminal is normally staffed from 0700 hrs. until 2300 hrs. by immigration officers based at Cheriton.

On the evening of Friday 28 November, the immigration control was staffed as normal until 23:00 hrs. At least one officer was in attendance during the whole of that period. Officers do not control arrivals that have been cleared either at the juxtaposed controls in Paris, or that have been cleared on board. All cleared trains are notified to the office in advance. Only one train that evening had been cleared prior to arrival in Ashford.

Customs regularly deploy anti-smuggling teams to Ashford on a risk-assessed basis. They also participate in occasional joint exercises with other Control authorities such as the Immigration Service and the British Transport police. However on the 28 November there were no customs officers in attendance at Ashford due to a special exercise taking place at Waterloo International Terminal.

Alistair Burt: To ask the Secretary of State for the Home Department whether the Immigration and Customs posts at the Eurostar Rail Terminal in Ashford are staffed at all times; and if he will make a statement. [144903]

Beverley Hughes: The immigration office at the Ashford Eurostar Terminal is normally staffed from 0700 hours until 2300 hours by immigration officers based at Cheriton.

Officers are scheduled to attend for all Eurostar arrivals which have not been pre-cleared. Immigration officers do not control arrivals that have been fully cleared either at the juxtaposed controls in Paris, or on board. All cleared trains are notified to the office in advance.

Customs deploy anti-smuggling teams to Ashford on a risk-assessed basis. They also participate in occasional joint exercises with other Control authorities such as the Immigration Service and British Transport police.

Gurkhas

Miss Widdecombe: To ask the Secretary of State for the Home Department when the findings of the Review on Immigration Law in relation to Gurkhas will be published. [147006]

Beverley Hughes *[holding answer 12 January 2004]*: The internal review of our immigration policy in respect of Gurkhas serving in the British Army will be

completed shortly and a report presented to Ministers. Once agreement has been reached on the way forward, I will write to my right hon. Member.

Health Worker Work Permits

Tom Brake: To ask the Secretary of State for the Home Department how many work permits have been granted since January to health workers by each Government office region; and from which countries they have come. [146003]

Beverley Hughes: In the first nine months of 2003, 33,057 work permits were approved for posts in the healthcare sector. This figure includes initial approvals and approvals of applications to extend and to change existing work permits.

The table breaks this figure down by the nationality of the healthcare worker for whom the work permit was issued.

Nationality	*Approvals for health workers*
Philippines	8,749
India	7,367
South Africa	4,423
Zimbabwe	2,050
Nigeria	1,128
Australia	1,033
Peoples Republic of China	733
Pakistan	723
Ghana	653
Bulgaria	532
Others	5,665

Work Permits (UK) is unable to provide data broken down by Government Office region.

Illegal Guns

Mr. Paice: To ask the Secretary of State for the Home Department how many *(a)* air weapons, *(b)* rifles, *(c)* shotguns, *(d)* imitation firearms and *(e)* handguns have been stolen in each of the last five years. [147396]

Caroline Flint: The information requested has been published in Table 2.11 of 'Crime in England and Wales 2001–02: Supplementary Volume', which is available in the Library.

Immigration

Mr. Brazier: To ask the Secretary of State for the Home Department how many applications for indefinite leave to remain were submitted in 2002 by those who had previously been granted exceptional leave to remain; and how many were *(a)* granted and *(b)* refused, broken down by nationality. [141554]

Beverley Hughes *[holding answer 4 December 2003]:* The latest available statistics are given in the table.

The information relates to grants of indefinite leave to remain (settlement) to those who had previously been granted exceptional leave to remain.

Information on the number of applications submitted or the number of such application refused are not currently available.

Persons given exceptional leave to remain, granted settlement[1], by main nationality, 2000

	Number of persons
Bulgaria	5
Cyprus	5
Romania	5
Turkey	75
Russia	10
Ukraine	5
Other former USSR	5
Serbia and Montenegro	120
Croatia	35
Other former Yugoslavia	415

All nationalities	7,280

[1] Excludes those previously given exceptional leave to remain who are granted settlement on other grounds; also excludes dependants.

Note:

Data rounded to the nearest 5 with * = 1 or 2

18 Plus

Chris Bryant: To ask the Secretary of State for the Home Department what funding his Department and its executive agencies have provided to the 18 Plus organisation since 1997. [147351]

Fiona Mactaggart: Neither the Home Department, nor its executive agencies, have any records of funding the 18 Plus organisation since 1997.

Inward Visitors

Mr. Evans: To ask the Secretary of State for the Home Department how many people visited the United Kingdom from *(a)* Poland, *(b)* Australia and *(c)* New Zealand in the latest year for which figures are available. [147174]

Beverley Hughes: The latest available information is given in the table.

Passengers given leave to enter the United Kingdom as visitors, by nationality, 2002

	Total	*Ordinary visitor*	*Business visitor*
Poland	206,000	147,000	59,400
Australia	453,000	395,000	57,900
New Zealand	116,000	103,000	12,800

Note:
The figures in this table have been rounded to three significant digits; because of this the sum of the constituent items may not agree with the total as shown.

The information is available in the Command Paper 'Control of Immigration: Statistics United Kingdom 2002' (Cm 6053), obtainable from the House Library, The Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

Murders (London)

Michael Fabricant: To ask the Secretary of State for the Home Department how many murders were committed in the areas covered by the *(a)* Metropolitan and *(b)* City of London police forces in 2003. [146416]

Ms Blears: The requested information is not available centrally.

New Citizens

Mr. Boswell: To ask the Secretary of State for the Home Department if he will make a statement on the development of the programme for *(a)* welcoming new UK citizens and *(b)* improving their competence in the English language. [144074]

Beverley Hughes: Becoming a UK citizen is an important step and we want to welcome new citizens with the right balance of solemnity and celebration. We hope that the introduction of citizenship ceremonies this year will help those who settle here to gain a fuller appreciation of the civic and political dimensions of British citizenship, to play an active role in society and to feel a greater sense of belonging to the wider UK community.

The 'Life in the UK' Advisory Group, which we appointed to look at the content, conduct and implementation of programmes of study for new citizens, published its final report on 3 September. The report made a number of recommendations concerning the provision of language programmes, both for naturalisation applicants and for new migrants. We are working with the Departments for Education and Skills and for Work and Pensions to assess the implications of these recommendations.

As we said when the report was published, we welcome the broad thrust of these proposals and are now looking at the best way of taking them forward; we intend to announce our conclusions shortly.

People Trafficking

Mr. Clapham: To ask the Secretary of State for the Home Department what recent discussions he has had with his EU counterparts on the harmonisation of legislation and penalties for people trafficking. [147319]

Beverley Hughes: The United Kingdom was closely involved in the drafting of the Protocol to Prevent, Suppress and Punish Trafficking in Persons which supplements the United Nations Convention against Trans-National Organised Crime. This requires countries which are signatories to adopt legislation to establish "trafficking in persons" as a criminal offence. The UK was also fully involved in discussions on the subsequent EU Council Framework Decision on Combating Trafficking in Human Beings. This requires all member states to ensure that trafficking for the purposes of labour exploitation or any form of sexual exploitation are punishable by terms of imprisonment with a maximum penalty that is not less than eight years.

We have acted quickly to deal with the worst forms of exploitation by creating an offence of trafficking for the purposes of controlling someone in prostitution within the Nationality, Immigration, and Asylum Act 2002, carrying a maximum penalty of 14 years. More comprehensive offences concerning trafficking into, within or out of the UK for the purposes of sexual exploitation are included in the Sexual Offences Act 2003, these also carry a maximum sentence of 14 years.

A new offence covering trafficking for forced labour and removal of organs is included in the Asylum and Immigration Bill, which is currently before Parliament. Once this offence is in force the UK will be able to ratify the UN Protocol to Prevent, Suppress and Punish Trafficking in Persons.

Mr. Clapham: To ask the Secretary of State for the Home Department (1) what measures he is taking to protect victims of people trafficking who come forward to the relevant authorities; and what measures are available to allow the grant of an appropriate legal status to such people to enable their rehabilitation and integration into UK society; [147321]

(2) what plans he has for an information campaign to encourage the victims of people trafficking to come forward. [147320]

Beverley Hughes: The White Paper "Secure Borders, Safe Haven: integration with diversity within modern Britain"—published in February 2002—sets out our general proposals for assisting the victims of human trafficking. In particular a commitment was made that

> ". . . where such people (victims of trafficking) are willing to come forward to the authorities, we shall make special arrangements for their protection".

We are committed to helping the victims of human trafficking. On 10 March 2003, we launched a pilot scheme under which, adult female victims of trafficking for purpose of sexual exploitation, who are willing to come forward to the authorities and help law enforcement against organised criminals are offered protection and a range of support services, such as counselling and health checks in safe accommodation managed by a voluntary sector organisation.

The pilot scheme ended on 31 December, and in its place we have established the protection and support as a service stream of support to victims until the end of the financial year 2004–05. Although limited, the service will meet the current identified needs in the London area of adult women trafficked into the UK for purposes of sexual exploitation.

Through the pilot scheme in partnership with a Non-Government Organisation (NGO) we have developed a communication strategy that is to be launched early in March. It is multi-dimensional and aimed specifically at three target audiences—increasing general public awareness, potential victim awareness and reaching trafficked women who have not been identified. We are developing a range of approaches including posters, networking with agencies (Health, Social Care and Housing providers), multi-disciplinary training and media profiling.

The communication strategy will be run as part of the service providing accommodation and support to victims in the London area. We will consider its impact and potential for a wider campaign as part of the evaluation of the scheme.

We will continue to consider victims' legal status on a case by case basis. We acknowledge that, if they do co-operate with the authorities, they may risk reprisals against themselves or their families' abroad. We will consider, in the light of individual circumstances, whether it would be appropriate to allow them to remain here. But if they are not entitled to remain, and it is not appropriate to let them stay, then they must be returned to their country wherever possible. To do otherwise would undermine our immigration law.

Mr. Clapham: To ask the Secretary of State for the Home Department what discussions he has had with his EU counterparts about tackling the cause of people trafficking through *(a)* socio-economic co-operation and *(b)* training packages for police and government officials in (i) transit countries and (ii) the countries of origin of those trafficked. [147322]

Beverley Hughes: The United Kingdom was closely involved in the drafting of the Protocol to Prevent, Suppress and Punish Trafficking in Persons which supplements the United Nations Convention against Trans-National Organised Crime. Article 9 of this refers to the need for social and economic initiatives, and Article 10 encourages the provision of training for law enforcement or other relevant officials. There have been a number of subsequent discussions at EU level to encourage the ratification of the UN Protocol. These have recognised that an effective strategy to combat human trafficking must include both preventative action to tackle the causes of trafficking, and training and capacity building in source and transit countries.

The UK is also contributing to, and has been involved in discussion about, the European Commission five-year (2003–07) AGIS funding programme. This will provide funding for projects in the field of police and judicial co-operation, focusing on combating organised crime, including organised immigration crime, and encouraging co-operation between law enforcement agencies. This funding provides an opportunity for member states to work together, or with new or candidate member states, to share expertise.

Funding under the EU Phare scheme is also available to member states for projects involving training for police personnel on organised crime. On 1 August 2003 the UK successfully bid for an 18-month twinning project in the Czech Republic, under this programme. The overarching aims of this project are to strengthen the fight and preventive measures against illegal trafficking and organised prostitution, to reduce the number of persons trafficked in the Czech Republic and to strengthen the capacity of law enforcement bodies to combat trafficking.

Tackling human trafficking in source and transit countries is an important element of the UK's strategy and alongside building on bilateral law enforcement to this end, the UK has provided funding for projects aiming to raise awareness and prevent trafficking.

Mr. Clapham: To ask the Secretary of State for the Home Department (1) how many convictions for people trafficking there have been in the UK in the last 30 years; and whether in each case the victims were *(a)* illegal immigrants intended for the sex trade or *(b)* babies or children to be sold on for adoption; [147316]

(2) how many people have been convicted under section 145 of the Nationality, Immigration and Asylum Act 2002; and what sentences those convicted under this law have received; [147317]

(3) how many people traffickers have been convicted in the UK under laws other than the Nationality, Immigration and Asylum Act 2002 in the last decade. [147318]

Beverley Hughes: The Nationality, Immigration and Asylum Act 2002 received Royal Assent in November 2002, and sections 145 and 146, which cover trafficking for the purposes of sexual exploitation, came into force on 10 February 2003. Data on numbers of prosecutions under these sections will be collected and published in due course. Given that the powers came into effect very recently, there is not any information yet held centrally about numbers of prosecutions. Statistics of court proceedings for 2003 will be published in the autumn of 2004. The maximum sentence for this offence will be 14 years.

Prior to the introduction of the Nationality, Immigration and Asylum Act, there was no specific offence under which people traffickers could be prosecuted. In 2000, the Government established a multi-agency taskforce called Reflex, to co-ordinate the UK's operational response to organised immigration crime. Under Reflex, a number of organised crime gangs involved in the smuggling or trafficking of people have been disrupted. Traffickers have been prosecuted for associated offences, for example, facilitation of illegal entry or living off immoral earnings, where trafficking

has been for the purposes of prostitution. However, comprehensive figures are not currently available centrally on the numbers of convictions for associated offences which relate to trafficking. It is therefore not possible to give figures relating to convictions for people traffickers for the last 30 years or provide a breakdown of data relating to victims in cases of trafficking.

Police

John McDonnell: To ask the Secretary of State for the Home Department what plans he has for regional police forces in England and Wales. [147662]

Ms Blears: A major consultation exercise on the future direction of police reform was launched on 4 November with the publication of "Policing: Building Safer Communities Together". Among other things this paper opens the debate on whether the current 43 force structure in England and Wales is the right one for today's and tomorrow's policing needs. A copy of the paper is in the Library.

We are clear that any structural change will need to deliver improvements in police performance and delivery of service.

Rape

Vera Baird: To ask the Secretary of State for the Home Department (1) which police forces use *(a)* the Early Evidence Kit produced by the Forensic Science Service and *(b)* the Tetra modules for the early securing of samples in complaints of rape and drug rape; and which use neither; [146778]

(2) what instruction his Department gives to police forces about the use of test kits to secure samples in the event of an allegation of *(a)* rape or *(b)* drug rape. [146776]

Ms Blears *[holding answer 12 January 2004]:* The Forensic Science Service (FSS) have supplied Early Evidence (K106) kits to a total of 30 forces, with 22 of these having ordered more than once. Regular users of the K106 include Cambridgeshire, Cheshire, Cumbria, Lancashire, Lincolnshire, the Metropolitan Police Service, Northumbria, Staffordshire, Suffolk and Warwickshire. FSS have received new interest and preliminary orders for Hampshire, Kent, Merseyside, North Wales, Surrey and Thames Valley Police.

The Home Office does not hold information on the use of Tetra modules by police forces.

Instruction on collecting evidence and how to conduct investigations is a matter for individual Chief Officers of police.

Romanies

Sir Teddy Taylor: To ask the Secretary of State for the Home Department how many Romanies from East Europe have sought access to the UK in the past three years; and how many have been admitted. [146653]

Beverley Hughes *[holding answer 12 January 2004]:* It is not possible to say how many persons of Roma origin have sought access and have been admitted to the United Kingdom. Data on the ethnic origin of those entering the United Kingdom are not collated and are therefore not available.

Arrest Statistics

Mr. Tynan: To ask the Secretary of State for the Home Department (1) how many people were arrested by police forces in Scotland in respect of offences committed in *(a)* England and *(b)* Wales in each of the last five years; [147522]

(2) how many people were arrested by police forces in *(a)* England and *(b)* Wales in respect of offences committed in Scotland in each of the last five years. [147523]

Ms Blears: Information on arrests collected centrally by my Department is based on persons arrested for 'notifiable' offences by police forces in England and Wales only. The information does not identify the location of where an offence was committed.

Information for Scotland is the responsibility of the Scottish Executive.

Street Crime

Mr. Jenkins: To ask the Secretary of State for the Home Department what research has been carried out by his Department into the dispersal of crime from areas targeted by the street crime initiative into outlying areas not covered. [147625]

Ms Blears: There has been no research into the disbursement of crime from areas targeted by the street crime initiative into outlying areas not covered by the initiative. The street crime initiative focuses on those areas which account for the great majority of street crime. In these areas, robbery fell by 17 per cent. in 2002–03. Across England and Wales in the same period, recorded robbery fell by 11 per cent. (14 per cent. adjusted for the National Crime Recording Standard).

Terrorism Act

Mr. Hancock: To ask the Secretary of State for the Home Department how many times the police have used powers under section 44 of the Terrorism Act 2000; how many individuals this involved; and if he will make a statement. [145288]

Mr. Blunkett: Figures on stops and searches under section 44(1) and section 44(2) of the Terrorism Act 2000 are published annually in the Home Office Statistical Bulletin.

During the financial year 2001–02, police conducted a total of 9,239 stops and searches under section 44(1) of the Act and 947 stops and searches under section 44(2). During the financial year 2002–03, police conducted a total of 27,313 stops and searches under section 44(1) of the Act and 4,774 stops and searches under section 44(2). Figures for 2003–04 will be published when the relevant data has been collated and verified.

The above data relates to the number of times police exercised powers under section 44 of the Act. Information on the number of individuals involved is not collated centrally and could be provided only at disproportionate cost.

Visas

Mr. Hancock: To ask the Secretary of State for the Home Department what plans he has to change the number of countries *(a)* on the white list and *(b)* for which a visa to enter the United Kingdom is required; and if he will make a statement. [145273]

Beverley Hughes: The list of 24 countries designated under section 94 of the Nationality Immigration and Asylum Act 2002 can only be added to by Affirmative Order following debate in both Houses of Parliament. The list is kept under review and we will make proposals to amend it when we consider it to be appropriate. We have no plans at this time to amend existing visa requirements, although all such requirements are kept under review.

Women Prisoners

Angela Watkinson: To ask the Secretary of State for the Home Department if he will make a statement on the number of women held in custody in British prisons. [143414]

Paul Goggins *[holding answer 11 December 2003]:* The number of women held in custody in Prison Service Establishments in England and Wales, as at 14 January 2004 was 4,283.

Information relating to Scotland and Northern Ireland is a matter for Ministers in the Scottish Parliament and the Northern Ireland Office.

Zimbabwe

Mr. Lidington: To ask the Secretary of State for the Home Department (1) what his policy is on returning to Zimbabwe people from that country who have made an unsuccessful claim for asylum in the United Kingdom; [145301]

(2) what his policy is on granting exceptional leave to remain to Zimbabwean nationals who claim asylum in the United Kingdom. [145302]

Beverley Hughes: The Government's position is, as it has been since January 2002, that each asylum (and human rights) claim made by a Zimbabwean national will be considered on its individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Each application is considered against the background of the latest available country information including that obtained from and through the Foreign and Commonwealth Office.

The suspension of removals of failed asylum seekers to Zimbabwe announced in January 2002 was in response to concerns about the serious deterioration in the situation in Zimbabwe in the build up to the Presidential election held in March that year. We did not regard it as unsafe to return failed asylum seekers to Zimbabwe, but in view of the rapidly changing conditions we considered that it would be appropriate not to enforce returns.

We do of course recognise that conditions in Zimbabwe are such that there are individuals who are able to demonstrate a need for international protection. Where they meet the definition of a refugee in the 1951 Convention, asylum is granted. There may also be individuals whose circumstances make them particularly vulnerable and who would engage our obligations under the ECHR. Where this is the case these individuals will be granted Humanitarian Protection or Discretionary Leave.

In the first nine months of this year we have granted asylum to 755 Zimbabweans and granted other forms of protection, including Humanitarian Protection, Discretionary leave (and their predecessor, exceptional leave to remain), to over 25 others. These statistics show that we are giving protection to the significant number of people who are found to be in need of it.

If an application is refused, there will be a right of appeal to the independent appellate authorities against that decision. Should a claim be refused and any appeal be unsuccessful that means that, for that individual, return to Zimbabwe would be safe. That is why we consider it reasonable to expect an individual in that position to leave voluntarily.

Although it would be safe to return failed asylum seekers to Zimbabwe, our view at present is that in the wider context of the Government's position on Zimbabwe, it would be inappropriate forcibly to return them at this time.

The policy remains under continuous review.

EDUCATION AND SKILLS

Funding of Schools Programme

12. **Mr. Allen:** To ask the Secretary of State for Education and Skills what the basis was for his decision on how funding under the funding of schools programme should be allocated; and if he will make a statement on the impact of that decision on Nottingham, North. [147877]

Mr. Miliband: We will announce shortly the local authority projects in wave 1 of Building Schools for the Future. We published our criteria for prioritisation in July 2003, and i have placed a copy of this guidance in the House of Commons Library.

Secondary education in every part of England should have facilities of 21st Century standard, and we are committed to deliver this goal within 10 to 15 years from 2005–06, subject to future public spending decisions.

Physics Graduates

13. **Mr. Lilley:** To ask the Secretary of State for Education and Skills how many students graduated with degrees in physics in *(a)* 1997 and *(b)* 2003. [147878]

Alan Johnson: The number of students obtaining degrees in physics was 2,440 in 1997 and 2,205 in 2003.

LEA Expenditure

14. **Mr. Plaskitt:** To ask the Secretary of State for Education and Skills if he will make a statement on exempting local education authorities from limitations on their central expenditure. [147879]

Mr. Miliband: We have made clear that our priority for school funding in 2004–05 is getting money into schools' own delegated budgets. That is why a statutory limit on increases in central spend within education authorities' overall Schools Budgets is an important feature of the arrangements which my right hon. Friend announced on 29 October. We recognise however that some authorities, in exceptional circumstances, may have difficulty in complying with the national limit, and there is a process by which they may seek approval for a higher limit.

Early Years Education

15. **Jim Dobbin:** To ask the Secretary of State for Education and Skills what progress he has made with his policy on early years education; and if he will make a statement. [147880]

Margaret Hodge: Before 1997, whether or not your child could get a nursery place depended entirely on where you lived. By April 2004, six months ahead of target, every three and four-year-old child will enjoy a free part-time nursery education place as of right. That is the difference the Labour Government makes to children's opportunities.

By introducing the warmly received Foundation Stage for children in their early years together with the registration and inspection of all settings by Ofsted, we are ensuring high quality nursery education for all our children.

We are now starting to develop Children's Centres which combine early education with full day care, health and family support. 61 Children's Centres have been approved and the Chancellor recently announced in his pre-Budget review that we will create 1,000 Children's Centres by 2008.

Primary School Teachers

16. **Simon Hughes:** To ask the Secretary of State for Education and Skills how many primary school teachers were on permanent contracts in London in September *(a)* 1997, *(b)* 2000, *(c)* 2001 and *(d)* 2003; and how many unfilled vacancies there were in each of these months. [147881]

Mr. Stephen Twigg: The information is not available in this form. In the London Government Office Region, there were 28,860 full-time equivalent regular teachers in maintained nursery and primary schools at January 1997; 28,870 at January 2000; 29,190 at January 2001; and 29,760 at January 2003. There were 450 unfilled nursery and primary teacher vacancies at January 1997; 520 at January 2000; 820 at January 2001; and 410 at January 2003.

Capital Funding (East Midlands)

17. **Mr. Todd:** To ask the Secretary of State for Education and Skills what representations he has received concerning targeted capital funding in the east midlands. [147882]

Mr. Miliband: We have received two letters supporting targeted capital fund bids in the east midlands. Although authorities in your region were not very successful in last year's round, the Department has worked closely with east midland authorities since then to try to ensure that they have a better understanding of the bidding process and assessment criteria. We aim to announce successful projects shortly.

Deaf Children

18. **Jon Trickett:** To ask the Secretary of State for Education and Skills what steps his Department has taken to ensure access to the full school curriculum for all deaf children; and if he will make a statement. [147883]

Margaret Hodge: All maintained schools—mainstream and special—are required to provide the full national curriculum and to ensure that all deaf children have access to it, other than where it has been disapplied.

Variable Fees

19. **Mr. Gordon Prentice:** To ask the Secretary of State for Education and Skills whether he plans that the cap on variable fees will stay at £3,000 until 2014. [147884]

Alan Johnson: I have already given my assurance that the fee cap will stay at £3,000 in real terms for the life of the next Parliament and I confirm that once more. Beyond that, any increase which is above the rate of inflation will, under the terms of the legislation, need to be approved by affirmative resolution which would require the consent of both Houses. I recognise that there are none the less concerns about the impact of variable fees on the university system: the Government will therefore establish an independent review, working with the Office for Fair Access, to report to the House, based on the first three years of their operation.

Adult Learning Grant

20. **Mr. Love:** To ask the Secretary of State for Education and Skills what steps his Department is taking to promote the take up of the Adult Learning Grant. [147885]

Mr. Ivan Lewis: We are working with the Learning and Skills Council, further education providers and other partners to promote the Adult Learning Grant. The main focus of the 10 pilots is on promoting the grant to new learners starting courses during January 2004 and to existing learners who may be eligible but have not applied. This involves a variety of methods including posters, college prospectuses, advertising in the local press, on bus shelters and on local radio, and mail shots targeted at specific audiences. Over 2,600 people have applied for the grant.

Adoption

Mr. Peter Duncan: To ask the Secretary of State for Education and Skills what the average time taken to complete an adoption placement was, broken down by local authority area, for the last 12 months for which figures are available. [143362]

Margaret Hodge: The attached table shows the average time in days between the local authority's decision that it is in a child's best interest to be adopted and the date of adoption, for looked after children adopted in England during the year ending 31 March 2002. A copy of the table has been placed in the Library.

Broadband

Mr. Clifton-Brown: To ask the Secretary of State for Education and Skills what plans his Department has to assist in making broadband available to an educational institution available to the wider community. [147916]

Mr. Charles Clarke: My Department recognises the potential benefits to the community in schools being connected to broadband and making access to their ICT infrastructure more widely available. The 10 Regional Broadband Consortia for England are working with their member LEAs and schools in their area to develop this network accessibility.

The cross-government Broadband Aggregation Project, announced by e-Commerce Minister Stephen Timms in July last year, is also addressing the issues involved in using schools as broadband hubs for the wider community. Although there are some instances already where schools are extending access to the community, there are a number of issues to consider and resolve before defining the way forward in this area.

In terms of access to ICT more broadly, the Department's Extended Schools and School Community Links Team are developing guidance to assist schools in offering a range of ICT facilities to their communities. This guidance is expected to be available by the end of March 2004.

Children Green Paper

Tim Loughton: To ask the Secretary of State for Education and Skills at what stage under the proposals in the Children Green Paper children will be given a unique identification number with corresponding data file. [145657]

Margaret Hodge: A Bill designed to improve services which protected children was announced in the Queens speech will be introduced to improve services designed to protect children. Subject to the outcome of consultation on the Children's Green Paper "Every Child Matters", the Bill will include proposals for local information sharing systems to enable practitioners to share early information about children and young people where appropriate. Implementation of the proposed local systems will require the development of a basic dataset on all children in an area together with a unique identifying number. This would apply from birth or if a child moves areas still has the same number. Only when a child comes into the country will she/he have to be allocated a number.

Civil Servants (Disabilities)

Mr. Goodman: To ask the Secretary of State for Education and Skills what progress has been made in meeting targets for the proportion of people with disabilities in senior posts in his Department. [145999]

Mr. Charles Clarke: My Department's target is that by 2005, 3 per cent. of those in the senior civil service should be people with disabilities.

Statistical information about senior civil servants with disabilities is available on the Civil Service Statistics web-site at: http://www.civil-service.gov.uk/statistics/documents/pdf/disability-octOS.pdf. This shows that as of 1 April 2003, the proportion of senior civil servants with declared disabilities is 2.3 per cent.

As there are less than five members of the senior civil service in my Department with a declared disability, the actual number is not published in order to protect the privacy of the individual in line with exemption 12 of the Code of Practice on Access to Government Information.

Specialist College Status

Mr. Gordon Prentice: To ask the Secretary of State for Education and Skills how many schools applied in the latest round for engineering specialist status; how many were successful; and if he will make a statement. [146500]

Mr. Miliband *[holding answer 8 January 2004]:* 17 schools applied for the engineering specialism in the last round of applications for specialist college status, which closed on 17 October 2003. Assessment of the 393 applications received is continuing and an announcement will be made in approximately one month.

Education (Financial Support)

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list for each local education authority the financial support for education that remains to be transferred under the changes to local government funding announced last year; and when he expects this process to be completed. [144905]

Mr. Miliband: The Government introduced a new funding formula for local authorities in 2003–04. Floors and ceilings have been used on both the calculation of education Formula Spending Shares and Revenue Support Grant to phase in the new formula. This means that some authorities receive funding allocations above the level of the new formula and some receive funding allocations below the level of the new formula. The Government expect floors and ceilings to continue for as long as they are necessary. We have also said that we expect the Schools Formula Spending Share floor to be at least 5 per cent. per pupil in 2005–06.

The amount of damping through floors and ceilings on the Education Formula Spending Share for each local education authority is shown as follows:

	Schools formula spending share	*LEA formula spending share*	*Total*

Education (North-west)

Mr. Woodward: To ask the Secretary of State for Education and Skills how much spending there was on *(a)* education as a whole, *(b)* nursery schools, *(c)* primary education and *(d)* secondary education in (i) St. Helens, (ii) Merseyside and (iii) the north west region, in each year since 1992. [141469]

Mr. Miliband: The information requested is contained in the following table.

Education spending since 1992

	Pre-primary	*Primary*	*Pre-primary and Primary*[1]	*Secondary*	*Education as a Whole*[2]
St. Helens					
1992–93	[3]—	[3]—	28,898	35,041	102,426
1993–94	[3]—	[3]—	30,627	32,779	85,062
1994–95	[3]—	[3]—	32,871	32,844	85,310
1995–96	[3]—	[3]—	30,956	30,296	77,700
1996–97	[3]—	[3]—	32,117	29,771	78,556
1997–98	[3]—	[3]—	32,702	29,885	78,961
1998–99	[3]—	[3]—	35,645	32,198	84,024
1999–00	1,084	36,540	37,623	34,488	85,584
2000–01	1,831	40,133	41,965	37,845	91,093
2001–02	2,411	43,486	45,897	42,519	99,637
Merseyside					
1992–93	[3]—	[3]—	241,358	257,792	761,742
1993–94	[3]—	[3]—	248,440	245,652	675,489
1994–95	[3]—	[3]—	262,010	250,141	681,582
1995–96	[3]—	[3]—	258,121	229,249	634,928
1996–97	[3]—	[3]—	262,052	228,950	636,955
1997–98	[3]—	[3]—	261,716	228,303	633,227
1998–99	[3]—	[3]—	283,225	245,987	668,422
1999–00	8,562	295,022	303,584	285,872	706,519
2000–01	14,988	325,021	340,009	326,085	772,295
2001–02	21,048	350,485	371,533	365,721	838,990
North West					
1992–93	[3]—	[3]—	1,144,841	1,153,066	3,503,836
1993–94	[3]—	[3]—	1,158,010	1,049,978	3,056,288
1994–95	[3]—	[3]—	1,202,426	1,089,653	3,075,507
1995–96	[3]—	[3]—	1,185,076	1,000,413	2,826,562
1996–97	[3]—	[3]—	1,213,943	1,018,336	2,865,849
1997–98	[3]—	[3]—	1,221,486	1,027,733	2,887,946
1998–99	[3]—	[3]—	1,321,152	1,089,898	3,045,955
1999–00	46,199	1,394,850	1,441,049	1,286,311	3,229,306
2000–01	67,355	1,522,508	1,589,863	1,407,303	3,455,557
2001–02	91,379	1,676,685	1,768,064	1,588,239	3,798,289

[1] Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.

[2] Education as a whole includes expenditure on all phases of school education (including pre-primary), education out of school, continuing education and management and support.

[3] n/a

Notes:

1. Net current expenditure includes expenditure within schools and also that incurred centrally by the LEAs.
2. Figures are in cash terms and rounded to the nearest £1,000.
3. The decrease in local authority expenditure on education from 1993–94 reflects the transfer of responsibility for providing most kinds of further education from local education authorities to the Further Education Funding Council on 1 April 1993.
4. Financial data is drawn from the DfES Section 52 outturn statements from 1999–2000 onwards and the ODPM's RO1 statement previously.
5. Nursery education was not shown separately until 1999–2000, therefore figures for nursery are included within pre-primary and primary.
6. Figures are as reported by LEAs.

Education Spending Formula

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list for each local education authority the education formula spending share *(a)* before and *(b)* after the impact of floors and ceilings for 2004–05. [147993]

Mr. Miliband: The following table provides the education formula spending share for each authority before and after the schools formula spending share floor and ceiling of 5 per cent. per pupil and 6.8 per cent. per pupil are applied and the LEA formula spending share floor and ceiling of 3 per cent. and 3.75 per cent. are applied. These figures are as announced at the provisional local government settlement.

£ million

English and Mathematics Tests

Harry Cohen: To ask the Secretary of State for Education and Skills what percentage of pupils achieved level 4 or above in Key Stage 2 test results for 11-year-olds in *(a)* English and *(b)* mathematics in 2003 in the London boroughs of (i) Redbridge and (ii) Waltham Forest. [147393]

Mr. Miliband: The following table shows the percentage of pupils who achieved the expected level (Level 4) or above in the 2003 National Curriculum Key Stage 2 assessment tests in *(a)* English and *(b)* mathematics in the London boroughs of (i) Redbridge and (ii) Waltham Forest.

	(a) English	(b) Mathematics
(i) Redbridge	78	73
(ii) Waltham Forest	69	68

Further Eudcation (Plumbing-related Crafts)

Dr. Pugh: To ask the Secretary of State for Education and Skills how many students in England attended further education classes in (a) plumbing and (b) plumbing-related crafts in each of the last three years. [148046]

Alan Johnson: The numbers of learners enrolled on plumbing and related courses at further education sector colleges in the three years to 2001/02 are shown in the table below. Due to the variety of plumbing and related courses on offer, it is not possible to distinguish between those courses in plumbing and those in plumbing related crafts.

Learners enrolled on plumbing and related courses at further education sector colleges in England: 1999/2000 to 2001/02

thousands

	Learners
1999/2000	21.8
2000/01	23.9
2001/02	29.8

Source:
LSC Individualised Student Record.

Higher Education

Chris Grayling: To ask the Secretary of State for Education and Skills if he will make a statement on the link between applications to universities and social background of students. [147018]

Alan Johnson: The social class gap among those entering higher education is unacceptably wide. The most recent UCAS figures show that in 2001 71 per cent. of applicants came from the top three social classes and only 29 per cent. from the bottom three.

The main problem is prior attainment. 19 per cent. of 18-year-olds from the three lower social classes achieve two or more A Levels, compared to 50 per cent. from the three higher social classes.

The Government have put in place a range of policies to raise attainment and aspirations. These were summarised in "Widening participation in higher education", published in April 2003. A copy is available in the House of Commons Library.

Information Technology

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many teachers were provided with information technology equipment to use in their own home in the last year for which figures are available. [146659]

Mr. Charles Clarke: The Laptops for Teachers initiative provided 68,507 teachers with a laptop computer for use at home and school during the 2002/03 financial year. To date, the initiative has provided another 60,235 teachers with laptops in the current financial year.

School Budgets

Mr. Djanogly: To ask the Secretary of State for Education and Skills if he will list the schools in Huntingdon which ran a budget deficit in the year ending 31 March 2003; and how much this deficit was for each school. [146434]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas, rather than districts within an area. Huntingdon is a district of Cambridgeshire local education authority. The information for Cambridgeshire LEA is as follows:

Cambridgeshire schools showing a deficit budget in the year ending 31 March 2003

School name	DfES number	Deficit budget[1] (£)
Abbey Meadows Primary School	2,450	(12,317)
Brington C of E Primary School	3,081	(4,470)
Bushmead Primary School	2,452	(55,343)
Cherry Hinton Community Junior School	2,312	(36,500)
Chesterton Community College	4,029	(220,765)
City of Ely Community College	4,083	(138,722)
Coleridge Community College	4,031	(84,470)
Ernulf Community School	4,077	(198,638)
Fawcett Primary School	2,336	(13,287)
Fowlmere Primary School	2,011	(1,892)
Hinchingbrooke School	4,503	(175,812)
John Falkner Community Infant School	2,035	(71)
Kings Hedges Primary School	2,446	(41,371)
Little Paxton Primary School	2,293	(33,790)
Melbourn Village College	4,040	(345,183)
Middlefield Community Primary School	2,257	(21,135)
Petersfield C of E Aided Primary School	3,331	(19,240)
Ridgefield Primary School	2,453	(12,977)
Sawston Village College	5,408	(84,516)
Sawtry Community College	5,403	(1,013,001)
St. Alban's RC Primary School	3,360	(15,361)
St. Anne's C of E Primary School	3,384	(38,893)
St. Helen's Primary School	5,200	(7,699)
St. John's C of E Primary School	3,072	(20,853)
St. Peter's School	5,412	(81,341)
St. Philip's C of E Aided Primary School	3,358	(7,960)
The Cromwell Community College	4,045	(1,842)
The Manor Community College	4,057	(583,428)
The Meridian Primary School	2,059	(6,828)
The Windmill Special School	7,009	(93,747)
Thomas Eaton Primary School	2,090	(7,273)
Witchford Village College	4,055	(163,030)

[1] The data are as reported by Cambridgeshire LEA's within their 2002–03 Section 52 Outturn Statement (table B) submitted to the DfES.

Notes:
1. Deficit budget is taken from table B column 13-other revenue balance. This includes the cumulative balance of income less expenditure from revenue funding sources during the financial year and the balance from previous year.
2. The data are as at 6 January 2004. Currently the data remains provisional as it is subject to validation and could change.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many schools in Lancashire ran a deficit budget in each of the last three years. [146974]

Mr. Miliband: The information requested is given in the following table.

Lancashire schools reporting a deficit budget in each of the last three years

	Number of Schools
2000–01	26
2001–02	16
2002–03	18

Notes:
1. The data are as reported by Lancashire education authority within their Section 52 Outturn statements (Table B) submitted to the DfES.
2. Section 52 data for 2002–03 is regarded as provisional and is therefore subject to changes by Lancashire LEA which may alter the results for that period.

School Governance

Norman Baker: To ask the Secretary of State for Education and Skills what the *(a)* total cost and *(b)* cost per issue was of producing and distributing the document, "Statutory Guidance on the School Governance (England) Regulation 2003", to schools. [147401]

Mr. Miliband: The Department issued statutory and non-statutory guidance on the following governance regulations in 2003: constitution, procedures, new schools, governance federations and collaboration regulations. The total cost of the production and distribution of this guidance for schools and LEAs was £25,986.26. The average cost for each issue of guidance was 10 pence.

School Meals

Mr. Hoyle: To ask the Secretary of State for Education and Skills if he will make a statement on the provision of school meals by Lancashire county council; and how many meals are served each day in *(a)* high schools and *(b)* primary schools (i) in Lancashire and (ii) in each Lancashire district. [148225]

Mr. Charles Clarke: From April 2000, funding for school meals was delegated to all secondary schools. Primary and special schools can opt for delegation. All schools in Lancashire have the budget for school meals delegated to them, and have individual service level agreements with Lancashire County Commercial Services: schools can buy back in to the local authorities school meal service if they wish to do so.

This Department does not collect information on the take-up of paid meals. However, the attached table shows the take-up of free school meals in each Lancashire district.

Maintained primary and secondary schools[1]: school meal arrangements January 2003—By Lancashire Local Education Authority and each district within the authority

	All pupils

Annual Schools' Census

School-leavers (Qualifications)

Mr. Simmonds: To ask the Secretary of State for Education and Skills (1) how many pupils left school in 2003 with no GCSEs; [147443]

(2) how many pupils left school with fewer than five GCSEs at Grade G in each year since 1997. [147444]

Mr. Miliband: The information requested is as follows:

The number of 15-year-old pupils who left school in 2003 with no GCSEs is 32,590.

The number of 15-year-old pupils who left school with fewer than five GCSEs at grades A*-G is shown in the table.

Academic year	*Number of 15-year-old pupils with less than 5 + A*-G*
1997	79,602
1998	71,742
1999	66,884
2000	64,178
2001	67,044
2002	67,065
2003	69,851

Specialist Schools

Jon Trickett: To ask the Secretary of State for Education and Skills what plans he has to secure match funding for specialist schools in highly deprived former coalfield areas; and if he will make a statement. [147452]

Mr. Miliband: We acknowledge that for some schools in deprived former coalfield areas, raising the £50,000 sponsorship required to make a specialist school application can be difficult.

The Department grant-aids the Specialist Schools Trust (SST) and the Youth Sport Trust to assist schools with raising sponsorship. We have also introduced a 'Partnership Fund' to provide support to schools that can demonstrate that sustained efforts to raise the full amount of sponsorship have been unsuccessful. The fund is administered by the SST in accordance with the Department's criteria. In the October 2003 specialist school application round, 13 schools in coalfield areas received a contribution from this fund.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many Lancashire schools have applied for specialist status; and how many were successful. [148226]

Mr. Miliband: There are 12 local education authorities (LEAs), which cover the county of Lancashire. The information requested is set out in the table by LEA.

Local education authority	*Number of schools which have applied for specialist status*	*Number of schools which applied successfully*
Blackburn with Darwen	5	4
Blackpool	5	4
Bolton	12	9
Bury	8	4
Lancashire	63	33
Manchester	18	11
Oldham	8	6
Rochdale	6	5
Salford	6	3
Tameside	13	5
Trafford	17	12
Wigan	19	12
Total	180	108

Applications from schools in the October 2003 specialist school application round are currently being assessed. A list of successful schools from this round will be not be announced until the end of January and have therefore not been included in the list of successful applications.

Teaching Assistants

Mrs. Gillan: To ask the Secretary of State for Education and Skills (1) what assessment he has made of the effects of the increase in teaching assistants covering non-contact time with classes; [147544]

(2) what percentage of classroom teaching was covered by classroom assistants without teaching professionals being present in the class in 2002/03. [147545]

Mr. Miliband: It is up to head teachers to determine how they deploy teachers and teaching assistants in their schools taking account of current regulations and guidance. Information about how teaching assistants' time is spent is not held centrally.

Standards of attainment are rising and the quality of teaching is the best ever. And teaching assistants are playing their part in raising standards. A recent project has demonstrated the positive impact of teaching assistants on standards. In 18 of the largest LEAs, additional provision and training for teaching assistants was provided last year for around 30 per cent. of their Year 6 classes. Results from the 2003 Key Stage 2 tests shows that performance in participating schools appears to have improved by 3 per cent. points more than the national average for English and 2 per cent. points for maths.

Tuition Fees

John Barrett: To ask the Secretary of State for Education and Skills what legislation was implemented between 1997 and 2001 preventing the introduction of university top-up fees. [147842]

Alan Johnson: The Teaching and Higher Education Act 1998 section 26 imposes conditions upon tuition fees for full-time undergraduates. Section 26(5) provides that the amount of tuition fee that can be charged should not exceed the maximum amount of tuition fee grant. The Student Support regulations, which are laid annually, set out the maximum amount of tuition fee grant. In 2003/04, the maximum amount of tuition fee grant is £1,125.

University Bursaries

Helen Jones: To ask the Secretary of State for Education and Skills (1) what the income levels will be at which students will qualify for the receipt of university bursaries; [148209]

(2) what his policy is on the indexation of family income levels at which students will qualify to receive *(a)* grants and fee remission and *(b)* university bursaries. [148210]

Alan Johnson: The family income thresholds are uprated annually to take account of inflation. The uprating is based on the Treasury's forecast in October each year of the forecast rise in the Retail Price Index (less Mortgage Interest Repayments).

As regards university bursaries, the level and type of financial support will differ between institutions. However, as a minimum, we want to ensure, via the Director for Fair Access that no student who qualifies for maximum state support, in terms of the new higher education grant and the existing fee remission grant, has to take on additional debt as a result of higher fees. The director will expect more from institutions with further to go in widening participation.

University Funding

Dr. Pugh: To ask the Secretary of State for Education and Skills (1) how much of the total sum of new funding that the Government believes universities in England require is required by universities in *(a)* the South East region and *(b)* London; [148033]

(2) how much of the total sum of new funding that the Government believes universities in England require is required by universities in the North West region; [148034]

(3) how much of the total sum of new funding that the Government believes universities in England require is required for *(a)* physical science, *(b)* arts and *(c)* social science courses. [148047]

Mr. Charles Clarke: The funding for higher education in England between 2002–03 and 2005–06 is set out in the White Paper 'the future of higher education' (Cm 5735). There are increases of over 6 per cent. above inflation in each year so that by 2005–06 the overall funding reaches almost £10 billion.

The Higher Education Funding Council for England (HEFCE) allocate funds to higher education institutions according to a formula which takes account of the number and type of students at the institution, the courses they are taking, and other factors relating to the institution such as whether it has old or historic buildings. The funds are paid to institutions as a block grant and it is for the institution to decide how to spend the money.

Under our proposals for variable fees, it will be for institutions to decide the level of any fee which they charge, taking account of a number of factors, including their financial needs.

Written Answers to Questions

Monday 19 January 2004

DEFENCE

Biological Weapons

Lynne Jones: To ask the Secretary of State for Defence what the United Kingdom Government's policy is on the export of *(a)* bacillus anthracis, *(b)* clostridium botulinum, *(c)* histoplasma capsulatum, *(d)* brucella, *(e)* melitensis and *(f)* clostridium perfringens by other countries. [146722]

Mr. MacShane: I have been asked to reply.

The export of these biological materials is controlled by States' obligations under the Biological and Toxin Weapons Convention (BTWC). They are, however, all materials that have a legitimate use in laboratories and facilities for the production of vaccines to protect against the diseases that may be caused by exposure to them. Their export, in small quantities consistent with legitimate medical and scientific research to established scientific institutions in states that are Party to the BTWC, is not banned under the Convention.

The Government would expect all other countries to scrutinise any applications for such exports with the same rigour as we would for exports from the United Kingdom.

Boards of Inquiry

Mr. McNamara: To ask the Secretary of State for Defence how many boards of inquiry into deaths of military personnel have been established in each year since 1990. [142115]

Mr. Ingram: Not all military deaths are subject to boards of inquiry. However, details of military deaths investigated by boards of inquiry or other investigations are as follows:

	Royal Navy	*Army*[1]	*RAF*[2]
1990	8	74	15
1991	11	104	9
1992	4	73	9
1993	10	61	8
1994	4	60	11
1995	6	66	11
1996	6	45	8
1997	10	35	4
1998	6	50	7
1999	5	45	6
2000	5	49	3
2001	5	42	4
2002	8	44	3
Total	88	748	98

[1] Includes road accidents on duty and hostile action (not normally subject to Service investigation).
[2] Includes Army, USAF and Italian military personnel killed in RAF aircraft accidents.

Communications

Mr. Soames: To ask the Secretary of State for Defence what training was made available for UK forces personnel on the Oscar communications system; and if he will make a statement. [147278]

Mr. Ingram: The three key elements of the Operations and Strategic Communications Architecture (OSCA) are Multiplexers, Exchanges and Military satellite terminals. Prior to deployment, personnel received training on all three of these elements. Training was conducted by a mixture of military and civilian courses, and was supplemented by having Subject Matter Expects (SMEs) available in theatre.

Defence Spending

Mr. Rosindell: To ask the Secretary of State for Defence pursuant to his answer of 17 December 2003, *Official Report*, column 943W, on defence spending, what the limits are on the UK's ability to conduct unilateral national operations in pursuance of security objectives; and if he will make a statement. [148530]

Mr. Hoon: I refer the hon. Member to paragraphs 3.3 and 3.5 of the Defence White Paper, Delivering Security in a Changing World (Cm 6041–1).

Departmental Relocation

Ms Walley: To ask the Secretary of State for Defence how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146915]

Mr. Caplin: The number of civilian and Service personnel working in the West Midlands and Staffordshire are detailed as follows:

	West Midlands Government Office Region	*Staffordshire*[1]
Civilian Staff as at 1 November 2003[2]	4,790	[3]800
Service personnel as at 1 July 2002[4]	6,740	1,080

[1] The Department does not hold information on staff based in the North Staffordshire area.
[2] Figures are for permanent industrial and non-industrial staff, excluding Royal Fleet Auxiliary, those on career breaks, long-term sick, secondments etc.
[3] The civilian figure for Staffordshire is an approximation as the Department does not routinely publish data below Government Office Region level.
[4] Figures are taken from Tri-Service Publication 10, last published in July 02.

Flying Hours

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the current funded flying hours are for *(a)* Hercules, *(b)* Nimrod, *(c)* Chinook, *(d)* Sea King, *(e)* Puma, *(f)* Lynx, *(g)* Tornado F3, *(h)* Tornado GR4, *(i)* Harrier GR7, *(j)* Sea Harrier and *(k)* Jaguar aircraft of each type; and what amount of funded flying hours these aircraft had in each of the preceding three years. [145646]

Mr. Ingram: The following table shows funded (that is planned) flying hours.

	Financial year			
	2000-01	2001-02	2002-03	2003-04
Hercules	36,709	36,709	37,458	37,458
Nimrod	12,265	12,432	11,830	12,495
Chinook	13,744	13,776	14,200	15,504
Sea King	42,575	41,413	35,400	33,870
Puma	13,550	15,210	14,400	14,857
Lynx	49,150	40,100	36,500	36,075
Tornado F3	26,136	24,193	23,022	25,468
Tornado GR4	28,572	26,366	26,058	27,733
Harrier GR7	15,379	15,282	14,809	14,783
Sea Harrier	6,320	6,565	6,003	6,850
Jaguar	12,215	12,543	12,996	12,446

Iraq

Adam Price: To ask the Secretary of State for Defence if he will name the Iraqi civilians killed in incidents which have been investigated since the end of the conflict by the Special Investigation Branch. [141674]

Mr. Ingram: United Kingdom Military Authorities in Iraq have investigated or are investigating the deaths of the following Iraqi Civilians, all of which are thought to have occurred since 1 May 2003:

Ali Salaam Aziz Mohammed
Dyab Rehman Nasser
Rhadi Nama
Ahmed Jabber Kareem
Nadhem Abdulha
Abd Al Jubba Mousa Ali
Hazma Abdul Hussein Al-Askary
Said Shabram
Wael Jabber Raheem
Jasim Yassim Jabbar Al-Shimillwy
Waleed Fiay Mezban
Baha Nasheem Mohammed
Hassan Abbad Saied
Hussan Said Shaba Al-Bata.

Eight of these investigations have been completed. In three cases, the deaths were found to be as a result of road traffic accidents; in three cases it was found that troops had behaved in accordance with their Rules of Engagement and that there was no case to answer; in one case it was found that death had resulted from natural causes; and one case has been referred to the Army Prosecuting Authority to determine whether charges will be brought. Six of these investigations are on-going.

An investigation is also being conducted into the death of Ather Karen Al-Mowafakia, which occurred prior to 1 May 2003.

In addition, investigations have been conducted into an incident in which a member of UK armed forces and an Iraqi civilian (who has yet to be identified) died, and into a fatal traffic accident in which a Kuwaiti civilian died, the name of whom has been withheld by Iraqi police. Both of these incidents occurred before 1 May 2003. The first investigation is on-going; the second has concluded and determined that the incident was an accident.

Harry Cohen: To ask the Secretary of State for Defence pursuant to his Answer of 4 December, *Official Report*, column 127W, on Iraq, if he will name the individuals whose deaths are being investigated; on what date each died; on what date each investigation began; and what stage each investigation has reached. [143058]

Mr. Ingram: The information requested is as follows:

Date Of Incident	Date Investigation Started	Name of Iraqi Civilian	Stage of Investigation
8 May 2003	8 May 2003	Radhi Natna	Investigation complete
8 May 2003	11 May 2003	Ahmad Jabber Kareem	Investigation ongoing
17 May 2003	17 May 2003	Abd Al Jubba Mousa All	Investigation ongoing
24 May 2003	24 May 2003	Said Shabram	Investigation ongoing
2 Aug 2003	4 Aug 2003	Hassan Abbad Said	Investigation ongoing
14 Sep 2003	15 Sept 2003	Baha Nasheem Mohammed	Investigation ongoing

Mr. Keetch: To ask the Secretary of State for Defence how many claims have been submitted to the UK under section 6 of the Coalition Provisional Authority Order Number 17; how many of these claims *(a)* give rise to and *(b)* do not give rise to a legal liability to pay compensation under English law; how many (i) compensation payments and (ii) ex-gratia payments have been made; and what the (A) amount and (B) reason for the payments was in each case. [146848]

Mr. Ingram *[holding answer 14 January 2004]:* A total of 588 claims for compensation have been submitted to the United Kingdom Authorities under section 6 of CPA Order Number 17. Of these, 13 have been transferred to other contingents/organisations, 226 have been repudiated, 57 have received payment, and the remainder are still under investigation. The following table summarises the compensation payments made to date:

Category	Number of Cases	Total Settlements (£)
Fatalities	3	8,125
Personal Injury	20	7,250
Property Damage	7	34,243
Road Traffic Accidents	27	22,606
Total	57	72,224

Ex-Gratia Payments are not covered by Section 6 of the Coalition Provisional Authority Number 17.

Mr. Hancock: To ask the Secretary of State for Defence what strategy he is pursuing to *(a)* recover and *(b)* dispose of weaponry contaminated by depleted uranium in Iraq; and if he will make a statement. [148054]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 January 2004. *Official Report*, column 537W, to my hon. Friend the Member for Blaenau Gwent (Llew Smith).

Jeremy Corbyn: To ask the Secretary of State for Defence what the total volume is of depleted uranium tipped weapons used in Iraq between March and May 2003; and if he will make a statement. [148295]

Mr. Ingram: There are no depleted uranium tipped weapons in UK service. However, UK forces in Iraq used a depleted uranium (DU) round in anti-armour operations. The round comprises an outer casing or "sabot" that surrounds a long rod penetrator made of DU, plus charge and igniter components. 1.9 tonnes of DU were expended by British Challenger tanks during the recent conflict in Iraq.

Jeremy Corbyn: To ask the Secretary of State for Defence what the availability is of cluster bombs to United Kingdom forces in Iraq. [148297]

Mr. Ingram: There are no cluster bombs held by UK forces in Iraq.

Manning Control

Mr. Keetch: To ask the Secretary of State for Defence what plans he has to carry out manning control point reviews within the next 15–18 months. [147889]

Mr. Caplin: There are currently no plans to conduct any Manning Control Point reviews in the next 15–18 months.

Missile Defence Technology

Mr. Keetch: To ask the Secretary of State for Defence if he will list the amount spent by the Government on research into missile defence technology in each year since 1988; and if he will make a statement. [142196]

Mr. Hoon *[holding reply 10 December 2003]*: Expenditure by the United Kingdom Government on research specific to Ballistic Missile Defence (BMD) technology began in 1994–96 when the Pre-feasibility Programme was undertaken. This examined options, costs and timescales of BMD for the UK and its deployed forces at a cost of £2 million in Financial Year 1994–95 and £2.5 million in Financial Year 1995–96. An extension was completed in Financial Year 1997–98 at a cost of £300,000.

As part of the Corporate Research programme, the Technology Readiness and Risk Assessment Programme (TRRAP) began in July 1998 following an SDR recommendation, focussing on BMD defence of deployed forces. TRRAP cost £2.2 million, £4.5 million, £5 million and £0.8 million in the Financial Years 1998–99 to 2001–02 respectively and completed in July 2001.

Alongside and following TRRAP, a programme of BMD studies ran from Financial Year 1998–99 to Financial Year 2002–03 at a cost of £0.5 million pa. In Financial Years 2001–02 and 2002–03 two further programmes examined the longer-range threat at a cost of £1.2 million per annum and assessed the significance of any capability gap at a cost of £0.6 million per annum.

In Financial Year 2001–02 research into theatre BMD building on TRRAP began at a recurring cost of £1 million per annum. Additionally in Financial Year 2003–04, £4 million will be expended on research through the Missile Defence Centre.

In summary, expenditure in the 10 successive Financial Years since 1994–95 is set in the table below:

£million

Financial Year	*Pre-Feasability Programme*	*TRRAP*	*Longer Range Threat*	*Capability Gap Work*	*BMD Studies*	*Missile Defence Centre*	*Theatre BMD*	*Total*
1994–95	2.0	-	-	-	-	-	-	2.00
1995–96	2.5	-	-	-	-	-	-	2.5
1996–97	.3	-	-	-	-	-	-	.3
1997–98	-	-	-	-	-	-	-	-
1998–99	-	2.2	-	-	.5	-	-	2.7
1999–2000	-	4.5	-	-	.5	-	-	5.00
2000–01	-	5.00	-	-	.5	-	-	5.5
2001–02	-	0.8	1.2	.6	.5	-	1.0	4.1
2002–03	-	-	1.2	.6	.5	-	1.0	3.3
2003–04	-	-	-	-	-	4.00	1.0	5.00

MOD Posts

Mr. Hancock: To ask the Secretary of State for Defence how many *(a)* service and *(b)* MOD civilian posts he estimates will be transferred to the private sector over the next three years from the (i) Royal Navy, (ii) Army and (iii) Royal Air Force. [148051]

Mr. Ingram: Officials are collating the information requested. I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Network-centric Capabilities

Mr. Rosindell: To ask the Secretary of State for Defence pursuant to his answer of 17 December 2003, *Official Report*, columns 944–45W, on network-centric capabilities, what effect he expects the change of emphasis towards network-centric capabilities will have on the numbers of employees within the United Kingdom armed forces. [148686]

Mr. Hoon: At this stage, I have nothing further to add to the answer that I gave the hon. Member on 17 December 2003, *Official Report*, columns 944–45W.

Northern Ireland

Sir Teddy Taylor: To ask the Secretary of State for Defence for what reasons troops in Northern Ireland have been advised to avoid wearing *(a)* badges and *(b)* clothing which would indicate their support for the (i) Glasgow Rangers and (ii) Glasgow Celtic football clubs; and what representations have been made to him on this issue. [148442]

Mr. Ingram: The Army's role in Northern Ireland is in support of the PSNI, which has taken steps to remove contentious emblems under the Patten reforms.

The MOD advises Service personnel in Northern Ireland that the wearing of emblems and clothing including contentious football tops, which could be misconstrued as offensive, should be avoided. This is good practice and complies with the Equality Commission for Northern Ireland's Code of Practice which recommends that employers promote a good and harmonious working environment.

I am not aware of any representations on this issue.

Nuclear Submarines

Mr. Rosindell: To ask the Secretary of State for Defence what plans he has to change the number of Astute-class nuclear attack submarines available to the Royal Navy. [144690]

Mr. Ingram: The Astute-Class of nuclear submarines will progressively supersede the existing Swiftsure and Trafalgar Classes through a phased replacement programme. At present, the Ministry of Defence has a contract with BAE Systems for the design and build of the first three Astute-Class submarines. Decisions on the acquisition of further Astute submarines will be taken in due course. The MOD routinely considers changes to the future Defence programme to ensure that capability levels meet our anticipated requirements.

Permanent Secretary (Engagements)

Matthew Taylor: To ask the Secretary of State for Defence on what dates the Permanent Secretary discussed allegations concerning Robert Lee International and BAE Systems with the chairman of BAE Systems. [142411]

Mr. Ingram: The Permanent Secretary of the Ministry of Defence spoke to the Chairman of BAE Systems in May and June 2001 about allegations raised at the time concerning Robert Lee International. He also spoke to the Chairman of BAE Systems in September 2003, at the request of the Serious Fraud Office, in the light of the renewal of the allegations in the Press.

Procurement

Mr. Hancock: To ask the Secretary of State for Defence how many of his Department's procurement decisions have been the subject of judicial review since 1997. [147958]

Mr. Ingram: None.

RAF Bicester

Mr. Lidington: To ask the Secretary of State for Defence whether it remains his policy to *(a)* close and *(b)* dispose of the airfield at RAF Bicester. [147963]

Mr. Ingram: As I announced in my letter to the hon. Member on 29 August 2003, the site is due to be vacated by military users later this year. The site will be disposed of on completion of the planning process that will ultimately determine its future use.

Reinstatement Committees

Mr. Hancock: To ask the Secretary of State for Defence what training members of employment tribunals receive to enable them to sit on reinstatement committees. [146179]

Mr. Timms: I have been asked to reply.

The training of members of employment tribunals is a matter for the judiciary. The emphasis in training chairmen and lay members of employment tribunals is on the exercise of judicial skills—making findings of fact in accordance with the relevant legal principles and according parties a fair hearing. This applies whether dealing with the over 70 different jurisdictions covered by the employment tribunals or when constituted as a reinstatement committee.

PRIME MINISTER

Chechnya

Tom Brake: To ask the Prime Minister what *(a)* representations he has received from and *(b)* discussions he has had with Chechen President Akhmad Kadryov. [148931]

The Prime Minister: As far as I am aware, I have not received any representations from, or had any discussions with, President Akhmad Kadyrov.

Fatalities (Government Obligations)

Adam Price: To ask the Prime Minister what obligations are recognised by the Government as arising in cases where a person has died from a heart attack as a result of duress or harsh treatment inflicted by an agent of the state. [148321]

The Prime Minister: Any such allegation would be investigated and appropriate action taken on the basis of that investigation.

Government Performance Audit

Mr. Jack: To ask the Prime Minister whether a copy of the audit report on the performance of his Government, to be published on 16 January, will be placed in the Library. [148808]

The Prime Minister: No. Information relating to internal advice and consultation is not disclosed under Exemption 2, Part II of the Code of Practice on Access to Government Information.

Iraq

Mr. Hancock: To ask the Prime Minister when he was informed that the USA was intending to wage war on Iraq; and if he will make a statement. [149053]

The Prime Minister: I refer the hon. Member to the answers I gave to the hon. Member for Nottingham North (Mr. Allen) on 11 June 2003, *Official Report*, column 868W and on 23 June 2003, *Official Report*, column 616W.

Rogue States

Mr. Gummer: To ask the Prime Minister how he defines rogue states. [148677]

The Prime Minister: The phrase "rogue state" is generally used to describe those believed to be engaged in the proliferation of weapons of mass destruction and their means of delivery, or those which support terrorism and offer succour to those who commit terrorist acts.

Thames Gateway

Mr. Clifton-Brown: To ask the Prime Minister (1) what discussions he has had in connection with the Thames Gateway Communities plans regarding *(a)* the Crossrail Project and *(b)* a new Thames road crossing; [148200]

(2) which Government Departments are involved in plans for the development of the Thames Gateway communities; and what commitments have been made. [148202]

The Prime Minister: The Thames Gateway involves a number of Government Departments who are all represented in the Cabinet Committee on the Thames Gateway (MISC 22). Full membership and terms of reference of all Ministerial Committees of the Cabinet are available in the Library of the House.

The Government's policy was set out in 'Creating Sustainable Communities: Making It Happen in Thames Gateway' in July 2003, copies of which are available on the Office of the Deputy Prime Minister's website. This set out a level of Government financial support, including £446 million of ODPM pump priming funding over three years, to enable the development of at least 120,000 new homes in the Gateway by 2016.

The Department for Transport's recent announcements concerning the inclusion of the Channel Tunnel Rail Link domestic services in the Integrated Kent franchise and PFI funding support for the Thames Gateway Bridge in East London demonstrate the Government's continuing support for investment in infrastructure in the Gateway.

On Crossrail the Secretary of State for Transport has asked a review team to look at the proposals for Crossrail from Cross London Rail Links.

I have regular meetings and discussions with ministerial colleagues and others on a wide range of subjects and will continue to do so. As with previous Administrations, it is not my practice to provide details of confidential discussions, under exemption 2 of Part 2 of the Code of Practice on Access to Government Information.

Weapons of Mass Destruction

Mr. Gummer: To ask the Prime Minister what common factor makes it permissible for the US, the UK, France, Israel, India, Pakistan and Russia to hold weapons of mass destruction. [148676]

The Prime Minister: The UK is fully committed to the Treaties promoting the non-proliferation of nuclear, chemical and biological weapons, and supports their universalisation.

The US, UK, France and Russia, together with China, are recognised by the Nuclear Non-Proliferation Treaty (NPT) as nuclear-weapon States, as defined in Article 9(3) of the Treaty. Under the terms of the treaty Israel, India and Pakistan cannot be recognised as nuclear weapons states. The UK regularly calls on these states to accede to the treaty as non-nuclear weapon states.

The US, the UK, France, India, Pakistan and Russia are all States Parties to the Biological and Toxin Weapons Convention (BTWC). This Convention bans States Parties from producing, developing or stockpiling biological and toxin weapons. Israel has not acceded to the Convention, but is bound by the Geneva Protocol which prohibits the use of chemical and biological weapons. The UK regularly calls on Israel to accede to the convention.

The US, UK, France, India, Pakistan and Russia are all States Parties to the Chemical Weapons Convention (CWC), which bans the development, production, stockpiling and use of chemical weapons and requires the destruction of existing stockpiles. US, India and Russia have begun destruction of their chemical weapon stocks as required by the convention subject to close scrutiny by the Organisation for the Prohibition of Chemical Weapons (OPCW). Israel has been a signatory of the CWC since 1993, but has yet to ratify it. The UK regularly calls on Israel to ratify the convention and supports calls by the EU and the OPCW to encourage it to do so.

WALES

Wales-only Legislation

Gareth Thomas: To ask the Secretary of State for Wales what requests he has received from the Welsh Assembly Government for Wales only legislation to be included in *(a)* the current legislative programme and *(b)* the legislative programme for each of the last three years. [144399]

Mr. Touhig: The information is contained in the following table.

	Legislative programme
2003–04	Education (Miscellaneous Provisions) (Wales) Bill Public Services Ombudsman (Wales) Bill Tourism Accommodation (Registration) (Wales) Bill Transport (Wales) Bill Smoking in Public Places

	Legislative programme
2002–03	NHS (Wales) Bill Common Land (Wales) Bill Sunday Licensing (Wales) Bill St. David's Day Bill Land Use Planning Bill Education Bill Audit (Wales) Bill Housing Ombudsman (Wales) Bill Passenger Transport Bill
2001–02	Health and Well-Being (Wales) Bill Education (Wales) Bill St. David's Day Bill Census (Amendment) (Wales) Bill

No formal bids were made for the 2000–01 session as they would have needed to be submitted at a time when the Assembly had only just been constituted. However, informal discussions resulted in a bid being made for a Bill to extend the functions of the Children's Commissioner for Wales.

The Assembly Government also informed us of the Assembly's call for a Bill to ban smoking in public places.

In most cases, the Government publishes Wales-only Bills in draft. The Assembly Government supports this and makes its bids in that context.

INTERNATIONAL DEVELOPMENT

Small Arms Action Network

Kate Hoey: To ask the Secretary of State for International Development what funds have been provided to the International Action Network on Small Arms in the past five years; and for what purpose. [147888]

Hilary Benn: The International Action Network on Small Arms (IANSA) were awarded a grant for €1.1 million in October 2001 under the joint DFID/MOD/FCO Global Conflict Prevention Pool's (GCPP) Small Arms Strategy. To date they have received £997,059 and the full grant amount is due to be disbursed by April 2004.

The purpose of the project is to develop regional NGO and civil society networks in order to increase political commitment, raise public awareness and co-ordinate global action to effect policy change in tackling small arms proliferation and misuse.

Afghanistan

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the security situation in Afghanistan and its effect on *(a)* the provision of humanitarian aid and *(b)* national reconstruction. [148100]

Mr. Gareth Thomas: Security in Afghanistan is one of the biggest challenges facing the Afghan Transitional Administration (ATA), especially in the South and East of the country where Taliban insurgents continue to encroach. The recent bombings in Kandahar, which claimed 15 lives, and assassination of a French UNHCR worker in Ghazni, are unfortunate evidence of this.

Threats to the safety of Afghan and international staff have meant that some NGOs and international organisations are finding it increasingly difficult to operate in some parts of the country. So far difficulties exist only in specific areas and organisations are doing an excellent job in working around these to continue providing assistance wherever possible. However, the overall effect on the provision of humanitarian aid and reconstruction is very serious.

The international community is heavily involved in helping the ATA deal with these problems, by helping reform its army and police force and through further deployment of joint civil-military Provincial Reconstruction Teams. The international coalition continues to counter Taliban fighters in Southern and Eastern Afghanistan and the mandate of the International Security Assistance Force (ISAF) has recently been expanded to allow it to operate beyond Kabul. Subject to provision of troops by contributing nations this will enable it to support the UN-led programme to disarm and demobilise former combatants and facilitate other parts of the Bonn Process including elections.

Mr. Bercow: To ask the Secretary of State for International Development (1) how many of the international secondments to Afghanistan from his Department in each of the last two years have been of women; [148111]

(2) how many international secondments of officials from his Department have been made to Afghanistan in each of the last two years; and if he will list their responsibilities. [148112]

Mr. Gareth Thomas: In 2002, DFID seconded two officials, both women, to international organisations in Afghanistan. One was seconded through UNDP to work in the ministry of Rural Reconstruction and Development and the other was seconded to the office of the EU special representative in Afghanistan as his special Assistant. In addition we employed three UK staff in our Kabul office of which one was a women.

In 2003, both female secondments remained in their posts for a period. A male official was seconded to the World Bank office in Kabul as a governance and institutional development specialist. In our Kabul office we employed five UK staff of which two were women.

African Union

Mr. Bercow: To ask the Secretary of State for International Development what financial support his Department has provided to the African Union since the expiry of the agreement in August 2003. [147345]

Hilary Benn: DFID fully supports the vision of the African Union, particularly its key role in peace and security across the continent. Since February 1999 DFID has given £1,089,745 to the Conflict Management Centre of the OAU/AU. This is distributed in three tranches: February 1999 to September 2000 (£311,812); June 2001 to August 2003 (£677,933) and October 2003 to March 2004 (£100,000). The last tranche is via the United Nations Development Programme and will be spent shortly.

We have also been supporting an AU peacekeeping mission in Burundi bilaterally with £3.9 million to Mozambique as one of the troop contributing countries and we are about to release £2 million through the AU itself for the same mission.

Angola

John Barrett: To ask the Secretary of State for International Development what assistance his Department is giving to the Government of Angola for preparations for the general election in 2005; and if he will make a statement. [147776]

Hilary Benn: DFID's Country Engagement Paper (CEP) for Angola identifies the priorities for UK development assistance over the next three years. This includes support to the government and other stakeholders to prepare for the next general election. The date of the next general election in Angola has not yet been set however, with a possibility that it might be later than 2005.

DFID are currently in discussion with the Angolan government and civil society as to the nature of that support. Possible areas include: reform of the constitution and electoral laws, voter and civic education, election-related conflict management and election monitoring. Another proposal is to fund Angolan parliamentarians to participate as observers in some of the elections that will take place in the SADC region during 2004 (Malawi, South Africa, Mozambique, Botswana and Namibia).

Bilateral Aid

Mr. Bercow: To ask the Secretary of State for International Development what steps he is taking to advance the target of an increase in the proportion of the Department's low-risk bilateral projects evaluated as successful. [148144]

Hilary Benn: DFID's 2003 Autumn Performance Report on progress against our Public Service Agreement, a copy of which was placed in the Library of the House last month, reported that 80 per cent. of our low-risk projects are currently evaluated as completely or largely successful. Of the remaining 20 per cent., many of these are evaluated as achieving a number of their objectives. While this represents a high success rate, DFID is constantly seeking to improve the impact and value for money of all our interventions, including high, medium and low-risk projects.

All projects are subject to an approval process in which their potential contribution to our corporate priorities is assessed. Once underway, projects are 'scored' annually to review progress towards achieving their objectives. Fuller reviews are undertaken midway through their duration and once they are completed. We also conduct wider evaluations of our portfolio's success and of the lessons we have learned. The performance of our portfolio, and progress against this target, is monitored every three months by DFID's Management Board. These processes allow us to address slippage and make judgments about how our resources should best be used.

Brazil

Lynne Jones: To ask the Secretary of State for International Development pursuant to his Answer of 16 January 2004, *Official Report*, column 237W, on the Indigenous People's Demonstration Project, by how much the expenditure on the Indigenous People's Demonstration Project in Brazil will be reduced over the next two years; and what representations he has received on behalf of the Indigenous People's Demonstration Project in response to the reduction in United Kingdom funding. [147742]

Hilary Benn: We expect to spend £500,000 during 2004–05 and 2005–06 compared to £700,000 originally envisaged. As savings have been possible in the cost of expert advice (recruiting a Brazilian rather than an EU national) and German aid funds are able to meet the demand for demonstration funds, we will be able to deliver training and capacity building activities at a rate similar to that originally scheduled for these years.

No representations have been made to either DFID's office in Brasilia or the British Embassy. DFID has, however, held discussions with the Brazil Cooperation Ministry to explain the reasons for the changes in expenditure. All project staff have been informed and are revising the project accordingly.

Burma

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the level of cross-border humanitarian assistance to internally displaced people in Burma. [147348]

Hilary Benn: We know that some agencies provide cross-border assistance to internally displaced people in Burma, but we do not have reliable information on the total levels of this assistance. DFID does not fund cross-border assistance since we are unable to undertake monitoring and evaluation in these areas to ensure effective use of funds provided.

We support the World Health Organisation's border health programme and the Burmese Border Consortium's effort to provide food aid to refugees along the border in Thailand, totalling £0.67 million in 2003–04. Internally displaced people are likely to be among the beneficiaries of DFID funding to tackle HIV/AIDS across Burma and basic health care programmes in two border states, towards which DFID is making a total contribution of £2.3 million in 2003–04.

Burundi

John Barrett: To ask the Secretary of State for International Development what assistance has been offered to the government of Burundi for the improvement of medical facilities for the delivery of new malaria treatments. [147822]

Hilary Benn: There has been no assistance to the Government of Burundi for the improvement of medical facilities for the delivery of new malaria treatments. However we are providing assistance through international NGOs and UN agencies, as are other donors, to cover urgent humanitarian needs. This includes funding for Medecins Sans Frontieres who have helped introduce the new malaria protocol. This year we are also providing funding of £250,000 to the World Health Organisation (WHO) for the implementation of the new protocol. WHO will be working closely with the Government of Burundi.

John Barrett: To ask the Secretary of State for International Development if he will make a statement on cholera levels in Burundi. [147824]

Hilary Benn: According to WHO, the last confirmed outbreak of cholera in Burundi was in 2002. Since then there have been no further reports of outbreaks.

John Barrett: To ask the Secretary of State for International Development what progress is being made towards the rehousing of those left homeless by the storm in the Bubanza province of Burundi. [147825]

Hilary Benn: It is reported that on Sunday 4 January 500 people in Mpanda Commune in the northwestern province of Bubanza were made homeless by a storm which destroyed 102 houses and a primary school. DFID have not responded to this problem directly. We are however providing support to humanitarian work in Burundi amounting to £1.18 million so far this financial year.

Mr. Bercow: To ask the Secretary of State for International Development what plans he has to visit Burundi. [148110]

Hilary Benn: I have no plans to visit Burundi at the moment.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the humanitarian situation in Burundi. [148116]

Hilary Benn: DFID closely monitors the humanitarian situation in Burundi through our office in Bujumbura, and through regular contact with NGOs and the UN. The UK takes a leading role in the donor support group in Burundi, the objective of which is to improve assessment, co-ordination and response.

We concur with the recent UN assessment that the current major problems faced by Burundi are insecurity, disease and malnutrition. Life expectancy plummeted from 53.8 years in 1992 to 40.9 in 2001; there is just one doctor for every 100,000 people; the infant mortality rate for under-fives has nearly doubled from 100 per 1,000 in 1993 to 190 per 1,000 in 2001; and 69 per cent. of the population is under-nourished.

The UK participated in last week's Burundi Partners' Forum jointly hosted by UNDP and the Government of Belgium in Brussels. The meeting was successful in mobilising commitments of over $1 billion in donor support over the period 2004 to 2006, as well as making progress in establishing a simple co-ordinated framework to make more effective use of the donor funds being made available.

Chad

John Barrett: To ask the Secretary of State for International Development what response his Department will make to the appeal of the World Food Programme for Sudanese refugees in Chad. [147773]

Hilary Benn: DFID is contributing to efforts to address the humanitarian needs of Sudanese refugees in Chad. We made a contribution of £1 million to the United Nations Commission for Refugees (UNHCR) in December, towards the Emergency Needs budget of their Supplementary Appeal for Emergency Assistance to Sudanese Refugees in Eastern Chad.

We are continuing to monitor the situation and may make further contributions if the situation indicates this is necessary. This may involve a contribution to the WFP appeal if there is a need for additional food aid.

The cause of the movement of refugees from Sudan into Chad is the fighting in Darfur, in western Sudan. We reiterate our deep concern at the continuing humanitarian crisis resulting from this conflict and call on all those involved to address the problems in Darfur through dialogue, to establish and maintain a ceasefire with independent monitoring and to allow unfettered humanitarian access to those in need. The UK has already contributed over £4 million to the relief effort (including to the UNHCR) and remains willing to use its good offices in any way possible to facilitate the peaceful resolution of the conflict.

Child Soldiers

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the extent of the use of child soldiers in *(a)* the Democratic Republic of Congo, *(b)* Burundi, *(c)* Rwanda and *(d)* Uganda. [148163]

Hilary Benn: The UK condemns unequivocally the use of child soldiers. The fourth report of the UN Secretary-General on the use of children in armed conflict has recently been issued and will inform debate on this issue in the UN Security Council later this month.

The UK discusses the issue with a range of UN bodies, particularly the Special Representative on Children in Armed Conflict, and works with the UN system to eradicate the use of child soldiers, including our support for a UNICEF programme of capacity building to strengthen its response in emergency situations. A key element of this programme is improving its advocacy on the situation of children affected by armed conflict at all levels.

For DRC the UK is providing £750,000 to help establish child protection networks, and Disarmament, Demobilisation and Reintegration (DDR) mechanisms in each province and at national level. Our support will help UNICEF in launching preparations and commencing activities for the demobilisation and reintegration of children associated with armed groups in the Democratic Republic of Congo (DRC).

UNICEF reported in September 2003 that it was thought there were then about 1,000 child soldiers serving in Burundi's regular army, 1,500 in the pro-government youth militia and 500 in the rebel movements, though the exact number would only be available when the demobilisation programme was implemented.

Burundi ratified the UN Convention on the Rights of the Child in 1990, though the optional protocol banning the use of children under 18 in armed conflict was not signed at that time—the text of this has recently been submitted to the National Assembly for approval.

In Rwanda the UK is supporting research that is being undertaken by Save the Children to determine why more girl child soldiers from the ex-armed groups in the DRC are not presenting themselves for

demobilisation and repatriation to Rwanda.With respect to Uganda, one of the terrible features of the conflict there is that abducted children themselves become the combatants. We have raised our concerns about the safety of those abducted with President Museveni and senior Ministers. The UK has provided financial support to UNICEF and Save the Children to rehabilitate children who have escaped from the Lords Resistance Army. Also we have discussed with the Ugandan government reports of under-age soldiers being recruited by the government defence units in the North. The Government of Uganda has assured us that they are co-operating with UNICEF to identify and demobilise the recruits. Our High Commission in Kampala is monitoring the situation.

Debt Relief

Mr. Bercow: To ask the Secretary of State for International Development how many countries he expects to reach completion point for the purposes of debt relief by the end of 2004. [148142]

Hilary Benn: Of the 27 countries that have qualified for debt relief under the Heavily Indebted Poor Countries (HIPC) Initiative, nine have so far reached completion point and have received an irrevocable reduction in their stock of debt. A further 10 are expected to reach completion point by the end of 2004. Three of these (Nicaragua, Ethiopia and Niger) should reach completion point imminently.

Nevertheless, it is difficult to predict exactly when countries will reach completion point, because, instead of a fixed completion point date, the enhanced HIPC Initiative system is based on a 'floating' completion point. But even where countries miss their predicted completion point date, there is no delay to the delivery of debt relief, as countries cease to make payments on their debt from decision point.

Democratic Republic of the Congo

Mr. John Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the UN Office for the Co-ordination of Humanitarian Affairs about the effectiveness of humanitarian intervention in Ituri. [148076]

Hilary Benn: We have regular discussions with the UN's agencies including OCHA, and consider the humanitarian response to the crisis in Ituri to have been effective to date. The humanitarian situation there has improved as a result of services such as food aid, emergency medical assistance, provision of potable water and increased sanitation facilities delivered by the relief agencies, and the UN has been able to negotiate increased access in the area for relief work.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the most recent discussions he has had with the governments of *(a)* Rwanda and *(b)* Uganda concerning their involvement in the future of the Democratic Republic of the Congo. [148078]

Hilary Benn: The UK is seeking to help resolve conflict and establish conditions for genuine development in the whole of the Great Lakes region. We have maintained a close dialogue with the governments of Rwanda and Uganda, and indeed with the former Government and now the Transitional National Government (TNG) in Kinshasa, on the need for good neighbourly relations as the basis for national and regional stability. We continue to do so. The Democratic Republic of the Congo (DRC) will undoubtedly be discussed during the forthcoming visit to the UK of Presidents Kagame and Museveni.

Both Rwanda and Uganda have taken positive steps recently to normalise their relations with the TNG in DRC, including mutual ministerial visits and the signing in New York on 25 September 2003 of a Good Neighbourly Pact, which included commitments that all support for armed groups should end and that there should be no illegal exploitation of natural resources of the DRC.

Mr. Bercow: To ask the Secretary of State for International Development how many monitors and overseers the United Kingdom will send to witness and report on whether the forthcoming elections in the Democratic Republic of the Congo are *(a)* free and *(b)* fair. [148081]

Hilary Benn: The Transitional National Government (TNG) of the DRC has not set a specific date for elections, likely to be either in 2005 or 2006; nor has it invited partners to send election monitors. Should it do so, it is likely we will participate in wider EU or UN efforts.

Helping the TNG and other stakeholders prepare for free and fair elections is an important part of our engagement in DRC. We are providing £400,000 for the Electoral Institute of South Africa (EISA), an NGO, to help enhance the capacity of stakeholders to participate in the process of designing the DRC's institutional, constitutional and legal frameworks, including for a democratic electoral system.

Mr. Bercow: To ask the Secretary of State for International Development what action he will *(a)* take unilaterally and *(b)* propose at multilateral level in response to the publication of the UN Commission report on the misuse of the natural resources of the Democratic Republic of the Congo. [148082]

Hilary Benn: I refer the hon. Member for Buckingham to the Statement made by my hon. Friend the Parliamentary Under-Secretary of State for the Foreign and Commonwealth Office (Chris Mullin) on 17 December 2003, *Official Report*, Column 142–4WS.

We continue to urge the UN to provide the detailed information necessary to substantiate the allegations against British companies. We have urged NGOs to do the same.

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with *(a)* his counterparts in EU member states and *(b)* representatives of the United Nations about the report of the UN Panel of Experts on illegal exploitation of natural resources and other forms of wealth in the Democratic Republic of the Congo. [149186]

Hilary Benn: None. The Foreign and Commonwealth Office are the lead Department responsible for discussions on the UN Panel of Experts Report with counterparts in EU Member States and representatives of the United Nations.

The issue of exploitation of the natural resources of the DRC is enormously important. We are already working with the new government in the Congo and with international and regional partners to help develop its institutions and to put in place effective management of the country's natural resources, including by playing a leading role in making the Anti-Corruption Commission effective and encouraging the Transitional National Government to engage in the Extractive Industries Transparency Initiative.

The huge potential of the Congo's natural resources should be exploited legally and in a regulated way, for the benefit of all Congolese. We want to see trade in natural resources become a cohesive factor in regional stability and not a cause of conflict.

Ethiopia

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on Ethiopia's debt burden. [147339]

Hilary Benn: Ethiopia qualified for debt relief under the Enhanced HIPC Initiative in November 2001 when it reached decision point—the first stage of the HIPC process. This means Ethiopia no longer has to service around $1.9 billion of debt. These debts will be formally written off when Ethiopia reaches its completion point as expected in the first half of 2004.

Ethiopia owes the UK £15.4 million but is already receiving full debt relief on this under the UK Government's bilateral policy. This provides 100 per cent. relief on debt service payments starting from decision point and formally writes off the entire debt after completion point.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the joint departmental scoping mission scheduled for April 2004 to consider reform of Ethiopia's security sector. [147340]

Hilary Benn: The joint departmental scoping mission for Security Sector Reform (SSR) comprising representatives of MOD, FCO and DFID visited Ethiopia in April 2003 in response to requests from the Government of Ethiopia. The mission recommended a phased engagement by HMG that would help make all parts of the security sector more accountable to the people of Ethiopia. Initial activities to strengthen bodies responsible for oversight and planning are about to begin.

We welcome the Government's recognition that reform of the security sector will enhance its capacity to fulfil constitutional obligations in respect of human rights.

Mr. Bercow: To ask the Secretary of State for International Development how financial support from his Department to Ethiopia has been tailored to tackle the increase in global acute malnutrition that has occurred in some of the drought affected areas of Ethiopia. [147346]

Hilary Benn: Since the start of 2002 we have committed over £50 million of humanitarian aid to Ethiopia making us one of the largest donors of emergency assistance. This has been channelled through UN agencies, the Ethiopian Government and non-government organisations (NGOs).

A mix of interventions successfully helped to address global acute malnutrition (GAM) and severe acute malnutrition (SAM) in the drought-affected parts of the country. For example, we targeted localities suffering high levels of malnutrition with supplementary and therapeutic feeding through NGOs and UNICEF. This helped bring GAM levels in the most affected areas down to about 7 per cent. to 8 per cent. from over 20 per cent. at the peak of the crisis.

Some pockets of malnutrition remain in 2004 largely as a consequence of poor targeting and delivery capacity. We are providing support to UNICEF for building capacity of the emergency system and will continue to play our part as and when further needs arise.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the level of ethnic violence in Ethiopia. [147392]

Hilary Benn: There is still a high level of ethnic violence in Ethiopia. Ethnicity is the basis of most of the major political parties, including the ruling party. Many ethnic groups are politically and economically excluded.

Ethnic tension has led to fighting in Gambella (West Ethiopia) in December 2003. Up to 150 people may have died.

New legislation passed in 2003 will allow Federal Government to intervene in cases of human rights violations at Regional level and below. This indicates a growing willingness by Federal Government to accept ultimate responsibility for human rights violations at Regional or local level.

We take human rights very seriously and will continue to promote improvements through high level political dialogue, budget support indicators and support to security sector reform.

EU Aid Target

Mr. Bercow: To ask the Secretary of State for International Development what the cost will be to public funds of the UK achieving the agreed EU target of aid amounting to 0.39 per cent.of GNI. [148143]

Hilary Benn: Under current spending plans we expect official development assistance (oda) to exceed the EU target and hit 0.4 per cent. of GNI in 2005, a year earlier than the target date. The cost of achieving 0.4 per cent. in 2005, including that part of oda which is not financed through the DFID budget, is estimated to be £4.9 billion.

Euro

Keith Vaz: To ask the Secretary of State for International Development in how many speeches during 2003 he declared support for the Government's policy on the euro. [147293]

Hilary Benn: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary on 12 January 2004, *Official Report*, column 517W.

Global Interventions

Mr. Challen: To ask the Secretary of State for International Development whether he has made formal representations to the United Nations about his proposal for global intervention in countries whose Governments abuse their populations, made in his speech on 30 October 2003 at the UN High Level Dialogue on Financing for Development; and what criteria would be used for such global interventions. [147449]

Hilary Benn: No formal representations have been made to the United Nations concerning intervention in countries with humanitarian crises. The Department for International Development is working closely with the Foreign and Commonwealth Office to contribute to the debate on UN reform. The High Level Panel on Threats, Challenges, and Change appointed by Kofi Annan has an important opportunity to make proposals for a more effective UN response in this area. The UK supports reform that will ensure that the UN Security Council assumes its full responsibility to guarantee peace and security. We cannot allow a repeat of the mistakes made in Rwanda in 1994.

Framing acceptable principles for intervention, so that people are protected effectively, and so that states are treated equally, is part of the challenge presently facing the United Nations. An important attempt to develop common ground on principles and criteria for intervention was made in the report of the Canadian-sponsored International Commission on Intervention and State Sovereignty (ICISS). We welcomed the commission's report, The Responsibility to Protect, which was published in December 2001. It attempts to move the debate from an unproductive discussion of intervention towards a new focus on the responsibilities held by states to protect their own citizens from avoidable catastrophes from mass murder, rape and from starvation. When states are unwilling or unable to fulfil their responsibilities, it argues that the responsibility to protect should be borne by a broader community of states. It also stresses that the responsibility to prevent conflict is as important as the responsibility to react, and that any intervention is accompanied by a responsibility to rebuild.

Heavily Indebted Poor Countries Initiative

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the working paper from the International Monetary Fund on the effect of the Heavily Indebted Poor Countries initiative upon Africa's poorest nations. [148084]

Hilary Benn: On 1 September 2003, the International Monetary Fund (IMF) published a working paper entitled "Fiscal Sustainability in African. HIPC Countries: A Policy Dilemma?" The paper focuses on the link between fiscal policy and debt sustainability. The authors concluded that, without more international assistance in the form of grants or private non-debt financing (such as foreign direct investment), Governments would need to raise taxes or scale down social spending programmes in order to maintain sustainable fiscal positions in the face of possible adverse shocks. The authors noted that the paper's conclusions were sensitive to assumptions on growth rate, interest rate, and exchange rate dynamics.

This problem has already been recognised by the World Bank and International Monetary Fund (IMF), and the UK is pressing for additional relief at HIPC Completion Point, where necessary, to ensure that countries have sustainable external debt levels. On longer-term debt sustainability, the UK welcomes the report being prepared by the World Bank and IMF on ensuring debt sustainability for low-income countries, including HIPCs, while enabling them to access sufficient finance for their poverty reduction strategies. We hope to reach agreement on the appropriate policy response at the spring meetings of the World Bank and IMF in April.

We also recognise that, in order to meet the Millennium Development Goals, an additional US$50 billion a year until 2015 is required from the international community. That is why the UK's proposal for an International Finance Facility is so important. It could provide the much-needed substantial increase in resources that debt relief alone would not achieve.

HIV/AIDS

Mr. Tynan: To ask the Secretary of State for International Development what support he is providing to tackle the spread of HIV/AIDS in *(a)* India and *(b)* China. [147529]

Hilary Benn: DFID India is supporting the Government of India's National AIDS Control Programme through the National AIDS Control Organisation (NACO) with a commitment of £123 million over a period of five years. The main approach of the programme is to support innovative, targeted work with highly vulnerable sections of the community in the various states of India. Our partners in this programme are World Bank and the US Agency for International Development. The programme includes support to UNAIDS for effective implementation of its HIV strategy in India and BBC-World Service Trust for media campaigns to raise awareness in the general public.

The communities covered under the programme include sex workers, their clients, street children, men who have sex with men, industrial workers and injecting drug users. For example, in West Bengal one of DFID's focus states, our work to date have covered more than one hundred thousand people through 17 NGOs in 52 sites.

DFID China is working in partnership with the Government to tackle and combat the spread of HIV/AIDS. DFID currently supports a £20 million HIV/AIDS initiative, which pilots replicable models of HIV/AIDS prevention, treatment and care in Yunnan and Sichuan for high risk and vulnerable groups. This project aims to inform and develop national policy and good practice on HIV/AIDS. In addition, DFID will provide £5 million to assist the Government of China in developing its strategic capacity to deliver an effective and co-ordinated response to HIV/AIDS.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on progress in Africa towards a reduction in the proportion of 15 to 24-year-old pregnant women with HIV from 16 per cent. [148136]

Hilary Benn: UNAIDS will publish global HIV/AIDS figures this year, which will allow for a proper assessment of the progress towards this target. The Department for International Development will report on this in its next Departmental Report in 2004.

Meanwhile, the latest "AIDS Epidemic Update", published by UNAIDS in December 2003, reports that HIV prevalence in pregnant women in selected urban areas seems to show the following trajectories in recent years (UNAIDS "AIDS Epidemic Update", December 2003):

Increasing: Swaziland, Namibia, Mozambique, Cameroon
Stable: Zimbabwe, Malawi, Zambia, Kenya, DRC, Senegal
Declining: Ethiopia, Uganda, Rwanda.

The update concludes that we are not witnessing a decline in sub-Saharan Africa's epidemic. Significant challenges remain to arrest the epidemic and meet the target to reduce the proportion of pregnant women with HIV/AIDS.

DFID has HIV/AIDS activities in most of our 16 focus countries in sub-Saharan Africa. Many of DFID's interventions support National AIDS Councils and help to integrate efforts to address HIV/AIDS into a range of other sectors. In addition to direct HIV/AIDS activities, in an increasing number of countries significant, indirect support for addressing HIV/AIDS is being provided through budget support.

DFID has also invested £1.5 billion in supporting health systems since 1997. We are working with partners to improve maternal and child health and reduce the impact of HIV and other major communicable diseases.

The recently published "UK Call for Action on HIV/AIDS" (copy enclosed), makes clear our own commitment to significantly increase our efforts to address HIV/AIDS and poverty.

We will make reducing the vulnerability of poor people to HIV and to the impact of AIDS a priority for the extra resources the UK will be devoting to Africa by 2006. All DFID Africa country offices are currently considering what needs to be done, by those countries, to enhance their HIV/AIDS programmes, and how the UK and others can best help them, including through additional financial contributions.

The Government will also make HIV/AIDS—and Africa—a centrepiece of our presidencies of the G8 and the EU in 2005.

Human Rights (Sudan/Burma)

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with representatives of Amnesty International about the level and nature of human rights abuses in *(a)* Sudan and *(b)* Burma. [148126]

Mr. Mullin: I have been asked to reply.

I discussed human rights in Sudan with the Director of Amnesty International UK on 11 December 2003. We are in regular contact with Amnesty International on human rights issues in Burma. Foreign and Commonwealth Office officials last spoke to Amnesty International on 15 January about their recent visit to Burma.

Infant Mortality Reduction

Mr. Bercow: To ask the Secretary of State for International Development what further action he proposes to take to help to achieve the goal in Africa of a reduction in under-five mortality rates for girls and boys from 158 per 1,000 live births to 139. [148138]

Hilary Benn: While some African countries have successfully reduced child mortality since 1990, in others it has changed little, and some African countries have experienced a rise in child mortality since 1990. It is generally accepted that a significant change will be needed if the target to reduce under-five mortality rates by two thirds by 2015 is to be achieved. Challenges include: the HIV/AIDS epidemic; economic decline and persistent poverty; inequality; under-resourced and poorly functioning health systems; and lack of progress in reducing the number of deaths of newborn babies.

DFID supports child health through wider work on strengthening health systems. We are actively supporting health sector development in 10 African countries, including working with partners to strengthen policy and action on child health. The UK will also continue to contribute to global initiatives such as the Global Fund to Fight HIV/AIDS, TB and Malaria, the Global Alliance for Vaccines and Immunization and Roll Back Malaria, which have helped revitalise interest in childhood diseases and substantially increased the resources directed to child health. We shall continue to support implementation of the Integrated Management of Childhood Illness Initiative with partners from the United Nations International Children's Fund, the World Health Organisation, the World Bank and the United States Agency for International Development. This initiative is building the quality and quantity of child health care at country level throughout Africa. The UK is also part of the recently inaugurated High Level Forum on Health which plans to address systemic challenges to achieving the health related Millennium Development Goals.

In a range of countries we also have specific investments in sectors that contribute to reducing child mortality, for example in water and sanitation and in education. The UK's broader development efforts to enhance economic growth and address inequity, conflict, civil unrest, child rights and food insecurity can also be expected to have a positive impact on child health outcomes.

At all levels of our engagement with African partners, we shall be increasingly explicit that affordable and sustainable child health outcomes need greater priority in poverty reduction strategies, especially in those countries with high child mortality.

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will make a statement on progress towards the target of an increase in the proportion of births assisted by skilled birth attendants from 39 per cent. to 57 per cent. in key countries in Asia, with particular reference to Bangladesh and Pakistan; [148132]

(2) if he will make a statement on progress towards the target of a reduction in under five mortality rates for girls and boys from 92 per 1,000 live births to 68 per 1,000 in four key countries in Asia, with particular reference to India; [148133]

(3) if he will make a statement on progress towards the target of an increase in the ratio of girls to boys enrolled in primary school from 87 per cent. to 94 per cent. in four key countries in Asia, with particular reference to *(a)* Pakistan and *(b)* India; [148134]

(4) if he will make a statement on progress towards the target of an increase in gross primary school enrolment from 95 per cent. to 100 per cent. in four key countries in Asia; [148135]

(5) if he will make a statement on progress towards the target of a sustainable reduction in the proportion of people living in poverty from 15 per cent. to 10 per cent. in East Asia and the Pacific; [148140]

(6) if he will make a statement on progress towards the target of a sustainable reduction in the proportion of people living in poverty from 40 per cent. to 32 per cent. in South Asia. [148141]

Mr. Gareth Thomas: DFID's Autumn Performance Report (APR), which is available in the House of Commons Library, reports on progress towards all of Asia's Public Service Agreement (PSA) indicators. The APR also explains what action we are taking regarding off-track indicators. The following additional detail covers the country-specific issues.

China and India have made progress in increasing the proportion of births assisted by skilled birth attendants, but Bangladesh and Pakistan show little progress so far.

In Bangladesh, DFID is currently supporting the Government's national plan for maternal mortality reduction. We are considering what else we can do to help Bangladesh to make speedier progress, which might include giving earmarked funding to accelerate maternal mortality reduction or an increased budgetary allocation for this purpose. In Pakistan, where progress has also been slow, DFID is developing proposals for substantial support for accelerated actions to improve maternal and neonatal health.

There has been little improvement so far in reducing child mortality in India. To help respond to this challenge, DFID is supporting the design of the Government of India's Reproductive and Child Health Programme for 2004–08, which encompasses child mortality reduction. We intend to make a significant financial contribution in support of this programme.

The ratio of girls to boys enrolled in primary school has improved in Bangladesh and China but in Pakistan and India, considerable progress is still needed. The Pakistan Government, in their recent Poverty Reduction Strategy Paper, expressed a commitment to provide education for all through improved access to primary education. We and the other major donors support this commitment. DFID's current education programme promotes progress towards universal primary education and we plan to expand this support over the coming year. In India, which has made some progress, we are continuing to support the District Primary Education Projects in our partner states of Andhra Pradesh, West Bengal and Orissa. An integral part of this programme is the promotion of girls' education through a range of special initiatives and incentives. Enrolment, retention and completion rates of girls continue to steadily improve. We are also supporting the Lok Jumbish education programme in Rajasthan, which places significant emphasis on girls education. Emphasis on girls' education is also central in the new national strategy for universal elementary education, which DFID is planning to support with the WB and EC.

Iranian Earthquake

Mr. Bercow: To ask the Secretary of State for International Development how many sniffer dogs in the United Kingdom were ineligible to accompany search and rescue teams to Iran on account of quarantine regulations. [147349]

Hilary Benn: There are 12 collapsed structure search and rescue dogs that are registered with the National Search and Rescue dog group. None were ineligible to accompany the rescue teams to Iran. However, seven had only recently completed quarantine following the earthquake response to Algeria last May and their owners felt it was not appropriate to subject them to another spell of quarantine so soon after that mission.

Mr. Bercow: To ask the Secretary of State for International Development how many sniffer dogs accompanied the search and rescue specialists who went from the United Kingdom to Iran on 27 December 2003. [147350]

Hilary Benn: Four dogs sent from the UK took part in the search and rescue operations in Iran.

Mr. Bercow: To ask the Secretary of State for International Development what briefing he has received from the heads of the UK search and rescue teams in Iran since their return to this country. [147385]

Hilary Benn: DFID officials have been in regular contact with team leaders since their return from Iran. There will be a formal debrief meeting, as is standard practice on Wednesday 21 January.

Mr. Bercow: To ask the Secretary of State for International Development how many of the people described in his written ministerial statement of 5 January 2004, *Official Report*, columns 1–4WS, as having been evacuated to receive tertiary care in Iran have now received that care. [147386]

Hilary Benn: According to latest reports from the Head of the Disaster National taskforce an estimate of 12,500 people were evacuated by air from Bam to other centres in Iran. All casualties have been treated.

Mr. Bercow: To ask the Secretary of State for International Development what his latest estimate is of the number of city officials in Bam who were killed during the recent earthquake. [147387]

Hilary Benn: The latest official Iranian Government figures estimate that 30,000 people lost their lives of which a proportion were city officials. Specific details of city officials killed has not been released. Meanwhile the Iranian authorities and the Iranian Red Crescent Society tracing department are continuing their assessment of missing persons.

Mr. Bercow: To ask the Secretary of State for International Development what estimate he has made of the number of unsolicited items provided by UK nationals to assist with shelter for people made homeless by the earthquake in Iran. [147388]

Hilary Benn: The Iranian embassy has expressed its gratitude for the tremendous response by the British public to the tragic situation in Iran. We cannot however, estimate the quantity of the unsolicited items they have been offered.

Mr. Bercow: To ask the Secretary of State for International Development how many of the people who suffered injuries in the earthquake in Iran have been *(a)* hospitalised and *(b)* treated. [147389]

Hilary Benn: The latest official Iranian Government figures give an estimate of 30,000 casualties that suffered injuries. Some of 12,500 people sustained severe injuries and were evacuated to other centres in Iran for treatment. The Iranian Red Crescent set up an extensive mobilised medical field hospital with four additional field hospitals set up by the Ukraine, Russia, Germany, Azerbaijan and Japan.

Iraq

Mr. Woodward: To ask the Secretary of State for International Development if he will list the humanitarian projects that the UK has *(a)* completed and *(b)* not yet completed in Iraq since 1 May 2003. [147166]

Hilary Benn: I refer my hon. Friend to the answer I gave to the hon. Member for City of York (Hugh Bayley) on 6 January 2004, *Official Report*, column 238W.

Mr. Woodward: To ask the Secretary of State for International Development what the Government's estimate is of the average *(a)* level of supply and *(b)* number of hours per day of supply of water to the population of (i) Baghdad and (ii) Basra (A) before the start of the recent conflict and (B) since the conclusion of the recent conflict. [147170]

Hilary Benn: Statistics in the precise form requested are not available.

Until the 1991 Gulf War, safe water was available to over 95 per cent. of the urban and 75 per cent. of the rural populations of Iraq. By 2000, coverage had dropped to 92 per cent. and 46 per cent. respectively. The deterioration of the system was disproportionately great in the south, including Basra, as a result of the discriminatory policies of the former regime.

It is estimated that as a result of the 2003 conflict and subsequent looting, water supply deteriorated by up to 50 per cent. in some governorates. Estimates suggest that the water supply network as a whole is now operating at about 65 per cent. of pre-war levels. However, significant efforts are being made to improve this situation.

In Baghdad, compact water treatment units and sewage pumping stations have been rehabilitated and additional units are being installed. Measures have also been taken to provide security at water treatment plants to prevent further looting. Hundreds of critical breaks in the water network have been repaired, increasing flow by 2 million litres per day. New construction is taking place at Baghdad's Sharkh Dijlah plant, which will add 40 per cent., or 2.25 million litres per day, to the water supply of eastern Baghdad by May 2004, benefiting 640,000 residents.

In Basra, rehabilitation work has already restored the water supply to pre-conflict levels. By spring 2004, the volume of fully treated water supplied to the city is expected to surpass the pre-war level of partially treated water. By the summer of 2004, the rehabilitation of the Sweet Water Canal, which supplies water to Basra, will have been completed, further benefiting 1.75 million residents.

Harry Cohen: To ask the Secretary of State for International Development if he will arrange for discussions with the Iraqi Provisional Authority about the supply in that country of safe, legal abortion services; whether his Department is prepared to contribute funding specifically for this purpose; and if he will make a statement. [147909]

Hilary Benn: DFID's main support to the health sector in Iraq is provided through the World Health Organisation (WHO). As part of their programme of work, WHO are holding regular discussions with the Iraqi authorities about the provision of all health services in the country, including family planning services. DFID has no plans to provide direct bilateral support for assistance in this area.

Mr. Bercow: To ask the Secretary of State for International Development what steps he is taking to ensure the safety of workers distributing aid funded by his Department in *(a)* Baghdad, *(b)* Basra and *(c)* elsewhere in Iraq, with particular reference to women aid workers. [148079]

Hilary Benn: The safety of UK personnel throughout Iraq is a top priority. Extensive measures are taken to protect DFID staff and consultants in their living and working quarters, as well as when they are travelling outside Coalition Provisional Authority compounds. These measures include the provision of personal safety and communications equipment, pre-posting security training and briefing and, where appropriate, armed protection. Security arrangements are kept under constant review. The same arrangements apply to men and women.

We are in close contact on security issues with the United Nations, which distributes a significant proportion of DFID's assistance to Iraq. We recently allocated £3 million to enhance UN security following the bombing of its Baghdad Headquarters in August and to replace equipment destroyed in that attack.

DFID also maintains regular contact with UK non-governmental organisations (NGOs) working in Iraq, in which safety and security issues are discussed. Where necessary DFID provides additional funding to those NGOs which we are financing in order to enable them to enhance their own security measures. It is however for each NGO to determine for itself the level and type of security to put in place, according to the circumstances in which it is working.

DFID contracts with commercial companies allow for them to put appropriate security provisions in place. We expect them to adopt equivalent levels of security for their own staff to those we provide for DFID personnel. Security information is shared with these companies on a regular basis.

Mr. Bercow: To ask the Secretary of State for International Development what the level was of the UK contribution to the UN Oil for Food programme in Iraq. [148086]

Hilary Benn: The United Nations Oil for Food Programme was financed entirely from the sale of Iraq's oil.

Mr. Bercow: To ask the Secretary of State for International Development (1) what measures are being taken by *(a)* the UK and *(b)* the UK with others to prevent food shortages in Iraq; [148087]

(2) what recent assessment he has made of the level of food shortages in Iraq. [148098]

Hilary Benn: The Public Distribution System for food, managed by the Iraqi Ministry of Trade, provides a basic ration for the whole population. Since the end of the United Nations Oil for Food Programme in November 2003, the Coalition Provisional Authority (CPA) has become responsible for food procurement. Contracts already funded are expected to ensure that sufficient basic food will be available until mid-2004.

Significant levels of chronic malnutrition nevertheless persist in Iraq, mainly as a result of long-term poverty and the inability of many people to supplement their basic rations with food containing sufficient minerals and vitamins. A number of programmes are being implemented by bodies such as the World Food Programme, UNICEF and NGOs to provide supplementary feeding to vulnerable groups. DFID is providing support for such programmes, and also for the work of the UN Food and Agriculture Organisation in reviving agricultural production in Iraq.

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent assessment has been made of the availability of medical supplies in Iraq; [148094]

(2) what recent assessment he has made of the levels of equipment at *(a)* the teaching hospital in Basra and *(b)* the Nuclear Medicines Hospital. [148096]

Hilary Benn: Work is currently under way between the Iraqi Ministry of Health, Coalition Provisional Authority and World Health Organisation (WHO) to develop a complete overview of missing drugs, supplies and equipment. This is expected to be complete by March. A great deal has already been achieved to re-establish drug and equipment supply systems. The initial focus was, rightly, on securing adequate supplies of the most essential medicines and vaccines.

Until new supply systems are fully operational, however, including comprehensive accounting and reporting processes to ensure that needs are identified before shortages arise, some problems will continue to occur. Even when these systems are in place, there may continue to be shortages of some highly specialised drugs and equipment.

The most critical contribution the international community can make is to ensure that the Ministry of Health can call on the technical expertise to enable them to prioritise their needs among highly competing demands. This is the nature of some of the support which the WHO has been providing, with DFID funding. We are also looking at possibilities for longer-term technical assistance to this and other key service delivery Ministries to assist with the budget prioritisation process, and to help ensure that they are able to access both Iraqi government revenues and donor funding.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the security situation in Iraq. [148097]

Hilary Benn: Despite continuing terrorist attacks against the Iraqi people, the international community and Multinational Forces in Iraq, the security situation is improving throughout the country as a whole. The majority of insurgency attacks remain largely confined to a limited area to the north and north-west of Baghdad.

Security problems are however still hampering humanitarian and reconstruction efforts, by way of sabotage of infrastructure and attacks on humanitarian workers and contractors. Several humanitarian organisations, including the United Nations and the International Committee of the Red Cross, have withdrawn expatriate personnel from Iraq for security reasons. Many of their programmes are however continuing under the management of well-qualified Iraqi staff. We are offering NGOs working on DFID-funded projects in Iraq financial support to meet additional security requirements; and we have allocated £3 million to the United Nations to strengthen its security in Iraq and to replace equipment lost in the bombing of its Baghdad headquarters in August.

The safety of UK personnel throughout Iraq is a top priority. Extensive measures are taken to protect DFID staff and consultants in their living and working quarters, as well as when they are travelling outside Coalition Provisional Authority compounds.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment has been made of the supply of *(a)* clean water, *(b)* sanitation and *(c)* electricity in Iraq. [148105]

Hilary Benn: The most comprehensive assessment of the water supply, sanitation and electricity systems in Iraq is included within the Joint Iraq Needs Assessment prepared by the United Nations/World bank and available on the World bank website: http://worldbank.org

More recently the requirements of the various sectors have been assessed by the relevant Iraqi Ministries in conjunction with the CPA to develop the schedule of projects to be funded through the US Supplemental and managed by the Iraq Project Management Office and which are available at: www.rebuildinq-Iraq.net

Other regular and on-going assessments of the various service sectors are prepared by a number of agencies including:

Coalition Provisional Authority—www.cpa-iraq.org

USAID—www.usaid.gov/iraq

UNICEF—www.unicef.org

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with non-governmental organisations which have withdrawn from Iraq about the prospects of a safe return to the country to continue with humanitarian work. [148109]

Hilary Benn: DFID holds regular meetings with non-governmental organisations (NGOs) working in Iraq, during which security issues are discussed. A number of NGOs have reduced their presence and profile in Iraq as a result of the high levels of insecurity in the country. DFID has offered additional financial support to those NGOs we are funding in Iraq for appropriate increased security provisions, if needed, and a number of NGOs have responded to this offer. Even where some NGOs have withdrawn their expatriate staff, most existing programmes are able to continue under the management of very capable Iraqi staff, albeit sometimes with additional security constraints.

Mr. Bercow: To ask the Secretary of State for International Development whether the £60 million funding for his Department's expenditure in Iraq announced by the Chancellor of the Exchequer on 9 April 2003 has been claimed. [148672]

Hilary Benn: The £60 million set aside by the Chancellor for Iraq is included in the UK's total Madrid pledge of £544 for the three years from April 2003. It is available to other Government Departments as well as DFID. £30.8 million has already been allocated, primarily towards meeting the costs of UK secondments to the Coalition Provisional Authority. The allocation of the remainder is under consideration.

Liberia

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of *(a)* the supply of clean water, *(b)* sanitation and *(c)* electricity supply in Liberia. [148106]

Hilary Benn: Clean water supply remains a major challenge, although immediate needs are being met. In urban centres, DFID has supported efforts to chlorinate shallow wells and, in sites where Internally Displaced Persons (IDPs) have collected, to provide safe water from drilled bore-holes with tankers, storage bladders and distribution networks. In rural areas, a major programme to rehabilitate wells and hand pumps is under way, with DFID backing.

Urgent sanitation needs are largely under control, since IDPs were moved from Monrovia to formal camps with established sanitation infrastructures.

Electrical supply has been virtually non-existent throughout the country for the last 15 years. The population has largely adjusted to this, and urgent needs, for instance in hospitals, are covered by generators provided and run by the humanitarian community.

Repairing and expanding the electrical grid system remains a significant mid-term rehabilitation requirement.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the security situation in Liberia and its impact on humanitarian relief. [148107]

Hilary Benn: The general security situation in Liberia remains stable, if fragile. However, while the number of UNMIL peacekeeping troops is insufficient to guarantee security across the country, the humanitarian agencies are understandably cautious in extending their activities beyond Monrovia; humanitarian operations remain restricted in scope, with only a few agencies implementing mostly small-scale activities in the more distant and insecure counties. In spite of this, the most urgent and acute humanitarian needs across Liberia are being met. Recent UNMIL deployments to Buchanan and Tubmanburg will, we hope, lead to the opening of UN sub-offices in these strategic towns, and a scaling up of humanitarian assistance. We understand that the UN is considering reducing the security alert level outside Monrovia from the current maximum level of Phase IV. This would also assist the spread of humanitarian programmes.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the levels of *(a)* food, *(b)* shelter and *(c)* medicine for the people of Liberia. [148108]

Hilary Benn: Given the extensive displacement of the population from their agricultural land, domestic food production in Liberia is inadequate, and will remain so in 2004. However, plans to feed almost 800,000 vulnerable people in 2004, which we propose to support, should provide sufficient food to avert extreme shortages.

With the large majority of informal settlements in Monrovia having been closed, and their occupants resettled to more formal camps, shelter for IDPs is considered by the relief agencies to be adequate, although temporary. The reconstruction of permanent shelters in IDPs' places of origin remains a major challenge for 2004–05.

With the reactivation of health services across the country, managed by international NGOs (with DFID support), medicines are in good supply in those areas where agencies are currently able to operate.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on progress towards meeting the Millennium Development Goals in Liberia. [148122]

Hilary Benn: Liberia is just beginning a planned period of recovery from long and widespread destruction and collapse of Government services caused by civil war, corruption, and incompetent Government unconcerned to provide public services. Consequently, there has been no progress towards the Millennium Development Goals.

The National Transitional Government of Liberia, which has been in office only since October 2003, has agreed with the UN, World Bank and international agencies a comprehensive framework for post-conflict recovery over its two-year period of office. Its intention is to put in place, over this period, the basis for re-establishment of Government Administration and service provision that will subsequently enable progress towards the Millennium Development Goals.

Malaria

Mr. Bercow: To ask the Secretary of State for International Development how much money has been given by his Department in each of the last six years *(a)* for medicines to fight malaria and *(b)* to research into affordable anti-malaria medicines. [148088]

Hilary Benn: The Department for International Development works closely with many partners to help developing countries accelerate progress towards achieving the internationally agreed Millennium Development Goals (MDGs). Goal VI is: by 2015, to have halted and begun to reverse the spread of HIV/AIDS and the incidence of malaria and other major diseases. Goal IV contains a target to reduce by two thirds between 1990 and 2015 the under-five mortality ratio.

The UK is committed to tackling malaria and contributing towards poverty reduction, in line with the MDGs and the associated Abuja Targets on malaria control. At the 1998 G8 summit in Birmingham the UK pledged £60 million in support of malaria activities, with £48 million allocated to Roll Back Malaria (RBM) over the period January 1999 to March 2004. RBM provides coordinated support for sustainable action against malaria. This includes providing technical support to Governments to ensure that their anti-malarial drug policies enable those suffering from malaria to get early treatment and to access affordable and appropriate medicines. As an active partner of RBM, DFID works to ensure RBM provides sound evidence-based support for the effective use of resources, including those available from the Global Fund to Fight Aids, Tuberculosis and Malaria, to which we have committed a total of US$280 million.

Within our overall spend on communicable diseases, we estimate that the amount spent on named malaria projects, including country programme and research spend, has been:

1997–98: £2,152,884
1998–99: £5,651,063
1999–2000: £13,882,671
2000–01: £17,372,874
2001–02: £17,280,357
2002–03: £18,892,095

DFID funds a variety of projects and programmes which work towards malaria control, including on the development and supply of anti-malarial drugs. DFID makes direct investments in research that covers malaria in several ways. Every year we give £4 million to the MRC through a Concordat agreement, which prioritises the needs of developing countries. Within the overall MRC portfolio, the focus on basic clinical research that can be used to identify new drug candidates includes malaria.

DFID also engage more directly in partnerships with industry to transform basic research, of the kind supported by the MRC, into drugs. We recently worked with GlaxoSmithKline, the WHO programme on Tropical Disease Research and Liverpool University in the development of a cheap new drug called LAPDAP(tm). In order to make the best use of this drug, further research to combine it with another drug to protect against early resistance is being undertaken, managed under an umbrella organisation called the Medicines for Malaria Venture (MMV), which DFID also supports. MMV is an important and innovative organisation that brings together researchers from the public and private sectors, with donors and foundations. DFID is funding MMV with £1 million per year for five years. Since its inception in 1999 MMV has demonstrated significant progress towards reaching its objective to deliver two new drugs in the next 10 years.

Effective health systems are equally important if medicines are to be delivered safely. Many poor countries still do not have the capacity to deliver treatments for malaria in a safe and effective way, regardless of their cost. This is why we have committed £1.5 billion since 1997 to help developing countries strengthen their health systems.

Maternal Mortality

Mr. Bercow: To ask the Secretary of State for International Development (1) what steps he is taking to meet the Millennium Development goals to reduce the level of maternal mortality among developing countries; [148083]

(2) what further action he proposes to take to help to achieve an increase in the proportion of births assisted by skilled birth attendants from 49 per cent. to 67 per cent. [148137]

Hilary Benn: I will answer questions 7107 and 7507 together.

Globally well over half a million women die in childbirth each year. A further 1.5 million women are left with a disability as a result of complications in childbirth and two million children are orphaned. The 5th Millennium Development Goal of improving maternal health has a target to reduce the maternal mortality ratio by three quarters between 1990 and 2015. One proxy indicator of progress against this target is the proportion of births assisted by skilled birth attendants. This is reflected in DFID's Public Service Agreement Targets.

Improvement in the proportion of births assisted by skilled attendants has been a key feature in countries where the maternal mortality ratio has been reduced. Skilled attendance means the presence of a professional with midwifery skills, supported by the necessary supplies and systems. Also important is a functioning referral system, able to provide rapid access to life saving skills and procedures in the event of an emergency. The reality in many developing countries falls far short of this and most women deliver alone or with a family member or traditional birth attendant.

DFID is committed to reducing the toll of maternal death and to promoting women's right to a safe pregnancy and childbirth. The Department's strategy includes advocacy in the international arena, support to countries to strengthen health systems and improve access to maternal and reproductive health services, and support for research and improved measurement tools. Since 1997 the Department has committed approximately £1.5 billion to help developing countries put in place effective health care systems which are vital if maternity services are to be improved. DFID has specific bilateral programmes to promote safe motherhood in Nepal, Malawi and Kenya, which include work to improve access to skilled attendants with the necessary accompanying improvements in access to emergency obstetric care. DFID also supports the maternal health work of international multilateral agencies, including WHO, and international NGOs.

DFID is participating in a new international partnership for Safe Motherhood and Newborn Health and supports a number research programmes to improve the evidence base on effective interventions to reduce maternal mortality including the Initiative for Maternal Mortality Programme Assessment (IMMPACT) with the Gates Foundation, USAID and the EC.

Middle East

Richard Burden: To ask the Secretary of State for International Development (1) what assessment he has made of the impact of *(a)* movement restrictions on Palestinians and *(b)* the construction of the separation wall on the access of children living in the town of Abu Dis and surrounding villages to schools and other educational facilities; [146552]

(2) what assessment he has made of the impact of *(a)* movement restrictions on Palestinians and *(b)* the construction of the separation wall on the ability of people living in the town of Abu Dis and surrounding villages to visit hospital and other health facilities. [146551]

Hilary Benn: Abu Dis and its neighbouring villages on the eastern flank of Jerusalem are socially and economically integrated into Jerusalem. The construction of the separation wall, between the municipal boundary of Jerusalem and Abu Dis, will isolate Palestinians from their places of work, schools and health facilities.

Abu Dis provides only basic health care services. Movement restrictions and the separation barrier, will deny many Palestinians access to the nearest hospitals in Jerusalem. Schooling will be severely disrupted too. Currently many Jerusalemites send their children to schools in Abu Dis, and vice versa. The separation wall cuts through Al Quds University, which will lose one third of its land.

Richard Burden: To ask the Secretary of State for International Development (1) what assessment he has made of the preliminary analysis of the United Nations Office for the Coordination of Humanitarian Affairs published on 15 December 2003 into the humanitarian consequences of the planned route of the Separation Wall outlined in the map released by the Israeli Government on 23 October 2003; [146553]

(2) if he will place in the Library a copy of the preliminary analysis of the United Nations Office for the Coordination of Humanitarian Affairs published on 15 December 2003 into the humanitarian consequences of the planned route of the Separation Wall outlined in the map released by the Israeli Government on 23 October 2003 on the website www.seamzone.mod.gov.il. [146554]

Hilary Benn: I agree with the preliminary analysis on the humanitarian consequences of the separation wall in the United Nations Office for the Coordination of Humanitarian Affairs report of 15 December 2003. The livelihoods of thousands of Palestinians have been drastically affected by the separation of villages from their agricultural land and water resources. The separation wall fragments communities and isolates people from vital social support networks.

I have placed in the Libraries of both Houses copies of the United Nations Office for the Coordination of Humanitarian Affairs preliminary analysis on the humanitarian consequences of the planned route of the separation wall, published on 15 December 2003.

Poverty Reduction

Mr. Bercow: To ask the Secretary of State for International Development what further action he proposes to take to secure a sustainable reduction in the proportion of people living in poverty in Africa. [148139]

Hilary Benn: The UK is committed to helping secure a sustainable reduction in the proportion of people living in extreme poverty in sub-Saharan Africa. The Prime Minister gave his commitment prior to the G8 summit in Canada in 2002 to significantly increase UK spending on bilateral programmes in Africa, and we are on course to increase the UK's budget for bilateral programmes in Africa, to £1 billion by 2005–06, (up from around £650 million a year in 2002).

We shall concentrate our resources in countries strongly committed to poverty reduction and on helping to end and recover from conflict. We will work to improve the effectiveness of UK and others' aid, by supporting country government systems and priorities. We shall continue to promote better coordination and harmonisation between bilateral donors and multilateral organisations on the ground.

The G8 will report progress on the Africa Action Plan during the UK Presidency in 2005. The Africa Action Plan expresses our political support for the New

Partnership for African Development (NEPAD). The Prime Minister's priorities in particular include conflict, HIV/AIDS, primary education and trade.

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for International Development if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147593]

Hilary Benn: The present policy in DFID is to undertake our IT work in the most cost-effective and efficient way with a blend of "in-house teams" and outsourcing where appropriate. We have no specific policy about offshore outsourcing but keep the situation under regular review.

The Department for International Development has no call centres. We have not outsourced any of our IT work to offshore companies nor do we have any specific budgets to do so in the next two years.

We have over 60 overseas offices, some of which are co-located with the Foreign and Commonwealth Office (FCO), and we recruit local staff to assist with the maintenance of our IT systems as required.

Sierra Leone

Mr. Berçow: To ask the Secretary of State for International Development what recent assessment he has made of the security situation in Sierra Leone and its impact on the provision of humanitarian aid. [148089]

Hilary Benn: Security is well-established across Sierra Leone. The whole country is under Government control, with the support of UNAMSIL. The Government's security agencies are developing their capacity in preparation for the withdrawal of UNAMSIL at the end of the year. The UK is providing extensive support to this process. The Government are currently carrying out a security sector review to put in place measures to guard against threats in the future, both internal and external. We plan to review our support to the security sector when the report of the Government's review is available, and will make modifications to our support as necessary, to assist with the maintenance of security beyond the departure of UNAMSIL.

There is no security restriction on humanitarian aid. Humanitarian agencies are able to operate in all parts of the country.

Somalia

John Barrett: To ask the Secretary of State for International Development if he will make a statement on the status of the drought affecting the north-western regions of Somalia; and what assessment he has made of the impact which the drought is having on levels of malnutrition in the region. [147826]

Hilary Benn: A succession of failed rains over the past four years has resulted in large-scale food insecurity among pastoral populations in the Sool and Sanaag regions of northern Somalia. The UN Food Security Assessment Unit (FSAU) surveyed the Sool plateau between 27 November and 5 December 2003, with preliminary results showing a global acute malnutrition rate of 18.9 per cent. and a severe acute malnutrition rate of 3.8 per cent. amongst children. Malnutrition rates among adult women (15 to 49 years) were 17.3 per cent., suggesting all household members are affected by the current drought. There is evidence of deterioration in the nutritional status of the population, confirmed by reports of collapsing social support system and a worsening drought after the failure of Deyr rains. Malnutrition rates appeared significantly higher among children from pastoral households than those in major villages. With no rains expected before April, further losses to livestock and other assets are expected.

Unfortunately the growing tension between Somaliland and Puntland, who both claim the drought-affected areas as their territory, could jeopardise assistance if the situation escalates into violent conflict.

Street Children

Mr. Bercow: To ask the Secretary of State for International Development how much money is being provided by his Department to tackle the problem of street children in Russia in 2003–04. [148121]

Mr. Gareth Thomas: In 2003–04 DFID is spending £164,500 to tackle the problem of street children in Russia, of which £89,000 is committed under the project "Supporting Vulnerable Children in Ekaterinburg and Sverdlovsk Oblast". The project purpose is to improve the quality of life for vulnerable children by providing family-focused, rather than institutional, care. The remaining £75,000 is committed under a number of small projects funded through the Health and Social Care Partnership Scheme. These projects include drug and alcohol awareness programmes for street children, activities to prevent homelessness and the development of foster care.

Mr. Bercow: To ask the Secretary of State for International Development how many street children there are in *(a)* Asia, *(b)* Africa, *(c)* Latin America, the Caribbean and the overseas territories and *(d)* the Middle East. [148129]

Hilary Benn: There are no internationally agreed definitions of street children and estimates of total numbers are unreliable and patchy. For all areas, numbers are therefore very difficult to assess.

For Asia I refer the hon.Member to the answer given by my hon.Friend for Harrow West on 15 January *Official Report* column 831W.

In Africa street children form a proportion of the 300 million people that live in extreme poverty (on less than $1 per day, figure relates to 1999). Across Africa we know that some 50 million girls and boys are out of school (UNESCO). Some of these will be street children.

In Latin America street children again form a proportion of the 135 million people that live in poverty (on less than $2 per day). There are some 2 million children out of school at primary level and some of these will be street children.

As far as DFID is aware there are no street children in the British Overseas Territories. There is no comprehensive date available for numbers of street children in the Caribbean.

The numbers of street children in the Middle East region as a whole is difficult to assess although UNICEF estimate that there are in excess of 1 million street children in Cairo alone. Where children are particularly vulnerable, for instance Iraq, UNICEF is undertaking research that will assist the government and international donor community efforts to meet their needs.

Sub-Saharan Africa

Mr. Bercow: To ask the Secretary of State for International Development what estimate he has made of the breakdown between public sector finance and private sector finance towards the costs of delivering the millennium development goals in sub-Saharan Africa. [148113]

Hilary Benn: Several estimates of costs of reaching the millennium development goals (MDGs) have been made using differing methodologies and assumptions about developments over the next decade. Uncertainties include how rapidly the policies of African countries might improve, how rapidly countries which have been in conflict emerge from it, how severe the longer term impacts of HIV/AIDS will be, and what impact shocks such as droughts might have.

Improved policies can make a big difference to the costs of achieving improvements in social indicators, but undoubtedly much more money is needed to achieve the MDGs. Both public and private finance has a role to play. Public expenditure is needed to help fund social services such as health and education, and the money for this can come from domestic taxes as well as from external aid. How much domestic revenue is generated depends on how fast the economy grows as well as on the tax system. Private investment, domestic and foreign, can help finance social services too, but also has the potential to accelerate economic growth.

More analysis has been done on how much extra foreign aid will be needed for the MDGs in sub-Saharan Africa than on how much extra private sector money would be necessary. The aid estimates suggest that two or three times the current total annual inflows of $13 billion might be needed. The scale of this challenge suggests that we need to focus on four things. First, we should encourage African countries to develop sound policies for reducing poverty and the capacity to implement them, while continuing to follow prudent macroeconomic policies and to improve the environment they create for private investors. This will enhance their capacity to use aid effectively at the same time as raising their economic growth potential. Second, we should promote higher inflows of aid to countries with such policies. Third, we should seek to improve the quality of aid, in terms of its predictability and flexibility, for instance by directly funding national budgets. Fourth, we should work to make international trade and finance systems more supportive of economic growth and poverty reduction in low income countries.

Sudan

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the level of political stability in Sudan. [148091]

Mr. Mullin: I have been asked to reply.

Good progress continues to be made at the peace talks in Naivasha, Kenya. Both parties have now described the peace process as irreversible and they are hoping to conclude a framework agreement very soon. Although problems persist in some areas, and we continue to be very concerned about the situation in Darfur, there is, at last, a real chance for peace and stability in Sudan.

World Poverty

Mr. Bercow: To ask the Secretary of State for International Development what estimate he has made of the number of people in the world living on *(a)* less than one dollar a day, *(b)* between one and two dollars a day and *(c)* between two and five dollars a day. [148114]

Hilary Benn: DFID does not produce its own estimates of the number of people living in poverty. This is a complex and resource intensive task. We use estimates produced by the World Bank. The latest estimates are that in 2000 there were 1.1 billion people in the world living on less than a dollar a day and a further 1.6 billion people living on between one and two dollars a day. A figure is not given for the number living on between two and five dollars a day.

More information on the analysis, including regional breakdowns, is in Chapter 1 of the World Bank's Global Economic Prospects 2004. This is available at: http://www.worldbank.org/prospects/gep2004/toc.htm

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development when he last met representatives of opposition parties in Zimbabwe; and when he next expects to meet representatives. [147344]

Hilary Benn: Since my appointment, I have not had any formal meetings with members of Zimbabwean opposition parties. Although I did have a brief conversation with the Secretary General of the MDC during his visit in November 2003. The Foreign and Commonwealth Secretary and other FCO Ministers have had regular contacts with the Movement for Democratic Change, most recently during the visit to the UK of the Secretary General of the MDC. DFID officials also have occasional contact with representatives of Zimbabwean political parties.

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with Amnesty International about *(a)* the level and *(b)* the nature of human rights abuses in Zimbabwe. [148127]

Hilary Benn: The British Embassy in Harare is in regular contact with a number of human rights organisations operating there who are monitoring the situation on the ground. Embassy officials in Harare and in London regularly receive reporting from Amnesty International about the level and nature of human rights abuses in Zimbabwe, but have not met Amnesty recently to discuss Zimbabwe.

EDUCATION AND SKILLS

Art Acquisition

Norman Baker: To ask the Secretary of State for Education and Skills how much his Department has spent on the acquisition of works of art in each year since 1997, broken down by amounts spent on *(a)* paintings and *(b)* sculpture; what the single most expensive piece of art purchased by his Department since 1997 has been; how much it cost; and what the total revenue raised by his Department through sales of works of art has been since 1997. [142361]

Mr. Stephen Twigg: My Department has not purchased nor sold any works of art during the period since 1997.

Children's Rights

Lembit Öpik: To ask the Secretary of State for Education and Skills by when the Government are due to report to the Committee on the Convention on the Rights of the Child on what the UK is doing to fulfil the Optional Protocol on the Sale of Children, Child Prostitution and Child Pornography; whether the Government have submitted this report; when this report will be made publicly available; and if he will make a statement. [147445]

Mr. Rammell: I have been asked to reply.

The UK has not yet ratified this Optional Protocol, so is not required to report on it. However, we do intend to ratify at the earliest opportunity. The UK will then be required to submit a report to the Committee within two years of the ratification coming into force, in accordance with article 12 of the Optional Protocol.

IT Contracts

Mr. Sayeed: To ask the Secretary of State for Education and Skills if he will list information technology contracts in his Department and its predecessors with a value of above £20 million in each of the last 10 years; what the inception date for each system was; when it became fully functional; when it became fully debugged; and what the cost of over-runs has been. [146191]

Mr. Stephen Twigg: Neither the Department for Education and Skills nor its predecessors have let an information technology system contract in the last 10 years with a value above 20 million euros. A number of contracts for services have been let with a value above 20 million euros in that period and some of those contracts have included information technology elements as an integral part of the delivery arrangements. In no case has the implementation date of those contracted services been delayed by information technology problems, and consequently no costs have been incurred as a result of system development or de-bugging over-runs.

Jigsaw Research (Correspondence)

Mr. Flight: To ask the Secretary of State for Education and Skills how much his Department has spent on the recent research conducted by Jigsaw Research into what customers think of the quality of the Department's replies to letters. [147413]

Mr. Stephen Twigg *[holding answer 14 January 2004]*: The Department's Strategic Framework Delivering Results-A Strategy to 2006, sets out a commitment to deliver prompt, responsive and consistently excellent services to our customers. The Department receives over 200,000 phone calls, letters and emails from the public every year. The recent research conducted by Jigsaw Research cost £18,000 and is our way of measuring the service we provide and identifying areas for improvement in our responses to letters, telephone calls and emails.

Office for Fair Access

Mr. Willis: To ask the Secretary of State for Education and Skills if he will propose an amendment to the Higher Education Bill to require the annual report produced by the Director of Fair Access to be accompanied by an annual debate on the floor of the House; and if he will make a statement. [148262]

Alan Johnson *[holding answer 15 January 2004]*: We have no plans to make such an amendment. Members of Parliament are always free to seek debates in the House. We have also said that we will establish an independent review, working with the Director for Fair Access to report to this House, based upon the first three years of variable fees, and I am sure there will be an opportunity to debate that report.

Mr. Willis: To ask the Secretary of State for Education and Skills how the Director for Fair Access will safeguard fair access to higher education if top-up fees are introduced; and if he will make a statement. [148263]

Alan Johnson *[holding answer 15 January 2004]*: From 2006, no institution will be able to charge higher fees without having an Access Plan approved by the Director of Fair Access. This will include details of the action they will take to safeguard access, including offering financial support (including bursaries) and running outreach activities. The Director of Fair Access will also have the responsibility for renewing and monitoring reports on the implementation of Access Plans.

Mr. Rendel: To ask the Secretary of State for Education and Skills what information must be contained in the plan that a higher education institution must provide to the Director of Fair Access in order to increase fees above the basic rate; and if he will make a statement. [148264]

Alan Johnson *[holding answer 15 January 2004]*: An access plan must include the levels of fee the institution wishes to charge for its courses. We also intend, through

regulations, that an institution should include in its access plan details of the financial assistance (including bursaries) they will offer; how it will attract applications through outreach activities; how it will inform prospective students about financial assistance available to them; and set out its own objectives in widening participation. Institutions will also need to set out how they will monitor their compliance with the plan and progress against their objectives.

Mr. Rendel: To ask the Secretary of State for Education and Skills if he will break down the planned expenditure for the proposed Office for Fair Access by *(a)* salaries and staff, *(b)* office, *(c)* personal expenses and *(d)* other costs; and if he will make a statement. [148266]

Alan Johnson *[holding answer on 15 January 2004]:* We have said in the Regulatory Impact Assessment which we published alongside the Higher Education Bill that OFFA's costs will average around £500,000 per year. We will provide further detail in due course.

Mr. Yeo: To ask the Secretary of State for Education and Skills whether the Office for Fair Access will continue the system of fining universities that do not meet their benchmarks for participation from under-represented social groups. [148569]

Alan Johnson: There is no current system of fining institutions because they do not meet their benchmarks and neither will OFFA do so.

Mr. Yeo: To ask the Secretary of State for Education and Skills (1) whether he intends to set a cap on the level of specified financial requirements that the Higher Education Funding Council for England can impose on universities breaking the terms of their access agreements; [148571]

(2) what notice the Director of Fair Access must give to universities under the provisions of section 35 (1)*(b)* of the Higher Education Bill; [148572]

(3) what estimate he has made of the average length of time that an access agreement between the Director of Fair Access and each individual university will last. [148570]

Alan Johnson: We intend to publish our draft regulations during the passage of the HE Bill which will provide information about access plans, and how the Director of Fair Access will operate.

Sign Bilingualism

Jon Trickett: To ask the Secretary of State for Education and Skills what steps his Department is taking to secure universal access for deaf children to Sign Bilingualism; and if he will make a statement. [147450]

Mr. Miliband: Last March the Government issued a position statement recognising British Sign Language (BSL) as a language in its own right and announcing that it would make available £1 million for a discrete programme of initiatives to support the statement. A working group comprising key Government Departments and organisations for deaf people has been established to advise on priorities for allocating the funding. Tenders are currently being sought for work which will contribute to establishing a Great Britain wide framework to support the recruitment, training and deployment of BSL tutors and for work which will promote access for BSL users through awareness-raising amongst employers, service providers and in the wider community. The working group will also be considering strategies and policies which overtime will further increase access to BSL and will be making recommendations to Ministers in the autumn.

Parents of deaf pupils who have statements of special educational needs, are able to express a preference for the maintained school they would like their child to attend, and can also make representations for a place at an independent or non-maintained special schools. Before expressing a preference they are able to consider communication approaches offered by different schools—auditory-oral, total communication or sign bilingualism.

Sixth-form Budgets

Mr. Flight: To ask the Secretary of State for Education and Skills what the budget for the teaching of A-Levels and equivalent academic courses in sixth-form colleges was in each year since 1996–97; and what the budget is for 2005–06. [147414]

Alan Johnson *[holding answer 14 January 2004]:* The Department allocates funds to the Learning and Skills Council for the provision of A-Levels and equivalent academic courses in the post-16 learning and skills sector. The Department does not provide a specific budget to the LSC for sixth-form colleges. It is for the Learning and Skills Council to determine for itself the right level of investment in sixth-form colleges from the funds allocated to it for learning participation. Mark Haysom the Council's Chief Executive will to write to the hon. Gentleman providing details of the funds allocated to sixth-form colleges from 1996–97 to 2003–04, and provisional allocations to sixth form colleges from 2004–05 to 2005–06. A copy of his letter will be placed in the House Library.

Student Complaints Office

Mr. Yeo: To ask the Secretary of State for Education and Skills (1) what estimates he has made of the cost of providing *(a)* maintenance loans and *(b)* fee loans in each of the next 10 years assuming (i) current student numbers and (ii) expected growth in student numbers; [148564]

(2) how much annual Government spending on student loans will change in each of the next 10 years from the amount set out in the Higher Education Bill. [148566]

Alan Johnson: Information on the costs and benefits associated with the proposal in the Higher Education Bill to allow universities to set their own tuition fees is contained in the Regulatory Impact Assessment published on 8 January alongside the Bill. Because of the nature of a variable scheme, the costs vary greatly according to the decisions that both students and higher education institutions take, and they cannot be estimated precisely at this stage. Copies

of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Mr. Cousins: To ask the Secretary of State for Education and Skills what the size of the total student loan debt was in each year since 1999; what the size of the increases in *(a)* loans taken out and *(b)* repayments of principal were in each year; what the increases from interest additions were in each year; and what the Government contribution to the student loan scheme was in each year. [147417]

Alan Johnson *[holding answer 15 January 2004]*: The Secretary of State for Education and Skills has responsibilities for student loanspaid to higher education students domiciled in England and Wales, and this information is therefore provided on an England and Wales basis.

The table shows the student loans issued, repaid, the interest added and the amount outstanding at the end of the year for financial years 1999–2000 to 2001–02, and the change between each financial year.

£ million

England and Wales

	Financial year				
	1999–2000	*Change*	*2000–01*	*Change*	*2001–2002*
Lent	1,281.7	618.1	1,899.8	217.9	2,117.7
Repaid[1]	111.4	47.1	158.5	80.6	239.1
Interest added	69.4	32.1	101.5	44.1	145.6
Amount outstanding at the end of the financial year	3,413.8	1,889.3	5,303.1	1,900.1	7,203.2

[1] Amounts repaid cannot be split between repayments of principal and interest.

The resource accounting and budgeting (RAB) costs to the Treasury for loans to students domiciled in England and Wales are shown in the table:

Full details of student loans movements for England and Wales are included in the DfES resource accounts.

£ million

Resource Accounting and Budgeting costs *Financial year*	*Movement on Provisions*
1999–2000	558.9
2000–01	794.6
2001–02	855.9

Full details of student loans movemednts for England and Wales are included in the DfES resource accounts.

No figures have yet been published for 2002–03. Information for that year will be contained in the 2002–03 resource accounts which will be published within the next month.

Mr. Yeo: To ask the Secretary of State for Education and Skills when he expects universities to take on responsibility for the funding of the new student complaints office. [148565]

Alan Johnson: We anticipate that universities and other higher education sector institutions will be required, subject to parliamentary approval of the Higher Education Bill and designation of the Office of the Independent Adjudicator for Higher Education (OIA), to fund the OIA from March 2005.

Teacher Training

Mr. Willis: To ask the Secretary of State for Education and Skills (1) how many bursaries for primary teacher training posts are to be funded from the Sure Start programme in 2004–05; [148167]

(2) how many of the additional initial teacher training places for primary teaching in 2004–05 will be eligible to receive bursaries; [148168]

(3) what plans he has to guarantee teaching posts to undergraduates who have received bursaries funded through the Sure Start programme. [148169]

Mr. Miliband: I announced last month that a minimum of 400 initial teacher training places would be made available in the 2004/05 academic year for trainees with an early years specialism. These are all places on Postgraduate Certificate in Education courses and will therefore in principle attract £6,000 training bursaries. An additional £2 million will be made available to the Teacher Training Agency to cover the costs of the additional places that will fall in the 2004–05 financial year. In view of the growing demand for trained teachers in early years settings, there is every reason to expect that suitable employment opportunities will be available for the trainees who are being recruited to fill these places.

Top-up Fees

Mr. George Howarth: To ask the Secretary of State for Education and Skills what estimate he has made of the amount of funding that will be raised for higher education in *(a)* 2006 and *(b)* each year to 2020 under (i) the present arrangements and (ii) his proposals on top-up fees. [148709]

Alan Johnson: The latest available estimates for fee income under the existing arrangements are for 2003/04: the total income from the standard fee of £1,125 is estimated at £847 million. Information on the additional income from variables fees is contained in the Regulatory Impact Assessment published on 8 January alongside the HE Bill. Because of the nature of a variable scheme, the extra income from fees will vary according to the decisions that higher education institutions take on the level of fee, both when variable

fees are introduced, and as universities' fee policies evolve in subsequent years. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

University Bursaries

Mr. Yeo: To ask the Secretary of State for Education and Skills what estimate he has made of the average bursary that universities charging the full £3,000 will pass on to students from poorer backgrounds; and how many students he estimates will receive this bursary. [148567]

Alan Johnson: As a minimum, the Government want to ensure that no student who qualifies for the maximum state support (around 30 per cent. of students) has to take out additional debt as a result of higher fees. For a student on a £3,000 course, this means a minimum bursary/financial support of at least £300. But, as we have made clear the Director will expect more than the minimum from those institutions that do not have a strong record in access. For example, Cambridge University have announced that they will offer bursaries of £4,000 a year for the poorest students. Therefore we expect the average bursary will be more than £300 and more than 30 per cent. of students will benefit.

Mr. Yeo: To ask the Secretary of State for Education and Skills what powers the Office of Fair Access will have in the setting of bursary amounts in respect of universities that do not have strong records in recruiting students from poorer backgrounds. [148568]

Alan Johnson: From 2006, no institution will be able to charge higher fees without having an access plan which will include details of the action they will take to safeguard access, including offering financial support (including bursaries) and running outreach activities. The Director of Fair Access will scrutinise the access plans and refuse to approve any which are not satisfactory.

University Fees

Mr. Yeo: To ask the Secretary of State for Education and Skills (1) what total revenue he expects to be raised assuming *(a)* 10 per cent., *(b)* 20 per cent., *(c)* 30 per cent., *(d)* 40 per cent., *(e)* 50 per cent., *(f)* 60 per cent., *(g)* 70 per cent., *(h)* 80 per cent., *(i)* 90 per cent. and *(j)* 100 per cent. of universities charge the full £3,000 fee, with the remainder of universities charging the standard fee of £1,200; [148573]

(2) what total revenue he expects to be raised assuming *(a)* 10 per cent., *(b)* 20 per cent., *(c)* 30 per cent., *(d)* 40 per cent., *(e)* 50 per cent., *(f)* 60 per cent., *(g)* 70 per cent., *(h)* 80 per cent., *(i)* 90 per cent. and *(j)* 100 per cent. of universities charge the full £3,000 fee, with the remainder of universities charging the standard fee of £1,200 less the total amount spent on bursaries. [148574]

Alan Johnson: Information on the additional income from fees in different scenarios is contained in the Regulatory Impact Assessment published on 8 January alongside the HE Bill. Because of the nature of a variable scheme, the extra income from fees will vary according to the decisions that higher education institutions take on the level of fee. Figures for extra fee income, with and without the amount spent on bursaries, cannot therefore be estimated precisely at this stage. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Bush Administration regarding the role of the United Nations in Iraq. [148099]

Mr. Rammell: We are in regular contact with the US Administration on all aspects of the situation in Iraq, including the role of the United Nations. As my right hon. Friend the Prime Minister and President Bush have repeatedly affirmed, we support the UN's vital role in Iraq, in accordance with the mandate set out in relevant Security Council resolutions. The future role of the UN will be discussed at a meeting between the UN Secretary-General, the Iraqi Governing Council and the Coalition Provisional Authority today.

Mr. Challen: To ask the Secretary of State for Foreign and Commonwealth Affairs which British companies have won contracts to assist in the reconstruction of Iraq, broken down by type of service or project provided. [146960]

Mr. Mike O'Brien: We wish to see UK companies play a substantial role in the reconstruction process in Iraq. Several UK companies have won contracts to assist in that process but have asked us not to publicise their success because of commercial confidentiality. Furthermore, UK companies are not required to report such details to the Government. Therefore, we are unable to provide the information requested. However, UK firms are active in the power, water, banking, ports, construction, telecoms, security, legal services and consultancy services.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British technical experts are deployed *(a)* with the Iraqi Survey Group and *(b)* for the disarmament of Libya's weapons of mass destruction; and what the cost to date has been in conducting each mission. [147026]

Mr. MacShane: There are currently 55 British personnel (both civilian and military) deployed with the Iraq Survey Group. The costs to the United Kingdom of their mission are not recorded separately in a readily accessible form and cannot, therefore, be differentiated from the total cost of personnel deployed to the Gulf region as a whole. We do not have figures relating to costs incurred on support for the Iraq Survey Group by other Coalition Partners.

There are no British personnel currently deployed to Libya to assist with the disarmament of Libya's weapons of mass destruction.

Poland

Ann Winterton: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will estimate the number of people expected to travel from Poland to reside and work in the United Kingdom following Poland's accession to the European Union on 1 May. [147703]

Mr. MacShane: Research conducted for the Home Office by University College London (published in June 2003) estimates that the numbers of people who will migrate to the UK from the new Member States in the years following enlargement will not be significant. The University College London report is available on the Home Office website: www.homeoffice.gov.uk/rds/pdfs2/rdsolr2503.pdf. The research was not broken down by country.

Visas

Mr. Crausby: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was in each of the last five years of the visa sections of *(a)* embassies and *(b)* high commissions and consuls, including the cost of entry clearance officers. [147787]

Mr. Mullin: Total global costs of running UKvisas operations for the years 1998–99, 1999–2000, 2000–01 and 2001–02 are published in the annual Foreign and Commonwealth Office Department Report, available in the Library of the House and on the Foreign and Commonwealth Office website: www.fco.gov.uk. The latest published figure is £81.386 million for 2001–02. To break down the information further as requested by my hon. Friend could be provided only at disproportionate cost.

Angola

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of human rights abuses in the Cabinda province of Angola; and if he will make a statement. [147792]

Mr. Mullin: We remain concerned about reports of human rights violations in Cabinda. We hope that a speedy and negotiated settlement to the Cabinda question can be found. Our embassy in Luanda is monitoring the situation closely in consultation with EU partners.

Bilateral Treaties (United States)

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs how many bilateral treaties have been signed since 1 May 1997 between the UK and the United States, giving in each case *(a)* the date of signature, *(b)* the title and *(c)* information on whether the treaty is available for public inspection. [148867]

Mr. Straw: 14 bilateral treaties have been signed with the Government of the United States of America since 1 May 1997. Of these, 11 have so far been published, with the remaining three expected in due course. International treaties to which the UK is a party are published as Command Papers as soon as possible after they are concluded, and are widely available through The Stationery Office (TSO). All Treaty Command Papers published since March 2002, and their accompanying Explanatory Memoranda, have also been placed on the internet and may be accessed via: www.fco.gov.uk/treaty

The relevant bilateral treaties are:

(1) Exchange of Notes between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America concerning the establishment on Ascension Island of an Additional Facility to be operated on Behalf of the United States Air Force.

Signed 15 July 1997 and 22 July 1997.

Published as a Command Paper in the Treaty Series as No. 049/1997: Cm 3739.

(2) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America concerning Maritime and Aerial Operations to Suppress Illicit Trafficking by Sea in Waters of the Caribbean and Bermuda with Exchange of Notes.

Signed 13 July 1998.

Published as a Command Paper in the Treaty Series as No. 002/2001: Cm 5031.

(3) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland on behalf of the Turks and Caicos Islands and the Government of the United States of America relating to investment incentives.

Signed on 20 April 1999.

Published as a Command Paper in the Treaty Series as No. 041/1999: Cm 4395.

(4) Exchange of Notes between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America concerning the construction of a Monitoring Facility on Diego Garcia, British Indian Ocean Territory (British Indian Ocean Territory 1999).

Signed on 18 June 1999 and 21 July 1999.

Published as a Command Paper in the Treaty Series as No. 001/2000: Cm 4582.

(5) Exchange of Notes between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America amending the Treaty on Mutual Legal Assistance in Criminal Matters done at Washington on 6 January 1994.

Signed on 30 April 2001 and 1 May 2001.

Published as a Command Paper in the Treaty Series as No. 008/2002: Cm 5375.

(6) Convention between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and on Capital Gains.

Signed on 24 July 2001.

Published as a Command Paper in the Treaty Series as No. 023/2003: Cm 5880.

(7) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland, including the Government of the Cayman Islands, and the Government of the United States of America for the Exchange of Information relating to Taxes.

Signed on 27 November 2001.

Not yet published.

(8) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland, including the

Government of the British Virgin Islands, and the Government of the United States of America for the Exchange of Information relating to Taxes.

Signed on 3 April 2002.

Not yet published.

(9) Exchange of Notes between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America amending the Agreement done at London on 27 March 1941, and related lease and other arrangements regarding the establishment, use, operation and defence of the United States bases on Bermuda.

Signed on 18 June 2002.

Published as a Command Paper in the Treaty Series as No. 049/2002: Cm 5683.

(10) Protocol amending the Convention between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America for the avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and capital Gains, signed at London on 24 July 2001.

Signed on 19 July 2002.

Published as a Command Paper in the Treaty Series as No. 023/2003: Cm 5880.

(11) Extradition Treaty between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America.

Signed on 31 March 2003.

Published as a Command Paper in the Country Series as United States No. 001/2003: Cm 5821.

(12) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America regarding the sharing of Forfeited or Confiscated Assets or their Equivalent Funds.

Signed on 31 March 2003.

Published as a Command Paper in the Treaty Series as No. 034/2003: Cm 5946.

(13) Exchange of Notes between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America to extend the Treaty on Mutual Legal Assistance in Criminal Matters signed at Washington on 6 January 1994 to the Isle of Man.

Signed on 2 June 2003 and 5 June 2003.

Not yet published.

(14) Agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America concerning the use of Wideawake Airfield on Ascension Island by Civil Aircraft not engaged in Scheduled International Air Services.

Signed on 1 October 2003.

Published as a Command Paper in the Treaty Series as No. 051/2003: Cm 6087.

Brazil

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Brazil about nuclear proliferation issues. [148466]

Mr. Rammell: We maintain a substantive and on-going dialogue with Brazil on the full range of nuclear proliferation issues at official level in London, Brasilia and at relevant international organisations and international fora. There has been no recent discussion at ministerial level on these themes.

Chechnya

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence his Department has of links between Chechens and *(a)* al-Qaeda, *(b)* Iraqi insurgents and *(c)* other practitioners of terrorism. [146686]

Mr. MacShane: Chechen extremists had close and long-established links to terrorists based in Afghanistan under the Taliban regime. Some foreign terrorists who trained in Afghanistan, and had ties with al-Qaeda, went on to fight in Chechnya. Some Chechens fought with the Taliban and al-Qaeda against the Northern Alliance, and subsequently against the Coalition. Chechen groups even set up an "Embassy" in Kabul in early 2001. Those involved are subject to UN sanctions under UN Security Council Resolution 1267. Under the same resolution, the leading Chechen rebel field commander Shamil Basayev was made subject to UN sanctions on 12 August 2003.We have no strong evidence of Chechen terrorists being in Iraq. Some networks that support Chechen terrorism, however, may also support extremists in Iraq. Chechen extremists have developed links with a wide range of other extremists, including some in Europe, in order to fund and support their campaign. Some extremists see the conflict in Chechnya as a 'jihad' which they have a duty to support.

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on recent progress towards finding a solution to the Cyprus problem.[R] [148259]

Mr. MacShane *[holding answer 15 January 2004]:* The formation of a new "government" under the leadership of the pro-settlement politician Mehmet Ali Talat in northern Cyprus is an encouraging development. So too was the statement last week by Turkey's Prime Minister Erdogan. I was impressed during my visit to Ankara last week at the new positive line from the Turkish Government in support of the Annan Plan. I stressed in talks with Turkish Foreign Minister Gul the need for Turkey to support and work for the speedy acceptance of the Annan Plan with a view to finding a settlement that would allow a united Cyprus to enter the EU on 1 May this year. It is in the interest of all with a stake in Cyprus to work for a settlement by 1 May.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he plans to make to *(a)* the new government in northern Cyprus and *(b)* Turkey over the need for a census to be conducted in northern Cyprus; and if he will make a statement.[R] [148260]

Mr. MacShane *[holding answer 15 January 2004]:* We believe that the UNSG's proposals (the Annan Plan) satisfactorily take into account the issues underlying calls for a census. It is difficult to see the useful purpose that a census at the present time would serve, nor how the necessary delay in organising it would advance matters. I was impressed in talks with the Turkish

Government in Ankara last week at the new positive approach to finding a solution based on the Annan proposals.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the outcome of the elections in northern Cyprus; and if he will make a statement.[R] [148261]

Mr. MacShane *[holding answer 15 January 2004]:* I welcome the fact that a coalition "government" has now formed in northern Cyprus and that the coalition's stated aim is to work for a settlement to the Cyprus problem on the basis of the Annan Plan by 1 May. That is what the majority of the Turkish Cypriot population voted for on 14 December 2003. We continue to believe that the UN Secretary General's proposals offer the only realistic basis for a just, comprehensive and lasting settlement. All sides must now commit to resume substantive settlement negotiations on the basis of these proposals as soon as possible, in line with the requirements set down by the UN Secretary General in his report of 1 April 2003.

Euro

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs in how many speeches during 2003 he declared support for the Government's policy on the euro. [147301]

Mr. MacShane: My right hon. Friend the Foreign Secretary has made clear the Government's position on EMU on many occasions in 2003. These included a speech on 23 October 2003 to the Chester/Ellesmere/North Wales Chamber of Commerce, which I am sending to my hon. Friend. In addition to published texts, the Foreign Secretary frequently answers questions on this issue during the course of all kinds of public discussions.

Germany

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason extra security has been put in place around the British Embassy in Berlin; when it was put in place; what the total cost of these measures has been since they were implemented; and who is meeting the cost of this extra security. [147682]

Mr. Rammell: Immediately after the attack on the British Consulate-General in Istanbul, all diplomatic missions were instructed to review their security urgently and, where appropriate, implement security enhancements. In addition, those missions with a high level of threat or vulnerability sought additional protection from the host government.

The Foreign and Commonwealth Office (FCO) cannot disclose, under Exemption 1 *(a)* and 4 *(e)* of Part 2 of the Code of Practice on Access to Government Information the specific security measures in place at the British Embassy in Berlin but such costs would normally be met from FCO budgets.

Hong Kong

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Hong Kong. [148229]

Mr. Rammell: We continue to follow developments in Hong Kong closely, in line with our responsibilities as a co-signatory to the 1984 Sino-British Joint Declaration on Hong Kong. My right hon. Friend the Foreign Secretary continues to report regularly to Parliament on the implementation of the Joint Declaration. The last such report (Cmnd 5864) was issued in July 2003 and is available in the Library of the House. We continue to assess that, generally, the "One Country, Two Systems" policy enshrined in the Joint Declaration is working well in practice.

The main political issue in Hong Kong is currently constitutional reform. The Basic Law of the Hong Kong Special Administrative Region (SAR) contains provisions on constitutional development, with the ultimate aims being the selection of the Chief Executive and election of all members of the Legislative Council by universal suffrage. On 1 January up to 100,000 people participated in a march to call for greater democracy in Hong Kong.

On 7 January the Chief Executive announced the setting up of a Task Force, headed by the Chief Secretary for Administration, to examine the Basic Law's provisions on constitutional reform and to consult the Chinese Central People's Government on these issues. On 14 January the Chief Secretary issued a paper setting out the Work Plan of the Task Force. This makes clear that the Task Force will be carrying forward discussions with the Hong Kong people while consulting the Central People's Government on issues pertaining to the Basic Law.

When I was in Hong Kong in December I reiterated our position on this issue, that we hope to see early progress towards the Basic Law's ultimate aim of universal suffrage, at a pace in step with the wishes of the people of Hong Kong.

Imad Hage

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received during the last 12 months from Mr. Imad Hage. [145209]

Mr. MacShane: We have no record of any official representations from Mr. Imad Hage to the Foreign Secretary during the last 12 months.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings *(a)* officials and *(b)* Ministers in his Department have held during 2003 with Mr. Imad Hage. [145215]

Mr. MacShane: We have no record of any official meetings between officials or Ministers of the Foreign and Commonwealth Office and Mr. Imad Hage.

Israel

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli authorities in advance of the court hearing scheduled for 7 January, concerning the proposed demolition of the peace centre called Beit Arabiya in the West Bank village of Anata. [146561]

Mr. MacShane: None.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of *(a)* settlement buildings, *(b)* movement restrictions on Palestinians, *(c)* planning regulations, *(d)* rules of residence and *(e)* construction of the separation wall on the extent to which Israel is fulfilling its responsibilities towards the character and status of Jerusalem under UN Security Council Resolutions 242, 267, 476 and 478; and what representations he is making on the issue. [146566]

Mr. MacShane: The Government have repeatedly said that neither side should take unilateral action that could prejudge the status of Jersualem. We regard the status of Jerusalem as still to be determined in permanent status negotiations between the parties. Pending agreement, we recognise de facto Israeli authority over West Jerusalem but consider East Jerusalem to be occupied territory. We recognise no sovereignty over the city.

We consider the building of settlements on occupied land to be unlawful. We have regularly called on Israel to fulfil its roadmap commitment to freeze all settlement activity (including natural growth of settlements) and to dismantle outposts erected since March 2001. We have also urged Israel to improve the humanitarian situation by lifting curfews and easing restrictions on movement of persons and goods.

We understand Israel's need to take steps, within international law, to protect itself from terrorist attack. But we have made clear that we regard the route of the wall that Israel is building on occupied Palestinian land as unlawful. The decision to declare the land between the fence and the Green Line a "closed zone" and require those Palestinians who live on or farm it to apply for a permit to access their land is a matter of particular concern.

My right hon. Friends the Prime Minister and the Foreign Secretary have raised these issues with the Israeli Prime Minister and Foreign Minister on a number of occasions. My noble Friend the Baroness Symons of Vernham Dean has also raised these issues with the Israeli Government in Tel Aviv and with the Israeli Ambassador in London. Foreign and Commonwealth Office officials have also made representations to the Israeli Ambassador, most recently on 10 December 2003.

Management Consultants

Mr. Flight: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to his Department of using management consultants has been in each of the last five years. [148023]

Mr. Rammell: Expenditure on external consultants in general is reported annually in the Foreign and Commonwealth Office's (FCO) Departmental Report, available in the Library of the House and on the FCO's website: www.fco.gov.uk. Expenditure specifically on management consultants is not categorised separately and could be established only at disproportionate cost.

Expenditure on external consultants for the last five years has been:

	£ million
1997–98	15.8
1998–99	14.5
1999–2000	14
2000–01	17.9
2001–02	20.1

Expenditure for 2002–03 is not yet available, but will be included in the next Departmental Report due to be published in spring 2004.

The vast majority of our expenditure on external consultants is associated with our major Information Communications Technology (ICT) and Estate Construction programmes. Consultants also advise on legal, financial and personnel issues and provide support in areas where we have skills shortages. Increasing expenditure over recent years is largely associated with the growth of our ICT programme which is being used to support change in the organisation.

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147585]

Mr. Rammell: Foreign and Commonwealth Office (FCO) purchasing policy follows the Government's Public Purchasing Consolidated Guidelines which require the procurement of goods and services to be based on value for money and that they should be acquired by competition unless there are compelling reasons to the contrary.

In the UK the FCO has not agreed any contracts for the provision of IT or call centre services operated outside this country, nor are there any plans to do so.

Saudi Arabia

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department has received from Saudi Arabian officials concerning plans to attack British Airways flights *(a)* over Saudi Arabia and *(b)* with light aircraft registered in that country; and if he will make a statement. [148433]

Mr. Straw: We liaise closely with the Saudi Government on security issues, including those relating to aviation security. Information received in confidence from the Saudi Government is exempt from disclosure under Exemption 1*(c)* of Part 2 of the Code of Practice on Access to Government Information. We do not disclose the details of exchanges on security issues, as it is the longstanding practice of successive Governments not to comment on intelligence and security matters.

The security and intelligence agencies are outside the scope of the Code of Practice on Access to Government Information (Paragraph 6, Part 1).

Sudan

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence has been collated by his Department on whether the Eritrean authorities are arming Sudanese rebels in the Darfur region; and if he will make a statement. [147774]

Mr. Mullin: We are aware of accusations made by the Government of Sudan of Eritrean involvement in the conflict in Darfur, and are in contact with both governments on this matter.

We hope that peace in Sudan will help bring stability and prosperity to the entire Greater Horn region, and are encouraging both sides to work to improve relations.

Sunset Clauses

Mr. Connarty: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made on the need for sunset clauses on legislative proposals brought forward by the European Commission. [147918]

Mr. MacShane: The Government believe that review clauses and sunsetting should be included in European legislation where appropriate. The Cabinet Office Guide to Regulatory Impact Assessment asks those officials negotiating a Directive to consider getting a commitment to review in the text of the Directive itself, if it is not feasible or appropriate to have sunsetting. The Cabinet Office Guide to Regulatory Impact Assessment is available on the Cabinet Office website: www.cabinet-office.gov.uk/regulation/scrutiny/ria-guidance.

Taiwan

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of relations between the People's Republic of China and the Republic of China. [147526]

Mr. Rammell: The United Kingdom monitors cross-Straits relations closely.

We attach great importance to the avoidance of conflict. We take every appropriate opportunity to convey to the Chinese Government and, through informal channels, to the Taiwanese Authorities our strong opposition to the use of force or to any action that raises cross-straits tensions.

United Nations

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions since 1975 when the vote cast by the United Kingdom has been diametrically opposed to that of the United States in the UN Security Council; and what percentage of votes this represents. [147399]

Mr. Rammell: The UK has made a positive vote in the Security Council when the US has voted negatively on the following 28 occasions since 1975:

11 August 1975: Application for membership for Republic of South Vietnam

11 August 1975: Application for membership for Democratic Republic of Vietnam

30 Sept 1975: Application for membership for Republic of South Vietnam

30 Sept 1975: Application for membership for Democratic Republic of Vietnam

8 Dec 1975: Situation in the Middle East

25 March 1976: Situation in occupied Arab territories

23 June 1976: Application for membership for Angola

15 Nov 1976: Application for membership for Socialist Republic of Vietnam

2 April 1982: Situation in occupied Arab territories

20 April 1982: Situation in occupied Arab territories

8 June 1982: Israeli invasion of Lebanon

26 June 1982: Israeli invasion of Lebanon

2 August 1983: Situation in occupied Arab territories

6 Sept 1984: Israeli occupation of Lebanon

30 Jan1986: Provocative acts in relation to Al Aqsa Mosque

1 Feb 1988: Situation in the occupied territories

15 April 1988: Situation in the occupied territories

10 May 1988: Israeli invasion of Southern Lebanon

14 Dec 1988: Israeli raid on Lebanon

17 Feb 1989: Situation in the occupied Arab territories

9 June 1989: Situation in the occupied Arab territories

7 Nov 1989: Situation in the occupied Arab territories

31 May 1990: Situation in the occupied Arab territories

17 May 1995: Situation in the occupied Arab territories

7 March 1997: Situation in the occupied Arab territories

21 March 1997: Situation in the occupied Arab territories

30 June 2002: Situation in Bosnia and Herzegovina

20 Dec 2002: Situation in the Middle East

There have been no occasions since 1975 when the US has voted positively on a resolution which the UK has voted against. The 28 votes listed above represent around 2.3 per cent. of the 1,238 votes on substantive resolutions which have either been adopted or vetoed since 1975. In the same period, there were 23 occasions in which the UK voted positively and the US abstained, and 21 occasions when the UK abstained and the US voted against. There have been no occasions since 1975 when the UK abstained and the US voted positively, or the UK voted against and the US abstained. Exact figures for the total number of votes (including those, for example, on procedural issues) which have taken place in the Security Council are not readily available.

USA (Visas)

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Administration about the introduction of visa charges for British citizens who visit the United States of America. [148154]

Mr. Mike O'Brien: There have been no recent changes to charges for US visas for British citizens. However, we are in close consultation with the US on the introduction of biometric travel documents, and how this will affect entry in to the United States for British passport holders after 26 October 2004.

Western Sudan

Mr. Dawson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what measures the Government are taking to re-establish and support the Chadian-led peace negotiations following the breakdown of peace talks on Darfur, Western Sudan; [148015]

(2) what steps the Government are taking to encourage the Government of Sudan to agree to *(a)* the presence of international observers at peace talks on the conflict in Darfur, Western Sudan and *(b)* the inclusion of the Justice Equality Movement and militias at the negotiations. [148016]

Mr. Mullin: We remain extremely concerned at the humanitarian situation in Darfur. We are in contact with all parties, including the Government of Sudan at senior level, to press for the re-establishment of a ceasefire, preferably with international monitoring, which would permit humanitarian access to those in need and lead to talks about how the problems of Darfur can best be addressed.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of South Africa regarding the political situation in Zimbabwe. [147338]

Mr. Mullin: My right hon. Friend the Prime Minister discussed Zimbabwe with President Mbeki at the Commonwealth Heads of Government Meeting in Abuja from 5 to 7 December 2003. We and our High Commissioner in South Africa are in regular dialogue with the South African Government on the issue.

HOME DEPARTMENT

Cannabis (Recategorisation)

16. **Simon Hughes:** To ask the Secretary of State for the Home Department what assessment he has made of the effects of the forthcoming recategorisation of cannabis in *(a)* London and *(b)* England; and if he will make a statement. [148341]

Caroline Flint: Cannabis is a harmful drug and it will remain illegal to produce, supply or possess it following reclassification as a Class C drug on 29 January. The presumption against using the power of arrest for simple cannabis possession offences committed by those aged 18 or over, following reclassification, will save police time and provide them with an opportunity to focus greater resources on priority areas like tackling Class A drug supply offences.

Fireworks Regulations (Enforcement)

17. **Ms Walley:** To ask the Secretary of State for the Home Department what guidance has been issued to police forces in respect of enforcement of new regulations to control fireworks. [148342]

Fiona Mactaggart: The Department for Trade and Industry regulations prohibiting the possession of fireworks, in public places, by those under the age of 18 and the possession of category 4 fireworks (professional display fireworks) by the general public have now come into force.

The Home Office will be writing to Chief Police Officers shortly with details of these new powers.

Anti-Social Behaviour Act

18. **Ross Cranston:** To ask the Secretary of State for the Home Department when the powers contained in the Anti-Social Behaviour Act 2003 on *(a)* graffiti and *(b)* fly-posting will be introduced. [148343]

Ms Blears: On 20 January we will be publishing a Guide to the Anti-social Behaviour Act 2003 which will give the dates when these measures will be commenced. The powers on graffiti will be commenced on 31 March 2004, those on fly posting on 20 January 2004.

Local Authority Finance (Police)

19. **Dr. Kumar:** To ask the Secretary of State for the Home Department if he will make a statement on increases in police precept by local authorities in 2004–05. [148344]

Ms Blears: Police authority precepts are a matter for each police authority. We expect all police authorities to assess their local needs carefully, taking into account local views on service and budget levels. We also expect authorities to exercise restraint in setting budgets and precepts as the current trend in council tax increases is unsustainable.

Police Budgets (East Anglia)

20. **Mr. Bellingham:** To ask the Secretary of State for the Home Department when he next expects to meet chief constables from East Anglia to discuss policing budgets for 2004–05. [148345]

Ms Blears: I have no current plans to meet chief constables from East Anglia. I have received written representations on the provisional grant funding settlement from Cambridgeshire, Norfolk and Suffolk. These will be fully taken into account in decisions on the final settlement.

The setting of budgets and precepts are matters for police authorities. We expect police authorities to ensure that their decisions will not place excessive burdens on the local council tax payer.

Child Trafficking

21. **Mrs. Ann Cryer:** To ask the Secretary of State for the Home Department when he will introduce legislation to combat the trafficking and sexual exploitation of children within the UK; and if he will make a statement. [148346]

Paul Goggins: The Sexual Offences Act 2003 includes offences which criminalise trafficking into, within and out of the country for the purpose of sexual exploitation. The offences carry a maximum penalty of 14 years' imprisonment. The Act also introduces a wider range of offences covering the sexual exploitation of children. The Asylum and Immigration Bill includes a new offence of trafficking for purposes other than sexual exploitation.

"Reducing Crime, Changing Lives"

22. **Mrs. Brooke:** To ask the Secretary of State for the Home Department whether the plans contained in the report "Reducing Crime, Changing Lives" will be the subject of parliamentary scrutiny. [148347]

Ms Blears: The chief executive of the National Offender Management Service will be accountable to Ministers for reducing re-offending and delivering other agreed outcomes from the new service. Ministers will of course remain accountable to parliament for the service. Some of the reforms proposed in Reducing Crime—Changing Lives are likely to require legislation to be passed by parliament.

Anti-terrorism, Crime and Security Act

Lady Hermon: To ask the Secretary of State for the Home Department how many people have been arrested through powers exercised under the Anti-terrorism, Crime and Security Act 2001; how long the detention lasted in each case; and if he will make a statement. [145076]

Mr. Blunkett: Individuals who are detained under Part 4 of the Anti-terrorism, Crime and Security Act 2001 (ATCS) are not arrested. They are detained under Immigration powers pursuant to a certificate issued under Part 4 of the ATCS Act 2001, pending their removal from the United Kingdom.

In terms of numbers, I refer the hon. Member to my Written Ministerial Statement of 18 November 2003, *Official Report*, column 27WS. No further certifications or detentions made since then.

Under the other 12 Parts of the ATCS Act, Home Office records show that there have been 24 convictions under Part 5 (Racial and Religious Hatred) of the Act. Arrest figures for Part 5 of the Act and figures for the length of time each individual is detained are not held centrally. In addition, six people have been arrested under Part 13 of the Act (Miscellaneous provisions including noxious substances; hoaxes involving noxious substances; failure to disclose information about acts of terrorism and terrorist training).

Asylum Appeals

Mr. Malins: To ask the Secretary of State for the Home Department when he expects to give a substantive reply to the question, reference 143845, concerning asylum and immigration cases heard in the Court of Appeal and the House of Lords, tabled by the hon. Member for Woking on 9 December 2003. [146843]

Beverley Hughes *[holding answer 12 January 2004]:* I replied to the hon. Member on 14 January 2004, *Official Report*, column 754.

Asylum Seekers

Mr. Chaytor: To ask the Secretary of State for the Home Department (1) how many failed asylum seekers were returned to the Democratic Republic of Congo in each of the last six years; and if he will make a statement; [144712]

(2) how many failed asylum seekers were returned to the Democratic Republic of the Congo in each of the last six years; and if he will make a statement; [144742]

(3) how many applicants for asylum there were from the Democratic Republic of Congo in each of the last six years; and how many and what percentage of applications were accepted. [145401]

Beverley Hughes: Estimates of the number of nationals of the Democratic Republic of Congo who had sought asylum at some stage and who were removed between January 1997 and June 2003 are shown in the table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, and persons leaving under Assisted Voluntary Returns Programmes run by the International Organisation for Migration.

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants): January 1997 to June 2003 [2,3,4]

Nationality	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*January to June 2003*
Democratic Republic of Congo	60	20	n/a	n/a	20	35	10

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five with * = 1 or 2.
[3] Data have been estimated due to data quality issues
[4] Provisional figures
n/a not available

Information on the destination of removals is not available.

Current advice from the Immigration and Nationality Directorate is that it is not safe to return nationals to the Democratic Republic of Congo other than to Kinshasa.

Annabelle Ewing: To ask the Secretary of State for the Home Department (1) how many and what proportion of asylum seekers in each country of the United Kingdom had achieved, prior to their entry into the UK, professional qualifications or their equivalent in *(a)* nursing, *(b)* medicine, *(c)* dentistry and *(d)* teaching in each year since 1997; [144818]

(2) how many and what proportion of asylum seekers in each country of the United Kingdom had gained prior to their entry into the UK *(a)* higher education qualifications or their equivalent, *(b)* professional qualifications or their equivalent and *(c)* secondary level qualifications or their equivalent in each year since 1997. [144817]

Beverley Hughes: Data on the qualifications which asylum seekers had obtained prior to entry are not recorded and collated centrally, and could therefore only be obtained from individual case files at disproportionate cost.

Information on asylum statistics is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Peter Duncan: To ask the Secretary of State for the Home Department what his policy is on detaining asylum seekers with children whose application for asylum has been denied. [145677]

Beverley Hughes: After an application for asylum has been refused a family with children may be detained if there is a considered risk of non-compliance with the conditions of temporary admission or release, or to effect removal.

Mr. Gale: To ask the Secretary of State for the Home Department when he will provide a substantive response to the question relating to funding due to Kent county council in respect of asylum seekers, ref 144468, tabled by the hon. Member for North Thanet on 12 December and transferred to his Department by the Treasury for named day answer on 16 December 2003. [146557]

Beverley Hughes *[holding answer 8 January 2004]:* I replied to the hon. Member on 15 January 2004.

Cleveland Local Criminal Justice Board Website

Vera Baird: To ask the Secretary of State for the Home Department by what date the Cleveland local criminal justice board website will contain some information. [146767]

Paul Goggins: The Cleveland Local Criminal Justice Boards website is currently under construction and will be populated with information by 23 January 2004.

Correspondence

Mr. Steen: To ask the Secretary of State for the Home Department when he will respond to the letter from the hon. Member for Totnes of 5 November 2003 about the Totnes European School, acknowledged by his Department on 19 November 2003 (ref: M7244/3). [147070]

CPS

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the Crown Prosecution Service's Racially Aggravated and Religiously Aggravated Crime Policy. [146246]

The Solicitor-General: The question has been passed to me for reply as the Law Officers are responsible for the Crown Prosecution Service (CPS).

The CPS policy on racist and religious crime was launched on 14 July 2003 and was developed with criminal justice partners and in consultation with over 120 local and national groups, including representatives of faith and black and minority ethnic communities.

The policy clearly sets out the CPS stance on prosecuting racist and religious crime and emphasises the need to prosecute cases firmly, fairly and robustly. The aim is to contribute to improving public confidence in the criminal justice system and, it is hoped, to bring more offenders to justice.

In delivering training to underpin the policy, the CPS has involved members of the community and the police to assist prosecutors in understanding the issues and underline the impact on communities of such crime.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the Crown Prosecution Service Merseyside Community Engagement Programme. [146247]

The Solicitor-General: The question has been passed to me for reply as the Law Officers are responsible for the Crown Prosecution Service (CPS).

CPS Merseyside is heavily involved in a range of community engagement initiatives. These include talks to schools and colleges, mentoring students from the black and minority ethnic communities, and contributing to conferences arranged to obtain the views of a variety of community groups. Two conferences are scheduled in January. The Chief Crown Prosecutor for CPS Merseyside also arranges for representatives of relevant communities to address his staff during training courses so that they can describe the effects of crime on their lives and explain how the criminal justice agencies can better meet their needs.

The area is currently updating its community engagement strategy to draw together the initiatives in which it is involved.

Dangerous Offenders

Mrs. Gillan: To ask the Secretary of State for the Home Department what estimate he has made of the number of sentences that *(a)* are poorly targeted and *(b)* do not bear down sufficiently on dangerous offenders. [147365]

Paul Goggins: Decisions on the targeting of sentences are for the courts, based on the full facts of individual cases. However, the Government is determined to ensure that sentences delivered are appropriate to offences committed. The Criminal Justice Act 2003 introduces a range of new sentences so that courts have a full range of options at their disposal in order to deal with offences and offenders appropriately.

These include the new Generic Community Sentence, which will allow judges and magistrates to choose specific elements (such as drug rehabilitation, unpaid work, curfew) that best suit the profiles of individual offenders and crimes.

The Act also enhances protection for the public from dangerous offenders. It introduces new indeterminate sentences for use where an offender is considered to pose a significant risk to the public. These sentences will ensure that an offender may be kept in custody for as long as he or she is considered to pose a threat to the public. If the risk posed decreases over time, the offender will become eligible for release once the period specified by the court as the minimum necessary for punitive purposes has been served.

In addition, to promote consistency in sentencing between courts, the Act set up the Sentencing Guidelines Council, an independent body chaired by the Lord Chief Justice. The Council's role is to produce guidelines for the courts on the most appropriate and best-targeted sentence for different types of offence.

Human Trafficking

Mrs. Lawrence: To ask the Secretary of State for the Home Department how many cases of human trafficking were detected in 2002. [144611]

Beverley Hughes: Forming an accurate estimate of the levels of trafficking in people is problematic because of the secretive and hidden nature of the act. There are currently no accurate, reliable data in existence within the UK or the European Union. A Home Office research study "Stopping Traffic" (Police Research Series 125, published in 2000), indicated that there was intelligence to suggest that some women and children are trafficked into the UK for the purposes of sexual exploitation. This was estimated at between 140 and 1,400 per year but it was not possible to say how accurate this estimate is. The report concluded that there was no evidence to suggest that this was on a large scale in the UK compared with other European countries.

However, due to the very serious nature of the crime, in 2000, the Government set up a multi-agency taskforce called Reflex to co-ordinate the operational response to tackling organised crime groups involved in human trafficking and the smuggling of people into the UK. Since April 2003, there have been 14 significant disruptions (26 in total) and from these 37 convictions for related offences.

The Government have also introduced specific criminal sanctions covering traffickers. We have acted quickly to deal with the worst forms of exploitation by creating an offence of trafficking for the purposes of controlling someone in prostitution within the Nationality, Immigration, and Asylum Act 2002. More comprehensive offences concerning trafficking into, out of and within the UK for all forms of sexual exploitation are included in the Sexual Offences Act which received Royal Assent in November 2003. A new offence covering trafficking for forced labour and removal of organs is included in the Asylum and Immigration Bill, currently before Parliament. All of these offences carry a maximum penalty of 14 years.

Immigrant Surcharge

Mr. David Atkinson: To ask the Secretary of State for the Home Department whether his plans to introduce a £500 surcharge on immigrants to the UK includes those entering to study at English language schools; and if he will make a statement. [145139]

Beverley Hughes: No decisions have yet been made about the level of the fees. The Regulatory Impact Assessment (RIA) is required to provide a range of fees for indicative purposes only. The upper limit of that range, £500, does not signify that the Government intends, as some newspapers suggested, to set fees at that level.

The enabling power is the first stage of a two stage process. The second part of the process is to undertake a full Regulatory Impact Assessment and wider consultation with key stakeholders. Following this consultation, decisions regarding fee levels, scope and timing of introduction can then be made taking these views fully into account.

Immigration Appeals

Mr. Malins: To ask the Secretary of State for the Home Department in what percentage of immigration and asylum appeals before adjudicators his Department was *(a)* represented by Home Office Presenting Officers, *(b)* represented by Counsel and *(c)* not represented in the last 12 months for which figures are available. [143360]

Beverley Hughes: For the 12 month period to August 2003 the level of representation for Presenting Officers and Counsel when taken together was 72 per cent. This relatively low level of representation was caused, in large part, by difficulties in recruiting Presenting Officers, particularly in the London area. The level of representation will increase early in 2004 as up to 65 newly recruited Presenting Officers complete their training and take up their posts.

Immigration Control (Vehicle Checks)

Mr. Malins: To ask the Secretary of State for the Home Department what proportion of *(a)* lorries and *(b)* other vehicles passing through Dover from France were not checked in Dover for purposes of seeking to discover illegal immigrants in the last 12 months. [142167]

Beverley Hughes: Approximately 2,500 lorries arrive at Dover every day on board cross channel ferries. Port authorities and operators in both Calais and Dunkerque check all lorries entering their port and again using UK supplied New Detection Technology (NDT) before lorries board ferries for the UK.

As it is clearly more effective to have searched lorries before they embark on ferries to the UK than on arrival at Dover lorries are selected for search by Immigration Service search teams only on an intelligence-led basis employing known profiles of vehicles used in people smuggling. Other vehicles such as private cars and vans are systematically checked in France by agents acting for the ferry operator.

Again, targeted checks by Immigration Officers are carried out on arrival at Dover.

Muslim Converts to Christianity

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department how many recorded cases of *(a)* assault and *(b)* murder have occurred in the UK over the past five years of members of the Islamic faith who have converted to Christianity. [147424]

Ms Blears: The requested information is not available centrally.

Police Arms Recoveries

David Davis: To ask the Secretary of State for the Home Department how many *(a)* legal guns, *(b)* illegal guns and *(c)* knives have been recovered by the police investigating crimes in the last year. [146832]

Ms Blears: This information is not available in the form requested. The National Firearms Forensic Intelligence Database launched in November 2003 will provide a central database of seized firearms and help trace guns used in crimes and improve detection.

Police Cells

Mr. Oaten: To ask the Secretary of State for the Home Department (1) what the cost was of holding prisoners in police cells in 2002; [141643]

(2) how many prisoners have been held in police cells so far in 2003. [141644]

Paul Goggins *[holding answer 3 December 2003]:* Prisoners are not routinely held in police cells as a result of overcrowding. When population pressures result in police cells being used, it is under an arrangement between the Prison Service and the police called "Operation Safeguard". Operation Safeguard has not been used since 2002 (between 11 July and 20 December 2002).

The average daily cost of holding a prisoner in a police cell during 2002 was £363 per person per night. The total cost of holding prisoners in police cells in 2002 was £10.4 million.

There are occasions where prisoners have to be accommodated in police cells because the escort contractor cannot deliver them to the receiving prison before its reception closes. There is an on-going arrangement with many police forces, known as "Lock-outs". These are entirely separate arrangements from Operation Safeguard. This arrangement is sometimes used to facilitate the return of prisoners to court the next day or when a court hearing extends into the evening. The average daily cost of holding a prisoner on Lock-out is currently £120 per person per night. The total cost for Lock-outs in 2002 was £1.356 million.

The total cost of holding prisoners in police cells under both Operation Safeguard and Lock-outs in 2002 was £11.756 million.

No prisoners were held under Operation Safeguard in 2003. There were a total of 982 prisoners held in police cells as Lock-outs in 2003. In addition, eight prisoners were held in police cells in the Greater Manchester area on the weekend of 7–8 June 2003, as an emergency measure, following a disturbance at HMP Whealstun, which resulted in a temporary loss of accommodation at the establishment. These prisoners were not held under arrangements for Operation Safeguard or as Lock-outs.

Police Time

David Davis: To ask the Secretary of State for the Home Department what proportion of a police officer's time on average was spent on *(a)* patrol and *(b)* dealing with paperwork in the last year for which figures are available. [146834]

Mr. Blunkett: Figures collected by HM Inspectorate of Constabulary show that, in 2002–03 the number of officers allocated to patrol duties was 63,426. However, we know that there is significant variation between forces in the amount of time officers spend on front line duties, including patrol. We are, as part of the Police Performance Assessment Framework, collecting data from forces so that we can publish a baseline estimate of front line policing for all forces. This will be a valuable tool to drive up the amount of time spent on front line duties.

We remain committed to tackling administrative burdens and inefficient practices in the police service. Sir David O'Dowd's Taskforce was commissioned to give the Government a police service view of what could be done to tackle the administrative burdens and inefficient practices which keep police officers off the streets. The Taskforce report, published in September 2002, highlighted ways of freeing up significant amounts of officers' time. Among the achievements to date, more than 4,600 forms in 21 forces are now obsolete and all 43 forces now have the capacity to undertake video identity parades. The national roll out of the fixed penalty notice scheme is scheduled for completion by April 2004. Other initiatives are contributing to the reducing burden on police officers. In addition, there is a major Her Majesty's Inspector of Constabulary Thematic inspection on Civilianisation/The use of non-sworn staff due to report April/May 2004. £8 million has been set aside this financial year for workforce modernisation projects, the criteria for which include the release of officers for front line duties.

Prisons

Mrs. Gillan: To ask the Secretary of State for the Home Department what the total prison capacity has been in each year since 1997. [147356]

Paul Goggins: The annual average usable operational capacity for prisons in England and Wales from 1997 to 2003 is given in the following table.

	Useable operational capability
1997	61,900
1998	67,800
1999	68,100
2000	69,000
2001	69,400
2002	71,500
2003	74,300

Mrs. Gillan: To ask the Secretary of State for the Home Department what estimate he has made of the number of prisoners in prisons in each of the next 10 years. [147358]

Paul Goggins: The most recent projections of the prison population are presented in the Home Office Prison Population Brief, England and Wales, April 2003

(issued September 2003). These present the four scenarios A, B, C, D for the short-term projection (up to March 2005) and the two central scenarios B and C for the long-term projection (up to 2009). There are no higher (A) and lower (D) scenarios for these long-term projections.

The projections are as follows:

Short term

	End of March 2004	*End of March 2005*
Scenario A	75,900	82,300
Scenario B	75,600	81,700
Scenario C	74,700	81,100
Scenario D	74,500	80,600

Long Term (as at end of June)

	2003	*2004*	*2005*	*2006*	*2007*	*2008*	*2009*
Scenario B	73,900	77,000	82,900	88,000	89,500	91,100	92,400
Scenario C	73,700	76,200	81,500	87,200	88,700	90,300	91,600

Future prison population projections will take into consideration the impact of the implementation of the Criminal Justice Act 2003 and proposals included in the "Reducing Crime—Changing Lives" report.

Mrs. Gillan: To ask the Secretary of State for the Home Department when the new remand unit at Winchester will be ready to receive the first prisoners. [147372]

Paul Goggins: The construction of the new remand unit at HMP Winchester is complete, and it is expected to receive its first prisoners in April 2004. This is subject to the installation of ancillary provisions such as new fences, reception, and gate entry systems.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many young offenders have been sent to Holloway prison in each year since 1997. [147373]

Paul Goggins: The number of young people held in Holloway prison at the end of June of each year from 1997 to 2003 is given in the table below. Young people are defined as those aged under 21, but may include some 21 year olds who were under 21 at conviction but have not been reclassified as part of the adult population.

Year	
1997	67
1998	57
1999	82
2000	85
2001	51
2002	70
2003	59

Mrs. Gillan: To ask the Secretary of State for the Home Department what budget has been allocated to Holloway prison for young offenders in each year since 1997. [147374]

Paul Goggins: There are no specific budget allocations made by the Prison Service to cover young offenders (aged 18–21) held at establishments including Holloway prison. The total budget issued to each prison covers all inmates and makes no distinction between adults and young offenders. The juvenile estate (prisoners aged under 18) receives separately identified and monitored budgets from the Youth Justice Board.

However, it is acknowledged that there are additional funding requirements relating to young offenders because of physical security considerations and educational needs. It is the responsibility of the Governor of each establishment and the Area Manager to determine how these requirements are met out of the total budget available.

The Prison Service's Annual Report and Accounts for 2002/03, printed on 15 July 2003, contains details of the costs of all prison establishments including those holding young offenders.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many officers were serving at each *(a)* prison and *(b)* remand centre, disaggregated by sex, in each year since 1997. [147375]

Paul Goggins: The information available is contained in the following tables. The figures include prison officers, senior officers and principal officers. Information on officer numbers broken down by gender and location is not available prior to March 1998.

In those establishments which hold both remand and convicted prisoners, it is not possible to disaggregate the staffing numbers attached to each. The data represents a snapshot staffing level on the date of data capture. It does not take account of new staff who were in the recruitment process at that time. Staffing levels in prison establishments can be affected by a number of factors, including, for example, prisoner numbers, the opening of new accommodation, the temporary closure of accommodation for refurbishment, change to role and function, and changes to working practices.

[1] Immigration detention centre.

Mrs. Gillan: To ask the Secretary of State for the Home Department what the average length of service at any one prison is of current prison governors. [147419]

Paul Goggins: Since January 1999 the average length of tenure across the Service of a Governor in charge of a public sector prison establishment has been 1.9 years. Decisions on the appointment of Governors in HM Prison Service are taken by senior operational managers in the light of operational need.

Shoplifting

Mr. Oaten: To ask the Secretary of State for the Home Department how many offences of shoplifting were recorded in each criminal justice area in each of the last 12 months for which figures are available. [144580]

Paul Goggins: There were 309,397 recorded offences of thefts from shops in England and Wales in the year ending March 2003.

Victim/Witness Support

Mr. Drew: To ask the Secretary of State for the Home Department what support his Department gives to *(a)* victim support and *(b)* witness support in (i) England and Wales and (ii) Gloucestershire. [144018]

Paul Goggins: Between 1996–97 and 2002–03 the Home Office's funding of the organisation Victim Support, which provides support to both victims and witnesses, more than doubled, from £11.7 million to £29.3 million. This year our grant in aid to Victim

Support has been increased to £30 million, which represents an increase of 2.4 per cent. Of this, over £26 million will be passed on to local Victim Support schemes, with the balance being used by the Victim Support National Office to provide, amongst other things, a range of central services to its member groups.

The Victim Support Area of Gloucestershire has been allocated a total of £265,498 by Victim Support National Office under their new Funding Formula for the year 2003–04. As well as providing funding to Victim Support, the Home Office also provides £572,000 to other organisations supporting victims and witnesses of crime.

Young Offenders

Mr. Oaten: To ask the Secretary of State for the Home Department on how many occasions members of Independent Monitoring Boards have refused to sign off a child being held in a segregation unit in each young offender institution. [144365]

Paul Goggins: This information is not held centrally.

NORTHERN IRELAND

Assembly Elections

Mr. Tynan: To ask the Secretary of State for Northern Ireland what assessment he has made of levels of voter turnout at the recent Assembly elections; what research he intends to commission to study the reasons for this; and what measures he is considering adopting to improve turnout. [147532]

Mr. Spellar: The turnout for the 2003 Assembly election was 63.1 per cent., which compares to a figure of 68.8 per cent. for the previous Assembly election in 1998.

The Electoral Commission, which has responsibility for promoting public awareness of electoral matters, held a one-day seminar on the 7 January to hear views from stakeholders about the administration of the Assembly election. The public have also been invited to contact the Commission with their views on the election.

I understand that the Commission intends to publish a report on the election before the end of April 2004. The report will cover all aspects of the recent election including voter turnout. The Government will study the report carefully when it is received.

Criminal Justice Act

Lady Hermon: To ask the Secretary of State for Northern Ireland what the minimum sentence for the murder of *(a)* a prison officer and *(b)* a police officer on duty in Northern Ireland is; and if he will make a statement on the relevant provisions of the Criminal Justice Act 2003. [147574]

Mr. Spellar: The mandatory sentence for murder is life imprisonment. Under the provisions of the Life Sentences (Northern Ireland) Order 2001, the determination of the appropriate minimum period or tariff, which any life sentence prisoner in Northern Ireland must serve in custody before consideration can be given to release, is a matter for judicial discretion. The sentencing judge can set a tariff for a fixed period of years or determine that a whole life tariff would be more appropriate in individual cases.

The Criminal Justice Act 2003 introduced in England and Wales a new statutory framework providing for four different starting-points for the judicial determination of minimum terms in mandatory life sentence cases. That framework provides for an initial starting point of 30 years for a person convicted of the murder of a police or prison officer in the course of their duty in England and Wales. Those statutory starting-points may be adjusted upwards or downwards by the sentencing judge, having regard to any relevant aggravating or mitigating factors in the case, to arrive at the minimum term which must be served by the prisoner. On 8 January, I published a consultation paper seeking views on the appropriateness of adopting a similar framework for mandatory life sentences in Northern Ireland. The consultation period extends to 31 March, after which responses will be carefully evaluated and the outcome of the consultation published.

Decommissioning

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what reports he has received regarding the treatment of General John de Chastelain during the decommissioning act in Northern Ireland on 20 October 2003; and if he will make a statement. [148469]

Jane Kennedy: The Secretary of State for Northern Ireland has received no reports regarding the treatment of General de Chastelain during the decommissioning act in October 2003.

Dementia Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on his plans to review dementia services in Northern Ireland. [148775]

Angela Smith: My Department recognises the need to review the policy in relation to people with dementia. Dementia services will therefore be included in the on-going review of mental health and learning disability. Inclusion in the review will mean that dementia will be covered in a comprehensive evaluation of policy and services spanning issues such as health promotion, prevention and early detection of dementia, effectiveness of interventions and broader issues such as human rights and social inclusion.

An Expert Working Committee on Issues in Old Age has been established and dementia will also be included in its remit, although it is of course recognised that some younger people also have dementia. The working committee has been asked to ensure that it reflects a broad representation of views. The review of mental health and learning disability is not expected to complete its work until mid-2005 but work is in hand to consider how the review recommendations might be phased as sections of the review work are completed.

High Hedges

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) what plans he has to extend Part 8 of the Anti-Social Behaviour Act 2003 to Northern Ireland; [148673]

(2) what action the Government are taking to deal with the problem of high hedges in Northern Ireland; and if he will make a statement. [148719]

Angela Smith: The Government have no plans for high hedges legislation in Northern Ireland at present.

Hospital Trolley Waits

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 7 January 2004, *Official Report*, column 406W, on hospital trolley waits, whether the December statistics represent *(a)* an estimate for the full month and *(b)* a total number collected on weekdays only. [148860]

Angela Smith: The December trolley wait statistics represent the number of trolley waits recorded in Accident and Emergency departments in Northern Ireland at 9.00am on weekday mornings. These figures show the total number of trolley waits reported by Accident & Emergency Departments at a point in time (9.00am) on week days during December.

Leak Inquiries

Dr. Julian Lewis: To ask the Secretary of State for Northern Ireland what inquiries his Department has conducted into alleged leaks from members of staff since 1997; and on what occasions the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147009]

Mr. Paul Murphy: Since 1997, my Department has investigated three suspected leaks. In line with Exemptions 1*(a)* and 7*(b)* set out in Part II of the Code of Practice on Access to Government Information, it has been the practice of successive governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

This reply relates only to inquiries specifically within the Northern Ireland Office and does not cover the 11 Departments of the Northern Ireland Administration.

Neurosurgery Waiting Lists

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients were awaiting neurosurgery *(a)* inpatient admission and *(b)* outpatient assessment in Northern Ireland on the most recent date for which figures are available. [148845]

Angela Smith: The latest available waiting list figures show the position at 30 September 2003, when:

(a) there were 659 patients awaiting admission to hospital in the neurosurgery specialty;

(b) there were 354 patients awaiting a first outpatient appointment in the neurosurgery specialty.

This information is published in the "Northern Ireland Waiting List Quarterly Information Release" on the first Thursday in March, July, September and December. A copy of this publication is placed in the House of Commons Library or can be obtained from the DHSSPS website, internet address: www.dhsspsni.gov.uk/publications/index.html.

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Northern Ireland if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147589]

Mr. Pearson: Procurement Policy in Northern Ireland is based on achieving best value for money while complying with European Community and other international obligations. The 11 Northern Ireland Departments and the Northern Ireland Office have not outsourced call centre or IT work to offshore companies in the last two years and have no plans to do so.

Rural White Paper

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to introduce a Rural White Paper for Northern Ireland. [147834]

Mr. Pearson: The Department of Agriculture and Rural Development, in consultation with the Rural Stakeholder Forum, has begun a review of rural development policy. A decision on whether or not to produce a Rural White Paper will be considered after that review has been completed.

Water/Sewerage Services

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on progress being made with the reform of water and sewerage services in Northern Ireland. [148674]

Mr. Spellar: Detailed reform proposals are currently being developed, taking into account the substantial feedback received during last year's public consultation on water reform. The proposals will address the basis on which household water charges will be determined, the most effective public ownership model for water and sewerage services, and the most appropriate consumer representation, and economic and consumer regulation arrangements. These proposals will be subject to a full range of impact assessments, including an equality impact assessment, which I plan to publish for consultation in the spring.

In tandem with this work, a vigorous reform programme is being developed within water service to deliver efficiencies of up to £45 million per annum by 2010. Implementation of an interim efficiency action plan will result in savings of over £11 million during 2004–05.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many responses he received to his Department's "The Reform of Water and Sewerage Services in Northern Ireland" consultation document; and how many of these responses were *(a)* in favour and *(b)* against the introduction of water charging. [148720]

Mr. Spellar: A total of 784 written responses were received to the consultation document "The Reform of Water and Sewerage Services in Northern Ireland" published on 11 March 2003.

The consultation document invited comment on a range of options regarding the basis on which domestic charges should be set. As the consultation document did not seek views on whether water charges should be

introduced or not, it is not possible to identify the number of responses *(a)* in favour or *(b)* against the introduction of water charging.

However, approximately 14,500 expressions of general opposition to Water Reform were received by petition, postcard etc.

SCOTLAND

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Scotland if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147579]

Mrs. McGuire: The Scotland Office has not outsourced any of its IT functions to offshore companies and has no plans to do so.

Universal Bank

Annabelle Ewing: To ask the Secretary of State for Scotland what representations he has made to the Scottish clearing banks about their participation in the Post Office Universal Bank. [148751]

Mrs. McGuire: I have regular contact with ministerial colleagues and representatives from the industry.

As a result of discussions with the Government, all of the UK's major banks, including the Scottish clearing banks, are participating in the Universal Banking project by giving access to basic bank accounts at post offices.

The Government would urge all banks to provide their customers with access to their accounts through post offices. However, the decision to do so rests with individual institutions.

Mr. Tynan: To ask the Secretary of State for Scotland what steps he is taking to encourage Scottish banks to make their services available through the Post Office branch network. [148957]

Mrs. McGuire: I have regular contact with ministerial colleagues and representatives from the industry.

All of the major Scottish banks currently allow access to their basic bank accounts through the Post Office branch network. Post Office Ltd. also provides access to a range of other bank accounts and is seeking to expand these in conjunction with all the major institutions.

The Government would urge all banks to provide their customers with access to their accounts through post offices. However, the decision to do so rests with individual institutions.

CULTURE, MEDIA AND SPORT

Departmental Christmas Expenditure

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much has been spent by her Department on *(a)* Christmas cards and *(b)* Christmas parties (i) in the last year and (ii) since 1997. [145595]

Mr. Caborn: The information is as follows:

(a) Expenditure on Christmas cards is detailed in the following table:

	Cost (£)
1997	No record
1998	No record
1999	1,971.00
2000	3,500.92
2001	2,211.39
2002	1,985
2003	1,587.50

(b) Expenditure on Christmas parties is detailed in the following table:

	Christmas party costs (£)
1997	No record
1998	No record
1999[1]	n/a
2000[2]	n/a
2001	4,452.23
2002	6,963.73
2003	6,941.85

[1] No Christmas party held this year. However, there was a new year's drinks reception on 18 January 2000. The cost was £4,386.03.

[2] No Christmas party held this year. However, there was a new year's drinks reception on 22 February 2001. The cost was £2,248.38.

Gambling

Jim Knight: To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the size of fund the proposed Gambling Industry Charitable Trust will need to address problems of gambling addiction over the next 10 years; and if she will make a statement. [148470]

Mr. Caborn: We have accepted the advice of the Gambling Review Body that the gambling industry should in the first place be asked to provide £3 million a year to fund the Trust's work. The size of this contribution will need to be kept under review in the light of experience and the Trust's own views; and if it proves necessary to ask the industry to consider a larger contribution then we will do so.

Jim Knight: To ask the Secretary of State for Culture, Media and Sport if the Government will bring forward legislation to introduce a levy on the gambling industry if the sector fails to agree voluntary funding of the Gambling Industry Charitable Trust. [148471]

Mr. Caborn: Yes. Clause 96 of the draft Gambling Bill (Cm 6014) which is now being considered by a Scrutiny Committee on both Houses makes provision to this effect.

Honours

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport how many honours nominations her Department has received for people involved in rugby league football in each of the last five years; how many have been awarded in each of those years; and if she will make a statement. [148743]

Mr. Caborn: We cannot provide the number of nominations for people involved in rugby league football as we do not keep records in this form. Three awards have been made to people involved in rugby league football since New Year 1999.

We receive nominations for people from a broad spectrum of sports and there is always stiff competition for the limited number of awards available in each Honours List. Individual nominations are considered strictly on merit: the discipline in which the individual has achieved success is not a factor in the decision-making process. We are always interested in receiving nominations from the public and sports bodies and the Rugby Football League is one of many of sports organisations invited on a regular basis to make nominations.

National Lottery

Chris Ruane: To ask the Secretary of State for Culture, Media and Sport how many Lottery grants were given to *(a)* the hundred richest and *(b)* the hundred poorest wards in Wales, using the Welsh Index of Multiple Deprivation published by the National Assembly for Wales in 1999 *(i)* from the inception of the Lottery to 1 May 1997 and (ii) from 2 May 1997 to date. [148491]

Estelle Morris: I am arranging for copies of this information to be placed in the Libraries of both Houses.

Rugby World Cup

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the total departmental cost was of visits to Australia for the Rugby World Cup. [145601]

Tessa Jowell: The total cost to the Department for the visits of two Ministers and officials to Australia for the Rugby World Cup was £44,161.

Security Passes

Mr. Oaten: To ask the Secretary of State for Culture, Media and Sport how many security passes have been reported *(a)* lost and *(b)* stolen by staff in (i) her Department and (ii) departmental agencies in the last 12 months. [147984]

Mr. Caborn: In the 12 months since December 2002 three security passes, none of which identify the Department nor the buildings to which they allow access, have been reported as lost. There have been no reports of stolen passes. The Royal Parks Agency do not differentiate between lost and stolen cards and three have been reported lost/stolen in the relevant period. In all cases the cards are electronic and are de-activated as soon as a report is received.

Tourism

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what the balance of payments deficit in tourism was in each year since 1995. [149223]

Mr. Caborn: The balance of payments in tourism for the UK in each year since 1995 are shown in the following table.

Tourism balance of payments

£ million

	Overseas residents' spending in the UK	*UK residents' spending abroad*	*Balance of payments*
1995	11,763	15,386	-3,623
1996	12,290	16,223	-3,933
1997	12,244	16,931	-4,687
1998	12,671	19,489	-6,818
1999	12,498	22,020	-9,522
2000	12,805	24,251	-11,446
2001	11,306	25,332	-14,026
2002	11,737	26,962	-15,225

International Passenger Survey, National Statistics

SOLICITOR-GENERAL

Ministers (Legal Fees)

Mr. Grieve: To ask the Solicitor-General if she will publish a list of the ministers who, since May 1997, have benefited from the Government paying their legal fees. [142541]

The Solicitor-General *[holding answer 11 December 2003]:* The question of whether a Minister's legal fees should be paid by Government, i.e. out of public funds, is primarily a matter for the relevant departmental accounting officer, normally the Permanent Secretary for the Minister's Department. Whether or not a Minister's legal fees, for example in relation to some private litigation, are being paid out of public funds is not information which is held by the Treasury Solicitor's Department or by any other of the legal teams in the Government Legal Service. The source from which to obtain this information will be each of the Departments.

Serious Fraud Office

Mr. Hancock: To ask the Solicitor-General what recent assessment she has made of the work of the Serious Fraud Office; and if she will make a statement. [146163]

The Solicitor-General: The Attorney-General and I meet the SFO Director on a regular (almost monthly) basis and on other occasions as required. These meetings are wide ranging and include casework, management and financial issues.

As well as our on-going contact the Director of the SFO is required to present the SFO's Annual Report to Parliament. The report details progress and performance of the SFO's operational activities. In addition the audited accounts of the SFO are laid before Parliament annually.

The SFO continues to provide an effective response to the most serious and complex frauds. Since its inception the SFO has convicted 71 per cent. of defendants who were charged.

Mr. Hancock: To ask the Solicitor-General how many *(a)* offences of fraud and *(b)* serious frauds, involving breaches of trust by professionals, were reported to the Serious Fraud Office in each of the last three years; how many prosecutions were initiated; what the outcome was in each case; and if she will make a statement. [146164]

The Solicitor General: The SFO does not routinely record the professions of individuals reported to them. The specific information requested could be produced only at disproportionate costs. It is however the case that the SFO has in the past and will continue to prosecute, where appropriate, professionals such as lawyers and accountants for fraud offences which meet the Department's criteria for acceptance of a case.

An ad hoc inspection of files reveals that since 1 January 2001 the SFO has commenced at least 10 investigations where one or more of the suspects is a qualified accountant or lawyer. In the cases identified there are total of 14 accountants or lawyers who are suspects. Prosecutions have commenced in some of these cases but they are yet to reach the trial stage.

Mr. Hancock: To ask the Solicitor-General what plans she has to set up branches of the Serious Fraud Office in the regions. [146165]

The Solicitor-General: I have no current plans to set up regional offices; staff are employed and based in the regions from time to time in accordance with individual case demands. However, with nearly 50 per cent. of cases based in London and the South East and a current total permanent staff of some 240, it has so far proved not to be necessary or economic to establish a regional base. As the Serious Fraud Office expands this is something that will be kept under review.

TRANSPORT

Disabled Drivers

Mr. Drew: To ask the Secretary of State for Transport what research he has undertaken into the provision of a temporary disability scheme for car drivers to supplement the Orange Disk scheme. [148271]

Mr. McNulty: The Blue (formerly Orange) Badge Scheme provides a national arrangement of on-street parking concessions for disabled people with severe walking difficulties or the most severe upper limb disabilities and those who are registered blind. The Scheme was introduced in 1971 since when it has been the subject of several reviews.

The latest review was completed in December 2002. Ministers accepted the majority of the 47 recommendations made by our statutory advisers, the Disabled Persons Transport Advisory Committee, to improve the Scheme. We are taking these forward through changes to primary and secondary legislation, research and in new guidance to local authorities on the Scheme. The recommendations and the Government's response to them were placed in the House Libraries on 18 December 2002.

On the research side we are pursuing three projects arising from the review: one to look at the feasibility of setting up a database of blue badge holders to assist with enforcement; a second to examine the current exemption from the Scheme for the four Central London Boroughs; and a third to look at the case for extending eligibility to other groups of disabled people.

Drink Driving

Mr. Hoyle: To ask the Secretary of State for Transport how many accidents were caused by drink driving in Lancashire in each of the last five years. [148364]

Mr. Jamieson: Whether an accident was caused by drink-driving is not recorded as part of the Department's personal injury accident database. However the following table shows the number and severity of accidents in Lancashire where at least one of the drivers involved provided a positive breath test or refused to provide a breath test.

Accidents involving positive breath tests in Lancashire

Severity	*1998*	*1999*	*2000*	*2001*	*2002*
Fatal	0	2	0	1	1
Serious	39	39	47	35	35
Slight	84	114	79	110	126
Total	123	155	126	146	162

Speed Cameras

Mr. Pope: To ask the Secretary of State for Transport how many road traffic speed cameras there are in the area covered by the Lancashire Constabulary; and what the estimated revenue from them is in the current financial year. [147536]

Mr. Jamieson: Currently there are 210 fixed speed camera sites and 60 mobile sites within the Lancashire Safety Camera Partnership area. Estimated revenue from fixed penalties for speeding offences detailed in the partnerships operational case for 2003–04 is £7,200,000, although this amount will depend on the number of motorists that exceed the speed limit. The portion returned to the partnership is that needed to cover the cost of their camera activity.

Mr. Hoban: To ask the Secretary of State for Transport if he will make a statement on the criteria for the installation of speed cameras, with particular reference to the cameras sited at *(a)* Highlands Road, Fareham and *(b)* Gosport Road, Fareham. [147155]

Mr. Jamieson: Speed cameras within the Safety Camera Programme are sited in accordance with the Handbook of Rules to the scheme which is available in the Library of the House. The two camera sites referred to fully meet both the casualty criteria and conspicuity and visibility criteria.

Airlines (Safety Standards)

Mr. Wilshire: To ask the Secretary of State for Transport (1) whether safety standards that have to be

met by an airline for a permit to be granted to operate in the airspace of each of the other EU and EEA member states are identical to those which have to be met before his Department will grant a British permit to operate in UK airspace; [149031]

(2) whether a permit issued to an airline by another member state of the EU or EEA to operate in its airspace is sufficient authorisation to operate in UK airspace. [149032]

Mr. McNulty: All airlines operating international services are required to have certificates showing that they meet the safety standards established by the International Civil Aviation Organisation. As Contracting States to the Chicago Convention, EEA (including EU) Member States are required to recognise the certificates issued by other Contracting States to their airlines unless they have reason to believe that they have not been issued in accordance with the ICAO standards.

If another Member State has issued an operating permit to an airline we would expect that airline to meet the necessary international safety standards. However, the fact that another Member State had issued a permit would not itself provide authorisation for that airline to operate to the UK. The UK reserves the right to make its own decisions on whether or not to issue a permit. Permits may also be refused, suspended or revoked for safety or other reason, as illustrated in my answer to the hon. Member of 8 January 2004, *Official Report*, columns 429–30W. Other Member States may also take permit action for reasons other than safety.

Airports (Scotland)

John Barrett: To ask the Secretary of State for Transport how many responses were received to the Future of Air Transport—Scotland consultation document; and of these *(a)* how many expressed a view in favour of a second runway at Edinburgh airport, *(b)* how many expressed a view against a second runway at Edinburgh airport and *(c)* how many did not express a preference. [147832]

Mr. McNulty: A total of 325 written responses and 965 questionnaire responses were received to the Scottish Consultation Document. The results of the consultation are summarised on the Department's Airport White Paper website.

The stakeholder consultation response and the NOP questionnaire response both indicate that of those who expressed a view, there were significantly more consultees in favour of a new runway than against it. In the case of the public response the numbers were more evenly matched.

CCTV

Simon Hughes: To ask the Secretary of State for Transport what plans he has to fund the extension of CCTV cameras in London's tube and train stations. [148438]

Mr. McNulty: The Department has no plans to fund additional CCTV cameras in London at either Tube or train stations. This is an operational matter for London Underground, Network Rail and the train operating companies to decide, in accordance with their own needs and their responsibilities for safety and security.

Central Railway Project

Chris Grayling: To ask the Secretary of State for Transport if he will make a statement about the Central Railway project. [148146]

Mr. McNulty: We are considering carefully Central Railway's proposals and will respond to Central Railway in due course.

Cheltenham/Gloucester Parkway Station

Mr. Nigel Jones: To ask the Secretary of State for Transport (1) what discussions he has had with the Strategic Rail Authority on the construction of a Cheltenham/Gloucester Parkway railway station near Gloucester airport; [148533]

(2) if he will assess the advantages and the disadvantages of constructing a Cheltenham/Gloucester Parkway railway station near Gloucester airport. [148534]

Mr. McNulty: The Strategic Rail Authority is carrying out a pre-feasibility study into the potential for a new parkway station near Gloucester. This work is to assess the business case for and operational implications of a new station. Several locations are being assessed including some in the vicinity of the airport. The study is due to be completed in February.

Driving Licences

Geraldine Smith: To ask the Secretary of State for Transport what information he has received from the EC Committee on Driving Licence working groups on the procedures employed to *(a)* assess and *(b)* minimise the road safety risks associated with epilepsy. [148552]

Mr. Jamieson: The appropriate working group of the EC Committee on Driving Licences has not yet met, therefore I have received no such information. I expect the epilepsy Working Group to meet three or four times during 2004, and to report back on its conclusions in about 18 months time.

Edinburgh Airport

John Barrett: To ask the Secretary of State for Transport how many *(a)* households and *(b)* electors live within the possible new Edinburgh airport boundary as outlined in the Aviation White Paper. [147900]

Mr. McNulty: There are 33 residential properties within the possible new Edinburgh airport boundary outlined in the Aviation White Paper. We do not have information on the number of electors at these properties.

Environmental Audit Committee Report

Mr. Chope: To ask the Secretary of State for Transport if he will place in the Library a copy of the research referred to in paragraph 4 of the Government's response to the Environmental Audit Committee's Report (CM6063). [149023]

Mr. Jamieson: The finding that congestion costs are over three-quarters of the full external costs of road transport can be found in Table B on page v of "Surface Transport Costs and Charges: Great Britain 1998", Institute for Transport Studies, University of Leeds, July 2001. The research was commissioned by the then Department of the Environment, Transport and the Regions and copies have been placed in the Libraries of the House.

Hazardous Incidents

Mr. Paul Marsden: To ask the Secretary of State for Transport how many people have made reports to the Confidential Hazardous Incident Reporting Programme, in each year since it was introduced. [148485]

Mr. Jamieson: Since the CHIRP was introduced on 1 December 1982 there have been a total 4,488 reported incidents for the aviation and maritime programmes.

The number of reports for the last four years for the aviation CHIRP is as follows:

	Number
2000	330
2001	379
2002	345
2003	373

The Maritime CHIRP was introduced in July 2003 and has so far received 38 reports.

Illegal Immigrants

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will list the *(a)* date and *(b)* nature of each incident involving ships in British waters assisting other vessels attempting to bring illegal immigrants to Britain since 1997; and what the names of the vessels were in each case. [148502]

Mr. Jamieson: The Maritime and Coastguard Agency co-ordinates the search and rescue of persons in distress at sea and responded to over 13,000 incidents in the last year. The Agency collects data about the nature of incidents, including the types of vessels involved in terms of whether they are commercial ships, fishing vessels or pleasure craft. However, the Agency does not collect data relating to illegal immigration.

The UK Immigration Service also does not collate the information in the format requested. However, the Service does work closely with European counterparts to identify vessels concerned with smuggling potential illegal immigrants to the UK. In addition, as part of REFLEX, the government's multi-agency task force to combat organised immigration crime, the Immigration Service co-operates with other government departments to exchange information on those suspected of involvement in maritime smuggling.

Leak Inquiries

Richard Ottaway: To ask the Secretary of State for Transport if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147192]

Mr. McNulty: The Department for Transport was formed in May 2002 and since then it has not instigated any inquiries into alleged leaks from members of its staff.

Liquid Natural Gas

Mr. Gray: To ask the Secretary of State for Transport what tax advantages are available for liquid natural gas vehicles. [147940]

Mr. Jamieson: Due to its environmental benefits, liquid natural gas (LNG) enjoys a lower rate of duty compared to conventional fuels, equivalent to 6p per litre compared to some 47p per litre for petrol and diesel. In the pre-Budget report the Chancellor announced that this differential will be held constant for a further three years.

Alternatively fuelled vehicles are also eligible for lower rates of vehicle excise duty depending on their CO_2 emissions.

Mr. Gray: To ask the Secretary of State for Transport how many vehicles using liquid natural gas benefited from tax advantages in the last year for which figures are available; and how many were *(a)* cars and *(b)* vans. [147941]

Mr. Jamieson: Figures published by the Natural Gas Vehicle Association for August estimate that there are 875 natural gas vehicles in the UK which will have benefited from the duty differential for natural gas. Of these 20 are estimated to be cars: there is no estimate for vans. Details of the split between vehicles using liquid natural gas and compressed natural gas were not published.

Mr. Gray: To ask the Secretary of State for Transport what Government grants are available to convert petrol cars to liquid natural gas; what the take-up has been in the current financial year; and how much is available for the remainder of the financial year. [147942]

Mr. Jamieson: Limited grants are available under the TransportEnergy programmes to offset the additional costs of purchasing clean fuelled vehicles including those powered by liquid natural gas (LNG). Grant offers have been made for 45 LNG vehicles in this financial year, which will be honoured once the conversions are completed under the terms of the grant offer letters.

The Energy Saving Trust, who administer the grant programmes for the Government, will not be issuing any new grant offer letters this financial year as they have now received applications to cover the full TransportEnergy programme budget of nearly £30 million. This is a considerable increase from the £18 million spend in 2001–02, and the Trust forecast they will provide grants for around 8,000 vehicles this year, compared with 5,000 last year. The grant programmes will resume in April 2004.

M6 Tolls

Tony Wright: To ask the Secretary of State for Transport what assessment has been made of the impact of the M6 Toll on traffic flows in the West Midlands. [148649]

Mr. Jamieson: At present it is too early to say with certainty what impact the M6 Toll has had on traffic flows in the West Midlands. The Highways Agency is monitoring traffic flows on the M6 Toll and adjacent road network and a full report will be prepared in April 2004, once traffic patterns have stabilised. A more detailed study report will follow when the toll road has been open for 12 months.

Moving Vehicles (Smoking Ban)

Mrs. Iris Robinson: To ask the Secretary of State for Transport what plans he has to outlaw smoking while in control of a moving vehicle. [148823]

Mr. Jamieson: There are no plans to prohibit smoking when driving. However, drivers who fail to have proper control of their vehicle for any reason risk prosecution.

North Berwick-Edinburgh Line

Anne Picking: To ask the Secretary of State for Transport what action the Strategic Rail Authority is taking with regard to the withdrawal of rolling stock from the North Berwick-Edinburgh commuter line when the current refurbished units are returned to WAGN at the end of March. [147992]

Mr. McNulty: North Berwick services are operated by trains hired from WAGN under a lease which expires in March. The Strategic Rail Authority, Scotrail and the Scottish Executive have therefore been considering options for replacing them. Trials of alternative rolling stock have taken place on the line and Scotrail announced on 14 January that the replacement trains would be formed of locomotive-hauled carriages.

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Transport if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147590]

Mr. McNulty: The Department complies with Government procurement policy, which is that all procurement is based on value for money, having due regard to propriety and regularity. The Department must comply with the requirements of the EU Treaty, including the principles of non-discrimination, the EC procurement directives and the UK's international obligations. The Department has not outsourced any IT or call centre jobs to offshore companies and currently has no plans to do so.

Railways

Mr. Hancock: To ask the Secretary of State for Transport what steps are being taken to reduce the costs of *(a)* administration and *(b)* consultants within the railway industry. [147329]

Mr. McNulty: As my right hon. Friend the Secretary of State for Transport said today in his statement to the House, the Department for Transport is undertaking a review of the rail industry. This will consider all of the industry's costs and how better value for passengers can be obtained from the Government's funding.

Road Junctions (Christchurch)

Mr. Chope: To ask the Secretary of State for Transport for what reason representations in respect of the proposed compulsory purchase order at Barrack Road/Stour Road junction in Christchurch are being considered by the Government Office of the North East. [149025]

Mr. Jamieson: The Secretary of State for Transport's quasi-judicial role for considering all Local Highway Authority Schemes and Orders for his confirmation, such as the case for the proposed Compulsory Purchase Order at Barrack Road/Stour Road junction in Christchurch, is undertaken as a national function and is based (since 1989) in Government Office for the North East.

Robin Hood Country

Mr. Hinchliffe: To ask the Secretary of State for Transport on what historical basis road signs on the M1 motorway describe Nottinghamshire as Robin Hood country. [148744]

Mr. Jamieson: The signs were requested by Nottinghamshire county council, whose area has been historically connected with the legend of Robin Hood.

Ships (Near Misses)

Mr. Paul Marsden: To ask the Secretary of State for Transport how many near misses between ships there were in each year since 1997 while in British waters; and what steps he is taking to reduce the number of such incidents. [148503]

Mr. Jamieson: The number of hazardous incidents in UK waters involving more than one vessel, where at least one was a 'ship', since 1997 were:

	Number of incidents
1997	55
1998	35
1999	36
2000	49
2001	46
2002	46
2003	67

Note:
These figures are for incidents reported to the Marine Accident Investigation Branch (MAIB) by 15 January 2004.

Mariners are encouraged to report any such incidents and these reports are considered with the alleged offending vessel invited to comment. Actions arising

from this include reminding the alleged offending vessel of the importance of maintaining good seamanship at all time and referring them to the appropriate literature or, where necessary, inspection or prosecution. The Maritime and Coastguard Agency is also actively involving the mariner in how to promote awareness on avoiding these situations through its website and promotional literature.

Speed Limits (Roads)

Mrs. Iris Robinson: To ask the Secretary of State for Transport if he will introduce minimum speed limits on *(a)* motorways and *(b)* dual carriageways. [148821]

Mr. Jamieson: The Government has no plans to introduce minimum speed limits on motorways or dual carriageways.

Speeding (Penalty Points)

Mr. Pope: To ask the Secretary of State for Transport if he will bring forward proposals not to penalise motorists guilty of speeding with penalty points on their driving licences when it is a first offence. [146991]

Mr. Jamieson: Speeding is a serious threat to road safety which can result in death and serious injury. We see no reason to distinguish between first and subsequent offences.

Strategic Rail Authority

Mrs. May: To ask the Secretary of State for Transport (1) what discussions he has had with the Chairman of the Strategic Rail Authority on publication of its annual strategic plan; [149037]

(2) how many drafts of the Strategic Rail Authority's strategic plan for 2004 have been *(a)* received and *(b)* commented on by his Department; [149038]

(3) what powers he has to determine the date of publications issued by the Strategic Rail Authority; [149039]

(4) under what authority he is able to determine the date of publication by the Strategic Rail Authority of its strategic plan; [149040]

(5) when *(a)* he and *(b)* his officials first received a draft of the Strategic Rail Authority's strategic plan for 2004. [149041]

Mr. Darling: The Government and the Strategic Rail Authority have agreed that it is not appropriate to publish a Strategic Plan in advance of the review now taking place of Government expenditure. I have the power to determine the date of any publication by the Strategic Rail Authority by issuing a direction, as prescribed under sections 206(3), 207(5) and 209(5) of the Transport Act 2000. My officials saw one draft of the Strategic Rail Authority's Strategic Plan, which they received on 16 December 2003, but made no comment on its content. No ministers saw the draft, nor was its existence drawn to their attention.

Street Works

Mr. Damian Green: To ask the Secretary of State for Transport what plans he has to develop an England-wide system for the notification of street works owned by utilities and road departments similar to the Susie Phone system in Scotland. [147096]

Mr. Jamieson: Local authorities in England already have systems for the notification of street works. We believe that the large number of authorities involved makes a single system covering the whole of England unrealistic. However, the Department has undertaken a study to consider how future systems could be developed in a way that ensured consistency and compatibility between them while remaining locally based.

Traffic Management Bill

Mr. Chope: To ask the Secretary of State for Transport if he will set out the basis used in the regulatory impact assessment of the Traffic Management Bill for calculating the extent of delay imposed by incidents on the trunk road network. [145546]

Mr. Jamieson: The Highways Agency has calculated total motorway congestion from Department for Transport figures for estimated time lost compared with free flow speed (per kilometre travelled for different vehicle types) together with figures for total motorway traffic taken from the Transport Statistics Bulletin.

The Highways Agency used a variety of data to estimate incident related congestion. This included research from the Transport Research Laboratory which estimated that 25 per cent. of congestion was due to incidents. The Highways Agency Traffic Control Centre Project estimated a figure of 30 per cent.

Mr. Damian Green: To ask the Secretary of State for Transport if he will make it his policy to ensure that the powers contained in section 74 of the Traffic Management Bill are universally adopted by local authorities. [147094]

Mr. Jamieson: Clause 74 of the Traffic Management Bill enables the Lord Chancellor to make regulations specifying how a penalty charge notice may be served and its content, such as the alleged contravention, the amount of the penalty charge, by when it has to be paid, how and where it can be paid, discount available for early payment, right to make representations and so on. The clause specifically excludes the power to stop vehicles for the purposes of issuing a penalty charge notice.

All local authorities receiving civil enforcement powers as a result of this Bill will be required to abide by the terms of these regulations.

Mr. Damian Green: To ask the Secretary of State for Transport what sources were used to produce the figures for the costs to business of utility streetworks in the Regulatory Impact Assessment of the Traffic Management Bill. [147097]

Mr. Jamieson: The Regulatory Impact Assessment of the Traffic Management Bill (page 5) discusses the total economic costs of utility street works rather than the costs to business alone.

There are two estimates. The first of £35 million in 1983 prices is taken from the 1985 'Review of the Public Utilities Street Works Act 1950' (HMSO—ISBN 0 11 550729 9, page 119). The second of £2.4 billion is taken from a 1992 report of the Transport Research Laboratory. Unfortunately, this latter figure was quoted in error and refers to the total value of utility construction work. However a 2001 report by the Laboratory 'Mitigating the Disruption caused by Utility Street Works' (TRL report 516—ISSN 0968–4107, page 9) estimated the annual traffic delay costs of utility street works at some £2 billion. My department has commissioned Halcrow to update this work.

Mr. Damian Green: To ask the Secretary of State for Transport what economic model the Government has used in working out the figures for the Regulatory Impact Assessment of the Traffic Management Bill; and if he will place a copy in the Library. [147099]

Mr. Jamieson: Figures presented in the Regulatory Impact Assessment for the Traffic Management Bill have been calculated using software packages models Transport User Benefit Analysis (TUBA), Cost Benefit Analysis (COBA), and Queues and Delays at Roadworks (QUADRO).

TUBA and COBA were used to calculate figures relating to the Highways Agency's Traffic Officer Service. The model used to calculate the financial cost of disruption caused by utilities' street works is called QUADRO.

Manuals and guidance for using these packages are available via the DfT website as detailed below.

The COBA User Manual is available at:

http://www.dft.gov.uk/stellent/groups/dft control/documents/contentservertemplate/dft index.hcst?n = 7912&1 = 4

The TUBA User Manual is available at:

http://www.dft.gov.uk/stellent/groups/dft transstrat/documents/page/dft transstrat 50799Q.hcsp

The TUBA Guidance is available at:

http://www.dft.gov.uk/stellent/groups/dft transstrat/documents/page/dft transstrat 507975.pdf

The QUADRO user manual is available at:

http://www.dft.gov.uk/stellent/groups/dft control/documents/contentservertemplate/dft index.hcst?n = 7914&1 = 4

US Ships (Decommissioning)

Norman Baker: To ask the Secretary of State for Transport pursuant to his answer of 5 January 2004, *Official Report*, column 56W on US Ships (Decommissioning), who carried out the routing plans and initial risk assessment for the return of the US ships under tow; what the earliest date the risk assessment determined the ships could safely make a return journey was; and if he will place the *(a)* risk assessment and *(b)* routing plans in the Library. [148618]

Mr. Jamieson: The UK took the view that it could be unsafe to return the ships to the US immediately, given the likely winter weather in the Atlantic and the need for a high degree of confidence of fair weather for the duration of the tow. It concluded that a return passage could not be contemplated before the spring. Passages both to the north and south of the United Kingdom have been considered in relation to notional routes which respect mandatory maritime traffic schemes and advising guidance. As weather windows become available in the spring, routing options will be subject to more detailed assessment, once application is made, and copies of such assessments will be placed in the Libraries of the House.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

International Trade

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 9 December, *Official Report*, column 449W, on international trade, if she will make a statement on the impact of the Commons Agricultural Policy on the competitiveness of products from developing countries. [144808]

Mr. Bradshaw: The Common Agricultural Policy (CAP) supports farmers' incomes via a number of methods—direct payments, export subsidies, intervention buying and tariffs—which ensure that EU farmers receive higher prices for their goods. These measures increase the level of production and therefore result in lower imports and / or higher exports than would otherwise be the case. This can have the effect of depressing world prices for certain commodities. Developing country producers who would otherwise be competitive on world markets may find themselves unable to compete. This could distort the allocation of resources in a particular country away from those in which it has a comparative advantage towards less competitive sectors.

The CAP reforms agreed in June 2003 will help to break the link between income support and production in the EU and will reconnect farmers to their markets. Production occurring as a result of loss-making activities should cease as farmers decisions are increasingly determined by market forces rather than subsidies. This production response will reduce EU production and net exports and, where this results in a higher world price, it should have a beneficial impact on developing country producers.

Further reform of the domestic support regime is necessary and the Commission have recently produced proposals for reform covering the cotton, tobacco, olive oil and hops sectors and proposals for reform of the sugar regime are expected next year.

Beef Imports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what restrictions she has placed on imports of beef into the UK from the USA following the recent BSE case there; and what discussions she has had with her EU counterparts on achieving a common approach to policy. [148306]

Mr. Bradshaw *[holding answer 15 January 2004]*: Animal and public health in the UK are protected from BSE from third countries by existing EU import rules. These rules require any third country exporting meat or live animals into the Community to have in place controls equivalent to those in the EU. These controls are supported by a requirement for veterinary certification in relation to individual meat consignments.

Imports of beef and beef products are permitted only if EU rules requiring the removal of specified risk material (SRM—eg skull, tonsils, spinal cord, intestine) and methods of slaughter are met.

A recent meeting of the EU's Chief Veterinary Officers was informed that the European Commission were following up the implications of the recent BSE case with the US authorities. The Chief Veterinary Officers supported the Commission in taking this approach. An EU technical visit to the US is being arranged to evaluate the position.

Dairy Farming

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs how many dairy farms were in operation in each of the last 20 years for which figures are available. [148695]

Alun Michael: The following figures show holdings in England where dairy is the predominant activity.

	Dairy holdings
1983	30,361
1984	29,912
1985	28,300
1986	27,583
1987	26,138
1988	24,767
1989	23,849
1990	22,793
1991	22,701
1992	21,712
1993	18,771
1994	20,579
1995	19,632
1996	18,904
1997	18,007
1998	17,014
1999	16,313
2000	15,219
2001	14,106
2002	14,342

Note:
Figures prior to 2000 show main holdings only. From 2000 onwards minor holdings are included.
Source:
June Agricultural Census

Departmental Lawyers

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many lawyers her Department employs. [148921]

Alun Michael: Defra currently employs 89 lawyers, plus 2 legal trainees.

EU Regulations (Fruit)

Sir Teddy Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Department initiated proceedings against the Asda company in respect of the EU horticultural regulations relating to the size and shape of items of fruit; and what the costs involved were. [147012]

Alun Michael *[holding answer 13 January 2004]:* The Department instituted proceedings against Asda at South Hampshire Magistrates Court in respect of 14 breaches of EU marketing standards identified during an inspection at the company's Fareham store on 1 November 2000. None of the alleged breaches relate to the size or shape of produce. The allegations relate to the retail of poor quality produce and failure to label with the correct quality class or country of origin.

The defendant argued in the courts that the offences with which it was charged were not known to law because the UK legislation establishing them was defective. These arguments were rejected by the House of Lords, which awarded Defra the costs of its appeals in the Divisional Court and the House of Lords. The quantum of these costs has not yet been determined.

The matters have been remitted to the magistrates court for trial. The costs of the case in the magistrates court will be decided at its conclusion as is usual practice.

Fisheries

Dr. Jack Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the decisions of the December 2003 EU Fisheries Council on *(a)* fishing in the Irish Sea, *(b)* fish landings in Whitehaven and *(c)* policy on designated ports; and if she will make a statement. [147448]

Mr. Bradshaw *[holding answer 15 January 2004]:* We agreed a Total Allowable Catch (TAC) for Irish Sea cod of 2,150 tonnes (a 10 per cent. increase on the 2003 TAC that in fact represents a reduction in fishing effort). We agreed 20 per cent. cuts in the associated plaice and sole TACs, as opposed to the 47 per cent. and 34 per cent. cuts proposed by the Commission. A threefold increase in the haddock TAC will help to balance cuts, and a minimal cut in the nephrops TAC allows current catch levels to be maintained.

Landings in Whitehaven, mainly demersal species and shellfish from both UK and Irish vessels, are likely to reflect the above TAC changes.

The designated port arrangements for the United Kingdom will not be affected except that landings of North Sea haddock taken under the special conditions set out in Annex IV of Council Regulation 2287/2003 will be restricted to designated ports in Scotland and on the east coast of England.

Food Exporters

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the announcement by the Rural Payments Agency that it is to end export refunds immediately to exporters of processed foods to the new EU entrant states. [147050]

Alun Michael: The Rural Payments Agency recently issued advice to traders on the transitional arrangements for the payment of refunds on goods exported to the new European Union (EU) entrant states.

From 1 May 2004, when the ten acceding states become full members of the EU, refund payments will cease. Among the accessionary arrangements designed to minimise the impact of these changes, some entrant states and the EU entered into a number of 'double

benefit' agreements. Under these arrangements, export refunds are not paid in return for a reciprocal waiving of import duty in the importing country for certain exports of agricultural products. A number of these arrangements affect processed foods exports. In addition the Commission has identified possible problems in relation to speculation in the sugar sector and potential stock piling of community exports in acceding member states. To counter this sugar export refunds have been withdrawn with effect from 28 November 2003.

Foot and Mouth

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many firms are in dispute with her Department over payments for work carried out during the recent outbreak of foot and mouth disease; what the total outstanding sum in dispute is; and for what reasons each payment is being withheld. [148646]

Mr. Bradshaw: I refer my hon. Friend to the answers I gave to the hon. Member for Weston-super-Mare (Brian Cotter), on 6 January 2004, *Official Report*, columns 259–62W.

Livestock Farming

Dr. Jack Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the recovery of livestock farming in *(a)* Copeland and *(b)* Cumbria since January 2002; and if she will make a statement. [146503]

Alun Michael *[holding answer 12 January 2004]:* Other than the June annual Agricultural Census, which amongst other things records the number of animals present on holdings on the designated census day, no specific assessment has been made of the recovery of livestock farming in Copeland and Cumbria since January 2002. However, data from the Agricultural Census of June 2002[1] shows that in Cumbria there has been an increase in livestock numbers compared with June 2001, while in Copeland the position remained broadly similar. The details are as follows:

Recovery of livestock farming in Copeland and Cumbria since January 2002

	Copeland	*Cumbria*
Cattle and Calves		
2000	42,217	510,446
2001	40,502	281,490
2002	39,938	426,484
Sheep and Lambs		
2000	251,408	2,633,973
2001	221,293	1,499,064
2002	219,897	1,801,789
Pigs		
2000	—	54,441
2001	—	10,119
2002	—	23,555

Note:
Pig data in Copeland have been omitted to prevent the disclosure of information relating to individual holdings.
[1] June 2003 data is expected to be published in March.

Milk

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what the UK's raw milk production was in each of the last 10 years for which figures are available; and how this raw milk is processed, broken down by percentage. [148690]

Alun Michael: The following table provides information on the UK raw milk production and supply, and how this supply is then utilised for liquid consumption and the manufacture of products.

UK raw milk production and utilisation

Million litres

	Calendar years									
	1993	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Supply and Use (a)										
Production	14,317	14,549	14,259	14,256	14,420	14,218	14,587	14,078	14,291	14,449
Imports	[1]—	[1]—	181	111	128	129	111	105	64	72
Exports	89	129	185	173	290	373	465	445	414	421

[1] Equals less than 0.5 per cent.

Note:

(a) Aggregated data from surveys run by Defra, SEERAD and DARDNI on the utilisation of milk by dairies.
(b) Includes the utilisation of the residual fat of low fat liquid milk production.
(c) Includes condensed milk used in the production of chocolate crumb and in the production of machine skimmed milk.
(d) Includes farmhouse consumption, milk fed to stock and on farm waste. Excludes suckled milk.

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her Department's procurement policy with regard to offshore IT and call centre outsourcing; whether her Department is outsourcing IT and call centre jobs to offshore companies; to which countries her Department has outsourced these jobs; how much her Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147582]

Alun Michael: Consistent with the need to ensure fair and transparent procurement processes in line with legal obligations, the Department's procurement policy is to obtain value for money and protect the public purse. In evaluating any procurement decision containing any offshoring proposals, the Department will have regard to the net cost to the Exchequer.

Defra is currently conducting a procurement according to EU requirements to outsource its IT provision, and award of contract is expected in June 2004. The contract will be evaluated in line with the above policy and will also follow the latest Government guidance on tax planning and tax avoidance. It is expected that around 300 staff will transfer to the new supplier under TUPE (Transfer of Undertakings (Protection of Employment) 1981) arrangements.

There was no spend on off shore IT or off shore call centre outsourcing in 2002–03 and in the current year is nil to date. No sum has been budgeted for off shore outsourcing for the years 2004–05 and 2005–06.

Sheep Dips

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest advice is that she has offered to those who use organophosphates for sheep dipping. [148305]

Mr. Bradshaw *[holding answer 15 January 2004]:* Since 1995 the sale and supply of OP sheep dips has been restricted to those holding a Certificate of Competence in the Use of Sheep Dips awarded by the National Proficiency Tests Council (NPTC). The training course run by the NPTC covers the use and handling of sheep dips before, during and after dipping.

In addition the Health and Safety Executive has issued to all sheep farmers an advisory leaflet on sheep dipping. This includes specific advice on the handling and use of OP sheep dips. This leaflet was last revised in 1998.

In November 1999 the VMD also distributed to all holders of the NPTC Certificate of Competence in Sheep Dipping an A4 laminated sheet highlighting the risks of exposure to OP concentrate. Agricultural merchants are required to supply copies of this advisory sheet to all purchasers of sheep dips, together with protective gloves.

Advice on the safe use and handling of each specific OP sheep dip product is also included on the product label. These were last revised when OP sheep dips were returned to the market in containers with fully enclosed delivery systems in 2001–02.

Sugar Beet

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the annual sugar consumption in the United Kingdom she estimates is met by domestic sugar beet production. [148611]

Alun Michael: It is not possible to give an estimate of the percentage of the annual sugar consumption in the UK which is met by domestic sugar beet production. This is due to several reasons. Firstly, it is not possible to distinguish between exports of sugar produced from imported sugar cane and exports of sugar produced from domestic sugar beet. Secondly, not all sugar is consumed directly, it is also manufactured into many processed products. Although those processed products may be produced in the UK, they may not be consumed here.

However, the Department produces data on the annual total production of sugar (on a refined basis) from domestic sugar beet and supplies for the UK market. These figures are published annually in "Agriculture in the United Kingdom". Copies are available in the House Library or on the Defra website at www.defra.gov.uk/esg. The latest figures available are for 2002 and are provisional. A total of 1,390,000 tonnes of sugar were produced from sugar beet in 2002. The UK imported 1,309,000 tonnes of sugar and exported 487,000 tonnes of sugar. Thus; the total new supply of sugar available for use in the UK in 2002 was 2,212,000 tonnes (see Table 1 as follows). UK production as a percentage of new supply, which is the commonly used measure of self sufficiency, was 63 per cent. in 2002.

Table 1. Sugar production in the UK in 2002[1]

Calendar year 2002 (provisional)	*Sugar (thousand tonnes refined basis)*
Production[2]	1,390
Imports from:	
the EU	186
the rest of the world	1,123
Exports to:	
the EU	104
the rest of the world	383
Total new supply	2,212
Production as percentage of total new supply for use in the UK	63

[1] Extracted from "Agriculture in the United Kingdom 2002"
[2] Sugar coming out of the factory in the early part of the new year is regarded as being of the previous calendar year's production.

TREASURY

Air Passenger Duty

John Barrett: To ask the Chancellor of the Exchequer what assessment he has made of the case for changes in the basis of air passenger duty from payment per passenger to payment per flight, and for relating it to the

amount of carbon dioxide and other pollutants produced during the flight; and if he will make a statement. [147831]

John Healey: The use of economic instruments to encourage the aviation industry to take account of and, where appropriate, reduce its contribution to global warming, local air pollution and noise pollution was considered in the Air Transport White Paper, published in December 2003. The White Paper supported widened use of airport charges linked to the level of local noise and air pollutant emissions. In addition, we announced that, as part of the Government's commitment to using economic instruments to help tackle greenhouse gas emissions, the UK will push hard at international level to secure agreement on including aviation in the EU's emissions trading scheme.

Levels of all taxes, including air passenger duty, are reviewed Budget-by-Budget, taking account of a range of social, economic and environmental considerations.

Financial Products (Risk Warnings)

Mr. David Stewart: To ask the Chancellor of the Exchequer what assessment he has made of the need for a risk warning to be attached to *(a)* all financial products and *(b)* documentation about pensions. [148381]

Ruth Kelly: The Financial Services Authority requires regulated financial products to be promoted in a manner that is clear, fair and not misleading.

In particular, for investment products it requires firms to adequately describe the risks involved. In the case of personal and stakeholder pensions, it specifically requires firms to explain those risks to the consumer before the product is bought.

The Department of Trade and Industry is currently consulting on the provision of risk warnings for consumers as part of its ongoing review of the Consumer Credit Act 1974.

Tax Credits

Mr. David Stewart: To ask the Chancellor of the Exchequer (1) what plans he has to develop a substitute eligibility test for working tax credit fast-track; [148388]

(2) what plans he has to conduct a reappraisal of the fast-track eligibility rules for claiming working tax credit. [148389]

Dawn Primarolo: There are no plans to change the eligibility rules. As with other issues, we continue to keep the policy under review.

Unemployment (Warrington, North)

Helen Jones: To ask the Chancellor of the Exchequer what the change in the level of unemployment in the Warrington North constituency has been since 1997. [148248]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Helen Jones dated 19 January 2004:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment in the Warrington North constituency. I am replying in his absence. (148248)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following the internationally standard International Labour Organisation definitions. For Parliamentary constituencies, information about unemployment rates, but not levels, is available. However, the LFS sample size is too small to give reliable estimates of unemployment in the Warrington North constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including Parliamentary constituencies. The annual average number of JSA claimants in the Warrington North constituency decreased by 763 from 2,041 in 1997 to 1,278 in 2003.

Armed Forces (Departure Payments)

Mr. Gerald Howarth: To ask the Chancellor of the Exchequer whether the proposed early departure payments for members of the Armed Forces which will replace pension payments will attract national insurance contributions. [147575]

Dawn Primarolo: The early departure payments will not attract national insurance contributions, since they will be made under a statutory scheme and would not be considered as earnings derived from employment.

Banking Regulation

Keith Vaz: To ask the Chancellor of the Exchequer which banks have a licence to operate in the UK; and when each received its licence. [149498]

Ruth Kelly: Under the Financial Services and Markets Act (2000), banks, building societies and credit unions are authorised by the Financial Services Authority to accept deposits in the UK.

Details of the banks and other institutions which are authorised with permission to accept deposits in the UK and the date when they received authorisation can be found on the Financial Services Authority's website (www.fsa.qov.uk).

Child Tax Credit

Mr. Webb: To ask the Chancellor of the Exchequer if he will estimate the cost to the Exchequer per year of increasing by 100 per cent. the rate of child tax credit in respect of children under five. [148619]

Dawn Primarolo: The annual cost would be approximately £3 billion per year.

Mr. Bercow: To ask the Chancellor of the Exchequer how many people in the Buckingham constituency *(a)* have applied for, *(b)* are eligible for and *(c)* received the child tax credit in 2003–04. [149191]

Dawn Primarolo: The estimated number of families receiving tax credits in the Buckingham constituency at 3 July 2003 is shown in "Child and Working Tax Credit Statistics. Geographical analyses—July 2003", which is on the Inland Revenue website at: www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.

htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty. Estimates for January 2004 will be published on 30 January 2004.

No estimates are available at the constituency level of the number of people who have claimed tax credits or who are eligible for them.

Citizen Information Project

Annabelle Ewing: To ask the Chancellor of the Exchequer (1) on what dates he has met Scottish Ministers to discuss the Citizen Information Project and its implications for Scotland; [147920]

(2) how many members of staff have been seconded from the Register Office for Scotland to work on the Office of National Statistics' Citizen Information Project; [147921]

(3) whether the Office for National Statistics' Citizen Information Project will cover information held by offices and agencies responsible to the Scottish Executive; [147922]

(4) which parts of the Citizen Information Project's current work programme includes matters of responsibility for the Scottish Executive; and what reporting procedures have been put in place for this work. [147923]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Ms Annabelle Ewing, dated 19 January 2004:

The National Statistician has been asked to reply to your Parliamentary Questions on the Citizen Information Project. I am replying in his absence. (147920, 147921, 147922, 147923).

The work announced by the Chief Secretary on 6 January is about the development of a UK population register. The aim is to cover the UK because a number of the public sector organisations (such as UK Passport Service, Inland Revenue) that might supply basic data to construct the register, and that are among the potential users of the register, cover the whole of the UK. The current work is on project definition, to explore more fully the potential scope of a register and to develop a more detailed proposal.

The Chancellor has not met Scottish Ministers to discuss this work, but the project team has been in close touch with the Registrar General for Scotland and Scottish Executive officials, who have kept Scottish Executive Ministers informed of developments. The Chief Secretary has corresponded with his Cabinet colleagues, including the Secretary of State for Scotland, on several occasions. The issue of how the register might be used and taken forward in Scotland will be considered during this next stage of the project. Should legislation be required, it would be for the Scottish Parliament to decide whether any register should be used to support the administration of devolved services.

The project team will continue to work closely with the devolved administrations, other government departments, agencies and local authorities. The Scottish Executive was represented, by the Head of its 21st Century Government Unit, on the Steering Group for the project's feasibility study. The Scottish Executive and the General Register Office for Scotland will be similarly involved in the governance of the current stage of the project.

No secondments of staff to the CEP team from any organisation have yet been arranged for the current stage of the project.

I am copying this letter to the Registrar General for Scotland.

Consumer Education

Mr. Gardiner: To ask the Chancellor of the Exchequer what the total cross-government spending is on education for consumers on *(a)* financial services and *(b)* consumer credit, broken down by Department. [149449]

Ruth Kelly: This information is not held centrally and could be provided only at disproportionate cost.

We are, however, seeking to inform the work of the Financial Capability Steering Group, which informs policy development work by the Financial Services Authority, with a survey of the financial education, information and generic advice work of the principal Departments involved.

Council Tax

Mr. Edwards: To ask the Chancellor of the Exchequer what assessment he has made of the impact on council tax increases for 2004–05 of the £406 million announced in the Pre-Budget statement for local authorities in Great Britain. [147714]

Mr. Boateng: The additional £406 million announced by the Chancellor includes £340 million for local authorities in England. This means that, including the additional resources announced at the time of the provisional local government finance settlement, the Government is making an additional £760 million in grant available for local authorities in England, over and above what the last spending review originally allocated. Total Government support next year will total £54.5 billion—up from £50.8 billion for 2003/04 on a like for like basis. That represents an increase, in real terms, of 30 per cent. in central government support since 1997 and is the second year in succession that all authorities have received an above inflation increase in government grant.

Taken together with the further £750 million reduction in ring fencing that we announced in November, the additional support being provided underlines the Government's commitment to ensuring that local authorities can provide decent local services without making excessive demands on local taxpayers.

The Government believes that next year local authorities can and should deliver council tax increases in low single figures. However, decisions on council tax levels are a matter for local authorities, in consultation with their local residents, not for the Government.

Decisions on local government funding in Scotland, Wales and Northern Ireland, and the allocation of the additional resources provided by the Chancellor, are the responsibility of the Scottish Executive, the Welsh Assembly Government, and the Northern Ireland Executive, reflecting their own priorities and circumstances in the normal way.

Death Statistics

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer what estimate he has made of the number of suicides in the UK in 2003. [148837]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mrs. Iris Robinson dated 19 January 2004:

The National Statistician has been asked to reply to your recent question concerning what estimate has been made of the number of suicides in the UK in 2003. I am replying in his absence. (148837)

The most recently available information is for deaths in 2002. There were 5,736 deaths[1] with a verdict of suicide or undetermined intent[2] in the United Kingdom in 2002.

[1] Data for England and Wales are for deaths occurring in the calendar year. Data for Scotland and Northern Ireland are for deaths registered in the calendar year.

[2] Causes of death were defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34 for Scotland and Northern Ireland, and X60-X84 and Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending for England and Wales.

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer how many drownings there were in the UK in 2003. [148839]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell to Mrs. Iris Robinson dated 19 January 2004:

The National Statistician has been asked to reply to your recent question concerning how many drownings there were in the UK in 2003.1 am replying in his absence. (148839)

The most recently available information is for deaths in 2002. There were 646 deaths[1] from drowning[2] in the United Kingdom in 2002.

[1] Data for England and Wales are for deaths occurring in the calendar year. Data for Scotland and Northern Ireland are for deaths registered in the calendar year.

[2] Cause of death was defined using the International Classification of Diseases, Tenth Revision (1CD-10) code 775.7.

Economically Inactive Young People

Mr. George Osborne: To ask the Chancellor of the Exchequer how many economically inactive persons aged 18 to 24 there are; and what the number was in April 1997. [148851]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. George Osborne, dated 19 January 2004:

The National Statistician has been asked to reply to your Parliamentary Question about economically inactive people aged 18 to 24. I am replying in his absence. (148851)

The Labour Force Survey (LFS) gives information about economic inactivity for each three month period, but not for individual months. The latest available estimate, for the three month period ending November 2003, is that there were 1.32 million economically inactive people aged 18 to 24 resident in the United Kingdom during this period. The estimate for the three month period ending April 1997 is 1.13 million. These estimates are seasonally adjusted.

As with any sample survey, estimates from the LFS are subject to sampling variability.

European Council of Finance Ministers

Sir Sydney Chapman: To ask the Chancellor of the Exchequer if he will make a statement on the outcome of the Ecofin meeting on 16 December 2003, including the Government's positions on the different issues discussed. [148614]

Ruth Kelly: The Ecofin meeting scheduled for 16 December 2003 was cancelled by the Italian Presidency.

Financial Services

Mr. Love: To ask the Chancellor of the Exchequer (1) what research has been commissioned on the impact of recent developments in the life assurance and pension industry on the capital structure of organisations offering such services; and if he will make a statement; [148759]

(2) what estimate he has made of the impact of changes in the reporting of the financial position of insurance companies on those that have a mutual structure; and if he will make a statement. [148855]

Ruth Kelly: The Financial Services Authority has developed a 'twin peaks' approach to the requirements for capital to support with-profits liabilities. This compares the capital required on a prudent regulatory basis with that needed on a realistic basis to meet payments made to policyholders, including terminal bonuses. The regulator will consider the impact on individual firms, including those that have a mutual structure, and on the industry as part of further development of its reserving proposals.

Mr. Love: To ask the Chancellor of the Exchequer what estimate he has made of the impact that the Basel II accords on capital adequacy will have on mutual financial organisations; and if he will make a statement. [148760]

Ruth Kelly: The new Basel Accord will be an international agreement on prudential capital, applying mainly to internationally active banks. Implementation of the new Basel Accord in Europe will be through a new Capital Adequacy Directive, which is expected to have a broader scope covering credit institutions and investment firms (as was the case for the implementation of the existing Basel Accord). That broader scope will encompass some mutual organisations, for example building societies, although the detailed boundaries are yet to be determined. The Treasury will assess the European Commissions formal proposals in the usual way once they are issued.

Mr. Love: To ask the Chancellor of the Exchequer what impact he estimates recent changes in the regulatory regime for insurance companies will have on *(a)* projections of future returns of policy holders and *(b)* the anticipated benefits of their mutual structure; and if he will make a statement. [148871]

Ruth Kelly: The rules governing projections for policyholders are set out in the Financial Services Authority Handbook under Conduct of Business. It is for individual companies to ensure that their projections are fair and not misleading. Recent changes to introduce

a new realistic reporting regime are intended to provide the regulator with a better picture of the underlying financial strength of the industry, including mutuals.

Income Tax

Mr. George Howarth: To ask the Chancellor of the Exchequer (1) what estimate he has made of the additional revenue which would be raised from a 1p increase in *(a)* the standard rate of income tax and *(b)* the higher rate of income tax; [148711]

(2) what estimate he has made of the additional revenue which a higher rate of income tax of 50 per cent. would produce. [148712]

Dawn Primarolo: I refer my hon. Friend to the publication "Tax ready reckoner and tax reliefs December 2003" on the Treasury website: http://www.hm-treasury.gov.uk/media//AAB247pbr03_trr.pdf. The figures exclude any estimate of behavioural response to the tax change.

Inland Revenue

Mr. David Stewart: To ask the Chancellor of the Exchequer what percentage of Inland Revenue inquiry offices have textphone or similar communication aids. [148382]

Dawn Primarolo: All Inland Revenue inquiry offices are registered with the BT Typetalk service.

Mr. David Stewart: To ask the Chancellor of the Exchequer how many home visits were conducted by Inland Revenue employees in each of the last five years to provide advice to those incapable of reaching an office. [148383]

Dawn Primarolo: The Inland Revenue does not keep a central record of the total number of such visits going back over the last five years. The information could be obtained only at disproportionate cost.

Mr. David Stewart: To ask the Chancellor of the Exchequer what plans he has to establish a disabilities helpline in the Inland Revenue for *(a)* tax payers and *(b)* voluntary sector intermediaries who need access to information on disability issues. [148384]

Dawn Primarolo: At present the Inland Revenue has no plans to establish a disabilities helpline. Advisers in our telephone contact centres are trained to deal with telephone calls from the full range of taxpayers. We believe that this provides a cost effective approach to meeting taxpayer needs and the flexibility to respond to the differing requirements of our taxpayer base.

Mr. David Stewart: To ask the Chancellor of the Exchequer what percentage of public Inland Revenue offices are equipped with equipment to aid those with hearing impediments. [148386]

Dawn Primarolo: When last audited in early 2002, out of a total of 323 of Inland Revenue inquiry offices providing a face to face service, 86 per cent. had portable loop systems and 27 per cent. of them had fixed induction loop systems. We are in the process of carrying out another audit.

In spring 2003 Inland Revenue introduced a set of national standards for their inquiry offices specifying that they be equipped with a fixed and portable induction loop system, and a crystal listening device. They are progressing to all of their inquiry centres meeting this standard.

Mr. David Stewart: To ask the Chancellor of the Exchequer what percentage of Inland Revenue frontline staff have received training on disability issues. [148387]

Ruth Kelly: All new members of staff receive disability awareness material as part of the Revenue's induction process. In addition during the last three years 22,752 staff (over 32 per cent. of total staff) have attended a training course specifically covering disability issues.

During the same period over 90 per cent. of staff have received diversity awareness training which included disability related issues.

Mr. Hoyle: To ask the Chancellor of the Exchequer whether the Inland Revenue office in Chorley is equipped with equipment to aid those with hearing impediments. [149168]

Dawn Primarolo: Chorley Inland Revenue Enquiry Office is equipped with portable induction loop equipment.

Insurance Cover (Terrorism)

Mrs. Calton: To ask the Chancellor of the Exchequer what plans he has to introduce an insurance scheme to cover domestic risks during times of terrorist attack. [147886]

Ruth Kelly: We do not currently have plans to introduce a Government insurance scheme to provide terrorism insurance for risks to domestic property.

IT Projects

Mr. Webb: To ask the Chancellor of the Exchequer if he will list each information technology project being undertaken by his Department and its agencies, including the *(a)* start date, *(b)* the planned completion date, *(c)* the current expected completion date, *(d)* the planned cost and *(e)* the current estimated cost; and if he will make a statement. [147654]

Ruth Kelly *[holding answer 13 January 2004]:* A table containing the information requested has been placed in the Library of the House.

Leak Inquiries

Richard Ottaway: To ask the Chancellor of the Exchequer if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147194]

Ruth Kelly: While the Treasury has not itself instigated any formal leak enquiries since 1997, it does co-operate in cross-government preliminary enquiries at the request of other Government Departments attempting to trace the sources of leaked information.

In line with exemptions 1(a) and 7(b) set out in Part II of the Code of Practice on Access to Government Information, it has been the practice of successive governments not to comment on the outcome of such enquiries in order to safeguard security and investigative arrangements.

New Deal

Dr. Kumar: To ask the Chancellor of the Exchequer how many people have benefited from the New Deal *(a)* broken down by region and *(b)* in Middlesbrough, South and Cleveland, East (i) since 1997 and (ii) since 2001. [148403]

Mr. Boateng: Since its introduction the New Deal has helped over 970,000 individuals into work. The following tables show the regional breakdown of jobs found through New Deal programmes. The first table shows data from the programmes introduction from June 1998 onwards, and the second table since April 2001. Both tables include the jobs gained from New Deal programmes for the constituency Middlesbrough, South and Cleveland, East.

Individuals into jobs since beginning of programmes

West Midlands	20,020	9,140	11,500	6,780
East Midlands	12,060	5,570	8,330	4,940
East of England	9,150	5,100	8,590	4,380
South East	10,180	5,650	12,280	5,040
London	21,770	12,840	12,660	5,140
South West	11,520	5,890	12,830	5,770
Parliamentary constituency				
Middlesbrough, South and Cleveland, East	680	100	340	170

The New Deal for Disabled People (NDDP) had helped over 20,000 disabled people into work since its introduction. New Deal for Partners has helped over 1,700 people into work, but due to the size of the programmes there is currently no regional or constituency breakdown available for either NDDP or NDP.

Research and Development Tax Credits

Mr. Hoyle: To ask the Chancellor of the Exchequer how many firms in *(a)* Lancashire and *(b)* Chorley (i) are benefiting and (ii) have benefited from research and development tax credits. [148704]

Dawn Primarolo: This information is not available. Claims for research and development tax credits do not disclose where in the UK research and development was performed.

Stamp Duty Land Tax

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate he has made of the change in stamp duty land tax revenues in 2004-05 from *(a)* residential property, *(b)* commercial property, *(c)* anti tax avoidance measures and *(d)* securities-related transactions. [146424]

Ruth Kelly *[holding answer 8 January 2004]*: Forecast revenues from stamp taxes on Land and Property transactions and transactions in Shares are given in the table below. The forecast yields are consistent with the published PBR forecast. The yield from anti-avoidance measures was published in Table A2.1 of the Budget 2003 report.

£ million

	2003-04	2004-05
Stamp Duty	4,800	6,000
Stamp Duty Land Tax	2,700	3,300

The increase in duty on land transactions is in due to the introduction of Stamp Duty Land Tax on 1 December 2003. In particular this will:

(A) prevent the avoidance of stamp duty that was formerly common in commercial transactions, and

(B) charge duty on the grant of a new lease in a way that better reflects the economic and commercial reality'

Separate forecasts of yield for residential and commercial property are not available.

Unemployment (Chorley)

Mr. Hoyle: To ask the Chancellor of the Exchequer what the change in the level of unemployment in the Chorley constituency has been since 1997. [148494]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Lindsay Hoyle dated 19 January 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment in the Chorley constituency. I am replying in his absence. (148494)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following the internationally standard International Labour Organisation definitions. For Parliamentary constituencies, information about unemployment rates, but not levels, is available. However, the LFS sample size is too small to give reliable estimates of unemployment in the Chorley constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including Parliamentary constituencies. The annual average number of JSA claimants in the Chorley constituency decreased by 764 from 1,679 in 1997 to 915 in 2003.

Mr. Hoyle: To ask the Chancellor of the Exchequer if he will make a statement on levels of unemployment in Chorley; and what the numbers were in *(a)* 1990, *(b)* 1995, *(c)* 2000 and *(d)* 2003. [149166]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr Lindsay Hoyle, dated 19 January 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment in the Chorley constituency. I am replying in his absence. (149166)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following the internationally standard International Labour Organisation definitions. For Parliamentary constituencies, information about unemployment rates, but not levels, is available for the twelve month period ending February of each year from 1997 to 2002. However, the LFS sample size is too small to give reliable estimates of unemployment in the Chorley constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including Parliamentary constituencies. The table below shows the annual average claimant level in the Chorley constituency for the requested periods. Because of boundary changes the figures for 1990 and 1995 are not directly comparable with the later data.

People claiming Jobseeker's Allowance in the Chorley constituency

Year	*Level*
Annual average 1990	[1]2,159
Annual average 1995	[1]2,605
Annual average 2000	1,217
Annual average 2003	915

[1] Figures based on the 1981 census wards.

Unemployment (Middlesbrough)

Dr. Kumar: To ask the Chancellor of the Exchequer if he will make a statement about levels of unemployment in Middlesbrough, South and Cleveland, East; and what the rates were in *(a)* 1992, *(b)* 1997 and *(c)* 2001. [148402]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Dr. Ashok Kumar dated 19 January 2004:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment in the Middlesbrough South and East Cleveland constituency. I am replying in his absence. (148402)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following the internationally standard International Labour Organisation definitions. For Parliamentary constituencies, information about unemployment rates, but not levels, is available. The unemployment rate in the Middlesbrough South and East Cleveland constituency for the 12 month period ending February 2002 was 8.1 per cent. The LFS sample size is too small to give comparable information for 1997. LFS estimates are not available at Parliamentary constituency level for 1992. As with any sample survey, estimates from the LFS are subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including Parliamentary constituencies. The table following shows the average total level of Jobseeker's Allowance claimants and the percentage of the working age population in the Middlesbrough South and East Cleveland Constituency for 1997 and 2001. Comparable figures for 1992 are not available as the constituency did not exist in its current form at that time.

People claiming Jobseeker's Allowance in the Middlesbrough South and East Cleveland constituency

	Number	[1] *Rate*
Annual average 1997	3,462	6.1
Annual average 2001	2,427	4.3

[1] People claiming Jobseeker's Allowance as a percentage of the 2001 Census working age population adjusted to 2001 mid-year population estimates for local authorities.

TRADE AND INDUSTRY

Trade Agreements

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will make a statement on the revision of the generalised system of preferences. [148517]

Mr. Mike O'Brien: The EU's Generalised System of Preferences (GSP) scheme has traditionally operated for a series of 10-year periods. While we are currently in the cycle for 1995–2004, revisions of the current scheme were agreed at the end of 2003. Details of these revisions can be found in *Official Journal* of the EU of 19 December 2003 and 31 December 2003 (Council Regulations No. 2211/2003 and 2331/2003 respectively). The main change was a one-year rollover, with amendments to the graduation criteria. This revised GSP scheme is therefore due to end on 31 December 2005. Proposals for a new GSP scheme will need to be agreed by 31 December 2004, thus providing EU importers with 12 months' notice to plan for changes to duty rates.

The Commission has indicated its intention to begin the renegotiation process of the EU GSP scheme early this year through regular working party meetings once initial proposals have been published. Officials from my Department will lead on the consultation across Whitehall and industry and, together with colleagues from the UK's Permanent Representation to the EU, make representations on behalf of the UK at these working party meetings. The proposals will be cleared through Parliament by Explanatory Memoranda in the usual way.

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will make a statement on progress with negotiations on Economic Partnership Agreements with African, Caribbean and Pacific States which are party to the Cotonou Agreement. [148518]

Mr. Mike O'Brien: As outlined in my answer to the hon. Member's question published on 13 January 2004, *Official Report*, column 696W, no Economic Partnership Agreement (EPA) has yet been agreed between the EU and an ACP region. Phase 1 of the negotiations began in September 2002. But the EU only announced the launch of the first EPA negotiations with the Western and Central African regions—CEMAC

(Central African Economic and Monetary Community) and ECOWAS (Economic Community of Western African States) in October 2003. Launches of negotiations between the EU and other ACP regions are expected to take place later this year and to continue over several years. EPAs are expected to enter into force on 1 January 2008.

Aerospace Funding

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the funding of the Aerospace Launch Investment; and if she will break down the costs incurred by main budget head. [147805]

Jacqui Smith: Through Launch Investment partnerships the Government supports the design and development of civil aerospace projects in the UK. The information in the DTI's Departmental Report (CM 5916 published in May 2003) on the funding of the Aerospace—Launch Investment (page 85) indicates a working provision for 2002–03 of Payments of £258.2 million, Receipts (excluding Consolidated Fund Extra Receipt (CFER)) of £66.9 million and Total Receipts of £98.5 million. The actual outturn for 2002–03 was Payments of £258.2 million, Receipts (excluding CFER) of £80.7 million and Total Receipts of £109.5 million.

My Department is working closely with the industry in implementing the recommendations from the Aerospace Innovation and Growth Team (AeIGT), which reported on 11 June 2003. The Government will continue to consider applications for Launch Investment in conjunction with exploring with Industry ways to attract more private sector finance. Further information on the AeIGT can be found on the website of the Society of British Aerospace Companies at http ://www.sbac.co.uk/aeigt/.

BNFL Strategic Review

Norman Baker: To ask the Secretary of State for Trade and Industry pursuant to her written statement of 11 December 2003, *Official Report*, column 93WS, on the BNFL Strategy Review, what estimate she has made of the potential cost to the Nuclear Decommissioning Authority which will result from that body taking responsibiilty for the clean-up of the Springfields site. [148531]

Mr. Timms: The White Paper "Managing the Nuclear Legacy", published in July 2002 indicated that the costs associated with clean up of civil nuclear liabilities at the Springfields site would be around £300 million. More detailed work to quantify the precise nature and extent of legacy liabilities at the site is under way to inform the future strategy for the Nuclear Decommissioning Authority.

Broadband

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry what recent discussions she has had with BT on reducing the trigger numbers required to roll out broadband in smaller market towns. [147914]

Mr. Timms: My colleagues and I maintain regular contact with BT across a wide range of issues as we do with other broadband providers. On 17 November 2003, BT announced trigger levels for 2,300 exchanges across the country. BT has also, on more than one occasion, reduced trigger levels which it had previously set. Decisions about which exchanges should be upgraded for ADSL or what trigger levels should be, are for telecommunication companies, such as BT, to make on commercial grounds.

Lowering of trigger levels may well be one of he benefits of public sector broadband demand aggregation, which is commencing region-by-region in the coming weeks.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will state the percentage coverage of broadband in *(a)* Lancashire and *(b)* each Lancashire district. [148416]

Mr. Timms: These data are not available within Government.

Cheese Industry

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what discussions she has had with representatives of the cheese industry about the impact of the weakening dollar on the exports of UK-produced cheese; and if she will make a statement. [148175]

Alun Michael: I have been asked to reply.

The Secretary of State has had no formal meetings with representatives of the cheese industry about the impact of the weakening dollar on exports of UK produced cheese. However, Ministers and officials frequently meet representatives from all parts of the dairy supply chain and are therefore aware of the current difficulties facing UK exporters of cheese and other dairy products. Officials raised this issue with the European Commission at the Milk and Milk Products Management Committee on 15 January.

Coal Health

Mr. Clapham: To ask the Secretary of State for Trade and Industry how much money has been paid to date by the Department to solicitors for handling coal health claims, broken down by region. [147203]

Nigel Griffiths: To date the figures are as below.

£ million

	COPD solicitors costs	*VWF solicitors costs*
England	158.2	64.1
Scotland	14.1	4.6
Wales	54.8	10.2
Total	227.1	78.9

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how the funding for *(a)* coal liabilities and *(b)* coal health liabilities was allocated

in 2003–04; and what amounts were allocated in each year since 1997. [147799]

Nigel Griffiths: The allocations, as set out in the Government's Expenditure Plans are:

£ million

	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–4
Coal Liabilities	226	131.6	1 16.8	209.6	179	131. 1	93. 3
Coal Health[1]	Inc. in above	123.2	228.2	648	829.5	850	850

[1] These figures are provisional allocations. There is no cap to the allocation of funding for coal health liabilities, as the Treasury would make available to the Departmen. whatever it takes to fund coal health claims.

Company Annual Reports

Mr. Austin Mitchell: To ask the Secretary of State for Trade and Industry what plans she has to bring forward legislation requiring companies to publish in their annual reports *(a)* a table showing the annual (i) pre-tax profits and (ii) tax paid in each country and *(b)* transfer prices for intergroup transactions. [146535]

Mr. Sutcliffe: The Companies Act 1985 already requires companies to disclose their pre-tax profits and their tax charge split between UK and non-UK. There are no plans to change these requirements, or to introduce company reporting requirements on transfer pricing. Transfer pricing is taken account of in tax legislation.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Trade and Industry (1) what assessment her Department has made of the benefits of relocation of staff to North Staffordshire; and if she will make a statement; [146861]

(2) what assessment she has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146877]

(3) what assessment her Department has made of the effect of possible relocation of staff in the Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if she will make a statement; [146890]

(4) what plans she has to establish procedures for assessing the impact of possible re-location of staff in her Department to the regions; and if she will make a statement. [146920]

Ms Hewitt: I refer my hon. Friend to the reply given by the Chief Secretary to the Treasury on 12 January 2004, *Official Report*, column 516W.

Departmental Staff

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many people were employed by her Department in each year since 1992, broken down by Department. [148171]

Ms Hewitt: The Cabinet Office publishes statistics on Civil Service numbers showing staff in post figures going back to April 1990. These are available on their website: http://www.civil-service.gov.uk/statistics/archive-sip.htm

Employment Tribunals

Mr. Edward Davey: To ask the Secretary of State for Trade and Industry how many employment tribunal cases in each year since 1999 took *(a)* three months, *(b)* six months, *(c)* nine months and *(d)* 12 months to issue a decision. [147005]

Mr. Sutcliffe *[holding answer 12 January 2004]:* For each of the last four financial years, based on the information currently held in the Employment Tribunals Service's statistical database, the number of Employment Tribunal decisions recorded as having been issued three months or more after the hearing date were:

	(a) Three to six months	(b) Six to nine months	(c) Nine to 12 months	(d) 12+ months
1999–2000	94	17	6	17
2000–01	142	21	20	14
2001–02	150	32	4	6
2002–03	144	20	4	7

Source:
Employment Tribunals Service.

The Employment Tribunals Service (ETS) has a target to issue 85 per cent. of decisions within four weeks of the final hearing. In each of the last four financial years, ETS achieved the following percentages of decisions issued within that time:

	Percentage
1999–2000	84
2000–01	86
2001–02	83
2002–03	86

Source:
Employment Tribunals Service.

Engagements

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry whether she was in the United Kingdom for the whole of 13 January. [148722]

Ms Hewitt: Yes.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will list her engagements for 13 January. [148723]

Ms Hewitt: I had a full programme of departmental and private appointments.

European Structural Funds

Adam Price: To ask the Secretary of State for Trade and Industry whether the additionality requirements under the European Structural Funds regulations have been met by the UK Objective 1 programmes at their mid-term stage. [148434]

Jacqui Smith: There are no specific additionality requirements that have to be met under the European Structural Funds regulations at the mid-term point. The purpose of the mid-term verification exercise is to determine whether a member state's economic position has changed to the extent that some adjustment is required to its programmes.

As stated in my reply to the hon. Member's earlier question on 13 January 2004, *Official Report*, column 701W, data supplied to the Commission in December for the UK Objective 1 programmes demonstrated that for each programme the average annual expenditure for the period 2000–02 was equal to or better than that forecast in the 2000–06 ex-ante tables published in the original Single Programming Documents for each Objective 1 area. As a result, there will be no need for adjustment of any of the Objective 1 programmes.

Fuel Poverty (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Trade and Industry how many fuel poor households there are in each district council area in Cambridgeshire; and what her estimate is of how many *(a)* children and *(b)* elderly people are living in fuel poor households. [146443]

Nigel Griffiths: The available information from the English House Condition Survey indicates that, in 2001, there were 139,000 fuel poor households in the Eastern Region. This is based on fuel poverty defined as occurring when a household needs to spend more than 10 per cent. of its income on all fuels in order to maintain a satisfactory heating regime.

More detailed breakdowns within the Eastern Region are not available from this survey as the sample size is not large enough to enable reliable detailed estimates of fuel poverty at a more local level to be produced.

Gas Quality

Mr. Tynan: To ask the Secretary of State for Trade and Industry pursuant to the written statement of 8 January 2004, *Official Report*, columns 13–14WS, on gas quality, what assessment she has made of the number of domestic appliances that would require *(a)* replacement and *(b)* modification as a consequence of change to the upper Wobbe Index limit for domestic gas supplies; and what assessment has been made of the cost of (i) processing and (ii) blending. [149222]

Mr. Timms: The Department is considering these important issues, working together with the Health and Safety Executive (HSE), Office for Gas and Electricity Markets (Ofgem), and other interested parties, with a view to preparing the public consultation document referred to in my written parliamentary statement of 8 January 2004, *Official Report*, columns 13–14WS.

Industrial Disease

Mr. Clapham: To ask the Secretary of State for Trade and Industry what the average full and final settlement paid to former miners and their families is for *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease; and how many settlements were less than (i) £1,000, (ii) £500 and (iii) £200. [147264]

Nigel Griffiths: To date the figures are:

Settlement value	*COPD*	*VWF*
Less than £1,000	21,418	2,647
Less than £500	9,475	193
Settlements less than £200	3,413	8
Average settlement value[1]	£7,729	£8,168

[1] Excludes denials.

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many of the full and final settlements for chronic obstructive pulmonary disease were reduced because of a smoking history; what percentage of the total number of such settlements this represents; and what the average value was of the reductions made. [147265]

Nigel Griffiths: As of mid January 2004 the number of full and final settlements reduced because of a smoking history is 59,993. This represents 64 per cent of total settlements.

Manufacturing Jobs

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how many manufacturing jobs have been created in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [148219]

Jacqui Smith: Although it is possible to give net change figures for manufacturing jobs in Lancashire and Chorley (see table) information about the number of jobs created is not kept in an easily accessible form. It is not therefore possible to answer this question accurately.

Total numbers of manufacturing jobs by year

	Chorley	*Lancashire*
2000	4,300	129,100
2001	3,800	117,600
2002	3,400	115,700

Miners' Compensation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what steps her Department is taking to ensure the fastest possible completion of compensation payments to former miners for *(a)* chronic bronchitis and emphysema and *(b)* vibration white finger. [146116]

Nigel Griffiths: The DTI is working closely with the medical assessment organisation, IRISC, (The Department's claims handlers), solicitors and other representatives of miners and their families to process and settle claims as quickly as possible. So far almost £2 billion has been paid to over 300,000 such miners, their widows and families.

John Mann: To ask the Secretary of State for Trade and Industry how many solicitors firms are known to have charged additional fees, above agreed Government fees, for miners' compensation. [147762]

Nigel Griffiths *[holding answer 13 January 2004]:* On 18 December 2003 I wrote to all 515 firms of solicitors dealing with coal health claims, seeking clarification of whether they charged additional fees and asking those solicitors who had taken a proportion of miners' compensation to repay the money to claimants and their families. I have asked that they provide a response by the 23 January 2004.

To date I have received 160 replies, who all but one have confirmed that they do not double charge. We believe that certainly three other firms have been charging some additional fees, one of which has agreed to repay them.

Adam Price: To ask the Secretary of State for Trade and Industry what the terms of the arrangements agreed are between her Department and the Union of Democratic Mineworkers with regard to the union's subsidiary company established to process claims under the miners' compensation scheme. [148287]

Nigel Griffiths: The term of the Claim Handling Agreement for all miners' compensation schemes are available in the Libraries of the House or on web.

Adam Price: To ask the Secretary of State for Trade and Industry whether her Department has made representations to the Union of Democratic Mineworkers about the union's policy on charging legal fees for processing miners' compensation claims. [148288]

Mr. Timms: No, nor has the hon. Member ever asked me to.

Adam Price: To ask the Secretary of State for Trade and Industry to which organisations her Department wrote in December 2003 in relation to legal fees in the Miners' Compensation Scheme; and if she will publish the texts of the letters. [148289]

Nigel Griffiths: I have placed a copy of my letter in the Libraries of the House.

Mobile Phone Companies

Keith Vaz: To ask the Secretary of State for Trade and Industry when she last met the chief executives of *(a)* O2 and *(b)* Orange. [148159]

Mr. Timms: I last met with John Allwood CE Orange UK on 17 December 2003 and Dave McGlade CEO O2 on 18 November 2003. Officials meet regularly with both companies.

My right hon. Friend the Secretary of State for Trade and Industry has not met on a one-to-one basis with either Chief Executive.

Nanotechnology

Norman Baker: To ask the Secretary of State for Trade and Industry what her policy is on the patenting of carbon molecules as part of nanotechnology development. [147226]

Ms Hewitt *[holding answer 12 January 2004]:* The policy relating to the patenting of carbon molecules in the field of nanotechnology is that the usual patentability criteria, including novelty, inventive step and industrial application, must be satisfied.

National Grid

Brian Cotter: To ask the Secretary of State for Trade and Industry what assessment she has made of the maintenance work that needs to be carried out on the National Grid; and if she will hold meetings with National Grid Transco to discuss the matter. [148318]

Mr. Timms: National Grid's maintenance regime is being considered as part of the DTI's Engineering Inspectorate investigation into the major power failures in London on 28 August 2003 and in Birmingham on 5 September 2003. My right hon. Friend the Secretary of State for Trade and Industry expects to meet with representatives from National Grid Transco shortly.

North West Regional Development Agency

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how many businesses in *(a)* Lancashire and *(b)* Chorley have been helped by the North West Regional Development Agency. [148702]

Jacqui Smith: I have been advised by the Northwest Development Agency (NWDA) Chief Executive that the NWDA does not monitor its outputs by sub region or town.

The NWDA are working with all Sub Regional Partnerships on a sub regional agenda to deliver the Regional Economic Strategy (RES).

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how much money from the North West Regional Development Agency has been spent in *(a)* Cumbria, *(b)* Lancashire, *(c)* Greater Manchester, *(d)* Merseyside and *(e)* Cheshire in each of the last three years. [148703]

Jacqui Smith: I have been advised by the Northwest Development Agency (NWDA) Chief Executive that the NWDA does not allocate its funding on a sub-region basis. NWDA's total expenditure for the last three financial years was:

millions

Financial Year	*Expenditure*
2003–04	[1] 345
2002–03	306
2001–02	292

[1] Budget

Olympic Bid

Mr. Rosindell: To ask the Secretary of State for Trade and Industry what her policy is on the Royal Mail donating money to London's Olympic bid. [147709]

Mr. Timms: The decision by Royal Mail to donate money to London's Olympic bid is an operational matter for the board of the company.

Parliamentary Debates

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will make a statement on the reasons for her decision not to respond to the debate on the future of the Post Office in Her Majesty's Official Opposition time initiated by the Shadow Secretary of State for Industry, the hon. Member for Eddisbury. [148724]

Ms Hewitt: Even though the debate was on an opposition motion, no Shadow Cabinet Minister was present on the opposition Front Bench, and there was therefore no automatic need for a Secretary of State to be present. On behalf of the Government, my hon. Friend the Minister for Energy, E-Commerce and Postal Services made an excellent speech.

Personal Computers

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the £500 annual exemption from the taxable benefit on loaned personal computers introduced in the Finance Act 1999; and what steps are being taken to promote awareness of the exemption. [146140]

Dawn Primarolo: I have been asked to reply.

The information on which to make an estimate is not available. But on 19 January my right hon. Friend the Secretary of State for Trade and Industry launched a major campaign, the Home Computing Initiative, to encourage employers to take advantage of this exemption and lend computers to their employees.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportion of private sector employees who received computers as a result of employer-provided home computing initiatives in each year since 1997. [146141]

Dawn Primarolo: I have been asked to reply.

The information requested is not available.

Post Office

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what talks she has had with trade unions over the future of the Post Office. [148417]

Mr. Timms: DTI Ministers and officials meet with union representatives on a regular basis to discuss a wide range of issues.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* job losses in the Post Office and *(b)* the future of the Post Office. [148418]

Mr. Timms: Job losses in Royal Mail are an operational matter for the Board of Royal Mail in consultation with the unions. They are regrettable, but the Government accepts that cuts are necessary to stem company losses. The company is committed to achieving this through natural wastage, voluntary redundancy and redeployment of surplus staff within other parts of the business, under an agreement reached with the unions.

The company is now in year two of its three-year renewal programme to secure the future of the company. Progress is encouraging so far, but there is still some way to go. The Government is looking to the Royal Mail Board to drive through the renewal programme and return the company to profitability.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will make a statement on the future post office network in Chorley. [148645]

Mr. Timms: The Government remain fully committed to maintaining a nationwide network of post offices and have invested very substantial sums in supporting the modernisation of the network. I understand that Post Office Ltd. expects to put forward for public consultation its area plan proposals under the urban reinvention programme for Chorley constituency in February or March.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer given on 8 January 2004, *Official Report*, column 445W, on post offices, what changes there have been to *(a)* the number of post offices in each constituency and *(b)* the number which transact more than 40 per cent. of their work volumes on behalf of the Benefits Agency since 9 January 2003. [148782]

Mr. Timms: Post Office Ltd. updates annually its list by parliamentary constituency of post offices, classified as urban or rural. The most recent list available shows the position as at end April 2003 and a copy is available in the Libraries of the House.

A special exercise was undertaken by the Post Office in 1999 to determine the numbers of post offices in each parliamentary constituency and how many of them derive more than 40 per cent. of their income from benefits work. That information is set out in the reply given to the then hon. Member for Birmingham on 29 November 1999, *Official Report*, column 22W, and remains the latest information available in that form.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry which post office branches in the 20 per cent. most deprived wards in England have *(a)* been the subject of a closure consultation, *(b)* had their proposal (i) modified and (ii) withdrawn after public consultation and *(c)* closed as a result of the Urban Reinvention Programme. [149179]

Mr. Timms: Decisions on post office closure proposals under the urban reinvention programme following public consultation are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry which sub-postmasters of branches in the 20 per cent. most deprived wards in England have *(a)* applied for compensation to close their business and *(b)* been successful in their application; and how much has been paid to them to date. [149180]

Mr. Timms: Decisions on compensation to sub-postmasters are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what definition of contiguous population is used by the Post Office for classification of post offices as urban for the purposes of closure; and if she will make a statement. [149213]

Mr. Timms: The classification of a post office branch as urban or rural is an operational matter for Post Office Ltd. Mapped contiguous built up areas with a population exceeding 10,000 are classified by the company as urban. The company uses a geographical mapping model that enables it to adopt a consistent approach to classification across the country.

Mr. Flook: To ask the Secretary of State for Trade and Industry when sub-post offices in Taunton will learn whether they will be considered for closure under the network re-invention programme. [148506]

Mr. Timms: I understand from Post Office Ltd. that urban reinvention area plan proposals for Taunton are scheduled for June 2004.

Annabelle Ewing: To ask the Secretary of State for Trade and Industry what representations she has made to the Scottish clearing banks about their participation in the Post Office Universal Bank. [148750]

Mr. Timms: As a result of the Secretary of State's discussions with the clearing banks to set up universal banking at the Post Office, the major financial institutions, including the Scottish clearing banks, agreed to provide access at post offices to their basic bank accounts. Those services were launched on schedule on 1 April 2003.

Access to other current accounts at post offices is a commercial matter between the Post Office and individual banks. It is Post Office Ltd. strategy to increase access to banking services. The Government would urge all banks to provide their customers with access to their accounts through post offices. But the decision to do so rests with the individual institutions.

Mr. Flook: To ask the Secretary of State for Trade and Industry how many rural sub-post offices closed in *(a)* England and *(b)* Somerset in each quarter in each of the last three years. [148505]

Mr. Timms: Post Office Ltd. maintain net quarterly closure figures by region/country, not by county and local authority. Decisions on post office closures are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what mechanisms are in place for evaluating the performance of projects undertaken by regional development agencies. [146152]

Jacqui Smith: All RDA projects have to be appraised within the rules of Government Accounting and Treasury's "Appraisal and Evaluation in Central Government" Guide (The Green Book).

To supplement this higher level guidance, the Department has worked closely with RDAs, other Departments and the Office of Project Appraisal Training to produce the "Single Programme Appraisal Guidance". The guidance covers project appraisal and evaluation of completed projects. The appraisal itself must contain an evaluation plan specific to the project, and after the project is completed, the RDA to carry out a formal evaluation and report the results. In addition, DTI has reserved the right to call in any project for post appraisal and implementation monitoring. Now that RDAs have been in operation for four years, significant numbers of projects are entering their evaluation stages.

To ensure compliance with the guidance, each RDA has a project performance and evaluation team of senior officers who are tasked with determining the success of the project, to identify lessons to be incorporated into other projects and to improve processes.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what criteria are used to measure the *(a)* success and *(b)* effectiveness of regional development agencies. [148192]

Jacqui Smith: The Regional Development Agencies; funding is tied to a framework of targets relating to their functions, and responsibility for the monitoring and evaluation of progress towards achievement of these targets sits with the Government Office in each region. Their reports provide Ministers with the information required to measure the success and effectiveness of RDAs by assessing their progress towards achievement of targets and delivery of their Regional Economic Strategies and Corporate Plans.

Research and Development Tax Credits

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what new *(a)* products, *(b)* services and *(c)* processes have been developed by firms benefiting from the introduction of research and development tax credits in each year since their introduction. [148183]

Dawn Primarolo: I have been asked to reply.

This information is not available. Companies are not required to agree specific products or processes in advance with the Inland Revenue in order to claim research and development tax credits. So far there have been 8,000 claims and over 6,000 companies have benefited from research and development tax credits.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much money has been spent on research and development tax credits in each quarter since their introduction. [148184]

Dawn Primarolo: I have been asked to reply.

The available data on the cost of the research and development tax credits provided to SMEs, by quarter, are set out as follows. The costs are on a receipts basis, showing when the cost has been incurred by the Inland Revenue, we expect costs in the latest quarters to increase as further claims are received. Information on claims from large companies is not yet available.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many companies have benefited from research and development tax credits in each quarter since their introduction. [148185]

Dawn Primarolo: I have been asked to reply.

We do not have figures for the number of companies that have claimed the research and development tax credit by quarter, although we had over 8,000 individual claims and over 6,000 individual companies have benefited since the tax credits were introduced. The available figures for the number of claims received from SME's so far for research and development tax credits, by quarter, are set out as follows. Information on claims from large companies is not yet available. Claims are made by companies retrospectively and therefore we expect the number of claims in later quarters to increase further as more claims as received.

Post Offices

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will make a statement on the progress of *(a)* the network reinvention programme and *(b)* the rural subsidy for sub-post offices. [146486]

Mr. Timms: Post Office Ltd. (POL) reports on the urban reinvention programme on a quarterly basis. As at the end of December 2003:

694 offices had closed under the programme (with payments to sub-postmasters totalling £38,111,410);

46 proposals had been withdrawn or delayed for reworking during the advance notification process agreed with the consumer body Postwatch;

a further 66 proposals had been withdrawn or amended as a result of the public consultation. POL had approved 388 applications totalling £1.3 million for investment grants to modernise remaining post offices.

Regarding the rural subsidy, which I announced on 2 December 2003, this is in place and is being drawn down by Post Office Ltd. to underpin its obligation to maintain the rural network and prevent avoidable closures. £450 million has been made available over three years (2003–04, 2004–05 and 2006). This funding is having the desired impact with rural closures much reduced; the lowest number since 1994–95. There were 115 net closures in the financial year 2002–03

Call Centres

Mr. Drew: To ask the Secretary of State for Trade and Industry what Government support is available for the setting up of call centres, with particular reference to rural areas. [146487]

Mr. Timms: There is no specific Government support for the setting up of call centres in rural areas. However there is a range of business support available in certain circumstances including regional selective assistance (RSA). RSA is available to support investment and the creation or safeguarding of jobs in the assisted areas for viable projects that benefit regional and national economies and which without RSA would not go ahead.

The DTI invests £1 billion a year in support of business and of that sum £400–500 million is spent on business support schemes. RSA with an annual budget of £110 million is one of the largest business support schemes. Our aim is to use this money in a way that ensures the best possible return on investment for the UK and makes a real difference to business performance.

Small Business

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down how funding allocated as other support for small business has been awarded in 2003–04; and what amounts were allocated in each year since 1997. [147794]

Nigel Griffiths: I refer the hon. Member to Chapter 8 of the DTI Departmental Report 2003(Cm 5916) which

sets out expenditure on small business programmes as a whole; and in particular to figure 8.5 on page 104 of that report (reproduced below). The figures in the table below incorporate those in Annex Bl on page 207 of the Report, including funding allocated as Other Support for Small Business.

Figure 8.5 Expenditure on small business and enterprise Main estimates 2003–04 RfRl Functions A, M and V (promotion of enterprise, innovation and productivity)

£ million

	2001–02 Outturn	*2002–03 Working Provision*	*2003–04 Plans*	*2004–05 Plans*	*2005–06 Plans*
Small Business Service (and corresponding earlier activity)	274.8	423.4	404.8	367.0	387.0
Of which: Local Network[1]	141.2	143.4	144.0	144.0	144.0

Business Incubation Fund	0	20.0	25.0	0	0
Other Support	30.1	34.7	26.8	14.0	14.0

[1] The Local Network includes Start-ups; Core Services funding; and Local Network Development.

Similar information on expenditure on small business and enterprise is contained within corresponding reports for earlier years (Cm 5416; Cm 5112; Cm 4611; Cm 4211), although direct comparisons may be inappropriate due to departmental reorganisation. The outturn for those years was as follows:

£ million

1997–98 Outturn	*1998–99 Outturn*	*1999–00 Outturn*	*2000–01 Outturn*
171.3	152.0	194.1	277.2

Spectrum Efficiency Scheme

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down how funding for the Spectrum Efficiency Scheme has been allocated since the scheme's inception; and what amounts have been allocated in each year since 1997. [147793]

Mr. Timms: Arrangements for the Spectrum Efficiency Scheme were agreed between DTI and Treasury in 2002. Only one year of funding for 2003–04 was agreed at the time owing to the transfer of the Radiocommunications Agency's functions into Ofcom.

The Spectrum Efficiency Scheme had an annual budget of £5 million in 2003–04 as agreed in the 2000 Spending Review. There are two components to this budget; (1) compensation payments for spectrum replanning and (2) research.

No compensation payments were made during 2003–04 but research contracts were let to the value of £2,866,000.

Details of the contracts awarded in 2003–04 are available on the Ofcom website(http://www.ofcom.org.uk/static/archive/ra/rahome.hto

A call for expressions of interest in the research element of the 2004–05 Spectrum Efficiency Scheme has just been announced by Ofcom. The budget of £5 million is expected to be shared between compensation payments for spectrum replanning, and research.

Statutory Sick Pay

Mr. Goodman: To ask the Secretary of State for Trade and Industry how many people employed in her Department have claimed statutory sick pay for *(a)* less than one week, *(b)* one to three weeks, *(c)* four to six weeks, *(d)* seven to 12 weeks, *(e)* 13 to 20 weeks and *(f)* 21 to 28 weeks in each year since 1997. [148633]

Ms Hewitt: The work involved for my Department to gather the requested information would exceed the disproportionate cost threshold.

The recent AON Limited report "Analysis of Sickness Absence in the Civil Service, 2002" is a useful source of reference for some sickness absence data.

Trade Statistics

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what the volume of United Kingdom trade has been with *(a)* Singapore, *(b)* Thailand, *(c)* Malaysia, *(d)* Vietnam, *(e)* Cambodia and *(f)* Laos in each of the last five years. [148218]

Mr. Mike O'Brien: The information is in the following table.

UK trade in goods with Singapore, Thailand, Malaysia, Vietnam, Cambodia and Laos January to October

£ million

Country	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
UK exports						
Singapore	1,615	1,604	1,627	1,604	1,459	1,288
Thailand	391	466	581	596	532	469

Overseas Trade Statistics of the United Kingdom, HM Customs and Excise.

Vehicle Exports

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what discussions she has had with representatives of the car industry on exports of UK built *(a)* cars, *(b)* vans and *(c)* trucks. [148419]

Jacqui Smith: I have frequent discussions with individual automotive manufacturers and with the SMMT, covering a broad range of issues touching on the competitiveness of the automotive industry, including those which impact on exports. It has been pleasing to see that manufacturers in the UK have in general been very successful in improving their export performance over recent years, often in markets which have been particularly tough.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will list the number of new UK built *(a)* cars, *(b)* vans and *(c)* trucks exported in each of the last three years. [148473]

Jacqui Smith: A breakdown of UK vehicle production for export is attached. The light commercial vehicle figure comprises vans, and also van-derived minibuses. Full figures for 2003 are yet to be published, but the table includes an estimate based on published data to end-November.

	Cars	*Light CVs*	*Heavy CVs*	*Buses*
2000	1,062,990	71,667	4,220	294
2001	894,204	91,127	4,776	321
2002	1,047,668	109,308	4,702	225
2003 estimate	1,137,000	96,700	4,200	200

World Trade Organisation

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will list the members of the World Trade Organisation, broken down by the size of their *(a)* gross domestic product and *(b)* per capita income. [146643]

Mr. Mike O'Brien: The Government do not produce their own data on these categorisations, but instead draw on publicly available information produced by international organisations such as the IMF and the World Bank. I will write to the hon. Member enclosing this information and will place a copy of the letter in both Libraries of the House.

CONSTITUTIONAL AFFAIRS

Fines

Mr. Forth: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what his estimate is of the revenue cost as a result of *(a)* unpaid and *(b)* uncollected fines in the last five years; [147966]

(2) what proportion of fines were not *(a)* paid and *(b)* collected in the last five years. [147967]

Mr. Leslie: Information on fines imposed and collected is provided by the 42 Magistrates Courts Committees (MCCs) in England and Wales. A new data collection procedure was implemented in 1999–2000. Comparable figures are therefore only available from that period, and are set out in the table.

In addition, last year, I agreed to a revision of the enforcement payment rate target so that it focuses clearly on fines.

The April to November row of the table sets out year-to-date performance on the basis of the new formula which excludes other financial penalties such as confiscation orders.

England and Wales

Period	*Total imposed*	*Total paid*	*Payment rate (%)* [1]	*Total arrears outstanding* [2]
1999–2000	431,111,249	267,326,873	62	227,361,076
2000–01	384,958,059	242,455,701	63	225,908,941
2001–02	387,020,885	228,122,287	59	246,481,521
2002–03	425,863,782	236,320,110	55	276,870,306
April-November 2003	247,135,001	139,353,460	72	[3]—

[1] Payment rate percentage for periods 1999–2000, 2000–01, 2001–02, and 2002–03 was based on amount paid divided by new amount owed. For the period April-November 2003 as a result of the Minister's statement on 25 June 2003 the payment rate has changed to: amount paid divided by new amount owed less amount judicially cancelled. Therefore a direct comparison can not be made between the payment rate for April-November 2003 and previous years.

[2] Total arrrears outstanding includes arrears outstanding from previous years

[3] Total arrears outstanding for the Year to Date ending November 2003 is not currently available

Mr. Syms: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of fines levied by the courts were collected in full in the last year for which figures are available. [148335]

Mr. Leslie: Information on fines imposed and collected is provided by the 42 Magistrates Courts Committees (MCCs) in England and Wales. Figures for the financial year 2002–03 are set out in the table.

In addition, last year, I agreed to a revision of the enforcement payment rate target so that it focuses clearly on fines.

The April to November row of the table sets out year-to-date performance on the basis of the new formula which excludes other financial penalties such as confiscation orders.

England and Wales

Period	Total imposed	Total paid	Payment rate %[1]	Total arrears outstanding[2]
2002–03	425,863,782	236,320,110	55	276,870,306
April-November 2003	247,135,001	139,353,460	72	[3]—

[1] Payment rate percentage for 2002–03 is based on amount paid divided by new amount owed. For the period April-November 2003 as a result of the Minister's statement on 25 June 2003 the payment rate has changed to: amount paid divided by new amount owed less amount judicial cancelled. Therefore a direct comparison can not be made between the payment rate for April-November 2003 and previous years.

[2] Total arrrears outstanding includes arrears outstanding from previous years

[3] Total arrears outstanding for the Year to Date ending November 2003 is not currently available

Immigration Appellate System

Mr. Crausby: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the cost was in each of the last five years of the administration of the Immigration Appellate System. [147783]

Mr. Lammy: The costs of the administration of the Immigration Appellate system in each of the last five years are as follows:

	£ million
1998–99	[1]67.3
1999–2000	[1]77.5
2000–01	116.8
2001–02	181.1
2002–03	269.8

[1] The costs of administration of the Immigration Appellate System for these years are estimates. Detailed financial reporting information was not available to capture the full cost of administering the process.

These figures include the cost of administering the Immigration Appellate Authority, the Legal Services Commission, provision of legal aid and the Department for Constitutional Affairs Asylum Policy and Programme Division.

The rising costs reflect a significantly increased caseload (reflecting the clearance of the backlog of cases) and the Government priority that has been given to fast and effective processing of asylum claims—in order to ensure the end to end system is as cost effective as possible.

Access to Justice

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what measures are being taken to increase access to justice for the disadvantaged. [146667]

Mr. Lammy: Since the introduction of the Community Legal Service (CLS) in 2000, it has improved access for those who are financially eligible to good quality civil legal and advice services. In many areas local CLS providers have linked up with other government programmes jointly to help people climb out of social exclusion.

Spending on the CLS in 2002–03 totalled £814 million and is expected to rise to £913 million for 2003–04. The eligibility criteria for assistance and the identification of priority unmet need within CLS Partnership Strategic Plans ensure that help is given to those most in need.

For the Criminal Defence Service (CDS), the Legal Services Commission manages contracts with solicitors' offices which provide a comprehensive national network of quality assured legal services. It has established a Public Defender Service in eight offices. Outside the major urban areas, and particularly in rural areas, the Commission continues to provide CDS arrangements which support and encourage supply in ways which recognise the need for access to quality services. Spending on the CDS in 2002–03 totalled £1,095.7 million and is expected to rise to £1,202.9 million for 2003–04.

My Department and the Commission, with the help of independent consultants, is carrying out a major review of the CLS, including an examination of the extent to which the CLS ensures access to justice, and a review of supply, demand and purchasing arrangements for both the CLS and the CDS. We hope to publish the findings on the reviews soon.

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps the Department is taking to ensure access to justice. [146675]

Mr. Lammy: My Department, together with the Legal Services Commission, continues to develop the Community Legal Service (CLS). The CLS ensures that publicly funded legal services are targeted more effectively at areas of priority need as identified at a local level by Community Legal Service Partnerships. Since the launch of the CLS in April 2000 more than 200 Community Legal Service Partnerships have been set up, covering more than 99 per cent. of the population of England and Wales. Spending on the CLS in 2002–03 totalled £814 million and is expected to reach £913 million in 2003–04.

For the Criminal Defence Service the Legal Services Commission manages contracts with solicitors' offices which provide a comprehensive national network of quality assured legal services. It has established a Public Defender Service in eight offices. Outside the major urban areas, and particularly in rural areas, the Commission continues to provide CDS arrangements which support and encourage supply in ways which recognise the need for access to quality services. Spending on the CDS in 2002–03 totalled £1,095.7 million and is expected to rise to £1,202.9 million for 2003–04.

My Department and the Commission, with the help of independent consultants, is carrying out a major reviews of CLS, including an examination of the extent to which the CLS ensures access to justice and of supply, demand and purchasing arrangements for both the CLS and the CDS. We hope to be able to publish the findings on the reviews in due course.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the funding allocation for video equipment in courts was for each of the last seven years; and by what percentage it changed in each of those years relative to the proceeding year. [147675]

Mr. Leslie: Prior to 2000, funding for video equipment was provided from local budgets and there is no central record of overall expenditure.

My Department spending on video equipment for prison links vulnerable and intimidated witness cases, electronic presentation of evidence cases and playback of police interviews is shown in the following table.

	Amount (£)	*Percentage change*
2000–01	1,350,000	—
2001–02	5,170,000	+282
2002–03	2,950,000	−42
2003–04	5,700,000	+93

Courts Service

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what system is in place within the Department to ensure that concerns about practical issues impacting negatively on the business of courts from those judges responsible for modernisation in the courts are brought to the attention of the relevant Minister and responded to accordingly. [147667]

Mr. Leslie: The Secretary of State and Ministers meet senior members of the judiciary periodically, and modernisation issues are among those discussed.

In addition, we have agreed and put in place detailed consultation arrangements with the judiciary to ensure their views are reflected fully in the modernisation programme. I am briefed by officials on issues arising from these consultations.

Departmental Relocation

Ms Walley: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what assessment the Department has made of the benefits of relocation of staff to North Staffordshire; and if he will make a statement; [146859]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146875]

(3) what assessment the Department has made of the effect of possible relocation of staff in the Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146889]

(4) what plans he has to establish procedures for assessing the impact of possible re-location of staff in the Department to the regions; and if he will make a statement. [146919]

Mr. Leslie: I refer to the answer given by my hon. Friend the Chief Secretary to the Treasury on 12 January 2004, *Official Report*, column 516W.

Ms Walley: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many staff in the Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146904]

Mr. Leslie: The Department and its agencies (the Court Service and the Public Guardianship Office) employs:

(a) 689 staff in West Midlands, of which 49 are casual employees and

(b) 159 staff in Staffordshire of which eight are casual employees.

Electoral Fraud

Mr. Wyatt: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications for entry on the electoral register have been found to be fraudulent since 1997. [148725]

Mr. Leslie: This information is not collected centrally. In its report on the electoral registration process, published in May 2003, the independent Electoral Commission commented that the number of electoral fraud prosecutions in Great Britain is small.

Euro

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs in how many speeches during 2003 *(a)* he and *(b)* the Secretary of State declared support for the Government's policy on the euro. [147300]

Mr. Leslie: I refer to the answer given by my hon. Friend the Financial Secretary on 12 January 2004, *Official Report*, column 516W.

Gender Recognition

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent steps the Department has taken to promote gender recognition. [146668]

Mr. Lammy: The Department for Constitutional Affairs is responsible for Government policy on transsexual people and for the Gender Recognition Bill. The Bill, which was introduced in the House of Lords on 27 November, will see the advancement of the rights of transsexual people by giving them legal recognition in their acquired gender. From the inception in 1999 of the Interdepartmental Working Group on Transsexual People the Government have been careful to take into account the views of all those with an interest in transsexual issues, supporters and opponents. Transsexual people are a small minority group in our society and the issues around the recognition of an acquired gender are often unfamiliar to those not directly affected. Accordingly, the Government have worked closely with individual transsexual people and their representative organisations to better understand the issues and to ensure that the Bill strikes a sensible balance between their rights and the rights of others. The Department's promotion of gender recognition issues has been limited to correspondence and meetings with the transsexual community and those who have

expressed views on Transsexual policy and the Bill. My Department will continue to ensure that it regularly updates its website on transsexual issues, including the Gender Recognition Bill.

Immigration Appeal Tribunals

Mr. Bacon: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement about the Government's proposals for the judicial review of the decisions of immigration appeal tribunals. [148336]

Mr. Lammy: The Government has introduced measures in the Asylum and Immigration (Treatment of Claimants Etc) Bill to establish a new single Asylum and Immigration Tribunal. This will merge the two current tiers of appeal in asylum and immigration cases. The judicial determinations and decisions made by the new Tribunal will be final and can only be challenged in the higher courts on the grounds that a Tribunal Member has acted in bad faith.

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether a case remitted by the Immigration Appeals Tribunal may be returned to the original adjudicator. [147852]

Mr. Lammy: Pursuant to Rule 22 of the Immigration and Asylum Appeals (Procedure) Rules 2003, the Immigration Appeal Tribunal may direct a remitted appeal to be returned to the original adjudicator to determine in accordance with any directions given by the tribunal.

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of appeals remitted back from the Immigration Appeals Tribunal to the adjudicators in 2002–03 were subsequently upheld by adjudicators. [147853]

Mr. Lammy: Statistical assessment of cases remitted by the tribunal to the adjudicators indicates that in approximately 25 per cent. of remitted asylum cases this leads to the initial adjudicator decision being changed. Between 1 October 2002 to 30 September 2003 (the last full year for which information is available) this equates to 1.6 per cent. of all adjudicator asylum decisions having a different outcome following remittal and re-hearing.

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the possible outcomes of the remittal process are, with respect to the Immigration Appeals Tribunal. [147854]

Mr. Lammy: Once an appeal has been remitted from the Immigration Appeal Tribunal to the adjudicator tier of the Immigration Appellate Authority the appeal is most commonly heard by a different adjudicator, or more rarely, by the original adjudicator. The possible outcomes from the remittal process are for the appeal to be allowed, to be dismissed or withdrawn by the appellant. Following a fresh adjudicator determination, parties again have rights to seek permission to appeal to the Immigration Appeal Tribunal.

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs in what circumstances appeals are remitted back from the Immigration Appeals Tribunal to the adjudicators; what guidance is given to the tribunal on remittals; and what training tribunal members have had on remittals. [147865]

Mr. Lammy: Appeals are remitted from the Immigration Appeal Tribunal when a defect in the original adjudicator determination is revealed which the Tribunal cannot correct itself. The President of the Immigration Appeal Tribunal has not issued a formal Practice Direction relating to the remittal of appeals, but Tribunal members will take the decision to remit a case where there is no practicable alternative. Decisions are taken in the light of the overriding objective in rule 4 of the Immigration and Asylum Appeals (Procedure) Rules 2003: "to secure the just, timely and effective disposal of appeals and applications in the interests of the parties to the proceedings and in the wider public interest". Training for Tribunal judiciary includes reference to the application of procedural rules and guidance.

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of appeals which are *(a)* successful, *(b)* dismissed, *(c)* withdrawn and *(d)* remitted back to the Immigration Appeals Tribunal are (i) appeals by asylum claimants and (ii) appeals by immigration authorities. [148017]

Mr. Lammy: At the adjudicator asylum appeal, the two parties are the asylum seeker and the Home Secretary (as the initial decision-maker). Either party can apply for permission to appeal to the Tribunal and, if permission is granted, the appeal will be substantively determined. As either party can appeal, "allowed" and "dismissed" at the Tribunal do not equate to the grant or refusal of asylum.

In 2002, the Immigration Appeals Tribunal substantively determined 5,565 asylum appeals. The information requested is contained in the table below and is taken from the published Home Office asylum statistics. These figures are provisional and rounded to the nearest five. Certain elements of information relating to remitted appeals are not available and this is indicated where appropriate:

Appeals

Tribunal outcome	*Allowed*	*Dismissed*	*Withdrawn*	*Remitted*
Total	620	2,015	225	2,700
Proportion by asylum claimant	410	1,880	210	[1]—
Proportion by Home Office	215	130	15	[1]—

[1] Not available.

Late Fine Payments

Mr. Ben Chapman: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what plans he has to impose automatic sentences on those who are overdue in paying fines by a set period; [147839]

(2) what plans he has to impose automatic sentences on those who persistently fail to pay fines imposed by magistrates courts. [147840]

Mr. Leslie: There are no automatic "sentences" for fines. However the Courts Act, 2003 provides a number of new arrangements to facilitate the enforcement of fines, including mandatory automatic attachment of earnings orders if the defendant is in employment, or deductions from social security benefits if they are not working which will be applied upon first default. The Act introduces "fines officers" (who will have delegated powers), an automatic increase (to a maximum 50 per cent. of the fine) for continued non-payment of the fine, and a range of new sanctions as further steps for non-payment. These include clamping the defaulter's car and registration of the fine in a new combined register of judgments and fines. There will also be new offences for not providing means information or for providing false information to the court or fines officer. The increase and new sanctions will be piloted in six local pilot areas in a phased rollout from 23 February 2004. The new mandatory application of the Attachment of Earnings Orders and Deductions from Benefits will be piloted nationwide, together with the rollout of the new offences for non-provision of means information from 5 April 2004. Where the court is satisfied that an offender is genuinely unable to pay a fine, schedule 6 of the Courts Act introduces the alternative new sentence of fines payment work, where an offender can work off the value of the fine through unpaid work. This new provision will also be piloted in selected local pilot areas from 5 April 2004.

Persistent offenders fined in the new fines collection scheme provided by schedule 5 of the Courts Act, 2003 will be deemed "existing defaulters" (defined in paragraph 3 of schedule 5) if they have already defaulted on previous fines payments. They will be subject to automatic mandatory attachment of earnings orders (if they are employed) or deductions from benefits (if they are in receipt of benefits) upon conviction. If they default on the current fine as well, they will be subject to an increase (up to a maximum of 50 per cent.) of the fine which will only be disapplied if they stick to the required payment terms for the life of the fine. These defaulters will then be subject to the same range of further steps as the new defaulters in question (1) above, with the ultimate threat of imprisonment for wilful non-payment of the fine.

Procurement Outsourcing

Norman Lamb: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the Department's procurement policy with regard to offshore IT and call centre outsourcing; whether the Department is outsourcing IT and call centre jobs to offshore companies; to which countries the Department has outsourced these jobs; how much the Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147594]

Mr. Leslie: My Department has a number of contracts for the provision of outsourced IT and call centre services, none of which is based or supported offshore.

No money has been spent in the last two years on outsourcing IT systems to offshore companies, and no money has been budgeted for this purpose in the next two years.

My Department will keep the position under review, in the light of any emerging Government policy, as part of its overall aim to ensure that its procurement activities are based on obtaining best value for money.

Video Equipment

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many complaints have been received from *(a)* judges, *(b)* barristers and *(c)* parties to a case about the quality of video equipment and its impact on the quality of evidence in a case; [147666]

(2) what action is taken in the event that a judge raises concerns that the quality of video equipment is impacting on the balance of relative quality of evidence on a recurring basis within courtrooms; [147668]

(3) what evidence the Department has received that poor video links are affecting the quality of prosecution evidence. [147674]

Mr. Leslie: My Department does not specifically monitor or record complaints about video playback or video link equipment. My Department has received no formal complaints to date about the quality of the equipment. Maintenance contracts are in place with the suppliers to provide after installation support should any difficulties with the equipment be encountered. Any complaints or difficulties over the quality of the equipment will be referred by the court to the suppliers.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what system of monitoring is in place for parties in a case to report concerns about the quality of video equipment provided to courts. [147670]

Mr. Leslie: A Judicial Advisory Group, comprising judiciary from the Crown court, magistrates courts, county courts and tribunals, has been established to review and provide feedback on courtroom technology. This group meets on a regular basis and represents the views of the judiciary on matters such as video equipment.

The legal profession and members of the public can also use the complaints and customer service procedures, which are publicised at each court.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs on what quality criteria video equipment is chosen for use in cases which involve vulnerable and intimidated witnesses. [147671]

Mr. Leslie: The Judicial Advisory Group has been consulted about the specification for video equipment installed in Crown court centres. The Department is working with other Criminal Justice organisations to develop a standard for visual recording and playback across the Criminal Justice system. The standard is due to be published at the end of January 2004.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs how the video equipment selected for pre-trial hearings differs from that selected for criminal trials; and what criteria are used for this selection. [147672]

Mr. Leslie: The video equipment installed in 30 Crown court sites during 2003 can be used for pre-trial hearings and during criminal trials.

Voter Registration

Mr. Wyatt: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps are taken to ensure that only bona fide constituents are registered on the electoral roll. [148735]

Mr. Leslie: Applications for registration are made to individual Electoral Registration Officers (EROs), appointed by local authorities, who are responsible for compiling the electoral register as accurately as possible. The annual canvass form which is sent to all households provides information about who is eligible to register. An ERO may require a person applying to register to give additional information if they are in doubt as to whether that person is eligible to be registered. It is an offence under the Representation of the People Act 1983 to fail to comply with a request for information from an ERO, or to provide false or inaccurate information to a registration officer. The electoral register is available for public inspection which enables checks to be made that only eligible electors are on the register.

HEALTH

Acute Hospital Trusts

Dr. Richard Taylor: To ask the Secretary of State for Health how many acute hospital trusts suspend out-patient waiting lists at less than 21 weeks. [147188]

Mr. Hutton: This information is not available.

Ambulance Service (Radio Network)

Mr. Caton: To ask the Secretary of State for Health if he will make a statement on the competition for a new national radio network for the ambulance service. [147806]

Ms Rosie Winterton: An *Official Journal* of the European Commission Notice, issued in June 2002, invited suppliers to express an interest to provide a new digital radio network and associated hardware. This was separated into four "lots", which together would provide the complete new service for the ambulance service.

18 expressions of interest were received. Following a short evaluation, eight were invited to respond to an output based specification. Following this exercise, four responses were received, one of which dropped out soon after. From the remaining three, only one supplier was able to provide Lot 1 (digital infrastructure), while all three were able to provide Lot 2 (Fixed and Hand Portable Radios), Lot 3 (Control Room Dispatcher Equipment) and Lot 4 (Total Integration of all Lots at Ambulance Trusts).

Mr. Caton: To ask the Secretary of State for Health how the Government will ensure that usable spectrum is available to bidders competing to provide a new national radio network for the ambulance service. [147811]

Ms Rosie Winterton: The Radiocommunications Agency (RA), as the spectrum manager for public safety spectrum, has been working hard to meet ever increasing demands placed on the finite spectrum resource.

The radio spectrum available to the emergency services was a matter for the Public Safety Spectrum Policy Group (PSSPG).

The PSSPG published guidance in order to assist interested parties in identifying available public safety spectrum and advising as to other issues that should be taken into account. This was the case with the Ambulance Service procurement exercise. It is recognised that only the 380–385 MHz and 390–395 MHz spectrum is in the harmonised format for digital technologies and all of this is required in spectrum 'hot spots' to meet the existing airwave requirement. While spectrum in this band is available on a carefully co-ordinated regional basis, it was considered that the capacity to meet a second national network that can be planned and protected to meet the exacting requirements of public safety did not exist.

Antibiotics

Dr. Murrison: To ask the Secretary of State for Health what English acute NHS hospitals do not have antibiotic pharmacists in post. [147508]

Mr. Hutton: The information requested is not collected centrally.

Autism

Mr. Brady: To ask the Secretary of State for Health what assessment he has made of the incidence of autism in children who were vaccinated with the combined measles, mumps and rubella vaccine *(a)* before attaining the age of three and *(b)* after attaining the age of three. [145185]

Miss Melanie Johnson *[holding answer 5 January 2004]:* In the last few years a number of epidemiological studies have examined the postulated link between MMR and autism and have found no association. Some of these studies (Taylor et al, 1999; Farrington et al, 2001; Madsen et al, 2003, Jick & Kaye, 2003) have specifically looked at rates of autism in populations who have had MMR and populations who have not had MMR. These studies did not find an increased reported rate of autism in MMR immunised children when compared with children who had not had MMR. Moreover, the recent study by Farrington et al, 2001 showed no temporal association between MMR and onset of autism at any time following MMR.

Madsen KM, Hivid A, et al. A population-based study of measles, mumps and rubella vaccination and autism. New England Journal of Medicine. 2002; 347:1477–1482.

Caesarean Births

Mrs. Iris Robinson: To ask the Secretary of State for Health what percentage of births were by caesarean section in the latest period for which figures are available; and what the percentage was *(a)* five, *(b)* 10 and *(c)* 15 years ago. [148776]

Dr. Ladyman: The percentage of deliveries by caesarean section in the latest period for which figures are available and percentages for five, 10 and 15 years ago may be found in Table 3 of NHS Maternity Statistics, England: 2001–02 which can be found at www.doh.gov.uk/public/sb0309.htm. A copy of the bulletin is also available in the Library.

Care Fees

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps he has taken to monitor the fee levels offered by local authorities to finance care. [148013]

Dr. Ladyman: Central Government do not themselves routinely monitor the fee levels offered by councils. It is for local councils to develop an understanding of their local market and set fees accordingly. An annual analysis of fee levels is conducted by Laing and Buisson, independent consultants working in the care sector.

Chest Pain Clinics

Mr. Burstow: To ask the Secretary of State for Health what the average waiting times for patients to be seen for the first diagnosis at chest pain clinics after referral by a general practitioner were in each of the last 10 years for which figures are available. [147268]

Miss Melanie Johnson: Roll out of rapid access chest pain clinics started in 2000 and national coverage was achieved in 2003. Monitoring of performance began in March 2001, when 75 per cent. of patients were seen within 14 days of referral. The most recent data, for August 2003, showed 86 per cent. of patients seen within 14 days.

Terminal Illnesses (Children)

Ann Keen: To ask the Secretary of State for Health what action is being taken to ensure that there are sufficient *(a)* palliative care and *(b)* hospice beds available for children with life-shortening illnesses. [146319]

Dr. Ladyman: Funding for these services is available from primary care trusts, which are responsible for ensuring the level of health care provision required by their local population. Local authorities also fund services for disabled children. In addition, the New Opportunities Fund has provided £48 million over three years to over 130 projects in support of children with life-shortening illness and their families, and to develop more options for care. The national service framework for children, which is to be published later this year, will also address services for children with severe disability and illness.

Correspondence

Mr. Barnes: To ask the Secretary of State for Health when he will respond to the correspondence to his Department containing the Tim Parry Jonathan Ball Trust's Legacy Project study. [144455]

Dr. Ladyman: A reply was sent to Mr. Colin Parry on 14 January 2004.

Ian Lucas: To ask the Secretary of State for Health when the NHS Pensions Agency will reply to the letter of the hon. Member for Wrexham of 7 October 2003 relating to Mrs. Margaret Bryden (ref SD 40/080674/9387). [147088]

Mr. Hutton: I understand that the NHS Pensions Agency replied to the hon. Member's letter on 9 January.

Dentistry

Bob Spink: To ask the Secretary of State for Health (1) what the average starting salary of a dentist leaving training and going into *(a)* an NHS practice and *(b)* private practice was in 2003; [147595]

(2) what proportion of dentists, after training, went into *(a)* an NHS practice and *(b)* private practice in 2003. [147599]

Ms Rosie Winterton: Newly qualified dentists who wish to work in the national health service general dental services are first required to undergo one year's vocational training. The Department does not collect information on the proportion of dentists who go into NHS or private practice after training. There are relatively few dentists who do all of their dental work privately. The Office of Fair Trading's report, "The Private Dentistry Market in the U.K." stated that about 210 dental practises are totally private, out of 11,000 dental practises. Currently the starting salary for a vocational trainee dentist is £25,776 per annum.

Bob Spink: To ask the Secretary of State for Health how many dentists left training in England in each of the last five years. [147598]

Ms Rosie Winterton: The available information, for the numbers of undergraduates in the United Kingdom admitted to dental schools and of those obtaining their first qualification, for the period 1997–98 to 2001–02, is shown in the table.

UK dental schools— intake and number obtaining first qualification

Academic year	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Intake	898	868	883	920	922
Number obtaining first qualification	768	782	808	815	800

Higher Education funding Council for England, Universities and Colleges Admissions Service

Departmental Staff Absence

Mr. Lansley: To ask the Secretary of State for Health how many days have been lost to sickness absence, expressed as days per year per full-time employee, in the Department of Health in each of the last three years. [147031]

Ms Rosie Winterton: The information is shown in the table.

1 January to 31 December	*Total number of days lost to sickness absence*
2000	7,041
2001	6,939
2002	7,856

Source:
Analysis of Sickness Absence in the Civil Service (Year 2000 chart 4.1, Year 2001, chart 9 and Year 2002, chart 9).

Domiciliary Care

Sandra Gidley: To ask the Secretary of State for Health (1) how many *(a)* people and *(b)* households received domiciliary care in each year since 1997; [147309]

(2) what proportion of elderly households received *(a)* home care and *(b)* home help services in each year since 1993; and if he will make a statement. [147315]

Dr. Ladyman: Information on the number and percentage of households in England receiving home help or home care from 1993 to 2002 is shown in the table.

Number and percentage of households receiving home help or home care from 1993–2002

England Survey week in September	*Rounded numbers and percentages*		
	65 and over[2] Including double counting[3]	*Total all ages Including double counting[3]*	*Excluding double counting[3]*
Number of households

	65 and over[2] Including double counting[3]	*Total all ages Including double counting[3]*	*Excluding double counting[3]*
1997	8.1	2.6	[1]—
1998	7.2	2.4	[1]—
1999	[1]—	2.2	[1]—
2000	[1]—	2.2	2.1
2001	[1]—	2.0	1.9
2002	[1]—	1.9	1.8

[1] Data not available
[2] Based on the age of the oldest client in the household.
[3] Double counting occurs when a household receives home care directly from the council and through an independent provider.
[4] For 1993 to 2000, the total number of households is based on the 1991 census; the 2001 census is the basis for 2001 and 2002.
Source:
HH1, Census 1991–2001

The number of contact hours has grown 67 per cent. between 1993 and 2002 at the same time as the number of households receiving home help or home care has fallen. This reflects a trend towards greater intensity and specialist skills in the services provided by home care. At the same time, broader community based services, which help older people and other adults to live independently in their own homes were provided for 1.4 million people in 2002–03; compared with 1.33 million people in 2000–01. Community based services include day care, meals, respite care, direct payments, professional support, transport and equipment, as well as home care.

Sandra Gidley: To ask the Secretary of State for Health how many applications made by domiciliary care providers for registration with the National Care Standards Commission have been *(a)* rejected and *(b)* provided with action plans. [147311]

Dr. Ladyman: As at the end of November 2003, the latest date for which information is available, no applications made by domiciliary care providers had been rejected and two applications had been registered with conditions.

Sandra Gidley: To ask the Secretary of State for Health how many domiciliary care providers applied for registration with the National Care Standards Commission in each month since March 2003, broken down by region. [147312]

Dr. Ladyman: The information requested is shown in the table.

Region	*March*	*April*	*May*	*June*	*July*	*August*	*September*	*October*	*November*	*Total*
East Midlands	61	98	15	8	4	3	6	16	23	234

Total	1,204	1,302	169	122	163	110	89	82	107	3,348

Environmental Radiation Report

Norman Baker: To ask the Secretary of State for Health when he expects to publish the report of the Committee on Medical Aspects of Radiation in the Environment; and if he will make a statement. [148576]

Miss Melanie Johnson: The Committee on Medical Aspects of Radiation in the Environment (COMARE) is currently preparing several reports on different topics. COMARE has already published seven reports. Its eighth report is expected to be published in early March of this year.

Gatwick Airport

Tim Loughton: To ask the Secretary of State for Health how many asylum seekers have arrived at Gatwick airport in each of the last three years claiming to be minors and without identity documents. [144998]

Beverley Hughes: I have been asked to reply.

Data on the number of asylum seekers without documentation claiming to be minors that arrive at specific ports of entry are not recorded and collated centrally. This information could therefore be obtained only from individual case files at disproportionate cost.

Information on asylum statistics is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

GP Referrals

Dr. Murrison: To ask the Secretary of State for Health what proportion of cases seen in NHS walk-in centres resulted in referral to the general practitioner with whom the patient is registered in the last year for which figures are available. [147512]

Mr. Hutton: These data are not routinely collected or held centrally. The evaluation of national health service walk-in centres published by the University of Bristol in July 2002, and available at www.epi.bris.ac.uk/wic, suggested that some 13 per cent., of consultations resulted in a referral to a general practitioner. In part to address this, a growing number of NHS walk-in centres now offer access to a general practitioner, as well as the established service offered by nurses.

Infectious Diseases

Dr. Murrison: To ask the Secretary of State for Health how many *(a)* consultants and *(b)* trainees in infectious diseases there were in the NHS in England in each year since 1990. [147498]

Mr. Hutton: The information requested is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS): Consultants and doctors in training with a specialty in infectious diseases; September 1990-June 2003

England[1] *Number (headcount)*

	Consultant	Registrar Group	Senior House Officer	House Officer
2003 (June)	107	[2]	[2]	[2]
2002	95	42	58	21
2001	88	58	61	6
2000	88	53	44	8
1999	69	45	43	6
1998	73	35	41	9
1997	73	37	61	8
1996	65	32	40	10
1995	69	35	38	6
1994	55	31	31	7
1993	48	29	36	3
1992	39	21	40	2
1991	31	28	35	2
1990	38	20	28	1

[1] All data as at 30 September except for 2003, where data as at 30 June.
[2] Data not available.
Note:
Trainees are referred to as doctors in training.
Source:
Department of Health medical and dental workforce census

Consultant numbers have increased by 182 per cent. between September 1990 and June 2003.

Information Campaigns and Advertising

Mr. Lansley: To ask the Secretary of State for Health what the total expenditure on information campaigns and advertising was for his Department in each year since 1997. [145371]

Ms Rosie Winterton: The table shows the expenditure on major information campaigns and advertising commissioned by the Department's communications directorate for the financial years 1996–97 to 2002–03. The figures include the costs of publishing, television, radio, poster, newspaper and magazine advertising, and campaigns on subjects such as sexual health, immunisation, staff recruitment, TB awareness, mental health and blood donation.

£ million

Financial year	*Total campaign expenditure*	*Advertising expenditure*
1996–97	15.13	2.50
1997–98	6.63	2.04
1998–99	22.96	8.53
1999–2000	35.97	15.17
2000–01	25.32	20.80
2001–02[1]	37.23	20.41
2002–03[1]	34.85	23.13

[1] These figures include Health Promotion England publicity and advertising when it became part of the Department.

Key Worker Housing

Ms Oona King: To ask the Secretary of State for Health what recent discussions he has had with the Deputy Prime Minister on key worker housing and the land required to provide health services for key workers. [146413]

Mr. Hutton: Discussions are currently taking place with officials from the Office of the Deputy Prime Minister on the requirements of the national health service in respect of affordable housing and the NHS contribution to the provision of key worker accommodation. The Department of Health and NHS Estates have a major programme in place to support key workers. The NHS Plan target of 2,000 extra rental units has been exceeded. By March 2004, around 5,000 NHS staff will have had the opportunity to gain a foothold on the property ladder by way of assistance under the Government's Starter Home Initiative Scheme.

Long-term Care

Chris Grayling: To ask the Secretary of State for Health whether he has reviewed his policy in the light of the Health Service Ombudsman's report on long-term care. [147962]

Dr. Ladyman: The Department is satisfied with the existing policy on national health service fully funded continuing care, but wants to ensure that policy is correctly implemented. As a result, all strategic health authorities (SHAs) have reviewed their eligibility criteria and an independent survey has been commissioned to examine SHAs' progress on all aspects of continuing care provision. Forthcoming Directions will introduce a legal framework for assessment for NHS fully funded continuing care.

Management Consultants

Mr. Flight: To ask the Secretary of State for Health what the cost to his Department of using management consultants has been in each of the last five years. [148020]

Ms Rosie Winterton: The cost to the Department of using management consultants in each of the last five years is shown in the following table:

	Cost (£ million)
1998–99	7.3
1990–2000	8.1
2000–01	6.5
2001–02	6.8
2002–03	7.2

Maternity Services

Mr. Baron: To ask the Secretary of State for Health what proportion of mothers have access to a midwifery-led maternity unit. [148933]

Dr. Ladyman: This information is not collected centrally.

Memory Clinics

Mrs. Brooke: To ask the Secretary of State for Health what the average waiting time for a first appointment at a memory clinic from the time of recommendation by a consultant was in *(a)* England and *(b)* Dorset in each of the last two years for which figures are available. [148461]

Dr. Ladyman: This information is not collected centrally.

Mental Incapacity Bill

Mr. Burstow: To ask the Secretary of State for Health whether a patient's wishes in the form of an advance directive will be included on the health space of an electronic patient record following legislation in the Mental Incapacity Bill. [144594]

Mr. Hutton: The national health service care records service (CRS) includes functionality for recording patient preferences, such as advanced directives. The specification included the requirement to ensure that the existence of patient preferences (including advance directives, for example, a "living will" or a religious requirement that blood transfusions are not to be given) shall be recorded and displayed, and the contractor shall ensure that clinicians are:

alerted to the existence of a patient preference;

advised to ask the patient to confirm its validity; and

advised to record the patient's confirmation of its validity.

Patient preferences can therefore be captured at the point of care on the relevant system. The patient will be prompted at the point of care to confirm that the advanced directive is still to be enforced—this is to avoid an out-dated statement of patient preferences being enforced (for example, if a patient changes his or her mind).

The existence of the NHS CRS in no way prejudices a patient's rights under existing or proposed legislation.

Microbiology

Dr. Murrison: To ask the Secretary of State for Health (1) how many consultant microbiologist vacancies there were in the NHS in England on the last date for which figures are available, broken down by region; [147495]

(2) how many new posts in medical microbiology have been created in the NHS in the past 10 years, broken down by region; [147496]

(3) how many medical microbiology training posts there were in the NHS in England in each year since 1990. [147497]

Mr. Hutton: Vacancy data is collected by the Department of Health as three-month vacancies as at 31 March each year. These are vacancies which trusts are actively trying to fill, which have lasted for three months or more.

Information showing the number of three-month microbiology and virology consultant vacancies as at 31 March 2003 in England, by strategic health authority has been placed in the Library.

The Department does not collect data on the number of new posts in microbiology and virology. Workforce data are collected through the annual Department of Health medical workforce census. The census is a snapshot of data as at 30 September in the appropriate year. The information in the table shows the net increase in the number of staff in microbiology and virology since 1992.

Due to the variation in regional boundaries over the stated time period, between 1992 and 1997, a breakdown by national health service regional office has also been placed in the Library. Between 1998 and 2002, data is shown by government office regions.

Between 1997 and 2002, staff increased by 22 per cent.

The table shows the number of medical microbiology and virology training posts in England since 1990.

Hospital, Public Health Medicine and Community Health Services (HCHS): Doctors in training with a specialty in medical microbiology and virology; 1990–2002—England, as at 30 September

Number (headcount)

	All training grades of which:	*Registrar*	*Senior House Officer*	*House Officer*
2002	179	162	17	—
2001	156	143	13	—
2000	141	121	20	—
1999	142	131	11	—
1998	136	125	11	—
1997	139	125	14	—
1996	134	124	10	—

Department of Health medical and dental workforce census

NHS Estates

Tim Loughton: To ask the Secretary of State for Health what revaluations of the sites involved in the NHS Estates surplus property disposals have been carried out in the last six months; and when. [147754]

Mr. Hutton: A due diligence exercise, using its own independent valuers, has been undertaken by the preferred partner.

NHS Trusts (Mergers)

Mr. Norman: To ask the Secretary of State for Health how many NHS *(a)* hospital trusts, *(b)* primary care trusts, *(c)* mental health trusts and *(d)* ambulance trusts have merged in each of the last six years. [145355]

Mr. Hutton: The number of trusts involved in mergers with similar trusts to form the same type of trust is shown in the table. The distinction between 'hospital trusts' and 'mental health trusts' is not straightforward owing to a number of trusts providing a range of services.

	Ambulance NHS trusts	*Other NHS trusts*	*Primary care trusts*
1997–98	0	8	n/a
1998–99	0	39	n/a
1999–2000	8	40	n/a
2000–01	0	22	n/a
2001–02	0	40	0
2002–03	0	36	2

North Staffordshire Hospital NHS Trust

Phil Sawford: To ask the Secretary of State for Health what action he has taken following the Griffiths report into the research framework at North Staffordshire hospital NHS Trust. [147507]

Dr. Ladyman: The Department takes very seriously the points made in the report about the importance of public safety, and of protecting children. The Department of Health, Home Office, Department for Education and Skills and the Welsh Assembly Government published "Safeguarding Children in Whom Illness is Fabricated or Induced" in August 2002. Paragraphs 6.46–6.51 provide guidance on the use of covert video surveillance and references the Regulation of Investigatory Powers Act of 2000.

This document was in response to the recommendation made within the Griffiths report to develop guidelines to assist the identification of children who have had illnesses feigned or induced by a carer within the framework of "Working Together to Safeguard Children (1999)", the Government's inter-agency guidance on child protection. It was the subject of public consultation prior to being published in 2002.

We have also taken a number of steps to strengthen research and clinical governance systems, not necessarily as a direct result of the findings of the Griffiths report. For example:

We have established the National Patient Safety Agency (NPSA) to focus our efforts to improve patient safety in the national health service and to run a new national reporting and learning system for patient safety incidents. The reporting system will be implemented across the NHS during 2004.

NHS staff will be able to report adverse incidents and "near misses" affecting NHS patient care to the NPSA, so that patterns and trends can be identified and lessons learnt in one part of the NHS can be properly shared with the whole of the health service.

The NHS Plan set out a review of consent procedures to ensure that good practice in seeking consent for both treatment and research is in place throughout the NHS. In November 2001, "The Good Practice in Consent Implementation Guide: Consent to Examination or Treatment", was published, containing a model consent policy and consent forms.

In the summer of 2000, the Department set up the Central Office for Research Ethics Committees to improve the support provided for multi centre research ethics and local research ethics committees.

The Department published the Research Governance Framework in March 2001, aimed at continuous improvements and the reduction of unacceptable variations in research practice across health and social care. The Department has been monitoring NHS trusts' compliance with the framework since its publication.

In its 2002–03 annual research and development report, North Staffordshire hospitals reported satisfactorily on compliance with the research governance framework targets for March 2003 and that it was either already compliant or on target with the research governance

framework targets for March 2004. Actual compliance with the March 2004 targets will be assessed in the 2003–04 annual research and development report.

The Department has commissioned a substantial audit of the use of continuous negative extrathoracic pressure at the University hospital of North Staffordshire NHS Trust (formerly North Staffordshire hospital NHS Trust). This is still on-going. The results will be published when the audit is completed.

Nurses

Mr. Woodward: To ask the Secretary of State for Health how many *(a)* district nurses, *(b)* community nurses and *(c)* midwives there were in (i) St. Helens, (ii) Merseyside, (iii) the North West and (iv) England in each year since 1992. [147171]

Mr. Hutton: The information requested is shown in the table.

NHS hospital and community health services: Qualified community nursing by each specified group in England, the North West regional office area, Cheshire and Merseyside and the St. Helens and Knowsley Health Authority area as at 30 September each specified year

Headcount

	England	*North West*[1]	*Cheshire and Merseyside*[2]	*St. Helens and Knowsley HA*[3]
1992				
Community nursing	32,797	[4]—	[4]—	229

Department of Health Non-medical Workforce Census

Procurement Outsourcing

Norman Lamb: To ask the Secretary of State for Health if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147584]

Ms Rosie Winterton: The Department's procurement policy is based on value for money, having due regard to propriety and regularity and the requirements of the European Union Treaty, including the principle of non-discrimination, the European Community procurement directives and the United Kingdom's international obligations.

The Department has not outsourced any information technology or call centre services to offshore companies and there are no current plans to do so.

Smoking

Geraldine Smith: To ask the Secretary of State for Health what plans he has to ban smoking in public places. [148551]

Miss Melanie Johnson: I refer my hon. Friend to the reply given to my hon. Friend the Member for Leicester, East (Keith Vaz) on Monday 5 January 2004, *Official Report*, column 209W.

Sperm Counts

Dr. Gibson: To ask the Secretary of State for Health if he will make a statement on recent research from the Aberdeen Fertility Centre on sperm counts since 1989; what assessment he has made of links between harmful man-made chemicals in the environment and reduced sperm counts; and what steps his Department is taking to reduce exposure to harmful chemicals. [147231]

Miss Melanie Johnson: The research from the Aberdeen Fertility Centre has not been peer-reviewed or published, and has not been assessed by the Department. The Global assessment of the state-of-the-science of endocrine disrupters, by the World Health Organization (WHO) International Programme on Chemical Safety concluded in August 2002 that,

"although an extensive review of the published data suggest that there could be temporal and geographical variation in human sperm production, it is not possible to conclude that the phenomenon is real and, if so, to what extent reductions in sperm count may affect fertility. The data should be interpreted with caution."

The WHO assessment also concluded that,

"Analysis of the human data by itself, while generating concerns, has so far failed to provide firm evidence of direct causal associations between low-level (i.e., levels measured in the general population) exposure to chemicals and adverse health outcomes".

The Government research programme on trends in male reproductive health and the possible influences of occupational or environmental (or other) exposure to chemicals includes two studies on sperm counts. One is a study of Scottish male reproductive health (Medical Research Council Reproductive Biology Unit, Edinburgh). The other (which is co-funded with the European Chemical Industries Council) is a United Kingdom multi-centre study of occupational and environmental exposure to chemicals and male fertility (Universities of Manchester and Sheffield). The results will be published in due course.

The Government's chemical strategy was published in December 1999 and is available at http://www.defra.gov.uk/environment/chemicals/ukstrategy.htm. Its main goals are to: phase out chemicals posing an unacceptable risk to human health or the environment as soon as possible; reduce as far as possible the risks posed by chemicals that are essential in our everyday lives, thus finding a balance between protecting health and the environment and retaining the socio-economic benefits that many chemicals provide; and make full information publicly available about the environmental and health risks of chemicals.

Waiting Times

Mr. Burstow: To ask the Secretary of State for Health what mechanisms are in place to monitor progress made by *(a)* strategic health authorities and *(b)* primary care trusts in reducing waiting times for diagnostic testing. [147270]

Mr. Hutton: Waits for diagnostic services are not recorded nationally.

The Government is committed to improving access to diagnostic services and the Department is working in partnership with strategic health authorities (SHAs) and other stakeholders to secure a more responsive service. Each SHA is responsible for developing and implementing local improvement programmes for diagnostic services and to monitor progress against any locally agreed objectives.

Mr. Burstow: To ask the Secretary of State for Health what progress has been made by the Changing Workforce Programme in redesigning the roles of diagnostic staff to reduce waiting times. [147271]

Mr. Hutton: The Changing Workforce Programme is supporting the development of a number of roles designed to help the National Health Service provide speedier access to high quality services.

In particular, the roles of assistant practitioner and advanced practitioner will help reduce waiting times for radiography services. An accelerated development programme is supporting the implementation of these roles across a network of hospital trusts. To date, 81 assistant practitioners in radiography are in training or scheduled to receive training in 2004, while 79 trainees are working towards advanced practitioner status.

It is anticipated that the majority of plain film imaging will be performed by assistant practitioners under the supervision of qualified radiographers. This will release radiographers' time and allow them to focus on more complex issues, thus increasing service capacity. Once the assistant practitioners are fully trained, further data will be collected to evaluate the impact on waiting times and access to services.

The appointment of advanced practitioners in diagnostic areas such as computer tomography imaging, trauma imaging and gastro-intestinal imaging, has already contributed to a reduction in waiting times. For example, at one site, the waiting time for a barium enema has been reduced from 30 weeks to one week since advanced practitioners have been performing this procedure.

Dr. Murrison: To ask the Secretary of State for Health what the average wait was for patients to be seen by their own general practitioner in the last year for which figures are available; and what proportion were seen within 48 hours. [147511]

Mr. Hutton: Data are collected on availability of access to primary medical services rather than actual waiting times. Information for November 2003 shows that 94 per cent. of the population was able to be offered an appointment to see a general practitioner within two working days.

WORK AND PENSIONS

Benefit Fraud

John Barrett: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the programme protection strategy used by the Pension Service to prevent pension credit fraud since October 2003. [147828]

Malcolm Wicks: The programme protection strategy used to prevent loss in minimum income guarantee was reviewed to ensure its continued effectiveness once pension credit was introduced in October 2003.

The review concluded that the strategy would continue to address those areas where fraud could occur in pension credit.

The strategy and introduction of pension credit presents opportunities for improved protection at the gateway during the teleapplication process and for making use of all our contacts with customers to help them get their applications correct from the outset. The use of intelligent questioning, targeted visits and contacts with customers based on established risk, and effective internal and external data matching, all support the prevention of pension credit fraud.

Positive efforts made in driving down the loss and the legislative changes introduced for pension credit have contributed towards the achievement of the Service Delivery Agreement target to reduce fraud and error overpayments to pensioners by 20 per cent. by March 2006.

Measurement of fraud and error in pension credit commenced in October 2003 and we expect to publish results for the first full year's data in July 2005. In the interim we will be undertaking an early examination of cases found to be incorrect so that we can refine the programme protection strategy as necessary.

Casual Appointments

Paul Holmes: To ask the Secretary of State for Work and Pensions how many employees have been employed on 13-week casual appointments in his Department in each year since 1997; and if he will make a statement. [147816]

Maria Eagle: The Department generally only employs people on casual appointments in order to fulfil a short term need. The information required is not held centrally and could be obtained only at disproportionate cost.

Children Leaving Care

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what percentage of children who had been in local authority care were unemployed in the September after leaving school in each of the last five years. [147332]

Mr. Browne: The information requested is not available.

Council Tax

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of the new council tax benefit in the first full year of operation; and how it compares to the cost of the old council tax benefit, using the same methodology for the calculations. [146689]

Malcolm Wicks: Council tax benefit expenditure for 2003–04 is forecast to be £3.4 billion, and for 2004–05 to be £3.8 billion. However, on 15 December 2003, we announced reforms of council tax benefit, which included the abolition of restrictions for people living in band F, G and H properties. This is anticipated to take place from April 2004, with an expected additional cost of £6.5 million per annum benefiting 21,000 claimants.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Work and Pensions how many staff in his Department work in *(a)* the West Midlands and *(b)* north Staffordshire. [146914]

Maria Eagle: The number of staff working in the West Midlands and north Staffordshire is shown in the following table.

	DWP Staff
West Midlands	11,844
North Staffordshire	726

Notes:
1. Figures show headcount and are consistent with Cabinet Office definitions other than for the inclusion of staff on paid maternity leave.
2. Figures include temporary staff.

Euro

Keith Vaz: To ask the Secretary of State for Work and Pensions in how many speeches during 2003 he declared support for the Government's policy on the euro. [147296]

Mr. Pond: I refer the hon. Member to the reply the Financial Secretary gave him on 12 January 2004, *Official Report*, columns 516–17W.

Former Soviet Citizens

Mr. Wyatt: To ask the Secretary of State for Work and Pensions whether former Soviet citizens resident in this country qualify for the UK state pension; and if he will make a statement. [148718]

Malcolm Wicks: The UK State Pension is payable generally to people who have paid or who are deemed to have paid sufficient National Insurance contributions while working and residing in this country.

Therefore, former Soviet citizens can only start to acquire entitlement to a UK State Pension from the time they become resident in the UK.

Income Support Claimants

Mr. Dhanda: To ask the Secretary of State for Work and Pensions if his Department will provide individuals claiming income support which is paid into their bank account with documentary proof of their receipt of benefit so that they can apply for discounts and reduced rates for leisure and other services. [148866]

Mr. Pond: People receiving benefit that is paid into a bank account can use their initial award notifications as documentary proof of entitlement. Alternatively, customers can obtain evidence confirming their entitlement from the Department; for example, Jobcentre Plus provide customers with locally produced forms.

Local Housing Allowance

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions when the local housing allowance will be extended from the nine Pathfinder authorities to all local authorities. [R] [146690]

Malcolm Wicks: There will be a comprehensive evaluation of local housing allowance Pathfinders including interviews with claimants, landlords, local authority staff and stakeholder organisations, as well as an analysis of administrative data. This is already underway.

The findings of the evaluation will inform decisions on the national extension of the allowance. It is envisaged that local housing allowance will be extended to all local authorities in 2006.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions for what reasons the local housing allowance applies only to the de-regulated private sector. [R] [146691]

Malcolm Wicks: We hope to implement a flat rate housing benefit system in the social sector, similar to that anticipated in the private rented sector to enable people in that sector to benefit from the choice and flexibility that the reforms can provide. We aim to extend our reforms to the social rented sector as soon as rent restructuring and increased choice have created an improved market.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions (1) how the rent of those tenants whose rent is higher than the local housing allowance will be paid; [R] [146692]

(2) whether there will be a hardship payment to prevent the eviction of those tenants whose rent is higher than the new local housing allowance. [R] [146693]

Malcolm Wicks: Tenants whose rent is higher than their local housing allowance will be expected to make good the difference with their landlord. This is no different to what happens under existing rules. During the Pathfinder stage, no claimant will be worse off financially at the point of change as they will be covered by a form of transitional protection.

There will not be a hardship payment to tenants whose rent is higher than their local housing allowance. Tenants will have the choice to shop around and look for a cheaper property in such circumstances.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions when the nine Pathfinder local authorities for local housing allowance will fully implement the new system. [R] [146694]

Malcolm Wicks: The nine Pathfinder authorities will implement the new housing allowance using one of two different approaches—a "big bang", or a "phased". Under both approaches, all new claims made after the start date will go directly on to local housing allowance.

Under the "big bang" approach, all existing claims will be converted to housing allowance on the authority's start date. However, the local authority can delay the change on payments to tenants for up to six months.

Under the "phased" approach, exiting cases will be converted gradually over a 12 month period. Conversion will be triggered either by a change in the tenant's circumstances, or when a referral to the rent officer would have become due under the housing benefit system.

The table shows the start date for each of the pilot authorities together with the approach they have chosen to adopt.

Local Authority	*Start date*	*Approach*
Blackpool	17 November 2003	Phased
Lewisham	1 December 2003	Phased
Coventry	12 January 2004	Phased
Teignbridge	12 January 2004	Phased
Brighton	2 February 2004	Big Bang
Edinburgh	9 February 2004	Big Bang
NE Lincolnshire	9 February 2004	Big Bang
Conwy	9 February 2004	Phased
Leeds	9 February 2004	Phased

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the criteria used to set the local housing allowance in each area; [R] [146695]

(2) how often local housing allowance will be reviewed; and what methodology will be used to calculate the new level. [R] [146696]

Malcolm Wicks: Rent Officers in each Pathfinder area will look at a range of properties and rents in that area. Excluding exceptionally high and exceptionally low rents to avoid distortion, Rent Officers will identify the lowest and highest rents for a property type, add them together and divide by two. This will give the local housing allowance for that property type in that area.

Rent Officers will review the local housing allowance levels on a monthly basis to ensure they remain accurate reflections of average rents in an area. However, an individual claimant's entitlement will only be reviewed annually or where there is a change of circumstances.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what the estimated cost is of local housing allowance in the first full year of operation; and what the equivalent cost of housing benefit would have been using the same methodology for the calculation. [R] [146697]

Malcolm Wicks: It is estimated that the Local Housing Allowance Pathfinders will cost an additional £20 million in their first year of full operation. Information on the forecasted equivalent cost of housing benefit is not available.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of local housing allowance on rent restructuring in the de-regulated private rental sector. [R] [146698]

Malcolm Wicks: The programme of rent restructuring applies only to the social housing sector and not to the de-regulated private sector.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions how local housing allowance will be adjusted to take into account improvements that are carried out to an individual property. [R] [146699]

Malcolm Wicks: Local housing allowance will not depend on the individual rent or the type of property occupied by a claimant. It will be based on a standard amount for similarly suitable properties in that area for the size of the claimant's household.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions whether the landlord will be able to apply to have local housing allowance paid directly to him in circumstances when the tenant is likely to abscond with the allowance. [R] [146700]

Malcolm Wicks: Landlords can make representations to receive direct payment if they believe that a tenant will not use their housing allowance to pay their rent. Landlords have the right of appeal if the authority decides to continue to make payment directly to tenants. Each of the Pathfinder authorities has held meetings with local landlords to explain how the housing allowance will work.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the change in the number of homes available to rent to those in receipt of local housing allowance and *(b)* the change in the number of empty homes as a result of the introduction of local housing allowance. [R] [146701]

Malcolm Wicks: We do not expect there to be any significant change in the number of homes made available to rent to those in receipt of local housing allowance, or an increase or decrease in the number of empty homes as a result of the introduction of the local housing allowance. However, both will be monitored as part of the comprehensive evaluation of the Pathfinders.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what arrangements are being made in each of the Pathfinder local authority areas to house tenants who have to move from the private to the public sector because of the introduction of local housing allowance. [R] [146702]

Malcolm Wicks: The local housing allowance was launched in Blackpool on 17 November and Lewisham on 1 December 2003. Coventry and Teignbridge both introduced the housing allowance on 12 January this year. The remaining five authorities will be going live during February this year. So far there has been no evidence of tenants having to move from the private to public sector. However, we will monitor this as part of the comprehensive evaluation of local housing allowance Pathfinders, which will include interviews with claimants, landlords, local authority staff and stakeholder organisations, as well as an analysis of administrative data; the evaluation is already under way.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions what advice the Department is offering those tenants who get into financial difficulties following the introduction of local housing allowance; and what the estimated cost is of the provision of that advice. [R] [146703]

Malcolm Wicks: Pathfinder authorities are being given an additional £540,000 towards the cost of providing financial management advice to claimants. Pathfinders are working directly or in co-operation with voluntary agencies, such as the Citizen's Advice Bureau, to provide advice on financial management. This is in addition to existing support mechanisms offered by welfare organisations, and loans and advice available from Jobcentre Plus.

Mr. Clifton-Brown: To ask the Secretary of State for Work and Pensions (1) how local housing allowance will be paid; and what arrangements will be made for those tenants who do not have a bank account; [146704]

(2) whether the tenant will be reimbursed for any overdraft fee paid as a result of late payment of local housing allowance into a bank account. [146705]

Malcolm Wicks: As for tenants who currently receive direct payment of housing benefit, payments of the local housing allowance will be made by cheque or a bank transfer. Pathfinder authorities will assist tenants with advice on how to obtain bank accounts.

It is entirely a matter for local authorities to decide whether to reimburse for any overdraft fee incurred as a result of late payment of local housing allowance into a bank account. Local authorities will be able to process local housing allowance claims more quickly than current housing benefit claims, and our aim will be to prevent late payments.

New Deal

Dr. Jack Cunningham: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of young people in *(a)* West Cumbria and *(b)* Copeland who have benefited from the New Deal; and if he will make a statement. [148010]

Mr. Browne: The New Deal for Young People has been successful in helping over 460,000 young people into work, including 1,160 people in the Copeland constituency. Figures for West Cumbria are not available; however, 4,910 young people in the Jobcentre Plus Cumbria district have been helped into work by New Deal for Young People.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many people have entered the employer option under the New Deal for Young People in each year since 1997, broken down by ethnicity; how many people have entered the full-time education and training option under the New Deal for Young People in each year since 1997, broken down by ethnicity; and if he will make a statement. [147815]

Mr. Browne: The information is in the tables.

New Deal for Young People: Starts to employment option, broken down by ethnicity

	1998	*1999*	*2000*	*2001*	*2002*	*2003*[1]
White	12,580	16,650	13,950	10,650	10,130	5,190
Black-Caribbean	220	330	250	160	180	70

Missing[2]	90	60	20	10	0	0

[1] To September.

[2] It has only been compulsory to record ethnicity on the Jobcentre Plus Labour Market System (LMS) since the spring of 2002, and some ethnicity codes were not recorded before then.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many participants on New Deal for Young People in the Chesterfield constituency have been placed on training courses for *(a)* up to one year and *(b)* over one year in the last 12 months; and if he will make a statement. [147819]

Mr. Browne: In the 12 months to September 2003, 70 people started on the New Deal for Young People (NDYP) Full-Time Education and Training Option in Chesterfield.

It is the policy of New Deal for Young People that nobody should be placed on an NDYP Full-Time Education and Training course for longer than a year.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many participants have joined the New Deal for Young People *(a)* once, *(b)* twice, *(c)* three times and *(d)* more than three times, broken down by ethnicity; and if he will make a statement. [147820]

Mr. Browne: The information is in the following table:

New Deal for Young People: Number of times people have joined the programme broken down by ethnicity

Ethnic group	Once	Twice	Three times	More than three
White	485,660	119,620	28,400	5,000
Black-Caribbean	13,380	5,060	1,470	260
Black-African	12,270	2,980	690	130
Black-Other	6,340	1,990	490	70

DWP Information and Analysis Directorate.

Parliamentary Questions

Mr. Purchase: To ask the Secretary of State for Work and Pensions when he will reply to the question tabled by the hon. Member for Wolverhampton, North East on 16 December 2003, reference 145191, which was transferred to his Department by the Office of the Deputy Prime Minister. [148472]

Mr. Pond: I replied to the hon. Member's question on 13 January.

Pension Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions what estimate he has made of expenditure on the *(a)* guarantee credit and *(b)* savings credit in (i) 2003–04, (ii) 2004–05 and (iii) 2005–06. [145981]

Malcolm Wicks: The information is in the table.

£ million

	2003–04	2004–05	2005–06
Guarantee credit	4,730	4,710	5,160
Savings credit	350	1,020	1,000
Total	5,080	5,720	6,160

Notes:
1. Figures are based on latest published forecasts, published in the pre-Budget report on 10 December 2003.
2. Figures for 2003–04 include expenditure on the minimum income guarantee, prior to the introduction of pension credit. Minimum income guarantee expenditure is treated as guarantee credit. The 2003–04 guarantee credit figure also includes child elements of the minimum income guarantee totalling £50 million. These payments were replaced by child tax credits at the same time as the introduction of pension credit.
3. Note that until October 2004, new claimants will be able to claim payment for entitlement dating back to October 2003.
4. Figures are rounded to nearest £10 million.
5. Due to rounding, figures may not sum exactly to totals.

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions how many telephone inquiries on pension credit have been received in each of the last 12 months. [147692]

Malcolm Wicks: The table shows numbers of telephone calls received by the pension credit application line in each month since it became operational in April 2003. The application line primarily handles calls from customers about applying for pension credit, but also deals with other inquiry calls.

Calls to pension credit application line—April to December 2003

2003	Calls received
April	20,810
May	32,750
June	60,240
July	118,220
August	181,860
September	427,900
October	482,780
November	318,280
December	193,900
Total	1,836,740

Note:
Figures are rounded to the nearest ten.

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions what the advertising budget is for the pension credit. [147693]

Malcolm Wicks: The marketing campaign for pension credit has been designed to be flexible and the level of expenditure may change according to need. However, it is currently estimated that media costs, including direct mailing, television and press advertising, will be in the region of £12 to £17 million, excluding VAT, to October 2004.

Dr. Jack Cunningham: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Cumbria and *(b)* Copeland are receiving pension credit; what percentage this represents of those entitled to pension credit in each case; and if he will make a statement. [148009]

Malcolm Wicks: At 31 December 2003 there were *(a)* 15,950 pensioner households (18,710 individuals) in Cumbria and *(b)* 2,300 pensioner households (2,739 individuals) in the Copeland constituency receiving pension credit. Information on numbers of households eligible for pension credit is not available at county or constituency level. However, the number of eligible households in the North West region is estimated to be 500,000. At 31 December 2003 there were 289,000 pensioner households (344,000 individuals) in the North West region receiving pension credit.

Mr. Dhanda: To ask the Secretary of State for Work and Pensions how often his Department revises the standard interest rate used to calculate the mortgage element included in the pension credit. [148863]

Malcolm Wicks: The standard interest rate is based on the weighted average of the basic rates charged by the top building societies. A change is triggered whenever the average rate which is published monthly by the Office for National Statistics increases/decreases by 0.25 per cent. or more.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many whole-time equivalent staff were employed by the pension credit helpline in the most recent month for which figures are available. [148969]

Malcolm Wicks: The Pension Credit application line is resourced in line with forecast levels of activity. At 5 January the application line had approximately 1,300 whole-time equivalent staff handling customer contacts. This is expected to rise to approximately 1,400 whole-time equivalent staff by late March.

Pension Credit Helpline

Mr. Webb: To ask the Secretary of State for Work and Pensions how many calls were received by the pension credit helpline in the most recent month for which figures are available. [148971]

Malcolm Wicks: The Pension Credit application line received approximately 193,900 calls in December 2003.

Pensions (Order Book Payments)

Mr. Webb: To ask the Secretary of State for Work and Pensions what arrangements were made for pensioners with order books whose pension fell due on Christmas Day 2003; and when they were able to receive that payment. [148970]

Mr. Pond: The arrangements agreed with the Post Office for Christmas Day 2003, gave pensioners (women aged 60 and over, men aged 65 and over) the option of encashing the order book payments dated 25 December, up to a week early, (i.e., on or after 18 December). Post Office were open for normal business hours, up to and including 12.30 p.m. on 24 December.

Pensions (Warrington, North)

Helen Jones: To ask the Secretary of State for Work and Pensions how many pensioners in Warrington North have *(a)* applied for and *(b)* been awarded the pension credit; and what the average increase in income is per pensioner. [148250]

Malcolm Wicks: At 31 December 2003 there were 3,426 pensioner households (4,151 individuals) in the Warrington North constituency receiving pension credit. Information on the number of pension credit applications in individual constituencies is not available. The average weekly rate of pension credit awards in Warrington North is £41.19. Information on the average amount gained by pensioners in individual constituencies, since the introduction of pension credit, will become available following publication of the November 2003 Quarterly Statistical Enquiry on 17 March 2004.

Winter Fuel Payments

David Davis: To ask the Secretary of State for Work and Pensions how much his Department has spent on advertising the availability of Winter Fuel Payments. [147771]

Malcolm Wicks: In the region of £625,000 was spent on national and regional press and consumer magazine advertising throughout the 2003–04 Winter Fuel Payments campaign.

A wide variety of publicity in other forums was also undertaken to support this advertising.

David Davis: To ask the Secretary of State for Work and Pensions what studies his Department undertook to find the most effective way of informing people about their eligibility for Winter Fuel Payments. [147772]

Malcolm Wicks: The Department uses a wide range of research on how to reach older people when formulating its communication strategies.

We develop communications in partnership with representative groups such as Age Concern, National Pensioners Convention and Citizens Advice. We have built on our experiences from past years of paying Winter Fuel Payments using communication channels appropriate to our customers.

Annabelle Ewing: To ask the Secretary of State for Work and Pensions how many pensioners in Scotland are *(a)* eligible for the £300 winter fuel payment for the over eighties and *(b)* have received it this winter. [148753]

Malcolm Wicks: Analysis of payments made this winter is not yet available and therefore it is not possible to say how many payments were made to households including someone aged 80 or over. Nor have we data to establish how many households include someone who is aged 80 or over and would be eligible for a winter fuel payment of £300.

DEPUTY PRIME MINISTER

Thames Gateway

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will make a statement on progress since the announcement of the Thames Gateway Communities plan; how much public money has been spent; how much private sector capital has been committed; how much land has been acquired; how much land will be acquired; and over what timescale. [148199]

Yvette Cooper: I am pleased to be able to report substantial progress in the Thames Gateway even since my right hon. Friend the Member for Streatham announcement in July.

Delivery is the key to the Thames Gateway. The new UDC for Thurrock is now established and Chair and Board appointed, consultation on the London UDC will end on 6 February and new partnership bodies for the other growth areas in the Gateway are now in place. The Office of the Deputy Prime Minister expects the new Gateway Office to be operational shortly.

The Thames Gateway expenditure programme provides £446 million over the three years commencing 2003—4. Projects worth £330 million have been accepted in principle for funding, and some £50 million worth of projects have been formally approved. These range from land acquisitions in London's Lower Lea valley, to affordable housing schemes with the Housing Corporation, a new lifelong learning centre for Barking, University campus expansions at Southend and Medway, and environmental Green Grid initiatives across South Essex and North Kent. In addition to this, the Regional Development Agencies, English Partnerships, the Housing Corporation and Highways Agency are also undertaking projects which make a major contribution to the Gateway, including Barking Reach, Chatham Maritime, A 13 improvements and anew Swale Crossing.

Outline planning applications have been submitted for the key private sector developments at Stratford City and Ebbsfleet. These schemes alone represent private sector investment approaching £7 billion.

The Strategic Rail Authority confirmed shortly before Christmas that it will be proceeding with plans for domestic services on the Channel Tunnel Rail link as part of the new Integrated Kent Franchise, and more recently, my right hon. Friend Member for Edinburgh Central, has announced that he is offering financial support for the Thames Gateway Bridge, the proposed new river crossing in East London. Both are strategic projects which will strengthen the platform for new development, and will help to consolidate private sector confidence and involvement.

There are no targets for land acquisition in the Gateway; the need for land assembly by the public sector will be determined by market strength and interest. To date, funding from the Office of the Deputy Prime Minister budget for land acquisitions is being pursued for projects in the Lower Lea for new mixed-use development, and in Sheppy, to promote new housing.

Mr. Clifton-Brown: To ask the Deputy Prime Minister how many houses have been built under plans for the development of the Thames Gateway communities; how many are social housing; how many houses are planned to be built; and how many will be social housing. [148201]

Yvette Cooper: The Government's policy for the development of sustainable communities in Thames Gateway and the Growth Areas was set out in "Creating Sustainable Communities: Making It Happen" in July 2003. The most recent annual house building figures for local authority areas contained within the Thames Gateway are for the 2002–03 financial year. Local authorities and the national house building council report a total new build of 7,865 houses for this period, of which 1,077 are social housing. It should be noted that these figures are totals for local authorities in Thames Gateway, but that some local authority areas fall only partially within the designated Thames Gateway region.

"Creating Sustainable Communities: Making It Happen" set a target for the Thames Gateway of the development of 120,000 new homes over the period to 2016, which is 40,000 above current planning targets. Projects worth £300 million were approved in July as part of the Office of the Deputy Prime Minister's new Sustainable Communities funding package. These include funding for new affordable housing.

The Government do not set annual targets centrally for local authorities on either affordable or social housing. Planning policies for affordable housing are set out in Planning Policy Guidance note 3, "Housing", and in Circular 6/98, "Planning for Affordable Housing". They advise that where local planning authorities are able to demonstrate a lack of affordable housing to meet local needs, based on up-to-date surveys and other data, they should indicate in their local plan how many affordable homes need to be provided throughout the plan area, and set indicative targets for specific suitable sites (expressed either as numbers of homes or a percentage of the homes on the site). Local planning authorities should be monitoring their performance against their local plan policies and targets, but this information is not collected centrally.

Arms Length Management Organisations

Mr. Coleman: To ask the Deputy Prime Minister how much has been set aside for the funding of newly constituted arms length management organisations for *(a)* 2003–04 and *(b)* 2004–05. [148730]

Yvette Cooper: Allocations for Arms Length Management Organisations (ALMOs) are made in two-year tranches. £300 million has been allocated to eight local authorities setting up ALMOs under Round 1 of the programme for 2002–04, £383 million to 12 local authorities under Round 2 for 2003–05, and £360 million to 13 authorities under Round 3 for 2004–06. Allocations for Round 1 ALMOs for 2004–05 and later have yet to be decided.

Mr. Coleman: To ask the Deputy Prime Minister if he will publish the results of the arms length management organisation ballots in those local authorities where votes have taken place this year. [148731]

Yvette Cooper: The results of ballots on Arms Length Management Organisation (ALMO) proposals held to date by local authorities awarded places on Round 3 of the ALMO programme in 2003, or applying for places on Round 4 in 2004, are tabled as follows. The results of ballots held under Rounds 1 and 2 were given in my reply to the hon. Member for Colchester on 15 September 2003, *Official Report*, column 602W.

		Percentage	
Local authority	*Turnout*	*In favour*	*Not in favour*
ALMO Round 3			
Camden	30	23	77
High Peak	60	98	2
Islington	27	85	15
Sheffield: Brightside and Shiregreen	42	78	22
Sheffield: Central Area	47	87	13
South Lakeland	65	88	12
ALMO Round 4			
Hammersmith and Fulham	40	81	19

Birmingham Urban Development Plan

Mr. Andrew Mitchell: To ask the Deputy Prime Minister whether Pedimore, Sutton Coldfield, has been removed as a major investment site for the West Midlands region in accordance with the independent Inspector's report into the Birmingham Urban Development Plan. [148011]

Yvette Cooper: Peddimore is identified as a Major Investment Site in my right hon. Friend the Deputy Prime Minister's Proposed Changes to Draft Regional Planning Guidance (RPG) for the West Midlands. The Proposed Changes were subject to a public consultation period, which closed on 12 December 2003.

My right hon. Friend the Deputy Prime Minister is now considering responses to the Proposed Changes. He is aware of the Inspector's report on the Birmingham Unitary Development Plan, and this will form part of his consideration. I cannot comment further on the Proposed Changes at this stage.

Mr. Andrew Mitchell: To ask the Deputy Prime Minister whether Bassetts Pole, Sutton Coldfield, has been removed as a major investment site for the West Midlands region in accordance with the Inspector's report into the Birmingham Urban Development Plan. [148012]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister's Proposed Changes to Draft Regional Planning Guidance (RPG) for the West Midlands were prepared before the UDP Inspector's report was published, and state:

> "the principle of a premium employment site at Bassetts Pole is contained in the adopted Birmingham Unitary Development Plan, the alterations to the UDP have identified a specific site".

The Proposed Changes were subject to a public consultation period, which closed on 12 December 2003.

My right hon. Friend the Deputy Prime Minister is now considering responses to the Proposed Changes. I cannot comment further on them at this stage.

Council Tax

Mr. Waterson: To ask the Deputy Prime Minister if he will raise the single person discount on council tax for single pensioners from 25 per cent.; and if he will make a statement. [148231]

Mr. Raynsford: The Office of the Deputy Prime Minister has no plans to change the single persons discount for pensioners. Not all pensioners are on a low income and council tax benefit exists to help those that are. Steps are being taken to ensure that those who are eligible, including many pensioners, do take up their entitlement. We are also removing the current restriction on council tax benefit for those living in band F, G and H homes from next April.

Mr. Waterson: To ask the Deputy Prime Minister what plans he has to reduce the number of older people receiving court summonses for non-payment of council tax, with particular reference to cases where they were entitled to full council tax benefit and the only reason for the arrears was the delay in processing their claim. [148232]

Mr. Raynsford: This is a matter for each individual billing authority, but the Office of the Deputy Prime Minister would expect authorities to take account of whether there was a likely entitlement to benefit in considering enforcement action.

Mr. Byers: To ask the Deputy Prime Minister what percentage of properties there are in each council tax band in each local authority area. [148733]

Mr. Raynsford: The information requested is available in the Library of the House.

Council Tax Disabled Bands

Mr. Sanders: To ask the Deputy Prime Minister what assessment he has made of the impact of changes to the disabled band council tax reduction on current recipients; and if he will make a statement. [147972]

Mr. Raynsford: The Government has made no changes to the disabled band reduction. It is for each individual billing authority to decide whether a property qualifies for Disabled Band Reduction when deciding entitlement, taking into account case law. An appeal against a decision can be made to the Valuation Tribunal.

Mr. Sanders: To ask the Deputy Prime Minister how many properties are in receipt of council tax disabled band reductions. [147973]

Mr. Raynsford: As at 3 November 2003 local authorities have reported that about 121,000 properties in England were subject to a reduction in their council tax band under the Council Tax (Reductions for Disabilities) Regulations 1992.

Dwellings (Conservation Areas)

Mr. Colman: To ask the Deputy Prime Minister whether the recently announced proposals to free up land for development relate purely to councils blocking applications for housing schemes in conservation areas;

and whether they apply to single dwelling developments in the curtilage of other single dwellings in conservation areas. [147887]

Yvette Cooper: The recent reports suggesting that my right hon. Friend, the Deputy Prime Minister, was proposing to remove the planning powers of local councils to prevent new building in the countryside are untrue. My right hon. Friend has made no such announcement, and has no such plans.

This press speculation appears to have been based on the draft of a new Planning Policy Statement (PPS7), "Sustainable Development in Rural Areas". The draft was published for public consultation in September 2003 by the Office of the Deputy Prime Minister. It sets out proposed national planning policies to deliver sustainable rural communities by focussing most new development on towns and villages, and through strict control over new development in the open countryside. Draft PPS7 proposes that local planning authorities should adopt criteria-based policies in development plans for the location and design of rural development, rather than rely on locally designated landscape protection areas. It would remain for local planning authorities in the first instance to determine planning applications, having regard to these and other relevant policies.

The Office of the Deputy Prime Minister is now considering the responses to the consultation draft. The views expressed will help inform the final version of PPS7.

Finance (Lancashire)

Mr. Lindsay Hoyle: To ask the Deputy Prime Minister what additional money *(a)* Lancashire and *(b)* Chorley have received from his Department in each of the last three years, expressed in (i) monetary and (ii) percentage terms, using 2000–01 as a baseline. [148426]

Mr. Raynsford: Grant issued by the Office of the Deputy Prime Minister and its predecessor departments for Lancashire and Chorley in the last four years is tabled. Monetary and percentage increases using 2000–01 as a baseline are also shown:

	£ million	*Increase from 2000–01 (£ million)* [1]	*Percentage increase from 2000–01 (£ million)* [1]
Lancashire			
2000–01	628.2		
2001–02	644.5	16.3	2.6
2002–03	650.6	22.4	3.6
2003–04 *(a)*	712.4	84.2	13.4
Chorley			
2000–01	5.7		
2001–02	5.9	0.2	3.7
2002–03	6.1	0.4	7.6
2003–04 *(a)*	6.7	1.0	17.9

[1] The figures have not been adjusted.

Note:
Includes Revenue Support Grant, Redistributed Non-Domestic Rates, Neighbourhood Renewal Fund (from 2001–02 onwards).

RS forms 2000–01 to 2002–03, RG forms 2001–02 to 2002–03, RA 2003–04 form and RA(SG) 2003–04 form.
Budgeted figures.

Fire Sprinklers

Mr. Dhanda: To ask the Deputy Prime Minister (1) what measures he has taken to improve fire safety using fire sprinklers; [148864]

(2) what assessment his Department has made of the merits of compulsory installation of fire sprinklers in *(a)* commercial properties and *(b)* leisure facilities. [148865]

Phil Hope: The Office of the Deputy Prime Minister is keen to improve fire safety by all reasonable means and sprinklers are part of a package of measures that can be used in buildings.

Since 1992, guidance supporting the fire safety aspects of the Building Regulations, which apply to most building work forming new and altered premises in England and Wales, has suggested the provision of sprinkler systems is necessary in commercial and leisure properties over certain area or height thresholds.

This was expanded in 2000 when the guidance was revised to set a limit of 2000m^2 for the size of any fire compartment in a single storey retail building, beyond which a suitable sprinkler system should be provided. This applies to new and extended retail buildings.

The Office of the Deputy Prime Minister is also nearing the completion of a detailed study into the effectiveness of sprinkler systems in tackling fires in residential properties. The results of this work are being fed into the further development of national standards by the British Standards Institution (BSI) and are forming part of our considerations of the current review of the fire safety aspects of the Building Regulations. The results of that work will shortly be publicly available enabling those involved with fire safety in buildings to gain a more comprehensive understanding of the benefits of residential sprinkler systems. During this review of the Building Regulations we will also be considering the role that sprinklers can play in all buildings and deciding whether the current thresholds in the guidance should be amended or indeed new ones introduced.

In the meantime, our Community Fire Safety programme continues to inform people of the risks associated with fire and the measures which can mitigate against its occurrence and subsequent effect, such as the use of fire detection and alarms and sprinkler systems. This programme has already been effective in reducing fire deaths and injuries from accidental fires.

Housing

Mrs. Spelman: To ask the Deputy Prime Minister what quantity of land in the Thames Gateway needs to be re-allocated from employment uses to housing or mixed use to meet the Government's aspirations for delivering 120,000 additional houses by 2016. [149185]

Yvette Cooper: The figure of 120,000 is drawn from discussions on development capacity with local planning partners during the preparation of the Gateway initiative, and reflects both existing planning allocations for development and local perspectives on further capacity. Work is now under way with Regional

Planning Bodies to agree the detailed distribution of this growth, and prepare for its incorporation into Regional Strategic Statements.

Development in the Gateway focuses on its substantial reservoir of redundant and brownfield land, most of which will have originally been used historically for industrial and employment use. However, economic renewal is a parallel priority for the Gateway in order both to provide a stronger economic base for existing communities, and meet the employment needs of new residents. The area remains an important industrial and commercial location in the South East, and collectively the Gateway ports are the largest in the country. Retention and renewal of appropriate and good quality employment land to meet the needs of the local economy therefore remains important. The planning exercise now under way will therefore also be taking into account the appropriate future balance of housing and employment land.

Housing (Chorley)

Mr. Hoyle: To ask the Deputy Prime Minister how many planning applications for housing in Chorley have been approved in each of the last five years. [148223]

Yvette Cooper: The number of planning applications for housing in the borough of Chorley approved in each of the last five years is as follows:

	Applications approved
1999	91
2000	58
2001	71
2002	69
2003	67
Total (January 1999 to December 2003)	356

Mr. Hoyle: To ask the Deputy Prime Minister how much land has been allocated for the next 10 years for new housing in Chorley. [148224]

Yvette Cooper: The adopted Chorley borough Local Plan Review allocates 100 hectares of land for housing for the period up to 2006. This figure excludes the former Royal Ordnance Factory site at Euxton, which is also expected to contribute 500 dwellings during the plan period, on the part of the site lying within Chorley borough.

Upon commencement of the Planning and Compulsory Purchase Bill, Chorley borough council will be required to prepare a Local Development Framework to replace the Local Plan Review. In doing so the council should have regard to the annualised rates of average housing provision set out in Regional Planning Guidance for the North West, as applied by the emerging Lancashire Structure Plan. That currently proposes an annual rate of housing provision for Chorley in the period 2006–16 of 210 dwellings per year, net of clearance.

Housing (North Yorkshire)

Miss McIntosh: To ask the Deputy Prime Minister what recent representations he has received on affordable housing in North Yorkshire. [147208]

Yvette Cooper: In 2003, the Office of the Deputy Prime Minister received correspondence from the hon. Member and from Mr. Peter Annison, Chair of the Richmondshire Local Strategic Partnership, about affordable housing in North Yorkshire. Affordable housing in North Yorkshire featured in comments on the draft regional housing strategy in Spring last year, and is an issue identified in the sub-region's local authorities' housing strategies. The subject also features in Government Office discussions with North Yorkshire housing authorities, and the Government Office has received representations about funding for a project developed by Esk Moors Action for the Elderly. The North Yorkshire Housing Forum has submitted to the Regional Housing Board three proposals for different types of affordable housing for funding through the Board's 'transformational proposals' commissioning strand, for schemes to start in 2005–06.

Housing Strategies

Mr. Waterson: To ask the Deputy Prime Minister what research his Department has *(a)* commissioned and *(b)* evaluated on how older people are involved in planning for housing strategies; and if he will make a statement. [148237]

Yvette Cooper: The Office of the Deputy Prime Minister has not commissioned any research on the involvement of older people in planning for housing strategies. The Office of the Deputy Prime Minister will, however, be supporting the work of the Housing for Older People Development Group (HOPDev), which will be examining older people's involvement in housing strategies as part of its programme of work for the coming year.

Local Authority Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister what steps he intends to take to ensure that council tenants are given information on the case for and against the large scale voluntary transfer of council housing proposed by North East Lincolnshire council. [148067]

Yvette Cooper: Tenants should be involved from the outset in the consideration of stock options and have a central role in deciding which option is pursued. To assist tenants in this the Office of the Deputy Prime Minister expects them to have access to good independent advice from the start.

Where housing transfer is the chosen option, the local authority should ensure that the information provided to tenants during the consultation process gives a full, fair and balanced picture of the implications of the proposed transfer as compared with staying with the council, so they can demonstrate that tenants have been properly consulted and informed.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how he intends to ensure that his undertaking to London council tenants on 27 November 2003 regarding the information to be given to tenants about the implications of stock transfer or the creation of arm's length management organisations is implemented in the light of the decision by Mr. Justice Munby in case CO/6212/2003. [148068]

Yvette Cooper: The Communities Plan published in February 2003 made clear that council tenants must be fully informed and consulted at all stages in the process of appraising, choosing and implementing options for the future management and improvement of their homes. Tenants will have the support of Independent Tenant Advisers in this process. Effective tenant engagement is a key test for signing off the results of option appraisals and for giving approval for councils to implement these results. The information made available for tenants by their council and others at each stage should be sufficient to enable tenants to express an informed opinion.

Mr. Drew: To ask the Deputy Prime Minister how many council houses were sold in each year since 1980; and how many houses were left in local authority ownership each year. [148279]

Yvette Cooper: The figures available for England are tabled as follows:

Thousand

	Council house sales			
	Right-to-Buy	*LSVT*	*Other sales*	*LA rented stock estimates*[1]
1979–80	n/a	n/a	54	4,764
1980–81	2	n/a	66	4,798
1981–82	105	n/a	23	4,819
1982–83	167	n/a	14	4,660
1983–84	106	n/a	16	4,561
1984–85	78	n/a	13	4,511
1985–86	72	n/a	10	4,439
1986–87	77	n/a	9	4,366
1987–88	94	n/a	19	4,277
1988–89	136	11	9	4,134
1989–90	134	14	9	3,991
1990–91	76	45	6	3,899
1991–92	48	11	6	3,844
1992–93	38	26	5	3,760
1993–94	45	30	7	3,666
1994–95	43	40	4	3,565
1995–96	32	45	2	3,470
1996–97	33	21	4	3,401
1997–98	41	33	4	3,309
1998–99	40	74	4	3,178
1999–2000	54	95	3	3,012
2000–01	52	132	1	2,812
2001–02	52	35	1	2,708
2002–03	63	166	1	2,457

[1] Up to 1988–89 stock data at 31 December, thereafter at 31 March.

Local Government (Employment)

Mr. Wiggin: To ask the Deputy Prime Minister what the change has been in the number of local government employees since 1997. [148443]

Phil Hope: Figures for Great Britain, which are available in an article published in 'Economic Trends' (September 2003), show that between 1997 and 2002 there was an increase of 148,000 in the total general local government employment category.

Local Government Finance

Mr. Michael Foster: To ask the Deputy Prime Minister what asssessment he has made of the report by Professors Blanchflower and Oswald on Calculating an Appropriate Regional Funding Adjustment for Worcestershire, commissioned by Worcestershire county council; and if he will make a statement. [148037]

Mr. Raynsford: The Government will carefully consider the points made in Worcestershire county council's response to the consultation on the provisional local government finance settlement, alongside all others, as the Office of the Deputy Prime Minister takes the final decisions on the settlement.

Local Government Planning

Mrs. Spelman: To ask the Deputy Prime Minister whether the Government will press local authorities reviewing the potential for re-allocating excess employment land to consider the option of withdrawing sites from their development plans, with particular reference to those which are identified as low priority for development according to the sequential approach set out in PPG3. [149190]

Yvette Cooper: Planning Policy Guidance Note 3: "Housing" (PPG3), requires local planning authorities to review all their non-housing allocations, including those for employment, and consider whether some of this land might better be used for housing or mixed use developments.

In July 2003, the Office of the Deputy Prime Minister published a consultation document, "Supporting the Delivery of New Housing". This proposes to add new policy to PPG3 requiring local planning authorities to consider applications for housing development favourably on allocated industrial and employment sites. It highlighted the need to review employment sites and to identify those which no longer need to be retained for employment uses. Such sites would then be de-allocated at the next review of the plan, and consideration given to whether the sites should be allocated for other uses. Whether such sites are suitable for housing will depend on how they perform against PPG3 policies, including the sequential approach.

The consultation closed on 31 October 2003 and the Office of the Deputy Prime Minister is considering the responses received. The Office of the Deputy Prime Minister will publish the final policy, alongside practice guidance to help local planning authorities in reviewing employment land allocations, in due course.

Mrs. Spelman: To ask the Deputy Prime Minister what estimate he has made of the quantity of previously developed land that is *(a)* available for redevelopment and *(b)* likely to become available for redevelopment up to 2016. [149194]

Yvette Cooper: From the 2002 National Land Use Database of Previously Developed Land, an estimated 66,000 hectares of previously developed land are available for development in England. This includes both vacant and derelict land and land currently in use with known potential for redevelopment. New sites amounted to 14 per cent. of the 2001 stock of previously developed land. The Office of the Deputy Prime Minister has not made any forecasts of future flows of land likely to become available for redevelopment.

Mobile Phone Masts

Mrs. Spelman: To ask the Deputy Prime Minister if he will make a statement on the implementation of the Stewart report on mobile phone masts in relation to

PPG8, with particular reference to the recommendations of the report on main beam transmissions next to sensitive sites. [149182]

Yvette Cooper: The Stewart report recommended that all telecommunications development be subject to the planning process in order to improve local consultation. On 22 August 2001, the Office of the Deputy Prime Minister strengthened public consultation requirements on mast proposals of 15 metres and below and for masts on buildings and structures so that they are exactly the same as applications for planning permission. The changes to the planning arrangements also underlined that school governors must be consulted on all proposals for new masts on or near a school or college.

The Stewart Report also recommended that an independent random, on-going, audit of base stations be carried out to ensure that exposure guidelines are not exceeded. Ofcom (formerly the Radiocommunications Agency) is undertaking the audit, which has been running since December 2000 and has focused on school sites. The results have shown emissions ranging between several hundred to many thousand times below the public exposure guidelines set by the International Commission on Non-Ionising Radiation Protection (ICNIRP).

Planning

Norman Baker: To ask the Deputy Prime Minister how many, and what percentage of recommendations from inspectors called in dealing with *(a)* planning appeals and *(b)* applications he overturned in each year since 1997. [148484]

Yvette Cooper: This information is only available for decisions taken since 1 April 2002 by the new Planning Central Casework Division (PCCD) established in the Office of the Deputy Prime Minister on that date to take over work previously done predominantly by Government Offices, Information on decisions administered by PCCD since April 2002 is tabled:

Year	Total appeal decisions	Inspector's recommendation overturned	Total call in decisions	Inspector's recommendation overturned
2002–2003	124	5 (4%)	59	12 (20%)
2003–2004[1]	179	16 (9%)	72	8 (11%)

[1] First three quarters

In relation to decisions made before the setting up of PCCD, the available information (which does not distinguish between called in applications and appeals) is tabled:

Year	Secretary of State decisions	Inspector's Recommendation overturned
1999–2000	184	13 (7%)
2000–01	189	22 (12%)
2001–02	180	13 (7%)
2002–03[1]	64	17 (26%)
2003–04[1]	5	2 (40%)

[1] First three quarters

Comprehensive information is not held centrally for the period April 1997 to March 1999, and could only be provided at disproportionate cost.

[1] These decisions are in respect of inquiries which closed before 1 April 2002.

Planning Guidance

John Mann: To ask the Deputy Prime Minister what account planning authorities in England are required to take of *(a)* written departmental guidelines circulated to them and *(b)* ministerial speeches in Parliament. [147970]

Yvette Cooper: Written Departmental Guidance and Ministerial speeches in Parliament are capable of being material considerations which local planning authorities must take into account when exercising their planning powers (for both forward planning and development control purposes). Central Government policy may be communicated to local planning authorities in various ways (for example by written guidance or oral statements) and may be taken into account by a local planning authority, irrespective of the way in which it is communicated. The weight to be attached to it may vary, however, depending on how formally it is expressed.

Mrs. May: To ask the Deputy Prime Minister what guidance he has provided to local authorities on the incorporation of estimates for climate change into the definition of floodplain for planning purposes. [148281]

Yvette Cooper: The flood zones in the risk-based sequential test in Planning Policy Guidance note (PPG) 25 "Development and flood risk", which was published in July 2001, are based on Environment Agency mapping of the risks at the time of map preparation. This does not include any allowance for climate change. However, local planning authorities and developers are advised to take account of climate change in assessing the risks from flooding. PPG 25 recommends a minimum standard of flood defence that takes account of the allowances for climate change contained in the "Project appraisal guidance for flood and coastal defence", published by the then Ministry of Agriculture, Fisheries and Food in 1999.

Climate change allowances have been re-examined by the Department for Environment, Food and Rural Affairs (DEFRA) following publication of new climate change scenarios in 2002. Further guidance was published by DEFRA in 2003, which does not differ in its essentials from that already cited in PPG 25.

Property Revaluations

Mr. Waterson: To ask the Deputy Prime Minister what research his Department has commissioned on the impact upon pensioners of the revaluation of properties in England in 2007; and if he will make a statement. [148235]

Mr. Raynsford: The Government acknowledged the criticisms of council tax in the 2001 White Paper, "Strong Local Leadership, Quality Public Services". Consequently the Office of the Deputy Prime Minister has established the Balance of Funding review to consider possible reforms to the current arrangements. The Office of the Deputy Prime Minister has commissioned various research studies to inform the review including analysis of the potential impact of

revaluation on different regions and groups of council tax payers. The review will be considering proposals for change in the course of the next few months.

Registered Social Landlords

Mr. Coleman: To ask the Deputy Prime Minister if he will list the registered social landlords under investigation by the Housing Corporation; and if he will make a statement. [148728]

Yvette Cooper: The Housing Corporation is responsible for some 2,000 registered social landlords in England. To comply with the Corporation's Regulatory Code, all registered social landlords provide the Corporation with financial and regulatory information. The Corporation conducts a range of regulatory reviews as part of its routine regulatory exchanges. The Corporation has statutory powers to direct an inquiry into the affairs of a registered social landlord. There is currently only one such inquiry under way, into Solon Wandsworth Housing Association Ltd.

Mr. Coleman: To ask the Deputy Prime Minister what representations he has received from registered social landlords on allowing them to exceed the cap in relation to the rent increases set down in the Government's rent restructuring policy; and if he will make a statement. [148729]

Yvette Cooper: The Office of the Deputy Prime Minister was created in May 2002. Since this time, we have received four written representations from registered social landlords (RSLs) seeking a revision to the cap on rents of properties with the highest capital values which is incorporated into our rent restructuring policy. The current cap in 2003–04 ranges from £87.30 for a bedsit to £102.70 for a property with four or more bedrooms. For the small number of properties affected by this safeguard, the maximum increase in future years is set at Retail Price Index (RPI) plus 1 per cent. a year.

As set out in our initial policy, the Office of the Deputy Prime Minister is currently conducting a three-year review of the policy, with the aim of completing this in the spring.

Relationship Managers

Mr. Brady: To ask the Deputy Prime Minister pursuant to his Answer of 5 January 2004, *Official Report*, column 149W, on relationship managers, which authorities rated as weak in 2002 are involved in the on-going discussions with his Department over arrangements to accept assistance from his Department on a voluntary basis. [148072]

Mr. Raynsford: Officials from the Office of the Deputy Prime Minister are discussing with Wolverhampton, Northamptonshire, Havering, Merton, Enfield, Milton Keynes and Nottingham, whether those councils would wish to develop their relationship with Government through a named official.

Mr. Brady: To ask the Deputy Prime Minister pursuant to his Answer of 5 January 2004, *Official Report*, column 149W, on relationship managers, what assessment was made of Trafford Metropolitan borough council's corporate capacity to improve; and what the outcome was of that assessment. [148073]

Mr. Raynsford: The Audit Commission carried out a corporate assessment of Trafford Metropolitan borough council published as part of the Comprehensive Performance Assessment (CPA) of the authority in December 2002.

The Audit Commission's corporate assessment team gave a rating for the council's overall ability to improve as two out of a possible four and their overall performance was assessed as 'weak'.

Following the CPA assessment, the Audit Commission orchestrated an improvement planning process with the council, involving relevant representatives from government departments and inspectorates. This process established the priorities for improvement and agreed a co-ordinated and focused programme of follow up inspections based on the findings of the CPA assessment. Trafford Metropolitan borough council's priorities for improvement are set out in their Best Value Performance Plan, published in June 2003.

Mr. Brady: To ask the Deputy Prime Minister pursuant to his Answer of 5 January 2004, *Official Report*, column 149W, on relationship managers, what discussions have taken place with Trafford Metropolitan Borough Council following the comprehensive performance assessment; and whether he will appoint a relationship manager to improve Trafford Metropolitan Borough Council services. [148074]

Mr. Raynsford: Since taking up his post in September 2003, the Office of the Deputy Prime Minister's Director of Local Government Practice in the North-West has met with the Chief Executive of Trafford Metropolitan Borough Council on several occasions, as part of his broader brief. In particular, he has provided the council with advice on the availability of funding through the capacity building programme run jointly by the Government and the Local Government Association.

Trafford have not requested that a Lead Official should be appointed.

Mr. Brady: To ask the Deputy Prime Minister pursuant to his answer of 5 January 2004, *Official Report*, column 149W, on relationship managers, what criteria he used to distinguish between councils rated as weak in 2002 when considering the appointment of lead officials to work with councils. [148075]

Mr. Raynsford: Following the Audit Commission's Comprehensive Performance Assessment announcements in December 2002, the Office of the Deputy Prime Minister appointed lead officials to engage directly to secure recovery in those authorities classified as 'poor' and those categorised as 'weak' with a corporate capacity score of one, indicating little scope for managing recovery.

In addition, other councils classified as 'weak' can volunteer to develop their relationship with Government through a named official.

Sandwell MBC *v.* Perks

Mr. Sanders: To ask the Deputy Prime Minister how many properties he estimates will be affected by the judgment in the High Court Case R (Sandwell MBC)

v. Perks and the West Midlands (West) Valuation Tribunal (2003) EWH 1749 Admin; and if he will make a statement. [147974]

Mr. Raynsford: Entitlement to disabled band reduction is a matter for individual billing authorities. The Office of the Deputy Prime Minister therefore has not estimated how many properties might be affected by this decision.

Mr. Sanders: To ask the Deputy Prime Minister if he will make available supplementary funding to local authorities which incur expenditure as a consequence of the judgement in the High Court Case R (Sandwell MBC) v Perks and the West Midlands (West) Valuation Tribunal (2003) EWH 1749 Admin. [147975]

Mr. Raynsford: No.

Social Housing

Mr. Hoyle: To ask the Deputy Prime Minister what percentage of new build is required to be social housing for *(a)* rent and *(b)* shared ownership. [148424]

Yvette Cooper: The Office of the Deputy Prime Minister does not set annual targets centrally for local authorities on social housing.

Planning policies for affordable housing are set out in Planning Policy Guidance note 3, "Housing", and in Circular 6/98, "Planning for Affordable Housing". They advise that where local planning authorities are able to demonstrate a lack of affordable housing to meet local needs, based on up-to-date surveys and other data of local need, they should indicate in their local plan how many affordable homes need to be provided throughout the plan area, and set indicative targets for specific suitable sites (expressed either as numbers of homes or a percentage of the homes on the site).

Mr. Hoyle: To ask the Deputy Prime Minister how many council houses were sold in Chorley in the last five years; and how many properties remained in local authority ownership in each of those years. [148425]

Yvette Cooper: The figures reported by Chorley to the Office of Deputy Prime Minister and its predecessor departments are tabled as follows:

	Council house sales	*LA rented stock estimates at end of year*
1998–99	35	3,477
1999–2000	44	3,437
2000–01	41	3,393
2001–02	52	3,367
2002–03	95	3,271

Sustainable Communities

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will make a statement on progress since the announcement of the *(a)* Milton Keynes, *(b)* Ashford and *(c)* Stansted Corridor Sustainable Communities; how much public money has been spent; how much private sector capital has been committed; how much land has been acquired; how much land will be acquired; and over what timescale. [148203]

Yvette Cooper: There has been considerable progress in the growth areas since the announcement in July 2002—"Creating Sustainable Communities: Making it Happen: Thames Gateway and the Growth Areas".

Partners are well advanced in developing the £88 million worth of projects approved in July as part of the Government's Sustainable Communities funding package and we are on target to meet the £21.5 million allocated in this year's programme. The Office of the Deputy Prime Minister's further announcement of 14 January 2004 allocated an additional £63 million to a further 27 projects. £11.5 million has been allocated to schemes which will deliver new and improved strategic green spaces in the growth areas, including a new regional park in the Nene Valley, and a significant expansion of the Forest of Marston Vale in Bedfordshire. Over £50 million has been awarded to 18 other projects to provide key transport and economic infrastructure including new bridges and roads to access sites for 6,850 homes that would otherwise be blocked.

The vast majority of development within the housing growth areas will be undertaken by the private sector but detailed information on each investment is not collected. In addition there will be major investment programmes on commercial sites—such as the £800 million programme for Central Milton Keynes, involving English Partnerships, Milton Keynes Council and a number of private investors. Many schemes funded by the Office of the Deputy Prime Minister are, however, designed to enable local partners to lever in specific private sector commitments to infrastructure by unblocking barriers to investment. In most cases negotiations are ongoing, but examples of match funding already committed include the Office of the Deputy Prime Minister's commitment of £10.6 million for road access to the Wellingborough East development site, which is matched pound for pound by Bovis Homes.

There are no targets for land acquisition in the growth areas; the need for land assembly by the public sector will be determined on a case by case basis. Several of the projects for which the Office of the Deputy Prime Minister is already providing funding will facilitate the assembly of parcels of land for public benefit, such as the provision of affordable housing and community facilities (for example in Harlow), or high quality green spaces within or around the growth areas, as in Cambridgeshire and Bedfordshire. The funding will also facilitate the remediation of heavily contaminated land and the preparation of sites for release to the private sector for development.

Mr. Clifton-Brown: To ask the Deputy Prime Minister which Government Departments are involved in plans for the development of the *(a)* Milton Keynes, *(b)* Ashford and *(c)* Stansted Corridor Sustainable Communities; and what commitments they have made. [148205]

Yvette Cooper: The July Statement—"Sustainable Communities: Making it Happen: Thames Gateway and the Growth Areas"—set out how growth area projects

would be taken forward across Government, with schemes including transport, health, education, sports and green spaces. For example, transport commitments include the £1.6 billion announced by Alistair Darling in July, and most recently the Department for Transport's Local Transport Programme announcement of December 2003, which included schemes worth £221 million across the three growth areas.

A wide range of public agencies are involved. Bringing more agencies together with local partners to look at strategic infrastructure issues is the purpose of the Inter Regional Board being established for the Milton Keynes South Midlands growth area, which will hold its first meeting on 11 February 2004.

Unfit Housing

Mr. Waterson: To ask the Deputy Prime Minister what assistance is available for repairing structurally unfit houses owned by the *(a)* elderly and *(b)* disabled; and if he will make a statement. [148236]

Yvette Cooper: Local authorities have wide ranging powers under the Regulatory Reform (Housing Assistance) (England and Wales) Order 2004 to provide assistance for the repair, improvement or adaptation of any living accommodation in their area. Such assistance, which can be made available at the discretion of the authority, may be in any form, for example by way of a grant, loan or loan guarantee, and can be provided either directly by the council or through a third party. The Order provides that before using these powers the local authority must publish a policy setting out the range of assistance that they will make available.

Funding for this assistance is available from an authority's single capital housing pot and in 2002–03 total local authority expenditure in England on housing renewal grants (excluding disabled facilities grant) was £259 million.

Water Supply

Mrs. Spelman: To ask the Deputy Prime Minister what additional water supply infrastructure is likely to be required for the additional homes proposed for the Thames Gateway up to 2016. [149184]

Yvette Cooper: Each water supply company produces a water resources plan that looks forward 25 years. The companies update their plans annually, which are then reviewed by the Environment Agency for consistency with its national and regional water resources strategies. The companies serving the Thames Gateway need firm estimates of growth to enable them to identify new water supply and disposal infrastructure requirements and factor these in to their business plans. Companies are therefore working in close liaison with local and regional planners and the Office of the Deputy Prime Minister to establish both infrastructure requirements and the scope for achieving water efficiency savings in the new homes through sustainable development. A summary of their final investment plans will be available in late April, but these will cover investment required to meet the totality of demand forecast in their areas not just that which is within the Thames Gateway.

West Midlands Regional Planning

Mr. Andrew Mitchell: To ask the Deputy Prime Minister when he plans to publish the final version of the West Midlands Regional Planning Guidance. [148014]

Yvette Cooper: The Office of the Deputy Prime Minister is currently considering responses to the public consultation on my right hon. Friend the Deputy Prime Minister's Proposed Changes to Draft Regional Planning Guidance (RPG) for the West Midlands. We hope to publish the final RPG in the spring this year.

Wychavon District Council

Mr. Luff: To ask the Deputy Prime Minister (1) what account he took, in setting the revenue support grant for Wychavon District Council for 2004–05, of cost pressures on the council flowing from *(a)* administering the new local plan, *(b)* implementing the law on high hedges, *(c)* administering the Supporting People programme, *(d)* deregulation of building control services, *(e)* ending of Market Towns Initiative funding, *(f)* ending of Local Government On-Line funding and *(g)* compliance with the Freedom of Information Act 2000; [146549]

(2) what account he took in setting the revenue support grant for Wychavon District Council for 2004–05, of cost pressures on the council flowing from *(a)* implementation of the Disability Discrimination Act 1995 on council property, *(b)* compliance with new legislation on homelessness, *(c)* provision for migrant workers, *(d)* changes to insurance premiums, *(e)* audit and inspection fees, *(f)* implementation of new licensing arrangements, *(g)* provision of recycling and waste services and *(h)* increases in employer contributions to pension funds; [146550]

(3) what account he took, in setting the revenue support grant for Wychavon District Council for 2004–05, of cost pressures on the council flowing from *(a)* the requirement for more consultation with the community to improve local accountability and community leadership, *(b)* the administration of Anti-Social Behaviour Orders, *(c)* further requirements for dealing with stray dogs, *(d)* administration of the standards regime for regulation of district and parish councils, *(e)* the need to have the financial capacity to improve following Comprehensive Performance Assessment inspection and *(f)* the requirement to develop a cultural strategy. [146555]

Mr. Raynsford: The Office of the Deputy Prime Minister's proposals for the funding of local authority revenue spending in 2004–05 take into account the cost pressures and new burdens on local government identified with the Local Government Association in the context of the Spending Review 2002, which set the spending plans up to 2005–06. The Office of the Deputy Prime Minister has added to those totals to reflect additional pressures and new burdens since the announcement of Spending Review 2002. Additionally, Wychavon District Council has received specific grants for certain items identified by the hon. Member, for example from the Waste Recycling Challenge Fund.

The Government's proposals for 2004–05 provide for an increase in total general grant of £2.4 billion or 5.5 per cent. Wychavon District Council would receive an increase of £5.6 million or 4.2 per cent. on a like-for-like basis compared with 2003–04.

Most Government funding to local authorities is paid through general grant and is for councils to allocate in line with their statutory duties, their priorities and the wishes of their electorate.

Written Answers to Questions

Tuesday 20 January 2004

HEALTH

Organ Donation

16. **Mr. Jim Cunningham:** To ask the Secretary of State for Health if he will make a statement on the findings of the most recent survey of people's perceptions of organ donation. [148800]

Ms Rosie Winterton: Research has confirmed that 90 per cent. of the UK population support organ donation and nearly 20 per cent. have registered their intention to donate on the NHS Organ Donor Register.

Children's Hospices

17. **Mr. Reed:** To ask the Secretary of State for Health if he will make a statement about the funding of children's hospices. [148801]

Dr. Ladyman: Funding for children's hospices is available through primary care trusts which are responsible for funding health care for their resident population. Local authorities can also fund services, including children's respite care. The New Opportunities Fund has provided £48 million over three years in support of palliative care projects for children.

Hepatitis C

18. **Paddy Tipping:** To ask the Secretary of State for Health if he will make a statement on the proposed introduction of a compensation scheme for hepatitis C sufferers infected with contaminated blood products. [148802]

Miss Melanie Johnson: Work on the detail of the scheme is being finalised and we hope to be in a position to announce the details soon.

World Health Organisation

19. **Mr. Dalyell:** To ask the Secretary of State for Health if he will make a statement on his Department's contribution to the work of the World Health Organisation. [148803]

Mr. Hutton: The Department of Health is responsible for the United Kingdom's annual subscription to the World Health Organisation. This contribution is based on the United Nation scales of assessment, with the UK contributing—in 2003–04—5.5 per cent. of WHO's regular programme budget, or £13.5 million. In addition the Department supports WHO in practical ways, including secondment of staff, membership of expert committees and work in the formal meetings of the governing bodies of WHO.

NHS Dentistry

20. **Shona McIsaac:** To ask the Secretary of State for Health if he will make a statement on the provision of NHS dental treatment in North Lincolnshire. [148804]

Ms Rosie Winterton: The Government remain committed to ensuring that national health service dentistry is available to all who need it and seek it. We recognise however that access to NHS dentistry can be difficult in some areas. We have announced additional resources totalling £59 million over this year and next to support dental access.

A NHS support team is working with the hardest pressed areas, including North East Lincolnshire, and we hope that this and other local initiatives will ease the pressure on dental services in North Lincolnshire. We have also made available a one-off payment of £30,000 to North Lincolnshire Primary Care Trust to improve access to NHS dentists. The PCT will use this money to extend a general dental practice in the area, which will allow that practice to register more NHS patients on an agreed basis over a three year period.

We are also working with the PCTs and dentists in North and North East Lincolnshire to see what support can be provided to move dentists on to personal dental services arrangements, which would take them off the bureaucratic treadmill of item of service fees.

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of the impact of the 2001 restrictions on non-EU-trained dentists practising in the United Kingdom on the availability of dentistry. [147504]

Ms Rosie Winterton: From 2001, the General Dental Council (GDC) ceased making visitations to dental schools in Australia, New Zealand and South Africa, with the result that dentists who qualified after this date and wish to practise here have to sit the GDC's international qualifying examination. The number of dentists from those countries admitted to the GDC register since 2000 is shown in the table.

	Australia	*New Zealand*	*South Africa*
2000	174	134	876
2001	178	142	938
2002	168	136	1,022
2003	168	125	1,037

Dr. Murrison: To ask the Secretary of State for Health how many foreign-trained dentists were practising in the United Kingdom in each year since 1990, broken down by *(a)* headcount and *(b)* full-time equivalents. [147505]

Ms Rosie Winterton: The table shows the number of general dental service (GDS) foreign-trained dentists practising in England and Wales in each year since 1993. Information is not available for years before 1993.

Information on a full-time equivalent basis is not available. GDS dentists can vary the amount of dental work they do and the proportion carried out in the GDS.

General Dental Service: Number of foreign trained dentists practising in England and Wales—September each year

	Number of dentists
1993	1,556
1994	1,497
1995	1,530
1996	1,701
1997	1,896
1998	2,180
1999	2,475
2000	2,713
2001	2,869
2002	2,950
2003	3,004

Notes:

1. Dentists include principal, assistant and vocational dental practitioners.
2. Dentists exclude those whose status is currently shown as Statutory Exam or Awaiting Entry.

Respite Care

21. **Mr. Gordon Marsden:** To ask the Secretary of State for Health what steps his Department is taking to promote respite care. [148805]

Dr. Ladyman: The Government are committed to seeing a range of services available locally for people who need services and their carers.

The carers grant has provided an extra £325 million since 1999 to support local councils in arranging breaks services for carers.

Charles Hendry: To ask the Secretary of State for Health what role he envisages for the private sector in providing respite care facilities for people with learning difficulties. [148687]

Dr. Ladyman: The private sector has an important role in providing respite care and short break services for people with learning disabilities and we envisage that this will continue to be the case. Respite care and short break services should provide high quality and flexible support to people with learning disabilities and their families. Such support can be provided in different ways by agencies from a variety of sectors including the private sector. People with learning disabilities can also use direct payments to directly purchase for themselves services, from a variety of sources, to meet their assessed needs include respite care and short breaks.

Ehler-Danlos Disease

22. **Mr. Pickthall:** To ask the Secretary of State for Health if he will fund research into Ehler-Danlos disease. [148806]

Dr. Ladyman: The Medical Research Council (MRC) is not currently funding any research into Ehlers-Danlos though it does fund a number of research projects into connective tissue and also into collagen physiology. The MRC always welcomes high quality applications for support into any aspect of human health and these are judged in open competition with other demands on funding.

Coronary Heart Disease

23. **Dr. Iddon:** To ask the Secretary of State for Health what the most recent statistics for the mortality rate from coronary heart disease are in the area covered by the Bolton primary care trust. [148807]

Miss Melanie Johnson: In 2002, the most recent year for which data are available, the mortality rate from coronary heart disease for residents of Bolton Primary Care Trust was 230 male deaths per 100,000 population and 108 female deaths per 100,000 population.

Audiology Services

Mr. Chope: To ask the Secretary of State for Health what performance indicators are in place for NHS audiology services. [149081]

Dr. Ladyman: There are no national performance indicators for national health service audiology services. It is for primary care trusts to plan these services in response to the needs of their local communities.

Delayed Discharges

Sue Doughty: To ask the Secretary of State for Health what plans he has to fine social services departments in the case of delayed discharges in community hospitals. [148370]

Dr. Ladyman: We plan to extend the system of reimbursement for delayed discharges to all hospital patients in a phased way, once it begins to make an impact in the acute sector.

Emergency Readmissions

Sandra Gidley: To ask the Secretary of State for Health for what reason his Department no longer collects information for patients aged 75 and over on emergency readmissions to hospital within 28 days of discharge. [149008]

Dr. Ladyman: The target, and subsequently the collection of monitoring information on emergency readmissions, was changed from that relating only to patients aged 75 because it was perceived as being ageist in that older people could be denied access to hospital services in order to meet a performance target. Emergency readmissions targets and data collections have, therefore, covered all ages since April 2002.

Foundation Hospitals

Mr. Gordon Prentice: To ask the Secretary of State for Health pursuant to his Answer of 12 January 2004, *Official Report*, column 602W, on foundation hospitals, if he will list those applications for foundation hospital status which have been submitted to the Independent Regulator. [148409]

Mr. Hutton: I refer my hon. Friend to my written ministerial statement of 19 January 2004, *Official Report*, column 49WS.

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library copies of the preparatory materials submitted by the national health service trusts seeking the Secretary of State's support for an application for NHS foundation trust status. [147933]

Mr. Hutton: I refer the hon. Member to the response I gave on Monday 5 January 2004, *Official Report*, column. 189W. I will arrange for copies of the applications submitted to the independent regulator to be placed in the Library. I will also arrange for the Department's summary of each applicant to be placed in the Library in due course.

Geriatricians

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* consultant geriatricians and *(b)* geriatricians below the level of consultant were employed by the NHS in each year since 1997. [148827]

Mr. Hutton: The table shows the number of consultants in geriatric medicine and geriatricians below the level of consultant who were employed by the national health service in each year since 1997.

Hospital, Public Health Medicine and Community Health Services (HCHS): Consultant grade and other staff with a specialty in geriatric medicine

England[1] *Number (headcount)*

	All staff	*of which:*	
		Consultants	*Non-consultants*[3]
June 2003	[2]	894	[2]
2002	2,707	861	1,846
2001	2,558	781	1,777
2000	2,572	767	1,805
1999	2,505	719	1,786
1998	2,560	712	1,848
1997	2,527	677	1,850

[1] Data as at 30 September except 2003, where data as at 30 June.

[2] Data not available. This is due to 2003 data being taken from the mini census, which collected consultants only.

[3] Grades below the level of consultant include staff grade, associate specialist, registrar group, senior house officer, house officer, hospital practitioner, clinical assistant and other staff.

Source:

Department of Health medical and dental workforce census.

The number of consultants employed by the NHS in geriatric medicine has increased by 32 per cent. between September 1997 and June 2003.

Health and Social Services (Lincolnshire)

Mr. Simmonds: To ask the Secretary of State for Health how much funding has been provided *(a)* in absolute terms and *(b)* per head of population served by the Trust for the United Lincolnshire NHS Trust in each year since 1995. [148474]

Dr. Ladyman: Funding is not allocated to national health service trusts. NHS trusts as providers of services receive the bulk of their revenue funding from commissioning by primary care trusts. Since 2003–04 funding has been allocated to PCTs, and before then to health authorities.

The table shows cash allocations and allocations per head of population for Lincolnshire health authority, East Lincolnshire PCT and Lincolnshire South West Teaching PCT. Prior to 1996–97 allocations were made to regional health authorities, no information is available for Lincolnshire.

Period	*Total allocation (£000)*	*Allocation per weighted head of population (£)*	*Allocation per unweighted head of population (£)*
Lincolnshire HA			
1996–97	256,520	431	416
1997–98	266,305	448	428
1998–99	278,608	463	445
1999–2000	394,990	632	615
2000–01	429,691	681	664
2001–02	469,403	736	717
2002–03	519,957	811	785
East Lincolnshire PCT			
2003–04	241,038	884	904
2004–05	264,418	970	991
2005–06	288,857	1,060	1,083
Lincolnshire South West Teaching PCT			
2003–04	143,841	934	785
2004–05	156,714	1,018	855
2005–06	170,113	1,105	928
West Lincolnshire PCT			
2003–04	180,080	887	855
2004–05	197,501	973	938
2005–06	215,736	1,063	1,025

Note:

1999–2000 is the first year of unified allocations covering HCHS, prescribing and GMS cash limited. These figures are not comparable with those for previous years which cover HCHS only.

Independent Diagnostic and Treatment Centres

Mr. Burstow: To ask the Secretary of State for Health what plans he has to require independent diagnostic and treatment centres to have patients' forums. [148680]

Ms Rosie Winterton: There are no plans to require independent treatment centres to have patients' forums. The patients forums set up for primary care trusts (PCTs) that commission services from independent treatment centres can monitor and review services that the treatment centre provides, as well as carry out their other functions in relation to them. Directions issued to PCTs on 27 November 2003 require PCTs to ensure that contracts they place with all independent sector providers includes provisions that:

require those providers to allow entry to patients' forums to enter and inspect premises where those services are provided; and

require those providers to give information in relation to those services to patients' forums when requested.

Mr. Burstow: To ask the Secretary of State for Health what rights of access to *(a)* people, *(b)* papers and *(c)* premises (i) overview and scrutiny committees and (ii) primary care trust patient forums will have in respect of independent diagnostic and treatment centres operating within their area. [148679]

Ms Rosie Winterton *[holding answer 19 January 2004]:* In relation to the operation of independent treatment centres, overview and scrutiny committees (OSCs) do not have rights of access to people, papers or premises of independent treatment centres. OSCs that

want to scrutinise independent services should do so via the primary care trust (PCT) that commissioned the services.

Patients' forums have a right to enter and inspect independent premises and the right to information only if the contract between the PCT and the provider is compliant with directions issued to PCTs last November. These directions require PCTs to ensure that contracts they place with all independent sector providers include provisions that require those providers to allow entry to patients' forums to enter and inspect premises where those services are provided and require those providers to give information in relation to those services to patients' forums when requested.

Mr. Burstow: To ask the Secretary of State for Health how public-patient involvement will be delivered for independent diagnostic and treatment centres. [148682]

Ms Rosie Winterton *[holding answer 19 January 2004]:* Primary care trusts (PCTs) are responsible for ensuring that section 11 of the Health and Social Care Act 2001—the duty to involve and consult patients and the public—is complied with when making arrangements for another organisation, person or people to provide services. This includes independent treatment centres (ITCs).

PCT patients' forums have powers to monitor and review the services provided by ITCs. Contracts between PCTs and ITCs will include a requirement to allow PCT patients' forums to enter the premises of ITCs.

Local authority overview and scrutiny committees with the power to review the planning, provision and operation of services will be able to use those powers in relation to ITCs, through the scrutiny of those PCTs which contract with ITCs.

Long-term Care

Mr. Burstow: To ask the Secretary of State for Health what his estimate is of the additional cost of implementing in full the recommendations of the Royal Commission on Long-term Care. [143376]

Dr. Ladyman: The cost of introducing free personal care for everyone in England has been estimated at £1.5 billion. The cost would increase to £1.8 billion with equivalent payments to the devolved Administrations. None of this extra expenditure, were it to be made in this way, would increase choice or services available to older people.

Mid-Essex Hospital Trust

Mr. Simon Burns: To ask the Secretary of State for Health how many people were waiting for in-patient treatment in the Mid-Essex Hospital Trust area at the latest date for which figures are available; and how many people have been waiting over 12 months for in-patient treatment. [147989]

Dr. Ladyman *[pursuant to his answer, 15 January 2004, Official Report, column 858W]:* I regret my previous answer was incomplete. The response should read as follows.

As of 30 November 2003, 7,972 patients were waiting for elective inpatient admission, and no patients were waiting over 12 months. The source of this data is the Department of Health monthly monitoring.

Miller Group

Mr. Oaten: To ask the Secretary of State for Health if he will list contracts his Department has awarded to the Miller Group in each of the last three years. [149431]

Mr. Hutton: No contracts have been awarded by the Department of Health to the Miller Group in any of the last three years.

National Fruit Scheme

Ms Oona King: To ask the Secretary of State for Health if he will make a statement on the monitoring and roll out of the national fruit scheme and its impact on the consumption of fruit by four to six-year-olds in deprived areas. [148793]

Dr. John Reid: Following successful national piloting, the National School Fruit Scheme will be extended nationwide by the end of 2004. It already operates in four regions and covers 35 of the 50 most deprived wards in England.

This extension means that more than 2 million children will now benefit.

Osteoporosis

Mr. Drew: To ask the Secretary of State for Health if he will clarify the National Institute for Clinical Excellence advice on the provision of medicines to those patients diagnosed with osteoporosis. [148276]

Dr. Ladyman: The National Institute for Clinical Excellence (NICE) is consulting on the first draft of a technology appraisal on the use of medicines for the prevention and treatment of osteoporosis and prevention of osteoporotic fractures in postmenopausal women. The document does not constitute NICE's formal guidance on this technology: the recommendations are preliminary and may change after the consultation. The draft document is available on the NICE website at www.nice.org.uk.

Personal Care Charges

Mr. Burstow: To ask the Secretary of State for Health what estimate he has made of the total charges collected from local authorities for personal care in each of the last six years. [144294]

Dr. Ladyman: The information shown in the table shows total resident/service user contributions to care costs including personal care. The Department of Health does not collect information on resident/service user contributions for personal care only.

Income from client contributions (sales, fees and charges)—England

£000

	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02

PET Scanners

Mrs. Roe: To ask the Secretary of State for Health what steps his Department is taking to increase the number of PET scanners in the NHS. [148062]

Miss Melanie Johnson: In response to requests from national health service and research stakeholders the Department of Health will shortly publish a framework for positron emission tomography (PET) scanning for consultation. This framework will set out a national policy position for PET in the NHS which will set out, from the evidence, which tumour groups would benefit from PET scanning, likely future demand, and the optimal configuration and location of PET scanners.

Vaccinations (Staff)

Mr. David Stewart: To ask the Secretary of State for Health what his Department's policy is on the provision of smallpox vaccinations for medical personnel. [148762]

Mr. Hutton *[holding answer 19 January 2004]:* As part of its overall preparedness strategy for dealing with bioterrorism, the Department has produced a detailed smallpox plan. This plan requires that each standard Government region should have a regional response group consisting of five response teams each comprising of five members vaccinated against smallpox. Corresponding arrangements are being made for Scotland, Wales and Northern Ireland. This cohort of healthcare workers would be the first responders in investigating any suspected or confirmed cases of smallpox and therefore need to be protected against the threat of disease. A programme to vaccinate the necessary cohort for England commenced in December 2002 and to date we have vaccinated 276 healthcare workers; exceeding our target of 261. The cohort comprises infectious disease physicians and paediatricians, public health physicians, microbiologists/virologists, acute care and communicable disease control nurses and occupational health staff. In addition, a further target of 90 ambulance staff to be vaccinated has recently been set for England. These are the only personnel being offered smallpox vaccination in the absence of disease.

While there is no evidence of a specific threat of smallpox attack on the United Kingdom, it is sensible and prudent to ensure that the national health service can deal effectively with any potential threat.

The Department's smallpox plan is available in the Library and also on the Department's web-site at www.doh.gov.uk/smallpox/smallpox.htm.

Variant CJD

Mr. George Osborne: To ask the Secretary of State for Health what the current funds are in the discretionary fund available to victims and families of new variant CJD; what the outstanding claims are on that discretionary fund; and if he will make a statement on the future operation of the discretionary fund. [145112]

Miss Melanie Johnson: It was in recognition of the special plight of those affected by variant CJD (vCJD) that the Government established the vCJD Trust which oversees the payment of no-fault compensation to the families involved.

The terms of the trust were agreed with representatives of the families following a lengthy period of consultation. The compensation scheme provides for payments to be made in respect of 250 cases up to a maximum of £55 million.

On top of this £55 million, the Government also agreed to meet the families' request to pay a further £50,000 to every victim or their family in each of the first 250 cases.

Additionally, the trustees can make extra payments in prescribed circumstances where particular hardship is involved and where the trustees consider that further payment should be made. Such payments can be made from the discretionary fund although there is no entitlement as of right for those making claims upon this fund since further payments from it are entirely at the discretion of the trustees.

To date, the trustees of the vCJD Trust have made payments of £1,509,353.99 from the discretionary fund in respect of 96 cases. This leaves a balance of £3,490,646.01 in the discretionary fund.

Further information about the vCJD Trust will be available on the trust's website www.vcjdtrust.co.uk shortly, to which the trust's first Annual Report covering the period 15 March 2002 to 5 April 2003 will be added in the next couple of weeks.

I will place a copy of the trust's report in the Library.

TREASURY

Banking Regulation

Keith Vaz: To ask the Chancellor of the Exchequer what plans he has to improve the level of supervision of banks. [149499]

Ruth Kelly: The regime for prudential supervision of banks is kept under constant review, both at home and internationally, in forums such as the European Union and the Basle Committee on Banking Supervision. On 1 June 1998, responsibility for the supervision of banks moved from the Bank of England to the Financial Services Authority. The legislative framework for the regulation of banks was subsequently reformed under the Financial Services and Markets Act; this came into effect on 1 December 2001.

Household Incomes

Mr. Cousins: To ask the Chancellor of the Exchequer what the income thresholds were for each decile of the household income distribution in *(a)* 1997–98 and *(b)* the most recent available 12-month period. [149640]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Cousins dated 20 January 2004:

As National Statistician, I have been asked to reply to your recent question asking for the income threshold for each decile of the household income distribution in 1997–98 and the most recent available 12-month period, which is 2001–02.

Estimates in the following table are produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on October 21st 2003 at http://www.statistics.gov.uk/taxesbenefits. The analysis includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey.

The table shows, for the UK in 1997–98 and 2001–02, the boundaries between equivalised disposable income deciles for all households. Equivalisation is a standard methodology that takes into account the size and composition of households and adjusts their incomes to recognise differing demands on resources. For example, the 1st decile boundary is the income level below which one tenth of households are estimated to lie.

Income decile	*1997–98*	*2001–02*
Bottom	6,766	8,214
2nd	8,504	10,356
3rd	10,146	12,361
4th	11,922	14,670
5th	13,917	17,179
6th	16,342	19,910
7th	19,316	23,691
8th	23,457	28,469
9th	30,451	37,095
Top		

Source:
Office for National Statistics, based on the analysis 'The effects of taxes and benefits on household income', published on the National Statistics website and in *Economic Trends*.

Inland Revenue

Mr. David Stewart: To ask the Chancellor of the Exchequer what plans he has to produce an Inland Revenue leaflet covering all the Inland Revenue help available for those with special needs. [148385]

Dawn Primarolo: The Inland Revenue are researching the most appropriate methods, including leaflets, of effectively publicising the help available to those with special needs and have been working closely with the Low Incomes Tax Reform Group.

Ministerial Meetings

Keith Vaz: To ask the Chancellor of the Exchequer when he last met *(a)* Sir Eddie George and *(b)* Mr. Brian Quinn. [149497]

Ruth Kelly: Ministers and civil servants have meetings with a wide range of organisations and individuals as part of the process of policy development and analysis. As with previous Administrations, it is not this Government's practice to provide details of all such meetings. All such contacts are conducted in accordance with the Ministerial Code, the Civil Service Code and Guidance for Civil Servants: Contacts with Lobbyists, as appropriate.

National Savings

Mr. Hancock: To ask the Chancellor of the Exchequer if he will make a statement on his plans for the National Savings Ordinary Account as they effect *(a)* existing and *(b)* potential new account holders. [149483]

Ruth Kelly: National Savings and Investments will shortly launch a new savings account in response to changing customer needs. The new account will replace the Ordinary Account, which was introduced in 1861 and has not kept pace with changes in the savings market. The Ordinary Account is expensive to run and therefore only offers modest returns to savers.

The new account has been designed to meet these changing customer needs and will be straightforward and simple to operate, offering customers greater flexibility in the way they manage their savings. They will be able to make deposits at post offices, by telephone and by post and they will be given an account card which will allow cash withdrawals at post offices or ATMs in the LINK network. This means the new savings account will be cheaper to run compared to the Ordinary Account and the savings will be passed onto the customer in the form of better interest rates.

The new savings account will be available on 29 January 2004 and new Ordinary Accounts will not be available after 28 January 2004. In order to give existing Ordinary Account customers plenty of time to consider what to do with their savings, they will be able to continue using their account in the normal way until 31 July 2004. After that date, no further deposits can be made and any withdrawal will have to be for the full balance to close the account. In the meantime, National Savings and Investments will be writing to Ordinary Account customers explaining their options, including information about the new account and a simple transfer form for those wishing to transfer their savings into the new account.

Public Expenditure

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer when he last conducted a needs-based review of public expenditure levels in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland. [149454]

Mr. Boateng: Public expenditure of UK Government Departments has been reviewed in each spending review. The funding for the Devolved Administrations has been determined using the Barnett formula. Details were published in the Statement of Funding Policy in July 2002.

Spirits (Duty)

Mr. Alan Reid: To ask the Chancellor of the Exchequer how many *(a)* successful and *(b)* unsuccessful prosecutions there were for evading duty on spirits in the most recent year for which figures are available. [147324]

John Healey *[holding answer 12 January 2004]:* In 2002–03, there were 24 prosecutions for evading duty on spirits. Of these, 21 were successful and three were unsuccessful.

Additionally, 62 prosecutions were brought for cases involving the evasion of duty on mixed excise goods, some of which may have included spirits.

Figures for the current and future years will be reported on an annual basis by HM Customs and Excise in their Annual Report.

Statutory Sick Pay

Mr. Goodman: To ask the Chancellor of the Exchequer how many people employed in his Department have claimed statutory sick pay for *(a)* less than one week, *(b)* one to three weeks, *(c)* four to six weeks, *(d)* seven to 12 weeks, *(e)* 13 to 20 weeks and *(f)* 21 to 28 weeks in each year since 1997. [148622]

Ruth Kelly: The information is not available and could be obtained only at a disproportionate cost.

The Treasury, Inland Revenue and HM Customs and Excise pay full pay for six months and a further six months at half pay for staff who are absent due to sickness. SSP is paid only when employees are not receiving full pay. SSP is paid for up to 28 weeks.

There are very few payments of SSP made due to the sick absence scheme we operate.

TRANSPORT

Flying (Health)

Norman Baker: To ask the Secretary of State for Transport what assessment his Department has made of the implications for human health of travelling in passenger aircraft at altitudes in excess of 30,000 feet. [148588]

Mr. McNulty: Although scheduled passenger aircraft routinely fly at altitudes of between 30,000 and 37,000 feet, the cabin is pressurised to the equivalent of between 6,000 and 8,000 feet to compensate for the reduction in atmospheric pressure. The Government are actively examining the effects of air travel on the health of passengers, notably in relation to the incidence of deep vein thrombosis and cabin air quality. In conjunction with the Civil Aviation Authority and the National Radiological Protection Board, the Department has also issued advice on limiting airline crew's exposure to cosmic radiation in accordance with Article 42 of Council Directive 96/29/Euratom.

Shipping (Accidents)

Mr. Paul Marsden: To ask the Secretary of State for Transport how many *(a)* injuries and *(b)* fatalities there were caused by accidents involving personal transfer baskets used in British waters in each year since 1997. [148501]

Mr. Jamieson: The Marine Accident Investigation Branch of DfT has no record of injuries caused by accidents involving transfer baskets used in British waters since 1997.

Air Transport

Mrs. May: To ask the Secretary of State for Transport (1) what advice he received from the National Air Traffic Service on the feasibility of the proposals

contained in the White Paper on "The Future of Air Transport" *(a)* prior to publication of the White Paper and *(b)* subsequently; [149044]

(2) what assessment his Department has made of the impact of the proposals in the White Paper on "The Future of Air Transport" on the design of UK airspace; [149047]

(3) what discussions his Department has held with the National Air Traffic Service on the impact of increased airport capacity at *(a)* Heathrow and *(b)* Stansted on the design of London Terminal Area airspace; [149048]

(4) what simulations have been undertaken by the National Air Traffic Service of the impact of increased airport capacity in the South East on the design of London Terminal Area airspace; [149049]

(5) what assessment he has made of how long it will take the National Air Traffic Service (NATS) to *(a)* design and *(b)* implement changes necessary to the London Terminal Area airspace as a result of the proposed increases in airport capacity in the South East; and when NATS expects to begin this work. [149050]

Mr. Darling: The studies that preceded "The Future of Air Transport" included a high-level assessment of airspace issues by the Civil Aviation Authority (CAA), the body responsible for the planning and regulation of UK airspace, and National Air Traffic Services (NATS). This work concluded that the necessary airspace capacity could, in broad terms, be provided safely through the redesign of airspace and the introduction of enhanced air traffic techniques and systems. Copies of the relevant report have been placed in the House Libraries. Both organisations also responded to the consultation that preceded the White Paper. In their response, NATS supported the need for new runways in the South East and expressed a preference for development at existing airports.

Paragraphs 12.25–12.27 of "The Future of Air Transport" set out the Government's expectation that the CAA will make early progress in bringing forward a programme of work, involving other key bodies including NATS, for the redesign of airspace to accommodate forecast growth in air traffic.

Concessionary Fares

Mr. Grogan: To ask the Secretary of State for Transport how much government grant per capita was allocated for concessionary fares on public transport in 2003–04 in *(a)* West Yorkshire, *(b)* South Yorkshire and *(c)* North Yorkshire. [149386]

Mr. McNulty: Government provision for existing concessionary travel schemes is included in the general grant for local authorities. This is distributed using formula spending shares and it is not possible to provide an allocation for each authority. It is for local authorities to decide their spending priorities in the light of their responsibilities and the wishes of their electorate.

Spend on a per capita basis in 2002–03 by each of the three authorities on concessionary fare reimbursement was approximately as follows:

West Yorkshire—£11.45 per head

South Yorkshire—£9.85 per head

North Yorkshire (on an aggregate of its seven district councils)—£2.33 per head.

In North Yorkshire the concessionary fare schemes were funded by district councils, not the county.

West Yorkshire PTE's concessionary fares scheme provides for a flat fare on buses and rail services for older and disabled people. Schoolchildren and students can also travel at a reduced fare. South Yorkshire PTE's scheme provides for flat fares on local bus, tram and train services for older and disabled people, schoolchildren and students. In North Yorkshire the seven district councils all provide a half fare scheme on bus services for older and disabled people only, with some providing concessionary travel on other modes.

Driving Tests

Mr. Damian Green: To ask the Secretary of State for Transport what representations he has received on the introduction of compulsory hazard perception tests for existing approved driving instructors; and if he will make a statement. [145334]

Mr. Jamieson: We have received representations from a wide variety of sources since our decision to add moving-image Hazard Perception Testing (HPT) to the supervision of existing Approved Driving Instructors (ADIs) was announced in December.

HPT has been part of the qualification process for learner drivers, car, lorry and bus drivers, motorcyclists and prospective ADIs since November 2002. Our announcement followed consultation exercises in December 2001 on HPT for learner drivers and riders and prospective ADIs, and in April 2003 for existing ADIs. On both occasions, instructor interests mainly favoured introduction for drivers and prospective ADIs, but not for existing ADIs. Other interests, such as road safety bodies and the police, mainly favoured the proposals, including for existing ADIs.

The ADI registration scheme already requires instructors to have their competence periodically re-assessed. We now plan to use modern technology to assess standards objectively against the same benchmark—regardless of when ADIs were registered. This should ensure that ADIs are familiar with the nature of the tests faced by trainees.

Insurance Discs

Mr. Hoyle: To ask the Secretary of State for Transport what assessment he has made of the merits of introduction of insurance discs. [148221]

Dr. Howells: The Government have commissioned an independent review, by Professor David Greenaway, of the UK motor insurance system with a particular focus on uninsured driving. The review will include an assessment of the merits of the introduction of insurance discs. Professor David Greenaway is expected to report in April and we will study carefully his recommendations.

M6

Mr. Hoyle: To ask the Secretary of State for Transport how much money will be spent on the M6 *(a)* maintenance and *(b)* upgrading in (i) Lancashire, (ii) Cheshire and (iii) Staffordshire in each of the next five years; and how many miles of the M6 motorway will be affected in each of the counties. [148222]

Dr. Howells: Maintenance programmes are established on an annual basis, based upon an assessment of network condition and availability of funds.

Subject to the availability of funds, the Highways Agency plans to invest in a Motorway Incident Detection Automatic Signalling System (MIDAS), which includes upgrading the current Variable Message Signs, on the Lancashire section of the M6.

Traffic Management Bill

Mr. Steen: To ask the Secretary of State for Transport how many uniformed patrols will be set up by the Highways Agency under the Traffic Management Bill; what their annual cost will be; and how many new posts will be created. [145825]

Mr. Jamieson *[holding answer 7 January 2004]:* The number of uniformed patrols (a liveried vehicle and uniformed Traffic Officers) will depend on day-to-day operational requirements and is currently envisaged to be about 100 when fully phased in on motorways. The annual cost is about £40 million. It is currently envisaged that the number of new posts created will be about 1,200 Traffic Officers.

The Highways Agency and Association of Chief Police Officers "Roles and Responsibilities Report" identified plans that could free up the equivalent of about 540 full-time equivalent police officers. Based on figures from Her Majesty's Inspectorate of Constabulary of 6,540 designated roads police in 2001–02, the report estimated that a transfer of non-core police activities to the Highways Agency enabled approximately 8½ per cent. of police time to work on other key tasks. Resources will be freed up over a period of about three years as Highways Agency Traffic Officers are phased in across all motorways and some key trunk roads.

Transport Investment

Mr. Hoyle: To ask the Secretary of State for Transport how much investment there was in transport in *(a)* Lancashire and *(b)* Chorley in each of the last five years. [148220]

Dr. Howells: Lancashire has received:

Year	*£ million*
2000–01	10.896
2001–02	27.83
2002–03	29.704
2003–04	25.388
2004–05	29.202

The figure requested for Chorley cannot be disaggregated from the Lancashire totals identified above. However Chorley has benefited considerably from these monies; an example of which is the £2.873 million Chorley Bus Interchange completed in March 2003, which has brought attractive and safe conditions to bus travel in Chorley.

Urban Bus Challenge

Paul Farrelly: To ask the Secretary of State for Transport which local authorities in the West Midlands made bids in the Urban Bus Challenge competition. [149430]

Mr. McNulty: The following local authorities in the West Midlands made bids in the 2003 Urban Bus Challenge competition.

Authority	*Number of bids*
Staffordshire County Council	1
Stoke-on-Trent Council	2
Telford and Wrekin Council	1
Warwickshire County Council	2
West Midlands PTA	7
Worcestershire County Council	1

DEFENCE

Army Regiment Strengths

Mr. Gordon Prentice: To ask the Secretary of State for Defence what the strength against requirement is of each regiment of the British Army. [147960]

Mr. Ingram: The information is not held centrally in the format requested and could be provided only at disproportionate cost. However, details on the current trained Regular Army manning state by Arms and Service as at 1 December 2003 are shown in the table.

Arms/Service	*Requirement*	*Strength*
Household Cavalry /Royal Armoured Corps	5,975	5,885
Royal Artillery	8,330	7,815
Royal Engineers	9,160	8,790
Royal Signals	8,635	8,580
Infantry	26,185	25,830
Army Air Corps	2,105	1,820
Royal Army Chaplains Department	165	145
Royal Logistics Corps	16,205	15,200
Royal Army Medical Corps	2,920	2,645
Royal Electrical and Mechanical Engineers	10,370	9,635
Adjutant General Corps (Provost)	2,075	2,055
AGC (Staff Personnel Support)	4,645	4,615
AGC (Education and Training Corps)	315	320
AGC (Army Legal Service)	95	90
Royal Army Veterinary Corps	190	175
Small Arms School Corps	145	150
Royal Army Dental Corps	420	405
Intelligence Corps	1,410	1,335
Army Physical Training Corps	455	425
General List	—	—
Queen Alexandra's Royal Army Nursing Corps	1,035	800
Corps of Army Musicians	1,155	1,025

— = zero or rounded to zero.

Notes:

1. The trained requirement for individual Arms and Service Directors is derived from the Regular Army strength requirement (excluding Gurkhas and FTRS), which is published in DASA's Tri-Service Monthly Publication (TSP) 3.
2. All figures have been rounded to the nearest 5.

Base Closures

Mr. Hoyle: To ask the Secretary of State for Defence which *(a)* Army, *(b)* RAF and *(c)* Royal Navy bases he proposes to close. [148459]

Mr. Caplin: The MOD keeps the size and location of its bases under constant review. In the estate strategy, "In Trust and On Trust" the Department set out its intention to define its mainland Great Britain sites as core' or 'non-core'. Initial classification work was conducted last year. Building on this the Department is now undertaking further work to identify where estate rationalisation may be possible. This work is consistent with the Department's contribution to the Government's Independent Review of Public Sector Rationalisation—the Lyons review. Any specific proposals arising from these studies will be subjected to full consultation in due course.

Call-out Notices

Mr. Swayne: To ask the Secretary of State for Defence how many compulsory call-out notices have been issued in each of the last three years; and how many individuals were mobilised in each of those years. [R] [147136]

Mr. Caplin: In 2003, over 13,500 call-out notices were issued. However, it should be noted that some individuals received more than one call-out notice to report for a particular operation. The number of call-out notices issued in 2001 and 2002 is not centrally held and could be provided only at disproportionate cost.

The number of reservists who were mobilised in the last three years is as follows:

	Number
2001	920
2002	1,720
2003	9,550

These figures include Volunteer Reserves, Regular Reserves and Sponsored Reserves.

Communications

Mr. Soames: To ask the Secretary of State for Defence what shortcomings were identified in the Oscar strategic communications system procured for use during Operation TELIC; and how much was spent on the system. [147276]

Mr. Ingram: The Operations and Strategic Communications Architecture (OSCA) system was procured at short notice to enhance our strategic communications capability. The lack of scope to engineer the solution full and the requirement to integrate OSCA into the existing UK military communications infrastructure caused some difficulties. These difficulties did not significantly affect the operational outcome.

Some £13 million was spent on acquiring the hardware and costs of some £20 million have been incurred in running the system up to December 2003.

Death-in-service Benefit

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether the proposed increase in death-in-service benefit from one and a half to four times salary will be payable to Service personnel who opt to remain within the existing Armed Forces Pension Scheme. [148063]

Mr. Caplin: No, but those who wish to have that benefit will be able to transfer to the new scheme, which is entirely a matter of choice for each individual member of the armed forces.

Dog Patrols

Miss McIntosh: To ask the Secretary of State for Defence how many dog patrols were made on *(a)* Army bases and *(b)* RAF stations in the United Kingdom on (i) 1 January 1997 and (ii) 1 January 2003. [148397]

Mr. Caplin: The information is not recorded as there is no requirement to do so. Security at MOD establishments is kept under constant review and dog patrol duties, which form an important element of security procedures at MOD establishments, are no exception.

Gulf Campaign Medal

Mr. Flook: To ask the Secretary of State for Defence how many British servicemen and women were awarded the Gulf Campaign Medal for Operation Desert Storm in 1990–91, broken down by armed service. [148320]

Mr. Caplin: Operation Desert Storm was the name given to the American operations during the Gulf War of 1990–91. The term used to describe the British operations was Operation Granby. The Gulf Medal 1990–91 was either awarded on its own, or together with one of two clasps which were attached to the medal ribbon and acknowledged specific periods of operational service. The details were published in Command Paper 1627 which the then Prime Minister presented to Parliament by Command of Her Majesty The Queen, in August 1991. A copy was placed in the Library of the House.

As far as can ascertained from records held by the Ministry of Defence's four single service medal offices, a total of 59,687 medals with and without clasps were issued to Service personnel, including those people recalled to the Armed Forces from the Reserves for service during the conflict. The distribution of these medals can be broken down as follows:

Service	*Medal only*	*Medal with clasp 2 August 1990*	*Medal with clasp 16 January–28 February 1991*	*Total*
Royal Navy	2,409	Nil	3,942	6,351
Royal Marines	130	Nil	407	537
Army	4,093	46	34,692	38,831
Royal Air Force	5,673	20	8,275	13,968
Total	12,305	66	47,316	59,687

In addition, medals with and without clasps, were awarded to members of various civilian organisations and to foreign nationals who served with British Forces in the Middle East.

Gulf War Veterans

Mr. Flook: To ask the Secretary of State for Defence how many Gulf War veterans of 1990 were still serving in the armed forces in 2003. [148269]

Mr. Caplin: Approximately 16,600 of the 53,464 United Kingdom armed forces personnel who served in the Gulf conflict of 1990–91 were still in Service on 1 January 2003.

Iraq

Adam Price: To ask the Secretary of State for Defence what his policy is on the extra-territorial applicability of the European Convention on Human Rights in territories under the military occupation of United Kingdom forces. [141685]

Mr. Ingram: I will write to the hon. Member and place a copy of my reply in the Library of the House.

Jeremy Corbyn: To ask the Secretary of State for Defence what the total cost is since September 2002 of the deployment of United Kingdom forces in Iraq; and if he will make a statement. [148298]

Mr. Ingram: Outturn information for 2002–03 on the cost of operations in Iraq which have been subject to National Audit Office (NAO) audit, have been published as part of the Department's Annual Report and Accounts. Operating Costs for 2002–03 for operations in Iraq total £629.531 million. Expenditure on capital equipment amounts to £217.680 million. The grand total is, therefore, £847.211 million.

For 2003–04, funding voted at Winter Supplementary Estimates amounted to £1.2 billion and covered the cost of peacekeeping and associated Urgent Operational Requirements (UORs). The Ministry of Defence will seek a further £300 million at Spring Supplementary Estimates to cover primarily the cost of the Recuperation of the Department's operational capability. Thus, the total sought in 2003–04 will be £1.5 billion.

It is too early to say what costs might be incurred after 2003–04.

Harry Cohen: To ask the Secretary of State for Defence pursuant to his answer of 4 December 2003, *Official Report*, column 127W, on Iraq, what the latest total is of deaths in British custody; what the status of investigations into them is; and if he will make a statement. [148435]

Mr. Ingram *[holding answer on 19 January 2004]*: There have been a total of 6 deaths of Iraqis in UK custody in Iraq. All are, or have been, the subject of investigations by the Royal Military Police Special Investigations Branch. The investigation into the death of Radhi Nama concluded that he died of natural causes. The other five investigations are continuing and it would therefore be inappropriate to comment further until they are complete.

Mr. Rosindell: To ask the Secretary of State for Defence pursuant to his answer of 15 December 2003, *Official Report*, column 30W, on Iraq, how many of the armoured Land Rovers operating in Iraq have been used in field operations. [148550]

Mr. Ingram: All of them.

Mr. Rosindell: To ask the Secretary of State for Defence pursuant to his answer of 5 January 2003, *Official Report*, column 30W, on Iraq, how many of the Gazelle and Puma helicopters operating in Iraq have been used in field operations. [148585]

Mr. Ingram: All of them.

Manning Control

Mr. Keetch: To ask the Secretary of State for Defence (1) what plans he has to compensate soldiers who were subject to manning control where it is proved that the wrong procedures were applied to their discharge; [147890]

(2) what plans he has *(a)* to compensate and *(b)* to re-instate soldiers who were subject to manning control and then engaged on S-Type contracts where it is proved that the wrong procedures were applied to their discharge. [147891]

Mr. Caplin: There is no evidence to suggest that incorrect procedures have been applied to soldiers who have been discharged as a result of manning control, and the issue of compensation has therefore not arisen. Should any such cases come to light, the onus would be on the individual to make a claim against the Ministry of Defence. Anyone believing they have been wrongly discharged from the Army is entitled to redress of complaint which, if successful, could lead to reinstatement.

Overseas Deployments

Norman Baker: To ask the Secretary of State for Defence if he will list the countries in which United Kingdom troops are stationed, giving numbers in each case. [147400]

Mr. Ingram: Approximate numbers of British troops stationed permanently overseas are:

	Number
Germany	22,900
Cyprus	2,800
Falkland Islands	1,200
Brunei	1,100
Gibraltar	780
Canada	210
Diego Garcia	40
Belize	30
Kenya	10

In addition, some 650 Service personnel are posted overseas on representational duties in British Embassies and High Commissions, or on Loan or Secondment in support of the Government's Defence Diplomacy objectives.

Reservists

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the Reserve Forces (Safeguard of Employment) Act 1985 in ensuring that *(a)* reservists' jobs are safeguarded, *(b)* adequate compensation is payable when they are not, *(c)* the procedure to be

followed is as simple as possible and *(d)* employers do not misuse economic restructuring to minimise compensation. [146183]

Mr. Caplin: I refer the hon. Member to the answer I gave him on 8 January 2004, *Official Report*, column 454W.

However, my right hon. Friend the Secretary of State announced on 11 December 2003 that the Ministry of Defence will be examining the effectiveness of the 1985 Act as part of the White Paper process.

Angus Robertson: To ask the Secretary of State for Defence how many reservists serve as *(a)* full-time reservists with full commitment contracts, *(b)* full-time reservists with limited commitment contracts, *(c)* full-time reservists with home commitment contracts and *(d)* volunteer reservists. [148668]

Mr. Caplin: I refer the hon. Member to Tri-Service Publication (TSP) 3:UK Armed Forces Strengths and Requirements, and UK Defence Statistics (UKDS) 2003. TSP 3 shows strength figures of full-time reservists broken down by commitment type. Table 2.13 of UKDS shows the strength of the Volunteer reserves as at 1 April each year.

These are both available in the House of Commons Library; TSP 3 and UKDS are updated on a monthly and yearly basis, respectively. TSP 3 for 1 November 2003 was published on 10 December 2003. The 1 December 2003 issue is due for publication shortly.

Mr. Hancock: To ask the Secretary of State for Defence what support his Department gives to a reservist prevented from returning to his previous employment; and if he will make a statement. [146180]

Mr. Caplin: I refer the hon. Member to the answer I gave him on 8 January 2004, *Official Report*, column 454W. The Ministry of Defence's Supporting Britain's Reservists and Employers (SaBRE) campaign team provides a helpline and a website which gives additional information and advice.

Service Children's Education

Mr. Swayne: To ask the Secretary of State for Defence what steps he has taken to implement recommendation 8.6 of the Quinquennial Review of Service Children Education published in May 2003. [147139]

Mr. Caplin: Although the Quinquennial Review Report into the Service Children's Education Agency was dated May 2003, the review process was not completed until 2 December 2003, at which point the outcome was reported to the House. No steps have therefore yet been taken to implement recommendation 8.6, but work on this is now in progress.

Union Flag

Lady Hermon: To ask the Secretary of State for Defence what the Government's policy is on the display of the Union Flag on Army recruitment and careers literature in *(a)* Northern Ireland and *(b)* the rest of the United Kingdom; and if he will make a statement. [149092]

Mr. Caplin: All Army recruitment literature is produced for use throughout the United Kingdom, and as such, bears images of the Union Flag. However, local press advertising in Northern Ireland uses the Army crossed sword/crown logo instead of the Union Flag but television advertising retains the use of the Flag.

Lady Hermon: To ask the Secretary of State for Defence what the Army's policy is on the display of the Union Flag *(a)* at its bases in Northern Ireland, *(b)* at Palace Barracks in Holywood, County Down and *(c)* within the recruitment office at Palace Barracks. [149093]

Mr. Ingram: The Army's policy on the flying of the Union Flag within Northern Ireland is that it should be flown at flag stations designated in Queen's Regulations or those authorised by the General Officer Commanding Northern Ireland. One of the flag stations designated in Queen's Regulations is Palace Barracks, Holywood. The Armed Forces Careers Office within Palace Barracks, as a recruitment office for all three Services, flies the three Service Flags outside their office.

EDUCATION AND SKILLS

Departmental Relocation

Ms Walley: To ask the Secretary of State for Education and Skills (1) what assessment his Department has made of the benefits of relocation of staff to North Staffordshire; and if he will make a statement; [146860]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146876]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146902]

(4) what plans he has to establish procedures for assessing the impact of possible relocation of staff in his Department to the regions; and if he will make a statement. [146932]

Mr. Charles Clarke: Sir Michael Lyon's Independent Review of Public Sector Relocation was established by the Chancellor and Deputy Prime Minister to examine the scope for relocating public sector activity, to improve the delivery and efficiency of public services and to benefit regional economies.

Sir Michael's review will be informed by research from King Sturge on suitable alternative locations, and Experian Business Strategies on lessons from previous relocations, and the economic impact of relocation. Summaries of this research will be available shortly on the Treasury website.

Sir Michael's final report will be published in March 2004 and we will develop relocation proposals in light of his findings.

Euro

Keith Vaz: To ask the Secretary of State for Education and Skills in how many speeches during 2003 he declared support for the Government's policy on the euro. [147299]

Mr. Stephen Twigg: I refer my hon. Friend to the answer given by my hon. Friend the Financial Secretary to the Treasury, on 12 January 2004, *Official Report*, columns 516–17W.

Higher Education Funding

Mr. Berry: To ask the Secretary of State for Education and Skills what estimate he has made of the value of fee repayments by graduates arising from his proposals for variable top-up fees, in each year from 2008 to 2020. [149387]

Alan Johnson: The value of fee repayments will depend on the number of students that decide to defer payment of their fees and take out a fee loan; on the levels of fees that institutions decide to charge; and on the earnings of the graduate population overtime. It is not possible to predict these numbers with certainty and therefore it would not be meaningful to estimate the value of fee repayments year-by-year, given the uncertainties above.

Estimates of the cost of fee loans using a variety of different scenarios are contained in the Regulatory Impact Assessment published on 8 January alongside the HE Bill. Copies of the Regulatory Impact Assessment were placed in the Library of the House; it is also available on the Department for Education and Skills website.

Leak Inquiries

Mr. Lilley: To ask the Secretary of State for Education and Skills if he will list occasions on which his Department has conducted an inquiry into alleged leaks from members of staff since 1997; and if he will list the occasions on which the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [146940]

Mr. Stephen Twigg *[holding answer 12 January 2004]:* Since 1997 my department has investigated 23 suspected leaks.

In line with exemptions 1(a) and 7(b) set out in Part II of the "Code of Practice on Access to Government Information", it has been the practice of successive Governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Modern Language Teachers

Mr. David Stewart: To ask the Secretary of State for Education and Skills (1) what progress is being made on the production of specialised resources for the teaching of modern languages in primary schools; [148377]

(2) what percentage of teaching time he aims to allocate to foreign languages in primary schools by 2010; [148378]

(3) if he will make a statement on the progress since November 2002 of Government plans to upgrade foreign languages in primary schools. [148379]

Mr. Stephen Twigg: There has been considerable progress on the development of language learning in primary schools since November 2002, underpinned by the launch in December 2002 of the Department's National Languages Strategy for England. Implementation of the Strategy is being driven by Dr. Lid King, the National Director for Languages.

The Strategy recognises the importance of developing a workforce and resources to support successful implementation of primary language learning, and much of our work to date has focused on these areas. In developing a school workforce, we are building up a cadre of specialist teachers and non-teacher specialists to support primary language learning. 499 places have been filled this year for Primary Initial Teacher Training with a specialism in French, German or Spanish. 119 primary MFL Advanced Skills Teachers are now in place, and we have allocated 50 primary MFL places to the Graduate Teacher Programme. We are working with the TTA to pilot a CPD course for existing primary teachers to develop language skills and MFL pedagogy. The TTA has also begun the process of approving training providers for Higher Level Teaching Assistants, and we are working with the British Council to extend the foreign language assistants programme into primary schools.

On resources, we are working with a range of partners to develop a framework for language learning at Key Stage 2, to be published in autumn 2005. It is intended as a shared national reference point for all those involved in teaching modern foreign languages in primary schools. It will offer guidance on key considerations such as pedagogy, cross-curricular links, curriculum delivery models and transition at age 11. The framework will supplement existing non-statutory guidance for modern foreign languages at Key Stage 2, which contains a programme of study and attainment targets for listening, speaking, reading and writing.

In addition, we are developing schemes of work with QCA in Spanish and German to mirror those that already exist in French. The Spanish scheme of work will also be developed into a digital online resource. The Department has also funded the establishment of NACELL—the National Advisory Centre on Early Language Learning—which provides access to appropriate information, including resources and has an extensively used website for language teachers.

In addition to workforce and resource development, in September 2003 the Department launched MFL pathfinders in 19 LEAs to explore how language learning can best be introduced at Key Stage 2. The findings from those pathfinders will provide practical guidance and help to inform teachers, schools and LEAs of good practice. We are also developing the National Recognition Scheme, as outlined in the Strategy, and are currently trialling the scheme in a range of settings, including primary schools.

On time allocation, the Department does not specify how much time should be allocated to deliver modern foreign languages in primary schools, or indeed to any other subject. It is for head teachers to decide how they introduce language learning at Key Stage 2 and the amount and frequency of language teaching time. The Department will, however, be issuing guidance and good practice to help inform such decisions.

Student Finance

Mr. Willis: To ask the Secretary of State for Education and Skills pursuant to his statement of 8 January 2004, *Official Report*, column 418, on higher education (student support), whether the student loan repayment to be written off after 25 years applies to all money owed to the Student Loans Company. [148267]

Alan Johnson *[holding answer 19 January 2004]:* Under the student support proposals announced by my right hon. Friend on 8 January, the Government intend to write-off outstanding student loan balances 25 years after graduates enter liability to repay their loans, which is from the April after graduation. This policy will apply to those entering HE from 2006 and graduating in 2009 and cover both maintenance and fee loans.

Mr. Cousins: To ask the Secretary of State for Education and Skills what the age limit is on eligibility for student loans; and how he proposes to change that in the event of a repayment period capped at 25 years. [149636]

Alan Johnson: The age limit is 50 for eligible students meeting the residence requirements. Those aged 50 to 54 at the start of their course can also apply for a student loan provided that they plan to return to work after finishing their course. We have no plans to change the age limits.

We already cancel loans when a borrower reaches the age of 65. We also intend to put a 25 year cap on the loan repayment period, so that outstanding loan amounts are written off after 25 years (or age 65, whichever is the earlier).

Student Places

Mr. George Howarth: To ask the Secretary of State for Education and Skills how many additional student places will be made available in higher education in *(a)* 2006 and *(b)* each year to 2020 under (i) the present arrangements and (ii) his proposals on top-up fees. [148710]

Alan Johnson: The planned number of student places is set during spending reviews in the light of the Government's target of increasing participation in higher education towards 50 per cent. of those aged 18 to 30 by the end of the decade. Planned student numbers for 2005–06 to 2007–08 will be set as part of the current spending review, which will conclude next summer. However, the additional funds that we estimate will be raised by higher education institutions from charging variable fees are equivalent to the resources that would be required for around 135,000 students.

CABINET OFFICE

Departmental Staff

Mr. Russell Brown: To ask the Minister for the Cabinet Office what percentage of staff employed within the Office are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145769]

Mr. Alexander: The following Table shows the number and percentage of staff in departments and agencies aged 55 and over at 1 April 2003. The figures are based on the headcount of permanent civil servants.

Department	Age 55 +	Others	Total	Per cent. 55 +
Cabinet Office	190	1,780	1,970	9.6

Source:

Mandate The data from Mandate incorporate information on almost 98 per cent. of civil servants.

Figures are rounded to the nearest 10. Rounding may lead to inconsistencies between the sum of individual cells and the totals are calculated from the unrounded numbers.

CULTURE, MEDIA AND SPORT

National Lottery

Mr. Baron: To ask the Secretary of State for Culture, Media and Sport how many applications for lottery grant funding have been received in the last year from applicants in the Billericay constituency; what the total value was of these applications; how many were successful; what the total value of grants was; how many applications were received in the United Kingdom; what the total value was of these applications; how many applications were successful; and what the total value of grants was. [149381]

Estelle Morris: The Department does not collect information concerning the number and value of applications for lottery funding received by the distributing bodies.

In the last full financial year (2002–03), 22 awards worth a total of £495,535 have been granted in the constituency of Billericay.

In the same period across the UK, over £1.6 billion was awarded to 26,841 awards.

These numbers are derived from the Department's database of lottery awards, which is based on information supplied by the distributing bodies.

Racehorses

Mr. Cawsey: To ask the Secretary of State for Culture, Media and Sport what provisions are included in the Horserace Betting and Olympic Lottery Bill for *(a)* veterinary care at racecourses, *(b)* support for the re-housing of retired racehorses, *(c)* support for the improvement of the breeds of horses and *(d)* support for veterinary science and education. [148777]

Mr. Caborn: Clause 16(6)b of the Bill provides that Levy Board assets may be transferred to a third party only where the Secretary of State is satisfied that they would be used for one of the following purposes: the improvement of breeds of horses; the advancement or encouragement of veterinary science or veterinary education; the improvement of horse racing.

Regional Television

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport what role Ofcom has in maintaining levels of regional television broadcasting output in *(a)* the East Midlands and *(b)* other regions. [148670]

Estelle Morris: Under the Communications Act 2003 all public service broadcasters will have to agree targets with Ofcom for regional programming and/or regional production.

Every Channel 3 licensee will agree targets with Ofcom for regional production and investment in programme-making for Channel 3.

Within these targets, regional Channel 3 services will also have requirements for programme production and investment in programme-making for Channel 3 regional programmes on a regional or national Channel 3 service, and local programmes on any local Channel 3 service. These regional programmes should be of high quality and a sufficient proportion must be shown at or around peak time.

Ofcom will also agree targets with Channel 4 and Channel 5 for programme production and investment in the regions.

Obligations similar to those for Channel 3 will be applied by Ofcom to the BBC by way of the BBC Agreement.

Mr. Laxton: To ask the Secretary of State for Culture, Media and Sport how levels of regional television output have changed since the adoption of the Charter for the nations and the regions in *(a)* the East Midlands and *(b)* other regions. [148675]

Estelle Morris: The Charter for Broadcasting in the Nations and Regions is an agreement between the ITV companies and the ITC setting out a broad range of measures designed to provide a common benchmark for regional activity. It was adopted in May 2002. The weekly average regional hours for the ITV regions, provided by Ofcom, are shown in the following table. Carlton Central is the licensee for the East Midlands area.

Regional hours

Hours, minutes

	Broadcast hours, weekly averages

[1] Calendar years

[2] January to September 2003, final figures for 2003 are not yet available.

Note:

These figures exclude repeats and all programmes transmitted after 12.30am to allow comparison.

Sunset Clauses

Mr. David Stewart: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on her policy on the use of sunset clauses in legislation; and which Acts containing such clauses relevant to her Department were passed in each year since 1997. [149327]

Mr. Caborn: None of the Bills the Department has introduced since 1997 have contained sunset clauses. Decisions on the future use of such clauses will be made on a case by case basis and will be communicated to the House in the usual way.

INTERNATIONAL DEVELOPMENT

Burma (Displaced People)

Mr. Bercow: To ask the Secretary of State for International Development what recent estimate he has made of the number of displaced Burmese people; and how many of them are in refugee camps. [148120]

Hilary Benn: DFID uses estimates of displaced Burmese people made by UN agencies. According to the latest figures obtained from the UN High Commissioner for Refugees, there are 19,500 Burmese in refugee camps in Bangladesh and 116,711 in refugee camps in Thailand. There are no accurate figures for the number of displaced Burmese people in other locations.

Burundi

Mr. Bercow: To ask the Secretary of State for International Development how many people have been prosecuted for breaches of human rights in Burundi since January 1994. [148117]

Hilary Benn: As a result of political instability, widespread insecurity and fighting between rebel groups and the Government of Burundi army since 1993,there has been internal displacement of over 281,000 people with over 800,000 refugees living in neighbouring countries, mainly in Tanzania. The majority of the remaining population in the country continued to be victims of human rights violations caused by the rebels or undisciplined regular soldiers. Torture, cruelty and inhuman degradation and punishment were everyday burdens for the ordinary citizen who could not get effective recourse because of a poor justice system. About 8,300 Burundians are in prison but only 44 per cent. have been sentenced.

It remains difficult to get a clear distinction between ordinary crimes and violations of human rights. We assume that most prisoners' offences fall into the category of human rights violations.

515 prisoners are on death row because of different atrocities e.g. murder, assassination, homicide, cannibalism, attempt to destabilise national security etc.

Six people (including a headmaster) were executed in July 1997 for their direct involvement in crimes on ethnic grounds.

About 700 people were sentenced to life imprisonment.

There are currently about 400 soldiers accused of violating fundamental rights.

Two civil servants (members of the judicial police) were prosecuted for violating human rights.

Chad/Cameroon

Tom Brake: To ask the Secretary of State for International Development what recent discussions his Department has had with the UN High Commissioner for Refugees regarding Sudanese refugees in Chad. [149163]

Hilary Benn: Since the latest movement of refugees into Chad we have been in regular contact with the United Nations High Commission for Refugees in Geneva and their field teams in eastern Chad.

Our Humanitarian Adviser will be visiting eastern Chad in two weeks' time to assess the refugee situation there; the visit will be hosted by the UNHCR.

Tom Brake: To ask the Secretary of State for International Development how his Department will respond to the appeal for $11 million by the World Food Organisation for the Sudanese refugees in Chad. [149178]

Hilary Benn: I refer the hon. Member to my response of 19 January 2004 to the hon. Member for Edinburgh, West (John Barrett), *Official Report*, column 929W.

Mr. Chidgey: To ask the Secretary of State for International Development what assessment he has made of Chad's ability to cope with the influx of refugees fleeing war in Sudan and the Central African Republic. [149217]

Hilary Benn: Chad is making efforts to address this situation, but it lacks the resources properly to meet the needs of the refugees: the UN and international NGOs are therefore assisting them in this task.

We appreciate the efforts the Chad Government are making to help bring about a peaceful end to the fighting in Darfur.

Mr. Bercow: To ask the Secretary of State for International Development (1) what the total financial contribution made by the United Kingdom is for the Chad/Cameroon pipeline project; [148119]

(2) what assessment he has made of the quality of the auditing of the Chad/Cameroon pipeline project. [148118]

Hilary Benn: The UK Government are not providing any direct financing for the Chad/Cameroon Oil Pipeline Project, nor is it directly engaged in other way e.g. provision of technical assistance. Our interest is indirect through the World Bank and the European Investment Bank.

DFID is confident that the World Bank's systems for monitoring and implementing this project are appropriate. In relation to the quality of auditing and fiscal accountability, Bank policy identifies two sets of appropriate auditing standards: the International standards on Auditing published by the International Federation of Accountants (IFAC) and the Auditing Standards published by the International Organisation of Supreme Audit Institutions. Project arrangements provide for regular audits, on the Chad/Cameroon pipeline projects' accounts, plus independent opinions from the International Advisory Group (IAG) and the External Compliance and Monitoring Group (ECMG) who carry out regular independent supervisions of the technical and environmental aspects of the project and from the Inspection Panel who respond to requests from private individuals.

Mr. Bercow: To ask the Secretary of State for International Development (1) for what reason the external independent quality assurance and quality control audits relating to the Chad/Cameroon project have been circumvented; [148521]

(2) if he will make a statement on environmental protection measures relating to the Chad/Cameroon pipeline project; [148714]

(3) if he will make a statement on the standard of fiscal accountability and transparency measures since the commissioning of the Chad/Cameroon pipeline project; [148715]

(4) for what reason quality assurance and quality control audits of the Chad/Cameroon pipeline project have not been conducted by the World Bank; [148522]

(5) for what reason internal audits of the Chad/Cameroon pipeline project have not been conducted; [148523]

(6) for what reason bills of quantities in relation to the Chad/Cameroon pipeline project have been approved in the absence of packages for quality assurance and quality control; [148716]

(7) for what reason work on the Chad/Cameroon pipeline project continued without procedures for quality assurance and quality control; [148524]

(8) for what reason the project design change orders on the Chad/Cameroon pipeline project were negotiated and approved without plans for quality assurance and quality control; [148525]

(9) what assessment has been made by international aid agencies of the adequacy of compliance with quality assurance and quality control in relation to the Chad/Cameroon pipeline project; [148526]

(10) for what reason the World Bank has employed contractors who are not fully I.S.O. 9000 series accredited; [148527]

(11) whether project completion certificates for the Chad/Cameroon pipeline project have been approved; [148700]

(12) if he will make a statement on levels of insurance cover relating to the Chad/Cameroon pipeline project; [148713]

(13) for what reason bills of quantities for the Chad/Cameroon pipeline project have been approved without packages for front end engineering design. [148717]

Hilary Benn: DFID is not directly involved in funding or implementing this project. DFID therefore does not have first-hand information on detailed implementation issues concerning quality assurance and control audits, internal audits, quality assurance and quality control, project design change orders, accreditation of contractors, project completion certificates, levels of insurance, fiscal accountability and transparency measures, and bills of quantities.

However, DFID is confident that the World Bank's systems for the monitoring and implementation of this project, and for the investigation of any warranted complaints are appropriate.

Since the project was approved in June 2000, exceptional resources have been allocated by the Bank and the International Finance Corporation, to monitor and support the project's implementation against Internationally agreed standards. This includes the establishment of the Independent Inspection Panel (IIP) and the External Compliance Monitoring Group (ECMG).

In relation to the quality of auditing and fiscal accountability, Bank policy identifies two sets of appropriate auditing standards: the International Standards on Auditing published by the International Federation of Accountants (IFAC) and the Auditing Standards published by the International Organisation of Supreme Audit Institutions. Project arrangements provide for regular audits of the Chad/Cameroon pipeline projects accounts, plus independent opinions from the International Advisory Group (IAG) and the External Compliance and Monitoring Group (ECMG), which carries out regular independent supervisions of the technical and environmental aspects of the project, and from the Inspection Panel which may investigate complaints from people who believe they have been negatively affected by a World Bank project.

The Chad/Cameroon pipeline is subject to a number of monitoring and supervision controls to ensure quality control, application of environmental regulations, design and implementation adhere to International rules and regulations. The Environmental Management Plan (EMP) has strict requirements and specifications, and compliance with these by all parties is spelled out in legally binding agreements. Strong remedies are provided in legal agreements with all parties in case they fail to comply with this obligation. The EMP represents an extensive analysis of the potential environmental and social impacts of the project.

The World Bank are being advised by the ECMG in monitoring the implementation of the Environmental Management Plan, and by an International Advisory Group on broader implementation issues, including those that need to be addressed to achieve the project's developmental objectives. Both the ECMG and IAG make regular site visits. These third party reviews supplement the Bank's own monitoring and supervision of the project which includes site visits, internal reporting and continual discussions with the project sponsors.

The above measures are additional to on-going monitoring by the Consortium and by the Governments of Chad and Cameroon. The Consortium provide quarterly reports which are publicly available.

DFID's interest is as a member of the Executive Board of the World Bank. We do and will continue to take our role on the Executive Board seriously, ensuring that issues identified by the Independent Inspection Panel and External Compliance Monitoring Group are raised, monitored and rectified.

The investigation reports mentioned are available in the public domain and can be found on http://www.worldbank.org/afr/ccproi/index.htm.

Darfur

Mr. Bercow: To ask the Secretary of State for International Development what plans he has to visit Darfur. [148544]

Hilary Benn: I have no plans at present to visit Darfur, but my Humanitarian Adviser intends to do so during his visit to Sudan next week.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the safety of humanitarian aid workers in Darfur. [148545]

Hilary Benn: We have made no specific assessment; however we are aware of threats to humanitarian aid workers as a result of the insecurity there, which will have been exacerbated by the recent conflict.

Mr. Bercow: To ask the Secretary of State for International Development what expansion of humanitarian access to *(a)* drought-affected people in West and North Darfur and *(b)* vulnerable people in South Darfur has taken place since June 2003; and what contribution has been made by his Department. [148546]

Hilary Benn: Humanitarian access to Darfur is constrained by the continuing conflict between government and rebel forces in the area. We have made representations to both sides that they should allow access from recognised international relief organisations for humanitarian purposes. I myself raised the issue with the Government of Sudan in my most recent visit there.

After June 2003 access improved briefly but, with the breakdown of the ceasefire and resumption of hostilities, access is now limited to the three provincial capitals.

We continue to make efforts to help both sides achieve a peaceful solution to their dispute.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of the level of movement of people and goods in Darfur. [148547]

Hilary Benn: Conflict between government and rebel forces continues in Darfur. The Government controls the main towns, and has varying control in those areas outside. The rebels appear to be able to move freely in most areas, and can close roads between towns. Much movement between towns is by air. This is clearly impacting on the free movement of people and goods in the region.

Of particular concern is the difficulty of gaining access for humanitarian work: United Nations reports indicate that they have access to less than 15 per cent. of the population. Recent reports suggest the situation will worsen. My humanitarian adviser will be travelling to Sudan next week and plans to visit Darfur to assess conditions there.

Democratic Republic of the Congo

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with representatives of the United Nations about the planned joint assessment of the humanitarian

situation in Ituri, referred to in his written answer of 22 May 2003 to the hon. Member for Meriden (Mrs. Spelman). [148077]

Hilary Benn: The UN joint assessment mission that took place last May found a critical humanitarian situation, a lack of security due to simmering tension between rival Hendu and Lema militias, and the town of Bunia nearly deserted. Aid groups were only able to assist a small number of people within Bunia, providing medical services to some 9,000 at camps concentrated around the local airport and 6,000 sheltering near the local UN compound. They had virtually no access to populations elsewhere in Ituri. My reply to the hon. Member of 19 January 2004, *Official Report*, column 931W, describes the improvements since that assessment.

We have regular discussions with the UN over the humanitarian situation in the Democratic Republic of the Congo, including Ituri. In addition, a DFID humanitarian adviser visited the DRC in June, and following his assessment we agreed to fund a number of humanitarian activities in Ituri and North Kivu totalling over £1.8 million.

Ethiopia

John Barrett: To ask the Secretary of State for International Development what representations he has made to the government of Ethiopia regarding acceptance of the Independent Boundary Commission's proposed boundary between Ethiopia and Eritrea; and if he will make a statement. [147823]

Hilary Benn: Her Majesty's Government keep in touch with the Governments of both Ethiopia and Eritrea at all levels. Towards the end of last year the Prime Minister wrote to both the Prime Minister of Ethiopia and the President of Eritrea indicating that the Boundary Commission's decisions are final and binding and that the two parties should engage in dialogue.

I met the Ethiopian ambassador last month, during which we discussed the Peace Process. I also discussed the matter with the Eritrean Foreign Minister during his visit to London at the beginning of December.

The Foreign and Commonwealth Office Minister for Africa, my hon. Friend the Member for Sunderland, South (Mr. Mullin) has had extensive discussions on the Boundary Commission's report including meetings with the President of Eritrea and the Prime Minister of Ethiopia during his recent visit to the two countries.

Mr. Drew: To ask the Secretary of State for International Development how much development aid has been provided to Ethiopia in each of the last three years. [148278]

Hilary Benn: The total net Official Development Assistance (oda) to Ethiopia over the last three years for which figures are available was as follows. These and all other figures include both development and humanitarian assistance.

	US$ million
2000	693.00
2001	1,157.70
2002	1,306.70

DFID bilateral expenditure in Ethiopia over the same period was:

	£ million
2000	7.2
2001	18.9
2002	27.6

EC total net oda was:

2000: £45.6 million of which DFID's imputed multilateral share was £8.4 million.

2001: £69.4 million of which DFID's imputed multilateral share was £11.5 million.

2002: Figures not yet available.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with his EU counterparts about possible further reforms to EU development assistance. [148516]

Hilary Benn: The EC's reform of its external assistance programmes is coming to an end. The UK Government, together with other member states, have urged the Commission to undertake an in-depth final assessment of this programme to assess its impact but, more importantly, to identify any need for further reforms. We believe further reforms should focus on increasing the level of resources to low income countries and also introducing more consistent use of best development practice throughout all EC programmes. A stronger focus on quality and results and a more rational institutional set up for managing EC aid are also important.

Human Trafficking

Mr. Bercow: To ask the Secretary of State for International Development what reduction in the trafficking of women in *(a)* Laos, *(b)* Thailand, *(c)* China (Yunnan), *(d)* Cambodia and *(e)* Vietnam has been achieved by the International Labour Organisation. [148580]

Hilary Benn: Because the activity is criminal there are no accurate figures for the numbers of people who are trafficked and the International Labour Organisation (ILO) lacks hard data on progress with reductions. DFID is supporting ILO with a £6 million grant (over five years) to reduce vulnerability to trafficking through low incomes and ignorance of the realities. There is work in all five countries. The indications from China are that trafficking has been reduced or eliminated in communities (numbering around 80,000) participating in the programme. The programme includes work to improve the data.

Iraq

Mr. Bercow: To ask the Secretary of State for International Development what humanitarian assistance has been provided to Iraq since April 2003 by *(a)* Australia, *(b)* Austria, *(c)* Bangladesh, *(d)* China, *(e)* Croatia, *(f)* the Czech Republic, *(g)* Denmark, *(h)* Finland, *(i)* France, *(j)* Germany, *(k)* Greece, *(l)* Iran, *(m)* Ireland, *(n)* Italy, *(o)* Japan, *(p)* Korea, *(q)* Kuwait, *(r)* Malaysia, *(s)* the Netherlands, *(t)* New

Zealand, *(u)* Norway, *(v)* Russia, *(w)* Saudi Arabia, *(x)* Spain, *(y)* Sweden, *(z)* Switzerland and *(aa)* the United States of America. [148579]

Hilary Benn: The following table shows contributions announced for humanitarian aid to Iraq since April 2003:

US$ millions

Country	*Contribution*	*Details*
Australia	64.9	UN agencies, ICRC, and NGOs
Austria	1.1	UNICEF
Bangladesh	2	Food assistance
China	N/a	Tents
Croatia	2.8	Blankets, sleeping bags, flour, sugar, water purification disinfectants
Czech Republic	41	UNCHR, WFP, and assistance for refugees, health, and education
Denmark	54	Various
Finland	5.1	ICRC, UN OCHA, UNICEF, WFP
France	10.7	UNICEF, WFP, NGOs
Germany	50	UNCHR, WFP, ICRC
Greece	4.6	UNHCR, ICRC, NGOs
Iran	11	Refugee camps
Ireland	55.3	UN agencies and NGOs
Italy	23	FAO UNICEF, WFP, WHO and IFRC
Japan	212	UN agencies, NGOs, bilateral assistance
Korea	10	UN agencies and Korean NGOs
Kuwait	40	UNHCR, WFP, UNICEF, ICRC, water and sanitation, health
Malaysia	2.5	Humanitarian assistance
The Netherlands	22	UN Consolidated appeal and ICRC
New Zealand	3.3	UN agencies and NGOs
Norway	56	UN agencies, ICRC, and NGOs
Russia	N/a	500MT of grain
Saudi Arabia	13.3	Medical assistance
Spain	56.7	UN agencies, bilateral refugee assistance, and NGOs
Sweden	38	OCHA, UNICEF, ICRC, IFRC
Switzerland	21.9	ICRC, UNCHR, IOM, IFRC, OCHA
United States of America	623.6	UN agencies, ICRC, IFRC, and NGOs

The countries listed above made the following pledges of reconstruction assistance for 2004–07 at the Madrid Donor's Conference on Iraq last October:

US$ millions

Country	*Pledge*
Australia	46
Austria	5
Bangladesh	—
China	25
Croatia	—
Czech Republic	15
Denmark	27
Finland	6
France	—
Germany	—
Greece	4
Iran	5
Ireland	4
Italy	236
Japan	4,914
Korea	200
Kuwait	500
Malaysia	—
The Netherlands	9
New Zealand	3
Norway	13
Russia	—
Saudi Arabia	500
Spain	220
Sweden	33
Switzerland	—
United States of America	18,649

Mr. Bercow: To ask the Secretary of State for International Development what his most recent estimate is of the total cost of post-war reconstruction in Iraq; and how much *(a)* the United States and *(b)* EU member states will contribute to meeting that cost. [148581]

Hilary Benn: Needs assessments prepared by the United Nations and the World Bank, by the Coalition Provisional Authority, and Iraqi administrators, have estimated the reconstruction costs for Iraq to be $55 billion for 2004–07. These plans were presented by Iraqi Ministers at the Madrid Donor's Conference on Iraq in October 2003, and at least $33 billion in grants and soft loans was pledged. This includes pledges from the US of $18.6 billion, and a further $1 billion from EU member states (and acceding countries).

The balance of Iraq's investment requirements should be met from loans, foreign direct investment and Iraqi oil revenues.

Tom Brake: To ask the Secretary of State for International Development how often meetings take place between representatives of his Department and the Coalition Provisional Authority to review progress of CPA projects funded by the Department. [149036]

Hilary Benn: The CPA projects funded by DFID are located in southern Iraq. Members of DFID staff seconded to CPA South are responsible for keeping these projects under review. They report to DFID Headquarters frequently.

Swaziland

Tom Brake: To ask the Secretary of State for International Development what percentage of his Department's aid to Swaziland went directly into

development projects in the last year for which figures are available; and what percentage was allocated to the national government. [149157]

Hilary Benn: In 2002–03 (the last year for which figures are available) DFID spent around £800,000 bilaterally on development assistance to Swaziland. None of this was channelled through the Swazi Government.

Learning Disabilities (Iraq/Afghanistan)

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the number of people suffering from learning disabilities in *(a)* Iraq and *(b)* Afghanistan. [148085]

Hilary Benn: In Iraq, UNICEF are taking the lead, with USAID, on assessing the post-war state of the education sector. UNICEF are currently undertaking an education survey to be completed by the end of February. But due to continuing high levels of insecurity for staff of international organisations, and low-capacity in many parts of the Iraqi education system, it currently remains difficult even to mount a simple survey of the number of schools, classes, pupils and teachers—and only in a limited range of geographical areas. We therefore understand that issues such as the number of special needs students will not be included in the present survey. UNICEF do, however, have a strong concern for special needs and will be seeking to encourage the Ministry of Education to take action in this area at the earliest realistic opportunity.

In Afghanistan, surveys show that one in three children suffer from iodine deficiency which can lead to goitre, learning difficulties and, in extreme cases, severe mental impairment. UNICEF have begun a national iodized salt programme and are working through Mother and Child Health Clinics to treat and prevent iron-deficiency anaemia.

Malaria

Mr. Chidgey: To ask the Secretary of State for International Development what assessment he has made of the rise in the reported cases of malaria in Africa. [149218]

Hilary Benn: While great progress has been made in reducing malarial mortality in the 1970s and 1980s, in many parts of Africa malarial mortality rates are now increasing. Malaria is Africa's leading cause of child mortality and constitutes 10 per cent. of the continent's overall disease burden. Approximately 3,000 people die from malaria each day in sub-Saharan Africa, most of them children.

A key cause of the rise in malaria deaths is an increase in resistance to antimalarial drugs, and the lack of affordable alternatives. In addition, the capacity of health systems to respond effectively to malaria is often inadequate.

None the less, malaria remains a disease that is preventable, treatable and curable. The Department for International Development (DFID) remains strongly committed to meeting the Millennium Development Goal to halt and begin to reverse the incidence of malaria by 2015, recognising the importance of malaria, not just in terms of disease burden, but also the potential it has to undermine economic growth and human development.

Since 1998 DFID has provided in excess of £110 million to support malaria control activities globally and at country level. At the global level this includes support to Roll Back Malaria; a $280 million commitment to the Global Fund to Fights AIDS, TB and Malaria (which will fund distribution of insecticide impregnated bednets and appropriate anti-malarial medication); support to the Medical Research Council; support to the Malaria Consortium Resource Centre; and initiatives to help find new low-cost malaria treatments.

DFID also supports malaria control activities at country-level through our bilateral country programmes, either through direct support to the health sector or through general budget support. DFID is committed to supporting national governments and their partners to help ensure that effective drugs and commodities are accessible to the poor. Since 1997 we have committed over £1.5 billion to strengthen health systems to deliver vital drugs and health care treatment.

Maternal Mortality

Mr. Bercow: To ask the Secretary of State for International Development (1) what the results have been of his Department's work with the World Health Organisation, UNICEF and UN Population Fund to strengthen global leadership on maternal mortality; [148513]

(2) what the nature is of his Department's collaboration with the World Bank to strengthen global leadership on maternal mortality; [148514]

(3) what performance targets he has set for his Department's involvement in the World Health Organisation Partnership for Safe Motherhood and Newborn Health. [148515]

Hilary Benn: The Department for International Development makes significant contributions to UNFPA, UNICEF, the World Bank and other international and national civil society groups to support their efforts to improve maternal health.

For the period July 2002 to June 2005, DFID has contributed £300 million per year (10.14 per cent. of total donor contributions) to the World Bank. In 2003, the percentage share of IDA's total lending on health and other social services was 19 per cent. ($1.4 billion). DFID country based offices work closely with the World Bank in financing and developing the health sector with country governments.

The Department provided £12.5 million in 2003 to WHO international programmes, including support for their "Making Pregnancy Safer" Programme. This programme is providing technical support to countries to disseminate and apply evidence-based policy and practice in maternal health, particularly on skilled attendance, management of complications, and strengthening health systems. This includes work with government on regulatory frameworks that better support women's health, on training programmes for skilled attendance and on translating national maternal health strategies into provincial and district plans and

budgets. The programme is also carrying out research to support its work, for example, on links between maternal and newborn health and poverty.

DFID is represented on the steering committee of the Partnership for Safe Motherhood and Newborn Health together with the World Bank, the WHO, UNICEF, UNFPA, and other organisations. The Partnership aims to raise awareness of the extent and consequences of maternal deaths and ill health, disseminate lessons learnt, and encourage action to help vulnerable populations. DFID will be monitoring the impact that its contribution makes to global partnerships, including the Safe Motherhood and Newborn Health Partnership.

DFID gave UNFPA £18 million in 2003. UNFPA plays an important role in providing the widest achievable range of safe and effective family planning and contraceptive methods, including condoms to prevent HIV/AIDS. UNFPA is putting in place a medium term strategic plan, which seeks to enhance its organisational effectiveness. The UNFPA programme focuses on family planning, skilled attendance at birth and emergency obstetrics to prevent maternal mortality. Reproductive health and rights continue to be a key priority area for DFID and we remain firmly committed to the 1994 ICPD target of achieving access to reproductive health for all by 2015. We have continued to lobby hard for reproductive rights in international fora, and we work closely with partners such as the United Nations Population Fund.

DFID supports UNICEF's Medium Term Strategic Plan and in 2003 we provided £17 million in core resources. UNICEF implements programmes aimed at reducing maternal mortality. Achievements in this area during 2002 were:

In 58 countries with high child and maternal mortality and morbidity rates, UNICEF implemented an integrated approach to early childhood development that linked national policies, the provision of basic services (preventive health, nutrition, safe water, sanitation and hygiene), and improved family care practices for young children and mothers.

Improved families' access to insecticide-treated mosquito nets, anti-malarial and other essential drugs, and micro-nutrient supplements in 44 countries, primarily in Africa. Pregnant women are particularly vulnerable to malaria.

Strengthened capacity for safe delivery, including training of obstetricians and birth attendants, provision of birth kits and equipment. A strategy for emergency obstetric care was successfully implemented in the six South Asian countries where most of the world's maternal deaths occur.

Improved access for HIV-infected mothers and their partners to antiretroviral therapy (in conjunction with other UN agencies).

Poverty (Definition)

Tom Brake: To ask the Secretary of State for International Development what definition he uses of *(a)* poor and *(b)* middle income countries; and if he will list the countries so defined. [148499]

Mr. Gareth Thomas: The poorest countries are those classified as low income, while poor countries also include those classified as middle income. DFID uses the same classification system as the Development Assistance Committee of the OECD. Under this system, countries are classified according to their GNI per capita levels in 1998:

Low income countries are those with a 1998 GNI per capita less than $760.

Lower middle income countries have a 1998 GNI per capita level of $761 or above but not exceeding $3,030.

Upper middle income countries have a 1998 GNI per capita level of $3,031 or above but not exceeding $9,360.

The following list shows the countries that fall into each of these categories and current statistics are based on these groups.

These classifications will change for aid flows after 1 January 2003 when thresholds based on 2001 GNI per capita levels will be used.

Low income

Afghanistan
Angola
Armenia
Azerbaijan
Bangladesh
Benin
Bhutan
Burkina Faso
Burma
Burundi
Cambodia
Cameroon
Central African Republic
Chad
China
Comoros
Congo
Congo (Dem. Rep.)
Cote d'Ivoire
Eritrea
Ethiopia
Gambia
Ghana
Guinea
Guinea-Bissau
Haiti
Honduras
India
Indonesia
Kenya
Korea (North)
Kyrgyzstan
Laos
Lesotho
Liberia
Madagascar
Malawi
Mali
Mauritania

St. Kitts-Nevis
St. Lucia
Trinidad and Tobago
Turkey
Turks and Caicos Islands
Uruguay
Venezuela

Poverty Reduction Strategies

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the adoption and implementation of effective poverty reduction strategies by 2004 in all countries accessing International Development Association high impact or adjustment lending. [148520]

Hilary Benn: All countries accessing resources, including adjustment loans, from the concessional lending arm of the World Bank—the International Development Association (IDA)—are required to have completed, or be in the process of completing, full Poverty Reduction Strategy Papers (PRSPs). Of the 53 countries that are already in the process, 32 are implementing full PRSPs. In 2003, 14 countries with interim strategies moved to full PRSPs. It is expected that, during 2004, a similar number of interim strategies will be finalised.

DFID attaches importance to countries preparing their PRSPs in a way that builds and sustains country ownership through broad participation and consultation. Some countries take longer than others to finalise their PRSPs, particularly if they are affected by conflict.

DFID continues to press for improvements in the PRSP process to correct weaknesses that have been identified, such as inadequate specification of priorities, insufficient attention to public expenditure management systems, and weak analysis of the poverty impact of policies. We welcome the progress which IDA is making in aligning its assistance in support of PRSPs, and are encouraging other multilateral and bilateral donors to do so, too.

Sudan

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of *(a)* the level and *(b)* the effectiveness of humanitarian aid in Southern Sudan. [148124]

Hilary Benn: For 2003 the UN reports that $237 million was provided for humanitarian assistance in Sudan, compared to a Humanitarian Appeal of $262 million: although the UN do not provide a breakdown, more than half of this is spent in south Sudan. In 2004 the UN is requesting $465 million. The larger amount this year takes into account the need to fund a wider range of activities in expectation of a peace agreement to end the civil war.

We consider humanitarian aid in south Sudan to be effective. We provide significant support to agencies who are active there.

Mr. Bercow: To ask the Secretary of State for International Development how many international secondments have been made by his Department to Sudan in each of the last three years; and if he will list their responsibilities. [148125]

Hilary Benn: There are two members of DFID staff seconded to Sudan :

One is seconded to the post of UN Resident and Humanitarian Coordinator for Sudan (May 2002 to April 2005).

The other is seconded to the United Nations Development Programme as Post Conflict Recovery Programme specialist (April 2003 to September 2004)

Tanzania

Mr. Bercow: To ask the Secretary of State for International Development what recent estimate he has made of the *(a)* level and *(b)* geographical distribution of food shortages in Tanzania. [148123]

Hilary Benn: The Government of Tanzania (GoT) carried out an initial crop assessment in May 2003 followed by a rapid vulnerability assessment in July. A further vulnerability assessment will not be appropriate until after the February 2004 harvest is complete. However, food insecurity remains widespread with pockets of scarcity in at least 17 regions of Tanzania. As requested by GoT, DFID is funding Save the Children and Oxfam to facilitate the production of a food security update over the coming month.

UN GDP Target

Lynne Jones: To ask the Secretary of State for International Development by when the Government are committed to achieving the UN target of 0.7 per cent. of national income to be spent on development assistance. [148456]

John Healey: I have been asked to reply.

Since 1997 the UK's level of official development assistance (oda) has increased in real terms by 93 per cent. UK oda will reach an oda/gni ratio of 0.40 per cent. in 2005–06, up from 0.33 per cent. in 2003–04, exceeding the EU target of 0.39 per cent. for member states, and more double the current G7 average of 0.19 per cent. The UK remains committed to the UN target of 0.7 per cent. oda/GNI and to meeting the Millennium Development Goals. To this end the Chancellor has proposed an International Finance Facility that would raise an additional £50 billion per year for development assistance up to 2015. Any timetable for reaching 0.7 per cent. oda/GNI will be a matter for future Parliaments.

Zimbabwe

John Barrett: To ask the Secretary of State for International Development what assessment he has made of the impact which the decision of the Reserve Bank of Zimbabwe to commence foreign currency auctions will have on the ability of aid agencies to deliver humanitarian assistance in the country. [147775]

Hilary Benn: As a result of the new auction system, the sale of foreign exchange at a realistic rate within Zimbabwe is now legal. This should make financial operations easier for aid agencies when exchanging their foreign exchange for Zimbabwe dollars and we do not expect it to have any negative impact on the ability of aid agencies to deliver humanitarian assistance.

Mr. Bercow: To ask the Secretary of State for International Development (1) how much money his Department has contributed since the start of the 2003–04 financial year through *(a)* non-governmental organisations and *(b)* UN feeding programmes to assist the humanitarian situation in Zimbabwe; and how much he plans to spend in 2004–05; [148542]

(2) if he will formally request the Government of Zimbabwe to release the results of its vulnerability assessment; [148583]

(3) if he will formally request the Government of Zimbabwe to release a revised crop forecast and the assumptions on which it is based; [148584]

(4) if he will list the areas in Zimbabwe which suffer from *(a)* raised levels of malnutrition, *(b)* unmet needs and *(c)* continuing dependence on food aid. [148642]

Hilary Benn: The information requested is as follows:

Financial

1. So far this financial year DFID have spent £20.5 million in Zimbabwe, from a total budget of £35 million. Of the total budget, we have committed £5 million to WFP for general food distribution and we are considering a further contribution. £19 million will be channelled through NGOs for targeted food distributions and subsistence farming inputs. The remaining funds are for HIV/AIDS mitigation, prevention and basic vaccines. Due to the anticipated continuation of the humanitarian crisis, funding for the financial year 2004–05 is expected to be at a similar level.

Vulnerability assessment

2. The Zimbabwe Vulnerability Assessment Committee (ZimVAC) conducts the national vulnerability assessments that form the basis of the humanitarian response. This committee is composed of government, NGO and UN Agencies' representatives. The most recent assessment undertaken by the ZimVAC is the Urban Vulnerability Assessment, which the Government are expected to release by the end of this month.

Crop forecast

3. Initial government crop forecasts are usually made by the end of January. However, given the present capacity of the Government, these are unlikely to be accurate or reliable. The UN Food and Agriculture Organisation are already working on their own forecasts which should also be available at the end of January. Preliminary estimates by one of the major donors suggest a harvest of around 500,000 MT of maize. This compares to a 2003 cereal harvest of about 900,000 MT and a cereal requirement of approximately 2 million MT.

Malnutrition

4. *(a)* The most recent national nutrition survey, conducted in February 2003, showed that levels of acute malnutrition were relatively low throughout Zimbabwe (approximately 5 per cent.) in comparison to other food-based emergencies, suggesting the effective coverage of the humanitarian relief operation. However, levels of severe acute malnutrition are disproportionately high relative to levels of moderate malnutrition, suggesting a high incidence of paediatric HIV/AIDS. Provinces with the highest rates of acute malnutrition were Manicaland (6.6 per cent.) and Midlands (6.0 per cent.).

Unmet needs

(b) Unmet needs exist most evidently in areas that were not addressed by the original UN WFP operation in the expectation that the Zimbabwean Government would make food and agricultural inputs available. These areas include the former commercial farming areas and urban centres such as Harare and Bulawayo. The humanitarian community is working to address these needs.

Food aid dependence

(c) Dependence on food aid is a concern, particularly in areas of low employment and agricultural activity, such as Binga District where approximately 90 per cent. of the population are dependent on food aid. DFID is working in collaboration with development partners to reduce food aid dependence by providing agricultural inputs to enable subsistence farmers to grow food crops to feed themselves.

Tom Brake: To ask the Secretary of State for International Development (1) what assistance his Department *(a)* has given and *(b)* plans to give to humanitarian aid workers affected by the banking crisis in Zimbabwe; [148637]

(2) what assessment his Department has made of the impact of the banking crisis in Zimbabwe on the ability to *(a)* pay aid workers and *(b)* deliver aid; [148688]

(3) what assessment his Department has made of the impact on food aid to Zimbabwe arising from the estimated $111 million shortfall in donations to the World Food Programme. [148689]

Hilary Benn: The information is as follows:

Humanitarian aid workers affected by the banking crisis

My Department is in frequent contact with the non-governmental organisations delivering UK funded humanitarian aid in Zimbabwe. The banking crisis has not significantly affected their operating capacity so far but we will continue to monitor the situation closely.

Impact of the banking crisis

The main impact of the banking crisis has been that cheques from a few, generally newer, banks were not accepted by a number of retailers and the more established banks. Few, if any, of the aid agencies and their employees working with my Department have accounts with these banks. Following the intervention of the Zimbabwe Reserve Bank, these affected banks are now clearing their cheques again and individuals have been able to access their accounts.

WFP funding shortfall

On 16 January 2004 the World Food Programme's appeal of approximately US$195 million for the current emergency operation in Zimbabwe was 80 per cent. funded. The funding shortfall is therefore approximately US$39 million. DFID have already committed £5 million to WFP operations in Zimbabwe

this financial year and we are currently considering a further pledge. DFID will contribute approximately £30 million to humanitarian operations this year and has contributed a total of £62 million since the start of the crisis in September 2001.

NORTHERN IRELAND

Airport Security

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what recent representations he has made to the owners of Belfast International airport on maintaining adequate police security at the airport. [147197]

Jane Kennedy: My officials have had recent and ongoing communications with the Belfast International airport authorities and other interested parties to ensure that appropriate policing standards are maintained.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the implications for security of the reduction in the number of police officers patrolling Belfast International airport. [147198]

Jane Kennedy: Following a review of security at the Belfast International airport, new arrangements have been put in place for some static police posts. However, there is to be no reduction in the number of police officers patrolling at Belfast International airport, neither within the terminal building or the wider complex. Indeed, new policing arrangements will result in a net increase in this activity.

Caesarean Sections

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to review practice on the performing of caesarean sections in hospitals in Northern Ireland. [148828]

Angela Smith: In 2001, Northern Ireland hospitals took part in the "National Sentinel Caesarean Section Audit", in collaboration with the Department of Health in England and Wales and the National Institute of Clinical Excellence (NICE). The audit was undertaken by the Clinical Effectiveness Support Unit of the Royal College of Obstetricians and Gynaecologists, and was carried out in response to concerns over the variation in caesarean section rates across the United Kingdom.

Following the audit, the Clinical Effectiveness Support Unit on behalf of NICE has been developing clinical guidelines for caesarean section. The Department, Boards and Trusts will carefully consider these guidelines when they are produced. In the meantime, the Department will continue to work with the professionals concerned to ensure that care delivered locally is of the highest quality.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of births in Northern Ireland were by caesarean section in the last 12 months for which figures were available; and what the figures were *(a)* five, *(b)* 10 and *(c)* 15 years ago. [148835]

Angela Smith: The table sets out the percentage of births to Northern Ireland residents that were by caesarean section.

Percentage

Year of Birth	*Caesarean Sections*
1988[1]	N/A
1993	14.2
1998	20.3
2003[2]	26.2

[1] Data not available for 1988
[2] Data for 2003 is provisional

Child Health System

Lesser-used Languages,

Mr. McNamara: To ask the Secretary of State for Northern Ireland what his estimate is of the number of speakers of *(a)* each European lesser-used language and *(b)* other languages used in Northern Ireland. [149227]

Angela Smith: The following table provides details of speakers of lesser-used languages recognised under the Council of Europe's Charter for Regional or Minority Languages:

Language	*Speakers*	*Source and comments*
Irish	106,844	Persons aged three and over (NI census, 2001). In total 167,490 persons have 'some knowledge' of Irish
Ulster-Scots	35,000	Approximate, based on 2 per cent. of population. (NI Life and Times Survey, 1999)

We have no information on the number of users of other European lesser-used languages. I estimate their numbers to be minimal.

The approximate numbers of speakers of other languages used in Northern Ireland are as follows:

Language	*Speakers*	*Source and comment*
English	1,700,000+	All Irish and Ulster-Scots speakers are bilingual. See "In other words", Daniel Holder (2003) for information on knowledge of English among speakers of other languages
Chinese	4,200	Various dialects are spoken. NI census (2001) recorded 4,200 people of Chinese ethnic origin. Holder (2003) estimates 8,000
British Sign Language	3,000	British Deaf Association
Irish Sign Language	1,500	British Deaf Association
Cant/Shelta/Gammon	1,700	Oral languages of the Irish Traveller Community Holder (2003), Kirk and O Baoill (2002)
Arabic	1,000–1,500	Holder (2003), Modern Standard Arabic, also including speakers of Western and Eastern Arabic
Portuguese	1,000+	Holder (2003)
Tagalog	600	Holder (2003) (National Language of the Philippines)
Bengali	450–500	Holder (2003)
Hindi or Punjabi	1,700	Holder (2003)
Southern Indian Languages	500	Holder (2003) includes Tamil, Kannada, Kanta, Malay ala, Marati, Oriya and Telugu
Farsi	350	Holder (2003)

There are also smaller numbers of other language speakers such as Albanian; Turkish; African Languages such as Swahili; Afghani; Russian; Japanese; Hebrew; Korean; Vietnamese; Mallayo; Thai and speakers of other European Languages such as French and Spanish (both from those countries and from other countries where those languages are spoken). In total there are over 70 minority ethnic languages spoken in Northern Ireland (Holder, 2003).

HIV

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of HIV sufferers in Northern Ireland in each of the last five years. [148773]

Angela Smith: The estimated number of HIV sufferers in Northern Ireland between 1998 and 2002 is shown in the following table.

	HIV infected individuals
1998	181
1999	195
2000	214
2001	233
2002	257

Notes:
The figures refer to persons diagnosed with HIV and show the cumulative number of HIV infected individuals each year, i.e. the number up to and including the relevant year. Some persons who are no longer living in Northern Ireland may be included.
Source:
Health Protection Agency

House Fires

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many house fires there were in Northern Ireland in 2003; and how many deaths arose from them. [148840]

Angela Smith: The total number of fires in dwellings during 2003 was 1606, from which there were 11 deaths.

Industrial Tribunals

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the timescale is for the issuing of industrial tribunal decisions to the appellant. [149215]

Jane Kennedy: There is no statutory time scale for issuing industrial tribunal decisions to the parties. However the Office of the Industrial Tribunals and the Fair Employment Tribunal aim to issue 80 per cent. of decisions within six weeks of the end of the hearing.

Hare Hunting

Mr. Luff: To ask the Secretary of State for Northern Ireland if he will make it his policy to increase the three week consultation period before imposing the temporary ban in hunting and coursing of hares in Northern Ireland; and if he will make a statement. [142940]

Angela Smith: The proposed temporary ban on the killing or taking, or the sale or purchase, of Irish hares would be made through a special protection order, under the provisions of section 7C(1) of the Game Preservation Act (Northern Ireland) 1928. Section 7F(5) of the Act requires that notice of the proposed ban be placed in the *Belfast Gazette*, specifying the time within which objections may be made. A four-week period for this purpose was considered to be reasonable.

Accordingly, a notice was placed in the 31 October edition of the *Belfast Gazette*, specifying a four-week deadline, to 28 November, for objections to be lodged. The Department of the Environment also published the notice in the three Belfast daily newspapers on 3, 4 and 5 November and wrote directly to a number of interested parties.

Almost 3,000 objections to the proposed Order were received within the specified period. Such a volume of replies would suggest that the period for objection was sufficient for those who wished to express their opposition to the proposed ban. I expect to make a final decision on the proposed Order shortly.

NHS Suspensions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) how many employees of the NHS in Northern Ireland are suspended from work; [148943]

(2) what the cost to the NHS in Northern Ireland was in the last 12 months of the suspension from work of employees; [148944]

(3) how many NHS employees in Northern Ireland were dismissed in each of the last five years. [148946]

Angela Smith: 26 Health and Personal Social Services employees are currently suspended from work.

The cost to the Health and Personal Social Services of employees suspended from work in the financial year April 2002 to March 2003 was £214,185. This is the most recent period for which figures are available:

The number of Health and Personal Social Services employees whose contract of employment have been terminated on disciplinary grounds in the last five years is set out in the following table:

	Permanent staff	*Temporary staff*	*Total*
1998–99	34	1	35
1999–2000	35	3	38
2000–01	48	3	51
2001–02	45	7	52
2002–03	30	2	32

Organised Crime

Mr. Ben Chapman: To ask the Secretary of State for Northern Ireland if he will make a statement on measures to tackle organised crime in Northern Ireland. [147837]

Jane Kennedy: The Organised Crime Task Force was established to further enhance co-operation between the law enforcement agencies in combating organised crime and to co-ordinate and focus their efforts. This has resulted in greater success and effectiveness and I pay tribute to the activity of the law enforcement agencies, which have made a significant impact against the organised criminals over the past 12 months. These have included: unprecedented successes against illegal drug importation; a 50 per cent. reduction in the number of

attacks on cash-in-transit vehicles; and a second year of growth in the levels of legitimate deliveries of road fuel oils into Northern Ireland after five years of decline.

The Government are also fully committed to working with the Government in the Irish Republic to develop a cohesive strategy to tackle and manage the joint response to cross-border organised crime.

Private Health Care

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the sum spent in Northern Ireland on private health care in each of the last five years. [148942]

Angela Smith: The information requested is not available. However, a report published by my Department in April 2002, "Securing our Future Health: Taking a Long-term view-Northern Ireland Position", calculated that in 2000, some 6 per cent. of the Northern Ireland population was covered by private medical insurance, compared to 12.5 per cent. in Great Britain.

Racism (Chinese Community)

Mr. Dismore: To ask the Secretary of State for Northern Ireland what action he is taking to deal with the problem of racism and racist incidents towards the Chinese community in Northern Ireland; and if he will make a statement. [148258]

Mr. Paul Murphy: The Community Safety Strategy, being implemented through the Community Safety Unit of the Northern Ireland Office, identified Key Issue 6 : Offences Motivated by Prejudice and Hatred, as a central theme in making Northern Ireland a safer place for all its citizens.

Specifically, it seeks to reduce the levels of crime motivated by sectarianism, and promote and enhance the safety of minority ethnic residents.

Currently, it is facilitating a working group of relevant voluntary and statutory organisations, which aims to establish a clear framework for the recording and monitoring of racial incidents. It is hoped to bring forward such an agreed framework by the spring 2004.

Also, within its community safety grant programme, the challenge competition, it has provided funding towards four projects that have a central theme of countering prejudice and hatred, at a total value of £273,255.

In addition to these initiatives the Government will publish shortly for consultation, draft legislation for Northern Ireland, aimed at tackling racially motivated offences. The proposed draft Order introduces provisions that will require sentencers, where offences are aggravated by such hostility, to treat racial and religious aggravation as an aggravating factor when sentencing. (The legislation will also cover offences motivated by hatred of sexual orientation.) The provisions will also increase maximum sentences available for certain specified, mainly violent, offences including where racial, religious or sexual aggravation is proven. While I recognise the unacceptable nature of recent attacks, these provisions will cover a broad range of racial and ethnic groups, not just the Chinese community.

The Government have frequently put on record their abhorrence of all forms of intolerance and are committed to eradicating such manifestations of hatred, whether based on racism or based on sectarianism. I reiterate the acknowledgement in the Belfast Agreement of the unique opportunity that exists here to bring about a society

> "which will recognise the full and equal legitimacy and worth of identities, senses of allegiance and ethos of all sections of the community in Northern Ireland".

River Pollution

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to prevent the discharge of harmful materials into rivers. [148831]

Angela Smith: Under the Water (NI) Order 1999, it is an offence to discharge or deposit, whether knowingly or otherwise, any poisonous, noxious or polluting matter so that it enters a waterway, the penalty for which on summary conviction is imprisonment for a term not exceeding three months, or a fine not exceeding £20,000, or both. The Environment and Heritage Service (EHS), an Executive Agency of the Department of the Environment (DOE), is responsible for enforcing this legislation.

To prevent pollution incidents from occurring, and to minimise the effect of any pollution on the environment, pollution prevention advice is offered by EHS to educate the public and industry, in promoting good environmental practices. If a pollution incident is reported or discovered, EHS aims to locate and stop the source of the pollution, identify the polluter and if appropriate, collect sufficient evidence to secure a prosecution.

It is also an offence to discharge effluent to waterways or groundwater without the consent of the DOE. EHS is responsible for issuing "consents to discharge" that detail specific conditions relating to the quality and quantity of effluent discharged. The conditions are formulated to ensure that the discharge can be sustained by the receiving waterway without damage to the aquatic environment and without breaching national or EC Directive standards. Failure to comply with the conditions of a consent is also an offence under the Water Order, and where consent compliance is consistently poor, or there is a pollution incident, enforcement action will be considered.

Water Service is not bound by the statutory discharge consent requirements of the Water Order, however a separate but similar regulatory system has been established to control Water Service discharges. This system has been detailed in the recently published report "Regulation of Water Service Discharges 2001", a copy of which has been placed in the Assembly library. The report is also available on the EHS website at http://www.ehsni.gov.uk/pubs/publications/Reg WSD.pdf

School Fruit

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on plans to make fruit available to school pupils. [148772]

Angela Smith: A pilot Fresh Fruit in Schools Scheme was launched in Northern Ireland in October 2002. It currently provides a free piece of fruit daily to over 4,800 Primary 1 and 2 children in 87 primary schools within Health Action Zone areas. An initial evaluation of the scheme has recently been completed and consideration is currently being given to extending the scheme to include a larger number of children.

Sexually Transmitted Diseases

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of sufferers of *(a)* chlamydia, *(b)* gonorrhoea and *(c)* syphilis in Northern Ireland in each of the last five years. [148774]

Angela Smith: Information is not available on the estimated number of sufferers of *(a)* chlamydia, *(b)* gonorrhoea and *(c)* syphilis in Northern Ireland. Information is, however, available on the number of cases seen each year at Genito-Urinary Medicine clinics, and is shown for the years 1998 to 2002 in the following table.

	Cases seen		
	Chlamydia	*Gonorrhoea*	*Syphilis*
1998	660	61	0
1999	794	110	1
2000	963	143	0
2001	947	148	11
2002	1,170	117	20

Notes:
The figures refer to the number of cases seen at Genito-Urinary Medicine clinics each year. Some of these cases may also have been seen in previous years, therefore it is not possible to provide a cumulative total of persons with these diseases. Figures are shown in respect of uncomplicated genital chlamydia, uncomplicated gonorrhoea and primary and secondary syphilis.

Health Protection Agency

FOREIGN AND COMMONWEALTH AFFAIRS

Democratic Republic of the Congo

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what support and advice are being given to the interim government of the Democratic Republic of the Congo in respect of *(a)* respect for human rights and *(b)* the nurture of democratic institutions. [148080]

Mr. Mullin: We are committed to promoting respect for human rights in the Democratic Republic of the Congo (DRC) through continued dialogue with the DRC authorities, the UN Mission in Congo (MONUC—who have specialist human rights staff) and human rights Non-Governmental Organisations (NGOs).

In collaboration with other donors we are considering ways to provide core financial support to the five Democracy Support Commissions that form part of the framework of transitional institutions in the DRC. These are the Independent Electoral Commission; the High Media Authority; the Anti-Corruption and Ethics Commission; the Truth and Reconciliation Commission; and the Human Rights Observatory.

We have contributed €1 million to the European Community/World bank Trust Fund to provide start-up logistical support to DRC transitional institutions and new Ministries created by the 2002 Global Accord. We are providing technical assistance to the Anti-Corruption Commission, for which we are the lead donor. We are also funding the NGO Panos Paris to build capacity in the media sector in close co-operation with the High Media Authority.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what monitoring of the upholding of human rights in the conflict zones of the Congo is undertaken by United Kingdom representatives; and if he will make a statement. [148300]

Mr. Mullin: We monitor closely the human rights situation throughout the Democratic Republic of the Congo (DRC). This is achieved through our Embassies in the region and through discussions with the DRC's National Human Rights Observatory, Non-Governmental Organisations, the UN Mission in the DRC (MONUC) and other UN bodies.

Robert Ellis

Mr. Arbuthnot: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations on behalf of Mr. Robert Ellis were made by the Minister of State when he visited Turkey this month. [149392]

Mr. MacShane: The case of Mr. Robert Ellis was discussed during my meeting with the Head of the Turkish European Secretariat General (equivalent to the European Secretariat) in Ankara on 13 January. As the right hon. Member is already aware from my letter to him of 7 January 2004, the Ambassador and his staff have made vigorous efforts on behalf of Mr. Ellis during the last six years.

Departmental Relocation

Joan Walley: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the benefits of re-location of staff to North Staffordshire; and if he will make a statement; [146865]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146881]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146894]

(4) what plans he has to establish procedures for assessing the impact of possible re-location of staff in his Department to the regions; and if he will make a statement. [146925]

Mr. Straw: I refer my hon. Friend to the answer my right hon. Friend the Chief Secretary to the Treasury gave on 12 January 2003, *Official Report*, column 516W.

Joan Walley: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department work in *(a)* the West Midlands and *(b)* North Staffordshire. [146910]

Mr. Straw: The Foreign and Commonwealth Office do not employ staff in the West Midlands or North Staffordshire. UKTI (jointly responsible to my right hon. Friend the Secretary of State for Trade and Industry and me) fund the delivery of services through a Regional UKTI Team and staff employed by the Business Link/Chamber network in the region.

In the West Midlands the total number of staff working on the UKTI agenda is 41 of which 19 are civil servants (employed by the Government Office on UKTIs behalf). The Staffordshire UKTI Team consists of eight (two civil servants) and of these five are based in North Staffordshire (one civil servant).

Entry Clearance

Mr. Brazier: To ask the Secretary of State for Foreign and Commonwealth Affairs how many entry clearance applications were *(a)* made and *(b)* refused worldwide in each of the last six years. [147064]

Mr. Mullin: The following table shows the number of entry clearance applications received and refused worldwide during each year from 1998. Since 2001, statistics have been collated by financial year (1 April to 31 March) rather than calendar year.

Year	*Received*	*Refused*
1998	1,462,599	85,041
1999	1,514,764	100,616
2000	1,674,110	117,142
FY 2001–2002	1,750,459	176,217
FY 2002–2003	1,941,910	249,830

Mr. Brazier: To ask the Secretary of State for Foreign and Commonwealth Affairs how many entry clearance applications were *(a)* received and *(b)* refused in (i) India, (ii) Pakistan, (iii) China, (iv) Nigeria, (v) Ghana, (vi) Russia, (vii) Poland, (viii) Ukraine, (ix) Zimbabwe and (x) the Philippines in each of the last six years. [147065]

Mr. Mullin: The following table shows the numbers of entry clearance applications received in the countries specified during each year from 1998. Since 2001, statistics have been collated by financial year (1 April to 31 March) rather than by calendar year.

Country	*1998*	*1999*	*2000*	*FY 2001–02*	*FY 2002–03*
India	159,689	175,664	186,725	210,049	236,431
Pakistan	77,150	81,102	96,796	111,959	74,043
China	39,492	47,841	69,090	94,331	116,620
Nigeria	55,616	72,101	83,725	108,448	144,245
Ghana	22,901	28,308	34,144	46,425	65,684
Russia	77,323	56,736	65,544	68,956	73,971
Poland	1,409	1,568	1,509	1,710	2,189
Ukraine	23,727	22,693	26,145	23,712	24,734
Zimbabwe	1,955	1,900	2,960	3,272	14,377
Philippines	17,868	19,868	25,868	28,290	30,484

The following table shows the numbers of entry clearance applications refused in the countries specified during each year from 1998.

Country	*1998*	*1999*	*2000*	*FY 2001–02*	*FY 2002–03*
India	14,261	18,187	20,622	24,136	39,642
Pakistan	10,493	15,214	15,989	32,324	10,173
China	2,602	3,727	6,363	10,399	14,210
Nigeria	10,073	10,044	12,139	16,711	33,221
Ghana	5,078	5,355	7,783	21,016	33,985
Russia	2,105	1,248	1,421	2,552	2,331
Poland	116	115	213	109	178
Ukraine	2,580	2,843	3,121	3,794	3,862
Zimbabwe	254	222	444	555	4,240
Philippines	1,584	1,274	1,161	1,761	4,074

The significant increase in figures for received and refused applications in Zimbabwe during the financial year 2002–2003 is the result of the implementation of the Visa regime in Zimbabwe on 8 November 2002 coupled with the increased demand for visas because of the unstable political situation in Zimbabwe during this period.

Ethiopia/Eritrea

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what involvement the Government's representative had in promoting acceptance of the Boundary Commission Report on the border dispute between Ethiopia and Eritrea; and if he will make a statement. [148301]

Mr. Mullin: I, together with our Ambassadors in Addis Ababa and Asmara, take every opportunity to emphasise to both parties that the Boundary Commission's decision is final and binding; that both should avoid any return to war; and that dialogue is essential to address all the issues separating Ethiopia and Eritrea. I visited Eritrea and Ethiopia between 13 and 19 January during which time I had extensive discussions on the border with a range of interested parties including President Isaias of Eritrea and Prime Minister Meles of Ethiopia.

Ghana

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure that Ghana adheres to international standards on human rights. [148157]

Mr. Mullin: Ghana generally performs well on human rights issues. We welcome the fact that Ghana has signed up to and ratified the six major UN treaties on human rights. Ghana also volunteered to be one of the

first countries to participate in the African Peer Review Mechanism (a voluntary process to monitor and raise governance standards in Africa).

We regularly meet with the Government of Ghana to discuss a range of governance issues and raise concerns on human rights in this context. We regularly lobby the Ghanaians on the removal of the death penalty from their statute book.

Lockerbie

Mr. David Marshall: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government will seek to recoup any of the costs incurred in *(a)* investigations into the Lockerbie bombing and *(b)* holding the (i) trial and (ii) appeal by the accused; and if he will make a statement. [143009]

Mr. Rammell: There are arrangements in place for the US Government to contribute to the overall costs of the Lockerbie trial and appeal. There is no power in Scottish criminal procedure to make awards of expenses against the accused.

Mr. David Marshall: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total cost to the UK taxpayer was of the *(a)* investigations into the Lockerbie bombing, *(b)* trial of those accused of the bombing and *(c)* appeal by the accused. [143010]

Mr. Rammell: Responsibility for the accounting of all costs of the Lockerbie trial and its aftermath is a matter for the Scottish Executive. They calculate that the total costs of holding the trial in the Netherlands, including pre-trial and appeal costs, amounted to £75.8 million.

Middle East

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in the implementation of the Middle East roadmap proposals. [148467]

Mr. Rammell *[holding answer 19 January 2004]*: Despite the welcome undertakings made at the Aqaba Summit, there has been a disappointing lack of progress on the roadmap's Phase One requirements. Israel has implemented neither the settlement freeze nor the dismantling of settlement outposts erected since March 2001. The Palestinian Authority has not begun sustained, targeted and effective operations against terrorists. Both sides should now simultaneously fulfil the obligations they have both accepted under Phase One of the roadmap.

Nigeria

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Nigerian Government concerning the burning down by Muslim extremists of churches and church-owned properties during November 2003 in the town of Kazaure, Jigawa state. [149082]

Mr. Mullin: We are in close touch with the Nigerian authorities. We are concerned about the violence, which affected Muslims as well as Christians. The Jigawa State Government has said that it will take strong measures against the wrong-doers. Officials from the British High Commission in Abuja take every opportunity to emphasise to the States Governors that all criminal acts, including violence, should be dealt with by proper authorities through the courts.

The UK believes that establishing dialogue between Christians and Muslims at all levels is the best way to create understanding and mutual tolerance. We support the work of Coventry Cathedral's Centre for Peace and Reconciliation in Kaduna and are looking to expand this work to other States in Nigeria.

Overseas Visitors

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people entered the UK from *(a)* Russia and *(b)* China in the latest year for which figures are available. [148410]

Beverley Hughes: The latest available information is given in the table.

Passengers given leave to enter the United Kingdom under all categories, by nationality, 2002

	Number of journeys— all categories
Russia	167,000
People's Republic of China	228,000

The figures in this table have been rounded to three significant digits.

Data on passengers given leave to enter the United Kingdom are published in the Command Paper 'Control of Immigration: Statistics United Kingdom 2002' (Cm6053), obtainable from the Library, The Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

St. Helena/Tristan da Cunha

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* St. Helena and *(b)* Tristan da Cunha. [148230]

Mr. Rammell: The Government are working hard to help the people of St. Helena. A range of issues is under consideration at the present time with air access, a new constitution, improved sea access, exports of wild honey and student fees among them. Many of these issues require co-ordination across Government departments, which is currently under way. It is our intention and has been our practice to ensure that the Government of St. Helena gets the best possible advice from the relevant experts, funded in the main by the Department for International Development. The next major visit to the island by DfID/FCO officials will be in April/May when budgetary talks are due to take place.

The smaller territory of Tristan da Cunha reports its activities on a periodic basis to its Governor, based in St. Helena. Largely self-sufficient through its fishing and related export activities, it receives a small amount of funding each year from the Department of International Development. It is constantly on the lookout for new ways of raising revenue so that it can become more financially independent and start to build its reserves. Tristan Islanders are working with EU officials to gain a licence that would enable them to export crayfish caught in their waters for sale in the EU.

Visa Charges

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to introduce visa charges for US citizens who wish to visit the United Kingdom. [148155]

Mr. Mullin: US citizens do not require a visa to visit the United Kingdom and therefore no visa charges will be introduced.

TRADE AND INDUSTRY

International Thermonuclear Experimental Reactor

Mr. Moore: To ask the Secretary of State for Trade and Industry what discussions she has had with her European Union counterparts on the proposed location of the International Thermonuclear Experimental Reactor; and if she will make a statement. [149380]

Jacqui Smith: Ministers and officials have taken part in various discussions with other members of the European Union on the proposed location for the International Thermonuclear Experimental Reactor. I attended the 11 November 2003 Competitiveness Council discussion on the European candidate site and expressed the UK's support for the European bid.

Broadband

Mr. Hoyle: To ask the Secretary of State for Trade and Industry if she will make a statement on the roll out of broadband in Lancashire. [148415]

Mr. Timms: Under the Department's £30 million broadband fund, the North West Development Agency (NWDA) is launching three pilot demonstrator projects in Lancashire, which will focus on encouraging access and take up of ICT over broadband. The NWDA is in the final stages of procurement for Project ACCESS, which will enable provision of affordable broadband access in Cumbria and that part of Lancashire north of the Lancaster district boundary. The NWDA has also supported the formation of the Lancashire Digital Development Agency (LDDA), a grouping of public, private and voluntary sector partners who take the responsibility for promoting the delivery of an advanced broadband infrastructure and to maximise its take up. (Source: www.nwda.co.uk).

Under the Department's Broadband Aggregation Project (BAP), the North West Regional Aggregation Body (NW-RAB), has been incorporated to aggregate and procure public sector demand for broadband connectivity. The NW-RAB is working with stakeholders in the region to develop a strategy that will offer best value for money and the widest availability of broadband to surrounding communities.

Mr. Cummings: To ask the Secretary of State for Trade and Industry what percentage of the county of Durham has broadband coverage; and what action she intends to take to encourage greater coverage. [148854]

Mr. Timms: The data for the percentage of broadband coverage in the county of Durham are not available within Government.

The regional development agency, One NorthEast, in partnership with Durham county council and the local district councils, is driving forward a major £5.1 million project (DurhamNet) to provide a broadband network across the county, via high speed radio technology. Stage one of the project aims to provide broadband access to business, education and community facilities. This work is well under way, with broadband provision to the county's public libraries already in place. The county council is now leading a regional initiative to ensure that all telephone exchanges in the north-east are upgraded to deliver broadband to the region. (source: www.durham. gov.uk/).

The North East Regional Aggregation Body has been incorporated to aggregate and procure public sector demand for broadband connectivity. It is working with stakeholders in the region to develop a strategy that will offer best value for money and the widest availability of broadband to surrounding communities.

Business Link

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the effectiveness of business link organisations; and what plans she has to change these schemes. [148172]

Nigel Griffiths: Overall, Business Link Operators have been successfully delivering business support within their local areas to increasing numbers of small businesses, while at the same time seeing their levels of customer satisfaction continue to rise.

Last year Business Link Operators helped over 300,000 firms and individuals, an increase from 150,000 in 2002, and exceeded their key performance indicators. Market penetration increased from 14 per cent. to 17 per cent. in 2001–02, customer satisfaction with BLO services increased to 84 per cent. from 81 per cent. the previous year and brand awareness increased 9 per cent. to 74 per cent. Results for the current year are also showing a further increase in performance levels. By the end of quarter 2 2003–04, 88,000 more businesses had been assisted than the same time last year; the business penetration rate of 18.5 per cent. was already exceeding last year's performance; and the provisional average customer satisfaction rate of 85.4 per cent. shows a 1 per cent. increase on the last six months and a 3.2 per cent. increase on the same period last year.

The Small Business Service is now engaged in a review of the Business Link business and brand with the aim of building on the brand as the recognised gateway through which small businesses can access appropriate sources of help or support and so will have an impact on the way BLOs operate. The review should conclude during 2004–05 and the principal outcomes be implemented by April 2005.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what effect Business Link has had on *(a)* the overall productivity of UK businesses, *(b)* reducing disparities in regional productivity, *(c)* the

overall profitability of UK businesses, *(d)* UK business investment and *(e)* levels of private sector employment in the UK. [148186]

Nigel Griffiths: The Small Business Service has introduced from this year a Gross Value Added measure as part of its Performance Management Framework for Business Link. This enables operators to quantify the impact they have had on businesses with which they have formed a more intensive relationship, in terms of wealth creation and productivity improvement.

The most recent evaluation of Business Link did not explore the impact on productivity. However, it did conclude that Business Link provided good value for money in terms of the additional jobs, turnover, profits, assets and exports created at the national, regional and local level. The report on the evaluation, which was carried out by independent consultants Public and Corporate Economic Consultants (PACEC), is available on the DTI website (www.dti.gov.uk/about/evaluation).

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what procedures are in place to ensure the accountability of business link organisations. [148195]

Nigel Griffiths: The procedures in place are as follows:

Each year the Small Business Service (SBS) agrees an annual Delivery Plan (DP) with each Business Link Operator (BLO). The Plans are in a common format and include a set of Key Performance Indicators against which targets are agreed between the respective BLO and the SBS.

Each BLO's performance against these targets is monitored by SBS Regional Teams, or by the Regional Development Agency in the East Midlands and North West. BLOs are subject to a Quarterly Performance Review that assesses their performance against the set of Key Performance Indicators (KPIs). Three of the KPIs, Customer Satisfaction, Market Penetration and Number of Intensive Assisted Users, are subject to contractually binding Minimum Performance Levels. BLOs provide performance data on a quarterly basis as part of the SBS Management Information Requirement.

BLOs provide detailed Financial Information at the end of each quarter, which is monitored by the SBS. On an annual basis BLOs are subject to an independent audit of their finances and management information systems by an auditor appointed by the SBS to ensure its funding has been spent on the purposes for which it was given.

All BLOs are subject to UK company law.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many staff have been employed by each business link organisation in each year since their formation; and if she will break the figures down by salary band. [148196]

Nigel Griffiths: Business Link Operators are autonomous independent companies and the Small Business Service does not collect information about their staffing numbers or rates of pay.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what criteria are used to measure the *(a)* success and *(b)* effectiveness of business link organisations. [148198]

Nigel Griffiths: The Small Business Service (SBS) has developed a core set of key performance indicators (KPIs) to measure the success and effectiveness of Business Link Operators (BLOs). These indicators are contained in a Performance Management Framework and reflect the performance, value and contribution to the economy made by BLOs.

The indicators are:

awareness of Business Link (prompted and unprompted);

understanding of Business Link services;

use of Business Link branded services (by both businesses and individuals);

financial efficiency (of BLOs);

customer satisfaction;

intensive assisted users of BL branded services;

perceived business benefit; and

changes in Gross Value Added (GVA) of BL customers.

SBS negotiates a delivery plan each year with each BLO individually. The plan includes targets for each KPI that reflect the needs and constitution of each specific BLO area. SBS then subsequently monitors each BLO's performance against their respective targets on a quarterly basis with view to taking appropriate action to address specific or general shortcomings.

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how many firms in *(a)* Lancashire and *(b)* Chorley have used Business Link in each of the last three years. [148701]

Nigel Griffiths: The answer to the question is shown in the following table:

	2001-02	*2002-03*	*April-September 2003*
Business Link Operator usage-business customers, in-year cumulative			
East Lancashire	2,973	3,187	2,403
North and west Lancashire	3,156	6,435	5,996
Lancashire total	6,129	9,622	8,399
Business Link Operator usage-pre-starts, quarterly trend			
East Lancashire	1,825	2,534	1,642
North and west Lancashire	750	2,865	1,390
Lancashire total	2,575	5,399	3,032

Employment Statistics

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) what the *(a)* actual and *(b)* percentage change in private sector employment was in each month since 1997; [146143]

(2) how many people have been employed in *(a)* the public and *(b)* the private sector in each quarter over the last ten years. [148188]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen O'Brien, dated 20 January 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about jobs in the public and private sectors. (146143, 148188)

Job levels for the private and public sectors are obtained from administrative returns from public bodies and the Labour Force Survey, and are available only on an annual basis. The attached table shows the number of UK jobs in the public and private sectors for each of the ten years from 1993 to 2002, the latest year for which data are available. The table also shows the actual and percentage annual changes.

Numbers of public and private sector jobs in the UK, 1993–2002

Thousands

	Number of jobs		*Annual change*		*Annual percentage change*	
	Public	*Private*	*Public*	*Private*	*Public*	*Private*
1993	5,477	20,791	—	—	—	—
1994	5,292	21,229	-185	438	-3.4	2.7
1995	5,211	21,995	-81	766	-1.5	3.6
1996	5,069	22,307	-142	312	-2.7	1.4
1997	4,954	22,811	-115	504	-2.3	2.3
1998	4,944	23,083	-10	272	-0.2	1.2
1999	5,094	23,272	150	189	3.0	0.8
2000	5,094	23,537	0	265	0.0	1.1
2001	5,212	23,521	118	-16	2.3	-0.1
2002	5,298	23,610	86	89	1.7	0.4

Source:
Labour Force Survey and administrative returns from public bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many people were in *(a)* public and *(b)* private sector employment, broken down by (i) salary and (ii) employment type for each of the last ten years. [148187]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen O'Brien, dated 20 January 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about jobs in the public and private sectors. (148187)

The Labour Force Survey (LFS) provides information on earnings and employment type by sector. However, these figures are based on respondents' own perception of the sector in which they work, and may not correspond to the official classifications of the public and private sector.

Table 1 shows the average gross weekly earnings of full-time employees in the UK, split by sector. Table 2 shows the proportions of full-time and part-time employees in both the public and private sectors. In both cases, data are for twelve month periods ending in November in the years 1994–2003.

Information on the number of jobs in the public and private sectors in each year from 1993–2002 has been provided in an answer to another recent Parliamentary Question that you have asked (148188). However, please note that this information is provided for calendar years and is derived from other sources besides the LFS. It is therefore not consistent with the information on earnings and employment type given in this answer.

Table 1: Average gross weekly earnings of full-time employees in the UK

£

Year[1]	*Public Sector*	*Private Sector*
1994	328	291
1995	332	303
1996	346	315
1997	355	329
1998	367	345
1999	383	363
2000	396	382
2001	414	403
2002	431	417
2003	448	431

Energy Bill

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether the Energy Bill has been notified to the European Commission. [149620]

Mr. Timms: The Energy Bill is a public document. There is no requirement to notify the Energy Bill as such to the European Commission. In accordance with Article 88(3) of the European Treaty establishing the European Community, the Government notified to the Commission on 19 December 2003 the state aid that would be involved in the funding of the Nuclear Decommissioning Authority (NDA) under the Bill.

Chapter 2 of Part 3 of the Energy Bill will implement Directives 2003/54/EC and 2003/55/EC and we shall be notifying the commission when the relevant clauses come into force.

We shall consider whether we need to notify to the commission of the changes arising from the introduction of the Renewable Obligation in Northern Ireland, planned for 1 April 2005.

Management Consultants

Mr. Flight: To ask the Secretary of State for Trade and Industry what the cost to her Department of using management consultants has been in each of the last five years. [148028]

Ms Hewitt: Central records indicate that contracts for management consultants amounted to the following:

£ million

Financial year	Management consultant contracts
1999–2000	21
2000–01	36
2001–02	64
2002–03	42

The higher figure for 2001–02 includes £25 million for Consignia/Post Office in connection with the Government General Practitioner/Your Guide pilot.

Data for 1998–99 are not readily available and can be provided only at disproportionate cost.

Miners' Compensation

Jeff Ennis: To ask the Secretary of State for Trade and Industry if she will list the 10 firms of solicitors who have received the most in fees for dealing with miners' compensation claims; and how much each has received. [146657]

Nigel Griffiths: As of 7 January 2004 the figures are:

£ million

Top 10 solicitors	Total solicitors costs
Hugh James Ford Simey	35.8
Thompsons Solicitors	34.6
Raleys Solicitors	23.7
Browell Smith and Co	13.6
Mark Gilbert Morse	10.3
Graysons Solicitors	8.7
Union of Democratic Mineworkers	8.0
Watson Burton Solicitors	7.6
Towells Solicitors	7.6
Beresfords Solicitors	6.3

Adam Price: To ask the Secretary of State for Trade and Industry what amounts were paid to *(a)* firms of solicitors and *(b)* the Union of Democratic Mineworkers for cases undertaken under the miners' compensation schemes in 2003. [148286]

Nigel Griffiths: The figures are as follows:

£ million

	COPD	VWF
Solicitors cost	119.6	18.0
UDM	3.9	0.9
Total	123.5	18.9

Adam Price: To ask the Secretary of State for Trade and Industry which trade unions have applied to pursue claims directly under the miners' compensation schemes; and what the reasons were for *(a)* granting and *(b)* rejecting such an application in each case. [148310]

Nigel Griffiths *[holding answer 15 January 2004]:* The Department has signed agreements with those bodies appointed by or on behalf of claimants to act for them. In May 1998, my hon. Friend the Member for Leeds, West (Mr. Battle) the then Minister for Energy, invited the mining unions to contribute to these arrangements through their solicitors.

The UDM were themselves dealing with claims and a Claims Handling Agreement was signed with them. The compensation terms were identical to the agreement with the miners' solicitors.

The NUM inquired about having a direct agreement. This was not pursued beyond initial discussions.

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many firms of solicitors are handling coal health claims in *(a)* England, *(b)* Wales and *(c)* Scotland; and how many are involved with the Claimants Solicitors Group. [147201]

Nigel Griffiths: To date the figures are:

	CSG solicitors	Non-CSG solicitors	Total number
England	353	200	553
Scotland	24	41	65
Wales	56	40	96
Total	433	281	714

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many training days the insurers handling the coal health claims have held for solicitors to date; and how many firms have attended. [147202]

Nigel Griffiths: As of 13 January the figures are:

Training	Number of days	Number of firms attending
Planning days	2	32
Regional workshops	5	60
Solicitors training day, Sheffield Office	2	41
Solicitors Training Day, Edinburgh Office	1	8
Solicitors Training Day, Cardiff Office	1	6
Informal in house operational training	17	10

Mr. Clapham: To ask the Secretary of State for Trade and Industry how much money has been paid to date by the Department to *(a)* the insurers handling the coal health claims and *(b)* the company carrying out the medical assessments. [147204]

Nigel Griffiths: As of mid January 2004 nearly £158 million has been paid to IRISC, the Department's claim handlers and nearly £212 million to the companies who provide the medical assessments.

Regional Productivity

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the rate of productivity growth was in each region of the UK in each of the last five years. [146131]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen O'Brien, dated 20 January 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question on the productivity of UK companies. (146131)

The Office for National Statistics (ONS) does not currently produce estimates of productivity growth by region. Current regional productivity measures estimate the relative performance of regions at a point in time.

We do, however, produce figures on Regional output per hour worked and Regional output per filled job for 1996–2001. These figures can be accessed from the ONS website at: http://www.statistics.gov.uk/statbase/tsdataset.asp?vlnk=4858&More=Y and http://www.statistics.gov.uk/statbase/tsdataset.asp?vlnk=4860&More=Y

Waste Electrical and Electronic Equipment Directive

Mr. Pickthall: To ask the Secretary of State for Trade and Industry for what reasons her Department does not include printer cartridges in the implementation of the Waste Electrical and Electronic Equipment Directive. [148737]

Mr. Timms: The Government have always considered printer cartridges as consumables and this interpretation has been confirmed by the Department's lawyers. The WEEE Directive only applies to whole products placed on the market and not to individual components, sub-assemblies or consumables.

WORK AND PENSIONS

Pensions

Mr. Nigel Jones: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the cost of abolishing the rule on freezing state pensions for those citizens entitled to state pensions who reside in countries for which the United Kingdom has an aid programme; and if he will make a statement; [148536]

(2) how many individuals in each country for which Her Majesty's Government has an aid programme who are entitled to a United Kingdom state pension have them frozen; and if he will make a statement on his policy on frozen pensions. [148537]

Malcolm Wicks: Information on the number of individuals in each country for which this Government has an aid programme who receive a frozen UK State Pension is not available.

However, there were 60,000 recipients of a frozen UK State Pension in the twenty countries receiving the largest amount of UK bilateral aid in 2002–03. The cost of now paying those frozen pensions, using the April 2004 rates, would be around £40 million, with ongoing costs of £40million per annum and rising in future years.

The UK State Pension is uprated in countries with which the UK has a reciprocal social security agreement or where there is a legal requirement to do so. The Government are focusing their resources on helping poorer pensioners in the UK and have no plans to unfreeze UK State Pensions paid overseas.

Notes:

(1) Caseloads have been produced using the DWP Pensions administrative dataset for March 2003.

(2) The nominal costs are calculated using 2004 pension rates, and deflated to 2003–04 price terms.

Helen Jones: To ask the Secretary of State for Work and Pensions what the average increase in income has been for pensioners in Warrington, North since the introduction of the minimum income guarantee. [148249]

Malcolm Wicks: The information requested is not available.

The average income support award to pensioners in Warrington, North was £37.36 in August 1998, when 2,200 pensioner households were receiving income support. Under Minimum Income Guarantee (MIG), which was introduced in April 1999, there were 2,800 pensioner households in Warrington, North receiving an average of £44.29 a week in MIG in August 2003.

In December 2003 there were 3,426 pensioner households receiving an average of £41.19 a week Pension Credit in Warrington, North.

Following the introduction of Pension Credit in October 2003, some elements of the support previously provided through MIG are now provided through local authority funding for people in care homes, and through tax credits for children. In addition, average Pension Credit awards are expected to be lower than MIG because a savings credit of up to £14.79 (single) or £19.20 (couples) is available for people with modest incomes above the guarantee level who previously received nothing from MIG.

As at 31 December, the average level of weekly gain shared by the 1.44 million households now receiving more money as a result of Pension Credit introduction is £10.80.

Notes:

1. MIG caseload figures have been rounded to the nearest hundred and are expressed in thousands, weekly amounts to the nearest penny.

2. MIG figures are based on a 5 per cent. sample, and are therefore subject to a degree of sampling variation.

Carbon Monoxide Poisoning

Jon Trickett: To ask the Secretary of State for Work and Pensions how many properties were inspected by the Health and Safety Executive in connection with suspected carbon monoxide poisoning in the last 12 months; what steps his Department has taken to promote awareness of the problem; and if he will make a statement. [147458]

Mr. Browne: For the period 1 April 2002 to 31 March 2003, the latest period for which we have a full year's figure, the Health and Safety Executive (HSE) investigated 86 carbon monoxide (CO) incidents. This figure is provisional.

Measures being taken to promote awareness of carbon monoxide poisoning include the annual winter gas safety awareness campaign overseen by HSE, which this year is targeting students and other first-time renters, elderly people and parents of young children.

HSE's gas safety website contains information on the causes and symptoms of CO, and what to do if poisoning is suspected. This website is currently being upgraded to provide links to other relevant organizations, and access to videos giving detailed information on carbon monoxide poisoning and personal statements from sufferers.

HSE produces free leaflets on gas safety both for general consumers and landlords, including information on carbon monoxide, in twelve community languages as well as English. These are also available on the HSE website.

HSE also operates a Gas Safety Advice line providing free advice to callers. Additionally, where possible, HSE officials actively participate in awareness-raising events run by other organizations such as local community groups when called upon to do so.

During 2003, HSE's gas publicity Working Group examined the feasibility of a carbon monoxide awareness campaign to be voluntarily funded by the gas industry. In September HSE hosted a meeting seeking support for this initiative from the six main gas supply companies. The industry players have committed to produce an agreed strategy plan, which should be implemented this year. The level of funding, although not yet finalized, will be in the region of £3 million a year for a period of seven years to be evaluated after three years.

Electronic Data Systems

Mr. Webb: To ask the Secretary of State for Work and Pensions on how many occasions the Department has made compensation payments to Electronic Data Systems as a result of contractual changes to the Child Support Agency Reforms information technology project; and what the value was of each of those payments. [149517]

Mr. Pond: The Department has not made any compensation payments to EDS. As announced by my right hon. Friend the Secretary of State on 27 January 2003, *Official Report*, columns 564–68, the Department has previously agreed an increase of around 7 per cent. in the value of the original contract, over its term. This increase reflected that the IT system had proved to be more complex than had been thought at the outset, something not uncommon in large scale IT systems.

Departmental Policies (Regent's Park and Kensington, North)

Ms Buck: To ask the Secretary of State for Work and Pensions if he will make a statement on the impact of his Department's policies in Regent's Park and Kensington, North constituency since 1997. [145416]

Mr. Browne: The Department for Work and Pensions was formed in June 2001; since then, we have undertaken a fundamental overhaul of the welfare system, transforming it from a passive organisation paying out benefits to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

We are making a significant contribution to the Government's objective of eradicating child poverty in 20 years and halving it within 10, and there are now half a million fewer children in relative low income than there were in 1997. Child Benefit is now worth £16.05 a week for the eldest child, compared to only £11.40 in 1997, benefiting 13,385 families in Regent's Park and Kensington, North.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.15 million; in Regent's Park and Kensington, North, the proportion in employment has risen to 62.3 per cent. Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of the unemployed to move from benefit into work. Nationally over 950,000 people have been helped into work by the New Deals, and over 2,200 have been helped into work in Regent's Park and Kensington, North.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country, and our first priority has been to help the poorest pensioners. The Government will be spending an extra £9.2bn in 2004/5 (in 2003–04 prices) on pensioners as a result of measures introduced since 1997, including around 4.3 billion on the poorest third of pensioners. Our reforms include the State Second Pension, which helps more of tomorrow's pensioners build up better pensions.

Pension Credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for modest savings and income. Around 5,900 pensioner households in Regent's Park and Kensington, North are already benefiting from Pension Credit, with an average award of £70.33 per week.

Our reforms include the State Second Pension, which helps more of tomorrow's pensioners build up better pensions. Pension Credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for modest savings and income. Around 5,900 pensioner households in Regent's Park and Kensington, North are already benefiting from Pension Credit, with an average award of £70.33 per week.

We know that older people are disproportionately affected by fuel poverty, and this winter (2003–04) we have made available a Winter Fuel Payment of £200 for each eligible household to help with their fuel bills. In addition, the introduction of the 80+ Annual Payment gives an extra £100 to households where there is someone aged 80 or over. We estimate that around 17,000 older people in Regent's Park and Kensington, North have received a payment this winter.

Some 14,000 pensioners in Regent's Park and Kensington, North benefited from the above inflation increase in the rate of basic state pension from April 2003. Those over 75, of whom we estimate there are about 6,300 in Regent's Park and Kensington, North may also qualify for free TV licences.

Industrial Injury Disablement Benefit

Mr. Gibb: To ask the Secretary of State for Work and Pensions why there is a separate form for declaring an industrial injury from that for claiming industrial injury disablement benefit. [147943]

Mr. Browne: Different information is required for a declaration of an industrial injury than for a claim for Industrial Injury Disablement Benefit (IIDB). For example, in the case of a claim for IIDB, information is required as to whether other benefits are in payment; in the case of a declaration, an injured employee may not wish to claim benefit, and therefore information is required only to establish whether an incident can be accepted as an industrial accident.

Jobcentre Plus

Mr. Djanogly: To ask the Secretary of State for Work and Pensions how many full-time workers were employed by Jobcentre Plus in Cambridgeshire in each of the last three years. [146441]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Jonathan Djanogly, dated 20 January 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning the number of full time staff working for Jobcentre Plus in Cambridgeshire over the last three years. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

I am only able to give you staffing figures from April 2002 as this was when Jobcentre Plus was launched.

As you will understand staffing during the year fluctuates for business reasons. Since April 2002 the number of full time staff has ranged from 374 to 433 with the total staffing levels ranging from 474 to 560 full time equivalents. Currently we have 433 full time staff working in Cambridgeshire, with 166 part-time staff. This equates to a total full time equivalent of 543 staff.

I hope this is helpful.

Jobseeker's Allowance

Lynne Jones: To ask the Secretary of State for Work and Pensions if he will make a statement on the arrangements for ensuring the quality and relevance of mandatory work-focused courses for jobseeker's allowance claimants. [145814]

Mr. Browne: Mandatory work-focused training for jobseeker's allowance claimants is purchased through regionally based Jobcentre Plus contracting teams, in consultation with district partners. Provision is delivered through private and not for profit providers and, during development, consideration is given to the recruitment needs of local employers and the training requirements of JSA claimants.

Providers are subject to thorough contractual and quality audits. Individual contract reviews are conducted by Jobcentre Plus field contracts managers and district programme quality management teams. Reviews assess the administration, delivery, quality and propriety of the provisions being delivered against the requirements set out in providers' contracts.

In addition, the Adult Learning Inspectorate in England and ESTYN in Wales, play a pivotal role in the quality assurance of provision, under the provisions of the Learning and Skills Act 2000. All inspection under the provisions of the Act is carried out in accordance with the Common Inspection Framework. The framework focuses on the learner, and on evaluating the effectiveness of education and training in meeting all learners' needs.

Minimum Income Guarantee

Mr. Hoyle: To ask the Secretary of State for Work and Pensions what the average change in income has been for pensioners in Chorley since the introduction of the minimum income guarantee. [148495]

Malcolm Wicks: The information requested is not available.

The average income support award to pensioners in Chorley was £52.45 in August 1998, when 2,500 pensioner households were receiving income support. Under Minimum Income Guarantee (MIG), which was introduced in April 1999, there were 2,700 pensioner households in Chorley receiving an average of £49.47 a week in MIG in August 2003.

In December 2003 there were 3,064 pensioner households receiving an average of £40.08 a week Pension Credit in Chorley.

Following the introduction of Pension Credit in October 2003, some elements of the support previously provided through MIG are now provided through local authority funding for people in care homes, and through tax credits for children. In addition, average Pension Credit awards are expected to be lower than MIG because a savings credit of up to £14.79 (single) or £19.20 (couples) is available for people with modest incomes above the guarantee level who previously received nothing from MIG.

As at 31 December, the average level of weekly gain shared by the 1.44 million households now receiving more money as a result of Pension Credit introduction is £10.80.

Notes:

1. MIG caseload figures have been rounded to the nearest hundred and are expressed in thousands, weekly amounts to the nearest penny.
2. MIG figures are based on a 5 per cent. sample, and are therefore subject to a degree of sampling variation.

Pension Credit

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many pensioners in Chorley have *(a)* applied for and *(b)* received pension credit; and what the average consequent change in income per pensioner is. [148496]

Malcolm Wicks: At 31 December 2003 there were 3,064 pensioner households (3,659 individuals) in the Chorley constituency receiving Pension Credit. Information on the number of Pension Credit applications in individual constituencies is not available. The average weekly rate of Pension Credit awards in Chorley is £40.08. Information on the average amount gained by pensioners in individual constituencies, since

the introduction of Pension Credit, will become available following publication of the November 2003 Quarterly Statistical Enquiry on 17 March 2004.

Helen Jones: To ask the Secretary of State for Work and Pensions what the total amount spent on pension credit in Warrington, North constituency has been since its introduction. [148251]

Malcolm Wicks: The latest departmental information suggests that between 1 October 2003 and 30 November 2003 an estimated £1.2 million was spent on pension credit in Warrington, North.

Notes:

1. Pension credit was introduced on 6 October 2003, therefore this figure includes five days of expenditure on the minimum income guarantee (the benefit pension credit replaces).
2. This figure is based on total expenditure on pension credit in Great Britain (GB) from the departmental Programme Accounting Computer System (PACS) data. The constituency level expenditure is estimated using 100 per cent. Generalised Matching Service (GMS) data.
3. This estimate has been rounded to the nearest £100,000.

Direct Payment

Mr. Webb: To ask the Secretary of State for Work and Pensions on what date pensions were credited to the Post Office card accounts of pensioners who would normally have collected their pensions on 29 December 2003; and if he will make a statement. [149516]

Mr. Pond: The Department arranged that where customers were due payments on 29 December 2003, the customers would have pensions credited to Post Office card accounts on 24 December 2003.

Pensions Bill

Mr. Flook: To ask the Secretary of State for Work and Pensions when he expects to publish the Pensions Bill announced in the Queen's Speech. [149303]

Malcolm Wicks: The Pensions Bill announced in the Queen's Speech will be published as soon as parliamentary time allows.

Regulations (Consultation)

Brian Cotter: To ask the Secretary of State for Work and Pensions what proportion of regulations introduced by the Department have been subject to a consultation period of less than 12 weeks since the introduction of the Code of Practice on Consultations. [142485]

Mr. Browne: The Cabinet Office Code of Practice on Written Consultation came into effect on 1 January 2001. The Department for Work and Pensions came into being in June 2001. In the period 1 June 2001 to 31 December 2002, DWP has published 22 consultations under the code, of which three were less than 12 weeks. 11 consultations have led to regulation. Four others have informed the Green Paper "Simplicity, security and choice—working and saving for retirement" from which further regulatory activity is under consideration.

The Health and Safety Executive has been sponsored by DWP since 24 July 2002. Up until 31 December 2003 there have been 13 consultations of which four are still open; all but one meeting the 12-week timescale. The one consultation that did not meet the 12-week minimum did not pertain to regulations. Information on which consultations lead to regulation is not held in a separate register but is kept on the consultations page on the HSE website.

Winter Fuel Payments

David Davis: To ask the Secretary of State for Work and Pensions in what forums he is advertising the availability of winter fuel payments. [147770]

Malcolm Wicks: In order to promote the availability of winter fuel payments a series of advertisements were placed in national and regional press and consumer magazines, a variety of promotional products were also made available to support the campaign. The following items were produced:

"Your Guide to Winter Fuel Payments 2003"—An A5 leaflet available in English, Welsh, Braille, Audiocassette and Large Print. This leaflet was translated into Punjabi, Chinese, Gujarati, Vietnamese, Somali, Arabic, Bengali and Urdu, electronic versions were made available via the Pension Service and DWP websites;

A3 and A4 promotional posters displaying the 'Winter Fuel Payments are on their way' and 'Don't miss out' messages; and leaflet dispenser.

Products were made widely available to Department for Work and Pensions (DWP) staff, the media, advisers and the general public. Mailings were sent to over 30,000 relevant advisory organisations such as welfare rights groups and libraries; Citizens Advice; Age Concern; National Pensioners Convention; and the Local Government Association.

Leaflets and posters were displayed in: post office branches; doctors surgeries; Gala Bingo branches; Co-op/Alldays stores; Lloyds Pharmacy; the Pension Service (pension credit) truck; and Paypoint and Payzone outlets.

Copies of the leaflet were distributed direct to customer groups by: Women's Royal Voluntary Service (WRVS), meals on wheels scheme; St. Vincent de Paul Society; Powergen Warm Front and Stay Warm advisers.

Promotional material was sent to the National Energy Action team to support Warm Homes week, which took place in November 2003.

Leaflets and posters were sent as part of a DWP mailing targeted at care and residential homes throughout the UK in October 2003.

Promotional products were made available at a consumer event organised by *Yours* magazine.

Leaflets were available to order via the Department of Health's Winter Warmth Advice Line.

The Pension Service website (www.thepensionservice.gov.uk) was heavily utilised throughout the 2003–04 winter fuel payments campaign. Customers were signposted to the dedicated winter fuel payments section of the website through all promotional literature. Winter fuel leaflets were available for customers to download from the Pension Service resource centre.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

Mr. Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 17 to 18 December; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [145518]

Margaret Beckett: My hon. Friend the Under-Secretary and I represented the United Kingdom at a meeting of the Agriculture and Fisheries Council in Brussels on 17 December. The Scottish and Northern Irish Ministers responsible for Agriculture and Fisheries were also present.

The Council agreed by qualified majority a Regulation providing for the total allowable catches for fish stocks for 2004. Important increases in quota for haddock and nephrops were agreed subject to special licensing and control conditions (those for nephrops to be developed by the end of next February). Annex V of the Regulation provides for limits on fishing time in 2004 for vessels which can catch cod, which operate in the North Sea and west of Scotland waters (as for 2003) and for the first time for vessels in the Irish Sea and the eastern English Channel. Annex VI introduces an effort management scheme for the North Sea sandeel fishery, for which the Regulation also sets significantly reduced quotas.

The Council also agreed by qualified majority a long term recovery plan for cod stocks, setting a mechanism for deciding on multiannual catch limits, and providing for annual limits on fishing effort as in Annex V to the TAG Regulation. It explicitly enables the Council to adjust the mechanism for fishing effort during 2004 should it so wish. Finally the Council agreed the guide prices for fish species for 2004.

The Council adopted by qualified majority the Presidency's compromise text for a regulation reinforcing the current requirements regarding identification of sheep and goats. I welcomed this proposal which met the main concerns we had registered during negotiation. The arrangements take account of the unique structure of our sheep sector; and, subject to approval by the Commission, our current national sheep and goat identification system of movement tags, backed up by the animal movement licensing system, will remain until 2008; followed thereafter by the introduction of electronic ID, which we support.

The Council noted progress made in discussion of the proposal to update rules governing the welfare of animals during transport. The proposal was remitted for further official discussion, in particular as regards the establishment of maximum journey times.

The Council took note without discussion of progress on a draft regulation harmonising official controls on food and feed. A number of issues, notably the scope of regulation and the charges to be made in connection with its enforcement, remain to be settled.

The Council also took note of progress in discussion of a draft regulation setting maximum residue levels for pesticides.

There was no discussion. The Council discussed the package of proposals to reform the CAP regimes for tobacco, olive oil, cotton and hops. We reiterated our support for the Commission in extending the principles of CAP reform to these sectors but argued for greater decoupling of subsidies to the olive oil and—particularly—cotton sectors. We expressed support for full decoupling in the tobacco sector, as the Commission has proposed, and called for the shortest possible transition period. Detailed negotiation of these proposals will resume under the Irish presidency.

Under Other Business, the Italian Presidency tabled a written report outlining progress on specific hygiene rules in the animal feed sector. The Presidency also reported on progress in negotiation of a veterinary equivalence agreement with Russia. Austria pressed for early action to deal with low prices in the pigmeat sector; we and several other Member States cautioned against reliance on export refunds in this sector. We raised the problems caused for Pakistan by recent changes in the concessionary import terms applicable to Basmati rice. The Commission took note and reported that it was consulting with Pakistan and India over the latest information available on prices and varieties.

Angling

Mr. Peter Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* British Waterways, *(b)* the British Disabled Angling Association and *(c)* the National Angling Association about the provision of greater access for disabled anglers under the Disability Discrimination Act 1995 by 1 October. [148423]

Mr. Bradshaw: The Government recognise the social and recreational importance of angling and are committed to improving access for the disabled. In response to the Salmon and Freshwater Fisheries Review Group report, the Government committed the Environment Agency to promoting angling.

The Environment Agency works with a number of national and local bodies to provide angling opportunities for all. The Agency is working closely with the British Disabled Angling Association (BDAA) to integrate disability access into its work programme.

The Agency has also encouraged the Joint Angling Governing Bodies (those organisations of the National Angling Association responsible for angling development and coaching) to work closely with the BDAA. To facilitate this co-operative work a Disability Working Group has been set up and is attended by all the main bodies involved in disabled angling and angling governance.

The Agency also works with British Waterways on a number local initiatives. British Waterways aim to incorporate facilities for disabled anglers on its existing network and is committed to ensuring that all of its new angling facilities at reservoirs and other sources of closed waters are accessible for people with disabilities.

Animal Slaughter

Mr. Chope: To ask the Secretary of State for Environment, Food and Rural Affairs when she will announce the Government's policy in respect of the ritual and religious slaughter of animals. [149024]

Mr. Bradshaw *[holding answer 19 January 2004]:* The religious slaughter of animals without prior stunning is permitted under both EU and domestic legislation.

We are still considering our response to the recommendations in the Farm Animal Welfare Council's report on the welfare of red meat animals at slaughter, including the recommendation that slaughter without prior stunning should be banned in this country. We expect to issue our draft response document for public consultation within the next few weeks, but I am unable to provide an exact date at this stage. The public consultation exercise will be widely publicised. We anticipate issuing the Government's final response to the recommendations towards the middle of the year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there are humane methods licensed for the stunning and slaughter of animals and poultry which rely on gases to render animals unconscious prior to their slaughter. [148652]

Mr. Bradshaw: The Welfare of Animals (Slaughter or Killing) Regulations 1995 (as amended) lay down the permitted stunning and killing methods for both red meat animals and poultry. The permitted methods have been assessed for humaneness. The use of gas mixtures is a permitted method for rendering pigs, domestic fowls and turkeys unconscious. The use of gas mixtures is actually a stun-kill method, in that the animal or bird has to remain in the gas until it is dead.

Badgers

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs who owns the traps and other equipment used for badger trapping exercises carried out on behalf of the Department. [148653]

Mr. Bradshaw: The traps and other equipment used in the Randomised Badger Culling Trial are owned by Defra.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the administrative boundaries of the Krebs proactive areas necessarily coincide with the areas inhabited by badgers. [148658]

Mr. Bradshaw: The boundaries of treatment areas in which badger culling would take place were only prescribed once putative badger social group territories had been delineated. Any sett outside a trial area boundary which was associated with a social group of badgers whose territory fell within the trial area would be subject to the same treatment as the sett within the trial area (proactive or reactive culling) once allocated.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what tests have been carried out by the Department to determine whether healthy badgers have acquired or are likely to acquire infection after colonising setts left vacant as a result of clearance of TB infected badgers. [148661]

Mr. Bradshaw: It is likely that the lack of light and relatively constant temperature and humidity inside a badger sett would favour the survival of Mycobacterium bovis (the causative organism of bovine tuberculosis). However, as there is currently no effective live test for TB in badgers, it would not be possible to tell if an incoming badger was healthy when colonising a vacant sett.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what controls are imposed on the relocation of badgers which are treated by animal hospitals and sanctuaries; [148662]

(2) what controls are imposed on the relocation of badgers removed from setts. [148664]

Mr. Bradshaw: Badgers are a protected species and it is an offence to take (or attempt to take) a badger from the wild, including for the purpose of relocation elsewhere (Protection of Badgers Act 1992, s.1(1)). A person guilty of this offence is liable on summary conviction to imprisonment for up to six months and/or a fine of up to £5,000.

There are certain exceptions to this offence, two of which are specifically relevant to the issue of relocating badgers. These are the treatment of injured or sick badgers, and relocations carried out under the authority of a licence.

Under section 6, a person is not guilty of an offence by reason only of:

> "(a) taking or attempting to take a badger which has been disabled otherwise than by this act and is taken or to be taken solely for the purpose of tending it;"

Like other native species, there are no specific restrictions under current law regulating where badgers are released once they have recovered from treatment. Once recovered, the badger will normally be returned to the location where it was originally found. This approach is recommended by Defra on welfare grounds due to their territorial nature, and also to avoid any risk of transmitting disease. However, there it is recognised that there are situations in which this course of action may not be feasible (particularly in the case of orphaned cubs).

A voluntary code of practice (prepared by the RSPCA, National Federation of Badgers Groups and Secret World Wildlife Rescue) provides comprehensive guidance on rehabilitating and releasing badgers. This adopts a precautionary approach aimed at protecting the welfare of badgers and critically, minimising the risk of transmitting bovine tuberculosis (TB). The code is publicly available via the internet at: http://www.badger.org.uk/action/badger-rehabilitation-protocol-contents.html

Under the code of practice, an adult badger is to be released at the exact location from which it was recovered. If this is not possible the code advises that the animal is euthanased. Badger cubs may be released at a different location. Animals to be relocated are tested for TB three times. Only badgers testing negative to all three tests are released and any animal testing positive is

euthanased. The code also requires that released badgers are permanently marked (by a tattoo or microchip) and registered.

Under section 10 of the Act, licences may be issued to permit badgers to be taken from the wild (and relocated if necessary) for a limited range of specified purposes. These include scientific investigation, preventing the spread of disease, and preventing serious damage to property. Depending on the purpose of the operation, licences are issued by either the appropriate statutory conservation agency or agricultural department (English Nature and Defra, respectively, in England).

Licences to relocate badgers are only issued if such action is clearly justified and where there is considered to be a very low risk of transmitting bovine tuberculosis (TB).

Before any badgers are released at a new location all animals must be tested three times for TB. All badgers testing positive to any of the three tests, or in contact with a badger testing positive, are euthanased.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs which persons and organisations are permitted to slaughter badgers; what conditions are imposed on them; and under what circumstances badgers are allowed to be slaughtered. [148663]

Mr. Bradshaw: No persons or organisations are permitted to slaughter badgers.

Badgers are a protected species and it is an offence to kill (or attempt to kill) a badger (Protection of Badgers Act 1992 s.1(1)). A person guilty of this offence is liable on summary conviction to imprisonment for up to six months and/or a fine of up to £5,000 (this applies to each badger killed).

There are certain specified exceptions to this offence under which badgers may be lawfully killed. These are summarised as follows.

Section 6—General exceptions

A person is not guilty of an offence:

where a seriously injured badger is killed or attempted to be killed as an act of mercy;

where a badger is unavoidably killed or injured as an incidental result of a lawful action; and

doing anything which is authorised under the Animals (Scientific Procedures) Act 1986 eg experimental procedures approved under licence to advance biological or behavioural knowledge etc.

Section 7—"Farmer's defence"

A person is not guilty of an offence by reason of killing a badger if the action was necessary for the purpose of preventing serious damage to land, crops, poultry or other form of property.

This defence cannot be relied upon if it was apparent before that time that action would prove necessary and a licence had not been applied for as soon as reasonably practicable, or where an application for such a licence had been determined.

Section 10—Licences

Licences may be granted to permit badgers to be killed for the following purposes:

scientific or educational purposes or the conservation of badgers;

preventing the spread of disease;

preventing serious damage to land, crops, poultry or any other form of property.

All licences are judged on their own merits and would be subject to compliance with conditions specified in the licence.

The exceptions, and any conditions that apply, are stated in full in the Act, which is available from Her Majesty's Stationary Office or online at: www.legislation.hmso.gov.uk/acts/acts1992/Ukpga_19920051_en_1.htm.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances badgers may be removed from setts; and what regulations govern such removals. [149221]

Mr. Bradshaw: Badgers are a protected species and it is an offence to remove (or attempt to remove) a badger from its sett, either forcibly (including the use of dogs) or by installing exclusion measures (such as one-way gates), or by obstructing access of a badger to its sett (Protection of Badgers Act 1992). A person guilty of any of these offences is liable on summary conviction to imprisonment for up to six months and/or a fine of up to £5000.

The legislation includes provisions for the granting of licences, which, where justified, could be used to permit the removal (by exclusion) of badgers from a sett. The purposes for which licences may be issued are summarised as follows:

Science, education or conservation of badgers

Zoological collections

Ringing or marking

Development

Archaeological preservation or investigation

Investigating offences

Preventing the spread of disease

Preventing serious damage to land, crops, poultry or any other form of property

Agricultural or forestry operations

Drainage or sea defence

These purposes are described in full in the Act, which is available from Her Majesty's Stationary Office or online at: www.legislation.hmso.gov.uk/acts/acts1992/Ukpga_19920051_en_1.htm.

All licences are judged on their own merits and would be subject to compliance with conditions specified in the licence.

Controls relating to the removal of badgers from setts where the intention is to relocate the animals elsewhere—rather than simply denying access to a particular sett—are described in the joint response to parliamentary questions 0673 2003–04 and 0675 2003–04.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the proportion of TB in cattle that arises from cattle-to-cattle spread. [148654]

Mr. Bradshaw: No such estimate has been made. In many cases, it is not possible to ascribe the source of TB infection in cattle, as the routes of transmission of *Mycobacterium bovis* (the causative agent for bovine tuberculosis) from cattle to cattle, and between environmental sources (including wildlife) and cattle, are not fully understood.

Part of the TB research programme includes investigation of the pathogenesis of *M. bovis* in cattle. In addition, a survey is underway to assess potential risk factors that may predispose herds to TB outbreaks. A preliminary analysis is set out in the Third Report of the Independent Scientific Group on Cattle TB.

CFCs

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions there have been of companies that illegally supply CFCs within the UK over the last five years. [148007]

Mr. Morley *[holding answer 19 January 2004]:* Under EC Regulation 2037/2000 on ozone depleting substances and the production and supply of CFCs, except for a very small amount for laboratory and analytical uses and essential uses, was banned in the UK and other member states from January 1995. This reduced and subsequently phased out any existing stocks of CFCs in the UK. The supply of CFCs for these uses is controlled by a licencing system, in which suppliers are given an import or export declaration. The amounts of CFCs requested by companies are also agreed in advance by member states. All import declarations are processed by Customs and Excise to ensure appropriate licences have been obtained, and no illegal imports have been detected in recent years.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department is working with *(a)* other Departments, *(b)* the EU and *(c)* governments of developing countries to help them tackle their illegal CFC trade. [148008]

Mr. Morley *[holding answer 19 January 2004]:* Within the EU, licences issued by the Commission and quotas that are agreed in advance by member states control trade in CFCs. UK Customs and Excise have a monitoring system known as CHIEF system that processes import declarations. Profiles are set against commodity codes on products that could contain a potential ozone depleting substance. Customs officers then seek clarification from my officials at Defra, when there is a potential problem with an import.

The Montreal Protocol established the Multilateral Fund to assist developing countries in their phase-out of ozone depleting substances. The UK has so far contributed over $105 million to the fund. The fund supports projects prepared by developing countries and Implementing Agencies (UNEP, UNIDO, UNDP and the World bank) aimed at phasing out ozone depleting substances. Their projects include institutional strengthening and capacity building, and also the compliance assistance programme run by UNEP. An example of activities supported by the fund are compliance with the Montreal Protocol, customs training, illegal trade information exchange and awareness raising workshops being organised by UNEP in regions such as South Asia and South East Asia. The UK has been an active member of the South Asia Network.

Fisheries

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what the yearly cod quota was, broken down by area, over the last five years; and what amounts of cod were caught in those areas in those years. [147087]

Mr. Bradshaw: The UK's cod quotas for EC waters and corresponding landings made by UK vessels for each of the last five years are given in the table.

Cod stocks in EC waters where UK has quota (tonnes live weight of fish)

		1999	*2000*	*2001*	*2002*	*2003*[1]
North Sea	UK quota	55,660	34,149	20,265	20,377	10,696
[IIa(EC), IV]	Landings	33,436	27,701	19,448	18,612	9,905
West of Scotland [	UK quota	5,960	3,530	2,322	2,770	1,084
Vb(EC),VIXII, XIV]	Landings	3,487	2,654	1,845	1,788	966
Irish Sea	UK quota	2,320	950	925	1,378	612
[Vila]	Landings	1,742	835	902	1,160	514
VIIb-k, VIM, IX,	UK quota	1,870	1,740	1,287	802	554
X, CECAF 34.1.1 (EC)	Landings	1,412	1,132	1,115	740	476

[1] Landings data for 2003 are provisional at the current time

Fishing Research

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department spent on fishing research in each of the last five financial years. [149140]

Mr. Bradshaw: The Department has spent the following amounts on marine fisheries research in each of the last five financial years.

	£ million
2002–03	3.37
2001–02	3.35
2000–01	3.57
1999–2000	3.07
1998–99	4.10

Flooding

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs how many houses in England she estimates are uninsurable owing to flood risk. [147736]

Mr. Morley: According to the Association of British Insurers (ABI), it is the intention of the insurance industry, working in partnership with the Government, that flood insurance should continue to be available to the vast majority of existing properties. As set out in the ABI's Statement of Principles[1], of the 1.9 million properties on the floodplain, flood insurance will continue to be available for all those properties defended to a minimum standard of 1 in 75, or for those properties where such defences are planned by 2007.

For other properties (currently estimated at 200,000), insurers cannot guarantee to maintain cover, but will examine the risks on a case-by-case basis, and will use their best efforts to continue to provide cover. ABI believes that nearly all homes are insurable to a degree, provided appropriate local action is taken to protect the property, e.g., use of flood resilient design, accredited protection products, and temporary defences. However, the insurance industry has signalled that inappropriate new developments in the floodplain are unlikely to be able to secure insurance cover.

[1] www.abi.org.uk/Display/File/78/Statement_of_Principles.doc

Greyhounds (Welfare)

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to improve the welfare of racing greyhounds; and if she will make a statement. [149418]

Mr. Bradshaw: We are considering a range of possible measures under the proposed Animal Welfare Bill to improve greyhound welfare with the racing industry and welfare organisations.

Indigenous Flora

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to encourage the planting of local, indigenous flora. [145099]

Mr. Bradshaw: The United Nations Convention on Biological Diversity (CBD), one of the main outcomes of the 1992 Rio Earth Summit, aims to ensure the conservation of biodiversity, its sustainable use, and the fair and equitable sharing of the benefits arising from the use of genetic resources. As part of the Government's commitment to the CBD the UK Biodiversity Action Plan (UK BAP) was published in 1994. The UK BAP sets targets for the conservation and enhancement of biodiversity in the UK and individual action plans have now been published for 391 species and 45 habitats of conservation importance, including for 75 flowering plants.

With regard to payment of grants under the Defra agri-environment schemes, we encourage the use of native and local provenance seed as far as possible. Detailed guidance is provided in the Countryside Stewardship Scheme Handbook. For instance, when re-creating grassland on cultivated land the species of grass used should be from a specified list of species and of native and local provenance. If applicants have problems in obtaining native seed or stock they are advised to discuss other options with their stewardship advisor. In some circumstances alternative seed mixes may be agreed and wild flower seed may be added.

There is also a specific stewardship payment which helps meet the cost of buying in seed. However, to qualify for this payment the seed must be native seed of local provenance. Similarly with tree and hedge planting and management, Countryside Stewardship agreement holders are required to use stock of native and local provenance where possible. Where this is not possible alternative options are to be discussed with the Stewardship Adviser. As regards EU legislation on accredited sources of seed for trees and the production of locally sourced plants, on 1 January 2003 the Forestry Commission brought in the Forest Reproductive Material (Great Britain) Regulations 2002, implementing EU Directive 1999/105 on the marketing of forest reproductive material. These regulations increase the number of species controlled by law to 46 species and the genus "Populus". This includes 15 tree species which are native to Great Britain. The regulations are deliberately structured in a way to encourage the collection of local seed. Sellers of planting stock are required to issue a supplier's document to the buyer, setting out whether or not the stock is locally sourced.

In addition, for native species not controlled by law, the Forestry Commission promotes the harvesting of local seed from native trees and shrubs through the Voluntary Scheme for the Certification of Native Trees and Shrubs. Further details of this scheme can be found on the Forestry Commission's website at: http://forestry.gov.uk/frm

In July this year we published the Framework for Sustainable Development on the Government Estate which set new targets to measure progress made to protect and improve biodiversity on the Government Estate. They include a target to assess and improve the condition of Government owned Sites of Special Scientific Interest (SSSIs); a requirement for all Government Departments who own sites of significant biodiversity interest to produce Biodiversity Action Plans; and a requirement to set a biodiversity target in contracts for new and refurbished Government buildings. The guidance which accompanies the targets encourages Departments, when renewing maintenance contracts, to consider building in clauses on the purchase/planting of native species of plants.

In 2001, recognising concerns that present arrangements for handling issues relating to non-native species were insufficient, Defra commissioned a Review of Non-native species policy. A range of organisations was represented on the working group, and its report was published in March 2003. The issues which it raises are complex, and a combination of measures will be required to address these. The report highlighted problems with non-native genotypes and recommended that there was a need to raise public awareness of this issue.

The Government have published their initial response to the report and are carrying out a consultation exercise with the aim of developing a framework for dealing with

invasive non-native species. Details of the consultation can be found at http://www.defra.gov.uk/corporate/consult/nnspecies-policy/index.htm

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of trees planted by local authorities she requires to be native; and what steps is she taking to ensure that this requirement is met. [145100]

Phil Hope: I have been asked to reply.

The Government place no such requirement on local authorities. We encourage the planting of the appropriate trees in appropriate places and authorities are advised to choose species which are suitable for their intended purpose, whether for screening, shade, ornamentation, landscape character or wildlife habitat. The soil and conditions prevailing on the site are also important considerations in species selection.

Joint Environmental Markets Unit

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to change the responsibilities of the Joint Environmental Markets Unit. [144574]

Mr. Morley: DTI and Defra's Joint Environmental Markets Unit (JEMU), part of DTI's Business Group, aims to increase the UK's share of domestic and global markets for environmental goods and services. In response to the Environmental Goods and Services Innovation and Growth Team report of 2002, the Government are expanding JEMU to promote innovation in the environmental goods and services industry.

The Government have decided to transfer responsibility for JEMU's international trade promotion work to UK Trade and Investment (UKTI) to form a dedicated Environment Sector unit in UKTI. This will bring arrangements for promoting the UK environmental goods and services industry overseas, in line with those for most other industry sectors, and build on the current close working between JEMU and UKTI. The Business Group and UKT&I units will continue to work closely together and there will continue to be close involvement of Defra and DTI in the work of both units.

Kyoto Targets

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has collated about compliance with the Kyoto agreement targets by EU member states; and what instruments are available to the Commission to ensure that these targets are met. [147741]

Mr. Morley: The European Union and its member states agreed to a target under the Kyoto Protocol to reduce greenhouse gas emissions by 8 per cent. below base year levels by 2008–12. The EU and its member states have agreed to meet their commitments jointly and, under a burden-sharing arrangement, the EU target has been redistributed between member states to reflect their national circumstances, requirements for economic growth, and the scope for further emission reductions.

Under the provisions of the Monitoring Mechanism Decision (Council Decision 93/389/EEC as amended by Decision 99/296/EC), member states are required to report annually to the Commission on their anthropogenic emissions of the six greenhouse gases covered by the Kyoto Protocol and on their national projections for emissions of these gases.

The European Commission uses this information to assess annually, whether the actual and projected progress of member states is sufficient to ensure fulfilment of the EU's and member states' commitments under the United Nations Framework Convention on Climate Change (UNFCCC) and the Kyoto Protocol. The latest progress report, published in December last year, provides data for members states' emissions in 2001, and their projected emissions for 2010. That report notes that the EU had cut its total emissions to 2.3 per cent. below base year levels and that aggregate member states' "with existing measures" projections suggest that in 2010 EU emissions will have decreased by 0.5 per cent. leaving a gap of 7.5 per cent. from the Kyoto target. Eleven member states have identified additional policies and measures to achieve their commitments under the burden-sharing agreement. Taking into account these "with additional measures" projections shows that six member states—Finland, France, Greece, Ireland, Sweden and the UK—would over-achieve their individual commitments. The over-achievement by those member states would result in emissions reductions for the EU as a whole of 7.2 per cent. below base year emissions.

The performance of the individual member states in 2001 and where they project their emissions will be in 2010 are set out in the following table.

Member states Kyoto Protocol (burden-sharing) targets compared with emissions projections to 2010

	Percentage of base year emissions		*In percentage of base year emissions*	
	Emissions target for 2008–12 under EU burden-sharing agreement	*Change of emissions in 2001 compared with base year*	*Gap between burden-sharing target and projected emissions in 2010 based on existing policies and measures*	*Gap between burden-sharing target and projected emissions in 2010 based on both existing and additional policies and measures*
Austria	-13.0	9.6	24.5	5.7
Belgium	-7.5	6.3	22.9	13.4
Denmark	-21.0	-0.2	37.8	35.1
Finland	0.0	4.7	16.5	-0.5
France	0.0	0.4	9.5	-1.2
Germany	-21.0	-18.3	1.3	[1]
Greece	25.0	23.5	10.7	-0.8
Ireland	13.0	31.1	26.8	-0.3
Italy	-6.5	7.1	10.2	3.1
Luxembourg	-28.0	-44.2	5.6	[1]
Netherlands	-6.0	4.1	12.1	10.7
Portugal	27.0	36.4	14.0	[1]
Spain	15.0	32.1	33.3	13.0
Sweden	4.0	-3.3	-3.3	[1]
UK	-12.5	-12.0	-1.4	-10.0
EU total	-8.0	-2.3	7.5	0.8

[1] No data provided

The "with existing measures" projections only consider the policies and measures currently implemented, while the "with additional measures" projections also take those policies and measures into account which are under discussion and have a realistic

chance of implementation. Neither set of projections, however, take into account the effects from several policies and measures being developed under the European Climate Change Programme (ECCP), particularly the EU Emissions Trading Scheme, which is due to be start in 2005 and has the potential to deliver substantial additional emission cuts.

The Government consider that placing the responsibility on member states to take the necessary action so that they meet their burden sharing targets is the best way of ensuring that the EU meets its target under the Kyoto Protocol. They will therefore support the European Commission's efforts to ensure that member states implement the policies and measures set out in the European Climate Change Programme fully and effectively.

Under the new Monitoring Mechanism Decision, which will replace Decision 93/389/EEC, member states must, following the completion of the review of their national inventories, retire allowances (assigned amount units, removal units, emission reduction units and certified emission reductions) equivalent to their net emissions during that year for each year of the Kyoto Protocol's five year commitment period. This requirement to retire allowances annually means that member states are obliged systematically to take steps to comply with their targets over a number of years. It will give early notice of any difficulties arising where member states are not likely to have sufficient allowances to cover their emissions over the full commitment period and so will need to take further action to reduce their emissions or to acquire allowances from other Parties to the Protocol that have a surplus.

Where member states fail to comply with obligations arising under EC law with respect to emissions reductions, the European Commission may bring proceedings against them under Article 226 of the EC Treaty. Moreover, in the event that a member state fails to comply with a judgment of the European Court of Justice, the Commission may take further action under Article 228, which could result in the imposition of fines. Member states' commitments under the burden-sharing agreement may therefore be enforced by legal action resulting in sanctions.

North Kent Marshes

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to remove the special landscape area designation for the North Kent Marshes, with particular reference to Elmley; and if she will make a statement. [148726]

Mr. Morley *[holding answer 19 January 2004]:* Elmley is in the North Kent Marshes Environmentally Sensitive Area (ESA), which was first designated in 1993. The ESA contains grazing marsh habitat that is internationally important for over-wintering and breeding birds and there are no plans to remove the ESA designation which has been successful in safeguarding these interests. New agri-environment schemes are being developed so that we can build on these achievements and enhance biodiversity.

Plant Passports

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many plants have been imported without passports in each year since passports were introduced. [149260]

Mr. Bradshaw: The plant passporting regime applies to certain plants and plant products known to host the most serious ("quarantine") pests and diseases. It applies only for movements within the European Community and there are no border checks carried out, although spot checks may take place anywhere in the trade chain. Producers of such material are required to be officially registered and be subject to official inspection at least annually in order to be authorised to issue plant passports.

There are no data available either on the number of consignments received in the UK for which a plant passport has been issued by a producer, or the number of consignments received for which a passport is not required. EU legislation does not require such information to be recorded, although those despatching and receiving passported material must maintain records to facilitate monitoring and enforcement.

In cases where official monitoring detects that a plant passport is missing on a plant or product covered by the passporting requirements, enforcement action is taken. This involves notification of the plant health authorities in the member state in which the material originated, as well as the return or destruction of the material.

Sudden Oak Death

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of using helicopters for the purpose of identifying trees infected with sudden oak death; and if she will make a statement. [148557]

Mr Bradshaw: It would not be possible to spot signs of infection of Phytophthora ramorum from the air unless infection and dieback of trees and shrubs was extensive. The employment of helicopters would therefore only be of assistance to identify areas of dense planting and woodland for further investigation in areas where the infection is considerably more severe than any of the UK outbreaks identified to date. Plant health inspectors already have access to an on-line aerial photograph mapping facility to assist them in planning ground based inspections. They also have experience of using aerial surveys to detect plant disease on arable crops, although this has been with fixed wing aircraft rather than helicopters. The possibility of aerial surveys will be kept under review.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the effects of using methyl bromide as the fungicide of choice for combating sudden oak death; and if she will make a statement. [148558]

Mr Bradshaw: Methyl bromide is a fumigant approved for use as a pre-planting soil sterilant against some soil borne diseases including some Phytophthora species mainly in horticultural situations. Its effectiveness specifically against Phytopthora ramorum has not been evaluated because this is a new species. The

pesticide may already be used by nursery staff growing plant stock for the purpose of eradicating other known pests and diseases in soil pre-planting. However it is not approved for use against fungal pathogens on growing plants due to phytotoxicity problems caused by the high doses that would be necessary. The methodology of applying soil fumigants would also make it impracticable to use this a means of dealing with infection in the wider environment. There are considerable health and safety implications attached to the use of this acutely toxic substance.

The only form of treatment currently available to eliminate infection by Phytophthora ramorum is removal and destruction of plant material. Currently approved fungicides have a suppressive effect which masks symptoms rather than eradicating the pathogen from infected plants. However, Horticulture Development Council funded research at the Central Science Laboratory is looking at a range of substances to see how well they can eradicate infection or protect healthy nursery stock from new infection.

US Ships (Decommissioning)

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether the US ships intended for decommissioning by Able UK contain chemicals banned in the US. [142022]

Mr. Morley: The US Toxic Substances Control Act generally prohibits the export of PCBs greater in concentration that 50 ppm although an enforcement discretion permitted the export of PCBs above this concentration on the condition that all liquid or easily accessible PCBs were removed beforehand. We understand that all such PCBs were removed as part of the contractual obligations between the US Maritime Administration and Able UK Ltd.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the High Court ruling on 8 December regarding the dismantling of the contaminated former US naval ships. [143988]

Mr. Morley: No. Defra were not a party in the case and it is possible that parties will appeal against the decision. The ships are not contaminated any more or less than any similar ship of their age. To describe them as such is misleading.

CONSTITUTIONAL AFFAIRS

Freedom of Information

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent steps the Department has taken to promote *(a)* freedom of information, *(b)* data protection and *(c)* human rights. [146674]

Mr. Lammy: Details of the steps taken to promote freedom of information in the last year are included in the annual report on bringing into force those provisions of the Freedom of Information Act 2000 which are not yet fully in force. This was laid before both Houses on 27 November 2003 and copies have been placed in the Library. The Department has also produced a model action plan to assist public authorities in their preparations for implementation of the Freedom of Information Act which includes sections on raising awareness of freedom of information with staff, stakeholders and the public. Copies are available from the Department and its website.

The Department has regular meetings with the Information Commissioner, who has statutory responsibility for promoting the observance of the requirements of the Data Protection Act 1998 by data controllers and for disseminating information to the public about the operation of the Act. The Information Commissioner also has responsibility for the promotion of awareness and compliance with the Freedom of Information Act. Both the Commissioner and the Department keep under review the operation of the Data Protection Act and closely monitor and contribute to the development of international initiatives in the data protection field.

Officials at the Department have delivered eight awareness raising roadshows on human rights in the past year. The delivery of roadshows is on-going and with further dates already confirmed in Leeds and Oxford.

The Department maintains a dedicated human rights helpdesk to assist members of the public and produces publications including a detailed "Study Guide to the Human Rights Act 1998", a leaflet entitled "An introduction to the Human Rights Act," which is available in nine different languages, plus an audio tape and a copy of the study guide in braille. The officials are also in the process of commissioning CD- ROM guidance on the Act, a further edition of the study guide and special guidance for those with learning disabilities. The Department's human rights website attracts praise from a number of key stakeholders , and receive an average of 1,150 hits per week.

The Department provides assistance to the Institute for Global Ethics and Citizenship Foundation in delivering the Impetus Project—encouraging children across the UK to learn about human rights as part of their citizenship education.

I have written in my capacity as Minister for Human Rights to each Council Leader and Public Authority Chief Executive in England and Wales—enclosing a copy of an Audit Commission report on human rights. The Act can be a valuable tool for driving up standards of public service delivery.

I am keen to ensure that the Department takes advantage of every opportunity to speak on human rights.

DEPUTY PRIME MINISTER

Building Regulations

David Taylor: To ask the Deputy Prime Minister if he will make a statement on the system for ensuring compliance with the building regulations in the construction of new houses. [148880]

Phil Hope: A person intending to build a new house must either apply to the local authority's building control department or they must engage an inspector approved under Part II of the Building Act 1984. The local authority or the approved inspector will then check the plans and the building work for compliance with the Building Regulations.

David Taylor: To ask the Deputy Prime Minister (1) what recent representations he has received from the Building Control Performance Standards Advisory Group; [148973]

(2) what recent discussions he has had with the Building Control Performance Standards Advisory Group on the effect competition has had on standards in building control. [148974]

Phil Hope: No recent discussions have taken place with the Building Control Performance Standards Advisory Group nor has the Office of the Deputy Prime Minister received any representations from them. The Group are welcome to raise with me, at any time, any matters relating to standards in building control.

Mr. Todd: To ask the Deputy Prime Minister pursuant to his Answer of 5 January 2004, *Official Report*, column 142W, on the fenestration self-assessment scheme, how large the sample of work monitored to ensure compliance with building regulations is; and if he will publish the report on compliance. [148978]

Phil Hope: The Fenestration Self-Assessment Scheme (FENSA) routinely monitors annually 1 per cent. of the work of its member firms, with a minimum of two inspections per year. Where an inspection shows that the work has not complied, the rate of inspection for that firm will be increased. Extra inspections are also carried out in response to complaints that work does not comply. Local authorities retain their right to inspect work carried out by registered FENSA installers and to take enforcement action against them where appropriate. Local authorities will use these powers in response to a complaint.

The Office of the Deputy Prime Minister's report on compliance is available on the ODPM website. Copies are also available in the Libraries of the House.

Sue Doughty: To ask the Deputy Prime Minister when he will publish the results of studies into pressure testing of homes to assess whether requirements of Part L of the Building Regulations are being fully implemented. [149364]

Phil Hope: The current requirements in Part L for the airtightness of new homes came into effect on 1 April 2002. The Office of the Deputy Prime Minister will publish the results of pressure tests on a sample of new homes built to these standards in support of the consultation on the proposals for the next major revision of Part L, planned for this summer.

Fire Service College

Mr. Clifton-Brown: To ask the Deputy Prime Minister what assessment he has made of the impact of the Airfield Support Services Project on Fire Service College, Moreton-in-Marsh. [149054]

Phil Hope: The Ministry of Defence (MoD) has not yet made a decision on the Airfield Support Services Project. The possibility of joint working with the MoD on airfield support fire service training is warmly welcomed by the Fire Service College and is being taken into account in its strategic planning process.

Local Authority Debt

Sir Nicholas Winterton: To ask the Deputy Prime Minister (1) which local authorities in England are operating on a debt-free status; [148705]

(2) what steps his Department is taking to protect the debt-free status of local authorities; [148706]

(3) how much funding derived from capital receipts has been transferred by his Department in each of the last five years from debt-free local authorities to Metropolitan local authorities; [148707]

(4) if he will end the transfer of funding derived from capital receipts from debt-free local authorities to Metropolitan local authorities. [148708]

Mr. Raynsford: The table below lists the 134 local authorities that had debt-free status as of 30 September 2003:

It was formerly our practice to take into account local authorities' capital receipts when issuing the credit approvals which allow them to borrow. That ended in April 2003. No estimates are available of the resources thereby redistributed from debt-free authorities to metropolitan authorities.

The redistribution of resources remains a fundamental principle of the housing finance system. It is currently achieved by the requirement for authorities to set aside for debt redemption part of their housing capital receipts. Debt-free authorities are exempt and have thus enjoyed an advantage unavailable to others, but that anomaly will be corrected from 1 April this year, when set-aside is replaced by pooling, under which all authorities must pay part of their housing capital receipts to the Government. Transitional measures will protect debt-free authorities from the full impact of this new redistribution mechanism for three years. Thereafter they will be treated on the same basis as authorities with debt. The Office of the Deputy Prime Minister consider that the recently introduced the new prudential framework for local authority borrowing and authorities who need to borrow and can afford to do so should not be deterred by artificial incentives to remain free of debt.

Local authorities who have reported that they have 'debt free status' as at 30 September 2003

For the purpose of this table, an authority is 'debt-free' only if:

(a) at 31 March 2003, the authority's credit ceiling was nil or a negative amount and

(b) at 30 September 2003, the authority had no money outstanding by way of external borrowing other than short-term borrowing or hard to redeem debt, as defined in Regulation 154 of the Local Authorities (Capital Finance) Regulations 1997.

Local Authority Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether his policy of requiring councils to submit proposals for disposing of their housing stock by July 2005 applies to *(a)* all councils and *(b)* only those councils unable to meet decent housing targets; how many councils have so far had applications for disposal of their housing stock accepted; what steps he is taking to ensure that the rest apply; how many proposals have been rejected by tenants' ballots; and how local authorities whose tenants reject proposals in ballots are to be helped to reach the decent housing targets. [148066]

Yvette Cooper: All local authorities must produce a robust stock appraisal by July 2005, which must be signed off by the relevant Government Office of the Region. Where that process identifies that additional investment is required to meet the decent homes target, local authorities can choose from three options singly or in combination: set up a high performing Arms Length Housing Management Organisation (ALMO); pursue a Private Finance Initiative (PFI) scheme; and transfer housing to one or more housing associations.

Since April 2001, 29 local authorities have transferred whole or part of their stock and 11 transfers have not proceeded because tenants have voted against the proposal.

The option appraisal process is designed to ensure that tenants are involved in the decision making process from the start and that they are fully informed about the scale of the task in delivering decent homes.

Where there is a no vote it is for the authority and tenants to re-examine the options that are available.

Local Government Finance

Mr. Purchase: To ask the Deputy Prime Minister when he will make a statement on *(a)* the local government finance settlement, *(b)* the supported borrowing allocation for capital spend and *(c)* the Supporting People grant notification for 2004–05. [148809]

Mr. Raynsford: Announcements on these issues will be made shortly.

Regional Government

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to his answer of 7 January 2004, *Official Report*, columns 399–400W, elected regional assembly for Yorkshire and the Humber, if he will place in the Library the evidence upon which his assertion was based. [149691]

Yvette Cooper: The Government are committed to promoting economic growth in Yorkshire and the Humber and an elected regional assembly is very much part of this framework. An elected assembly would clearly bring greater democratic accountability to the region because, for the first time, activities which are currently carried out by central government, its agencies and quangos, would become the responsibility of a democratically elected regional assembly. However it will be a matter of choice for the regional electorate as to whether they wish to have an elected regional assembly.

The White Papers "Your Region, Your Choice" and "Our Fire and Rescue Service" are already available in the Library of the House and fully set out our proposals for the regional responsibilities of elected regional assemblies, including the economic arguments, in favour.

Supporting People Programme

Mr. David Drew: To ask the Deputy Prime Minister if he will make a statement on the operation of the Supporting People programme. [149083]

Yvette Cooper: The Supporting People programme which went live on 1 April 2003 provides housing related support services for more than 1 million vulnerable people—including the homeless, women fleeing domestic violence and older people—to live independently in their accommodation.

The programme introduced an integrated planning and funding framework for housing related support services.

Mr. Drew: To ask the Deputy Prime Minister if he will make a statement on funding for the Supporting People programme in its first year of operation; and what its estimated budget is for the next two years. [149084]

Yvette Cooper: Last October, the Government issued a written statement in the Houses of Parliament announcing funding of £1.8 billion for the first year of the Supporting People programme in England.

The Office of the Deputy Prime Minister will be making an announcement about 2004–05 funding shortly.

An announcement for 2005–06 funding will be made in the summer.

HOME DEPARTMENT

Alcohol Misuse

David Taylor: To ask the Secretary of State for the Home Department what initiatives the Government plan to reduce the harm associated with alcohol misuse; and if he will make a statement. [148796]

Ms Blears: The Prime Minister's Strategy Unit published an interim analytical report on the harms associated with alcohol misuse on 19 September 2003. This report identifies the following broad areas for policy interventions: education, information and communication; supply and pricing; health and treatment services; the community safety and criminal justice. The findings of this report have been used to inform development of the Government's alcohol harm reduction strategy, which will be published shortly.

Animal Welfare

Mr. Hancock: To ask the Secretary of State for the Home Department when the stakeholder forum on the care and use of primates in experiments will be set up; what the terms of reference will be; who will be included on the forum; and when it will report. [146169]

Caroline Flint: Establishment of a stakeholder forum to consider issues relating to the use of non-human primates in scientific procedures was recommended in the report by the Animal Procedures Committee (APC) "The Use of Primates under the Animals (Scientific Procedures) Act 1986".

This recommendation was accepted, and a forum has accordingly been set up. It will meet on 9 January. It has no formal terms of reference. Its principal task is to consider other recommendations in the APC's report. The aim is to hold an informed debate that will assist preparation of a ministerial response to the issues that the ARC has raised.

Attendance at the forum is by invitation only. Invitees include a broad range of organisations with practical experience of the use of primates in scientific procedures, as well as those from funding and regulatory organisations and other Government Departments.

A report of the forum's meeting and conclusions will be placed on the Home Office and ARC websites as soon as it is available.

Mr. Hancock: To ask the Secretary of State for the Home Department what research he has *(a)* commissioned and *(b)* evaluated on the feasibility of implementing the recommendations in the House of Lords report on the use of animals in scientific procedures; and if he will make a statement. [147328]

Caroline Flint: The Home Office has not commissioned, or evaluated, any formal research into the feasibility of implementing the recommendations of the House of Lords Select Committee on Animals in Scientific Procedures, published in July 2002. The Government's response to the Select Committee's report was published on 20 January 2003 (Cm 5729). Copies have been placed in the Library.

The Government welcomed the Select Committee's report and noted in particular, and endorsed, its finding that animal experiments are currently necessary to develop human and veterinary medicines and to protect humans and the environment.

We also reaffirmed our commitment to the fullest possible application of the 3Rs—the refinement of scientific procedures, the reduction in the numbers of animals used and their replacement wherever possible—and to greater openness regarding the use of animals in scientific procedures, subject to safeguards for personal and confidential information.

We were unable to accept four of the Select Committee's recommendations (numbers 15, 19, 23 and 27). These related to the inspection of establishments, the training requirement for visiting scientists and students from overseas, the requirement for lay members of local Ethical Review Processes, and the reporting of genetically modified animals which are bred but not used in the annual statistics on animal use.

We agreed, or broadly accepted, eleven recommendations (11, 12, 14, 16, 18, 22, 24, 25, 29, 30 and 31). Action on these is in hand. In particular, we are currently exploring the recommendation that a United Kingdom centre for research into the 3Rs should be established. As part of this work the Chief Inspector of the Animals (Scientific Procedures) Inspectorate has sought the views of interested parties—primarily those who fund and undertake animal research—to gather information on the scope for such a centre.

We are also looking again at the possible streamlining of the project licence application form, and at the arrangements for publication of licensing information, through a joint project team with scientific stakeholders. I have asked for progress reports on all of these issues early in 2004. In addition, the Animal Procedures Committee has been asked to review the annual statistics publication and is due to report by the end of 2004.

One other recommendation (28), regarding the repeal of section 24 of the Animals (Scientific Procedures) Act 1986, has been the subject of a further period of review and consultation since publication of the Government reply. I hope to announce the outcome shortly.

The remaining eight recommendations (8, 9, 10, 13, 17, 20, 21, and 26) broadly endorsed existing Home Office policy and practice.

Norman Baker: To ask the Secretary of State for the Home Department how many and what percentage of licence applications under the Animals (Scientific Procedures) Act 1986 were *(a)* accepted without alteration, *(b)* returned for redrafting before resubmission and *(c)* rejected in the last year for which figures are available; and how many and what percentage were referred for consideration to the Animals Procedures Committee. [147407]

Caroline Flint: A feature of the regulatory regime under the Animals (Scientific Procedures) Act 1986 is the discussion that often takes place at an early stage between applicants (or prospective applicants) and the Animals (Scientific Procedures) Inspectorate. This means that proposals unlikely to meet the Act's stringent requirements are revised or withdrawn before formal refusal becomes necessary.

Our central database records do not show all these dealings that commonly go on between applicants and individual Inspectors at various stages in the application process, and much of the requested information is therefore not readily available.

We can say that in 2002, the last year in which figures were published, one project licence application was formally refused. Over the same period, 97 project licence applications, 17 personal licence applications and one application for a certificate of designation are recorded as not proceeded with.

For additional information, paragraph 12 of Appendix A of the Statistics of Scientific Procedures on Living Animals (Great Britain) 2002 (Command 5886, available in the Library) provides the total number of project and personal licences, and certificates of designation, granted and revoked during 2002, showing how many were in force on 31 December 2002.

During 2002, a total of four project licence applications were referred to the Animals Procedures Committee for consideration. This represents 0.58 per cent. of the total project licences granted that year.

Antisocial Behaviour Orders

Chris Ruane: To ask the Secretary of State for the Home Department how many antisocial behaviour orders have been *(a)* granted and *(b)* refused by each magistrates bench in North Wales since their introduction. [148492]

Ms Blears: A total of 16 notifications have been received by the Home Office, of Antisocial Behaviour Orders (ASBOs) granted within North Wales, up to 30 September 2003 (latest available). Of this total, 15 have been issued within magistrates courts, details of which are given in the table, and, following implementation of the Police Reform Act (December 2002), one ASBO has been given by the Crown court at Mold (North Wales and Chester Crown court group). No notifications have been received of ASBOs refused in North Wales.

The number of notifications of ASBOs issued within North Wales, as reported to the Home Office, up to 30 September 2003, by magistrates court.

Magistrates court	*Total issued*

Immigration

Keith Vaz: To ask the Secretary of State for the Home Department how many meetings he has had with hon. Members about immigration cases in the last 12 months. [145415]

Mr. Blunkett: The Minister of State with responsibility for immigration, my right hon. Friend the Member for Stretford and Urmston (Beverley Hughes) regularly meets hon. Members to discuss particular immigration cases.

Asylum

Annabelle Ewing: To ask the Secretary of State for the Home Department if he will define the circumstances in which it would be in the interests of children of asylum seekers to separate them from their parents. [142767]

Beverley Hughes *[holding answer 8 December 2003]:* The Asylum and Immigration (Treatment of Claimants etc.) Bill does not change in any way the grounds on which children may be taken into care. The Government's policy remains to ensure that families whose asylum claims have failed are removed together. Where there are difficulties or delays with enforced removal, but families have been provided with opportunities to return voluntarily and at no cost to themselves, the Bill provides that families who refuse these opportunities would no longer be entitled to support at the expense of the taxpayer. If parents fail to take these opportunities to leave and put their children at risk, it would be for the local authority to decide how the interests of their children should be protected under existing child protection legislation.

Tim Loughton: To ask the Secretary of State for the Home Department (1) how many unaccompanied child asylum seekers arrived at Gatwick in each of the last three years; and how many of them are registered in care; [144994]

(2) how many unaccompanied child asylum seekers have presented themselves at UK ports of entry in each of the last six years. [141057]

Beverley Hughes: Data on the number of asylum seekers without documentation claiming to be minors that arrive at specific ports of entry are not recorded and collated centrally. This information could therefore be obtained from individual case files only at disproportionate cost.

Information on asylum statistics is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Tom Cox: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women were allowed to enter the United Kingdom as political or religious refugees from Somalia during 2003. [148071]

Beverley Hughes: The number of Somali men and women allowed to enter the United Kingdom as political or religious refugees during 2003 is not currently available and could be obtained only at disproportionate cost by examination of individual case records.

Information on asylum applications and decisions by gender and nationality is published annually. The annual publication for 2003 will be available at the end of August 2004 on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Cannabis

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on his policies to tackle cannabis abuse. [148603]

Caroline Flint: The Government are determined to support the police in tackling the problem of drug abuse with an effective and realistic approach to drug legislation, enforcement and education. Cannabis will not be legalised or decriminalised. It is a harmful drug that will remain illegal following its reclassification as a Class C drug on 29 January.

Our drugs laws and our educational messages to young people must reflect the relative harms of drugs, in accordance with the available scientific and medical advice, if they are to be credible. Reclassification will enable a more convincing and ultimately more effective educational message to be conveyed to young people about the dangers of misusing different types of drug, including cannabis.

We are publishing information about what reclassification will mean in practice—through making a leaflet widely available to young people and through extensive radio advertising, beginning on 22 January—to ensure that the clear message that cannabis is illegal

and harmful continues to be heard. This information will feed into the three year FRANK publicity campaign to better inform people's understanding of drugs and to provide a single, easily accessible source of advice and support for those affected by drug use. This will help young people, in particular, to understand what will happen to them if they are found in possession of cannabis (or any other illegal drug) or are supplying drugs.

Reclassification also sends a clear signal to the police that the priority is Class A drugs, like heroin and crack cocaine, which do the most harm. The Association of Chief Police Officers' cannabis enforcement guidance is rightly directed at ensuring that those who cause public order problems, those who persist in misusing cannabis, and those who use cannabis close to places where children are present are dealt with appropriately. But where none of these factors apply, it is not right that someone who is an adult who is found with cannabis should take up police time.

Time saved as a consequence of policing cannabis possession offences in this way, following reclassification, will provide the police with an opportunity to focus greater resources on priority areas like tackling Class A drug supply offences.

Catapults

Mr. Nigel Jones: To ask the Secretary of State for the Home Department how many cases of damage or injury caused by the use of catapults have been reported in each of the last five years; and how many of these cases have led to *(a)* arrest and *(b)* prosecution. [148538]

Ms Blears: The requested information is not collected centrally and could be done so only at disproportionate cost.

Mr. Nigel Jones: To ask the Secretary of State for the Home Department if he will make it his policy to outlaw the sale and use of catapults; and if he will make a statement. [148541]

Ms Blears: We are not satisfied that the problem of the misuse of catapults is serious enough to merit their inclusion on the current list of prohibited weapons. We will continue to monitor the situation.

Coroners' Salaries

Vera Baird: To ask the Secretary of State for the Home Department what the salaries are of *(a)* the Cleveland Coroner, *(b)* his deputy and *(c)* his assistant deputy. [147651]

Paul Goggins *[holding answer 13 January 2004]*: Coroners' salaries are agreed with the relevant local authorities and the Home Office has no information about individual salary levels. The Cleveland lead authority is Middlesbrough Borough Council and it is a matter for that authority to decide whether or not to provide the requested information.

Corporate Killing

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make a statement on his plans to introduce legislation on corporate killing. [146541]

Paul Goggins: The Government are committed to reforming the law on corporate manslaughter. We intend to publish our proposals for legislation in the near future, followed by a draft Bill in the spring.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to Mr. M. Atem; [144636]

(2) when he will reply to the letter to him dated 4 November from the right hon. Member for Manchester, Gorton with regard to Mr. M. Atem; [145965]

(3) when he will reply to the letter to him dated 4 November 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. M. Atem. [147618]

Mr. Blunkett: I replied to my right hon. Friend on 13 January 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 1 December 2003 from the right hon. Member for Manchester, Gorton with regard to Mr. Abdul Hussain Talash. [149547]

Mr. Blunkett: I replied to my right hon. Friend on 19 January 2004.

Credit Card Fraud

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what estimate he has made of the most recent annual cost of credit card fraud. [148836]

Ms Blears: The Government do not collect figures on the cost of credit card fraud but the Association for Payment Clearing Services (APACS) assesses the cost of all plastic card fraud in 2002 (the most recent figures available) to be £424.6 million.

In April 2002, the Government launched a two-year pilot of a unique policing unit (the Dedicated Cheque and Plastic Crime Unit (DCPCU)) based in London, which works closely with the banking industry to reduce organised card and cheque fraud, using intelligence largely provided by the card industry. DCPCU had significant success in its first year including recovery of more than 4,000 cards and 525 cheques, resulting in 59 arrests. Potential savings amount to £13.35 million. DCPCU cases have so far led to 31 convictions, all following guilty pleas.

Government are actively supporting "Chip and PIN", a major finance and retail industry initiative which is the introduction of microchips into payment cards to help authentication combined with the introduction of PIN codes in place of signatures. The banking industry anticipates that, by 2005, the new Chip and PIN technology will eliminate over half of the predicted level of plastic card fraud in the UK.

Departmental Relocation

Ms Walley: To ask the Secretary of State for the Home Department (1) what assessment his Department has made of the benefits of re-location of staff to north Staffordshire; and if he will make a statement; [146864]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146880]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to north Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146893]

(4) what plans he has to establish procedures for assessing the impact of possible re-location of staff in his Department to the regions; and if he will make a statement. [146924]

Fiona Mactaggart: I refer my hon. Friend to the reply my right hon. Friend the Chief Secretary to the Treasury gave her to similar questions to his Department on 12 January 2004, *Official Report*, column 516W.

Driving Standards

Mr. Evans: To ask the Secretary of State for the Home Department what guidelines his Department has set for the police concerning motorists *(a)* eating, *(b)* smoking and *(c)* drinking non-alcoholic drinks whilst driving. [148413]

Caroline Flint: Drivers must have proper control of their vehicles and drive carefully and safely at all times. Any motorist who fails to do so, for whatever reason, is liable to prosecution for failing to exercise proper control of a vehicle, careless or inconsiderate driving, or dangerous driving. The police will consider in each case whether eating, drinking or smoking whilst driving might amount to or contribute to the commission of one of these offences and charge accordingly. The Association of Chief Police Officers is content that the existing legislation provides sufficient powers to prosecute successfully any driving offences that may arise from distracting behaviour.

Drink-driving

Mr. Hoyle: To ask the Secretary of State for the Home Department how many drivers failed a breath test in Lancashire in each of the last five years. [148363]

Ms Blears: Information for Lancashire from 1997 to 2001 is given in the table. Data for 2002 will be available in the spring 2004.

Number of positive or refused breath tests within Lancashire police force area, 1997–2001

	Positive/refused
1997	2,700
1998	1,900
1999	1,900
2000	1,600
2001	2,500

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what proportion of drivers failed a breath test during December in each year since 1997; [147925]

(2) how many breath tests were taken by drivers in each year since 1997; and how many accidents were caused by drunk drivers in each year since 1997. [147926]

Ms Blears: Information for England and Wales is given in the tables.

Table A—Screening breath tests and the number and percentage of positive or refused within the month of December, 1997–2001[1]—England and Wales

	Total tests	*Positive/refused*	*Percentage positive/ refused*
1997	142,900	9,100	6
1998	142,500	8,100	6
1999	120,300	8,900	7
2000	107,600	8,900	8
2001	99,100	9,000	9

[1] Figures for 2002 are not available.

Source:
Home Office

Table B—Number of screening breath tests, 1997–2001[1]—England and Wales

	Total number of breath tests
1997	800,300
1998	815,500
1999	764,500
2000	714,800
2001	623,900

[1] Figures for 2002 are not available.

Department of Transport

Drug-related Crime

Mr. Amess: To ask the Secretary of State for the Home Department what estimate he has made of the costs of drug-related crime in each year since 1997. [148605]

Caroline Flint: Estimates of the costs of drug-related crime are not available annually. However, a recent study published by the Home Office provides estimates of the total economic and social costs of Class A drug use and puts these in the range of £10.1 to £17.4 billion for the year 2000. These costs include the costs of drug-related crime, which are estimated to fall in the range £8.8 to £15.8 billion. The costs of drug-related crime include victim costs and those accruing to courts, prisons and other parts of the criminal justice system.

Durham Police Force

Mr. Cummings: To ask the Secretary of State for the Home Department what the strength of the Durham police force was in each year since 2000, broken down by rank; and how many civilian personnel there were in each year. [148780]

Ms Blears: The information requested is set out in the table. Decisions on the number of officers in each rank below that of Assistant Chief Constable is the responsibility of the Chief Constable.

(I) Police Strength by Rank (Durham Constabulary)

Rank	31 March 2000	31 March 2001	31 March 2002	31 March 2003
ACPO Ranks[1]	3	3	3	3
Chief Superintendent[2]	—	—	—	11
Superintendent	19	19	18	4
Chief Inspector	23	21	21	18
Inspector	78	81	80	85
Sergeant	209	207	215	218
Constable	1,226	1,264	1,277	1,313

[1] ACPO ranks include Chief Constable, Deputy Chief Constable and Assistant Chief Constable.

[2] Chief Superintendent rank was abolished in April 1995 and was reintroduced from 1 January 2002. Separate collection of Chief Superintendent and Superintendent data was not reintroduced until March 2003.

(II) Police (Support) Staff

Year[1]	Number of Police Staff
2000	590
2001	566
2002	660
2003	602

[1] As at 31 March

Early Release

Mrs. Brooke: To ask the Secretary of State for the Home Department how many under 18-year-olds have been released under the early release of short-term prisoners; and how many were assigned a mentor on release. [146997]

Paul Goggins *[holding answer 12 January 2004]:* The standard custodial sentence (up to 24 months) for offenders under 18 is the Detention and Training Order (DTO). Half the term is spent in custody and the remaining half under supervision in the community. Early release from custody (of one month, in the case of offenders serving terms of eight, 10 or 12 months; or one or two months, for those serving 18 or 24 months) has been available since the DTO was introduced in April 2000. In May 2002, new guidance specified that, in future, DTO trainees granted early release would be electronically monitored up to their original release-from-custody date.

Since 29 May 2002, 2,451 DTO trainees have been granted early release. The guidance does not specify that those released should be assigned a mentor. It is open to Youth Offending Teams to arrange this, and those offenders who undertake an Intensive Supervision and Surveillance Programme during the community part of their DTO are usually assigned a mentor, but figures on this are not collected centrally.

Emergency Services (Radio Systems)

Mr. Caton: To ask the Secretary of State for the Home Department how the Government will ensure that usable spectrum is available to bidders seeking to supply and manage new radio network systems for the emergency services following the award of the contract for a new modern digital radio system for the police service to Airwave/02 in February 2000. [147809]

Ms Blears: Potential suppliers of public safety radio networks may apply to the interdepartmental Public Safety Spectrum Policy Group (PSSPG) for suitable radio spectrum. The PSSPG is an interdepartmental committee that ultimately answers to the UK Spectrum Strategy Committee of the Cabinet Office. Regularly updated information on available spectrum is available on the Ofcom website.

EU Accession Countries

Sir Teddy Taylor: To ask the Secretary of State for the Home Department (1) whether the residents of the nations securing membership of the EU in May will have automatic right of access to the United Kingdom on that date; and whether they will have access to social security and housing benefits; [146651]

(2) which member states of the EU have placed restrictions for seven years on the entitlement of new EU citizens to gain access and to secure benefits in their nations; and whether the UK is able to seek similar restrictions. [146652]

Beverley Hughes *[holding answer 12 January 2004]:* Under the EU Accession Treaty, citizens of all 10 new member states will enjoy the same right to travel freely across the EU as is enjoyed by citizens of the current member states, for all but one of the purposes envisaged by the EC Treaty. The Accession Treaty allows the 15 current member states to impose temporary restrictions on the right of citizens of Estonia, Latvia, Lithuania, Poland, the Czech Republic, Slovakia, Hungary and Slovenia to travel freely across the EU for the purpose of work. These restrictions may last, at the most, until 30 April 2011. Cypriot and Maltese citizens will enjoy free movement for work across the EU automatically on accession.

The United Kingdom Government, along with Denmark, Netherlands, Greece, Ireland and Sweden, have decided to allow access to their labour markets immediately upon the accession. Many other member states have yet to make any final decisions. France and Germany have indicated that they will impose some temporary restrictions on workers for at least two years from accession.

Citizens of the new member states will have the same rights and restrictions as citizens of existing EU member states in relation to access to social security and housing benefits.

Under EC law, a citizen of the European Union may not be discriminated against on the grounds of nationality and must enjoy the same access to social security benefits as a national of the state of residence.

The habitual residence test, which applies to income related non-contributory benefits, such as housing benefit and pension credit, has to be satisfied before a person can receive these benefits.

Entitlement to contributory benefits, such as state pension, depends on payment of national insurance contributions.

Citizens of other EU member states cannot come to the UK simply to claim benefits. They must first meet the Habitual Residence Test (HRT). The HRT covers non-contributory benefits including income support, jobseeker's allowance, housing benefit, and council tax benefit.

The Government are committed to ensuring that the benefits system and the taxpayers who support it are protected against abuse by people with little or no connection with the UK. Measures already in place under the Nationality, Immigration and Asylum Act 2002, together with the HRT, help insure this. This area is kept under constant review to ensure that the benefit system remains fully robust and resistant to abuse.

Female Genital Mutilation

Mr. Woodward: To ask the Secretary of State for the Home Department (1) what funding was provided to local authorities for the training of public service providers, with particular reference to police, teachers, doctors and nurses, to enable them to understand and identify women who have undergone female genital mutilation in *(a)* 2001, *(b)* 2002 and *(c)* 2003; [146054]

(2) what funding was provided to *(a)* St. Helens and *(b)* Merseyside for the training of public service providers, with particular reference to police, teachers, doctors and nurses, to enable them to understand and identify women who have undergone female genital mutilation in (i) 2001, (ii) 2002 and (iii) 2003. [146044]

Paul Goggins: No specific funding was provided to local authorities for this purpose.

However, the voluntary organisation the Foundation for Women's Health Research and Development (FORWARD) received a core grant of £40,000 for each of the three years to 2004–05 and an additional sum of £25,000 for each of the three years to 2003–04 for a project aimed at mobilising professionals who work with children from communities where Female Genital Mutilation is practised. This involves assessing the training needs of a range of professionals and offering them training.

The Female Genital Mutilation Act 2003 received Royal Assent on 30 October. The Government will take steps to ensure that relevant professionals are informed about this new legislation and their duties under it.

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department what assessment has been made of the case for private finance initiative for the Forensic Science Service to upgrade its laboratories. [148213]

Ms Blears: The independent McFarland Review identified that if the Forensic Science Service (FSS) were to remain a Trading Fund, funding for investment in laboratories would probably need to come from some form of Private Finance Initiative (PFI). This has not been assessed in detail as my right hon. Friend the Home Secretary, accepted the review's main conclusion that more fundamental changes were needed to secure the FSS' future growth and that this should be achieved by its transformation into a public private partnership.

Mr. Hoyle: To ask the Secretary of State for the Home Department what his estimate is of expenditure required to upgrade the Forensic Science Service laboratories in each of its centres; and if he will list the centres. [148365]

Ms Blears: Assessment of the capital expenditure requirement for the Forensic Science Service (FSS) was undertaken within the recent review of this organisation, led by Robert McFarland. It was estimated that the FSS requires capital expenditure in the region of £20 million to £30 million to sustain business at its present level in the emerging competitive climate. The Review team did not undertake a detailed study of the FSS's capital investment needs, which would be necessary to determine a precise figure and establish the investment required at each of the centres.

Fraud

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make a statement on the progress his Department is making in dealing with *(a)* passport fraud and *(b)* duplicate or false national insurance numbers. [147327]

Beverley Hughes: I wrote to the hon. Member on 13 January 2004.

Gun Crime

Mr. Paice: To ask the Secretary of State for the Home Department how many crimes were committed in each year since 1996–97 involving *(a)* handguns, *(b)* rifles, *(c)* shotguns, *(d)* air weapons and *(e)* imitation firearms; and how many gun crimes for each year were drug-related. [148312]

Caroline Flint *[holding answer 19 January 2004]:* The relevant information is given in the table.

Number of recorded crimes in which a firearm was used[1]

Year[2]	*Handguns*	*Rifles*	*Shotguns*	*Air weapons*	*Imitation firearms*
1996	3,347	63	933	7,813	498
1997	2,648	51	580	7,506	511
1998–99[3]	2,687	43	642	8,665	566
1999–2000	3,685	67	693	10,103	823
2000–01	4,109	36	608	10,227	787
2001–02[4]	5,871	64	711	12,340	1,201

[1] Fired, used as a blunt instrument or in a threat.

[2] Calendar years up to 1997 and financial years thereafter.

[3] There was a change in counting rules for recorded crime on 1 April 1998, which may have had an inflationary effect on firearm offence statistics.

[4] Some police forces adopted the National Crime Recording Standard in advance of its national implementation on 1 April 2002, and this may have had an inflationary effect on firearm offence statistics.

Statistics of whether firearms offences are drug-related are not collected centrally.

Mr. Paice: To ask the Secretary of State for the Home Department how many illegally owned or carried *(a)* handguns, *(b)* rifles, *(c)* military weapons, *(d)* automatic weapons and *(e)* semi-automatic weapons have been recovered by (i) police forces in England and Wales and (ii) Customs and Excise at ports of entry in the UK in each of the last five years. [147384]

Ms Blears *[holding answer 12 January 2004]:* The information requested on weapons recovered by the police is not currently available.

Customs and Excise have provided the following details to the Home Office of the numbers of firearms they have seized in the last five years. These figures include imports and exports. Any military, automatic and semi-automatic weapons will be included in the totals and are not separately identified.

Number of illegal firearms seized by Her Majesty's Customs and Excise

Year ended 31 March	*Handguns*	*Rifles*	*Shotguns*
1999	85	106	55
2000	420	100	135
2001	168	49	51
2002	305	113	230
2003	127	102	41

Mr. Paice: To ask the Secretary of State for the Home Department how many people have been prosecuted for conversion of *(a)* air and *(b)* imitation weapons to fire live ammunition in each of the last five years. [147395]

Caroline Flint *[holding answer 12 January 2004]:* The available information is given in the table. The statistics collected centrally relate only to the illegal conversion into firearms of anything which, though having the appearance of being a firearm, is so constructed as to be incapable of discharging any missile through its barrel. It is not possible to make a distinction between the type of guns converted, but the conversion of air weapons is not covered by the offence under section 4(3) of the Firearms Act 1968 since most are already classified as firearms.

Persons proceeded against for conversion of firearms, England and Wales

	Number
1998	4
1999	3
2000	[1]1
2001	3
2002	4

[1] Excludes figures for Staffordshire.

Note:
Statistics for 2003 will be published in the autumn.

Lancashire Police Force

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will list the full-time equivalent strength of the police force in Lancashire, broken down by rank, for each of the last three years. [148366]

Ms Blears: The information requested is set out in the table. Decisions on the number of officers in each rank below that of Assistant Chief Constable is the responsibility of the Chief Constable.

Rank	*31 March 2001*	*31 March 2002*	*31 March 2003*
ACPO Ranks[1]	4	4	4
Chief Superintendent[2]	—	—	8
Superintendent	33	31	20
Chief Inspector	37	35	41
Inspector	163	166	174
Sergeant	513	513	514
Constable	2,505	2,555	2,578

[1] ACPO ranks include Chief Constable, Deputy Chief Constable and Assistant Chief Constable.

[2] Chief Superintendent rank was abolished in April 1995 and was reintroduced from 1 January 2002. Separate collection of Chief Superintendent and Superintendent data was not reintroduced until March 2003.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many special constables there were in Lancashire, in each of the last three years, broken down by rank. [148367]

Ms Blears: Home Office figures on police strength moved to an annual cycle from March 2002 and are available in the House Library, as are previous publications. The total number of Special Constables in Lancashire for each of the past three years is as follows:

31 March 2001—360

31 March 2002—363

31 March 2003—351.

There are no ranks specified in Regulations for the Special Constabulary and information concerning grades used within forces is not collected centrally.

Leak Inquiries

Dr. Julian Lewis: To ask the Secretary of State for the Home Department what inquiries his Department has conducted into alleged leaks from members of staff since 1997; and on what occasions the names of those persons accused of leaking information from his Department have been made public *(a)* by the Government and *(b)* by way of another source. [147008]

Fiona Mactaggart *[holding answer 12 January 2004]:* Since 1997, the Home Office has investigated 65 suspected leaks. In line with Exemptions 1 (a) and 7 (b) set out in Part II of the Code of Practice on Access to Government Information, it has been the practice of successive governments not to comment on the outcome of such inquiries in order to safeguard security and investigative arrangements.

Migrant Workers

Mr. Cousins: To ask the Secretary of State for the Home Department how many migrant workers there are in the UK *(a)* from the EU and *(b)* from outside the EU; and what percentage he estimates are legal migrant workers. [142417]

Beverley Hughes: It is not possible to provide the information in the form requested. Such information we can provide is set out in the table.

The total number of migrant workers with a UK arrival date April 2001 to March 2002; applying for a national insurance number

	Number
Total	156,400
EU	43,265
Outside the EU	113,135

Notes:
1. Totals may not sum due to rounding.
2. Figures are taken from a 100 per cent. sample and are rounded to the nearest five.

IAD Information Centre

Murders (Lancashire)

Mr. Hoyle: To ask the Secretary of State for the Home Department how many murders were *(a)* committed and *(b)* solved in Lancashire in each of the last five years. [148211]

Ms Blears: The information requested is given in the table.

Numbers of homicide[1] offences recorded by Lancashire Police

	Offences recorded	Offences detected
1998–99	24	24
1999–2000	19	18
2000–01	27	26
2001–02	21	21
2002–03	28	24

[1] Homicide is comprised of murder, manslaughter and infanticide offences.

Overseas Visitors

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people visited the United Kingdom from *(a)* Cameroon, *(b)* Romania and *(c)* South Africa in the last year for which figures are available. [147781]

Beverley Hughes: The latest available information is given in the following table.

Passengers given leave to enter the United Kingdom as visitors, by nationality, 2002

United Kingdom — *Number of journeys*

	Total	Ordinary visitor	Business visitor
Romania	30,800	11,400	19,300
South Africa	189,000	146,000	42,900

Note:
The figures in this table have been rounded to three significant digits;
because of this the sum of the constituent items may not agree with the total as shown.

I regret that is not possible to identify Cameroon separately in our visitor statistics.

Data on passengers given leave to enter the United Kingdom are published in the Command Paper 'Control of Immigration: Statistics United Kingdom 2002' (Cm6053), obtainable from the House Library, The Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

Mr. Evans: To ask the Secretary of State for the Home Department how many people entered the UK from the USA in the latest year for which figures are available. [148411]

Beverley Hughes: The latest available information shows that a total of 4,220,000 USA nationals were admitted to the United Kingdom during 2002.

Data on passengers given leave to enter the United Kingdom are published in the Command Paper 'Control of Immigration: Statistics United Kingdom 2002' (Cm 6053), obtainable from the Library, The Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html

Parliamentary Questions

Annabelle Ewing: To ask the Secretary of State for the Home Department (1) when he will reply to written question No.142767 of 8 December 2003; [149507]

(2) when he will reply to written question No.142763 of 8 December 2003. [149508]

Beverley Hughes: I have replied to both written questions 142763 and 142767 from the hon. Member. The former was answered on 15 January 2003, *Official Report*, column 877, and the latter was answered today, 20 January.

Police

Mr. Watts: To ask the Secretary of State for the Home Department what the current level is of police civilian support staff. [148315]

Ms Blears *[holding answer 19 January 2004]*: The number of full-time equivalent police staff for the police service in England and Wales (includes 43 police force areas and the National Crime Squad) was 63,105 on 31 March 2003. This figure excludes community support officers and traffic wardens.

Mr. Paice: To ask the Secretary of State for the Home Department if he will list for each police force in England and Wales *(a)* in rank order and *(b)* in alphabetical order the ratio of full-time equivalent police officers to population (i) in 1996–97 and (ii) on the latest available date. [148313]

Ms Blears *[holding answer 19 January 2004]*: The following table provides the ratio of police officers to population for 31 March 1997 and 31 March 2003.

Police officer strength[1]

Rank order				Alphabetical order			
Police force area	March 1997[2]	Police force area	March 2003[2,3]	Police force area	March 1997[2]	Police force area	March 2003[2,3]

Mr. Caton: To ask the Secretary of State for the Home Department why Tetra technology was chosen for the UK police force modern digital radio system, excluding competition from other technologies. [147810]

Ms Blears: Expert assessments of available technologies were made at the start of the procurement process for the new police radio system. The experts concluded that TETRA was the only standard to meet fully the requirements of the police service.

Dr. Kumar: To ask the Secretary of State for the Home Department how many police officers, broken down by *(a)* sex and *(b)* ethnicity, were employed by each English police force in (i) 1992, (ii) 1997, (iii) 2001 and (iv) at the latest date for which figures are available. [148407]

Ms Blears: The available information is given in the following tables:

Police officer strength[1] *in England by gender as at 31 March*

English police forces	*1992*	*1997*	*2001*	*2003*

[3] Full-time equivalent

Prisons

Sandra Gidley: To ask the Secretary of State for the Home Department how many people aged over 65 years are serving sentences in England and Wales; and what provisions are being made to meet their health, social and rehabilitation needs. [145626]

Paul Goggins: The number of sentenced prisoners in prisons in England and Wales on 30 June 2002 who were aged 65 and over was 636.

The Prison Service does recognise its duty to care for older prisoners and seeks to meet all their needs, including medical, according to individual circumstances. The Service does not allocate specific resources to the rehabilitation of older prisoners but rather through a system of sentence planning for all prisoners it ensures that they undertake activities necessary to reduce the risk to the public on release as well as providing any necessary resettlement support.

Mr. Oaten: To ask the Secretary of State for the Home Department how many juvenile prisoners in each prison are foreign nationals. [144352]

Paul Goggins: Information on the number of prisoners aged under 18, in each prison in England and Wales, who are foreign nationals is given in the following table.

Foreign national prisoners aged under 18 as at 30 April 2003

	Number
Ashfield	2
Brinsford	4
Bullwood Hall	2
Castington	1
Dover	1
Feltham	59
Hindley	1
Hollesley Bay/Warren Hill	14
Holloway	2
Huntercombe	20
Lancaster Farms	2
New Hall	2
Onley	4
Pare	1
Stoke Heath	4
Thorn Cross	1
Werrington	1
Wetherby	5
Total	126

Mr. George Osborne: To ask the Secretary of State for the Home Department what percentage of *(a)* the prison population and *(b)* young offenders had previously been in local authority care in each of the last five years. [147336]

Paul Goggins: Information on the percentage of the prison population who had previously been in local authority care is not held centrally.

The National Prison Survey 1991 reported that 26 per cent. of prisoners surveyed were in care as a child. For those prisoners aged under 21, 38 per cent. were in care as a child.

Tom Cox: To ask the Secretary of State for the Home Department how long the longest-serving *(a)* male and *(b)* female prison inmate has been held in prison; and for what offence they were convicted when they were originally sentenced to imprisonment. [148598]

Paul Goggins: The longest serving male prison inmate was received into custody 51 years ago and was convicted of murder. The longest serving female prison inmate was received into custody 22 years ago and was convicted of kidnapping.

Mr. Stinchcombe: To ask the Secretary of State for the Home Department how many prisoners in HM prisons in England and Wales are sharing *(a)* two to a cell designated for one and *(b)* three to a cell designated for two. [146956]

Paul Goggins: At the end of November 2003 16,692 prisoners were held two to a cell designed for one, while 1,206 prisoners were held three to a cell designed for two.

The data are provisional and subject to validation by prisons.

Mr. Flight: To ask the Secretary of State for the Home Department what the weekly cost of keeping a prisoner in prison was in the last year for which figures are available. [147412]

Paul Goggins *[holding answer 4 January 2004]:* The weekly cost per prisoner for prisons in England and Wales in 2002–03 was £697. This figure is expressed in resource accounting terms.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list all *(a)* private and *(b)* voluntary providers of services to the Prison Service, together with the services they provide to each prison. [147370]

Paul Goggins: The information requested is not available and can be provided only at disproportionate cost. At the present time there are around 20,000 organisations—voluntary, public and private—providing goods and services to the Prison Service.

Mr. Simon Thomas: To ask the Secretary of State for the Home Department what the visiting hours and days were for each prison in April in each year since 1997; and what the visiting hours and days will be for each prison in April 2004. [147950]

Paul Goggins: Prisoners' minimum entitlements to visits, in terms of regularity and length are prescribed centrally. The arrangements for both social and official visits are, however, determined locally by individual governors, taking into account operational matters and resources. Data on these arrangements are not centrally collated and to do so would be at disproportionate cost.

Mr. Heyes: To ask the Secretary of State for the Home Department what action he is taking to increase the opportunities for prisoners to find employment once released back into the community. [148314]

Paul Goggins: *[holding answer 19 January 2004]:* The Government are investing £14.5 million a year in the Prison Service Custody to Work initiative. This is linked to a target of 31,500 job, training or education outcomes for prisoners on release in 2003–04. The Prison Service is increasing skills training and jobsearch training and support for prisoners, developing closer partnerships with employers and Jobcentre Plus, and providing more housing advice and support services for prisoners.

Mr. Oaten: To ask the Secretary of State for the Home Department what steps he is taking to reduce re-offending by *(a)* involving families in resettlement work throughout the prison sentence and *(b)* maintaining prisoners' family ties. [146229]

Paul Goggins: The Prison Service acknowledges that family and other community links are vital to effective resettlement of prisoners, and that families have a valuable role to play in helping to reduce re-offending and protect the public.

With regard to offenders under the age of 18, and all those sentenced to the detention and training order, there is a mandatory requirement on governors to ensure that, where appropriate, families are given the opportunity to contribute to the sentence planning process throughout the custodial part of the sentence. For adult prisoners the extent of involvement is left to the discretion of individual establishments.

The Prison Service has been working, together with other agencies, to develop an integrated approach to supporting prisoners and their families in sustaining their relationships. Examples of such work include:

Participation in the Inter-Ministerial Group response to the Social Exclusion Unit report "Reducing re-offending by ex-prisoners", in particular how best to take forward the proposal for a National Rehabilitation Strategy.

Establishment of a seven-year partnership with voluntary and statutory agencies in the Eastern Area offering a comprehensive package of services and support to the families of prisoners within prisons and in the wider community.

Providing information to prisoners to enable them to maintain family links and giving advice to families about prisons and the opportunities for keeping in touch.

Enabling prisoners' families to maintain ties through improved visiting conditions, such as extended family visits; play areas and story tapes for children recorded by the imprisoned parent; and increasing the number of visitors' centres which offer additional support.

Development of family learning programmes, some of which include attendance by partners and children.

Refocusing of the multi-agency Family Ties Consultative Group to enhance policy development in this area.

Continuing to offer financial assistance for families on low income visiting prisoners through the Assisted Prisons Visits scheme.

Tim Loughton: To ask the Secretary of State for the Home Department how many transsexuals are serving prison sentences. [147697]

Paul Goggins: Information is not held centrally on the number of transsexuals serving prison sentences.

Departmental Procurement

Norman Lamb: To ask the Secretary of State for the Home Department if he will make a statement on his Department's procurement policy with regard to offshore IT and call centre outsourcing; whether his Department is outsourcing IT and call centre jobs to offshore companies; to which countries his Department has outsourced these jobs; how much his Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147587]

Fiona Mactaggart: The Home Office procurement policy follows standard Government procurement policy that all public procurement is based on value for money, having due regard to propriety, security of information and regularity. The Home Office comply with the requirements of the EU Treaty, including the principal of non-discrimination, the EC procurement directives and the UK's international obligations. This procurement policy applies to offshore IT and call centre outsourcing.

The Home Office is not currently outsourcing IT or call centre jobs to offshore companies and has not spent anything on outsourcing these services to offshore companies in the last two years.

No funds have been budgeted for this purpose for the next two years.

Prostitution

Lynne Jones: To ask the Secretary of State for the Home Department what plans he has for the reform of laws relating to prostitution; and if he will make a statement. [147074]

Caroline Flint: The Sex Offences Act, due to be implemented in May 2004, introduces a range of new offences specifically dealing with the exploitation of children and adults through prostitution.

We are currently examining what further changes to the criminal law are needed in respect of prostitution, as well as some of the wider associated issues—including the links with serious drug abuse, violent and other crime, and damage to local communities. We hope to publish a paper for public consultation later this year.

Criminal Convictions

Mr. Gibb: To ask the Secretary of State for the Home Department what assessment he has made of the change in *(a)* criminal convictions and *(b)* the custodial population between 1980 and 2000. [141794]

Paul Goggins: I refer the hon. Member to my letter of 18 December 2003.

Parole

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the *(a)* age of victim, *(b)* type of offence, *(c)* age of complainant and *(d)* relationship of accused to complainant was for each of the deniers who applied for parole, referred to on page 17 of the latest Parole Board report. [146287]

Paul Goggins: The information requested is not held centrally and to provide it would incur disproportionate cost.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the offence categories were for the prisoners who were denied parole on the basis of their continuing denial of guilt in April 2003. [146288]

Paul Goggins: There were no prisoners refused parole in April 2003 on the grounds of their continued denial of guilt. It would be unlawful for the Parole Board to refuse parole on the basis of denial of guilt or any factors that may stem from it.

The Prison Service does not maintain a central record of prisoners who deny their guilt. However, since January 2003, the Parole Board has kept a record of all such cases referred for their consideration. Its records show that in April 2003 the following categories of prisoners who denied guilt had a parole review.

	Number
Sexual offenders	18
Violent offenders	4
Property offenders	2
Drug offenders	4
Other	1

Somerset Drugs Service

Mr. Laws: To ask the Secretary of State for the Home Department if he will make a statement on the reasons why the Somerset Drugs Service has stopped providing drug rehabilitation support for drug addicts in the Yeovil constituency other than for pregnant women and suicide risks; and what assessment he has made of the effects of this decision on levels of crime. [147416]

Caroline Flint *[holding answer 14 January 2004]:* The Government have provided the Somerset Drug Action Team (DAT) with substantially increased funds in order to reduce waiting times for admission to treatment in the county. This year Somerset Drugs Service (SDS), one of the service providers, had their budget increased by £200,950 to £1,763,214. Following the consequent increase in availability of treatment there has been a substantial increase in those seeking treatment. In quarter 2 of 2002 SDS had 287 active clients of whom 74 were in Yeovil; in quarter 2 of 2003 SDS had 426 active clients of whom 146 were in Yeovil representing almost a 100 per cent. increase in demand in the town in the space of a year. Such dramatic increases have put some short-term pressure on budgets, which has temporarily prevented waiting times being reduced as quickly as originally anticipated. However no one who needs it will be denied treatment. All those presenting for treatment continue to be to prioritised according to assessed need and the risk of harm to self and to the community.

In order to continue to expand the service to drug users and provide the most effective treatment in the face of increasing demand the DAT commissioned a strategic review from Oxford Brookes University of the whole of its adult drug treatment system. The results of this review are being considered at a meeting on 13 January. In addition to £35,000 allocated this financial year, from April, the DAT has been allocated an extra £284,462 from the Governments Criminal Justice Intervention Programme Throughcare and Aftercare Budget. These increases will ensure that treatment provision continues to improve by assisting the DAT and implement the recommendations of its strategic review.

As a result of targeting prolific offenders and making rapid treatment available to them, where necessary, the county has seen significant falls in rates of burglary over the first three quarters of this financial year when compared to the same period last year.

Street Crime

Mr. Rosindell: To ask the Secretary of State for the Home Department if he will make a statement on street crime in towns and cities, with particular reference to Romford. [148489]

Ms Blears: The Street Crime Initiative was launched on 17 March 2002 to reduce levels of robbery in England. It covers the 10 police force areas which together account for the great majority of recorded robbery: Avon and Somerset, Greater Manchester, Lancashire, the Metropolitan Police, Merseyside, Nottinghamshire, South Yorkshire, Thames Valley, West Midlands, and West Yorkshire.

The Initiative involves a wide range of agencies working in partnership and delivering a programme of practical measures. Through this work, the Government has reduced street crime in the 10 police force areas by 17 per cent. in 2002–03, which means 17,000 fewer offences, and by 21 per cent. in the Metropolitan Police area. Havering, which includes Romford, saw a 13 per cent. reduction in robbery in 2002–03, with 479 offences, down from 549 in 2001–02.

Speed Cameras

Mr. Chope: To ask the Secretary of State for the Home Department what action he is taking to ensure that speed cameras do not take pictures of a vehicle's reflection rather than the vehicle itself to calculate speed; and how many drivers he estimates have been wrongly penalised by reason of such errors. [149006]

Caroline Flint: The rigorous type approval process operated by the Home Office Police Scientific Development Branch (PSDB) is designed to ensure that speed camera evidence can be fully relied on

As a further precaution, however, all automatic static camera devices provide for a secondary check. This enables the officer viewing an apparent offence to make a judgment as to the vehicle's speed independent of the speed measured by the device. To enable this check, the device takes two photographs 0.5 seconds apart. The secondary check is performed by measuring the distance travelled along white lines painted on the road between the taking of the two photographs and calculating the vehicle's speed from these.

While it is technically possible for a camera to record a vehicle's reflection, rather than the vehicle itself, this is extremely rare in practice. Where it does occur, the difference revealed by proper application of the secondary check will make it obvious that there has been an error.

Traffic Wardens

Mr. Hoyle: To ask the Secretary of State for the Home Department how many traffic wardens there were in Lancashire in each of the last three years. [148368]

Ms Blears: The number of full-time equivalent traffic wardens in Lancashire police force in each of the last three years were as follows:

	Traffic wardens
31 March 2001	87
31 March 2002	84
31 March 2003	50

Visas (School Children)

Mr. Boswell: To ask the Secretary of State for the Home Department what action he is taking to overcome

administrative problems over visas required by children at school in the UK who are resident abroad to travel home for holidays. [144933]

Beverley Hughes: The Immigration and Nationality Directorate gives priority attention to applications for children who need to travel urgently. Extra staff have been allocated to resolving payment issues and process timelags that can delay these applications from being decided. Resources have been prioritised to ensure every effort is made so that schoolchildren and other customers who wish to travel urgently have their applications completed or a short period of leave granted to enable them to travel.

Young Offenders

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on his plans to provide drug treatment for young offenders addicted to hard drugs. [148602]

Caroline Flint: To ensure that effective treatment is available when it is needed, we have made significant investments in the youth justice system and drug treatment sector.

An arrest referral scheme for young people is currently being piloted, to get young offenders into treatment or other appropriate interventions as early as possible. £6 million is being invested to pilot arrest referral for young people in 10 high crime areas across England. Trained staff in the police custody suites identify if young people have a substance misuse issue and refer them to appropriate treatment or intervention.

The Youth Justice Board (YJB) has provided £8.5 million funding each year for all 155 youth offending teams across England and Wales to have access to an allocated named drugs worker. The drugs worker is able to assess the needs of young people and ensure that they receive appropriate treatment or other interventions.

80 per cent of drug action teams areas now have access to community-based young people focused treatment services. DATs across the country are continuing to improve and build on existing provision so that the number of different modalities of treatment for young people are increased.

The Youth Justice Board is investing £10 million this year and for the next two years. This will establish integrated substance misuse services through out all juvenile custodial institutions that will ensure that young people are able to access similar levels of service provision within the juvenile secure estate as in the community. The Youth Justice Board will ensure that custodial institutions are able to provide: identification, assessment and planning services; prevention and education work; support and appropriate programmes; detoxification and clinical management; and on release throughcare and resettlement.

Mr. Drew: To ask the Secretary of State for the Home Department if he will make a statement on the decision to re-introduce young offenders into Gloucester Prison; and whether the decision was affected by the closure of Ashfield Young Offenders Institution. [146729]

Paul Goggins: The allocation of young adult offenders (YAOs), aged 18- 20, into Gloucester prison forms part of the ongoing programme to adjust the population mix of adult and young prisoners at a number of establishments. This is in response to the requirements of the Youth Justice Board for juvenile places and to increasing demand for spaces for adult male prisoners. This will be achieved through careful monitoring of population changes and the allocation of prisoners to establishments appropriate to their needs. It will also ensure maximum use of all available spaces in the prison estate, while minimising the distance of remand prisoners from the courts. This will enable the Prison Service to maintain its service to the courts despite the population pressures.

Ashfield prison is not being closed, but will instead only hold young prisoners, aged 15–17. Gloucester and other prisons in the area will hold remand and sentenced YAOs. Sentenced YAOs returning from court will be held at Gloucester for the minimum time possible before being transferred on to other establishments with YAO regimes.

Written Answers to Questions

Wednesday 21 January 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Carbon Dioxide Emissions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will rule out amending to 15 per cent. the Government's 2010 target for reduction in carbon dioxide emissions. [148613]

Mr. Morley *[holding answer 19 January 2004]:* The Government today published for consultation its draft National Allocation Plan for the EU Emissions Trading Scheme. In doing so, we reaffirmed our commitment to our domestic goal to move towards a reduction in emissions of carbon dioxide of 20 per cent. on 1990 levels by 2010.

The UK Climate Change Programme sets out the policy framework to ensure that we meet our Kyoto target and move towards the domestic goal. We are committed to reviewing the Programme this year, which will provide an opportunity to introduce new policies and measures, or to strengthen existing ones, if the conclusion is that more needs to be done to achieve the domestic goal.

Montreal Protocol

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department is working to ensure that the UK fulfils its obligations under the Montreal Protocol. [148006]

Mr. Morley *[holding answer 19 January 2004]:* The UK signed and ratified the Montreal Protocol in 1987, and has since ratified the four other amendments, London (1990) Copenhagen (1992) Montreal (1997) and Beijing (1999). The Community has implemented its obligations under the Montreal Protocol through EC Regulation 2037/2000, which is directly applicable in UK law. This Regulation has put in place an accelerated phase-out programme on the supply and use of ozone depleting substances, as EU member states were keen to move faster than the Protocol. A statutory Instrument has been introduced which creates offences and sets penalties for any breaches of the ozone regulation.

Nuclear Energy

Mr. Paul Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the audited amount of *(a)* plutonium and *(b)* uranium at each nuclear energy facility which was unaccounted for in each year since 1997. [148500]

Nigel Griffiths: I have been asked to reply.

In accordance with international practice, the inventory difference that occurs when the result of a physical inventory of nuclear material is compared with the book inventory is referred to as MUF ('material unaccounted for'). The difference may be negative (an apparent loss) or positive (an apparent gain). MUF is a recognised feature of accounting for nuclear material and is caused primarily by the uncertainties inherent in the techniques used to measure nuclear material. MUF figures at UKAEA, BNFL and Urenco sites are published annually by the industry. Copies of the figures published since 1997 have been placed in the Library of the House. There is no evidence to suggest that there have been any real losses or gains of nuclear material.

Oral Statements

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason she has made no oral statement to the House on an environmental matter since July 2002. [148586]

Margaret Beckett: I take very seriously the importance of keeping the House properly informed across the whole range of my broad portfolio of responsibilities.

Packaging Waste

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Producer Responsibility Obligations (Packaging Waste) (Amendment) (England) Regulations 2003 were not published until 14 January; and if she will delay their entry into force. [148980]

Mr. Morley: The Producer Responsibility Obligations (Packaging Waste) (Amendment) Regulations 2003 were not published until 14 January due to delays caused by the Christmas holiday period. However, the Regulations came into force on 1 January 2004, as intended.

Protected Species

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the criteria are for designating a wild species of animal as protected. [148656]

Mr. Bradshaw: Every five years the Joint Nature Conservation Committee (JNCC) advises Government on which animals should be legally protected by listing on Schedule 5 of the Wildlife and Countryside Act, 1981. JNCC reported to Government with its recommendations in September 2002, which included full protection for this species. The next stage is for Government to conduct a public consultation based on these recommendations, which will occur in spring 2004. Following this consultation, the Secretary of State will decide on the changes to be made to the schedules and these will be implemented by Statutory Instrument.

For a species to be recommended for scheduling one of the eligibility criteria in each of the Sections A to D below should be met:

A. Generally, only native (including re-established) taxa are to be considered. Taxa introduced or thought to be introduced to Great Britain by man could be considered exceptionally, with the following provisos.

(i) the organism is endangered or extinct in its native range, and

(ii) preferably, the natural range reaches the north west coast of Europe (i.e. continental distribution extends to the Atlantic coast of France, Belgium, the Netherlands, Germany or Scandinavia; for marine taxa, the distribution includes the north west Atlantic area), and provided that

(iii) information suggests that the organism is unlikely to have an adverse impact on important native species or ecosystems.

B. The taxon must be either:

(i) established in the wild in Great Britain; or

(ii) occur as a vagrant in Great Britain and require international protection; or

(iii) be believed extinct in Great Britain as a breeding species, but be in the process of re-establishment; or

(iv) be believed extinct in Great Britain, but with the possibility that it could become re-established naturally.

C. The taxonomic status of the organism must be well authenticated. Taxa below the species level could be considered, providing they are:

(i) clearly recognisable (i.e. morphologically distinct), and

(ii) geographically or ecologically distinct.

D. The taxon must be endangered in Great Britain, or likely to become so unless conservation measures are taken, and/or be subject to an international obligation for protection. One or more of the following may indicate that a taxon is or may become endangered:

(i) it is included in a JNCC-approved British Red Data Book as Extinct, Endangered or Vulnerable (or, in Red Lists drawn up using the recently revised IUCN criteria, as Extinct in the Wild, Critically Endangered, Endangered or Vulnerable)]

(ii) it has been well searched for but is known from only a single locality;

(iii) it is confined to a particularly threatened habitat. The extent or quality of the habitat is being significantly reduced or is likely to become significantly reduced, thus threatening the survival of the organism;

(iv) it is rapidly declining in population, number of localities occupied or range. Indicative would be at least 50 per cent. decline observed, estimated inferred or suspected in the last 20 years, or a decline of at least 50 per cent. projected, inferred or suspected to be likely in the near future. The decline must transcend normal fluctuations;

(v) it is endangered, or likely to become endangered through being targeted for exploitation or killing for commercial reasons and/or through being particularly attractive to collectors.

International obligations apply to a taxon which is:

(vi) naturally resident and listed on Appendices I, II or III of the Bern Convention; Annexes II, IV or V of the EC Habitats and Species Directive; Appendix I of the Bonn Convention (unless derogations are in force); and/or endemic to Great Britain and included in a JNCC-approved British Red List.

TRANSPORT

Drink-driving

Mrs. Curtis-Thomas: To ask the Secretary of State for Transport what assessment he has undertaken of the impact on drink-related accidents of lowering the legal limit of alcohol for drivers from 80 mg to 50 mg; and for what reasons he has not introduced a lower alcohol in blood limit. [147927]

Mr. Jamieson: The Government considers that strengthened enforcement of existing controls, combined with publicity and education, is the appropriate basis for dealing with drink-drive accidents and casualties. The Government carried out an analysis of the possible savings in road traffic casualties from a reduction in the legal alcohol limit for the purposes of the 1998 consultation document "Combating Drink Driving: Next Steps", a copy of which is in the House Library. This estimated that a reduction in the limit to 50mg/100ml could save around 50 fatalities per year, but was based on a number of assumptions about accident causation and individual driver compliance. We have also considered more recent published research into the potential impact of lowering the limit, the results of which appear to be inconclusive.

Shipping

Mr. Paul Marsden: To ask the Secretary of State for Transport how many *(a)* injuries and *(b)* fatalities of employees of shipping companies there were in each year since 1997, broken down by company. [148486]

Mr. Jamieson: The Marine Accident Investigation Branch (MAIB), a separate branch within the DfT, records injuries and fatalities to crew of UK vessels.

Regulation 9(1)(e) of The Merchant Shipping (Accident Reporting and Investigation) Regulations 1999 has the effect of preventing the disclosure, for any purpose other than the investigation, of any report of an accident provided to the MAIB, including the names of the ship owners. However, where an investigation has been ordered by the Chief Inspector, regulation 10 provides that a report is to be made publicly available. The following table therefore shows figures only for injuries and fatalities to crew of UK registered merchant vessels for which investigations have been concluded and a report published, as at 16 January 2004.

Owner Name	*(a) Injuries*	*(b) Fatalities*
1997		
Alderney Shipping Co Ltd.		1
J. R. Rix and Sons Ltd.		1
Lowline Ltd.	6	
Orcargo		1
Princess Cruises Inc.	1	
Vector Offshore Ltd.	1	
Viking Standby Ltd.	1	
Total	9	3
1998

Cunard Line Ltd.	1	1
P&O North Sea Ferries Ltd.	1	
Total	1	1
2003		
Hanson Aggregates Marine Ltd.		1
Total	1	0

Note:
1. Accidents to shore based workers onboard ships in port/drydock are reported to HSE, not MAIB.
2. There is no general requirement for foreign flagged vessels, even in UK waters, to report onboard accidents to personnel to UK authorities.

Mr. Paul Marsden: To ask the Secretary of State for Transport how many *(a)* injuries and *(b)* fatalities to workers on ships there were in each year since 1997. [148487]

Mr. Jamieson: Figures for the number of crew killed and injured on UK registered merchant vessels, reported to the Marine Accident Investigation Branch of DfT by 15 January 2004, are as follows:

	Killed	Injured
1997	5	329
1998	2	320
1999	4	278
2000	3	305
2001	3	287
2002	5	301
2003	2	261

Notes:
1. Accidents to shore based workers on board ships in port/dry dock are reported to HSE, not MAIB.
2. There is no general requirement for foreign flagged vessels, even in UK waters, to report on-board accidents to personnel to UK authorities.
3. The number of UK flagged merchant vessels increased by more than 20 per cent. between 2001 and 2003.

Norman Baker: To ask the Secretary of State for Transport on how many occasions, in each year since 1990, powers to direct a ship to leave UK waters have been used, giving in each case the reason for the direction. [148848]

Mr. Jamieson: The powers to direct a ship to leave UK waters have only been used on one occasion. On 19 July 1999, a direction was issued to the MV Rainbow Warrior for the purpose of securing the safety of the ship and of other ships, persons on the ship and other ships, and other persons and property.

Aviation

Mr. Tynan: To ask the Secretary of State for Transport what further sanctions are available to his Department to recover fines where an airline has been banned from United Kingdom airspace due to non-payment of fines. [148960]

Mr. McNulty: The recovery of charges due under Carriers Liability legislation in respect of passengers arriving in the United Kingdom without the required documents is the responsibility of the Home Office. Such charges may be recoverable through the courts as a debt. However, if a carrier was not operating to the United Kingdom, the enforceability of a court's judgment would be a relevant consideration in deciding whether to pursue this course.

Mr. Gerald Howarth: To ask the Secretary of State for Transport if he will reduce the charges levied on users of British airspace as a result of the transfer of responsibility for aviation safety regulation from the UK CAA to the European Aviation Safety Agency. [149596]

Mr. McNulty: Regulation (EC) No. 1592/2002, establishing the European Aviation Safety Agency, applies to the design, production, and airworthiness of aircraft and aircraft products, together with associated personnel and organisations. It has no bearing on the way British airspace is managed or the charges levied with respect to the use of British airspace.

The Agency took up its safety regulatory duties on 28 September 2003, and for the time being, has authorised national aviation administrations, including the UK CAA, to carry out tasks on its behalf under national charging schemes. Until the Agency has established its own staff and processes, including a Regulation on fees and charges, we cannot estimate the precise effect on the work of the CAA. The CAA intends to review with UK industry the impact that EASA will have on the costs of its Safety Regulation Group and the associated charges to UK industry.

Bus Travel

Mr. Drew: To ask the Secretary of State for Transport if he will make a statement on his plans to work with the Office of Fair Trading to clarify the position on the ability of bus companies and local authorities to offer through ticketing arrangements permitting cross-boundary travel by encouraging reciprocal arrangements. [148277]

Mr. McNulty: These matters are regularly discussed between my right hon. Friend and the Chairman of the Office of Fair Trading (OFT).

Car Insurance

Andy Burnham: To ask the Secretary of State for Transport what estimate he has made of *(a)* the number of people driving on roads in England and Wales without adequate insurance cover in each of the last five years and *(b)* trends in driving without insurance in recent years. [148738]

Mr. Jamieson: Current estimates from the insurance industry are that there are about 1.25 million motorists driving while uninsured. No estimates are available for earlier years. Figures for convictions for uninsured driving show an average yearly increase of 1.2 per cent. since 1998.

Andy Burnham: To ask the Secretary of State for Transport what estimate his Department has made of the average cost to the insurance premium holder in each of the last five years of driving without insurance. [148740]

Mr. Jamieson: For the year 2002 the cost to each motorist's insurance premium is estimated at between £15 and £30. However, no figures are available for previous years.

Flight Paths

Norman Baker: To ask the Secretary of State for Transport what guidance his Department has issued to airlines in respect of flight paths that take commercial aircraft above 30,000 feet. [148589]

Mr. McNulty: The Department has not issued any guidance. When designing air traffic services routes, airspace planners are bound by the provisions of guidance material contained in the ICAO Air Traffic Services Planning Manual—Doc. 9426. In addition, the operational approval and aircraft certification given by the Civil Aviation Authority to aircraft operators covers the operation of aircraft at all phases of flight at any level.

Norman Baker: To ask the Secretary of State for Transport what environmental assessment has been made of the *(a)* benefits and *(b)* disbenefits of commercial aircraft flying at (i) 20,000, (ii) 25,000, (iii) 30,000 and (iv) 35,000 feet. [148590]

Mr. McNulty: No specific assessment has been made of the benefits and disbenefits of flight at these altitudes. However, research jointly undertaken by DLR (the German aerospace agency) and Manchester Metropolitan University within the European research project, TRADEOFF, looked at the hypothetical impact of reducing cruise altitudes on contrail coverage and its radiative forcing (a measure of the climate impact), as well as the effect of increased fuel consumption (and hence CO^2 emissions). The research concluded that flying at lower cruise altitudes reduced contrail formation but increased fuel consumption.

Any detailed assessment would have to explore these trade-offs further. The research was not intended to suggest changes in operating practices, which would need full international agreement.

Kazahkstan (Air Transport)

Mr. Hancock: To ask the Secretary of State for Transport if he will make it his policy to argue, in his discussions with the Government of Kazahkstan, that a charter service from Uralsk to Amsterdam cannot be considered as a replacement for a service from Uralsk to London; what recent discussions he has had on this matter; and if he will make a statement. [149485]

Mr. McNulty: I refer the hon. Member to my answer of 14 January 2004, *Official Report*, column 745W.

We are pursuing this matter with the Kazakh Government. Our objective is to ensure that the services offered by airlines meet passenger demands and that no unreasonable obstacles are put in the way of those services.

Lower Airspace Radar Service

Mr. Gerald Howarth: To ask the Secretary of State for Transport (1) why he has initiated a regulatory impact assessment on the funding of his Lower Airspace Radar Service; and if he will make a statement; [149597]

(2) what plans he has to charge general aviation users for the Lower Airspace Radar Service. [149598]

Mr. McNulty: The Secretary of State has not initiated a regulatory impact assessment on this matter as funding of the Lower Airspace Radar Service (LARS) is the responsibility of the Civil Aviation Authority (CAA) through its Directorate of Airspace Policy.

I understand that the CAA will shortly be issuing a consultation document setting out the options for the future funding of the service.

Roads

Mr. Chope: To ask the Secretary of State for Transport what his estimate is of the proportion of congestion on roads in England and Wales which is caused by poorly planned and lengthy street works carried out *(a)* by utilities and *(b)* by or on behalf of highway authorities. [145530]

Mr. Jamieson *[holding answer 5 January 2004]*: The Department does not hold figures for the proportion of congestion cause by street works that are poorly planned or lengthy, whether carried out by utilities or highway authorities. However, Transport Research Laboratory figures indicate that all types of road and utility works cause around 10 per cent. of congestion on the Highways Agency's Trunk Road and Motorway system. The proportion of this carried out by Utility Companies is under 2 per cent.

The Department does not hold equivalent figures for local roads. Relatively little utility apparatus is located under motorways and trunk roads. Therefore, congestion caused by utility works on local authority roads will be significantly higher than the equivalent figure for Highways Agency roads given above.

David Taylor: To ask the Secretary of State for Transport what proportion of the Highways Agency's budget was spent on road maintenance projects in *(a)* 2002 and *(b)* 2003. [149147]

Mr. Jamieson: The proportion spent in 2002–03 and forecast to be spent in 2003–04 is about 46 per cent.

David Taylor: To ask the Secretary of State for Transport what major improvements are planned to the trunk road network. [148927]

Mr. Jamieson: The Highways Agency's Targeted Programme of Improvements (TPI) to the trunk road and motorway network currently comprises 72 schemes each costing more than £5 million. These are:

A1(M) Ferrybridge—Hook Moor (under construction)
A1(M) Wetherby—Walshford (under construction)
A2—Cobham Phase 1 (under construction)
A2 Bean—Cobham Phase 2
A2/A282 Dartford Improvement
A5 Weeford—Fazeley Improvement
A10 Wadesmill Colliers End (under construction)
A14 Rookery Crossroads Grade Separated Junction
A21 Lamberhurst Bypass (under construction)
A34 Chieveley/M4 J13 Improvement (under construction)
A63 Selby By-pass (under construction)

A120 Stansted – Braintree Improvement (under construction)
A249 Iwade – Queenborough Improvement
A303 Stonehenge
A421 Great Barford By-pass
A500 City Road and Stoke Junction Improvement
M25 J12–15 Widening (under construction)
M60 J5–8 Widening (under construction)
A1 Attleborough By-pass
All Fiveways – Thetford Improvement
A47 Thorney By-pass
M6 Carlisle to Guardsmill extension
A63 Melton Grade Separated Junction
A14 Haughley New St – Stowmarket Improvement
A3 Hindhead Improvement
A38 Dobwalls By-pass
A595 Parton – Lillyhall Improvement
A1 Peterborough – Blyth Grade Separated Junctions
M62 Junction 6 Improvement
A46 Newark – Widmerpool Improvement
A30 Bodmin Indian Queens
A483 Pant – Llanymynech Bypass
A5117/A550 Deeside Park Junctions Improvement
A419 Blunsdon
A66 Temple Sowerby and Improvement at Winderwath
A1 Dishforth to Leeming
A1 Bramham – Wetherby (Including Wetherby By-pass)
A1 Leeming to Barton
A64 Rillington By-pass
M40/A404 Handy Cross Junction Improvement
A47 Blofield to North Burlingham Dualling
A66 Greta Bridge to Stephen Bank Improvement
A66 Carkin Moor to Scotch Corner Improvement
A428 Caxton Common to Hardwick Improvement
A30/A382 Merrymeet Junction
A66 Long Newton Junction
A1 Stannington Junction (under construction)
A69 Haydon Bridge By-pass
A419 Commonhead Junction
M4 Junction 18 Eastbound Diverge
M5 Junctions 17–18 Northbound Climbing Lane
M5 Junctions 19–20 Southbound Climbing Lane
M5 Junctions 19–20 Northbound Climbing Lane
M1 Junction 19
A14 Ellington – Fen Ditton Improvement
A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle By-pass
A45/A46 Tollbar End Improvement
M1 Junction 6a to 10 Widening
M1 Junction 10 to 13 Widening
A1 Morpeth to Felton Dualling
A1 Adderstone to Belford Dualling
A1/A19/A1068 Seaton Burn Junction Improvement
A19/A184 Testos Grade Separated Junction
A505 Dunstable Northern Bypass (A5 to M1 Link)
A421 Bedford to M1 Junction 13
A21 Tonbridge to Pembury
M40 Junction 15 (Longbridge)
A64 Colton Lane Grade Separated Junction
A590 High and Low Newton By-pass
M20 Junction 10A
A30 Garland Cross to Chiverton Cross
A30 Temple to Higher Carblake Improvement

Speed Cameras

Mr. Baron: To ask the Secretary of State for Transport how sums of money raised in fines from speed cameras in Essex which have exceeded the totals spent on purchasing and operating speed cameras in Essex have been spent in each of the five years prior to 2001–02; and whether these sums have been allocated to another Department. [149383]

Mr. Jamieson *[holding answer 20 January 2004]*: Prior to the start of the cost recovery system to fund safety camera activity in 2000–01 all revenue from speeding fines was passed to the Consolidated Fund at HM Treasury.

Mr. Baron: To ask the Secretary of State for Transport pursuant to his answers of 6 January 2004, *Official Report*, columns 215W and 216W, and his answer of 13 January 2004, *Official Report*, columns 676–7W, how the £520,357, that was collected in fines from speed cameras that was not spent in purchasing and operating speed cameras in Essex in 2001–02, was spent; and whether this sum was allocated to another Department. [149384]

Mr. Jamieson *[holding answer 20 January 2004]*: Under the netting off scheme the amount returned to the safety camera partnership can only cover the cost of purchasing and operating safety cameras. The rest is passed to the Consolidated Fund at HM Treasury.

London Underground

Mr. Hancock: To ask the Secretary of State for Transport whether his Department has made representations to Transport for London regarding *(a)* reliability and *(b)* comfort, under each of the PPP contracts for the London Underground. [149014]

Mr. McNulty: The Department for Transport has not made specific representations to Transport for London on either of these issues. I have regular meetings with the Mayor for London, London Underground and Transport for London. At these meetings a wide range of issues are discussed, including the operational performance of the Underground and the delivery of improvements to the network.

WALES

Student Finance

9. **Kevin Brennan:** To ask the Secretary of State for Wales what discussions he has had with the First Secretary on the devolution of higher education funding for students to the National Assembly for Wales. [148359]

Mr. Hain: I refer my hon. Friend to the answer I gave to the hon. Member for Wrexham (Ian Lucas) today.

National Minimum Wage

10. **Mr. Caton:** To ask the Secretary of State for Wales what assessment he has made of the impact of the national minimum wage in Wales. [148360]

Mr. Hain: Around 60,000 people in Wales stood to benefit from the introduction of the National Minimum Wage in April 1999 and for the increases since.

Prisoners (Police Cells)

11. **Mr. Swayne:** To ask the Secretary of State for Wales what recent discussions he has had with North Wales police authority about reducing the numbers held in police cells in north Wales. [148361]

Mr. Touhig: My right hon. Friend and I have regular discussions with representatives of the police forces in Wales.

Cells are normally used only to accommodate people who need to be held in custody by the police. Occasionally, prison inmates are held overnight because they cannot reach their prison by a reasonable time, or to facilitate their return to court the next day.

Local Government Finance

12. **Mr. Gray:** To ask the Secretary of State for Wales what recent discussions he has had with the First Secretary about the Barnett formula. [148362]

Mr. Hain: I have regular meetings with the First Minister to discuss funding arrangements for Wales. The Barnett formula is a means of calculating changes to the Welsh Block from its historic base.

NHS Funding

Mr. Rosindell: To ask the Secretary of State for Wales what recent discussions he has had with the National Assembly for Wales Government on the funding of the NHS in Wales. [148357]

Mr. Hain: I have met the First Minister and the Assembly Health Minister in recent weeks to discuss the NHS and health provision in Wales.

Since 1997, funding for the NHS across the UK has increased; in Wales the 2004–05 budget for health will be almost 95 per cent. more than in 1996–97.

In Wales, as in the rest of the UK, this has resulted in greater numbers of doctors and nurses, improved services and more patients being treated.

DEFENCE

Airfield Support Service Project

Mr. Clifton-Brown: To ask the Secretary of State for Defence what the estimated aggregate costs incurred by the three bidding consortia for the Airfield Support Service Project are. [149057]

Mr. Ingram: Actual costs incurred by the three bidding consortia are not known to the Department and are a matter for the consortia themselves.

Al Yamamah

Mrs. Brooke: To ask the Secretary of State for Defence if he will publish the 1992 National Audit Office report about the Al Yamamah programme. [149510]

Mr. Ingram *[holding answer 20 January 2004]*: I refer the hon. Member to the answer I gave on 12 February 2003, *Official Report*, column 735W.

Armed Forces Pension Scheme

Mr. Gerald Howarth: To ask the Secretary of State for Defence what arrangements he intends to make in relation to the Armed Forces Pension Scheme and compensation to ensure that *(a)* a beneficiary is guaranteed five years' worth of payments notwithstanding earlier death and *(b)* lump sum payments to give effect to such guarantee are not taxed at a 35 per cent. rate. [149152]

Mr. Caplin: The decision of the new Armed Forces Pension Scheme includes a provision to allow a lump sum payment to a spouse or partner of up to five years' pension payments, less the lump sum received on retirement and pension payments up to the date of death, if a member dies after retirement but within five years of the pension coming into payment. The Government propose in "Simplifying the taxation of pensions: the Government's proposals", published on 10 December 2003, that such payments should be taxed at 35 per cent. The Ministry of Defence will be considering the benefit proposal further in the light of the taxation arrangements.

Army

Mr. Keith Simpson: To ask the Secretary of State for Defence what the budget for army combat arms training was in each month since January 2001. [148870]

Mr. Ingram *[holding answer 19 January 2004]*: Army combat arms training has been taken to encompass individual training for all personnel at Phase 1 (initial) training (which will include individuals who go on to serve in non-combat arms), and individual training at phase 2 (specialist) and phase 3 (career and development) training for personnel serving in the Royal Armoured Corps, the Royal Artillery, the Infantry, and the School of Army Aviation. LAND Command undertakes collective training for the whole Army but cannot identify specific costs associated with such training for combat arms. The sums shown include an element for HQ Admin costs etc., which cannot easily be separated out, but exclude all salary costs of trainees, which are accounted for separately. The figures are as follows:

Month	*£ million*
April 2001	27.599
May 2001	28.447
June 2001	31.833
July 2001	30.378
August 2001	26.729
September 2001	27.676
October 2001	28.505
November 2001	29.591
December 2001	29.585
January 2002	29.409
February 2002	28.914
March 2002	30.046

Month	£ million
April 2002	29.777
May 2002	31.053
June 2002	31.142
July 2002	31.429
August 2002	30.959
September 2002	30.589
October 2002	31.957
November 2002	31.251
December 2002	31.126
January 2003	33.256
February 2003	29.879
March 2003	31.905
April 2003	32.660
May 2003	32.836
June 2003	27.767
July 2003	32.421
August 2003	28.732
September 2003	29.089
October 2003	32.559
November 2003	32.034
December 2003	28.318
January 2004	31.626
February 2004 (projected)	31.573
March 2004 (projected)	31.225

Dr. Tonge: To ask the Secretary of State for Defence how many army musicians were obliged to down-rank on transferring to the Guards regiments from other regiments; and what effect this down ranking will have on these soldiers' pensions. [148963]

Mr. Caplin: Transfer to bands of the Guards Division is voluntary. Seventeen army musicians who volunteered to transfer and are still serving accepted reversion to the rank of Musician as a condition of transfer. Reversion in rank has not been a condition of transfer since April 2003.

Reversion in rank may affect an individual's pension award. Rank for the purpose of assessing pension entitlement is calculated by taking the highest paid rank held for an aggregate of two years or more during the last five years reckonable service.

Mr. Keith Simpson: To ask the Secretary of State for Defence what financial restrictions have been placed on army recruiting. [148869]

Mr. Caplin *[holding answer 19 January 2004]:* None.

Correspondence

Mr. Steen: To ask the Secretary of State for Defence when he will provide a substantive reply to the letter from the hon. Member for Totnes of 24 November 2003 about Mrs. Iris Griffiths of Kingsbridge and the Defence Export Services Organisation, which was acknowledged by his Department on 2 December 2003. [148721]

Mr. Ingram *[holding answer 19 January 2004]:* My noble Friend Lord Bach wrote to the hon. Member on 15 January 2004.

Departmental Posts (Gibraltar)

Mr. Hoyle: To ask the Secretary of State for Defence how many *(a)* civilian and *(b)* service posts in his Department in Gibraltar will be (i) transferred to the private sector and (ii) removed. [148458]

Mr. Ingram: Headquarters British Forces Gibraltar is currently evaluating the most cost-effective method of delivering janitorial, catering and transportation services. Although under review, at this stage no decisions have been made to transfer posts to the private sector.

Routine local resource management plans are to make a reduction of 23 civilian and one service posts, over the next four years. We envisage that this will be achieved by a combination of natural wastage and voluntary early retirement.

Forces Personnel

Dr. Pugh: To ask the Secretary of State for Defence what statistical data his Department collates on the rate of marital break-up among forces personnel. [148150]

Mr. Caplin: Each service records, on individual pay and personnel documents, the marital status of its personnel using different marital categories. Analysis of marital break-ups and divorce rates is carried out on an ad hoc basis by analysing changes to the marital status of personnel.

Iraq

Adam Price: To ask the Secretary of State for Defence if he will make a statement on the application of standards in the UN Basic Principles on the use of force and firearms by law enforcement officials for law enforcement duties conducted by UK military personnel in Iraq. [141686]

Mr. Ingram: The practices adopted by United Kingdom military personnel in Iraq are consistent with the UN Basic Principles for the use of force and firearms by law enforcement officials, despite the fact that we are operating in circumstances rather different from those in which it was intended to be applied.

Adam Price: To ask the Secretary of State for Defence what mechanisms are in place to ensure the *(a)* impartiality and *(b)* independence of investigations into non-combatant deaths in Iraq. [141687]

Mr. Ingram: In exercising their constabulary powers the Royal Military Police (RMP) are independent of the Army's chain of command. At the conclusion of any RMP investigation, a report together with supporting evidence is submitted to the appropriate commanding officer and to the Army Legal Services—ALS. ALS will then advise the commanding officer whether there is a prima facie case for disciplinary action. In serious cases, ALS will advise the commanding officer on the procedure for referral to a higher authority and, if appropriate, on to the Army Prosecuting Authority—APA. The APA is statutorily independent of the chain of command. The independence of the APA was confirmed in the European Court of Human Rights in the Cooper Case last December.

Adam Price: To ask the Secretary of State for Defence if he will publish the soldier's card issued to forces serving in Iraq. [147676]

Mr. Ingram: The soldier's card contains information about the Rules of Engagement. It is not our practice to comment on Rules of Engagement and I am

withholding information regarding their contents under Exemption 1 of the Code of Practice on Access to Government Information.

Mr. Keetch: To ask the Secretary of State for Defence if he will list the contracts let to private contractors for the supply and support of UK troops in Iraq, stating in each case the nature and value of the contract; and if he will make a statement. [148004]

Mr. Ingram *[holding answer 19 January 2004]:* I am withholding the information requested in accordance with Exemption 7 of the Code of Practice on Access to Government Information as it is commercial in confidence.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 8 January, *Official Report*, column 453W, on Iraq, when the Iraq Survey Group is to make its final recommendations. [148035]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 January 2004, .*Official Report*, column 538W, to my hon. Friend the Member for Hampstead and Highgate (Glenda Jackson).

Mr. Hancock: To ask the Secretary of State for Defence what his strategy is for ensuring that children in Iraq do not come into contact with depleted uranium. [148055]

Mr. Ingram: British forces are taking the following actions to minimise the risk posed to civilians by Depleted Uranium (DU):

DU fragments on the surface are being removed from the battlefield as they are discovered.

Local people have been warned through signs and leaflets that they should not go near, or touch, any debris they find on the battlefield.

Military vehicles known to have been hit by DU munitions within the southern sector of Iraq under British military control have been clearly marked.

Mr. Hancock: To ask the Secretary of State for Defence how many people are employed in the Iraq Survey Group. [148064]

Mr. Hoon: On 16 January 2004, there were 1,272 people employed in the Iraq Survey Group.

Mr. Keith Simpson: To ask the Secretary of State for Defence how many of the 9,100 ISO containers used for Operation TELIC are missing and unaccounted for by his Department. [148868]

Mr. Ingram *[holding answer 19 January 2004]:* To date 9,595 ISO containers have been supplied in support of Operation TELIC. Of this number 5,793 currently remain in use on the operation.

The balance of 3,802 have either been returned, re-tasked or are awaiting return to either the MOD or to the leasing companies as appropriate.

At present we have 73 containers, 0.76 per cent. of the original amount, unaccounted for. It is expected that the next information update from theatre will identify the locations of the majority of these containers and that they will either be in transit or have been re-tasked.

It is stressed that it is unusual to lose a container totally. It is far more likely that it would have been re-tasked or returned and that a delay has occurred in getting the relevant information back to the Defence Container Management Service.

Tony Wright: To ask the Secretary of State for Defence what number and percentage of Army Medical Service reserve personnel have left the service following Operation Telic. [149350]

Mr. Caplin: Although we do not hold figures for the number of people leaving the Army Medical Services Territorial Army (AMS TA) overall, I can confirm that 240 Professionally Qualified Officers, from Role 3 reserve medical units (field hospitals) have left the TA over the last 12 months. This represents approximately 13 per cent. of these units. Very few of these individuals gave Operation Telic, or the risk of mobilisation, as their primary reason for leaving. Over the same period, approximately 300 people joined the same units.

Mrs. Liddell: To ask the Secretary of State for Defence (1) if he will list the other national contingents under the command of 3 (UK) Division; [143729]

(2) if he will list the countries involved in the Multinational Division (South-East) (MND(SE) in the South Iraq provinces of Basra, Maysen, Dhi Qar and Al Muthanna. [143730]

Mr. Ingram: 3 (UK) Division formally handed over headquarters duties to the Multinational Division (South East) on 28 December 2003.

In addition to United Kingdom forces the following nations currently contribute a combined total of around 5,200 personnel to the Multinational Division: Italy; Denmark; Norway; Netherlands; Czech Republic; Portugal; Romania; New Zealand; Lithuania; Japan and Iceland.

Harry Cohen: To ask the Secretary of State for Defence what assessment his Department has made of the failure rate of the bomblets in the cluster munitions his Department purchased from BAe Systems in 2003; whether the use of these munitions in Iraq has contributed to the assessment; and if he will make a statement. [146431]

Mr. Ingram: No cluster artillery shells purchased from BAe Systems in 2003 were used in Iraq during Operation Telic. The ammunition used during Operation Telic was from a procurement made in 1996. No assessment of cluster artillery shells was carried out in Iraq.

However, each batch of these munitions procured is subject to acceptance proof firing. This requires a statistically viable sample of each batch to be fired and monitored. The area is then searched by the manufacturer's Explosive Ordnance Disposal personnel to identify and report any bomblet failures. All ammunition lots we have procured have met the requirements. Other testing involves a random sample of the Self Destruct Fuze being independently tested by the manufacturer prior to assembly. Again, all these fuzes have met the requirements.

Procurement

Mr. Hancock: To ask the Secretary of State for Defence how many contractors' bid costs have been refunded in full, or in part, as a result of procurement competitions being terminated or substantially altered since 1997; in how many cases compensation has been paid; what the total value of such payments is; and if he will make a statement. [147957]

Mr. Ingram: The information requested is not held centrally and could be provided only at disproportionate cost (Exemption 9 of the Code of Practice on Access to Government Information).

In the event that a procurement competition was terminated or substantially altered consideration would be given, on a case-by-case basis, to whether to reimburse bid costs.

Reservists

Angus Robertson: To ask the Secretary of State for Defence how many *(a)* full-time reservists with full commitment contracts, *(b)* full-time reservists with limited commitment contracts, *(c)* full-time reservists with home commitment contracts and *(d)* volunteer reservists have been called out on active duty in each year since 1997; and what the average active duty service time has been for each category. [148669]

Mr. Caplin: The Full Time Reserve Service (FTRS) commitment was established in 1998.

The numbers of FTRS personnel called out for permanent service by the Royal Navy (including Royal Marines) and Royal Air Force since 1998 are detailed in the following table. The Army does not keep a separate record of FTRS personnel called out for permanent service.

	FTRS full commitment	*FTRS limited commitment*	*FTRS home commitment*
1998	0	0	0
1999	0	0	0
2000	0	0	0
2001	2	2	0
2002	3	2	0
2003	18	56	0

These figures do not include those personnel who, as part of their FTRS commitment, served on operations.

We have been unable to distinguish between the forms of service that reservists were undertaking when mobilised. Therefore, the figures detailed as follows cover all reservists mobilised.

	Number of reservists mobilised
1997	980
1998	840
1999	1,400
2000	1,120
2001	920
2002	1,720
2003	9,550

A central record of the average period of mobilised service that each category has served since 1997 is not available and could be provided only at disproportionate cost. However, in 2003 for Operation TELIC reservists would have been mobilised for between seven and nine months (this includes pre-deployment training and post-deployment leave).

Service Accommodation

Mr. Hancock: To ask the Secretary of State for Defence how many married quarters *(a)* were released to Annington Homes in each year since 1996 and *(b)* are projected to be released in each of the next five years; what the location is in each case; and what factors influence decisions on releases. [146516]

Mr. Caplin: Within the Defence Housing Executive's (DHE) overall disposal programme, the following numbers of properties have been handed back to Annington Homes, following the sale of the bulk of the family estate in 1996:

	Properties
1997	8
1998	1,366
1999	1,188
2000	2,679
2001	2,640
2002	2,366
2003	1,513

At the time of the overall sale and leaseback in 1996, 2,373 properties were released to Annington Homes. Subsequently, a total of 11,760 properties have been handed back at over 300 sites across England and Wales. A further 560 properties are due to be handed back by the end of March 2004.

Territorial Army

Mr. Swayne: To ask the Secretary of State for Defence how many members of the Territorial Army serving in *(a)* 2 Signals Brigade and *(b)* its subordinate units have been mobilised during Operation Telic. [149422]

Mr. Caplin: One hundred and sixty six members of the Territorial Army who serve in either 2 Signals Brigade, or its subordinate units, have been deployed on Operation TELIC.

Timber

Norman Baker: To ask the Secretary of State for Defence pursuant to his answer of 8 December 2003, *Official Report*, column 277W, how many and what percentage of contracts issued by his Department since August 2002 which involved the use of wood have not complied with the Defence Contract Condition (DEFCON) 691. [148847]

Mr. Caplin: The Ministry of Defence places in excess of 30,000 contracts per annum. MOD commercial staff are advised to include the Defence Contract Condition (DEFCON) 691 in all relevant contracts that may involve the supply or consumption of timber. However, if it is clear that performance of contracts does not involve the supply or consumption of timber, then

DEFCON 691 need not be called up. The MOD does not keep central records of the number of contracts, which contain DEFCON 691.

University Places (Service Sponsorships)

Mrs. May: To ask the Secretary of State for Defence what discussions he and his officials have had with the Department for Education and Skills on the impact of the introduction of top-up fees on service sponsorships for university places. [149042]

Mr. Caplin: None.

Mrs. May: To ask the Secretary of State for Defence what assessment he has made of the impact of the introduction of top-up fees on the provision of service sponsorships for university places. [149043]

Mr. Caplin: No assessment has yet been made.

FOREIGN AND COMMONWEALTH AFFAIRS

Chechnya

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department's approach to the human rights issue in Chechnya includes representations to the Chechen Government. [149160]

Mr. Rammell: The UK's representations over human rights in Chechnya have, to date, been made to representatives of the Russian Federal Government, rather than to local authorities.

Hebron Rehabilitation Committee

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial support the United Kingdom has given to the Hebron Rehabilitation Committee; and if he will make a statement. [149096]

Mr. Straw: The UK has not given any financial support to the Hebron Rehabilitation Committee. However, we are aware of their valuable work restoring the old city of Hebron, and have in the past lobbied the Government of Israel to ensure the Committee's work is not obstructed.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the welfare of animals denied access to Palestinian pasture lands since the construction of the security wall. [148902]

Mr. Rammell: I refer the hon. Member to the answer I gave her on 19 November 2003, *Official Report*, column 1054W. As we made clear then, we have serious concerns about the impact of the fence on the daily life of those Palestinians directly affected. We are particularly concerned at the impact the establishment of a closed zone has had on access to basic services, including health and education in the area, and on the ability of Palestinian farmers to cultivate farmland and care for their livestock.

Migrant Workers

Mr. McNamara: To ask the Secretary of State for Foreign and Commonwealth Affairs what correspondence he has received since 1 July 2003 on the coming into force of the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families; and what steps remain to be taken before UK ratification of the Treaty. [149249]

Mr. Rammell: The Government have received communication from a variety of sources seeking UK ratification. However, we have no plans to ratify the Convention on the Protection of the Rights of all Migrant Workers and Members of Their Families. The scope of the Convention is wider than the UK's existing immigration laws. Incorporating it into UK law would imply fundamental changes to our legislation and would undermine the UK's system of frontier control.

The Government consider they have already struck the right balance between the need for immigration control and the protection of the interests and rights of migrant workers.

Rwanda and Burundi

Mr. Love: To ask the Secretary of State for Foreign and Commonwealth Affairs what efforts are being made to assist *(a)* Rwanda and *(b)* Burundi to bring those guilty of crimes against humanity to justice; and if he will make a statement. [148856]

Mr. Mullin: We are working with the Rwandan Government to develop and begin implementation of a strategy for legal and judicial reform; implement the "gacaca" process of local justice in all provinces: and work constructively with the International Criminal Tribunal for Rwanda. In Burundi, during 2003–04 we are contributing £5.7 million towards the cost of the African Union's peace-keeping force. We are also encouraging the UN to look at ways in which the international community can support post-conflict justice.

Mr. Love: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance is being provided to *(a)* Rwanda and *(b)* Burundi to fight terrorism; and if he will make a statement. [148857]

Mr. Mullin: We are not providing direct assistance to Burundi and Rwanda to fight terrorism, but we are helping Rwanda with security sector reform and looking at the possibility of doing so in Burundi. We currently assess the threat from international terrorism in Burundi and Rwanda as low, but this is kept under careful review.

Mr. Love: To ask the Secretary of State for Foreign and Commonwealth Affairs what support is being provided to efforts to initiate the peace process in Burundi; and if he will make a statement. [148859]

Mr. Mullin: The UK has increased its engagement in Burundi since the signing of the Arusha agreement in 2000, providing both political and financial support. We are working with the EU, UN and regional partners to consolidate the peace process to support peace-building activities, including the African Mission in Burundi, and long-term recovery and poverty reduction.

In 2003–04, the UK has made a total of £11.6 million available for Burundi, including £5.7 million to support the African Union-led peace-keeping force.

Sunset Clauses

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his policy on the use of sunset clauses in legislation; and which Acts containing such clauses relevant to his Department were passed in each year since 1997. [149331]

Mr. Straw: Whether a sunset clause is needed in legislation depends on the circumstance of each Bill. In the case of the Foreign and Commonwealth Office (FCO), much of our legislation is to implement HMG's international obligations, so if those obligations do not have a specific time limit, a limit in our domestic legislation would not be appropriate. No Acts of Parliament since 1997 for which the FCO is responsible contained a sunset clause.

United Nations

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the deadlines were for payment of regular budget contributions to the United Nations for each year since 1993; and when the United Kingdom made these payments in each year. [148667]

Mr. Rammell: The United Nations Secretariat issues invoices for contributions to the Regular Budget at the end of December each year, following the conclusion of General Assembly business in the fifth committee. Contributions are due within 30 days of receipt of invoice.

The Foreign and Commonwealth Office pays 25 per cent. of its assessed contribution in January and the remaining 75 per cent. in April, in keeping with Treasury rules on expenditure which falls across financial years.

Western Sahara

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have been held with representatives of *(a)* the UN, *(b)* the Government of Morocco and *(c)* the Polisario concerning the future government of the Western Sahara; and if he will make a statement. [148299]

Mr. Rammell: We regularly discuss the situation in Western Sahara with our contacts at all levels in the United Nations, the Moroccan Government and the Polisario.

Most recently, my noble Friend the Baroness Symons of Vernham Dean discussed Western Sahara and other issues with the Moroccan Deputy Foreign Minister, Fassi-Fihri, at his request when he was in London on 6 January.

Zimbabwe

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations his Department has received from Zimbabwean journalists on issues surrounding freedom of the press in that country. [149159]

Mr. Mullin: The British Embassy in Harare has regular contact with a wide range of journalists in Zimbabwe, including those from independent newspapers. I met a senior delegation from the Daily News during their November 2003 visit to the UK. We condemn the Government of Zimbabwe's attempts to block press freedoms in Zimbabwe, and the state-sponsored violence and human rights abuses which accompany their misguided policies. We will continue to do all we can to defend freedom of speech and of the press in Zimbabwe.

MINISTER FOR WOMEN

Directorships

Miss McIntosh: To ask the Minister for Women if she will make a statement on the number of women holding directorships in FTSE 100 companies; and what this represents as a percentage of the total number of directors. [148398]

Ms Hewitt *[holding answer 15 January 2004]:* The number of female directorships has reached 101 in 2003, up by 20 per cent. on the previous year. Women now account for 9 per cent. of FTSE 100 board members and nearly 4 per cent. are in executive roles.

The Higgs and Tyson reports, which the Government commissioned last year, looked at a number of aspects for improving the overall performance of company boards. The Higgs Review reported on how the quality, independence, and effectiveness of non-executive directors may be strengthened; and the Tyson Report subsequently considered how companies could pursue recruitment of directors from broader and more diverse backgrounds.

The Government strongly support all efforts to improve the diversity and effectiveness of company boards. Since November, my right hon. Friend the Deputy Minister for Women and Equality and I have been meeting Chairs, Chief Executives and senior figures from business to raise awareness about the business case for greater diversity on UK boards and to gather examples of good practice already in place, which we plan to disseminate further to companies, professional bodies and executive recruitment firms.

CULTURE, MEDIA AND SPORT

Gambling Bill

Mr. Hancock: To ask the Secretary of State for Culture, Media and Sport what the expected timetable is for the draft Gambling Bill after the consultation period ends. [149482]

Mr. Caborn: After taking account of the recommendations of the Joint Committee, which is now scrutinising the draft Bill, and of the points made in our

wider public consultation on its provisions, we intend to amend its provisions as necessary and to introduce a Bill as soon as parliamentary time permits.

Statutory Sick Pay

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport how many people employed in her Department have claimed statutory sick pay for *(a)* less than one week, *(b)* one to three weeks, *(c)* four to six weeks, *(d)* seven to 12 weeks, *(e)* 13 to 20 weeks and *(f)* 21 to 28 weeks in each year since 1997. [148631]

Mr. Caborn: This information is not held within the Department and can be obtained only at disproportionate cost. For civil servants generally, sick absence may be allowed on full pay for up to six months. Departments are responsible for paying Statutory Sick Pay to staff for up to 28 weeks as a proportion of their full pay.

CHURCH COMMISSIONERS

McClean Review

Mr. Ben Chapman: To ask the hon. Member for Middlesbrough, representing the Church Commissioners when he expects the publication of the first report of the McClean Review into clergy terms of service to the Archbishops' Council. [149477]

Sir Stuart Bell: The report of the McClean Group will be published and copies sent to members of the Church of England's General Synod on 23 January. A copy will be placed in the House of Commons Library and I will also ensure my hon. Friend receives one.

PRIME MINISTER

11 September

Mr. Dalyell: To ask the Prime Minister what representations he has made to President Bush about assistance for families of British victims of events on 11 September 2001 in pursuing inquiries into those events. [149500]

The Prime Minister: We have had extensive discussions with the US Government, at many levels, about circumstances surrounding the events of 11 September 2001. An independent commission of inquiry in the US into pre-11 September intelligence is also taking place.

The Government remains ready to help UK relatives of 11 September victims in their dealings with the US Government in any way that we can.

Iraq

Llew Smith: To ask the Prime Minister whether the United Kingdom has shared with the United States Administration and US intelligence services the information on alleged Iraqi attempts to procure uranium from Niger, to which he referred in his letters of 1 September 2003 and 28 October 2003 to the hon. Member for Blaenau Gwent. [149538]

The Prime Minister: Exchanges between UK intelligence officials and their opposite numbers in the US are confidential and it would not be appropriate to provide any farther details beyond those we have already provided.

TREASURY

Aggregates Levy

David Taylor: To ask the Chancellor of the Exchequer (1) what assessment has been made of the impact of the aggregates levy since its introduction on the quarrying industry in *(a)* the East Midlands and *(b)* the United Kingdom; [148961]

(2) when the level of the aggregates levy was last reviewed; [148962]

(3) what assessment he has made of the impact the aggregates levy has had since its introduction on *(a)* the extraction of virgin aggregates and *(b)* the use of secondary aggregates in (i) the East Midlands and (ii) the UK; [148972]

(4) what plans there are to review the level of the aggregates levy; [148975]

(5) what assessment has been made of the impact of the aggregates levy since its introduction in *(a)* the East Midlands and *(b)* the UK. [149143]

John Healey: An update on the Government's current assessment of the impact of the aggregates levy was in the pre-Budget report (Cm 6042). Monitoring of the aggregates levy takes the form of a rolling programme of research and analysis of data as it becomes available. It encompasses all regions of the UK and it takes account of data from specific research, such as the Government-commissioned Symonds Report on the levy's impact in Northern Ireland, as well as information from business organisations, individual companies, environment groups and site visits by officials.

Emerging evidence suggests that overall primary aggregates extraction has fallen since the levy's introduction; for example, the total outputs from the Annual Minerals Raised Inquiry for Great Britain for 2002 show a decrease of 5.7 per cent. on the 2001 figures. While there are a number of factors affecting extraction levels, it is clear that the levy has played a significant part in encouraging that reduction.

The rate of the aggregates levy is reviewed annually as part of the Budget process.

Air Passenger Duty

Mr. Moss: To ask the Chancellor of the Exchequer what the *(a)* percentage rate and *(b)* actual tax revenue for air passenger duty was in each year since 1994. [149224]

John Healey: *(a)* Air passenger duty is not set as a percentage rate but as a monetary amount. Current air passenger duty rates are as follows.

£

	EEA Destinations	Non-EEA Destinations
Standard Rate	10	40
Reduced Rate	5	20

(b) Air passenger duty revenues for 2002–03 were £816 million and are published in HM Customs and Excise's Annual Report (HC52). Historic revenue figures can be found in table 2.1D of Financial Statistics published by the Office for National Statistics.

Barnett Formula

Adam Price: To ask the Chancellor of the Exchequer by what amounts *(a)* the Welsh Block and *(b)* the Scottish Block has been changed as a consequence of change in public funding for the Royal Botanic Gardens, Kew through the operation of the Barnett formula for each of the last six years. [148309]

Mr. Boateng: Changes in the Welsh and Scottish Blocks are determined through the Barnett formula, details of which were published in the Statement of Funding Policy in July 2002. The Barnett formula provides the devolved Administrations with aggregate increases reflecting a population share of overall increases in UK Government Departments' provision.

Charitable Donations (Developing Countries)

Mr. Bercow: To ask the Chancellor of the Exchequer what estimate he has made of the level of charitable donations from the United Kingdom to developing countries in each of the last five years. [149156]

John Healey: The Government conduct a survey every year of non-Governmental organisations which provide assistance to developing countries. Aid flows from voluntary agencies are estimated from a statistical inquiry conducted annually by DfID in line with current survey control policy. The following table sets out the figures for the years 1998 to 2002.

Expenditure by voluntary organisations in developing countries

£ million

	1998	1999	2000	2001	2002
Total expenditure	397	495	534	456	482
of which:					
Officially funded	143	175	170	207	221
Funded by other UK agencies	1	22	9	24	26
Privately funded	253	298	354	225	235

Source:
Voluntary agencies surveys of 1999–2003. The private element is published in DfID's annual publication "Statistics on International Development".

Civil Service (Disabled People)

Mr. Goodman: To ask the Chancellor of the Exchequer if he will set out the number of employees in his Department who have a disability, broken down by disability type. [148995]

Ruth Kelly: 5,247 of the 98,770 staff employed by the Treasury, Inland Revenue and HM Customs and Excise have declared a disability.

Correspondence

Mr. Salmond: To ask the Chancellor of the Exchequer when he intends to reply to the letter dated 5 November 2003 from the hon. Member for Banff and Buchan regarding EU children's clothes VAT plans. [149781]

John Healey: I replied to the hon. Member on 14 January.

Energy Efficiency

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer (1) what assessment he has made of the effects of widening the VAT reduction to 5 per cent. on energy saving materials; [149099]

(2) if he will take steps to allow a stamp duty rebate at time of purchase for homebuyers installing energy efficiency measures; [149098]

(3) if he will introduce a new tax allowance for private landlords investing in energy efficiency. [149100]

John Healey: The Government are committed to improving household energy efficiency, as part of their programme to meet Energy White Paper targets. The Government routinely evaluate the impact of policy initiatives, including environmental tax measures. The Government have a long-standing commitment to pursue EU changes to permit a reduced rate of VAT for the DIY installation of energy saving materials, and have already applied a reduced rate of VAT for the installation of materials in certain other circumstances. The Government consulted on further measures to improve household energy efficiency in 2003, including a tax allowance for private landlords investing in energy efficiency. The Government also invited views on other possible policy initiatives. Responses were published and are being taken into account in further policy development. In the pre-Budget report (Cm 6042) we confirmed that we believe that there is a case for the further use of economic instruments as part of a package of measures to promote energy efficiency. A further announcement will be made around Budget 2004.

Excise Taxes

Mr. Martyn Jones: To ask the Chancellor of the Exchequer what recent discussions he has had with the European Commission on combating the evasion of excise taxes within the European Union. [148479]

John Healey: Treasury Ministers and officials from the Chancellor's Departments hold discussions with the European Commission and their counterparts from other EU member states on a wide range of issues, including the effective operation of the EU excise system.

Fuel Tax

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what plans he has to increase the duty on liquefied petroleum gas; and if he will make a statement. [149417]

John Healey: In his Pre-Budget Report in December 2003 (Cm 6042), the Chancellor announced that the Government will gradually increase the duty rate for liquefied petroleum gas (LPG) over the next three years, setting duty differentials on a path towards a level commensurate with the fuel's environmental benefits. Consistent with the Government's commitment to give three-year certainty on duty differentials for alternative fuels, the duty differentials for LPG for the next three years will be announced in Budget 2004.

Inland Revenue Code of Practice 26

John Robertson: To ask the Chancellor of the Exchequer when the Inland Revenue's Code of Practice 26 will be made available to members of the public at local tax offices. [146331]

Dawn Primarolo: Code of Practice 26, "What happens when we have paid you too much tax credit?", is available to claimants via Inland Revenue Enquiry Centres. It is also available online at: www.inlandrevenue.gov.uk/leaflets/credit.htm.

World Debt

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer if he will make a statement about the terms and conditions relating to *(a)* loans made by the International Monetary Fund to third world countries and *(b)* debt cancellation. [149471]

John Healey: The International Monetary Fund (IMF) lends to low-income countries through the Poverty Reduction and Growth Facility (PRGF), a lending instrument offering softer terms than conventional IMF lending. Loans under the PRGF are based on a Poverty Reduction Strategy Paper (PRSP), which is prepared by the country in co-operation with civil society and other development partners, in particular the World Bank. The UK believes that IMF loan conditions should reflect only what is necessary for the success of a program, to ensure the protection of IMF funds, and to meet the core requirements of the Fund's mandate. Conditions should be appropriate for a particular country. This is upheld in new guidelines on conditionality introduced by the IMF in September 2002 and the UK will work to ensure these guidelines remain appropriate and that they are upheld in practice.

The UK continues to be fully committed to the rapid and full implementation of the Heavily Indebted Poor Countries (HIPC) Initiative to ensure that it delivers a robust exit from unsustainable debt for the world's poorest countries. To change the underlying dynamics of those countries in which debt indicators are deteriorating, it is important that—in addition to receiving debt relief—countries implement the reforms necessary to allow them to grow faster, to increase poverty reduction expenditure and to enable them to diversify their export bases and better absorb macroeconomic shocks, such as a decline in specific commodity prices. So far 27 countries have started to receive debt relief under the initiative, worth over US $70 billion. To be eligible for the HIPC Initiative, countries must be eligible for highly concessional assistance from the World Bank and the IMF, face an unsustainable debt situation after the full application of traditional debt relief mechanisms (such as application of Naples terms under the Paris Club agreement), and must make a commitment to poverty reduction through the implementation of a Poverty Reduction Strategy.

The HIPC Initiative has an important role to play in maximising the resources available for poverty reduction in developing countries. However, unless there is an increase in the volume of resources available from donors to poor countries, additional debt relief would simply reallocate resources from one form of financing to another, and from non-HIPC poor countries to HIPC countries, without adding to the overall financing available for poverty reduction. Furthermore, all HIPC countries would still need additional aid to meet the Millennium Development Goals even if all of their debt from the World Bank and IMF were cancelled. That is why the UK's proposal for an International Finance Facility is so important. It could provide the much-needed substantial increase in resources which debt relief alone would not achieve and which could be disbursed by way of grants and additional debt relief.

Places of Worship/Historic Buildings

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer (1) if he will make a statement on the implementation of existing VAT Directives relating to the care of listed places of worship; [149491]

(2) what fiscal incentives his Department provides to support the maintenance of historic buildings; what plans he has to increase this support and if he will make a statement. [149490]

John Healey: In accordance with the rules laid down in the EC Sixth VAT Directive, the repair and maintenance of listed places of worship, and of all other buildings, is standard-rated for VAT purposes.

We have been negotiating hard with our European Partners to extend the categories of permitted reduced VAT rates to include the repair and maintenance of listed places of worship. Although at this time the future of these negotiations is uncertain, it remains one of the Government's objectives to achieve such a reduced rate.

In the meantime we continue to provide support through the Listed Places of Worship Grant Scheme, which provides an equivalent reduction in the cost of these repair projects. In his Pre-Budget Report the Chancellor announced that funding for the grant scheme is in place for a further two years, until the end of March 2006.

As well as the Listed Places of Worship Grant Scheme, the Government provides a range of fiscal incentives to support the maintenance of historic buildings, including exemption from inheritance tax for heritage maintenance funds. The Government keeps all taxes under review and any changes are considered by my right hon. Friend the Chancellor of the Exchequer as part of the annual Budget process.

Public Expenditure (Allocation within UK)

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer with reference to the figures listed in Table 8.6b and 8.13b of the Corrigendum to Chapter 8 of the Public Expenditure Statistical Analyses 2003, what assessment he has made of the per capita cost of providing a parity of service provision in each region and nation of the United Kingdom with a view to determining which region/nation is receiving *(a)* more, *(b)* less and *(c)* the correct level of funding in each service programme. [149455]

Mr. Boateng: Spending by the devolved administrations is determined by the principles set out in the Statement of Funding Policy published by the Treasury in July 2002. Spending by region is determined by departments; there is no single allocation formula. Spending is determined according to the circumstances of the particular spending programme.

Scottish Executive

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer what changes he plans to make to determinants of the grant, other than the Barnett Formula, paid to the Scottish Executive in 2004. [149633]

Mr. Boateng: The Government's spending plans for 2004–05 were published in the 2002 Spending Review White Paper (Cm 5570). The grant to the Scottish Consolidated Fund for 2004–05 will be published in the Scotland Office chapter of the Department for Constitutional Affairs 2004–05 Departmental Report.

Sports Clubs

Mr. Reed: To ask the Chancellor of the Exchequer (1) how many community and amateur sports clubs are registered for tax relief; [149366]

(2) what steps he is taking to promote the package of tax concessions available to community and amateur sports clubs; [149367]

(3) if he will estimate the number of community and amateur sports clubs eligible for tax concessions. [149368]

John Healey: It is estimated that between 30,000 and 40,000 clubs might be eligible to apply for registration as a community amateur sports club (CASC). As at 16 January 2004, 587 CASCs had been registered. A list of registered clubs is published on the Inland Revenue website, and is updated on a monthly basis.

In the Pre-Budget Report (Cm 6042) the Chancellor announced the Government's intention to double the Corporation Tax thresholds below which registered CASCs are exempt from tax. This will mean that clubs with a trading turnover of less than £30,000 and gross property income of less than £20,000 will pay no Corporation Tax. The measure will be introduced in the next Finance Bill.

Clubs registered in England and Wales will also receive mandatory rates relief of 80 per cent. with effect from 1 April 2004. Local authorities can increase this relief to 100 per cent. at their own discretion. These measures will help clubs raise funds to improve facilities for participating in sport, by reducing the burden placed upon them.

The Inland Revenue, in partnership with the Central Council of Physical Recreation; Bates, Wells & Braithwaite; Deloitte & Touche and others, held a series of regional seminars in 2003 to promote the CASC scheme. The Inland Revenue continues to work closely with representative bodies to encourage awareness of the scheme among their members.

The Chancellor and the Secretary of State for Culture, Media and Sport also wrote to all Members of Parliament, including my hon. Friend the Member for Loughborough (Mr. Reed), in December, encouraging them to promote the scheme to amateur sports clubs in their constituencies.

Telephone Charges

Mr. Gerald Howarth: To ask the Chancellor of the Exchequer how much revenue was derived in 2002–03 by Government Departments and agencies from use of the 0870 telephone number which charges callers. [149599]

Mr. Boateng: Information about the use of 0870 services by Government Departments and agencies is not held centrally.

Thames Gateway Bridge

Mr. Cousins: To ask the Chancellor of the Exchequer whether the Thames Gateway Bridge will be included in the comparator expenditure for the purposes of allocations under the Barnett Formula; and how much additional money will go to the devolved administrations as a result. [149643]

Mr. Boateng: Comparability factors for the purpose of allocations under the Barnett formula are published in Annex C of the Statement of Funding Policy. The latest version was published by the Treasury in July 2002. Comparability factors are updated in each Spending Review. Under the Barnett formula the devolved administrations receive a population share of comparable aggregate increases in departmental spending.

Tourism (VAT)

Mr. Moss: To ask the Chancellor of the Exchequer what plans he has to amend the VAT rate on tourism services, with particular reference to tourist accommodation. [149225]

John Healey: The Chancellor keeps all tax matters under constant review, and I refer the hon gentleman to the answer I gave to the hon. member for Meirionnydd Nant Conwy (Mr. Llwyd) on 12 June 2003, *Official Report*, column 823W.

Trade Union Recognition Ballots

Mr. Tynan: To ask the Chancellor of the Exchequer what types of expenses accrued by a company campaigning against a trade union recognition ballot would be *(a)* tax deductible and *(b)* able to be offset against other tax liabilities; what the total amount of tax not paid in respect of such expenses has been in each of the last five years; and what plans he has to change the tax rules applying to such expenses. [149577]

Dawn Primarolo:

(a) Expenses which are deductible in computing a company's trading profits are those revenue expenses which are incurred wholly and exclusively for the purposes of the company's trade and which are not subject to a specific statutory prohibition.

(b) Such expenses cannot be set against other tax liabilities as such, but a trading loss created or augmented by such expenses may be set against other liabilities as permitted by statute.

We have no centrally available information on this matter.

Tax policy is kept under continuous review and any changes are announced by the Chancellor, usually at the time of the Budget.

HOME DEPARTMENT

Asylum Seekers

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many induction centres for asylum seekers there are in the UK; and how many asylum seekers have been processed by induction centres since they opened. [147861]

Beverley Hughes: There are currently two induction centres open in the UK: Dover Induction Centre which opened in January 2002 and Yorkshire and Humberside which opened in June 2003. These two induction centres have processed about 26,700 asylum applicants collectively.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many induction centres for asylum seekers the Government plans to open; when they will open; and where. [147862]

Beverley Hughes: The Government plans to establish a network of induction centres in London and the regions during 2004. Negotiations with potential providers for further induction centres are ongoing so the exact locations and final number cannot be confirmed at this time. The final number will depend on the number of bedspaces each potential provider can deliver and capacity required will change to reflect changes in asylum intake. It is expected however that the network will consist of about eight induction centres.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many asylum seekers he expects will be processed by each induction centre; and what the expected cost is of each centre. [147863]

Beverley Hughes: When the national network of induction centres has been established it is expected that all asylum applicants will be processed through an induction centre, with the exception of detainees and those under Social Services care, for whom induction services will be tailored and delivered differently. Negotiations with potential providers are still ongoing and therefore information on the cost of each centre is not yet available. The number of asylum seekers processed by each centre depends on the number of bedspaces each centre can deliver and on asylum intake and dispersal rates.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what percentage of asylum seekers reached the UK in 2003 *(a)* as a result of illegal people-smuggling operations conducted by criminal gangs and *(b)* because they held false documentation. [148042]

Beverley Hughes: The nature of illegal entry is such that it is impossible to quantify. Illegal entrants are detected in a wide range of circumstances and time frames, from discovery in the back of a lorry on, or shortly after, arrival, to discovery much later, when found working. Although many of those discovered will claim asylum, no figures are kept centrally to differentiate between asylum seekers who arrive illegally, asylum seekers who arrive illegally as a result of criminal action, and illegal entrants generally.

The Government established the multi-agency Reflex strategy to tackle the criminality behind people smuggling, and will continue to support this strategy in tandem with increasingly effective border control measures, which saw a 52 per cent. reduction in the number of asylum seekers arriving in the UK in the 12 months from October 2002.

It is also not possible to quantify, except at disproportionate cost, the number of asylum seekers who reach the UK because they hold false documentation, although it is reasonable to conclude that many who do so arrive will claim asylum.

In the 12 months ending 30 September 2003, 8,446 false documents were detected at UK ports of entry.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what evidence he has collated of links between the change in the number of asylum seekers and people traffickers. [148043]

Beverley Hughes: Government action led to a 52 per cent. reduction in the number of asylum seekers arriving in the UK in the 12 months from October 2002. Incidences of human trafficking to the UK remain low, although the vast majority of those entering the UK illegally do so with the assistance of people smugglers (or facilitators). Figures for the prosecutions of facilitators do not differentiate between asylum seekers who enter illegally, and other illegal entrants. There is no clear statistical trend in the number of facilitators prosecuted at the major ports of Dover and Heathrow.

Siobhain McDonagh: To ask the Secretary of State for the Home Department how many asylum applications the UK received from citizens of Sri Lanka in *(a)* 2000, *(b)* 2001, *(c)* 2002 and *(d)* 2003. [148420]

Beverley Hughes: There were 6,395, 5,510 and 3,130 asylum applications (principal applicants) from nationals of Sri Lanka in 2000, 2001 and 2002 respectively and 630 asylum applications (principal applicants) from January to September 2003.

Information on asylum applications is published quarterly. The next publication, including provisional data for October to December 2003 and totals for 2003, will be available on the 24 February 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Siobhain McDonagh: To ask the Secretary of State for the Home Department how many asylum applications have been received from citizens of Sri Lanka since it was included in the list of designated countries on 17 July 2003; how many of these applications *(a)* have been accepted, *(b)* have been refused, *(c)* are still

pending, *(d)* have led to non-suspensive appeals, *(e)* have resulted in successful non-suspensive appeals and *(f)* have resulted in judicial review. [148421]

Beverley Hughes: Asylum applications are published for annual, quarterly, and monthly periods. The following table shows the number of asylum applications (principal applicants) from nationals of Sri Lanka from January to September 2003, the latest date for which figures are available.

Asylum applications[1] received in the United Kingdom, excluding dependants, 2003 by month, nationals of Sri Lanka

	Applications
January	120
February	80
March	100
April	70
May	95
June	75
July	30
August	30
September	30
Total to date	630

[1] Provisional figures rounded to nearest five

Information on how many of these applications have been accepted, refused, are still pending, have led to non-suspensive appeals or have resulted in judicial review could be obtained only by examination of individual case records at disproportionate cost.

The following table provides information on the outcomes of initial decisions relating to Sri Lankan nationals, from January to September 2003, the latest date for which figures are available. Initial decisions made in any given month may relate to applications made in previous months.

Initial decisions on asylum applications[1,2] received in the United Kingdom, excluding dependants, nationals of Sri Lanka, 2003 by month

	Decisions					
	Total decisions	Grants of asylum	Grants of exceptional leave to remain	Grants of humanitarian protection	Grants of discretionary leave	Total refusals[3,4]
January	155	5	20	n/a	n/a	130
February	180	*	20	n/a	n/a	160
March	250	5	20	n/a	n/a	225
April	185	*	n/a	—	10	175
May	140	—	n/a	—	5	135
June	155	5	n/a	—	10	140
July	100	*	n/a	—	5	95
August	60	*	n/a	—	5	55
September	45	5	n/a	—	5	40
Total to date	1,265	20	55	—	35	1,155

[1] Provisional figures rounded to nearest five, with '*' = 1 or 2.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] Refused on the grounds that the applicant had arrived from a safe third country.
[4] May include some refusals under non compliance grounds,
n/a = not applicable

The following table provides information on the outcomes ofappeals at the IAA relating to Sri Lankan nationals, in January to September 2003, the latest date for which figures are available. Not all refusals result in appeals and appeal determinations made in any given month may relate to initial decisions made in previous months.

Outcome of Appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, nationals of Sri Lanka, 2003, by month

Number of principal appellants

	Appeals determined by adjudicators[2]						
		Allowed		Dismissed		Withdrawn	
	Total	Total	As percentage of Determined	Total	As percentage of Determined	Total	As percentage of Determined
January	625	55	9	560	89	10	2
February	535	45	8	475	89	15	3
March	600	65	11	525	87	10	2
April	545	80	14	455	83	15	3
May	505	85	17	405	80	20	4
June	480	75	16	395	82	10	2
July	505	70	14	420	83	15	3
August	490	50	10	435	88	10	2
September	410	55	14	350	85	5	1
Total to date	4,710	580	12	4,015	85	110	2

[1] Provisional figures rounded to nearest five (except percentages), with '*' = 1 or 2. Figures may not add up due to independent rounding.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.

Siobhain McDonagh: To ask the Secretary of State for the Home Department how many asylum applicants who are citizens of Sri Lanka were given permission to stay in the UK in *(a)* 2000, *(b)* 2001, *(c)* 2002 and *(d)* 2003; and how many applications were refused in each of these years. [148422]

Beverley Hughes: The following table shows the available data, for outcomes of initial decisions relating to asylum applications (principal applicants) for nationals of Sri Lanka in 2000, 2001, 2002 and from January to September 2003. Grants of exceptional leave to remain and of discretionary leave may be followed by review of individuals' cases and do not necessarily result in permanent settlement.

Initial decisions on asylum applications[1,2] received in the United Kingdom, excluding dependants, by year—nationals of Sri Lanka—principal applicants

Decisions	*2000*	*2001*[3]	*2002*[4]	*2003*[4,5]
Total decisions	9,050	10,350	4,285	1,265
Grants of asylum	900	1,440	340	20
Grants of exceptional leave to remain	285	540	275	55
Grants of humanitarian protection	[6]	[6]	[6]	[6]
Grants of discretionary leave	[6]	[6]	[6]	35
Total refusals[7]	6,875	8,370	3,670	1,155
Grants of exceptional leave to remain under backlog criteria[8,9]	895	[6]	[6]	[6]
Non compliance refusals under backlog criteria[8,10]	100	[6]	[6]	[6]

[1] Provisional figures rounded to nearest 5.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] Revised figures
[4] Provisional figures
[5] January to September
[6] Not applicable
[7] May include some refusals under non compliance grounds.
[8] Cases decided under pragmatic measures aimed at reducing the pre 1996 asylum backlog.
[9] May include a small number of cases where asylum has been granted.
[10] May include a small number of cases where the application has been refused on substantive grounds.

The following table shows the available data, for outcomes of appeals relating to refused asylum applications (principal applicants) for nationals of Sri Lanka in 2000, 2001, 2002 and from January to September 2003. Allowed appeals may result in grants of asylum, grants of humanitarian protection or grants of discretionary leave, or in appeals to the IAT by the Secretary of State, and do not necessarily result in permanent settlement.

Outcome of appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants—nationals of Sri Lanka—2001 to September 2003

Number of principal appellants

	2001	*2002*	*Total to September 2003*
Appeals determined by adjudicators			
Total	290	525	4,710
Allowed			
Total	105	145	580
As percentage of determined	36	28	12
Dismissed			
Total	180	370	4,015
As percentage of determined	62	70	85
Withdrawn			
Total	5	10	110
As percentage of determined	2	2	2

[1] Provisional figures rounded to nearest 5 (except percentages). Figures may not add up due to independent rounding.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.

Information on asylum applications and decisions is published quarterly. The next publication will be available on 24 February 2004 on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Tom Cox: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women were held in prisons in England and Wales owing to no final decision having been reached on their right to remain in the United Kingdom as political or religious asylum seekers on 1 January 2003. [148608]

Beverley Hughes: Detention under the Immigration Acts may normally be appropriate while a person's identity and basis of claim is established, where there are reasonable grounds for believing that a person will fail to comply with the terms of temporary admission or release, or to effect removal. In addition, individuals whose asylum claims appear to be capable of being decided quickly may be detained as part of a fast-track asylum process. The majority of those detained for these reasons are held in Immigration Service removal centres. In a small number of individual cases it is necessary for reasons of security and control to hold detained persons in prison accommodation. The immigration or asylum cases of such individuals may be at various stages. Information on case status is not recorded centrally and could be obtained only at disproportionate cost by examination of individual case records.

As at 27 September 2003 (the latest date for which information is available) there were 100 persons detained in prisons in England and Wales solely under the Immigration Act, who had claimed asylum at some stage.

Information on the number of asylum applicants detained solely under the Immigration Act is published quarterly on the Home Office website: www.homeoffice.gov.uk/rds/immigration1.html. Data for those detained at the end of December 2003 will be published on 24 February.

Civic Renewal

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps his Department is taking to encourage people to take part in community action for the purposes of civic renewal. [147239]

Fiona Mactaggart *[holding answer 12 January 2004]*: The Home Office recognises that local communities are best placed to define and solve their own problems and that they should be able to work with the relevant authorities and organisations in a flexible way. This approach is termed civil renewal and can be applied across areas such as policing, criminal justice, and the work of drug action teams.

In terms of policing and police reform, for example, in the last six months three police authority areas have been identified—Cheshire, Merseyside and Northumbria—to test out new ways to engage with communities. The lessons they learn will be fed through to the work of a Practitioner Panel which will identify and share good practice in citizen-focused policy and community engagement.

Reform of the criminal justice system will continue to address the challenge of developing more effective community engagement, so that individuals and communities affected by crime can play an active part in solving the crime-related problems in their local areas, and can feel greater confidence in the criminal justice system.

As another example of the civil renewal approach, the Home Office is monitoring what drug action teams across the country do to engage local communities. Progress is good, including a grants scheme for black and minority ethnic community groups to carry out research into the health needs of their communities and generate ideas for service improvements.

The Home Office is currently consulting the community and voluntary sector about practical ways to build capacity in communities in order to achieve civil renewal. It has also recently launched the Active Citizenship Centre, which is the centre for research in best practice and case studies of civil renewal.

Correspondence

Mrs. Gillan: To ask the Secretary of State for the Home Department when he will reply to the letter of the hon. Member for Chesham and Amersham of 10 July 2003. [144158]

Caroline Flint *[holding answer 16 December 2003]*: The Home Office can find no trace of the original correspondence. After being provided with a copy, I replied to the hon. Member on 18 December 2003.

Miss McIntosh: To ask the Secretary of State for the Home Department what his normal practice is for the length of time taken to reply to correspondence. [145620]

Caroline Flint: The Home Office's published targets for responding to correspondence are as follows:

	Length of time taken to reply to correspondence
Correspondence from Member of Parliament relating to matters other than immigration, nationality and HM Prison Service	[1]15
Correspondence from Members of Parliament relating to immigration, nationality and HM Prison Service	[1]20
Correspondence, including emails, from members of the public	[1]20

[1]Working days

A great deal of effort has been put into improving performance over the past six months following the introduction of the new Correspondence Tracking System.

The latest available figures show that 60 per cent. of letters from hon. Members are now replied to within the target. This is an increase on the figure of 36 per cent. achieved in May 2003. Although this indicates a considerable improvement, the department is committed to improving this further.

Cyber-terrorism

Mr. David Stewart: To ask the Secretary of State for the Home Department if he will make a statement on his assessment of the current risk to British security posed by cyber-terrorism. [148761]

Mr. Blunkett *[holding answer 19 January 2004]*: The National Infrastructure Security Co-ordination Centre (NISCC) is continually monitoring the threat of electronic attack on the UK's Critical National Infrastructure. NISCC's assessment is that the overall threat from electronic attack is increasing but remains less attractive than a conventional attack. While the threat of the sort of attack that could disable a critical service is considered to remain low, less serious but damaging attacks that might deface a website or deny service from a website are assessed to be more likely.

Uninsured Drivers

Andy Burnham: To ask the Secretary of State for the Home Department how many people in each police force area were charged by police with driving without insurance in each of the last five years. [148742]

Ms Blears: Information on the number of people charged is not collected centrally.

However, the number of prosecutions for the offence of using a motor vehicle uninsured against third party risks is given in the table from 1997 to 2001 by police force area.

Information for 2002 will be available in the spring.

Total proceedings at the magistrates courts for the offence of using a motor vehicle uninsured against third party risks[1] total offences by persons[2] England and Wales

	Number of offences				
Police force area	*1997*	*1998*	*1999*	*2000*	*2001*
Avon and Somerset	15,354	16,891	15,094	14,609	13,022

Northamptonshire	4,997	4,842	5,560	3,946	2,027
Northumbria	12,469	11,837	13,296	13,192	12,503
North Yorkshire	3,925	3,742	4,001	3,903	3,541
Nottinghamshire	8,078	8,725	7,955	7,748	7,856
South Yorkshire	11,223	11,551	11,759	12,689	14,615
Staffordshire	8,175	8,206	8,018	8,777	6,023
Suffolk	3,254	3,743	4,188	3,918	4,119
Surrey	4,940	3,908	4,436	4,939	5,100
Sussex	9,333	8,201	7,413	6,796	6,814
Thames Valley	11,884	11,945	13,540	12,811	11,723
Warwickshire	4,315	3,761	3,522	4,133	4,204
West Mercia	7,075	8,207	7,446	7,686	7,784
West Midlands	29,862	30,916	27,400	28,140	27,000
West Yorkshire	23,978	23,546	25,769	26,527	27,616
Wiltshire	3,459	4,818	4,706	4,901	5,292
Dyfed-Powys	3,079	2,852	3,017	3,071	2,952
Gwent	4,094	4,476	4,451	4,679	4,757
North Wales	4,859	4,452	4,101	3,696	3,370
South Wales	14,828	16,186	15,403	14,615	13,803
England and Wales	396,967	389,956	387,266	391,551	388,167

[1] An offence under the Road Traffic Act 1988 s143(2).

[2] Excludes companies, local authorities etc. One person may be proceeded against more than once on the same occasion.

Euro

Keith Vaz: To ask the Secretary of State for the Home Department in how many speeches during 2003 he declared support for the Government's policy on the euro. [147298]

Caroline Flint: I refer my hon. Friend to the answer given by my hon. Friend the Financial Secretary to the Treasury on 12 January 2004, *Official Report*, column 516W.

Give as You Earn Scheme

John Barrett: To ask the Secretary of State for the Home Department how many and what percentage of staff in his Department contribute to a charity through the Give as You Earn scheme; how much money is donated to charity per month by staff in his Department through the scheme; and what steps he is taking to encourage greater participation in the scheme by staff in his Department. [143906]

Fiona Mactaggart: Figures for staff in central Home Office and Immigration and Nationality Directorate contributing to the Give as You Earn (GAYE) scheme are outlined in the table. Figures are taken from the November 2003 payroll. Figures for other agencies and Non-Departmental Public Bodies (NDPBs) are currently not available.

Give as You Earn scheme

Number of payees contributing	770 out of 20,162
Percentage of payees contributing	3.82
Monthly amount collected	£8,877.48

Home Office staff can find information on how to contribute to the GAYE scheme from their personnel unit; or electronically, via our Intranet. Promotion of the scheme has recently taken place in some small areas in London. The Human Resources Policy Section is currently working on a strategy to publicise the scheme across the whole Department. This work has been suspended because of the current pay dispute, but I would envisage that the strategy will be implemented in the spring.

Illegal Entrants (Amnesties)

Dr. Pugh: To ask the Secretary of State for the Home Department what amnesties in the form of permission to stay have been offered to people who entered the country illegally during the last 15 years; and when. [148148]

Beverley Hughes: There have been no "amnesties" targeted at people who entered illegally in the last 15 years.

On three occasions during that time special exercises have been undertaken to grant leave to people meeting specified criteria. The administrative exercise in 1992–93 granted exceptional leave to remain to 60 per cent. of those refused asylum—possibly over 20,000. There was no announcement to Parliament.

The exercise in 1998, announced to Parliament in 1998, granted leave to those whose claims had been subject to delay in processing.

The focused exercise we announced last October is targeted at families who applied before reforms were made to the appeal system and who have children who are established within our communities.

Immigration Surcharge

Keith Vaz: To ask the Secretary of State for the Home Department for what reason he is planning to levy a surcharge on those coming to the UK *(a)* for higher education and *(b)* to take up employment; what windfall gain this charge is intended to engender; and what his Department means by the term over-cost. [148161]

Beverley Hughes: The Asylum and Immigration Bill includes an enabling power to introduce an over-cost charge for non-asylum applications where there are existing powers to charge. We believe it is fair that people who want to come to the UK to study or take up employment should make a contribution in return for the benefits they receive. Final decisions about the level of any additional fees for different categories of applicant,

and regarding the timing of their introduction, will be taken only after wide consultation with key stakeholders and other Government Departments.

The term over-cost refers to setting a fee at a rate that exceeds the administrative cost of determining or processing such an application.

Imprisonable Offences

Mrs. Gillan: To ask the Secretary of State for the Home Department how many imprisonable offences have been created since 1997. [147354]

Paul Goggins: The Home Office is responsible for aspects of the criminal law, but records of all imprisonable offences enacted in any parliamentary session are not kept centrally. The following information therefore relates only to Home Office measures. 257 imprisonable offences have been created, modified or re-enacted since 1 May 1997.

Islam

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department if he will encourage leaders of the Islamic faith in the United Kingdom to support the reform of Islamic law which calls for the death penalty for apostates. [147425]

Beverley Hughes: While the Government does not generally intervene in matters of religious doctrine, I am aware that Islamic teaching places a strong injunction on Muslims to abide by the laws of the society in which they live and that the great majority of Muslims in the United Kingdom are peaceful and law-abiding members of society. The United Kingdom is fortunate in having a number of wise and responsible Muslim religious and community leaders who advocate a peaceful and constructive way of life. The Government has a continuing dialogue with these leaders, as with leaders of other faiths, and shares their aim of resisting and isolating all forms of extremism.

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what measures the Government is taking to protect members of the Islamic faith who convert to Christianity. [147426]

Beverley Hughes: There is already substantial legislation to protect people who are victimised or discriminated against because of their religion. For example, the Public Order (Northern Ireland) Order 1987 already contains provisions which make it a criminal offence to incite or arouse fear of racial or religious hatred. The Anti-terrorism, Crime and Security Act 2001 created new religiously aggravated offences in England and Wales, under which crimes such as assault and criminal damage attract a higher maximum penalty if they are committed because of the victim's religious belief or lack of belief. We would urge any person whose safety or property is threatened because of their religious beliefs or lack of beliefs to report the matter to the police. The Home Office has recently published a response to the report of the House of Lords Select Committee on Religious Offences, in which we have indicated our support in principle for a new offence of incitement to religious hatred in England and Wales.

Passports

Bob Spink: To ask the Secretary of State for the Home Department when a British passport with biometric data and bar coding will be available; and at what cost. [147553]

Beverley Hughes: The United Kingdom Passport Service and the Foreign and Commonwealth Office are working on a joint programme to issue electronically enabled passports capable of supporting the applications of facial recognition software. The programme plans to start issuing this new form of passport in mid 2005 with a phased roll out through the remainder of that year. This will be a major technological change and it is important to introduce the new form of passports in a safe and controlled way. The possibility of a pilot using diplomatic passports is also being considered.

All British passports are now issued with a machine readable zone (MRZ) in compliance with ICAO standards; some media reports have described this as a bar code.

The cost of the new passport will depend on the method of embedding the contactless computer chip into the passport book. Four prototype methods have been developed and are subject to durability tests. Information on likely costs will be developed during the pilots.

Bob Spink: To ask the Secretary of State for the Home Department how an applicant for a new British passport will be able to provide biometric information for the passport; and how system security will be guaranteed. [147554]

Beverley Hughes: The new British passport will support facial recognition and the biometric data will be provided by applicants in the form of a photograph. These photographs will need to comply with format standards and new guidance notes are being prepared.

The current security accreditation of passport issuing systems will be maintained and the electronic information stored in the document will be secured by a digital signature at the time of issue.

Bob Spink: To ask the Secretary of State for the Home Department if he will list the forms of biometric and bar code data that will be encompassed within the new British passport. [147596]

Beverley Hughes: The new British passport, which it is planned will be issued from mid 2005 onwards, will store electronically a portrait or image of the applicant of sufficient resolution to support the application of any form of facial recognition software. In addition, some of the information printed on the biodata page of the passport will also be stored electronically.

This information will be stored on contactless computer chip and will be digitally signed when issued to prevent alteration and confirm authentication.

All British passports already contain a machine readable zone (MRZ) which contains some of the same biodata; some media reports have described this as a bar code.

Prisons

Mr. Battle: To ask the Secretary of State for the Home Department if he will take steps to introduce an exit centre in HM Prison Leeds for people leaving prison, to link addiction, mental health, rehabilitation, education and training procedures inside prison with programmes available outside. [149034]

Paul Goggins: Funding has been secured for the development of a healthy living centre that will draw upon partnerships with the community to provide better opportunities for prisoners to make informed decisions about lifestyle and healthy living. Community partnerships have also been established to build upon housing and employment provision and to improve the opportunity and quality of education. I would be happy to meet my right hon. Friend to discuss how these projects can help achieve the objectives he outlines.

Tom Cox: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women were (i) serving a life sentence for murder and (ii) category A prisoners on 1 January. [148606]

Paul Goggins: At the end of November 2003, 3,546 males and 133 females were serving a life sentence for murder in prisons in England and Wales.

At the end of November 2003, 951 males and seven females who were in prisons in England and Wales were classified as Category A prisoners.

Joan Ruddock: To ask the Secretary of State for the Home Department what assessment he has made of the reasons for the change in the percentage of remand prisoners who are women convicted and awaiting sentence. [142889]

Paul Goggins: The number and percentage of remand prisoners who are women convicted and awaiting sentence is given in the following table.

Female remand population in custody

	1992	*1993*	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Females on remand	383	395	490	491	538	599	704	748	700	775	945
Untried	271	285	351	344	371	396	426	434	396	430	496
Convicted unsentenced	112	110	139	147	167	203	278	313	304	345	449
Convicted unsentenced [1]	29	28	28	30	31	34	39	42	43	45	47

[1] As a percentage of total female population.

Note:
The components do not always add to the totals because they have been rounded independently.

The number of female convicted unsentenced prisoners as a percentage of the total female remand population has increased since 1992; showing a similar increase to the number of male convicted unsentenced prisoners as a percentage of the total male remand population. There are many reasons for this increase. For example, arrangements for plea before venue, as made possible by the Criminal Procedures and Investigations Act 1996 and the Crime (Sentences) Act 1997, were implemented on 1 October 1997. Plea before venue led to offenders pleading guilty earlier than previously and hence spending less time untried and spending proportionately more time convicted unsentenced.

Sentencing

Mrs. Gillan: To ask the Secretary of State for the Home Department what steps he is taking to ensure that *(a)* magistrates and *(b)* judges have sufficient information to make the most effective use of prison and probation services. [147367]

Paul Goggins: Pre-sentence reports prepared by the probation service provide information to the sentencing court about the offender and the offence(s) committed to assist the court to decide on a suitable sentence. The report analyses the offence; includes an offender assessment covering accommodation and employment, details of any substance misuse, mental illness, etc.; looks at patterns of offending and the outcome of any earlier court interventions. Each report contains a conclusion as to whether or not the offender is suitable for a community sentence and should make a clear and realistic proposal for sentence designed to protect the public and reduce re-offending, including for custody where that is necessary.

The Sentencing Guidelines Council will introduce a robust and comprehensive set of sentencing guidelines to assist the courts in their task of ensuring consistent and just disposals in all cases.

Departmental Staff

Mr. Russell Brown: To ask the Secretary of State for the Home Department what percentage of staff employed within his Department are over 55 years of age; and what *(a)* number and *(b)* percentage of staff recruited over the last 12 months are over 55 years of age. [145930]

Fiona Mactaggart: The following table provides the percentage of staff over 55 in the Department, the numbers of staff recruited in the last 12 months who are over age 55 and what percentage of the overall recruitment is over age 55 in the last 12 months.

	Percentage staff over age 55	*Number of staff over 55 recruited in the last 12 months*	*Percentage of staff over age 55 recruited in the last 12 months*
Non-Agency Home Office	8.80	149	3.40
Prison Service	14.00	372	6
Forensic Science Service	6.23	8	.3
UK Passport Service	10.40	372	5.40

Terrorism

Ross Cranston: To ask the Secretary of State for the Home Department further to his answer of 13 January 2004, *Official Report*, column 669W, with which offences under the Terrorism Act 2001 the 94 individuals have been charged. [148923]

Mr. Blunkett: The Commissioner of Police for the Metropolis informs me that this information is not currently held centrally and is being collated. I will write to my hon. and learned Friend when I have the information and place a copy in the Library of the House.

Domestic Violence

Mr. Hancock: To ask the Secretary of State for the Home Department how the proposed register of violent partners will be administered; and if he will make a statement. [147325]

Paul Goggins: We propose to create a register of domestic violence civil orders. This will give the police the information they need to be able to enforce orders properly and protect victims. It can be established through a non-legislative route, for example by using the Police National Computer.

In terms of offenders, those who have been convicted of specific violent and sexual offences and have been given a custodial sentence of 12 months or more are already registered on the Violent and Sex Offenders' Register (ViSOR). ViSOR gives the police a way of risk-assessing and managing dangerous offenders, and covers the majority of domestic violence offenders who will be convicted of offences such as Actual Bodily Harm and Wounding with Intent.

TRADE AND INDUSTRY

Fuel Poverty (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Trade and Industry (1) how many fuel poor households there are in *(a)* Lancashire and *(b)* each district in Lancashire; [146968]

(2) how many *(a)* children and *(b)* elderly people are living in fuel poor households in each Lancashire district. [146969]

Nigel Griffiths: Fuel poverty is defined as a household having to spend more than 10 per cent. of its income on all energy use in order to maintain satisfactory heat in the home. The current published official estimates of fuel poverty are extrapolated from a sample survey of 17,500 dwellings carried out in 2001.

Figures are not available at county level.

National Association of Citizens Advice Bureaux

Mr. Webb: To ask the Secretary of State for Trade and Industry how much money her Department has allocated to the National Association of Citizens Advice Bureaux *(a)* in each of the last three years and *(b)* for each of the next three years; and if she will make a statement. [148529]

Mr. Sutcliffe: The Department of Trade and Industry has allocated the following grant in aid payments to Citizens Advice (formerly the National Association of Citizens Advice Bureaux—NACAB) during the past three financial years:

	£ million
2003–04	21.24
2002–03	17.15
2001–02	16.8

My officials are currently discussing future budgetary requirements and allocations with Citizens Advice and a final decision on allocations has not yet been made.

Bank of Credit and Commerce International

Keith Vaz: To ask the Secretary of State for Trade and Industry when the head of the Insolvency Service last met the liquidators of BCCI. [149583]

Mr. Sutcliffe: The Chief Executive of the Insolvency Service met one of the liquidators of BCCI on 4 March 2003.

Keith Vaz: To ask the Secretary of State for Trade and Industry how many representations she has received from hon. Members about the liquidation of BCCI. [149585]

Mr. Sutcliffe: In view of the period over which the liquidation of BCCI has continued, this question could be answered only at disproportionate cost.

Keith Vaz: To ask the Secretary of State for Trade and Industry when she expects to receive the annual report of the liquidators of BCCI. [149586]

Mr. Sutcliffe: The next annual report on the liquidation of BCCI will cover the period 16 January 2003 to 15 January 2004.

I would expect it to be submitted as soon as the accounting and other information can be compiled.

Business Regulations

Mr. Michael Fallon: To ask the Secretary of State for Trade and Industry what plans she has to restrict the implementation of new business regulations to two specific dates each year, 1 April and 1 September; and if she will make a statement. [148601]

Mr. Sutcliffe: From 2004 the DTI is commencing domestic employment regulations on two dates each year. This will ensure that changes to employment policy are made in a more coordinated fashion and will provide businesses, employee representatives and individuals with grater clarity and awareness about when changes will be made.

The common commencement dates are 6 April, the start of the tax year, and 1 October, the date when the minimum wage is revised. I refer the hon. Member to the written statement I made in the House of Commons on 14 January 2004, *Official Report*, columns 35–40WS, listing all the employment regulations and their commencement dates on which the DTI leads and which

are expected to commence in 2004. This statement, which will now be published annually, is also available on the Internet at www.dti.gov.uk/er/regs2004.htm

The Action Plan "A Government Action Plan for Small Business" published by the Small Business Service on 8 January 2004 (available on the Internet at www.sbs.gov.uk) includes the proposal for the Government to consider introducing common commencement dates to other areas of domestic legislation.

Consumer Codes of Practice

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how the Office of Fair Trading intends to encourage new code sponsors to apply for OFT approval. [148901]

Mr. Sutcliffe: This is a matter for the Chairman of the OFT and I have asked him to write to my hon. Friend directly.

Consumer Credit

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if she will make a statement on her Department's work with the Office of Fair Trading on consumer credit law reform. [148899]

Mr. Sutcliffe: The Department published its proposals for reform of the consumer credit regime in the recent Consumer Credit White Paper; "Fair, Clear and Competitive—The Consumer Credit Market in the 21st Century".

The White Paper is the culmination of a major review of consumer credit law that was launched in July 2001. Our proposals have been drawn up through close consultation with all of the key stakeholders representing industry, consumer groups and enforcement agencies—including the Office of Fair Trading. We are continuing to work closely with the Office of Fair Trading on developing the detailed legislation and guidance needed to implement our proposals.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how the Office of Fair Trading intends to improve the fitness checking of consumer credit licence applicants through access to criminal records. [148900]

Mr. Sutcliffe: New procedures for checking criminal records are due to be introduced by the OFT this year. The OFT is currently finalising arrangements for the introduction of these new measures which will be announced in Spring 2004.

Mr. Gardiner: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of the feasibility of capping annual percentage rates on credit cards but not on short-term loans; [149503]

(2) when she expects the research which her Department have commissioned into the way interest ceilings work in other EU countries will be completed. [149504]

Mr. Sutcliffe: The Government are not persuaded of the benefits of introducing interest rate ceilings for credit products of any type. A rate ceiling could actually encourage rates to gravitate towards the ceiling, causing detriment to consumers and competition. It might also encourage lenders to make the cost of credit more expensive to consumers in other ways (for example by introducing higher charges), or lead some lenders to exit the market, denying some consumers access to credit.

However, the Government have commissioned research into the way these interest ceilings operate in other countries. It is anticipated the research will be published in the spring of this year.

EU Tarrifs/Quotas

Mr. Bercow: To ask the Secretary of State for Trade and Industry what quantitative assessment she has made of the likely financial benefit to the least developed countries of the admission by Europe of non-armament imports free of tariffs and quotas. [149133]

Mr. Mike O'Brien: None. The loss of income for the EU budget arising from the special arrangements for Least Developed Countries of the Generalised Scheme of Preferences (known as Everything-but-Arms, EBA) has been costed by the European Commission at €239 million in 2001, the first year of the scheme. The loss of income for the previous year, before the special arrangements came into effect, was €190 million.

European Directives

Mr. Hancock: To ask the Secretary of State for Trade and Industry pursuant to her answer of 7 January, *Official Report*, column 380W, on Posting of Workers Directive, what research she has *(a)* commissioned and *(b)* evaluated on the wages and conditions enjoyed by migrant workers in the UK under the Posting of Workers Directive compared to permanent British workers. [148036]

Mr. Sutcliffe: The Government undertakes regular surveys into the wages and conditions of workers in the UK, although it does not explicitly make a distinction between migrant and non-migrant workers. In December 2002 a joint Home Office and Department for Work and Pensions report, "Migrants in the UK: their characteristics and labour market outcomes and impacts" found that migrants (defined as the foreign born) earn approximately 19 per cent. more than non-migrants.

Mr. Hancock: To ask the Secretary of State for Trade and Industry what research she has *(a)* commissioned and *(b)* evaluated on breaches of the Working Time Directive in the UK, with particular reference to (i) compulsory signing of opt-outs, (ii) pressure on staff to sign opt-outs, (iii) workplaces where the law is ignored, (iv) staff illegally asked to opt out of their rights to rest breaks and night work limits and (v) sending new staff opt-in and opt-out forms; and if she will make a statement. [148052]

Mr. Sutcliffe: The department has commissioned a range of research looking at the Working Time Directive in the UK. The evidence suggests that the

majority of UK workers are in workplaces complying with the Working Time Regulations. However, there are some areas of concern.

A Survey of Workers' Experiences of the Working Time Regulations commissioned by the department in 2001 shows that just under a quarter of 'long hours' workers who have not signed an opt-out perceived employer pressure to work long hours. A second piece of research published by DTI in 2003, the Business Context to Long Hours Working, suggests that in establishments which had sustained long hours working, around three-quarters had no employees sign the opt-out.

The research commissioned does not specifically look at whether staff have been illegally asked to optout of their rights to rest breaks and night work limits. However, the Survey of Workers' Experiences of the Working Time Regulations found that approximately one in 10 workers 'without full rest breaks' thought they had experienced employer pressure to work without full rest breaks, and a similar proportion of 'night workers' felt pressured to work long hours at night.

Other research published by DTI in 2003 looking at the Implementation of the Working Time Regulations: a follow up study, reported that one case study employer, an engineering company, had made the signing of an opt-out agreement a condition of employment for new starters who worked nights.

I am ready to look at suggestions for improving the operation of working time law, including concerns over misuse of the opt-out to make sure it works properly. I recently wrote to the CBI and TUC inviting them to discuss what we may offer to do to meet the concerns identified in the European Commission Communication on working time.

Mr. Hancock: To ask the Secretary of State for Trade and Industry what assessment she has made of the value to UK *(a)* employers and *(b)* employees of the UK allowing an opt-out to the Working Time Directive. [148053]

Mr. Sutcliffe: The opt-out from the weekly working time limits is valuable as it provides flexibility for employers and the choice for employees to work longer hours if they want to. Without the opt-out, employers would have to reduce the hours of some of their workers. This could cause problems for both employers and employees. A recent study The Business Context to Long Hours Working published by my department in 2003 shows that employers thought the most common barrier to reducing the hours of staff was the needs of the business and workload (55 per cent. of respondents cited this), second to this was the concern that existing staff may resist the reduction in hours as it could limit their choice to work these hours and a reduction in their overtime pay (22 per cent.).

Mr. Hancock: To ask the Secretary of State for Trade and Industry if she will place in the Library a copy of the research document commissioned by her Department on The use and necessity of Article 18(b)(1) of the Working Time Directive in the United Kingdom. [149013]

Mr. Sutcliffe: The research document in question was not commissioned by my Department, but by the European Commission. They have not published it, but I understand they can provide copies of it on request.

Home Security Systems

Helen Jones: To ask the Secretary of State for Trade and Industry what steps she is taking to prevent companies selling alarm systems from gaining access to homes by claiming to be carrying out a security check. [149346]

Mr. Sutcliffe: The Government are concerned about the practices adopted by some doorstep traders and have welcomed the Office of Fair Trading's investigation of the doorstep selling market. The investigation report is expected in the next couple of months. Recommendations resulting from the investigation will be considered very carefully.

Insolvency Service

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what the administrative costs were of the Insolvency Service in each year since 1997; and if she will break down these costs for 2003–04 by main budget head. [147802]

Mr. Sutcliffe: The Expenditure of the Insolvency Service as reported in its Annual Report and Accounts since 1997 was.

£000

Year	*Expenditure*
1997–98	78,538
1998–99	78,159
1999–2000	80,512
2000–01	80,314
2001–02	81,840
2002–03	90,332

Forecast budgeted expenditure for 2003–04 based on Department of Trade and Industry main budget headings are:

£000

Budget	*Forecast*
Pay	48,000
Accommodation	10,400
GAE	10,600
Programme	16,450
Inter Department (non cash)	6,500
Capital	2,925
Non cash accounting adjustments	5,000
Total	99,875

Note:

The Insolvency Service merged with The Redundancy Payments Service on 1 April 2003. Figures for 2003–04 therefore include the budgeted costs of The Redundancy Payments Service whereas those for prior years do not.

Protectionism (Labelling)

Mr. Bercow: To ask the Secretary of State for Trade and Industry what evidence she has collated on the use of national and regional labelling schemes as a protectionist barrier to trade. [149073]

Mr. Mike O'Brien: There is no central body of information listing national and regional labelling schemes. However, we work closely with the European Commission to secure the removal or amelioration of labelling schemes that are unnecessarily trade restrictive.

Research Funding

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the funding for *(a)* the Council for the Central Laboratory of the Research Councils and *(b)* the grant-in-aid funding allocated to the (i) Biotechnology and Biological Sciences Research Council, (ii) Economic and Social Research Council, (iii) Engineering and Physical Sciences Research Council, (iv) Medical Research Council, (v) Natural Environment Research Council and (vi) Particle Physics and Astronomy Research Council in 2003–04 as set out in her Departmental Report 2003; and what payments have been made to each council since 1997. [147796]

Ms Hewitt: The 2002 Spending Review resulted in the largest increases in the Science Budget for over a decade, with year-on-year growth of 10 per cent. in real terms from 2003–04. Cash[1] Grant-in-Aid payments to each of the Research Councils for each financial year from April 1997 are set out in the table.

£000

	Allocation	*Actual*					
	2003–04	*2002–03*	*2001–02*	*2000–01*	*1999–2000*	*1998–99*	*1997–98*
CCLRC	[2]83,447	15,607	9,181	4,075	2,000	1,462	1,206
BBSRC	267,649	241,510	213,874	211,991	195,545	185,739	189,022
ESRC	94,584	82,963	73,647	71,800	70,872	67,506	65,227
EPSRC	463,224	473,534	444,023	413,552	404,796	379,444	386,276
MRC	387,993	365,136	356,248	319,651	304,538	284,098	292,721
NERC	286,359	205,677	187,671	178,850	176,715	173,967	166,150
PPARC	259,062	235,540	210,282	205,774	186,680	209,052	197,869

[1] figures shown in the Departmental Report 2003 are on a resource basis and are not directly comparable with those above. Figures are not available on a consistent resource basis for the whole of the period shown.
[2] figures also reflect changes to the structure and responsibilities of CCLRC following its Quinquennial Review, published in April 2002, including responsibility for UK subscriptions to the Institut Laue Langevin and the European Synchrotron Radiation Facility in Grenoble.

Steel Tariffs

Mr. Hoyle: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the United States on steel tariffs on United Kingdom steel exports. [148217]

Mr. Mike O'Brien: UK ministers held regular discussions with the United States on steel in the run-up to President Bush's decision on 4 December 2003 to remove the US steel safeguard tariffs. No ministerial level discussions have taken place since then.

Strike Action

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many days have been lost to strike action in each month since January 1997. [148194]

Mr. Sutcliffe: Information is available in the following table.

Office for National Statistics

Supermarkets and Suppliers

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry when she expects to receive the report from the Office of Fair Trading into the code of practice between suppliers and supermarkets. [R] [147768]

Mr. Sutcliffe: The Office of Fair Trading (OFT) is expected to conclude its review of the Code of Practice governing supermarkets' relations with their suppliers shortly. The OFT will then send its results to DTI for formal consideration. My right hon. Friend the Secretary of State will wait for the results of that review before deciding if any action is necessary.

Trade Policy

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy in trade negotiations to pursue a comprehensive approach across the board for all products and all sectors without a priori exceptions. [149148]

Mr. Mike O'Brien: Yes, where appropriate.

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy to seek bound reduction of high tariffs, particularly tariff plans, with a view to securing greater tariff harmonisation between countries. [149149]

Mr. Mike O'Brien: Yes.

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy to seek the binding of unbound tariffs at commercially acceptable levels. [149150]

Mr. Mike O'Brien: Yes.

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy to seek improved geographical coverage of *(a)* zero-duty sectoral agreements and *(b)* sectoral tariff harmonisation agreements. [149151]

Mr. Mike O'Brien: The Government welcomes and encourages increased participation in such agreements.

United Kingdom Trade

Mr. Bercow: To ask the Secretary of State for Trade and Industry what the volume of United Kingdom trade with each of the full members of the G20 was in each of the last 10 years. [146597]

Mr. Mike O'Brien: Information on the value of UK trade in goods, by partner country, is published by HM Customs and Excise in Overseas Trade Statistics of the United Kingdom. Each annual publication contains data for the latest two years. Business Monitors MA20 for 1994 and 1996 and OTSA for 1998, 2000 and 2002 contain the complete set of information required. These publications are available in the Library.

Unsolicited Telephone Calls

Mrs. Iris Robinson: To ask the Secretary of State for Trade and Industry what actions she has taken to limit unsolicited telephone calls for the purpose of selling goods and services. [148822]

Mr. Sutcliffe: Individual subscribers are offered protection from unsolicited direct marketing calls under the Privacy and Electronic Communications (EC Directive) Regulations 2003.

The regulations state that direct marketing calls may not be made to individuals who have:

(a) previously notified the caller that they do not want to receive such calls, or

(b) been registered on the Telephone Preference Service for 28 days or longer.

The Telephone Preference Service is an opt-out scheme run on Ofcom's behalf by the Direct Marketing Association.

The Government have also committed to allowing corporate subscribers to register on the Telephone Preference Service from spring 2004.

Working Hours

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of *(a)* total employees, *(b)* female employees and *(c)* male employees in the UK worked an average of more than 48 hours per week in the last year for which figures are available. [148174]

Mr. Sutcliffe: According to the Spring 2003 Labour Force Survey 15 per cent. of employees usually worked over 48 hours per week. 6 per cent. of female employees and 23 per cent. of male employees usually worked over 48 hours per week.

World Trade Organisation

Mr. Bercow: To ask the Secretary of State for Trade and Industry what discussions she has had with the Director General of the World Trade Organisation since 15 December 2003. [149070]

Mr. Mike O'Brien: My right hon. Friend last spoke to Dr. Supachai himself at the CBI Conference on 17 November 2003, but we are in regular contact with his officials in Geneva.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what general tariff reduction formula is supported by her Department. [149077]

Mr. Mike O'Brien: To stimulate the expansion of trade and economic growth, the Government wants formulae that, consistent with the Doha Declaration, would substantially increase market access for all goods in all WTO member countries.

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will identify technical barriers to trade which harm *(a)* the United Kingdom and *(b)* developing countries. [149078]

Mr. Mike O'Brien: The information requested is not held centrally and could be obtained only at disproportionate cost. A major element of Government policy is the creation of fair and open markets at home and aboard. Using the provisions of the WTO Agreement on Technical Barriers to Trade and the European Community's Technical Barriers Regulation, we therefore work closely with UK industry, the European Commission and others in seeking to ensure that individual technical regulations are not unnecessarily trade restrictive and, in particular, to secure the removal or amelioration of those that harm UK exports.

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will make a statement on the EU's stance at the Geneva trade talks on *(a)* industrial market access and *(b)* special and differential treatment. [149135]

Mr. Mike O'Brien: The UK fully supports the EU's objective of securing an ambitious and comprehensive agreement on non-agricultural market access delivering benefits to all Members and an overall result of the Doha Development Agenda which reflects the needs of different WTO Members through appropriate Special and Differential Treatment.

Mr. Bercow: To ask the Secretary of State for Trade and Industry whether it is her policy to seek greater use of *(a)* mediation and *(b)* resolution of trade disputes prior to formal recourse to the World Trade Organisation dispute settlement understanding procedures. [149145]

Mr. Mike O'Brien: The Government sees the WTO Dispute Settlement Understanding (DSU), with a binding mechanism for resolving disputes, as one of the key pillars of the WTO and one of the great achievements of the Uruguay Round. We obviously welcome it when parties resolve a dispute without formal recourse to the DSU. We support the Communication issued by the Director-General of the WTO to the WTO membership in 2001 outlining his views on how to make better use of his power to use Good Offices, Conciliation and Mediation. We welcome in particular the use of mediation to resolve a potential dispute between the EU on the one hand and Thailand and the Philippines on the other regarding imports of canned tuna.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what discussions she had with Commissioners Lamy and Fischer before the World Trade Organisation Ministerial Conference in Cancun about the advisability of introducing new issues for which the developing countries would be unprepared to the conference agenda. [149130]

Hilary Benn: I have been asked to reply. Ministers at the fourth WTO Ministerial Meeting in Doha agreed that negotiations on the four Singapore (i.e. New) Issues would take place after the Fifth WTO Ministerial Conference at Cancun. However this was subject to the condition of a decision being taken, by explicit consensus, on the framework of these negotiations. Such a consensus was not reached by Ministers at the Cancun conference and so negotiations have not started on the Singapore Issues.

Although I did not have any discussions directly with Commissioners Lamy or Fischler about this, since the Cancun ministerial predated my appointment as Secretary of State for International Development, UK Ministers repeatedly made clear that the New Issues were not development priorities. Therefore I welcome the fact that EU Trade Ministers agreed on 2 December that the European Community should "unbundle" the four issues and explore alternative, more flexible approaches, including the possibility of removing some, or all, of the New Issues from the Doha Round.

NORTHERN IRELAND

Civil Service (Disabled People)

Mr. Goodman: To ask the Secretary of State for Northern Ireland if he will set out the number of employees in his Department who have a disability, broken down by disability type. [148983]

Mr. Pearson: Of the 32,384, staff employed by the Northern Ireland Civil Service and the Northern Ireland Office, 1,277 (3.9 per cent.) declared a disability. The breakdown by disability type is:

Type of disability	*Number*
Hearing impairment	189
Visual impairment	57
Speech impairment	43
Mobility impairment	157
Physical co-ordination difficulties	39
Reduced physical capacity	326
Severe disfigurement	17
Learning difficulties	20
Mental illness	96
More than one disability	326
Type of disability not specified	7
Total	1,277

Demography

Mr. McNamara: To ask the Secretary of State for Northern Ireland what his estimate is of the size of each minority group, including Travellers, in Northern Ireland. [149226]

Mr. Pearson: The table gives details of the 2001 Census question relating to ethnic group, including Irish Travellers.

2001 Census population count of ethnic group, including Irish Travellers

Ethnic group	*Count*	*Population percentage*
White	1,670,988	99.15
Irish Traveller	1,710	0.10
Mixed	3,319	0.20
Indian	1,567	0.09
Pakistani	666	0.04
Bangladeshi	252	0.01
Other Asian	194	0.01
Black Caribbean	255	0.02
Black African	494	0.03
Other Black	387	0.02
Chinese	4,145	0.25
Other ethnic group	1,290	0.08
Total	1,685,267	100.00

Development Plan, Killyleath

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when a decision will be made in relation to the proposed development plan for Gocean, Killyleagh; and if he will make a statement. [148815]

Angela Smith: I expect to make a decision on the proposal for Gocean, Killyleagh within the next month.

Healthy Eating

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he has taken to promote healthy eating in schools in Northern Ireland. [148764]

Mr. Pearson: The following criteria will be applied:

1. Vision for future agri-food provision;
2. Stakeholder consultation—initial and on-going;
3. Selection/targeting of proposed courses and research;
4. Capital and other set-up costs; and
5. Promotion and marketing of relevant courses.

A decision is expected in early April 2004.

Heart Defibrillators

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the need for the provision of heart defibrillators in *(a)* leisure facilities, *(b)* entertainment complexes, *(c)* shopping centres, *(d)* other public places used by large numbers of individuals and *(e)* public places where large numbers of individuals are likely to congregate. [148826]

Angela Smith: The effectiveness of public access to defibrillators is currently being assessed through a research project commissioned by the Research and Development Office, on behalf of DHSSPS, entitled "A study of the Effectiveness and Cost-effectiveness of Public Access Defibrillation in Urban and Rural Populations in Northern Ireland".

This three-year project forms part of a programme of commissioned research to inform policy development for the "Investing for Health" strategy.

International Tendering Fund

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many Northern Ireland firms have been assisted by the International Tendering Fund; and what the effect has been on winning overseas contracts. [149211]

Mr. Pearson: Since the inception of Invest NI on 1 April 2002 the International Tendering Fund has assisted 15 companies. Although no tenders have been won to date, many of these projects are still ongoing. The process can take up to three years for an international tender contract to be awarded, and Invest NI continue to track the progress of all fund participants.

Planning Applications

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what he recommends as a reasonable period of time before an applicant can expect to be informed whether his or her planning application is successful. [148814]

Angela Smith: Planning Service is committed to processing all valid planning applications as expeditiously as possible. This is reflected in the Agency's Corporate and Business Plans 2003–04 to 2005–06. But there will be cases which, due to their complexity and scale, take longer.

Racist Incidents (Health Workers)

Mr. McNamara: To ask the Secretary of State for Northern Ireland what his estimate is of the number of racist incidents involving *(a)* nurses, *(b)* other hospital staff and *(c)* workers in health and social services in the past 12 months; and what measures are being taken by hospital management and health authorities to address this issue. [149241]

Angela Smith: Information on incidents involving violence against staff employed in the HPSS is not currently held in the form which would identify attacks of a racist nature. Reports from HPSS employers indicate that the number of incidents which are perceived as racist in origin is negligible.

The Department has issued guidance on racial harassment and violence against staff employed in the HPSS. The Department, in consultation with employing authorities, is also developing a mandatory recording and reporting system for incidents involving physical or verbal violence.

The Department has also been involved with the Police Service of Northern Ireland in developing a joint protocol for police and HPSS employees for the reporting of incidents of verbal and physical abuse.

Regional Cancer Centre

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on progress on the Northern Ireland regional CAncer Centre, with particular reference to staffing. [148846]

Angela Smith: The Cancer Centre construction programme is on schedule for completion by December 2005 with the opening planned for early 2006. So far, significant developments have included the opening of the new Oncology and Haematology Day Hospital on 12 May 2003 and the transfer of Oncology Day Services from Belvoir Park Hospital in June last year.

The Department's Priorities for Action require Boards and trusts to agree a service development plan for the Cancer Centre, including staffing, drugs and equipment, by 31 March 2004. Significant resources have been received to assist with the staffing of the Cancer Centre, with further allocations of funds expected in 2004–05 and 2005–06.

Road Gritting

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what the cost was of gritting roads during the winter of each year since 2000–01; [148947]

(2) how and by whom decisions are taken regarding when roads in Northern Ireland are gritted; and what flexibility there is in terms of the number treated on any particular occasion. [148951]

Mr. Spellar: I have asked the Chief Executive of Roads Service to write to the hon. Lady in response to these questions. A copy of the letter will be placed in the Library.

Sheep

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to improve the identification of sheep in Northern Ireland. [148767]

Mr. Pearson: Following on from decisions reached at the EU Farm Council on 17 December 2003, my officials will shortly be consulting the industry on proposals to improve the system for the identification and registration of sheep and goats.

Waterways (Pollution)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many convictions there have been for pollution of waterways in Northern Ireland in the last 12 months. [148832]

Angela Smith: During the last 12 months, 82 convictions were secured for water pollution offences.

Further information on enforcement and prosecution is available on the Environment and Heritage Service website at: http://www.ehsni.gov.uk/pubs/publications/Water_Pollution_Incidents 2001.pdf

The Water Pollution Incident and Prosecution Statistics Report for 2002 will be available shortly and will be placed in the Library.

INTERNATIONAL DEVELOPMENT

Departmental Advertising

Brian Cotter: To ask the Secretary of State for International Development how much *(a)* his Department and *(b)* each agency and non-departmental public body sponsored by his Department has spent on (i) advertising and (ii) information campaigns in each year from 1995–96 to 2003–04 (estimated); and if he will make a statement. [149621]

Hilary Benn: Our expenditure on publicity, which forms a part of our effort to raise development awareness and understanding of international development issues in the UK, has been as follows:

	£
1995–96	568,775
1996–97	579,916
1999–99	399,755
1999–2000	674,531
2000–01	1,484,281
2001–02	1,286,053
2002–03	[1]1,300,000
2003–04	[2]850,000

[1] Estimate
[2] Provisional forecast figure

We do not hold a separate advertising budget. The majority of advertising relates to recruitment advertising in newspapers and journals. Figures for the four calendar years are as follows:

2000: 751,972
2001: 1,208,191
2002: 914,571
2003: 871,246

Sudan

Mr. Bercow: To ask the Secretary of State for International Development if he will take steps to send an independent international commission of inquiry to Darfur. [148543]

Hilary Benn: At present limited access in Darfur means that the various humanitarian agencies are unable to fully assess the situation on the ground, or to respond to the needs of the most vulnerable.

So we are calling on all parties to re-establish a ceasefire to allow unfettered humanitarian access. We have offered our good offices to all parties to help them reach a peaceful solution, and have suggested that there may be a role for the international community in assisting in the implementation of a peace deal.

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had on human rights abuses in Darfur with the Sudanese authorities. [148643]

Hilary Benn: I discussed the human rights situation in Sudan with the President during my visit to Khartoum on 10 December 2003.

We continue to be concerned about the human rights situation in the whole of Sudan, regardless of religious or ethnic background. The promotion of human rights, through advocacy with the government and support for NGOs, remains one of our priorities.

Heavily Indebted Poor Countries

Mr. Bercow: To ask the Secretary of State for International Development what proportion of eligible heavily indebted poor countries committed to poverty reduction have received irrevocable debt relief. [149161]

Hilary Benn: Of the thirty-seven countries that could potentially qualify for debt relief under the Heavily Indebted Poor Countries' (HIPC) Initiative, twenty-seven have reached Decision Point and have therefore received interim relief on their debt service payments. This means that they no longer have to make any repayments on a substantial portion (around two-thirds) of their debts and are able to use these resources for increased social expenditure. Of these thirty-seven countries, nine have reached Completion Point and have received an irrevocable reduction in their stock of debt. A further ten are expected to reach Completion Point by the end of 2004.

Middle East

Tom Brake: To ask the Secretary of State for International Development what projects his Department are involved in in *(a)* Gaza and *(b)* the West Bank, aimed at improving public access to water for (i) consumption and (ii) agriculture. [148929]

Hilary Benn: We have had broad engagement with the Palestinian Water Authority for several years supporting the effective delivery of water services in the West Bank and Gaza Strip. Four projects that have improved access to potable water, sanitation and environmental health in some of the poorest communities have just been brought to a successful conclusion. We currently fund two projects.

Our support for the Sustainable Management of the West Bank and Gaza Strip Aquifers project will enhance the Palestinian Water Authority's understanding of the western aquifer, which is an essential source of water in the West Bank and Gaza Strip. The project includes consideration of the management and allocation of water resources between various uses—agriculture, industry and domestic—to allow the implications of alternative policies to be assessed. We also support a Water Access and Storage project to enable villages in the south Hebron district of the West Bank that do not have access to the networked water supply to obtain more secure access to drinking water and sustainable improved sanitation.

Global Health Fund

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the impact over the last 12 months of the Global Health Fund in tackling *(a)* HIV/AIDS, *(b)* tuberculosis and *(c)* malaria. [149074]

Hilary Benn: The Global Fund to Fight AIDS, Tuberculosis and Malaria (GFATM) was founded in January 2002. We recognise that the GFATM is still a young partnership and that it has just started to finance programmes within countries. The impact of GFATM is difficult to measure at this early stage but its 2002–03 annual report provides very good evidence of progress made to date on each of these diseases. Disbursement is now accelerating we expect to see more evidence of the impact of the Global Fund.

DFID has been working closely with the Board on effective ways to measure the GFATM's performance and evaluate its processes. We are working to ensure that the GFATM has a clear poverty focus, sound financial systems in place and alignment of its activities with national programmes and processes.

Infant Mortality

Mr. Bercow: To ask the Secretary of State for International Development (1) what the result has been of his Department's technical and financial contribution to the development and implementation of effective health programmes in the 16 African countries affected by his public service agreement target on mortality among children aged under five years; [148553]

(2) what the result has been of his Department's engagement with health sector development in 10 of the 16 countries in Africa affected by his Public Service Agreement target to reduce mortality amongst people aged under five years. [148549]

Hilary Benn: Of the 16 PSA countries, six have experienced a rise in child mortality between 1990 and 2001. The other ten have made varying degrees of progress but are all generally some way below the level needed to reach the PSA target.

Child mortality has multiple and complex causes. Economic decline and associated malnutrition is likely to have played a major role in constraining improvement in child health. Several African countries have also experienced conflict and civil unrest, which further undermine attempts to reduce child mortality. Other significant reasons for lack of progress include problems within the performance of the health sector itself and HIV/AIDS.

However, in a number of the PSA countries some encouraging progress has been achieved against intermediate health indicators. For example, in Ghana there has been progress with immunisation rates and deployment of nurses. Tanzania has seen improved immunisation rates, significant Vitamin A and insecticide-treated mosquito net distribution, improved

malaria treatment and strengthened health planning and management at district level. In Uganda, use of outpatient services has increased and immunisation rates have risen. All of these improvements have the potential to improve child mortality rates.

The Department for International Development's contribution to these improvements in Ghana, Tanzania, Uganda and other countries has been provided in a number of ways, including through support for the health sector, budget support, and technical assistance. It is also important to recognise that DFID is not working alone, and that changes are due to the combined efforts of the countries concerned and other donors as well as ourselves. We will continue to work with other donors to ensure that affordable and sustainable health outcomes are given due priority and support in national planning and budgeting processes.

Iraq

Jeremy Corbyn: To ask the Secretary of State for International Development what studies have been made of cancer rates in Iraq *(a)* from 1991 to 2002 and *(b)* since the end of hostilities on 1 May 2003. [148270]

Hilary Benn: DFID is not aware of any studies of cancer rates carried out by the Iraqi Ministry of Health, Coalition Provisional Authority or other bodies. The ability accurately to measure localised increases in cancer rates—especially if there is cancer due to radiation, which can take years to develop—requires a well-developed national disease surveillance system, which Iraq does not currently have. The World Health Organisation plans to carry out a study to investigate the effects of the use of depleted uranium in ordnance used by military forces, which some individuals have claimed has caused an increase in cancer rates in Iraq, using that country as a key focus. This study will be subject to funding and to an improvement in the security situation.

Tom Brake: To ask the Secretary of State for International Development how much his Department has spent on *(a)* secondments, *(b)* consultants and *(c)* security as part of its expenditure on humanitarian and reconstruction assistance in Iraq. [149212]

Hilary Benn: We have spent *(a)* £2.1 million on secondments, *(b)* £6.3 million on consultants and *(c)* £11.4 million on security measures in Iraq to date. In addition, we have recently contributed £3.6 million to UNSECOORD for security measures for UN operations in Iraq.

Tom Brake: To ask the Secretary of State for International Development what efforts his Department have made to employ Iraqis in development work in that country. [149162]

Hilary Benn: DFID's approach is to encourage the involvement and employment of Iraqis as much as possible in all the work we fund. For some projects, this has included direct employment of Iraqi staff and sub-contracting of Iraqi firms. By way of example, the vast majority of the construction work DFID has funded in southern Iraq has been sub-contracted to local firms. One of the criteria we have set for our £20 million Essential Infrastructure Programme has been to give priority to projects that create the most employment. We are also considering funding for direct employment generation schemes in southern Iraq.

Jharkand

Tom Brake: To ask the Secretary of State for International Development whether his Department are involved in development work in the Indian state of Jharkand. [149164]

Mr. Gareth Thomas: We have agreed with the Union Government to working closely with four focus states committed to poverty reduction, including on their programmes of fiscal and public sector reform, increasing access to basic health, education, and urban services for the poor and empowerment of the marginalised. Although Jharkand is not one of DFID's focus states, through DFID India's National Programme we support the efforts of the Union Government and civil society nationwide. For example, Jharkand is covered by DFID support for basic education, maternal and child health and civil society; Jharkand is also a major beneficiary of DFID's Poorest Areas Civil Society Programme.

Low-income Countries

Mr. Bercow: To ask the Secretary of State for International Development what proportion of his Department's bilateral programme has gone to low-income countries in each of the last six years. [149068]

Hilary Benn: The information requested is shown in the following table. Note that it can be measured in a number of ways and the figures corresponding to the target in DFID's Public Service Agreement are those in the middle category i.e. all country specific bilateral assistance excluding humanitarian assistance.

DFID Bilateral Programme: Percentage To Low Income Countries[1]

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Country Specific: All Recipient Countries						
Low Income Countries	65	73	67	76	78	80
Country Specific: All Recipient Countries(excluding Humanitarian Assistance						
Low Income Countries	67	72	75	78	78	80
Country Specific: Developing Countries only[2]						
Low Income Countries	72	78	71	79	82	84

[1] Countries are classified using 1998 GNI per capita estimates used by the DAC for aid flows up to 2002. This table covers only bilateral aid that can be attributed to individual countries. Low Income Countries are those with a GNI per capita in 1998 below $760.
[2] This includes all countries defined as developing by DAC, i.e. those on Part I of the DAC list of recipient countries.

Further details can be found in Table 4 of our annual publication 'Statistics on International Development', a copy of which is available in the Library of the House.

Malaria

Mr. Chidgey: To ask the Secretary of State for International Development what support the United Kingdom will give developing countries to enact the World Health Organisation's recommendation that artemisinin-based combination therapy should be used in malaria outbreaks to prevent the disease developing further resistance to treatment. [149219]

Hilary Benn: Artemisinin (or Artesunate) is a naturally occurring substance that has been used in China in the treatment of malaria for a long period of time. It can be used by itself, but is more useful when combined with other effective anti-malarials as it enhances their useful life by decreasing the possibility of drug resistance. The World Health Organisation and Roll Back Malaria recommend the use of combined therapies as the first option wherever possible.

The Department for International Development has committed £48 million to Roll Back Malaria (RBM) over a four and a half year period (September 1999—March 2004). RBM provides coordinated support for sustainable action against malaria. This includes providing technical support to Governments to ensure that their anti-malarial drug policies enable those suffering from malaria to get early treatment and to access affordable and appropriate medicines. Their advice covers the use of artemisinin- based combination therapies. As an active partner of RBM, my Department works to ensure that RBM provides sound evidence based support for the effective use of resources, including those available from the Global Fund to Fight Aids, Tuberculosis and Malaria, to which we have committed a total of US$280 million.

DFID has also engaged more directly in partnerships with industry to transform research into drugs. We recently worked with GlaxoSmithKline, the WHO programme on Tropical Diseases Research and Liverpool University in the development of a cheap new drug called LAPDAP. In order to make the best use of LAPDAP, further research to combine it with artemisinin is being undertaken, managed under an umbrella organisation called the Medicines for Malaria Venture (MMV), which DFID also supports. MMV has a portfolio of projects, which include the development of a number of artemisinin-based combination therapies using a variety of drugs. DFID is funding MMV with £1 million per year for five years. Since its inception in 1999 MMV has demonstrated significant progress towards reaching its objective of two new drugs in the next 10 years.

Artemisinin-based therapies are, like many new treatments, relatively expensive. This highlights the need for the UK Government to work with others to reduce the cost of effective new drugs. The Prime Minister's high-level Working Group on Increasing Access to Essential Medicines in the Developing World recommended differential pricing of essential medicines for the developing world. My Department is working with other Government Departments to secure greater international commitment to affordable pricing. The Government worked with G8 colleagues at last year's Evian summit to secure commitment to action on this issue in line with the Working Group's recommendations.

Millennium Development Goals

Mr. Bercow: To ask the Secretary of State for International Development what progress has been made by each country in meeting the millennium development goal to halve the proportion of people whose income is less than one dollar a day by 2015. [149062]

Hilary Benn: Comparable data needed to assess trends in the proportion of people whose income is less than $1 a day are available only at the regional level. The most recent data and estimates for 2015 are as follows.

Regional breakdown of poverty estimates in developing countries

	1990	*2000*	*2015*
East Asia and Pacific	29.4	14.5	2.3
Europe and Central Asia	1.4	4.2	1.3
Latin America and the Caribbean	11.0	10.8	7.6
Middle East and North Africa	2.1	2.8	1.2
South Asia	41.5	31.9	16.4
Sub-Saharan Africa	47.4	49.0	42.3
Total	28.3	21.6	12.5

Source:
World Bank, Global Economic Prospects 2004

It is clear from these figures that while the global picture of income poverty improved over the 1990s and we are likely to reach the target overall, progress across regions varies. The following table sets out the latest available information on the proportion of the population below $1 a day by country[1].

Year	*Country*	*Percentage of population below $1 a day*[2]
1995	Algeria	<2
1998	Armenia	12.8
2001	Azerbaijan	3.7
2000	Bangladesh	36.0
2000	Belarus	<2
1999	Bolivia	14.4
1998	Brazil	9.9
2001	Bulgaria	4.7
1998	Burundi	58.4
1996	Cameroon	33.4
1998	Chile	<2
2000	China	16.1
1998	Colombia	14.4
1998	Costa Rica	6.9
1995	Cote d'Ivoire	12.3
2000	Croatia	<2
1996	Czech Republic	<2
1998	Dominican Republic	<2
1995	Ecuador	20.2
2000	Egypt	3.1
1997	El Salvador	21.4
1998	Estonia	<2
1999–2000	Ethiopia	81.9
1998	Gambia	59.3
1998	Georgia	<2
1999	Ghana	44.8
2000	Guatemala	16.0
1998	Guyana	<2
1998	Honduras	23.8

Year	Country	Percentage of population below $1 a day[2]
1998	Hungary	<2
1999–2000	India	34.7
2000	Indonesia	7.2
1998	Iran	<2
2000	Jamaica	<2
1997	Jordan	<2
1996	Kazakhstan	1.5
1997	Kenya	23.0
1998	Korea, Rep (South)	<2
2000	Kyrgyzstan	2.0
1997–98	Laos	26.3
1998	Latvia	<2
2000	Lithuania	<2
1998	Macedonia (FYR of)	<2
1999	Madagascar	49.1
1997–98	Malawi	41.7
1997	Malaysia	<2
1995	Mauritania	28.6
1998	Mexico	8.0
2001	Moldova	22.0
1995	Mongolia	13.9
1999	Morocco	<2
1996	Mozambique	37.9
1995	Nepal	37.7
1998	Nicaragua	82.3
1995	Niger	61.4
1997	Nigeria	70.2
1998	Pakistan	13.4
1998	Panama	7.6
1998	Paraguay	19.5
1996	Peru	15.5
2000	Philippines	14.6
1998	Poland	<2
2000	Romania	2.1
2000	Russian Federation	6.1
1995	Senegal	26.3
1996	Slovak Republic	<2
1998	Slovenia	<2
1995	South Africa	<2
1995–96	Sri Lanka	6.6
1998	Tajikistan	10.3
2000	Thailand	<2
1995	Tunisia	<2
2000	Turkey	<2
1998	Turkmenistan	12.1
1996	Uganda	82.2
1999	Ukraine	2.9
1998	Uruguay	<2
1998	Uzbekistan	19.1
1998	Venezuela	15.0
1998	Vietnam	17.7
1998	Yemen	15.7
1998	Zambia	63.7

[1] Countries without any internationally comparable data have been excluded from the table.

[2] The percentage of the population living below the commonly used international $1 a day standard, measured in 1993 international prices and adjusted for local currency using purchasing power parities

Source:

World Bank "2003 World Development Indicators"

Mr. Bercow: To ask the Secretary of State for International Development what the percentage change between 1990 and 2003 was in the numbers of people below the minimum level of dietary energy consumption in each country covered by the millennium development goals. [149063]

Hilary Benn: The information we have ready access to relates to the percentage of people below minimum levels of dietary energy consumption not absolute numbers and is not available for all countries[1]. The most recent information relates to the period 1998–2000. The available information and the change over the period is given in the following table.

[1] Countries without any internationally comparable data have been excluded from the table.

Country	1990–92	1998–2000	Change over period (percentage points)
Afghanistan	63	70	-7
Algeria	5	6	-1
Angola	61	50	11
Bangladesh	35	35	0
Benin	19	13	6
Bolivia	26	23	3
Botswana	17	25	-8
Brazil	13	10	3
Burkina Faso	23	23	0
Burma	10	6	4
Burundi	49	69	-20
Cambodia	43	36	7
Cameroon	32	25	7
Central African Republic	49	44	5
Chad	58	32	26
Chile	8	4	4
China	16	9	7
Colombia	17	13	4
Congo (Dem Rep)	32	73	-41

World Development Indicators 2003

Mr. Bercow: To ask the Secretary of State for International Development what progress has been made by each country in meeting the millennium development goals to halve between 1990 and 2015 the proportion of people who suffer from hunger. [149064]

Hilary Benn: Progress towards the hunger target varies between countries. According to the UN Human Development Report 2003 in 21 countries a larger proportion of people are going hungry than in 1990. Elsewhere progress is being made, such as in the three Sub-Saharan Africa countries with the highest proportions of people suffering from hunger in 1990 (Mozambique, Angola and Chad) where estimates of hunger have dropped considerably.

I refer the hon. Member to my other answer [UIN 149063] for the most recent trend data of the percentage of people below minimum levels of dietary energy consumption.

Mr. Bercow: To ask the Secretary of State for International Development what the change was between 1990 and 2003 in the share of the poorest quintile in national consumption in each country covered by the millennium development goals. [149066]

Hilary Benn: Quintile shares are calculated from income and consumption surveys. Developing countries carry out such surveys relatively infrequently and the information available does not allow us to examine changes between 1990 and 2003. The following table gives the latest statistics available by country and the year to which it refers[1].

[1] Countries without any internationally comparable data have been excluded from the table.

Latest statistics available

Country	Shares of income or consumption of poorest quintile	Year

World Development Indicators 2003

Mr. Bercow: To ask the Secretary of State for International Development what progress each country has made in meeting the millennium development goal that, by 2015, all children will be able to commence a full course of primary schooling. [149067]

Hilary Benn: Generally, progress towards the 2015 target has been good but huge challenges still remain. The Education For All Global Monitoring Report identifies 36 countries at serious risk of not achieving the goal, of which 22 are in sub-Saharan Africa. There is increased evidence since the World Education Forum in April 2000, that many countries now have better education sector policies for making progress. Increased international support, including our own commitment of £1 billion over the period 2002–07, is helping African Governments to improve primary school enrolment.

A comprehensive table listing the primary net enrolment ratio for each country where comparable data is available can be found in Table 5 in the statistical annex of the recent Education For All Global Monitoring Report (www.efareport.unesco.org).

Trade Liberalisation

Mr. Bercow: To ask the Secretary of State for International Development what input his Department has made into the *(a)* design and *(b)* implementation of the initiative by the International Monetary Fund and the World Bank to help developing countries to overcome problems in adjusting to a more liberal trading environment. [149102]

Hilary Benn: One of the more positive outcomes of the WTO ministerial in Cancun was the joint announcement by the World Bank and the IMF of a new trade-related initiative. Its overall aim is to assist poor countries with the adjustment costs of transition to trade liberalisation and help them capitalise on the potential benefits. DFID, in collaboration with others, has for some time been actively encouraging the World Bank and IMF to address more systematically the adjustment costs of trade liberalisation and the need for trade-related technical assistance. The collapse of negotiations in Cancun allows more time for the initiative to be developed and to encourage the Bank and Fund to work together more closely in designing mechanisms.

Overseas Aid

Mr. Bercow: To ask the Secretary of State for International Development which countries receive *(a)* bilateral and *(b)* multilateral aid from the UK Government; and how much each received from his Department in (i) 2002–03 and (ii) 2003–04. [149158]

Hilary Benn: Information on expenditure by the UK Government on development assistance is given in our annual publication "Statistics on International Development', a copy of which is available in the Library of the House.

Tables 7.1–7.5 (pages 115–152) contain the information requested for bilateral assistance in 2002–03. The column headed "Total DFID Programme" hows how much each country received from DFID while that headed "Total Gross Public Expenditure" gives total Government spend. Figures for 2003–04 are not yet available.

Table 8 shows contributions to multilateral organisations from both DFID and the Government as a whole for 2002–03. By definition, this expenditure cannot be broken down by country as the UK contribution is pooled with those of other donors. Figures for 2003–04 are not yet available.

UN Microcredit Year

Mr. Gardiner: To ask the Secretary of State for International Development what preparations his Department are making for the UN Microcredit Year in 2005. [149428]

Hilary Benn: DFID strongly supports the underlying principles of the UN's Year of Microcredit 2005, which seeks to increase international efforts to spread microfinance to more low income clients worldwide. Donors, including DFID, have supported policies and institutions to extend the outreach of sustainable microcredit and other financial services to the poor for many years. DFID has held several discussions with the UN organisers and has been instrumental in linking them with The Consultative Group to Assist the Poor (CGAP), which promotes best practice in the microfinance industry. We intend to support specific events in the UK and will announce these this autumn.

Background

UN Year of Microcredit 2005

The UN General Assembly, through resolution 53/197 in December 1998, proclaimed 2005 as the International Year of Microcredit. Following consultations with Member States in the second half of 2003, a Programme of Action for the Year has been agreed. The UN Capital Development Fund and the UN Secretariat's Department of Economic and Social Affairs will jointly coordinate the preparation activities of the UN system for the Year.

The UK and others supported wording in the Programme of Action resolution that emphasised the wider contribution of microfinance, and financial sector development, beyond a concentration on microcredit itself. Hence the Programme of Action often refers to microfinance, in addition to microcredit, and refers to savings, asset creation, and economic security.

The UN Programme proposes that the Year will be launched in November 2004, that Member States will establish National Committees, and that 2004 should be a year of preparation. DFID officials have met initially with UNCDF Secretariat staff, and also with Citigroup, one of the private sector sponsors. UNCDF have noted that donor funding will not be needed at the international level.

The key to the success of the Year will be UN countries adopting the General Assembly Resolution, and signing up to active steps to enable expansion of access to microfinance at local level. Whilst UN "Years" are vulnerable to a charge of more talk and less action, the Year of Microcredit is already attracting attention from private and public sectors including Citigroup, Bank of International Settlements and others.

The All-Party Parliamentary Group (APPG) on Microfinance is very likely to take an interest in the International Year of Microcredit. The Secretary of State met with them on 21 October. DFID officials are also checking whether other Departments will have an interest in the Year (Treasury, DTI). Following further meetings, DFID will recommend a programme of action for the Year to the Secretary of State.

DFID Support to Extend Access to Microfinance

Current DFID-supported initiatives also include:

The £18 million Financial Deepening Challenge Fund, using innovative mechanisms to encourage banks and other financial service providers to extend financial services for the poor (www.challengefunds.org).

AfriCap (www.africapfund.com), specialist equity fund investing in emerging microfinance institutions in Africa.

MicroSave-Africa (www.MicroSave-Africa.com) a programme that tests new pro-poor savings, insurance, and loan products and promotes market-led microfinance.

In addition, country-led programmes to develop the microfinance industry are under way in Kenya, South Africa, Uganda, Tanzania, India and Bangladesh.

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with his counterparts in the United States since the breakdown of the World Trade Organisation ministerial conference in Cancun about the likely impact of the United States Farm Bill on the *(a)* economies of and *(b)* living standards in, developing countries. [149118]

Hilary Benn: The Government conducted intensive discussion with the United States officials and ministers when the US Farm Bill was first introduced in 2002. Since Cancun there has been continuing contact between UK and US officials about all aspects of the WTO Round, including on the question of US domestic subsidies and their potential impact on the livelihoods of producers in developing countries.

Mr. Bercow: To ask the Secretary of State for International Development how many people made up the delegations of the developing countries at the World Trade Organisation ministerial conference in Cancún. [149126]

Hilary Benn: According to the official list of delegates provided by the WTO Secretariat, there were over 1700 accredited delegates from Developing countries at the WTO ministerial conference in Cancun.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for International Development whether the Government of Zimbabwe have reduced their arrears to the World Bank since December 2002. [147390]

Hilary Benn: The Government of Zimbabwe have not reduced their arrears to the World Bank since December 2002. At the end of October 2003, Zimbabwe's arrears were approximately £150 million.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of *(a)* the level and *(b)* the geographical distribution of food shortages in Zimbabwe. [148092]

Hilary Benn: The Zimbabwe Vulnerability Assessment Committee's survey in April last year estimated that approximately 4.4 million people in rural areas and 1.1 million people in urban areas would require food aid during the pre-harvest months of January, February and March 2004. However, it is now clear that this figure is an underestimate and is being revised upwards to 5.1 million people in rural areas. Results of a comprehensive urban vulnerability assessment are yet to be released, but are also expected to show a significant increase in people requiring humanitarian assistance.

DFID works in close collaboration with UN agencies and other development partners to monitor the levels and geographical distribution of food shortages throughout Zimbabwe. Relevant factors include employment levels, commodity prices, income levels, agricultural activity and rainfall levels, HIV prevalence rates and alternative coping mechanisms.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the extent of political abuse by the Zimbabwe Government of food aid provided by his Department. [148093]

Hilary Benn: The World Food Programme and others distributing international food aid all have clear procedures and monitoring systems in place to ensure that humanitarian aid is distributed according to need. These systems are working well and there have been no significant cases of political interference with international aid, including that provided by the UK, in recent months. Along with the UN, EU and other donors, we continue to make it clear to the Zimbabwe Government that we will not tolerate political interference in the distribution of food aid.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of how much food aid is reaching the people of Zimbabwe. [148128]

Hilary Benn: In December 2003, the WFP and other agencies distributed general rations to 3.5 million beneficiaries, while many other vulnerable people received food through targeted programmes. As well as being a major contributor to WFP, DFID's separate NGO programme is reaching over a million beneficiaries a month through home-based care, school and therapeutic feeding schemes.

The level of food aid reaching the people of Zimbabwe is a credit to the logistical capabilities of the WFP and the dedication of the implementing NGOs. Incidents of political interference remain few and isolated. DFID continues to work in close collaboration with the WFP and other partners to ensure that food aid is distributed in an apolitical manner and that those in most need receive assistance.

SOLICITOR-GENERAL

Professor Sir Roy Meadow

Tim Loughton: To ask the Solicitor-General in how many cases in which parents were charged with causing the death of a child, was expert evidence given by Professor Sir Roy Meadow. [145032]

The Solicitor-General: The recently published judgment in Angela Cannings has raised concerns over the safety of a number of convictions and as such will have serious and far-reaching implications. The Court of Appeal said that in relation to unexplained infant deaths when the outcome of the trial depended exclusively or almost exclusively on a serious disagreement between distinguished and reputable experts it will often be unsafe to proceed.

As soon as the Court gave its judgement that Angela Cannings' conviction was unsafe, the Attorney and I requested that all cases which potentially involve sudden infant death syndrome be identified as quickly as possible. By the time the Court published its written judgement some 258 convictions involving the murder, manslaughter or infanticide of an infant under two by its parent had been identified.

Those convictions will now be reviewed as a matter of urgency to establish how many were convictions that the Court of Appeal judgement in Angela Cannings indicated may be unsafe. Priority will be accorded to those persons who are still serving a sentence of imprisonment. While I cannot give any figures at present for the number of cases in which parents were charged with causing the death of a child and in which expert evidence was given, the identification and review of the 258 convictions may enable further and more detailed information to be given in due course.

Tim Loughton: To ask the Solicitor-General how many *(a)* women and *(b)* men are serving jail sentences as a result of court cases in which expert evidence was given by Professor Sir Roy Meadow. [145033]

The Solicitor-General: The recently published judgment in Angela Cannings has raised concerns over the safety of a number of convictions and as such will have serious and far-reaching implications. The Court of Appeal said that in relation to unexplained infant deaths when the outcome of the trial depended exclusively or almost exclusively on a serious disagreement between distinguished and reputable experts it will often be unsafe to proceed.

As soon as the Court gave its judgement that Angela Cannings' conviction was unsafe, the Attorney and I requested that all cases which potentially involve sudden infant death syndrome be identified as quickly as possible. By the time the Court published its written judgement some 258 convictions involving the murder, manslaughter or infanticide of an infant under two by its parent had been identified.

Those convictions will now be reviewed as a matter of urgency to establish how many were convictions that the Court of Appeal judgment in Angela Cannings indicated may be unsafe. Priority will be accorded to those persons who are still serving a sentence of imprisonment. While I cannot give any figures at present for those men and women who are serving jail sentences in which Professor Meadow gave evidence, the process of identifying and reviewing the convictions I have mentioned above may enable further and more detailed information to be given in due course.

Security Passes

Mr. Oaten: To ask the Solicitor-General how many security passes have been reported *(a)* lost and *(b)* stolen by staff in (i) the Department and (ii) departmental agencies in the last 12 months. [147986]

The Solicitor-General: Headquarters was notified that 81 identity cards/access cards had been lost and five had been stolen.

Twenty eight security passes were reported as lost in the Treasury Solicitor's Department within the last one to two months. All 28 passes were reported as lost rather than stolen.

Five security passes were reported as lost in the Serious Fraud Office within the last 12 months. All 5 were reported as lost rather than stolen.

Six security passes were reported as lost in HM Crown Prosecution Service Inspectorate within the last 12 months. All six were reported as lost rather than stolen.

No security passes were reported as either stolen or lost by my own department, the Legal Secretariat to the Law Officers, over that period.

EDUCATION AND SKILLS

Adult Learning Grant

Ann Keen: To ask the Secretary of State for Education and Skills what estimate he has made of the number of people in the Brentford and Isleworth constituency who will benefit from the pilot of the Adult Learning Grant. [146321]

Mr. Ivan Lewis: The Adult Learning Grant is being piloted in one further education college in Brentwood and Isleworth. We estimate that about 20 adults studying full-time at this college for First Level 2 or First Level 3 qualifications will benefit from the grant this academic year.

Basic Skills

Jon Trickett: To ask the Secretary of State for Education and Skills what information his Department collects on the level of basic skills. [147451]

Mr. Ivan Lewis: The Department for Education and Skills (DfES) collates adult basic skills data at several levels. First through evaluation, research and economic analysis; second through a continuous programme of research led by the National Research and Development Council (NRDC); third through our marketing and communication strategy; and finally through the collection of factual data and information on all learners participating in programmes.

"The Skills for Life Survey: A National Needs and Impact Survey of Literacy, Numeracy and ICT skills" (DfES, October 2003) provides an up-to-date assessment of the level of basic skills need against the National Standards for literacy, numeracy and ICT among adults aged 16 to 65 in England. A copy of this survey has been placed in the House of Commons Library.

The National Research and Development Centre lead a continuous programme of research to ensure that implementation and future development are based firmly on evidence.

The Learning and Skills Council, Jobcentre Plus, the Prison Service and other key partners report regularly on delivery, learner participation and delivery. They provide an invaluable source of information on the people taking part and the direct impact the strategy is having.

The DfES also collects regular information on the number of basic skills qualifications that are achieved and count towards the Skills for Life PSA targets. We are confident that we have achieved the July 2003 target of 470,000 learner achievements.

Behaviour Improvement Programmes

Mr. Luff: To ask the Secretary of State for Education and Skills pursuant to his Answer of 8 January (145433), if he will list the 60 Behaviour Improvement Programme local education authorities and the precise sum each will receive in the current financial year. [147690]

Mr. Ivan Lewis: The following table provides the information required.

Local education authorities—2003–04

	Total amount (£)
Phase 1	
Bradford	1,442,000
Brent	1,442,000
Camden	1,442,000
Hammersmith and Fulham	1,442,000
Lewisham	1,442,000
Sheffield	1,442,000
Islington	1,442,000
Waltham Forest	1,442,000
Rochdale	1,442,000
Birmingham	1,442,000
Salford	1,442,000
Barking and Dagenham	1,400,335
Oldham	1,442,000
Wolverhampton	1,442,000
Manchester	1,442,000
Hackney	1,400,335
Knowsley	1,442,000
Greenwich	1,400,335
Enfield	1,442,000
Lambeth	1,400,335
Nottingham	1,400,335
Southwark	1,442,000
Newham	1,442,000
Haringey	1,442,000
Bristol	1,400,335
Tower Hamlets	1,400,335
Leeds	1,442,000
Westminster	1,442,000
Bolton	1,442,000
Liverpool	1,442,000
Hounslow	1,400,335
Reading	1,442,000
Slough	1,442,000
K&C	1,400,335
Phase 2	
Barnsley	1,400,000
Blackburn and Darwen	1,400,000
Blackpool	1,400,000
Doncaster	1,400,000
Ealing	1,400,000
Gateshead	1,400,000
Halton	1,400,000
Hartlepool	1,400,000
Hull	1,400,000
Leicester	1,400,000
Luton	1,400,000
Middlesbrough	1,400,000
Newcastle	1,400,000
North Tyneside	1,400,000
Redcar and Cleveland	1,400,000
Rotherham	1,400,000
Sandwell	1,400,000
Sefton	1,400,000
Solihull	1,400,000
South Tyneside	1,400,000
St. Helens	1,400,000
Stockton	1,400,000
Stoke	1,400,000
Sunderland	1,400,000
Wandsworth	1,400,000
Wirral	1,400,000

The minor variations between Phase 1 LEAs reflect successful bids for additional measures.

Biodefence Research

Harry Cohen: To ask the Secretary of State for Education and Skills what assessment he has made of whether universities satisfactorily ensure physical, personnel and information security in the performance of biodefence research; what assessment he has made of the case for moving such research from university laboratories to secure national laboratories; and if he will make a statement. [147541]

Mr. Blunkett: I have been asked to reply.

We do not comment on detailed security matters such as these but the Anti-terrorism, Crime and Security Act 2001 provides controls on both physical and personnel security measures for premises holding dangerous substances.

It has conferred new powers on the police under Part 7 and Schedule 5 and was implemented 31 May 2002. These include:

Notification Process—"the occupier of any premises" where a Schedule 5 substance is "kept or used" is required to notify the Home Office.

Confers powers on the police to inspect such premises and give directions on protective security advice.

Confers powers on the police to seek information and obliges laboratories to provide information to them.

Bullying

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many incidents of bullying have taken place in schools in *(a)* Lancashire and *(b)* Chorley in each of the last three years. [148372]

Mr. Ivan Lewis: Data on bullying are not collected centrally and there is no reliable basis for an estimate of prevalence. However, any level of bullying is too high and we are determined to help schools to tackle the problem. Our guidance pack "Bullying: Don't Suffer in Silence" and the anti-bullying website: www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. I have also recently launched our anti-bullying Charter, which I hope schools will sign and use. It is accompanied by a summary of effective practice to help schools review and enhance their anti-bullying policies. We are also currently running a series of England-wide regional anti-bullying conferences for schools and other partners to share good practice.

Dr. Pugh: To ask the Secretary of State for Education and Skills (1) what research his Department has commissioned on bullying in schools; [148102]

(2) what data his Department collates on bullying in schools. [148103]

Mr. Ivan Lewis: In March 2003 I launched a DfES-funded report summarising recent research on children and young people's views on bullying. This is available on the Department's website at www.dfes.gov.uk/research. Rather than collecting data from schools, which would add to their workload, we are concentrating on helping schools to reduce bullying. Disseminating good practice is crucial to this. So we have made our anti-bullying guidance pack "Bullying: Don't Suffer in Silence" and the anti-bullying Charter which I launched in November available to every school in England. And we are currently running a series of England-wide regional conferences for schools and other partners to share good practice. This is in addition to staff training materials on bullying which we are making available to all secondary schools through our Key Stage 3 strategy.

Career Guidance

Charles Hendry: To ask the Secretary of State for Education and Skills if he will make a statement on the place of career guidance within the provision by the Connexions Service. [149511]

Margaret Hodge *[holding answer 20 January 2004]:* Career guidance is a key part of the work of Connexions. All 13–19 year olds in England have access to support on making learning and career choices from Connexions. The level of support each individual receives is differentiated according to need. Support is provided in a range of ways, including through: one to one and group sessions with a Connexions Personal Adviser; Connexions Direct—a telephone helpline, e-mail and web-chat facility, open from 8am to 2am, 365 days a year; and the careers information materials available in Connexions Resource centres in schools, colleges and Connexions one-stop shops.

Charles Hendry: To ask the Secretary of State for Education and Skills whether it is his policy to ensure that *(a)* access to and *(b)* provision of careers guidance and advice is equal between young people (i) in education and (ii) not in employment and training. [149514]

Margaret Hodge: All young people can access Connexions services on an equal basis through their schools and colleges, one-stop shops and Connexions Direct. Provision of careers advice and guidance —as with all the services provided by Connexions—is differentiated according to need. This applies to all young people, irrespective of whether or not they are currently in education, employment or training.

Charles Hendry: To ask the Secretary of State for Education and Skills what qualifications are required of Connexions personal advisers who are expected to provide careers guidance and advice. [149515]

Margaret Hodge *[holding answer 20 January 2004]:* The Secretary of State recognises three specific qualifications for Connexions Personal Advisers who give in depth career guidance to young people in the statutory client group; these are the Qualification in Careers Guidance (QCG), NVQ Level 4 in Advice and Guidance (including specified units) and the Diploma in Careers Guidance (DCG). DfES provides funding to support the initial training of careers guidance professionals to help encourage people from a wide range of backgrounds to move into the role of specialist career guidance practitioner.

Children Bill

Mr. Amess: To ask the Secretary of State for Education and Skills what discussions have been held with local government representatives about the forthcoming Children Bill. [148783]

Margaret Hodge *[holding answer 20 January 2004]:* I have worked closely with the Inter Agency Group, which brings together local government, health and voluntary sector representative bodies, to ensure that we understand their views fully in developing the Children Bill, as well as the other work the Government are taking forward following the publication of "Every Child Matters". Officials have also regularly met representatives of local government to discuss policy development. Our work has also been informed by the extensive consultation we undertook on "Every Child Matters". All areas of local government were fully represented at the nine regional consultation events and we are pleased to have received a huge response to the written consultation, including many submissions from local government representative groups and local authorities. I have also met individual local authority representatives in a number of meetings and on a range of visits.

Connexions Service

Charles Hendry: To ask the Secretary of State for Education and Skills how many Connexions Service clients there were in each year since its establishment, broken down *(a)* by Connexions service area and *(b)* by (i) young people not in education, employment or training and (ii) others. [149512]

Margaret Hodge *[holding answer 20 January 2004]*: The following tables show the number of Connexions Service clients (young people aged 13 to 19 known to Connexions) for the period 2001–02, 2002–03 and 2003–04.

Table 1 shows those clients known not to be in education, employment and training, and other young people who have completed compulsory education.

Table 2 shows the number of clients of compulsory education age for the operational years of 2002–3 and 2003–4. This information was not collected in 2001–2.

Table 1: Number of clients/young people who have completed compulsory Education known to connexions

[1] Northumberland Connexions Partnership commenced in April 2003.

Notes:
The information complied represents averages of monthly data provided by Connexions partnerships from their own management information and tracking systems.

Charles Hendry: To ask the Secretary of State for Education and Skills whether it is the policy of the Connexions Service to give special attention to young people not in education, employment or training. [149513]

Margaret Hodge *[holding answer 20 January 2004]:* It is the policy of the Connexions Service to reduce the numbers of young people not in education, employment or training. It does so through preventive work with young people who are in education employment and training and targeted, individual work with those who are not.

E-registration

Mr. Forth: To ask the Secretary of State for Education and Skills what the procedures are for monitoring and assessing the effectiveness of the funding by the Department of schools' e-registration systems. [148745]

Mr. Ivan Lewis: Before schools can be awarded Capital Modernisation funding for electronic registration they must submit plans to the Department showing how they would spend it. Departmental officials only authorise local education authorities to release funding to a school when they are satisfied that its plans comply with stringent conditions set by the project. Local education authorities are then expected to work with schools to ensure the efficiency of systems installed.

We have also commissioned the University of Warwick to conduct an independent evaluation of the project. A summary of interim findings is available on the school attendance website, http://www.dfes.gov.uk/schoolattendance/. A final report is expected in February 2006.

Gap Years

Mr. Flook: To ask the Secretary of State for Education and Skills what representations he has received from *(a)* schools, *(b)* parents and *(c)* pupils about the intentions of year 12 or lower 6th students expecting to complete A-levels in summer 2005 and considering whether to take a gap year in 2005–06. [148504]

Mr. Ivan Lewis: At December 2003 the Department for Education and Skills had received the following representations about young people's gap year intentions for 2005/06: nine from schools, three from parents and three from pupils.

Mr. Chope: To ask the Secretary of State for Education and Skills what discussions he intends to have with charitable organisations in respect of the impact of his proposals for higher education funding on gap year activities in 2005–06. [149026]

Mr. Ivan Lewis *[holding answer 19 January 2003]:* There are no plans for discussions with charitable organisations on the impact of the proposals for higher education funding on gap year activities in 2005–06.

The Higher Education White Paper "The Future of Higher Education" was published on 22 January 2003 and there was an extensive consultation exercise associated with it.

In addition, the impact of higher education funding on gap year intentions is a matter regularly discussed by officials and Gap Year Providers and representative groups at meetings of DfES' informal Gap Year Consultation Group.

School Exclusions (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many *(a)* short-term, *(b)* long-term and *(c)* permanent (i) high schools and (ii) primary schools exclusions there were in Lancashire in each of the last three years. [148373]

Mr. Ivan Lewis: Information on non-permanent (fixed term) exclusions is not yet available centrally.

The Department has recently started to collect information from local education authorities on both fixed term and permanent exclusions on a termly basis. The first term's data are not yet available.

The information requested on the numbers of permanent exclusions is given in the table.

Lancashire LEA maintained primary and secondary schools: number of permanent exclusions, 1999/2000 to 2001/02

	1999-2000		2000-01[1]		2001-02[1]	
	Number	Percentage of school population[2]	Number	Percentage of school population[2]	Number	Percentage of school population[2]
Primary[3]	19	0.02	34	0.03	39	0.04
Secondary[3]	144	0.19	207	0.28	240	0.32
Total	167	0.09	250	0.14	299	0.17

[1] The 2000/01 and 2001/02 figures shown in the table are based upon the Annual Schools census returns together with LEA level amendments reported by LEAs as part of the data checking process.
[2] Number of permanent exclusions expressed as a percentage of school population.
[3] Includes middle schools as deemed.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many pupil exclusions took place in each of the last three years in *(a)* Lancashire and *(b)* Chorley. [146975]

Mr. Ivan Lewis: The information available for the three most recent years is shown in the table:

Maintained primary, secondary and all special schools: number of permanent exclusions, 1999/2000 to 2001/02

	1999/2000		2000/01[1]		2001/02[1]	
	Number	Percentage[2]	Number	Percentage[2]	Number	Percentage[2]

Annual Schools' Census.

Individual Learning Accounts

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps have been taken to introduce a replacement scheme for individual learning accounts; when the replacement scheme will commence; and if he will make a statement. [149565]

Mr. Ivan Lewis: In July 2003, we published the White Paper "21st Century Skills, Realising Our Potential" which sets out how we will meet the skills challenge. The reforms in that strategy provide the essential elements we previously sought to develop through Individual Learning Accounts (ILA). As the White Paper says at paragraph 4.31, we have decided not to introduce another stand-alone ILA scheme, separate from the mainstream support for adult learning.

The White Paper goes on to say:

"4.32 Instead, we have integrated those ILA elements that proved successful within the broader strategy, particularly through our proposals for a new entitlement to free learning at level 2 for those with few or no qualifications; improvements in learner support; broadening the range of training providers, so that we can bring within the scope of public funding those privateproviders who have something distinctive to offer and can meet the necessary quality standards; strengthening the range of first step and return to learn opportunities; improving information, advice and guidance for adults; and developing a Unique Learner Number."

Microsoft Licences

Dr. Pugh: To ask the Secretary of State for Education and Skills how many new licences for Microsoft products were purchased by schools in *(a)* 1999, *(b)* 2001 and *(c)* 2002; and what the cost was in each year of these purchases. [146854]

Mr. Charles Clarke: Information on the number of, and cost of, new licences for Microsoft products purchased by schools in 1999, 2001 and 2002 is not available because of the devolved nature of the purchasing of Microsoft products under IMS arrangements.

Information has been made available to Becta by Microsoft in respect of Microsoft's licensing sales to schools during the 2002/03 Microsoft financial year. This information is the subject of legally binding non-disclosure arrangements.

Dr. Pugh: To ask the Secretary of State for Education and Skills whether, under the terms of the memorandum between Microsoft and the British Educational Communications and Training Agency, schools will continue to get licences at 20 per cent. to 37 per cent. discounts if the total aggregate number of Microsoft licences held by schools in the United Kingdom falls. [146855]

Mr. Charles Clarke: The discount levels in the memorandum between Microsoft and the British Educational Communications and Training Agency are based on thresholds derived from the estimated number of licenses purchased annually by schools in England rather than on the total number of licenses held. The discount levels are calculated annually in arrears and therefore the discount levels which apply in Year 1 of the agreement relate to purchases already made, are at the maximum level, and are therefore absolutely guaranteed. The discount applicable in Year 2 will relate to the number of licenses actually purchased in Year 1. The discount in Year 3 relates to the actual purchases in Year 2.

The number of licences across the UK required to qualify for the maximum discount in Year 2 and Year 3 are also based on the same numerical threshold as Year 1. Therefore, no growth in the number of Microsoft licences purchased annually by schools is required to achieve the maximum discount levels.

As Becta has a UK wide remit, it has ensured that licence volumes from the Devolved Administrations, although not taken into account in deriving the threshold, can be taken into account in meeting it, thus providing a cost advantage to schools in the Devolved Administrations, and the increased possibility that schools in England will benefit from the highest discount levels.

In the event that the number of licenses purchased by schools across the UK does not fall below 96 per cent. of the number of licenses purchased by schools in England in the year prior to the introduction of the MOU, the maximum level of discount will continue to apply. If the total number of licences sold to schools in the UK in any year of the agreement (the annual sales) falls below 96 per cent. of the number of licences purchased in the year immediately preceding the agreement by schools in England (the base year), the 20 per cent. minimum discount will be reduced as follows:

if the annual sales fell to 75 per cent. of the base year sales, the minimum discount of 20 per cent. would be reduced to 75 per cent. of its previous value i.e. it would fall from 20 per cent. to 15 per cent; and

if the annual sales fell to 50 per cent. of the base year sales, the minimum discount would be reduced to 50 per cent. of its previous value i.e. it would drop from 20 per cent. to 10 per cent.

These two 'pro rata' minimum discount points at 15 per cent. and 10 per cent. were introduced to minimise the impact of any reductions in the purchasing by schools of Microsoft products.

Dr. Pugh: To ask the Secretary of State for Education and Skills how many licences for Microsoft products are held by state schools; and what the total cost of such licences to the schools is. [146856]

Mr. Charles Clarke: Microsoft has been supplying licences to schools for more than 20 years. Data on the number of licences held by state schools or their total cost are not available because of the devolved nature of purchasing under LMS arrangements.

Dr. Pugh: To ask the Secretary of State for Education and Skills what percentage of new licences purchased in each of the last five years by schools are OEM type licences that come outside the agreement between the British Educational Communications and Training Agency and Microsoft. [146857]

Mr. Charles Clarke: Information on the percentage of new licences purchased in each of the last five years by schools that are Original Equipment (OEM) type licences, is not available because of devolved nature of the purchasing of Microsoft products under Local Management of Schools arrangements.

Microsoft has made information available to Becta in respect of Microsoft's (non-OEM) licensing sales to schools during the 2002–03 Microsoft financial year. This information is the subject of legally binding non-disclosure arrangements.

The Department's ICT in Schools survey provides information which can be used to estimate the year on year growth in the number of computers in schools. It is anticipated that the vast majority of these additional machines will require an OEM licence in respect of Microsoft Windows.

Dr. Pugh: To ask the Secretary of State for Education and Skills if he will estimate the savings on software licences following the recent agreement between the British Educational Communications and Training Agency and Microsoft; and what percentage of school expenditure on Microsoft licences this represents in each of the next three years for schools. [146858]

Mr. Charles Clarke: Through aggregating demand for Microsoft Licensing, Becta has been able to identify estimated savings over the next three years of up to £46 million for schools in England. These potential savings apply to all schools in the maintained and independent sectors. Additional savings will accrue to schools in Northern Ireland, Scotland and Wales. Compared to April 2003 pricing, the reduction/savings in schools' spending attributable to this deal will be between 20 per cent. and 37 per cent. depending on the actual products purchased.

The estimate of savings for each of the next three years is:

Year 1—£13 million;

Year 2—£15 million; and

Year 3—£18 million.

Taking account of the likely mix of products purchased and the licensing programmes used, the overall percentage reduction in school spend on Microsoft licensing compared with spending levels as at April 2003 is estimated to be between 30 per cent. to 33 per cent.

The calculation of these savings was made possible as a result of information made available to Becta by Microsoft in respect of Microsoft's most recent financial year and under legally binding non-disclosure

arrangements. Procedures to monitor the actual level of savings achieved have been agreed by Becta and Microsoft.

Modern Apprenticeships

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many people under 22 are enrolled in or started modern apprenticeships in *(a)* 2002–03 and *(b)* 2003–04. [147436]

Mr. Ivan Lewis: In the academic year 2002/03, there were 146,000 starts on modern apprenticeships by learners aged under 22, and at the end of this year, there were a total of 194,100 learners aged under 22 on modern apprenticeships. Figures for 2003/04 are not yet available. Figures for numbers of starts and numbers in learning as at the end of October 2003 will be published by the Learning and Skills Council in March.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what percentage of the total population are qualified to apprentice in *(a)* the United Kingdom, *(b)* France and *(c)* Germany. [147437]

Mr. Miliband: The percentage of the population qualified to apprentice in the UK is 13.6 per cent. Comparable figures from France and Germany are not available.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many people were enrolled on apprenticeships in the United Kingdom in each year since 1995. [147440]

Mr. Ivan Lewis: The numbers of learners in England enrolled on government supported Advanced Modern Apprenticeship (AMA) and Foundation Modern Apprenticeship (FMA) programmes at the end of July in each year since 1995 are shown in the table.

Thousand

Year	*AMA*	*FMA*	*Total MA*[1]
1995	2.1	n/a	2.1
1996	25.1	n/a	25.1
1997	87.5	n/a	87.5
1998	109.6	8.8	118.4
1999	123.8	41.4	165.2
2000	127.3	77.7	205.0
2001	115.0	87.0	202.0
2002	102.7	106.1	208.8
2003	99.5	119.1	218.5

[1] Totals may not equal sum of AMA and FMA due to rounding.

Note:

Comparable figures covering other types of apprenticeships are not available. The figures given cover England only. Modern apprenticeships in the other countries of the UK are a matter for the relevant devolved authorities.

Modern Languages

Mr. David Stewart: To ask the Secretary of State for Education and Skills what plans his Department have to train specialist primary modern language teachers. [148376]

Mr. Miliband: In the current academic year, 406 people have been recruited to courses of initial teacher training for primary modern languages specialists provided by institutions in England. So far this year, there have been a further 34 recruits in primary modern languages to the Graduate Teacher Programme. In 2004–05, 580 college-based training places and 50 employment-based places will be available for primary modern languages.

School Exclusions

Dr. Pugh: To ask the Secretary of State for Education and Skills (1) how many exclusions from English primary schools there were in the last three years; [148045]

(2) how many *(a)* short-term, *(b)* long- term and *(c)* permanent exclusions there were from English secondary schools for the last three years. [148104]

Mr. Ivan Lewis: Information on fixed term exclusions is not yet available centrally. The Department has recently started to collect information from local education authorities on both fixed term and permanent exclusions on a termly basis. The first term's data are not yet available.

Information on the number of permanent exclusions in maintained primary and secondary schools is shown in the table.

Maintained primary and secondary schools[1] *number of permanent exclusions*

Academic years 1999/2000 to 2001/02
England

	Maintained Primary		*Maintained Secondary*	
	Number of permanent exclusions	*Percentage of the school population*[3]	*Number of permanent exclusions*	*Percentage of the school population*[3]
1999/2000	1,226	0.03	6,713	0.21
2000/01[2]	1,436	0.03	7,305	0.23
2001/02	1,451	0.03	7,741	0.24

[1] Includes middle schools as deemed.

[2] Permanent exclusions for 2000/01 are estimated as a number of local education authorities have not confirmed the data for their schools.

[3] The number of permanent exclusions expressed as a percentage of the number (headcount) of pupils in primary and secondary schools.

Source:

Annual Schools' Census

Mr. Hoban: To ask the Secretary of State for Education and Skills how many children were excluded from school in each local education authority in each year since 1997. [148431]

Mr. Ivan Lewis *[holding answer 19 January 2004]:* The Information requested for permanent exclusions has been placed in the House of Commons Library.

Information on fixed term exclusions is not yet available centrally. The Department has recently started

to collect information from local education authorities on both fixed term and permanent exclusions on a termly basis. The first term's data are not yet available.

Simon Hughes: To ask the Secretary of State for Education and Skills how many children aged *(a)* between four and 11, *(b)* between 12 and 16 and *(c)* between 16 and 18 have been excluded from school in each London borough in each of the last 10 years for which figures are available. [148440]

Mr. Ivan Lewis *[holding answer 15 January 2004]:* The available information, shown in the table, relates to permanent exclusions from 1995/96 onward.

Maintained primary and secondary schools[1] and special schools[2]: Number of permanent exclusions by age group Academic years 1995/96 to 2001/02 London Local Education Authorities

[1] Includes middle schools as deemed.
[2] Includes maintained and non-maintained special schools.
[3] Age as at 31 August at start of reference year.
[4] Estimates have been made for 2000/01 and 2001/02 because the exclusion data are known to be incomplete.
Source:
Annual Schools' Census

Dr. Pugh: To ask the Secretary of State for Education and Skills what records the Government keeps on the causes for school exclusions; and whether it lists them by category. [148095]

Mr. Ivan Lewis: My Department started to collect data on the reasons for exclusions from summer term 2003. The first term's data are not yet available.

Pupil/Teacher Ratios

Mr. Hoban: To ask the Secretary of State for Education and Skills what the pupil/teacher ratio was for each local education authority for *(a)* primary and *(b)* secondary schools in each year since 1997. [148429]

Mr. Ivan Lewis *[holding answer 19 January 2004]:* The information requested has been placed in the House of Commons Library.

School Admissions

Mr. Hoban: To ask the Secretary of State for Education and Skills how many pupils entered primary and secondary schools in each local education authority for the most recent year for which information is available; how many appeals against admissions there were; and what proportion of appeals were *(a)* successful and *(b)* unsuccessful. [149183]

Mr. Miliband *[holding answer 19 January 2004]:* The latest available information has been placed in the House of Commons Library.

School Funding

Mr. Hoban: To ask the Secretary of State for Education and Skills what discussions he has had with the Cabinet Office's strategy and delivery units on changes to the way funding may be allocated to schools; what work he has undertaken to review the basis of distributing funds directly to schools; and if he will place copies of the papers in the Library. [147146]

Mr. Miliband *[holding answer 12 January 2004]:* On 29 October the Secretary of State announced the arrangements for school funding in 2004–05 and 2005–06. Every school is guaranteed a minimum increase in funding—4 per cent. in 2004–05—and every LEA will receive at least a 5 per cent. funding increase that year. We expect LEAs to pass on funding increases to schools. We will continue to provide some direct grants from the Government to schools, in particular the Standards Fund, and allow schools to spend these funds more flexibly to meet their needs. These measures are designed to deliver stability and certainty for schools; this is our priority.

The Government continues to keep funding arrangements under review in consultation with other departments.

Dr. Pugh: To ask the Secretary of State for Education and Skills which local education authorities have made representations to ministers in his Department about school funding since October 2003. [148048]

Mr. Charles Clarke: We have received a wide range of representations from local education authorities and I, my ministerial colleagues and my officials have had discussions with many authorities both individually and collectively. The position on school funding was set out to the House on 29 October.

Mr. Yeo: To ask the Secretary of State for Education and Skills at what level Government funding per pupil will be in each of the next 10 years. [148561]

Mr. Miliband: Funding per pupil is set to rise by £1,000 in real terms, from £2,810 in 1997 to £3,600 in 2003–04 to £3,850 in 2006.

The level for 2006–07 and beyond will be determined by the outcome of future Spending Reviews.

School Trips

Mr. Gardiner: To ask the Secretary of State for Education and Skills pursuant to his answer of 8 January, *Official Report*, column 473W, on school trips, if he will assess the average annual costs to schools of covering the costs for pupils whose parents are unable to contribute to the costs of school trips; and if he will reimburse such costs to schools whose pupil profile has an above average number of children from families in receipt of state benefit. [149429]

Mr. Charles Clarke: There are no plans to assess either the average annual costs to schools of covering the cost of school trips for parents unable to make a contribution, or for the Department to reimburse these costs.

School-leavers (Qualifications)

Mr. Simmonds: To ask the Secretary of State for Education and Skills what percentage of the total population left school without basic school leaving qualifications in *(a)* the United Kingdom, *(b)* France and *(c)* Germany. [147438]

Mr. Ivan Lewis: The exact information requested is not available. The proportion of the population in each country that had failed to achieve qualifications at the level defined by the OECD as "upper secondary" by the ages shown is, however, as follows:

	Age Group				
	25–64	*25–34*	*35–44*	*45–54*	*55–64*
France	36	22	33	42	54
Germany	17	15	14	17	24
UK	37	32	35	39	45

Source:
Education at a Glance, 2003, OECD (derived from Table A1.2, page 41)

"Upper secondary" is defined in the UK context as attaining five GCSEs at grades A*-C or an equivalent vocational qualification (for example, a GNVQ at foundation or intermediate level).

Schools Voluntary Assistance Scheme

Dr. Kumar: To ask the Secretary of State for Education and Skills what progress has been made with his plans to encourage retired professionals to assist in schools on a voluntary basis; and what programmes are in place in the North East. [148319]

Mr. Miliband: Working through some of our national partners and contractors, such as the NCSL, TTA and Capita, we have encouraged the increased use of retired professionals, including teachers, with our plans for remodelling the school workforce and promoting 'Keeping in Touch' and 'Return to Teach' programmes. It is however up to local authorities and schools to determine their local needs for voluntary support staff. The Department does not collect centrally information about any such local programmes.

More specifically, for those teachers who retired on ill-health grounds from the Teachers' Pension Scheme, regulations came into effect on 1 January 2004 (The Education Health Standards England Regulations 2003) which will enable such former teachers to be re-employed, or work on a voluntary basis, in the education sector in a non-teaching capacity.

Departmental Circulars

Mr. Yeo: To ask the Secretary of State for Education and Skills if he will list the circular documents that were sent by his Department to *(a)* primary and *(b)* secondary schools between (i) 1 September 2002 and 31 August 2003 and (ii) 1 January and 31 December 2003; how many were on teacher workload; and how many pages each document contained. [148559]

Mr. Miliband: The following pages show the documents that were sent in the period 1 September 2002 and 31 August 2003 to *(a)* primary schools and *(b)* secondary schools. In total 37 documents were sent to all primary schools and 41 documents were sent to all secondary schools. On teacher workload one document was sent to all primary schools and all secondary schools in the period 1 September 2002 and 31 August 2003. This document contained 32 pages.

The following pages also show the documents that were sent in the period 1 September 2003 and 31 December 2003 to *(a)* primary schools and *(b)* secondary schools. In total 14 documents were sent to all primary schools and 20 documents were sent to all secondary schools. On teacher workload two documents were sent to all primary schools and secondary schools in this period. The total number of pages contained in these documents were three.

Where a document has been sent to all primary and all secondary schools it will appear in the totals for both primary and secondary above. Details of each document and how many pages each contained have been placed in the Library.

Mr. Yeo: To ask the Secretary of State for Education and Skills how many circular e-mails were sent by his Department to *(a)* primary and *(b)* secondary schools between (i) 1 September 2002 and 31 August 2003 and (ii) 1 January and 31 December 2003. [148560]

Mr. Miliband: During the period 1 September 2002 to 31 August 2003, three emails were sent to all primary schools and one to all secondary schools. During the period 1 September 2003 to 31 December 2003, five emails were sent to all primary schools and three to all secondary schools.

Skills Shortages

Jon Trickett: To ask the Secretary of State for Education and Skills what assessment he has made of the resources required to address skills shortages in former coalfield areas. [147479]

Mr. Ivan Lewis: This Department recognises the disparity between levels of necessary skills in particularly disadvantaged areas such as former coalfield areas and more affluent areas. It is addressing these issues through policies and targeted measures that focus on improving the quality of teaching and learning, tackling social exclusion and providing support to families and learners.

"The Skills Strategy", published in July 2003, announced new resources for:

creating a new entitlement to free learning for anyone without a good foundation of employability skills to get the training they need to achieve such a qualification (Level 2);

providing targeted support for higher level skills at technician, higher craft or associate professional level. This support will be focused on those who are developing their skills and qualifications to Level 3, in priority areas to meet sectoral and regional skill needs. The support will be provided through the new regional skills partnerships, and planned and funded by the local Learning and Skills Councils;

piloting the delivery of a new learning grant for adults in further education. This will be modelled on the existing education maintenance allowance for 16 to 19-year-olds. It will be aimed at adults studying full-time for their first full Level 2 qualification, and young adults studying full-time for their first full Level 3 qualification. One of the areas it is being piloted in, from September, is South Yorkshire;

safeguarding the provision in each local area of a wide range of learning for adults, for culture, leisure, community and personal fulfilment purposes. While giving priority to better work-related skills training, each local Learning and Skills Council will have funds to work with others to support that range of learning, including learning for pensioners;

providing better information, advice and guidance on skills, training and qualifications, so that people know what is available, what the benefits are, and where to go. To achieve this, we will combine the network of local advice partnerships with the national advice helpline provided by Ufi/learndirect; and

Learning Communities to tackle low adult aspiration and skills and intergenerational deprivation by making a specific but strong connection between the development of a communities skills base and the contribution that it can make to meeting the regional skills needs and priorities expressed by the FRESA. The goal is not just social improvement, vital though this is. Learning Communities will add value by raising regional prosperity and productivity through raising skills because this, in itself, is a powerful way of addressing social disadvantage.

This Department also recognises the importance of coordinating its policies effectively to make an impact in deprived areas and is working with the LSC, RDA, local authorities and Coalfields organisations such as the Coalfield Communities Campaign (CCC) to achieve effective targeting and cohesion.

We work with the Learning and Skills Council (LSC), both nationally and with each of its 47 local offices, to ensure that education, skills and employment policies all come together sensibly in communities. We have ensured that local LSCs have the flexibility to allocate their resources where they are most needed so that they can make maximum impact in disadvantaged communities, and can draw on funding from elsewhere e.g. European Social Funding (ESF).

The nine Regional Development Agencies (RDAs) help ensure, for example, that their Regeneration and Skills Development Funds are targeted to impact on Neighbourhood Renewal areas and can set aside specific funds to address basic skills needs in their regions.

Sure Start

Jeff Ennis: To ask the Secretary of State for Education and Skills how many Sure Start schemes are operating in England; and how many of these are community-led schemes. [145467]

Margaret Hodge: All 524 planned Sure Start local programmes are now operating, serving many of the most disadvantaged communities in England. All Sure Start programmes are 'community-led' through a partnership (made up of parents, community groups, and local representatives of voluntary and statutory organisations providing services to the families in the area) that designs the programme after consultation with families and workers in the area so that services reflect the needs of the community. These partnerships, in the main, have no legal status and are not incorporated bodies. One of the partner organisations must act as the 'accountable body' and take the legal responsibility for receiving the grant on behalf of the partnership. 86 programmes (16 per cent.) have non-statutory organisations as their accountable body, and of these, 16 (3 per cent.) are community groups or partnerships who have taken legal status for the purpose of running the programme.

Vocational Qualifications

Mr. Simmonds: To ask the Secretary of State for Education and Skills what percentage of GCSE-equivalent qualifications were vocational in each year since 1997. [147439]

Mr. Ivan Lewis: The percentage of pupils that achieved 5+ grades A*-C at GCSE/GNVQ with the help of vocational (GNVQ) qualifications since 1997 are shown in the table.

Academic year	*Percentage of pupils who achieved 5+ A*-C at GCSE/GNVQ with the help of vocational qualifications*
1996/97	0.2
1997/98	0.4
1998/99	0.6
1999/2000	0.8
2000/01	1.2
2001/02	2.7
2002/03	5.6

WORK AND PENSIONS

Benefits

Mr. Waterson: To ask the Secretary of State for Work and Pensions what plans he has to reduce delays in processing council tax benefit claims. [148233]

Mr. Pond: Local authorities generally process council tax benefit claims alongside claims for housing benefit. We have already put in place a comprehensive programme of reforms to the administration of both these benefits; our immediate priority is to reduce delays in processing times and we are making good progress.

As part of the 2002 Spending Review, the Department invested £200 million over three years in a standards fund to help local authorities fund improvements in the service. The priority for the first year of funding was improvement in the speed and accuracy of claims processing and the prevention and recovery of overpayments.

The need for pensioners to make renewal claims for council tax benefit was abolished in October 2003 and renewal claims for working age claimants will be abolished from April 2004. Previously claims for council tax benefit were made for a set period of up to 60 weeks.

Mr. Waterson: To ask the Secretary of State for Work and Pensions what plans he has to relax restrictions on council tax benefit eligibility for pensioners who have modest savings; and if he will make a statement. [148239]

Mr. Pond: With the introduction of pension credit on 6 October 2003, the upper capital limit of £16,000 has been abolished for those pensioners who receive the pension credit guarantee. The more generous income and savings rules in pension credit also apply to both housing benefit and council tax benefit. The rate at which money is deducted from benefit in respect of capital over £6,000 has also been halved, from £1 in every £250 to £1 in every £500. Around 1.9 million households stand to get more help, or help for the first time, with their council tax as a result of the introduction of pension credit.

Additionally, we are abolishing the council tax benefit restriction from 1 April 2004; this currently restricts the maximum amount of council tax benefit for people living in properties in council tax bands F, G or H to the maximum amount payable for a band E property. Pensioners will, of course, be among those people who benefit from this change.

Mr. Waterson: To ask the Secretary of State for Work and Pensions what plans he has to give the pension service overall responsibility for raising the take-up of council tax benefit in partnership with organisations working directly with pensioners; and if he will make a statement. [148240]

Mr. Pond: Promoting the take-up of council tax benefit is the statutory duty of local authorities. However we are keen to ensure that all pensioners entitled to help with their council tax bills are claiming this. In particular, we want to ensure that the 1.9 million pensioners who gain, or gain more, council tax benefit on the introduction of pension credit get the extra help to which they are entitled.

We are therefore actively pursuing ways of supporting local authorities in their duty to promote awareness of council tax benefit. Many authorities already have well developed take up strategies and we want to support these, and other authorities, to ensure that more pensioners on low income are receiving the help to which they are entitled.

The pension service are inviting claims for council tax benefit when an application for pension credit is made, and we recently introduced a shortened claim form for pensioners applying for the benefit to make their claim easier. Everyone who calls the pension credit application line and wishes to apply for housing/council tax benefit is issued with a form.

The local service is also working with partner organisations, including local authorities, to help reach the most vulnerable pensioners. During visits to pensioners in the local community or their homes advice on entitlement is provided and help offered to complete application forms.

The Third Age Programme is also joining up existing service providers to offer a "whole person" service to pensioners. Joint teams (consisting of both local authority and pension service staff) are already up and running in nine local authority areas in the southwest and plan to roll these teams out nationally over the next two years.

The Third Age Programme are also working with the voluntary sector to help reinforce messages about take-up and funding has been provided to support innovative pilots to increase the take-up of benefits including council tax benefit.

Mr. Cousins: To ask the Secretary of State for Work and Pensions to what extent, and for what reason he has agreed to delegate decisions over the level of housing benefit or council tax benefit to the Scottish Executive. [149645]

Mr. Pond: Although housing policy and local government finance are areas of devolved responsibility that interact closely with housing benefit and council tax benefit, responsibility for decisions over the level of housing benefit and council tax benefit remains with the UK Government at Westminster.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many staff responsible for detection of benefit fraud have been employed by his Department in each year since 1997, broken down by region; and if he will make a statement. [147817]

Mr. Pond: The overall aim of the Department's anti-fraud strategy is to have a benefit system that is secure from first claim to final payment. The implementation of this strategy means than an anti-fraud focus is integral to the work of all staff in the Department, as is dealing with the wider agenda of error and incorrectness in benefit payments.

The information currently available suggests that around 5,000 staff are employed nationally at any one time by the Department and its agencies in work to investigate suspicions of fraud.

John Barrett: To ask the Secretary of State for Work and Pensions when he expects to produce United Kingdom estimates of housing benefit fraud and error for 2002–03. [147827]

Mr. Pond: For Great Britain, we published "Fraud and Error in Housing Benefit, April 2002 to March 2003" on 11 December 2003; a copy will be placed in the Library. Social security matters in Northern Ireland are a matter for my right hon. Friend, the Secretary of State for Northern Ireland.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many people have been convicted of benefit fraud twice within three years since 1997; how many of these have had their benefit *(a)* reduced and *(b)* withdrawn; and if he will make a statement. [148242]

Mr. Pond: Records of second convictions before 'Two Strikes' legislation came into effect on 1 April 2002 are not available. This provision cannot be applied retrospectively and applies only to people who have committed, and then been convicted of, two separate benefit offences after that date.

To date, 23 people have been convicted of benefit fraud against the Department on two or more occasions. Sanctions have been applied to 11 of these cases, five of which have had their benefit reduced, and a further six have had their benefit withdrawn. A further 10 individuals are not currently in receipt of benefit. Additionally, a further two individuals are due to have their benefits withdrawn after the appeal period allowed has lapsed.

Mr. Djanogly: To ask the Secretary of State for Work and Pensions how many pensioners were in receipt of *(a)* full and *(b)* partial council tax benefit in Huntingdon in each of the last three financial years. [146446]

Mr. Pond: The information is not available. At August 2003, there were 3,700 people aged 60 or over receiving Council Tax Benefit in Huntingdonshire, of which 2,100 people were also in receipt of Income Support or Jobseekers Allowance (income-based).

Notes:
1. Data refer to benefit units, which may be a single person or a couple.
2. Figures have been rounded to the nearest hundred and expressed in thousands.
3. Totals exclude any Second Adult Rebate cases.
4. Information is available for August 2003 only.

Source:
Housing Benefit and Council Tax Benefit quarterly 100 per cent. count.

Mr. Ben Chapman: To ask the Secretary of State for Work and Pensions if he will make a statement on the uptake of council tax benefit in Wirral South. [147841]

Mr. Pond: At August 2003, there were 33,900 people receiving council tax benefit (CTB) in the area covered by Wirral local authority.

Estimates of CTB take-up in Wirral South are not available. Statistics on the take-up of income-related benefits are available on a national basis only, and are published in the DWP report entitled "Income Related Benefits Estimates of Take-up"; copies of the publication series can be found in the Library.

I announced a campaign to further support local authorities in their statutory duty to promote take-up of council tax benefit on 15 December 2003, *Official Report*, column 25WS.

Notes:
1. The data refers to benefit units, which may be a single person or a couple.
2. The figure is rounded to the nearest hundred.
3. Council tax benefit totals exclude any Second Adult Rebate cases.

Source:
Housing benefit and council tax benefit management information system, quarterly 100 per cent. caseload stock-count.

Care Direct

Sandra Gidley: To ask the Secretary of State for Work and Pensions what assessment he has made of the Care Direct pilots. [149789]

Malcolm Wicks: The six Care Direct pilots taking place in the south west will conclude at the end of March 2004. We are in the early stages of evaluating these pilots. This research is being done by the Personal Social Services Research Unit (University of Kent) and their report will inform a Lessons Learned document to be produced in April 2004.

Disability Living Allowance

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many people claimed disability living allowance for the financial years *(a)* 2001–02 and *(b)* 2002–03, broken down by disability living allowance band. [147333]

Maria Eagle: People claim for disability living allowance as a whole rather than for any particular part of it. Figures for the total number of claims and the number of awards, broken down by particular components, are shown in the following table.

Number of new disability living allowance claims and awards each year

Thousand

	2002–03	*2001–02*
Number of claims[1]	407.8	433.3
All awards[2]	252.8	264.8
Higher Rate Care and Higher Mobility	36.7	38.0
Higher Rate Care Lower Rate Mobility	14.4	15.8
Higher Rate Care only	11.9	12.4
Middle Rate Care and Higher Rate Mobility	24.7	26.8
Middle Rate Care and Lower Rate Mobility	26.8	28.9
Middle Rate Care only	20.6	20.4
Lower Rate Care and Higher Rate Mobility	29.9	29.1
Lower Rate Care and Lower Rate Mobility	14.6	15.0
Lower Rate Care only	34.5	37.6
Higher Rate Mobility	29.1	31.0
Lower Rate Mobility	9.6	9.8

Notes:
The figures for the number of claims and the number of awards for each year are drawn from different sources and are not comparable.
Figures are in thousands and rounded to the nearest hundred.
A small number of people have more than one award in the year. These people are counted more than once as the table shows awards.

Source:
1. 100 per cent. MIS data. Figures are for financial years
2. IAD Information Centre, 5 per cent. sample. The figures are for the number of awards at May and are closest to the financial years.

John Robertson: To ask the Secretary of State for Work and Pensions what steps his Department is taking to reduce the complexity of the application process for disability living allowance. [148493]

Maria Eagle: The Disability and Carers Service acknowledges that the claiming process for Disability Living Allowance (DLA) needs to be simplified and has been running a number of initiatives designed to improve the service to customers.

A shorter DLA postal claim form based around the revised Attendance Allowance (AA) claim form introduced nationally on 6 October 2003 is being tested. The new DLA postal form has 23 pages and is considerably shorter than the existing claim form. The results from the first three full months of testing are currently being collated and a revised claim form is expected to be produced later this year.

Internet based claim forms for DLA and AA are also under development following the E claim form for Carers Allowance that was launched in December 2003. These should also be available later this year.

Since November 2002, a new interactive claiming process has been trialled in Glasgow Disability Benefits Centre. Customers who request a claim form by telephone are directed to a customer claim advisor who asks some preliminary questions to establish the broad basis of the claim. A tailored claim form is then produced by the computer system that supports the process and forwarded to the customer for completion.

The form generated is a maximum of 18 pages, considerably shorter than the existing 47 page form. The results of this trial and the clerical claim form tests will inform the further modernisation of the processing of Disability Benefits.

Incapacity Benefit Appeals

Annabelle Ewing: To ask the Secretary of State for Work and Pensions in how many incapacity benefit appeal cases processed by the social security office in Dundee in the last year it has taken more than two months to reach a decision on whether to challenge appeal tribunal decisions; and what percentage of the total cases dealt with in that period this represents. [148747]

Maria Eagle: During 2003 there were three cases dealt with by Dundee incapacity benefit section that took more than two months to decide whether to challenge the appeal tribunal decision. This represents 0.45 per cent. of the total cases dealt with by the section in 2003.

Independent Living Fund

Mr. Drew: To ask the Secretary of State for Work and Pensions what plans he has to re-consider the upper limit on the Independent Living Fund; and what implications this has for clients in need of highly complex care packages. [148273]

Maria Eagle: Following the recommendations of the Quinquennial Review of the Independent Living Funds in December 2001 it was agreed that the upper limit should be reviewed by the trustees of the fund every two years. In April 2002 the limit was raised from £625 to £665 per week and the trustees are currently again reviewing the limit.

Local authorities have primary responsibility for community care provision and the Independent Living Funds supplement that role. Irrespective of the amount of the upper limit of Independent Living Funds assistance, local authorities can fund care for disabled people with high cost support packages.

Jobcentre Plus

Mr. Dismore: To ask the Secretary of State for Work and Pensions if he will make a statement on the dismissal of 350 temporary staff by Jobcentre Plus London Region in February and March, with particular reference to the number who were re-employed by Jobcentre Plus within 13 weeks of their dismissal on *(a)* temporary contracts and *(b)* permanent contracts; and if he will make a statement on the reasons for their dismissal. [145351]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Andrew Dismore, dated 21 January 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning re-employment of temporary staff within 13 weeks in London whose contracts of employment ended in February and March 2003. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

Of the 350 staff on temporary contracts who left employment with Jobcentre Plus during February and March 2003, two people were re-employed within 13 weeks of the end of their temporary contract, one on a permanent contract and one on a new temporary contract.

Jobcentre Plus employs temporary staff specifically to fill short-term needs. This may be for a variety of reasons, for example to help manage peaks of work or to facilitate the release of staff for training during the rollout of the integrated Jobcentre Plus service. Any temporary employees ending their employment in February/ March 03 were released as their contracts had ended and the services/roles for which they were engaged had also finished.

While there will be an on-going need to employ a small percentage of temporary staff for the reasons I have set out above, it remains the intention in London to reduce reliance on temporary employees and to recruit and maintain a stable permanent workforce.

I hope this is helpful and clarifies matters.

Low-income Families

Andy King: To ask the Secretary of State for Work and Pensions what the equivalent thresholds to the absolute low income threshold of £210 per week for a couple with one child under 16 published in Measuring Child Poverty, of December 2003 are for *(a)* a couple with two children, *(b)* a couple with three children, *(c)* a couple with four children, *(d)* a lone parent with two children, *(e)* a lone parent with three children and *(f)* a lone parent with four children. [147423]

Mr. Pond: To measure whether the poorest families are seeing their incomes rise in real terms, we will monitor the number of children living in families with incomes below a particular threshold, which is adjusted for inflation. The level for a couple with one child under 14 published in Measuring Child Poverty is fixed as equal to our absolute low income threshold for the baseline year of 1998–99 expressed in today's prices.

Equivalent information for different family types is in the table.

Number of children under 14	*£ per week*
Lone parents	
1	153
2	188
3	223
4	259
Couples	
1	212
2	247
3	282
4	317

Notes:
1. Figures are rounded to the nearest £1.
2. The £210 figure published in "Measuring child poverty" was rounded to the nearest £10. The amount for a couple with one child is presented here as £212, is rounded to the nearest £1 to allow clearer comparison to other family types.
3. Figures were arrived at using the current prices (mid year 2003–04) cash equivalent for these family types of the 1998–99 60 per cent. median income level, before housing costs and using the OECD Modified equalisation scale.

New Deal

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) how many people have gained sustained, unsubsidised employment on *(a)* their first time, *(b)* their second time and *(c)* their third or more

time on the New Deal for Young People programme; what these figures represent as a proportion of the total number gaining sustained unsubsidised employment on the programme; and if he will make a statement; [148243]

(2) how many people have gained sustained unsubsidised employment on *(a)* their first time, *(b)* their second time and *(c)* their third or more time on the New Deal 25plus programme; what these figures represent as a proportion of the total number gaining sustained unsubsidised employment on the programme; and if he will make a statement. [148244]

Mr. Browne: The information is in the table.

Number of times on the programme	*People into sustained[1], unsubsidised employment*	
	Number	*Percentage*
New Deal for Young People		
Once	298,550	80.5
Twice	60,450	16.3
Three or more times	12,090	3.3
New Deal 25 plus		
Once	87,110	81.6
Twice	15,370	14.4
Three or more times	4,340	4.1

Note:
1. Employment is classed as sustained if no claim for Jobseeker's Allowance is made within 13 weeks.
2. Figures are to the end of September 2003.
3. Percentages do not sum to exactly 100 per cent due to rounding.
Source:
DWP Information and Analysis Directorate

The New Deals have been successful in helping nearly one million people into work including more than 460,000 people thorough New Deal for Young People and nearly 165,000 people through New Deal 25 Plus.

In a dynamic labour market, it is inevitable that some people will re-experience unemployment after leaving New Deal, however, the skills and experience they acquire after finding work through the programme will make it easier for them to find employment in the future.

We have also introduced other measures to help people facing additional barriers to work, for example the StepUP pilots, which build on the New Deal for Young People and New Deal 25 plus by providing transitional jobs for those who have not secured sustained employment through New Deal.

Mr. Hoyle: To ask the Secretary of State for Work and Pensions how many people have benefited from the New Deal in Chorley since 1998. [149167]

Mr. Browne: The New Deals have been successful in helping nearly 1 million people into work, including 1,410 people in the Chorley constituency. Information on numbers helped into work by each New Deal programme is in the table.

Programme[1]	*People gaining a job*
New Deal for Young People	540
New Deal 25 plus	180
New Deal for Lone Parents	480
New Deal 50 plus[2]	210

Note:
1. All figures are up to the end of September 2003 apart from New Deal 50 plus which is up to the end of March 2003.
2. People in receipt of the New Deal 50 plus Employment Credit.
3. Information on the other New Deals is not available broken down by constituency.
Source:
DWP Information and Analysis Directorate

Occupational Pension Schemes

Mr. Webb: To ask the Secretary of State for Work and Pensions what assessment he has made of the implications of recent and proposed EU Directives on funding levels in occupational pension schemes for pension provision in the United Kingdom. [149172]

Malcolm Wicks: The impact of all Directives relevant to occupational pensions are assessed with regard to the impact on business including any costs they may impose, although additional costs may not directly impact on the funding of a scheme. Such assessments are set out in the Regulatory Impact Assessments that are published with the legislative measures which implement the requirements of these Directives.

The Directive on the Activities and Supervision of Institutions for Occupational Retirement Provisions contains Articles which directly relate to funding and we have recently consulted on its implementation in the UK. We are currently considering those consultation responses but believe our proposed reforms of funding arrangements, as set out in 'Action on occupational pensions' (Cm5835) are broadly compatible with the requirements of the Directive.

Direct Payment

Mr. Weir: To ask the Secretary of State for Work and Pensions how many pensioners in the Angus constituency have changed their method of receiving payment of their retirement pension from pension book to direct payment into bank account in each of the last six months. [147462]

Mr. Pond: The information is not available in the format requested. However, information available is supplied in the table. The table shows the breakdown of pensioners (women aged 60 and over, men aged 65 and over) in the Angus constituency that have changed their state pension method of payment from pension book to direct payment into a bank account in the last six months broken down into periods available.

More pensioners in the Angus constituency are now paid directly into an account than by Order Book.

Number of pensioners changing their state pension method of payment from pension book to direct payment into an account

	Number
14 June-26 July 2003	73
26 July-6 September 2003	151
6 September-25 October 2003	177
25 October-29 November 2003	250
Total	651

Note:
An account includes bank, building society or Post Office card account
Source:
DWP Information Centre, Information & Analysis Directorate (100 per cent. sample).

Mr. Weir: To ask the Secretary of State for Work and Pensions how many pensioners in the Angus constituency received their retirement pension by means of *(a)* pension book and *(b)* direct payment into a bank account as at 1 January. [147463]

Mr. Pond: The information is not available for the date requested.

However, the table shows the breakdown of pensioners (women aged 60 and over, men aged 65 and over) in the Angus constituency that received their state pension by means of pension book and direct payment into a bank account, at 29 November 2003, which is most recent data available:

More pensioners in the Angus constituency are now paid directly into an account than by order book.

Method of payment	*Number of pensioners*
Pension book	5,751
Direct payment into an account	8,315
Total	14,066

Note:
An account includes bank, building society or Post Office card account
Source:
DWP Information Centre, Information & Analysis Directorate (100 per cent. sample).

Malcolm Bruce: To ask the Secretary of State for Work and Pensions to how many pension and benefit claimants his Department will write to invite them to move to direct payment. [149181]

Mr. Pond: We are in the process of issuing approximately 14.25 million invitations for pension and benefit customers to move to direct payment. We are making good progress and have so far issued almost 60 per cent. of these invitations.

Key figures on the progress of conversion to direct payment are available in the Library updated every four weeks.

Mr. Alan Reid: To ask the Secretary of State for Work and Pensions how many *(a)* working age benefits, *(b)* disability and carers' benefit, *(c)* retirement pension, *(d)* child benefit and *(e)* war pensions claimants are paid by (i) direct payment into a bank or building society account, (ii) direct payment into a post office card account, (iii) order book and (iv) other methods. [145975]

Mr. Pond *[holding answer 6 January 2004]:* The figures in the table have been compiled from data available on 29 November 2003.

Benefit	*Accounts paid by Direct Payment into a bank or building society account*	*Accounts paid by Direct Payment into a Card Account at the Post Office*	*Accounts paid by order book*	*Accounts paid by other methods*
Working age benefits				
Jobseeker's allowance (JSA)	373,931	17,891	0	377,609
Income support (IS)	648,895	39,515	1,454,416	37,222
Incapacity benefit (IB)	583,742	15,931	674,821	11,743
Severe disablement allowance (SDA)	43,045	1,035	70,296	5,432
Industrial injuries (II)	152,837	9,073	277,035	0
Widow's benefit (WB)	86,549	1,137	77,591	270
Bereavement benefit (BB)	32,807	91	11,116	13
Working age benefits total	1,921,806	84,673	2,565,276	432,289
Disability and Carer Benefits Directorate				
Disability living allowance (DLA)	1,052,318	14,992	1,029,434	87
Attendance allowance (AA)	356,014	1,780	169,633	107
Carer's allowance (CA)	111,001	405	298,086	0
Disability and carer benefits directorate total	1,519,333	17,177	1,497,153	194
Pensioners				
State pension	[illegible]649	68,665	4,025,027	45,527
Pension credit	[illegible]249	4,754	1,478,766	10,242
Pensioners total	[illegible]898	73,419	5,503,793	55,769
Grand total	[illegible]037	175,269	9,566,221	488,252

Notes:
1. Figures refer to a snapshot of live accounts in payment on the following dates:
Income support—28 November 2003
Jobseeker's allowance—28 November 2003
Industrial injuries—21 November 2003
Pensions (state pension, incapacity benefit, severe disablement allowance, widow's benefit, bereavement benefit)—29 November 2003
Attendance allowance—15 November 2003
Disability living allowance—15 November 2003
Carer's allowance—30 June 2003
Pension credit—14 November 2003 (rated to end November)
Carer's allowance—30 June 2003
Pension credit—14 November 2003 (rated to end November)
2. Please note this is payload and not caseload therefore if a claimant is receiving more than one benefit e.g. pension credit (PC) and state pension (SP) but only receives one combined payment through the PC system they will only be shown as having a pension credit account and not a SP account.
3. Figures quoted are for GB only.

4. The Post Office Card Account has only been available since 1 April 2003. The numbers of customers being paid into a Post Office card account are expected to increase in the coming months as 20 week order books begin to expire and customers begin to receive payment direct into their card accounts.
5. Many bank and Building Society accounts allow access to cash at Post Offices, for benefits and pension customers who wish to collect their payment this way.
Source:
DWP Information Centre, Information & Analysis Directorate (100 per cent. sample).

War pensions and child benefit accounts are not included in the reply because they are now the responsibility of Ministry of Defence and Inland Revenue respectively.

Malcolm Bruce: To ask the Secretary of State for Work and Pensions how many pension and benefit claimants who were sent letters inviting them to move to direct payment have indicated that they cannot open or operate a bank account or Post Office card account; and what assessment his Department has made of the number of people who will use the exceptions service method of payment. [146746]

Mr. Pond: Research has shown that 87 per cent. of all our customers and 90 per cent. of pensioners already have an account suitable for Direct Payment.

Almost three and a half million customers have provided their bank account details, and around two million have requested a Post Office card account. However information on the number of customers replying that they could not specifically open or operate a bank or Post Office card account is not available in this format.

We will be further contacting all customers who continue to be paid by order book. Any customers, who cannot open or operate a bank account before order books are no longer available in 2005, will be paid by another method. In the meantime they will continue to receive their payments by order book.

We have always recognised that there will be a small number of people who we cannot pay directly into an account. Our plan is to design an exceptions method of payment to properly meet the needs of these customers. Detailed arrangements for this method of payment are not finalised yet, but it is likely that it will be a cheque-based solution. Payment outlets will include Post Office branches.

The move to Direct Payment is progressing well. Key figures on the progress of conversion to Direct Payment are available in the Library updated every four weeks.

Mr. Drew: To ask the Secretary of State for Work and Pensions what advice he is offering to local authority social services departments on direct payments with a view to encouraging each authority to adopt a clear strategy on take-up. [148272]

Mr. Pond: We have discussed the move to direct payment widely with customer representative groups including Local Government Association representatives.

The Department's primary objective continues to be to pay benefit and pensions direct into the chosen account of every customer who is able to manage their own affairs, or into a third party account nominated by the customer.

Customers are supplied directly with information that clearly sets out their account options and enables them to decide which account is right for them.

Pension Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many calls to the Pension Credit Helpline since April were completed with a successful claim of the Pension Credit. [146040]

Malcolm Wicks: Between 7 April and 31 December 2003 the Pension Credit application line received approximately 1.84 million calls. By 31 December approximately 590,000 application forms had been returned to Pension Centres since the start of the campaign and approximately 377,000 had already been successful. Not all applications for Pension Credit originate from a call to the application line. Customers can obtain paper application forms in a number of ways, for example by returning a tear-off slip or through one of the external organisations with whom we are working at local level.

Mr. Bercow: To ask the Secretary of State for Work and Pensions how many people in the Buckingham constituency *(a)* have applied for, *(b)* are eligible for and *(c)* have received the pension credit in 2003. [149189]

Malcolm Wicks: At 31 December 2003 there were 1,666 pensioner households (2,007 individuals) in the Buckingham constituency receiving pension credit. Information on the number of people who have applied for or are eligible for pension credit is not available in respect of individual constituencies. However, we estimate that approximately 350,000 pensioner households in the South East region are eligible for pension credit.

Pensioners (Hemsworth)

Jon Trickett: To ask the Secretary of State for Work and Pensions how many pensioners in Hemsworth constituency receive benefits at the Post Office. [145918]

Mr. Pond: The number of Pensioners in the Hemsworth constituency receiving at least one benefit which can be collected at the Post Office is 10,911. This information has been compiled from data available on 29 November 2003.

War Pensions accounts are not included in this reply as they are now the responsibility of the Ministry of Defence.

Poverty

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions if he will make a statement on poverty levels in *(a)* Scotland and *(b)* the UK in the last five years. [145682]

Mr. Pond: Poverty and social exclusion are complex and multi-dimensional issues, affecting many aspects of peoples' lives—including their living standards, health, housing, the quality of their environment and not just low

income. The fifth annual 'Opportunity for all' report (Cm 5956) sets out the Government's strategy for tackling poverty and social exclusion and presents information on the many different indicators used to measure progress against this strategy.

The Scottish Executive also publish their own annual report on poverty and social exclusion. The latest of which, 'Social Justice . . . a Scotland where everyone matters' sets out their long term strategy for tackling poverty in Scotland.

Specific information regarding low income for Great Britain is available in 'Households Below Average Income 1994–95—2001–02'.

All publications listed are available in the Library.

Social Fund

Mr. Love: To ask the Secretary of State for Work and Pensions how many applications were made by lone parents to the Social Fund in England in the last 12 months for which figures are available; and what proportion of those applications were successful. [144485]

Mr. Pond: The available information is in the table.

Number of decisions made on Social Fund applications from lone parents in England for December 2002 to November 2003

Application type	*Decisions*	*Proportion of decisions which were successful (per cent.)*
Community Care Grant	117,900	43.7
Budgeting Loan	572,100	79.8
Crisis Loan	185,400	79.3
Sure Start Maternity Grant	63,600	89.3
Funeral Payment	4,200	Not available

Notes:

1. Data are not available on the total number of applications made by lone parents.

2. Data refer to initial decisions only and do not include review decisions or awards made after review.

3. The numbers of decisions have been rounded to the nearest 100 and the proportions of decisions which were successful to the nearest 0.1 per cent.

Source:

Social Fund Policy, Budget and Management Information System.

Social Housing

Mr. Austin Mitchell: To ask the Secretary of State for Work and Pensions what additional expenditure resulting from large scale voluntary transfers and the formation of arm's length management organisations for council housing has been incurred on housing benefit previously paid out of housing revenue accounts on a cumulative basis in each year since 1997. [147224]

Mr. Pond: The information is not available. To determine such a figure would require detailed assumptions about the rents each authority might theoretically have charged had it retained the stock. However, the potential impact on housing benefit where stock is transferred to registered social landlords is considered as part of the overall value-for-money assessment of transfers.

Stock managed by an arms length management organisation (ALMO) remains owned by the council and subject to national rent restructuring policy. The formation of an ALMO does not therefore affect rent levels or housing benefit entitlement.

Third Age Service

Sandra Gidley: To ask the Secretary of State for Work and Pensions if he will make a statement on the progress his Department have made in respect of the Third Age Service. [149788]

Malcolm Wicks: The Department for Work and Pensions is in the early stages of developing a Third Age Service which is seen as a network of service providers providing improved access to a range of more integrated services. In this respect, we are working with partners, in particular the Partnerships Against Poverty Group and the Third Age Working Group which DWP chair and which include representatives from Age Concern, Help the Aged, Better Government for Older people and other key stakeholders.

We have already made progress in developing the main aspects of a third age service e.g. Joint Financial Assessment & Benefit Teams with local authorities. Experience and research evidence indicate that this is the right approach to integrated services. Already, nine joint teams are operational and plans are in place to roll out nationally over the next two years.

This, together with the work we are doing to enable partner organisations to take benefit claims and verify evidence (on which guidance has been issued), and the work on the Partnership Fund (which will be published in spring this year) shows that we are already delivering on the Government's Manifesto commitment which was 'to build on Care Direct to provide integration of health, housing, benefits and social care for older people'. We await the Lessons Learned report on Care Direct pilots (April 2004) before developing further building blocks.

Winter Fuel Payment

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions if he will extend the winter fuel payment to severely disabled people under 60. [149097]

Malcolm Wicks: Help is already available through disability benefits and the disability premium in Income Support in recognition of the extra costs, including heating, which disabled people may have. There are no plans to extend the winter fuel payment scheme to disabled people under age 60.

DEPUTY PRIME MINISTER

Building Regulations

Sue Doughty: To ask the Deputy Prime Minister what information he has collated on the ways in which other EU governments intend to implement Article 7.3 of the Energy Performance of Buildings Directive. [149365]

Phil Hope: I refer the hon. Member to the answer given to the hon. Member for Lewes (Norman Baker) on 13 January 2004, *Official Report*, column 723W.

Mr. Love: To ask the Deputy Prime Minister when he expects to report on the review of Part M of the Building Regulations; and if he will make a statement. [149611]

Phil Hope: The Building (Amendment) Regulations 2003 (SI 2003/2692), which amend the non-domestic elements of Part M of the Building Regulations, were laid before Parliament on 27 October 2003 and come into force on 1 May 2004. The revised Approved Document M (2004 Edition), which gives guidance on the application of the amended Regulations, was published on 5 November 2004 and announced in a press release from the Office of the Deputy Prime Minister (2003/0229).

Fire Services

Mr. Clifton-Brown: To ask the Deputy Prime Minister what plans there are to replace green goddesses with more up-to-date firefighting equipment. [149060]

Mr. Raynsford: The Office of the Deputy Prime Minister is currently considering alternatives to the green goddess (reserve) fleet. Drawing down the lessons from recent experiences, the Office of the Deputy Prime Minister intends to have in place appropriate and effective emergency firefighting capabilities.

Mr. Clifton-Brown: To ask the Deputy Prime Minister when the newly-appointed Chief Executive of Fire Service College, Moreton-in-Marsh, will be in post. [149055]

Phil Hope: An open competition to appoint a new chief executive will be announced shortly. The Office of the Deputy Prime Minister expects to make a permanent appointment by early summer.

Government Office for London

Mr. Mark Field: To ask the Deputy Prime Minister how much Government money was distributed by the Government Office for London in each year since 1999–2000; and what is forecast to be distributed in 2003–04. [149601]

Yvette Cooper: Government Office for London (GOL) Programme expenditure is as follows:

£ million

	Programme expenditure
1999–2000	2,202
2000–01	1,605
2001–02	2,094
2002–03	2,530
2003–04	2,689

Mr. Mark Field: To ask the Deputy Prime Minister what the running costs of the Government Office for London were in each year since 1999–2000; and what the forecast is for 2003–04. [149602]

Yvette Cooper: Government Office for London (GOL) running cost expenditure is as follows:

£ million

1999–2000	16.0
2000–01	13.2
2001–02	13.2
2002–03	14.1
2003–04	16.6

Mr. Mark Field: To ask the Deputy Prime Minister how many staff were employed by the Government Office for London in each year since 1999–2000; and how many are forecast to be employed in 2003–04. [149603]

Yvette Cooper: Approximate full time equivalent posts from April 2000 are as follows:

Number

April 2000	370
April 2001	240
April 2002	260
April 2003	288

The forecast for 2003–04 is 310.

Mr. Mark Field: To ask the Deputy Prime Minister if he will list the projects managed by the Government Office for London in 2003–04. [149604]

Yvette Cooper: Programmes managed by Government Office for London (GOL) in 2003–04:

Community Chest
Community Empowerment Fund
Community Learning Chest
Public Order and Community Cohesion
Disabled Facilities Grant
Estate Action
Greater London Authority General Grant
Greater London Authority Preparation Costs
Housing Action Trusts
Housing Investment Programme (HIP)
Neighbourhood Renewal Fund
Neighbourhood Renewal—Skills and Knowledge
New Deal for Communities
Neighbourhood Management Pathfinders
Neighbourhood Wardens
Street Wardens
Street Crime Wardens
European Regional Development Fund (Objective 2)
Greater London Authority Transport Grant
Sustainable Development Publicity Budget
Community Champions
Community Champions Pathfinders
Connexions Grant Funding
Connexions (Drugs Education)
Positive Action for Young People
Transforming Youth Work (Development Funding)
Special Educational Needs/Disability Act
Vocational and Work Related Learning
Learning Partnership Networking.
London Development Agency Grants
New and Renewable Sources of Energy
European Structural Fund (ESF) Objective 2

European Structural Fund (ESF) Objective 3
Anti Social Behaviour Fund
Basic Command Unit Fund
Building Safer Communities Fund
Communication Funding
Gun Crime
Home Office Directors' Allocation Fund
Neighbourhood Renewal Capacity Building Fund
Drugs Team Strategic Grant
Recovered Assets Fund
Time Limited Development Fund
Small Retailers in Deprived Areas
Vehicle Crime
Violence Against Women

Housing (Yorkshire and Humberside)

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the difference is between the housing capital allocation for local authorities in *(a)* Yorkshire and *(b)* Humberside for 2005–06 and 2004–05; what the basis is of the new allocations; what account they take of (i) the state of the stock, (ii) decent housing targets and (iii) repair backlogs; and how any money still to be allocated is to be made available. [149220]

Yvette Cooper: £76.110 million is being allocated to Yorkshire and the Humber local authorities for 2004–05 from the Single Regional Housing Pot, and £81.059 million for 2005–06. Resources for 2004–05 are fully allocated. £22.555 million remains to be allocated for 2005–06. Allocations made to date to authorities in *(a)* Yorkshire and *(b)* Humberside are as follows:

£ million

	2004–05	*2005–06*
Yorkshire	63.413	48.896
Humberside	12.697	9.608

Allocations for both years comprise a formulaic element (fully allocated) plus the outcome of Regional Housing Board (RHB) commissioning of proposals for private sector renewal, low demand (in specified areas), and 'transformational proposals' (2005–06 only). Proposals for the remaining resources have been commissioned, and will be considered by the Board at meetings up to September 2004.

Stock condition is an element in the indicator used for the formulaic element. Additionally, decent homes were taken into account through a Government Office survey of expenditure commitments.

I will write to my hon. Friend with additional information.

Liveability Fund

Mr. Coleman: To ask the Deputy Prime Minister if he will list the local authorities which have been successful in bidding for the Government's Liveability Fund; and what criteria were used to determine which authorities were successful. [148727]

Yvette Cooper: The 27 Liveability Fund pilots will be announced early next month.

The Office of the Deputy Prime Minister's key selection criteria sought to secure a good regional balance (i.e. three pilots per region) and a cross-section of local authorities in terms of:

urban, rural, suburban and coastal location; and

levels of achievement in the Comprehensive Performance Assessments (where appropriate).

It also sought to ensure a range of areas with very different levels of deprivation, but with a greater number of local authorities in deprived areas, reflecting the higher incidence of poor quality spaces there.

Registered Social Landlords

Mr. Byers: To ask the Deputy Prime Minister how many tenants of registered social landlords there are *(a)* in England, *(b)* in each housing authority area and *(c)* in each region. [148732]

Yvette Cooper: As at 31 March 2003:

(a) The estimated number of RSL tenancies in England was 1,684,500.

(b) The estimated number of tenancies by Government Office Region were as shown in the following table:

Government Office Region	*Total occupied RSL stock*
North East	98,500
North West	294,300
Yorkshire and the Humber	116,000
East Midlands	94,900
West Midlands	213,700
East	154,300
London	303,300
South East	253,300
South West	156,200
England	1,684,500

Note:
Figures have been rounded to the nearest 100.
Source:
Primarily the Housing Corporation's Regulatory and Statistical Return for 2003 but with minor adjustments to reflect two late transfers of stock within the local authority areas of North Hertfordshire and Forest of Dean.

(c) The numbers for local authorities (housing authority areas) are available in the Library of the House.

HEALTH

Operation Global Mercury

Harry Cohen: To ask the Secretary of State for Health what lessons have been learned from Operation Global Mercury; whether identified failings have been addressed; and if he will make a statement. [147539]

Mr. Hutton: The evaluation report and a summary are available on the Department of Health website at http://www.doh.gov.uk/cmo/exerciseglobalmercury/index.htm, and a copy has been placed in the Library.

Work is underway to implement all of the recommendations identified in the report.

Ambulance Services

Mr. Burstow: To ask the Secretary of State for Health (1) if he will list the vacancy *(a)* rates and *(b)* numbers for NHS ambulance staff, broken down by grade, in (i) England and (ii) each ambulance service in each of the last six years; [147934]

(2) how many ambulance staff have been employed in the NHS in *(a)* England and *(b)* each ambulance service for each of the last six years, broken down by grade. [147935]

Mr. Hutton: Information on the number and rate of vacancies lasting three months or more in each year since 1999, the first year the data was collected centrally, and the number of ambulance staff employed in the national health service since 1996 has been placed in the Library.

Cancelled Operations

Mr. Burstow: To ask the Secretary of State for Health (1) if he will publish the guidelines given to NHS trusts in reporting cancelled operations, with particular reference to guidelines on the use of stand-by lists of patients who may be operated on that day if capacity allows; [146338]

(2) what proportion of hours per week operating theatres were used on average in *(a)* England, *(b)* each strategic health authority and *(c)* each NHS trust, in the latest week for which figures are available; [146341]

(3) what research his Department has commissioned on links between ward bed availability and cancellation of scheduled operation lists. [146342]

Mr. Hutton: Guidance on reporting last minute cancelled operations is made available to the national health service through the Department of Health NHS web. A copy has been placed in the Library. No national guidance exists on the use of stand-by lists. The operation of stand-by lists is a matter for individual NHS trusts in consultation with their commissioners.

In addition, the Modernisation Agency's operating theatre and pre-operative assessment programme is supporting NHS trusts to implement good practice guidance on tackling cancelled operations and effective utilisation of operating theatres.

The programme has published good practice such as the "Step Guide to Improving Operating Theatre Performance" published in June 2002 which sets out four key steps, or stages, to improving operating theatre performance and reducing cancelled operations. It contains diagnostic tools and common sense, practical solutions for trusts to increase theatre utilisation and improve patient care.

Information on the usage of operating theatres is not collected centrally by the Department.

As part of a larger project, the Department of Health commissioned York University to carry out some modelling of bed occupancy. Findings from the study were published in the BMJ: "Dynamics of bed use in accommodating emergency admissions: stochastic simulation model"—Adrian Bagust et at BMJ vol. 319, 17 July 1999, pages 155–158, a copy of which has also been placed in the Library.

Dr. Richard Taylor: To ask the Secretary of State for Health if he will make a statement on the rules relating to the time of cancellation for acute hospital trusts to record operations as cancelled for non-clinical reasons. [147189]

Mr. Hutton: The Department of Health collects data on the number of operations cancelled by the hospital for non-clinical reasons (i) at the last minute (that is, on the day patients are due to arrive, or after arrival in hospital, or on the day of their operation), and (ii) the number of patients not admitted within 28 days of a 'last minute' cancellation as part of the NHS Plan cancelled operations guarantee.

The NHS Plan cancelled operations guarantee introduced in April 2002, states if a patient's operation is cancelled by the hospital on the day of surgery for non-clinical reasons, the hospital will have to offer another binding date within a maximum of the next 28 days, or fund the patient's treatment at the time and hospital of the patient's choice.

Care Homes

Sandra Gidley: To ask the Secretary of State for H[illegible]h (1) what estimate he has made of the proportion of elderly patients in care and residential homes who are *(a)* malnourished and *(b)* assessed as being at risk of becoming malnourished; [147313]

(2) if he will introduce mandatory screening for malnutrition for people in care homes; and if he will make a statement. [147314]

Dr. Ladyman: According to the "National Diet and Nutrition Survey: people aged 65 years and over", published in 1998, 16 per cent. of men and 15 per cent. of women living in care homes were classified as underweight. The more recent Health Survey for England 2000 gave figures of 8 per cent. for men and 11 per cent. for women. In both cases, underweight was defined as a person with a body mass index of less than 20. We do not have figures estimating people at risk of becoming malnourished.

We have no plans to introduce mandatory screening for malnutrition for people in care homes. A number of measures and strategies are in place to manage, monitor and screen people for under nutrition in care homes. Before going into a home every resident should have a detailed needs assessment. This includes nutrition and screening for malnutrition. The assessment should be revised at regular intervals. The home should draw up a care plan for each resident based on his or her needs assessment. The care plan should be reviewed at least once a month to monitor changes in the resident's needs.

The National Care Standards Commission (NCSC) regulates care homes in accordance with statutory regulations and national minimum standards to ensure they provide for the needs of their residents. The Care Homes Regulations require homes to provide adequate quantities of suitable, wholesome and nutritious food for service users; and to maintain records of the food provided for service users in sufficient detail to enable inspectors to determine whether the diet is satisfactory, in relation to nutrition and otherwise. Standard 19 of the national standards for care homes for older people sets out what care homes are expected to do to ensure

residents are properly fed. This includes giving people assistance with eating where necessary. The NCSC will take swift action where it has concerns about the welfare of residents.

Dentistry

Dr. Murrison: To ask the Secretary of State for Health what the change in full-time equivalents in post in the dental workforce as a result of early retirement was in each year since 1990. [147501]

Ms Rosie Winterton: The available information shown in the table from the NHS Pensions Agency is for the number of pensions awarded where a national health service pension has been claimed prior to the scheme's normal retirement age. These will include pensions paid on the grounds of ill health, premature retirements following redundancy and voluntary early retirement before age 60 (introduced from 6 March 1995). Since 1997, the number of dentists working in the NHS general dental service (GDS) in England has increased from 16,728 to 18,500, but dentists can vary the amount of dental work they do and the proportion carried out in the GDS.

Early retirement of dentists

	Total dentist pension awards
1997	197
1998	179
1999	161
2000	152
2001	191
2002	173
2003	170

Departmental Staff

Mrs. Iris Robinson: To ask the Secretary of State for Health how many NHS employees were expelled in each of the last five years. [148945]

Mr. Hutton: This information is not held centrally.

Diagnostic and Treatment Centres

Mr. Burstow: To ask the Secretary of State for Health which inspectorate (1) *(a)* has responsibility and *(b)* will have responsibility after 1 April for (i) registering and (ii) inspecting independent diagnostic and treatment centres; [148681]

(2) how clinical governance in independent diagnostic and treatment centres will be *(a)* inspected and *(b)* audited. [148683]

Mr. Hutton *[holding answer 19 January 2004]:* Currently, the National Care Standards Commission (NCSC) has responsibility, under the Care Standards Act 2000, for registering and inspecting independent treatment centres in England against the National Minimum Standards and Regulations issued by the Secretary of State in February 2002.

The Commission for Health Improvement (CHI) also has powers, under the NHS Reform and Healthcare Professions Act 2002, to inspect the clinical governance arrangements of treatment centres providing healthcare for national health service bodies.

From 1 April 2004, responsibility for these functions will transfer from the NCSC and CHI to the Commission for Healthcare Audit and Inspection (CHAI, under the Health and Social Care (Community Health and Standards) Act 2003. CHAI will also publish an annual report to Parliament on the state of healthcare, which will include a section on what it has found as the registration authority of independent health care providers.

E-auction

Mr. Oaten: To ask the Secretary of State for Health (1) what further plans he has for the use of e-auction as a method of purchasing clinically prescribed equipment in the NHS [R]; [149051]

(2) what plans he has to regulate the use of e-auction by NHS bodies.[R] [149052]

Mr. Hutton *[holding answer 19 January 2004]:* E-auctions have been used extensively in the private sector and have resulted in significant savings.

The national health service Purchasing and Supply Agency (PASA) is conducting pilot e-auctions to establish if they will provide best value for money for the NHS and in which areas they are most effective.

Five e-auctions had been carried out up to the end of December 2003, which had resulted in savings to the NHS of £16 million pounds. PASA will fully evaluate the results of these pilot exercises from March 2004, and make recommendations on the future use of e-auctions in the NHS.

Hospital Beds (Lincolnshire)

Mr. Simmonds: To ask the Secretary of State for Health what change in the number of beds available for NHS treatment in Pilgrim Hospital, Boston there has been in each year since 1995. [148476]

Dr. Ladyman: Information on the average daily number of beds is collected annually from each national health service trust. Information is not collected for individual hospital sites.

The number of available beds from 1995–96 to 1999–2000 for Pilgrim Health NHS Trust is shown in table 1. In April 2000, Pilgrim Health merged with two other NHS trusts to form United Lincolnshire Hospitals NHS Trust. Information on available beds for this trust is shown in table 2.

Table 1: average daily number of available beds in wards open overnight, Pilgrim Health NHS Trust, 1995–96 to 1999–2000

Year	*Total beds*	*Change from previous year*
1995–96	576	—
1996–97	575	-1
1997–98	587	12
1998–99	564	-23
1999–2000	586	22

Source:
Department of Health form KH03.

Table 2: average daily number of available beds in wards open overnight. United Lincolnshire NHS Trust, 2000–01 to 2002–03

Year	Total beds	Change from previous year
2000–01	1,560	—
2001–02	1,575	15
2002–03	1,556	-19

Source:
Department of Health form KH03.

IT Contracts

Mr. Clifton-Brown: To ask the Secretary of State for Health what the cost was of the computer contract signed between his Department and BT; what the contract covers; what time period is covered by the contract; whether this technology will be available to help the roll-out of broadband in rural areas; and if he will make a statement. [147917]

Mr. Hutton: Two separate contracts have been awarded to BT under the national programme for information technology in the national health service in England:

1. to set up and run a core database or "spine" for the national care record service (NCRS), worth a total of £620 million. This will provide access to key summary information on a patient and their condition/treatment for healthcare professionals who are authorised and have a need to use it; and

2. to provide local systems and services to integrate, access and use the NCRS in London. This includes providing IT support at a local level, delivering essential infrastructure and connection/compatibility to existing systems in the NHS in the London cluster. This contract is worth a total of £996 million.

Depending on the proof of solution, successful roll-out and ongoing performance, both contracts will run until 2013.

The contracts do not cover the provision of new national networking services and broadband capacity for the NHS. This is the subject of a separate procurement exercise and is expected to be concluded in the first quarter of 2004. The delivery of new systems across the NHS will be dependent upon network provision.

Kidderminster Diagnostic and Treatment Centre

Dr. Richard Taylor: To ask the Secretary of State for Health what the reasons are for the delay in opening the Kidderminster diagnostic and treatment centre; and whether the contractors are subject to penalty payments. [148698]

Dr. Ladyman: The Kidderminster Treatment Centre has changed significantly from the project as it was originally envisaged. There has been extra investment in services and facilities, including an additional operating theatre.

The contract was agreed on a fixed price basis, which has both protected the Worcestershire Acute Hospitals national health service trust from unexpected financial pressures, and removed the need to impose penalty payments on the contractors.

Nurses

Mr. Woodward: To ask the Secretary of State for Health what the proportion of nurses per head of population was in *(a)* St. Helens, *(b)* Merseyside, *(c)* the North West and *(d)* England in each year since 1992. [147169]

Mr. Hutton: The information requested is shown in the table.

Qualified nursing staff and practice nurses employed by unrestricted principals and Equivalents (UPEs)[1] per 1,000 of the population—England

Number (headcount)

	1992[2,4]	1993[2,4]	1994	1995[3]	1996[3]

Department of Health General and Personal Medical Services Statistics
Department of Health Non-medical Workforce Census
2001 ONS Population Census

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 5 January 2004, *Official Report*, column 203W, on nurse recruitment, if he will list the countries from which his Department has received written representations regarding the recruitment of nurses; and if he will make a statement. [148050]

Mr. Hutton: The Government has nurse recruitment agreements with Spain, the Philippines, India and Indonesia. A memorandum of understanding has recently been signed with the Government of South Africa.

The Chinese Government has recently written to the Department to ask for a meeting to discuss opportunities for nurse recruitment.

Oxfordshire Primary Care Trusts

Mr. Boris Johnson: To ask the Secretary of State for Health if he will make a statement on the proposal to amalgamate the South East Oxfordshire Primary Care Trust with the South West Oxfordshire Primary Care Trust. [148477]

Ms Rosie Winterton: There is currently no proposal for a formal merger of the two primary care trusts (PCTs). The South East and South West Oxfordshire PCTs have been exploring ways of working more closely together in the delivery of services to their populations. This has included the appointment of a single chief executive and management structure, while retaining separate boards.

Prescription Fraud

Mrs. Iris Robinson: To ask the Secretary of State for Health what the average annual cost of prescription fraud has been in the last five years. [148834]

Ms Rosie Winterton: The National Health Service Counter Fraud and Security Management Service (NHS CFSMS) has an ongoing programme of highly accurate risk measurement exercises—accurate to plus or minus one per cent.—designed to reveal levels of loss s and, through repeated exercises, reduction in such losses, where they take place.

The latest available data on pharmaceutical patient fraud is shown in the table.

£ million

Year data selected	Fraud losses
1998–99	117
1999–2000	69

Point of dispensing checks were introduced in all community pharmacies on 1 April 1999 to help deter this type of fraud. The check requires pharmacists to ask patients who are claiming free prescriptions to produce evidence to support their claim to exemption from prescription charges. Later data will be produced shortly.

Private Contractors

Mr. Baron: To ask the Secretary of State for Health how he will ensure that private contractors in the NHS will not be able to recruit NHS staff indirectly through private agencies. [148462]

Mr. Hutton *[holding answer 19 January 2004]:* New treatment centres run by the independent sector will be precluded as part of the contracts they sign from poaching National Health Service staff. The recruitment of NHS staff indirectly through private agencies would breach this contract.

Mr. Baron: To ask the Secretary of State for Health where the staff required by private contractors are expected to come from if they cannot be recruited from the NHS; and what proportion of recruitment is expected to be from abroad. [148463]

Mr. Hutton *[holding answer 19 January 2004]:* The procurement of independent sector treatment centres (IS-TCs) is designed to contribute to a genuine increase in workforce capacity to treat national health service patients. This is why bidders have been asked to provide as many non-NHS staff as possible: primarily from overseas. In some circumstances, it will be appropriate for NHS staff to work in independent sector treatment centres but this will only be done under a structured arrangement that is agreed between the NHS and the IS-TC provider. The number of professional staff working in these new units and the proportion from overseas will be finalised during the stage of negotiations leading to contract close.

Private Contractors (Netcare)

Mr. Baron: To ask the Secretary of State for Health what assessment he has made of whether, over the long-term, Netcare will employ staff that would otherwise have been employed by the NHS. [148464]

Mr. Hutton *[holding answer 19 January 2004]:* As part of its contract, Netcare is required to provide an additional workforce.

Mr. Baron: To ask the Secretary of State for Health what assessment he has made of the change in the number of health professionals from South Africa working in the UK as a result of the award of contracts to run fast-track surgery centres to Netcare; and what assessment he has made of the effect of this change on the South African health service. [148465]

Mr. Hutton *[holding answer 19 January 2004]:* Clinical teams working in the independent sector treatment centres from abroad will work on a rotational basis. The exact amount of time spent in the United Kingdom will depend on the contractual agreements made between the provider and its staff. This programme will not recruit clinical staff from existing hospital facilities.

The new memorandum of understanding between South Africa and this Government recognises the benefit for the South African health care system by offering South African and English healthcare professionals the chance to go on time-limited placements to the other country.

Scrutiny Committees

Mrs. Lait: To ask the Secretary of State for Health what the maximum number of local government overview scrutiny committees is that a national service within the NHS could have to report to under the terms of the Health and Social Care Act 2001. [148811]

Ms Rosie Winterton: If a National Health Service body is proposing a variation in or development to its services it must consult all the overview and scrutiny committees of those local authorities for which the proposal represents a substantial one.

A NHS organisation which provides services to the whole country must first establish which of the 150 overview and scrutiny committees (those committees with the powers to scrutinise health services) believe the proposal is substantial for their populations. The NHS body involved need only consult those committees that specify that the proposal is substantial for their own populations. Those committees must form a joint committee to respond to that consultation; and that only joint committee may respond.

Student Nurses

Dr. Murrison: To ask the Secretary of State for Health what proportion of student nurses who enrolled for courses in *(a)* general nursing, *(b)* paediatric nursing, *(c)* midwifery and *(d)* psychiatric nursing successfully completed their course in each year since 1973. [148647]

Mr. Hutton: Information for England on the percentage of pre-registration student nurses who have completed their course is shown in the following table. Data is not held before the 1994–95 financial year and has not been collected since October 2001. It is therefore only accurate for cohorts up to 1997–98, most students on subsequent cohorts had not completed courses by October 2001.

Pre-registration student nurses who have completed their course

Percentage

Year of cohort	Midwifery	Adult	Mental health	Learning disability	Child
1994–95	75.27	78.18	76.51	70.73	77.43
1995–96	78.13	76.67	74.14	72.67	74.31
1996–97	73.48	75.32	73.05	67.59	74.29
1997–98	74.33	72.27	70.31	65.28	70.42

Note:
This data is based on a snapshot in time of a particular cohort(s) and therefore each year there will still be students who have yet to complete their course.

Dr. Murrison: To ask the Secretary of State for Health what the drop-out rate was in England for student nurses studying *(a)* general nursing, *(b)* paediatric nursing, *(c)* midwifery and *(d)* psychiatric nursing in each year since 1973. [148648]

Mr. Hutton: Most recent information for England on the percentage of pre-registration student nurses who have left their course is shown in the table. Data is not held before the1994–95 financial year.

Pre-registration student nurses who have left their course

Percentage

	Midwifery	*Adult*	*Mental health*	*Learning disability*	*Child*
1994–95	22.08	18.87	19.91	25.64	19.66
1995–96	17.43	17.75	20.56	20.29	19.46
1996–97	21.84	18.91	19.58	24.44	20.05
1997–98	18.23	18.82	20.05	21.67	21.95
1998–99	17.17	17.61	16.18	19.74	16.99
1999–2000	14.59	12.45	12.63	14.6	15.86
2000–01	6.7	5.98	6.47	6.48	6.75

Note:
This data is based on a snapshot in time of a particular cohort(s) and therefore each year there will still be students who have yet to complete their course. The last data collection was October 2001 so the attrition rate for the later cohorts is incomplete.

Worcestershire Royal Infirmary

Dr. Richard Taylor: To ask the Secretary of State for Health by how much the unitary fee for the Worcestershire Royal Infirmary increases each year; and whether this annual increase was specified in the contract. [148699]

Dr. Ladyman: The annual uplift in the unitary fee for Worcestershire Royal Infirmary is specified in the contract.

The unitary fee is uplifted by the General Index of Retail Prices (RPI) each year, unless the Whitley council pay increase for ancillary staff exceeds this level. In this case, the uplift for pay on the soft service element of the contract (eg., catering and domestic services, etc.) is as per the Whitley council agreement and the non staff costs associated with these soft services is uplifted at RPI less 1 per cent.

Written Answers to Questions

Thursday 22 January 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

GM Crops

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the benefits of Bayer GM rice approved by her Department as animal feed on 7 January. [148610]

Mr. Morley *[holding answer 19 January 2004]:* The application by Bayer for the importation of herbicide tolerant rice (event LLRICE62) into the European Union is being considered under the procedures set out in Directive 2001/18/EC. The Directive requires each application to market GM crops for commercial importation or cultivation to be assessed on a case-by-case basis on the scientific evidence of any risks it may pose to human health or the environment. The Advisory Committee on Releases to the Environment concluded that, "This GM rice does not pose a risk to human health and the environment. The marketing of this product for importation and processing in the UK will be no different from that of other rice imported for processing and animal feed purposes." No assessment is required or made of comparative advantages with other products. The full UK assessment of Bayer's application is available on the Defra website at: www.defra.gov.uk/environment/gm/regulation/euconsent.htm.

The UK is the lead member state on the application and therefore undertakes the initial assessment. The application and the UK's assessment will now be assessed by other EU member states and the Commission before a collective decision is made. Consent, if granted, would not permit cultivation of the rice in the EU nor, without separate approval, could it be used in human food.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to *(a)* conduct and *(b)* commission further research on how GM plants might invade new habitats. [148903]

Mr Morley: The Department has commissioned research on the potential invasiveness of GM crops. An example is "An Investigation of Feral Oilseed Rape Populations" the report of which was published in February 1999. Details of this and other Defra-funded research projects that have included a consideration of the invasiveness of GM crops are available on the Defra website at www.defra.gov.uk/environment/gm/research.

In addition to work funded by the Department there has been a large body of research on the invasiveness of GM and other plants conducted elsewhere. This body of research was recently reviewed by the GM Science Review (details available from www.gmsciencedebate.org.uk). Chapter 6.2 of the their final report specifically considered research on the risks of invasiveness of GM crops.

The risks of invasiveness of GM crops are carefully assessed prior to any release. The Government's statutory advisers on GM crop releases—the Advisory Committee on Releases to the Environment (ACRE)—have advised that in the case of all previous releases, that the risks of invasiveness have been low. This view was supported by the Science Review. However both ACRE and the Science Review highlight the need to continually monitor developments and we are currently considering future research requirements in this area.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the evaluation of the costs and benefits of the commercial cultivation of GM crops in the UK over the next 10 to 15 years. [148905]

Mr. Morley: As part of the GM dialogue the Strategy Unit carried out a study of the costs and benefits of GM crops. This looked at not only the range of GM crops currently available, but also those that might be available in 10–15 years.

The unit concluded that GM crops could offer some cost and convenience advantages to UK farmers, although any economic benefit is likely to be limited in the short-term as only a narrow range of existing GM crops are currently suited to UK conditions, and weak consumer demand may limit take-up. In the longer term it concluded that future developments in GM crops have the potential to offer more wide-ranging benefits, to both farmers and consumers.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will decide their GM food policy. [148906]

Mr. Morley: We are considering our policy on GM food and crops generally in the light of all the information we have gathered. That includes the reports of the public debate and the science review, the Strategy Unit's costs and benefits study, the AEBC's report on coexistence and liability, and now ACRE'S advice on the FSE results. We will set out our conclusions in due course.

Badgers

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has evaluated in which badgers have been systematically removed from an area, and the area kept free of badgers, where the incidence of TB in cattle has declined; and what conclusions she drew from this work. [148660]

Mr. Bradshaw: Four large-scale badger clearances have been carried out, at Thornbury in Avon (104 sq km), at Steeple Leaze in Dorset (12 sq km), at Hartland in North Devon (about 62 sq km) and in an area of East Offaly in the Irish Republic (738 sq km). All four clearances were followed by a reduction in the incidence of TB in cattle.

However, none of the previous TB control strategies that involved badger culling have been assessed in a properly designed experiment to establish their efficacy. While removal operations may have had an effect on the prevalence of TB in badgers and on herd breakdowns, other factors may also have influenced these. In the

absence of scientific controls, it is not possible to separate out the effects of badger removal from these confounding factors.

A complete assessment of previous TB control strategies can be found in the 1997 Report on Bovine Tuberculosis in Cattle and Badgers by Professor John Krebs and the Independent Scientific Review Group (the "Krebs Report"), available in the House Library.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the resources necessary to ensure that a given area is cleared and kept free of badgers, with particular reference to *(a)* number of visits and *(b)* personnel employed; [148651]

(2) what *(a)* financial and *(b)* human resources are allocated to the (i) clearance of badgers and (ii) the maintenance of badger-free areas in the Krebs proactive areas. [148659]

Mr. Bradshaw: As part of the Randomised Badger Culling Trial (RBCT), ten areas are subject to "proactive" treatment. As many badgers as possible within the design of the trial are culled in these areas (each approximately 100 sq km) and badger numbers are kept as low as possible. After the initial cull, the work involves an annual re-survey and cull of all proactive areas. However, the human resources for "proactive" work cannot be separately identified, except at disproportionate cost.

Information on the costs of trapping as a "proactive" culling method in the RBCT cannot be used to assess the resources required to clear an area of badgers, because this would require the use of snares, poisoning or gassing which have been ruled out by the Government on welfare grounds. The RBCT clears as many badgers as possible from proactive areas using cage traps, but this removes, at best, 80 per cent. of badgers.

The average number of field staff employed by the Veterinary Directorate Wildlife Unit for field operations in the RBCT and the associated costs by financial year are given in the following table:

WLU Field Staff and Costs

Year	*Number of Field Staff*	*Total cost of Wildlife Unit (£ million)*
1998–1999	62	2.9
1999–2000	90	4.2
2000–2001	110	5.5
2001–2002	136	5.5
2002–2003	127	5.6
2003–2004[1]	133	6.8

[1] projected

For most of 2001, field staff were reassigned to dealing with the Foot and Mouth Disease outbreak. Over the first three years of the Trial, contracts to carry out initial Triplet surveying were negotiated with the Central Science Laboratory and ADAS and additionally small numbers of staff were deployed from elsewhere in the Department to support major proactive cull operations. Badger culling, however, is always carried out by Wildlife Unit personnel.

Carbon Trust

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to assess the effectiveness of the enhanced capital allowances scheme managed by the Carbon Trust; and if she will make a statement. [148915]

Mr Morley *[holding answer 19 January 2004]:* On behalf of Defra the Carbon Trust are carrying out an Impact Assessment of the Enhanced Capital Allowance for energy-saving technologies. Defra and the Carbon Trust will use the results of the assessment to consider further promotion of the scheme to ensure that it has the greatest possible impact.

Common Agricultural Policy

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with EU Ministers in connection with the Common Agricultural Policy since the Agriculture Council in June 2003. [148861]

Alun Michael: Since June last year, the Common Agricultural Policy has been on the agenda at several of the monthly meetings of the EU Council of Agriculture Ministers, which my right hon. Friend the Secretary of State, or her ministerial colleagues have attended. At its September meeting, agreement was reached on the Council Regulation implementing the June reform agreement. Since then, there has been discussion of the European Commission's proposals for further reform of the CAP, covering the cotton, tobacco, olive oil and hops sectors and of options for reforming the sugar regime.

In addition, my right hon. Friend discussed CAP reform with the Irish Agriculture Minister in November as part of his preparations for Ireland's presidency of the European Union. Agriculture was also a major issue at the WTO ministerial meeting in Cancun in September at which my right hon. Friend discussed the June agreement and future CAP reform with her EU colleagues.

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with colleagues in the Department for International Development in connection with the development implications of reform of the Common Agricultural Policy. [148862]

Alun Michael: My right hon. Friend the Secretary of State, has regular meetings with her colleagues from other Departments, including the Secretary of State for International Development, to discuss issues relating to the current World Trade Organisation negotiations. These discussions encompass the relationship between development and CAP reform.

Flood Defence Plan (Cheltenham)

Mr. Nigel Jones: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the *(a)* advantages and *(b)* disadvantages of the proposed flood defence plan for Cheltenham. [148540]

Mr. Morley: Defra agreed the Environment Agency's strategic approach to flood management measures for Cheltenham in 1999 and has since provided grant to the Agency for the first three phases of works. Defra is currently considering the Agency's application for grant on the detailed proposals on the remaining four phases of works but in any event the commencement of works must necessarily await the outcome of the Agency's application for planning permission for these works. I understand that the Agency's proposals would reduce the risk of flooding to over 600 properties and provide environmental and amenity benefits. I also understand that there are local concerns about disruption during construction, the removal of trees (although a major planting scheme is planned in mitigation) and a change in the use that could be made of an area identified by the Agency as a flood storage area. It will be for the planning authority to reach a view on the advantages and disadvantages of the proposed works in the first instance.

US Ships (Decommissioning)

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the purpose was of the meeting held on 7 January, involving the Environment Minister, at which ghost ships were discussed; who requested the meeting; what factors were taken into account before the Minister agreed to meet representatives of Able UK Ltd.; what the outcome of the meeting was; and if she will make a statement. [148616]

Mr Morley *[holding answer 19 January 2004]:* I met the right hon. Member for Hartlepool (Mr Mandelson), at his request, with the Mayor and Chief Executive of Hartlepool Borough Council and the Chief Executive of Able UK. The meeting agreed that the issue of the US Ships in Hartlepool is a matter for the regulatory bodies—in particular, the Environment Agency and the local planning authority. The meeting enabled the participants to understand the respective responsibilities of the bodies involved, and to help ensure that all the necessary procedures are followed.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if the Environment Minister will agree to meet a delegation representing groups and individuals opposed to the proposed dismantling of US ghost ships in Hartlepool. [148617]

Mr. Morley *[holding answer 19 January 2004]:* I am always happy to consider requests to meet local delegations from the relevant Member of Parliament. I recently met my right hon. Friend the Member for Hartlepool (Mr. Mandelson), along with Mayor of Hartlepool and others, to discuss the US ships.

Joint Environmental Markets Unit

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost to public funds was of the Joint Environmental Markets Unit in each of the past 10 years; and what the total value is of waste management contracts which British companies have secured overseas as a direct result of the activity of the Joint Environmental Markets Unit in each of these years. [144575]

Mr. Morley: JEMU is a joint unit between DEFRA and DTI. JEMU provide support for the environmental goods and services industry, of which waste management is a sub sector. The total public funds (from both departments) spent on the Joint Environmental Markets Unit over the past 10 years are as follows:

Year	*Total budgets (£000)*
1993–94	[1]488
1994–95	[1]819
1995–96	[1]1,032
1996–97	[1]990
1997–98	[1]1,133
1998–99	[1]1,046
1999–2000	[1]1,026
2000–01	[1]1,305
2001–02	[1]1,254
2002–03	1,333
2003–04 (Year's allocation)	1,404

[1] These figures are an estimate based on available records.

JEMU targets its international trade work at developing markets, where it can add most value. JEMU has worked with other parts of Defra and the Environment Agency to promote UK Environmental Policy as a means of marketing UK expertise. Relationships in these countries take time and persistence to develop and contracts can take several years to be finalised. JEMU is aware of at least two waste management companies who, in recent years, have won contracts totalling in excess of £5 million as a direct result of JEMU work. Feedback from waste companies, who participated in a JEMU trade mission to SE Asia last March, has also forecasted total potential business of £63 million over the next three years. JEMU introduced a systematic method of monitoring performance recently, and will be evaluating the results of this carefully.

Large Combustion Plant Directive

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned into the economic effects of the introduction of the Large Combustion Plant Directive on the United Kingdom coal industry. [148511]

Mr. Morley *[holding answer 20 January 2004]:* We are continuing to assess the potential economic impact of the introduction of the Directive on the UK coal industry, and on the coal-fired electricity generating industry which is its major market, using both internal analyses and independent research. We are also in detailed dialogue with these industries to help us to understand their views.

Livestock Farming

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the recovery of livestock farming in *(a)* Chorley and *(b)* Lancashire; and if she will make a statement. [148228]

Alun Michael: Other than the June annual Agricultural Census, which among other things records the number of animals present on holdings on the designated census day, no specific assessment has been

made of the recovery of livestock farming in Chorley and Lancashire. Data from the Agricultural Census[1] show the following:

[1] June 2003 data is expected to be published in March.

	Chorley	*Lancashire*
Sheep and Lambs		
2000	35,337	776,586
2001	31,502	703,205
2002	29,887	656,886
Cattle and Calves		
2000	14,941	250,038
2001	15,435	245,617
2002	14,676	227,990
Pigs		
2000	6,369	113,640
2001	6,184	100,845
2002	4,685	94,048

Milk

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what the total supermarket share of the *(a)* liquid milk and *(b)* cheese market was in each of the last 10 years for which figures are available. [148691]

Alun Michael: The supermarket share of the biggest four supermarkets (Asda, Safeways, Sainsburys and Tesco) of liquid milk in 2001–02 was 36 per cent. If smaller supermarkets are included (excluding town centre and local shops) the share rises to 48 per cent. The corresponding market shares for cheese are 64 per cent. for the big four and 80 per cent for all supermarkets. Figures are from the Expenditure and Food Survey and are only available for the twelve month period ending in March 2002.

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the outcome of the retail price initiatives on liquid milk and cheese during the last three years. [148692]

Alun Michael: The evolution of farmgate and retail prices over the last three years is tabulated below. Last year, in a Milk Development Council commissioned study by KPMG on "Prices and Profitability in the British Dairy Chain", London Economics undertook an econometric study of various aspects of the supply chain, including price transmission. For the UK, London Economics found that increases and decreases in retail prices for liquid milk are fully transmitted to farmgate prices with a lag of five months. However, price changes at farmgate level are not fully transmitted. A 1 unit increase in farmgate price results in a 0.56 unit increase in retail price, while a 1 unit decrease in farmgate prices results in a 0.71 unit decrease in retail price. For cheese they found no transmission and for butter they found some evidence that a fall in the farmgate price of milk resulted in an increase in the butter price.

Farmgate/Retail Milk Price Comparison July 2000—November 2003

Year	*Farmgate pence per pint*	*Retail[1] pence per pint*
November 2000	10.57	35
December 2000	10.38	35
January 2001	10.41	35
February 2001	10.33	36
March 2001	10.16	36
April 2001	10.48	36
May-2001	10.17	37
June 2001	10.63	37
July 2001	11.62	37
August 2001	11.85	37
September 2001	11.76	37
October 2001	11.63	37
November 2001	11.39	37
December 2001	11.14	37
January 2002	10.68	37
February 2002	10.40	36
March 2002	10.23	36
April 2002	9.09	36
May 2002	8.45	36
June 2002	8.73	36
July 2002	9.42	36
August 2002	9.66	36
September 2002	9.73	36
October 2002	10.31	37
November 2002	10.29	37
December 2002	10.09	37
January 2003	10.05	37
February 2003	10.03	36
March 2003	9.88	36
April 2003	9.57	36
May 2003	9.09	36
June 2003	9.39	36
July 2003	10.35	37
August 2003	10.77	37
September 2003	10.94	37
October 2003	11.14	37
November 2003	11.17	37

[1] The retail price is an average of one pint of delivered milk and one pint of shop bought milk. Because most milk is shop bought this overstates what is actually paid per pint by most consumers.

Defra/National Statistics

Municipal Waste

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the application by the Department for a derogation for *(a)* 2006, *(b)* 2009 and *(c)* 2016 on the biodegradable municipal waste diversion targets of the Landfill Directive. [148757]

Mr. Morley: Article 5.2 of the Landfill Directive lays down demanding targets for reducing the amount of biodegradable municipal waste going to landfill and the timescale for achieving those targets. The targets require the quantity of biodegradable municipal waste going to landfill to be reduced to 75 per cent. of the total amount (by weight) of such waste produced in 1995 by 2006; to 50 per cent. by 2009; and to 35 per cent. by 2016.

For those member states (like the UK) which landfilled more than 80 per cent. of their municipal waste in 1995, the Directive contains a derogation permitting a delay to the target dates by up to four years i.e. to 2010, 2013 and 2020. If a member state intends to take advantage of this derogation, there is an obligation on it to inform the Commission in advance. The UK will

meet that obligation by informing the Commission at least a year in advance if it intends to make use of the derogation for a target year. As was made clear in the recent consultation, planning for the Landfill Allowances Trading Scheme assumes that the derogation will be used for all three target years.

Pollution Prevention

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to require companies storing oil to undertake environmental risk assessments. [148916]

Mr Morley *[holding answer 19 January 2004]:* There are no plans to require this. However, a full assessment of a company's site to identify potential sources of pollution and the development of a plan to minimise these risks is a central recommendation in the Environment Agency's Pollution Prevention Guidance on Industrial Sites (PPG11).

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to place the Environment Agency's pollution prevention guidelines on a statutory footing; and if she will make a statement. [148917]

Mr. Morley *[holding answer 19 January 2004]:* There are currently 27 Pollution Prevention Guidelines jointly published by the Environment Agency, the Scottish Environment Protection Agency and the Environment & Heritage Service for Northern Ireland. These establish best practice for the prevention of pollution for a wide range of sectors and activities. Where appropriate, statutory codes of practice may refer to the standards set in the Pollution Prevention Guidelines. There are no plans at present to change the status of the Guidelines themselves.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to extend the Oil Storage Regulations to cover *(a)* domestic and agricultural waste oil and *(b)* underground oil storage tanks. [148918]

Mr Morley *[holding answer 19 January 2004]:* There are no current plans to extend the regulations. Separate regulations are already in place for agricultural fuel oil, waste oil storage is subject to waste regulation controls and statutory guidance is in place for underground oil storage. Large domestic storage tanks are already included in the Oil Storage Regulations and all new domestic installations are now subject to control under building regulations.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to establish a targeted inspection and enforcement regime in connection with the Control of Pollution (Oil Storage) (England) 2001 Regulations; and if she will make a statement. [148919]

Mr Morley *[holding answer 19 January 2004]:* The Regulations are enforced by the Environment Agency and apply minimum prescriptive standards on a blanket basis to all premises storing oil in above ground fixed or mobile tanks or facilities. There are no plans to change the Agency's approach to enforcement which is explained in the Defra guidance note which accompanied the Regulations. The Legislative background in that Guidance states that the Environment Agency will not need to make a special visit to individual sites to assess risks, but will enforce the regulations during routine visits and thus reduce resource burdens.

Prosecutions

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many prosecutions are pending in the *(a)* Foot and Mouth Department, *(b)* Forestry Commission, *(c)* Environment Agency and *(d)* IACS Payment Department. [148922]

Alun Michael: The information requested is as follows.

(a) None by Defra.

(b) Nine prosecutions are currently listed before the Magistrates Courts.

(c) Three hundred and sixty five prosecutions are currently listed before the Courts (based on information provided by the Environment Agency).

(d) Five prosecutions in relation to cases investigated by the Rural Payments Agency are currently listed before the Courts.

CULTURE, MEDIA AND SPORT

Civil Service (Disablities)

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport if she will set out the number of employees in her Department who have a disability, broken down by disability type. [148984]

Mr. Caborn: Data on disability is collected on the basis of voluntary self-classification. The Department currently employs 12 people declaring a disability. The Department's Code of Practice on Equal Opportunities Monitoring prevents us from disclosing data for individual groups fewer than five. This is also in accordance with exemption 12 of Part 2 of the Code of Practice on Access to Government Information.

Historic Buildings

Mr. Laurence Robertson: To ask the Secretary of State for Culture, Media and Sport what financial support her Department provides for the maintenance of historic buildings; what plans she has to increase this support; and if she will make a statement. [149493]

Mr. Caborn: The Department for Culture, Media and Sport's financial support for the maintenance of historic buildings is channelled through English Heritage, which received a baseline grant-in-aid allocation of £115.4 million in 2002–03. English Heritage's baseline grant-in-aid for 2003–04 and 2004–05 is £121.7 million. Funding for English Heritage beyond 2004–05 is currently under consideration.

In addition, Lottery funding is available for repairs to historic buildings through the Heritage Lottery Fund, which has a joint grant scheme with English Heritage for repairs to listed places of worship.

This Department also administers the Treasury's Listed Places of Worship Grant Scheme, which has provided £16.6 million of grants towards the cost of repairs to listed places of worship since December 2001. The Scheme is expected to continue until March 2006.

TRANSPORT

A40 (Cheltenham)

Mr. Nigel Jones: To ask the Secretary of State for Transport when he expects to carry out a review of the new traffic arrangements on the A40 at the Charlton Kings Sixways Junction in Cheltenham; and in what form he would like submissions to the review. [148535]

Mr. Jamieson: The next review of the scheme is due in September 2004. This will be a formal Road Safety Audit. There is no statutory or formal consultation as part of this process but the Highways Agency would welcome feedback from local people about the scheme.

A565

Mrs. Curtis-Thomas: To ask the Secretary of State for Transport how much money Sefton council received on transference of ownership of the A565 from the Highways Agency; and how much it will receive on an annual basis. [148928]

Mr. Jamieson: The Highways Agency has a programme for handing over responsibility (known as detrunking) for the A565 trunk road to Sefton borough council on 1 April 2004. The statutory process to enable detrunking to proceed is currently ongoing, and includes negotiations with the council. A Grant, calculated to be in the region of £600,000, will be awarded based on a formula for maintenance expenditure. This Grant, uprated for inflation, will be paid in the 2004–05 financial year and will continue until detrunked roads are included in the Highways Maintenance Formula Spending Share.

Air Transport

Mrs. May: To ask the Secretary of State for Transport (1) what representations he has received from the National Air Traffic Service on the need for them to validate capacity forecasts contained in the White Paper on The Future of Air Transport; [149045]

(2) whether he has commissioned the National Air Traffic Service to validate the capacity forecasts contained in the White Paper on The Future of Air Transport. [149046]

Mr. Darling: National Air Traffic Services responded to the consultation exercises carried out prior to the publication of The Future of Air Transport, but have not made any representations to the Government since the White Paper was published. Air Traffic Management is an essential part of the Aviation White Paper strategy and NATS will have a key role in delivering it.

Car Insurance

Andy Burnham: To ask the Secretary of State for Transport how many road accidents there were in each region of England in each of the last five years involving a driver or drivers who were uninsured; and what percentage of those accidents involved *(a)* third party personal injury and *(b)* third party property damage. [148739]

Mr. Jamieson *[holding answer 21 January 2004]*: Information on the insurance status of drivers involved in accidents is not held centrally in my department.

However, the Motor Insurers' Bureau (Mffi) holds figures for accident claims in the United Kingdom involving uninsured or untraced drivers. For the past five years, the MIB paid claims as follows:

	£ million
1999	173
2000	213
2001	222
2002	214
2003	235

Andy Burnham: To ask the Secretary of State for Transport what estimate he has made of the overall cost to public funds in the latest year for which figures are available of driving without adequate insurance cover. [148741]

Mr. Jamieson *[holding answer 21 January 2004]*: Information on the overall cost to public funds of driving without adequate insurance cover is not held centrally.

The main costs of uninsured driving will be the substantial ones arising from accidents involving uninsured drivers. In the public sector these costs will fall on the emergency services (police, fire, ambulance and hospitals). Costs will also fall on the victims, and (through increased insurance premiums) on the honest, insured motorist. The estimated cost to the honest motorists1 insurance premium is an average of £30.

There will also be a cost to the Courts Service arising from the need to prosecute and to enforce fines and penalties.

Coastguard Service

Mr. Llwyd: To ask the Secretary of State for Transport how many members of the Coastguard Service work in Wales; and how many worked in Wales in 1996. [150012]

Mr. Jamieson: The Maritime and Coastguard Agency currently employs 90 Coastguards in Wales. There are also 476 Auxiliary Coastguards based in Wales.

Due to a change in Human Resource systems, there are no exact figures for 1996. However, the Maritime and Coastguard Agency estimates that there were 60 Coastguards and 500 Auxiliary Coastguards in Wales at that time.

Hemsworth Bypass-A1 Link Road

Jon Trickett: To ask the Secretary of State for Transport when he expects work to *(a)* commence and *(b)* be completed on the link road between the Hemsworth bypass and the A1; how much funding he has made available for this purpose; and if he will make a statement. [149671]

Mr. Jamieson: This scheme is awaiting the completion of the necessary statutory procedures. We confirmed in the 2004–05 Local Transport Capital Expenditure Settlement, announced last month, that we would provide sufficient resources for completion of the scheme up to a maximum of £11.261 million. However, Wakefield Metropolitan District Council recently notified us of a cost increase of £9.337 million over and above this agreed contribution. I cannot make a decision on the case for additional funding until the statutory procedures have been completed.

Road Network

John Thurso: To ask the Secretary of State for Transport what percentage of the *(a)* motorway and *(b)* dual carriage network has raised central reservation barriers to eliminate the glare of headlights from oncoming traffic. [149708]

Mr. Jamieson: There are no recorded examples on the English dual carriageway trunk road or motorway network where the central reserve barriers have been raised to eliminate the glare of headlights from oncoming traffic.

A trial of an anti-glare device attached to central reservation barrier has been undertaken on an English motorway but this proved to be ineffective in reducing accidents.

Speed Cameras (Essex)

Mr. Baron: To ask the Secretary of State for Transport pursuant to his answer of 6 January 2004, *Official Report*, column 215W, how much of the money raised in fines from speed cameras in Essex was spent in Essex on the costs of purchasing and operating speed cameras for each of the five years prior to 2001–02. [149382]

Mr. Jamieson *[holding answer 20 January 2004]:* Before the safety camera netting off trial began in April 2000 money raised in fines was retained by the Treasury and the cost of placing and maintaining cameras met by local authorities. The money claimed back by the Essex Safety Camera Partnership to meet the cost of operating cameras for the financial year of 2000–01 was £1,846,480.

Vale Link Community Transport Scheme

Mr. Webb: To ask the Secretary of State for Transport if he will take steps to ensure the long-term future of the Thornbury-based Vale Link Community Transport scheme; and if he will make a statement. [150075]

Mr. McNulty: Vale Link Community Transport was awarded funding of £612,000 from the Department's Rural Bus Challenge (RBC) competition in 1998. The long-term future of the scheme is primarily a matter for the local authority and the other local organisations concerned to consider.

We have taken a number of steps to support community transport schemes. From May 2002 many community transport organisations are eligible to receive Bus Service Operators Grant and I understand Vale Link Community Transport is in receipt of this grant. We have also extended Rural Bus Subsidy Grant, of which South Gloucestershire has been allocated £285,000 this year, to enable authorities to use it for the further support of schemes that have previously received RBC funding. However, it is essentially for individual authorities to decide which services are most appropriate for support in their respective areas.

Waterborne Freight

Miss McIntosh: To ask the Secretary of State for Transport what steps he is taking to increase the percentage of waterborne freight on UK flagged ships. [149445]

Mr. Jamieson: Freight Facilities Grants are available to encourage the carriage of freight by inland waterways, coastal and short sea shipping. Freight Facilities Grants are non-flag specific.

MINISTER FOR WOMEN

Child Care

23. **Laura Moffatt:** To ask the Minister for Women what representations she has received on the barriers to women working due to the lack of high-quality child care provision. [149754]

Ms Hewitt: My postbag leaves me in no doubt about how much high quality childcare provision gives real choices to women. This is why I welcome the announcements by the Chancellor in his Pre- Budget Report on record spending on childcare.

Government Departments (Gender Balance)

24. **Tom Brake:** To ask the Minister for Women what recent discussions she has had with ministerial colleagues about gender balance within Government Departments. [149756]

Jacqui Smith: My right hon. Friend the Minister for Women is holding a series of meetings with ministerial colleagues to review progress on gender balance in Government Departments.

Women Entrepreneurs

Siobhain McDonagh: To ask Minister for Women what action she is taking to help women entrepreneurs. [149758]

Ms Hewitt: The Government are now actively implementing the Strategic Framework for Women's Enterprise which was launched in May last year, to provide a co-ordinated and long-term approach to the development of women's enterprise.

We are now working with many partners nationally and in the regions to take forward the recommendations of the Framework. And we continue to work productively with women's enterprise organisations such as PROWESS and Everywoman.

We are encouraged by the findings on women's enterprise of the Global Entrepreneurship Monitor's most recent report which finds levels of total female entrepreneurship in the UK having risen from

3.3 per cent. in 2002 to 3.8 per cent. in 2003 and female attitudes to start-up having become far more positive during the last year.

Early reports from the regions suggest levels of women's enterprise are rising; although it is still early days, it encouraging to hear of real progress being made in the north east, East Midlands and the south east.

TRADE AND INDUSTRY

Manufacturing Industry

12. **Miss McIntosh:** To ask the Secretary of State for Trade and Industry if she will make a statement on manufacturing industry in England. [149742]

Jacqui Smith: Having put in place the first Government manufacturing strategy for 30 years with the active support of industry and unions, we are making good progress in addressing the key factors for manufacturing success identified in that strategy-promoting investment, applying science and innovation, best practice and skills to achieving more high value manufacturing.

Post Office

13. **Dr. Tonge:** To ask the Secretary of State for Trade and Industry how much of the sum allocated for improvements to urban post offices under the urban reinvention programme has been applied for. [149743]

Mr. Timms: To date, my Department has paid £5,448,897 to Post Office Ltd. under the urban reinvention programme for investment grant funding. This includes an element of pre-funding to the company to facilitate prompt payments to sub-postmasters. I understand from Post Office Ltd. that the total number of applications submitted by sub-postmasters so far is 485, with further cases under discussion with individual sub-postmasters. Of these applications, 98 grants, totalling £506,934, had been paid in full as at 20 January 2004.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many sub-postmasters of *(a)* rural and *(b)* urban post offices in each constituency have applied for compensation to close their business; how many have been successful in their application; and how much has been paid to them to date. [147066]

Mr. Timms *[holding answer 12 January 2004]:* Decisions on compensation to sub-postmasters are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Mr. Jenkins: To ask the Secretary of State for Trade and Industry pursuant to her answer of 14 January 2004, *Official Report*, column 796W, on benefit payments (pensioners), if she will publish the figures used by the Post Office to justify the proposed closure of *(a)* Belgrave Branch, 326 Wilnecote Lane, Belgrave, Tamworth, *(b)* Dosthill Branch, 49 High Street, Dosthill, Tamworth, *(c)* Kerria Road Branch, Kerria Centre, 34 Kerria Road, Tamworth, *(d)* Hockley Branch, 158 Hockley Road, Wilnecote, Tamworth, *(e)* Kettlebrook Branch, 134 Kettlebrook Road, Tamworth, *(f)* Silver Link Branch, 66 Caledonian, Tamworth, *(g)* Two Gates Branch, 1 Springfield Road, Two Gates, Tamworth and *(i)* Wilnecote Branch, 80 Watling Street, Wilnecote, Tamworth. [149492]

Mr. Timms: Decisions on proposed closures of post offices are an operational matter for Post Office Ltd. (POL). I understand that the figures used by POL in proposing the closure of a post office are commercially confidential.

North Sea Oil

14. **Mr. Blizzard:** To ask the Secretary of State for Trade and Industry what research her Department has conducted into the use of carbon capture technology to enhance recovery of North sea oil. [149744]

Mr. Timms: The Department has conducted its own research and sponsored research jointly with the oil industry since the mid 1980's into the use of carbon dioxide injection into mature oil fields to recover more oil. We are currently investigating the feasibility of demonstrating the use of carbon dioxide for enhanced oil recovery in the North Sea. We expect to publish the findings of this investigation in March.

Shipbuilding

15. **Mr. Davidson:** To ask the Secretary of State for Trade and Industry what support she is providing to the shipbuilding industry. [149745]

Jacqui Smith: The Department gave a £2.8 million grant to the Shipbuilders and Shiprepairers Association for a four-year programme of productivity improvements and research and development benefiting shipyards, which concluded on 31 December 2003. Separately, my Department is funding the Science, Engineering and Marine Training Agency (SEMTA) to undertake a range of studies into training needs and provision in the shipbuilding industry, with the aim of ensuring that the UK shipbuilding and marine engineering sector has sufficient numbers of properly skilled people to meet the Ministry of Defence's substantial naval procurement programme.

Electricity Prices

16. **John Thurso:** To ask the Secretary of State for Trade and Industry what plans she has to facilitate the connection to the national electricity grid at affordable prices of potential consumers living in remote areas. [149746]

Mr. Timms: I have no such plans.

Connections for those in remote areas are generally more difficult and this is, unfortunately, reflected in the cost. There are no provisions in existing legislation which could be used to require the cost of connection to be subsidised by, for example, the existing customer base.

Natural Gas

17. **Andrew Selous:** To ask the Secretary of State for Trade and Industry what research her Department has carried out into the availability of natural gas worldwide. [149748]

Mr. Timms: DTI uses information on natural gas availability from a variety of sources including the International Energy Agency, the Energy Information Agency of the US Department of Energy and the BP-Amoco Statistical Digest.

World Trade

18. **Tom Brake:** To ask the Secretary of State for Trade and Industry if she will make a statement on the Government's policy towards trade negotiations following the World Trade Organisation ministerial conference in Cancún. [149749]

Mr. Mike O'Brien: Her Majesty's Government remains committed to delivering a development Round that will benefit industrialised and developing countries alike.

Financial Services

19. **Mr. Hoban:** To ask the Secretary of State for Trade and Industry what assessment she has made of the number of financial services jobs being exported to *(a)* Eastern Europe and *(b)* Asia. [149750]

Ms Hewitt: We do not have official figures for the number of financial services jobs being offshored. We are addressing this issue through seeking views from parties interested in offshoring as part of our consultation exercise. In recognising the economic and social importance of this issue, we are also looking at how we can improve data collection.

Altran Foundation for Innovation

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps she has taken to inform *(a)* schools, *(b)* colleges and *(c)* universities of the Altran Foundation for Innovation's award for 2004 on the theme of Discovery, Understanding and Enjoying Science through innovation. [144502]

Ms Hewitt: I understand that Ecsite-UK, the organisation that represents Science Centres, has details of this award on its websites.

Business Starts

Mr. Cousins: To ask the Secretary of State for Trade and Industry which inter-ministerial group is responsible for the English equivalent of the Scottish Business Birthrate Strategy; and which ministers are members of that group. [149634]

Nigel Griffiths: Responsibility for small business policy, including start-up strategy, is a matter for the Ministerial Committee on Economic Affairs, Productivity and Competitiveness. The members are:

Chancellor of the Exchequer (Chair)

Deputy Prime Minister and First Secretary of State

Secretary of State for the Home Department

Secretary of State for Environment, Food and Rural Affairs

Secretary of State for Transport and Secretary of State for Scotland

Secretary of State for Health

Secretary of State for Northern Ireland

Secretary of State for Defence

Secretary of State for Work and Pensions

Leader of the House of Lords and The Lord President of the Council

Secretary of State for Trade and Industry

Secretary of State for Culture, Media and Sport

Parliamentary Secretary, Treasury and Chief Whip

Secretary of State for Education and Skills

Chief Secretary, Treasury

Leader of the House of Commons, Lord Privy Seal and Secretary of State for Wales

Minister without Portfolio

Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster

Minister for State, Foreign and Commonwealth Office (Mike O'Brien)

Business Links

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many businesses have been helped by each of the UK business link organisations; what the average sum of money received by these businesses is; how many of the businesses helped are still operating; and how many of those businesses have increased their profitability. [148190]

Nigel Griffiths: In the last full operating year (2002–03) over 300,000 businesses were helped by Business Link Operators (BLOs) in England. A breakdown of this total–by individual BLO—follows. Information about business survival rates are not collected individually.

BLOs do not report on levels of support funding received by the businesses they assist.

A Gross Value Added measure to enable BLOs to quantify—in terms of wealth creation and productivity improvements—the impact of their support to businesses will be available from 2004.

County Durham—2,834

Northumberland—2,438

Tees Valley—3,718

Tyne and Wear—4,685

Business Support

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact that *(a)* regional venture capital funds have had on (i) the overall productivity of United Kingdom businesses and (ii) reducing disparities in regional productivity, *(b)* Faraday centres have had on enterprise areas, *(c)* University Challenge Seed Funds and *(d)* the SMART scheme. [146147]

Jacqui Smith: The nine regional venture capital funds have only recently become operational. The first funds became operational in January 2002 and the final fund in July 2003. These funds have a 10 to 12 year lifespan and it is, therefore, too early to assess their impact on the areas you have identified. Plans are already in hand, to assess their impact at the appropriate time.

An early evaluation, to measure progress, was concluded in July 2003 and a summary report can be found on the following website address: http://www.sbs.gov.uk/content/finance/SBS_RVCF_Esummary_july2003.pdf

Information and Communications Technology

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the *(a)* actual and *(b)* percentage change in the take-up of connectivity technologies among the UK's micro and small businesses was in each year since 1997; and what steps are being taken to increase take-up. [146133]

Mr. Timms: Measurement of take up of connectivity is covered by the DTIs International Benchmarking Study (IBS). The IBS has been produced annually since 1997 and copies are available from the Libraries of the House.

IBS 2003 shows UK businesses in general have reached saturation point on internet access although there has been a slight falling off in connection by micro and small businesses. A similar situation applies to the use of websites.

The Government will continue to promote the benefits of being connected to the internet for micro and small businesses but emphasis will be placed on encouraging a more effective use of information and communication technology (ICT). Businesses of all sizes need to use ICT in a more sophisticated way, paying due attention to people and processes, as well as the technology, if they are to gain the expected benefits.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of employees in the information and communication technology sector are women; and what steps are being taken to increase the representation of women in the sector. [146138]

Ms Hewitt: The proportion of women in ITEC occupations across all sectors is currently 23 per cent. (e-skills UK and ONS, Labour Force Survey 2002).

As part of the Government's strategy the DTI announced in December the award of a contract to the JIVE Consortium (Bradford College, Sheffield Hallam University, the Open University and Cambridge University) to operate a new resource centre for women in science, engineering and technology (SET) occupations, which include IT. JIVE will offer advice and support to SET employers about best practice in recruiting and retaining women and also support and advice for women wishing to work in or already working in SET occupations. This strategy is aimed at increasing the representation of women in all SET occupations at all levels, and will include the provision of a dynamic and content-rich website; good practice guides for SET employers; a 'Good SET Employer' recognition for women wishing to return to SET occupations. Working with their Open University partners JIVE are developing specific ideas about increasing the number of women in IT. Bradford College already trains women to be Microsoft professionals and their experience in this field will be invaluable in ensuring that the new resource centre is effective.

Miners' Compensation/Pensions

Mr. Cummings: To ask the Secretary of State for Trade and Industry how many claims there have been for *(a)* chronic pulmonary emphysema and *(b)* vibration white finger in the Easington constituency; how many have been settled; and what amount of compensation has been paid to date. [148852]

Nigel Griffiths: The information is as follows:

	COPD	*VWF*
Claims received (number)	8,098	5,607
Interim payments made (number)	2,012	3,764
Full and final offers made (number)	3,541	2,218
Offers accepted (number)	2,466	1,918
Total amount paid (£ million)	24.4	38.4

Constituency figures can be found on the DTI website: www.dti.gov.uk/coalhealth. The information is compiled in the middle of the month and shows the figures for the end of the previous month.

Adam Price: To ask the Secretary of State for Trade and Industry how many vibration white finger cases the Government have referred to the Vibration Reference Panel; and on what date the Vibration Reference Panel was set up. [149027]

Nigel Griffiths: Three cases.

The VRP was set up on 1 September 2002.

Adam Price: To ask the Secretary of State for Trade and Industry (1) how much the Government have charged the *(a)* Miners Pension Scheme and *(b)* British Coal Staff Superannuation Scheme for their role as guarantors in each of the last six years; [148939]

(2) how much the Government intend to charge the *(a)* Miners Pension Scheme and *(b)* British Coal Staff Superannuation Scheme in April for their role as guarantors. [148938]

Nigel Griffiths: The Government do not charge for providing the guarantee for the Mineworkers' Pension Scheme or the British Coal Superannuation Scheme.

The Government guarantee that members' basic pensions as at the time of privatisation will always rise in line with inflation, irrespective of underlying economic conditions.

Any surpluses from the guaranteed fund are shared between the Government and the schemes.

Procurement (Outsourcing)

Norman Lamb: To ask the Secretary of State for Trade and Industry if she will make a statement on her Department's procurement policy with regard to offshore IT and call centre outsourcing; whether her Department is outsourcing IT and call centre jobs to offshore companies; to which countries her Department has outsourced these jobs; how much her Department has spent on this outsourcing in each of the last two years; and how much has been budgeted for this purpose for the next two years. [147583]

Ms Hewitt: The DTI does not have a specific procurement policy with regard to offshore IT and call centre outsourcing. In all procurements, the DTI always seeks to achieve best value for money, having due regard to propriety, regularity and the European procurement directives.

The DTI is not outsourcing IT and call centre jobs to offshore companies.

Renewable Energy (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Trade and Industry if she will list windfarm sites in operation in Cambridgeshire, giving their *(a)* location and *(b)* output in kW hours. [149678]

Mr. Timms: As far as I am aware there are currently only two operational windfarms in Cambridgeshire. These are both single turbine facilities.

A 225 kW turbine operated by Fivestone Ltd. commissioned in September 1990 is located at Kings Bush Farm, London Road, Godmanchester, Huntingdon.

A 225 kW turbine operated by Wood Green Animal Shelters, commissioned in October 1993, is located adjacent to Priory Produce, St. Mary's Road, Ramsey.

Energy output in kWh on a site by site basis cannot be provided due to confidentiality undertakings between the site owners and Ofgem, for sites eligible under the Renewables Obligation.

Mr. Djanogly: To ask the Secretary of State for Trade and Industry what percentage of electricity generated in Cambridgeshire was from renewable sources in each of the past five years. [149679]

Mr. Timms: Statistics for electricity generation are not available at county level. This is because such data would disclose information about individual private companies. Out of the 11.4 MWh of electricity generated from renewable sources in 2002, 1.3 MWh (11 per cent.) was generated in the east of England region that includes Cambridgeshire.

Security Passes

Mr. Oaten: To ask the Secretary of State for Trade and Industry how many security passes have been reported *(a)* lost and *(b)* stolen by staff in (i) her Department and (ii) departmental agencies in the last 12 months. [147907]

Ms Hewitt: 129 staff passes have been reported lost by DTI staff in the past twelve months.

The respective figure for agencies is 75.

Neither DTI nor its agencies hold figures for stolen passes.

Small Business

Mr. Djanogly: To ask the Secretary of State for Trade and Industry what recent assessment she has made of small business failures in the East of England; and if she will make a statement. [149690]

Nigel Griffiths: VAT registrations and de-registrations and insolvency statistics are the best official guide to the number of business success or failures.

There were 17,190 VAT de-registrations during 2002 in the East of England, which was 470 less than those registering for VAT during the same year. There have been more registrations than de-registrations in the East of England each year from 1995 to 2002.

The number of company insolvencies in the East of England area also fell between 1999–2000 and 2002–03. A stable economy with low interest rates has assisted the net growth of business in the East of England.

Mr. Robert Jackson: To ask the Secretary of State for Trade and Industry what percentage of Smart Feasibility award winners have failed to launch product or service due to failure to attract investment. [146315]

Nigel Griffiths: The report of the most recent, independent evaluation of the Smart scheme was published in September 2001. It found that 29 per cent. of those businesses which received only a Feasibility

Study award and 19 per cent. of those which received both a Feasibility Study and a Development Project award did not or expected not to introduce a new or improved product or process as a result of the project. Of those businesses, regardless of the outcome of their projects, which found barriers to the introduction of new products or processes to market, 37 per cent. which received only a Feasibility Study award and 31 per cent. which received both a Feasibility Study and a Development Project award cited "lack of finance" as a barrier.

Software Patenting

Mr. Lazarowicz: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of current EU proposals for software patenting on the small and medium sized enterprise sector. [142016]

Ms Hewitt: The current European Commission proposal for a Directive on the patentability of computer-implemented inventions has been subject to a regulatory impact assessment, which was cleared by the European Scrutiny Committee of the House in its forty-first report of the 2001–02 session.

Although the scope of the assessment is necessarily wider than the SME sector, it does specifically consider the effect of the proposals on small businesses. In particular, it indicates that the proposed Directive would reduce the uncertainty concerning the patentability of computer-implemented inventions and should therefore reduce patenting and legal costs. As these costs and uncertainties are of particular concern to small and medium sized businesses, I believe that a Directive that achieves these aims would have particular benefits for the SME sector.

Mr. Lazarowicz: To ask the Secretary of State for Trade and Industry what the policy is of the UK Government regarding the EU proposals for software patenting. [142017]

Ms Hewitt: The Government continue to support the proposal put forward by the European Commission for a Directive on the patentability of computer-implemented inventions that clarifies the existing position and reduces uncertainty in this field. My Department continues to work with interested parties and other member states to achieve a Directive that meets these aims and offers benefits for both software developers and software users in the UK and Europe.

Sustainable Energy Policy Advisory Board

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what remuneration will be provided to each of the members of the new Sustainable Energy Policy Advisory Board. [145685]

Mr. Timms: The Chairman will receive £450 for a full day's meeting or £225 for a half-day meeting. Board members will receive £200 for a full day's meeting or £100 per half-day meeting.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how often the new Sustainable Energy Policy Advisory Board will meet. [145686]

Mr. Timms: The full Board will meet once a quarter. There may be additional meetings of sub-groups on an ad hoc basis.

Transdepartmental Science and Technology Group

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down the Transdepartmental Science and Technology Group administration costs set out in her Departmental Report 2003, for 2003–04; and what amounts were allocated in each year since 1997. [147801]

Ms Hewitt: Allocations of gross administration costs to the Transdepartmental Science and Technology Group (TDST) since 1998–99 are set out in the following table. 1997–98 figures are not available because administration costs were compiled on a different basis before 1998–99.

TDST gross administration costs: allocation an breakdown per year since 1997

£000

	Type of expenditure		
	Pay and pensions	*Current expenditure other than pay*	*Administrator gross total*
1997–98	n/a	n/a	n/a
1998–99	3,665	2,738	6,762
1999–2000	3,431	3,527	7,173
2000–01	3,744	2,516	6,380
2001–02	4,191	3,845	8,171
2002–03	4,279	4,425	8,704
2003–04	4,134	3,816	8,085

World Trade Organisation

Mr. Bercow: To ask the Secretary of State for Trade and Industry what estimate she has made of the annual economic cost to developing countries of the breakdown of the World Trade Organisation ministerial conference in Cancún. [149075]

Mr. Mike O'Brien: I have no estimate of the annual economic cost to developing countries of the breakdown of the WTO ministerial conference in Cancún. However, there are a number of studies by academics and international organisations of the benefits to developing countries of a successful round of negotiations. The scale of estimated gains depends on a number of factors including the scale of trade liberalisation implemented, its timing and the product coverage. Most recently, a World Bank study ("Global Economic Prospects and the Developing Countries", 2004) estimated that significant liberalisation could boost developing country incomes by between $159 billion and $349 billion per annum by 2015.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what formal meetings she held at the ministerial conference in Cancún with representatives of developing countries. [149076]

Mr. Mike O'Brien: My ministerial colleagues and I between us talked with Ministers from around 40 developing countries, including many from the Africa, Caribbean and Pacific Group, in meetings in Cancún. A visit to Honduras with Christian Aid to visit poor

families meant I was in Cancún for the last 48 hours of the conference. In that time, in addition to EU and other meetings, I spoke with six developing country Ministers.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what discussions she has had with her EU counterparts since the breakdown of the World Trade Organisation ministerial conference in Cancún about *(a)* improving processes for decision-making and *(b)* taking account of the views of developing countries. [149110]

Mr. Mike O'Brien: The Government have had various discussion with our EU partners and the European Commission since the WTO Ministerial in Cancún.

My right hon. Friend and I met with my our fellow EU Trade Ministers and the European Commission, on 2 December, to reaffirm our commitment to the current round of negotiations and to send a clear message of the importance of positive and flexible engagement with all WTO members, including taking account of the views of developing countries. We also discussed improvements to the functioning of the WTO, in particular WTO ministerial meetings.

These discussions are reflected in the Commission's strategy paper, "Reviving the DDA Negotiations—the EU perspective", which was endorsed by the European Council of Ministers on 8 December last year.

Mr. Bercow: To ask the Secretary of State for Trade and Industry what assessment she has made of the progress achieved by World Trade Organisation members in meeting the terms of the Cancún Declaration by 15 December 2003. [149144]

Mr. Mike O'Brien: Following the disappointing conclusion to the WTO Ministerial Conference in Cancún, the Government welcome the fact that all WTO members have committed themselves to re-engaging in the Doha round of trade negotiations. It is vital that all WTO members now turn themselves towards making real and significant progress in implementing the Doha Development Agenda.

DEFENCE

Armed Forces Pension Scheme

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many *(a)* prospective members of the proposed new Armed Forces Pension Scheme and *(b)* beneficiaries of the associated compensation arrangements he estimates will find the provision for them capped by a £1.4 million limitation on the total value of pension and related arrangements. [149153]

Mr. Caplin: The Ministry of Defence expects very few members of the new Armed Forces Pensions Scheme to be affected by the Government's proposed lifetime allowance of £1.4 million. Payments from the new Armed Forces Compensation Scheme are not retirement pensions for taxation purposes and are not therefore affected by the proposed allowance.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the value of the pension provision through the proposed Armed Forces Pension Scheme, capitalised in accordance with the rules proposed by the Treasury, will be for *(a)* a senior warrant officer, *(b)* an officer retiring at normal retirement age at the rank of major or equivalent and *(c)* a four star officer; and if he will make a statement on the assumptions and calculations underlying the valuations. [149154]

Mr. Caplin: The figures are as follows:

	£
4* officer	1,518,000
Major (and equivalent)	493,000
Warrant officer 1 (higher)	418,000

The figures assume broadly mid-point 2003–04 pay rates, 35 years Service (some of which might be after normal pension age of 55) and the new pension scheme provision of a 50 per cent. pension after 35 years' Service. The pensions have been capitalised using the Inland Revenue formula of 20 times pension plus the lump sum, equivalent to three times the pension. Figures are rounded to the nearest £1,000. The formula used to capitalise pensions is subject to public consultation by the Inland Revenue.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what arrangements he intends to make in relation to the Armed Forces Pension Scheme and compensation arrangements to ensure that, as the pay rates of the armed forces are increased over time to protect their real value, the full value of pension and compensation arrangements are not restricted by a cap on capitalised value fixed in cash terms. [149155]

Mr. Caplin: The Government propose to increase the proposed lifetime allowance annually by the Retail Prices Index. Like any other employer, the Ministry of Defence will keep this under review.

Conflict Resolution

Mr. Gardiner: To ask the Secretary of State for Defence (1) what change there will be in his Department's funding for conflict resolution projects over the next five years; [149427]

(2) what assessment he has made of the amount of money spent by other Defence Departments in European countries on conflict resolution projects; [149451]

(3) how much his Department spent on conflict resolution projects in the latest year for which figures are available. [149541]

Mr. Ingram: Ministry of Defence involvement in conflict resolution projects, as opposed to operations, is funded through the programme budgets of the United Kingdom's Global and Africa Conflict Prevention Pools. Pool funding levels for future years will be established during Spending Review 2004.

In Financial Year 2002–03, the Pools funded nearly £41 million of Ministry of Defence support to conflict prevention and conflict resolution projects. Further information on the conflict resolution work of the Ministry of Defence, together with that of the Foreign

and Commonwealth Office and the Department for International Development, can be found in the Global Conflict Prevention Pool booklet, published on 9 September 2003.

The MOD has made no assessment of the amount of money spent by other Defence Departments in European countries on conflict resolution.

Correspondence

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 15 December 2003, *Official Report*, column 657W, on vaccination, when he will write to the hon. Member. [149581]

Mr. Caplin: There has been a delay in this response as I require further information to establish the precise licensing position on all the vaccines and to provide a precise answer. I will do so as soon as I can.

European Defence

Mr. Rosindell: To ask the Secretary of State for Defence what discussions he has had with the NATO Secretary General about European defence. [149470]

Mr. Hoon: I had regular discussions with Lord Robertson across a wide range of issues concerning European defence and I look forward to working with the new NATO Secretary General in the same way. There have been no meetings of the NATO Defence Ministers since the beginning of the year, when Mr. de Hoop Scheffer took on his new role, but one is scheduled for early February.

In a telephone conversation on Friday 9 January 2004, I congratulated Mr. de Hoop Scheffer on his appointment and outlined some of the United Kingdom's priorities for NATO including the importance of the European nations' contribution to the Alliance and the NATO/EU relationship.

Falklands War Veterans

Mr. Hoyle: To ask the Secretary of State for Defence how many Falklands War veterans were still serving in the *(a)* Army, *(b)* Navy, *(c)* RAF and *(d)* Royal Marines in 2003. [148457]

Mr. Caplin: The matter is being investigated and has taken longer to compile than initially thought. I will write to my hon. Friend when this work is complete and place a copy of the letter in the Library of the House.

Fire Service

Mr. Clifton-Brown: To ask the Secretary of State for Defence what the cost is of modernising the Defence Fire Service to the standard envisaged by Fire Study 2000. [149059]

Mr. Caplin: The recommendations contained in Fire Study 2000 for modernising the organisation of the Defence Fire Service would expect to achieve yearly savings rather than increased expenditure.

Mr. Clifton-Brown: To ask the Secretary of State for Defence what plans there are to co-ordinate tri-Service civil emergencies fire training. [149061]

Mr. Ingram: The Ministry of Defence has no plans to co-ordinate tri-Service civil emergencies fire training. Dealing with a civil emergency remains the responsibility of the civil authorities. Any assistance provided by the armed forces in the event of such an emergency would be in support of those authorities and at their specific request. It would most likely take the form of general duties support.

Iraq

Adam Price: To ask the Secretary of State for Defence how many international law enforcement officers are stationed in the British zone in Southern Iraq. [141680]

Mr. Ingram: As at 16 January 2004, there were around 645 international law enforcement officers stationed in the British zone in Southern Iraq. This figure includes international civilian police officers, contract police officers and carabinieri who are mandated with civilian policing powers.

Mr. Cummings: To ask the Secretary of State for Defence what the cost to the Department has been to date in respect of the Iraq conflict; and what the projected costs are for *(a)* 2004, *(b)* 2005 and *(c)* 2006. [148779]

Mr. Ingram: Outturn information for 2002–03 on the cost of operations in Iraq has been published as part of the Ministry of Defence's Annual Report and Accounts. Operating Costs for 2002–03 for operations in Iraq total £629.531 million. Expenditure on capital equipment amounts to £217.680 million. The grand total is, therefore, £847.211 million.

For 2003–04, funding voted at Winter Supplementary Estimates amounted to £1.2 billion and covered the cost of peacekeeping and associated Urgent Operational Requirements (UORs). The MOD will seek a further £300 million at Spring Supplementary Estimates to cover primarily the cost of the Recuperation of my Department's operational capability. Thus, the total sought in 2003–04 will be £1.5 billion.

It is too early to say what costs might be incurred after 2003–04.

Mr. Gray: To ask the Secretary of State for Defence pursuant to his statement of 13 January 2004, *Official Report*, column 690, on the National Audit Office Report on Operation Telic, when he gave Mrs. Samantha Roberts, a *(a)* summary of the incident in which her husband died and *(b)* ballistics report; when he met Mrs. Roberts; when the Royal Military Police Special Investigation Branch report into Sergeant Roberts' death will be published; and when the Army Board of Inquiry into Sergeant Roberts' death will be convened. [149539]

Mr. Hoon: Mrs. Roberts was provided with a summary of the incident on 18 June 2003 by the Casualty Visiting Officer. A report summary of the weapons test was passed to Mrs. Roberts in December 2003. I met Mrs. Roberts, together with other members of Sergeant Roberts' family, on 15 October 2003 and 19 January 2004.

It is not clear when the Royal Military Police Special Investigation Branch investigation will conclude, but a briefing will be offered to Mrs. Roberts as soon as is

practicable, once the SIB's findings are known. A Board of Inquiry will be convened when the SIB investigation has concluded.

Night Vision Goggles

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) for what reason the pilots of the two helicopters of 849 Naval Air Squadron which collided on 22 March 2003 had not been issued with night vision goggles; [149876]

(2) what the criteria are for the issuing of night vision goggles to Naval Air Squadron personnel; [149877]

(3) if he will list the equipment available to Naval Air Squadron helicopter pilots, other than night vision goggles, to prevent collision in poor flying conditions at low altitude at night; [149879]

(4) if he will make it his policy that night vision goggles will be issued to helicopter pilots before night-time missions. [149880]

Mr. Ingram: Night vision goggles (NVG) can be operated only in aircraft that have been specifically modified for this role. Naval helicopters are fitted to allow operation with NVG according to their tactical role in operations. The operational role for the helicopters of 849 Naval Air Squadron involved in Operation TELIC did not require the modifications to the helicopters that are necessary for the provision of NVG.

For RN helicopters, safety is provided by operating procedures such as, air traffic control awareness of hazards through radar detection, communications, lighting and lookout. NVG can, in certain circumstances, enhance these capabilities. But ships operating NVG aircraft need to be compatible. Darkening a ship to allow aircraft NVG operations brings its own safety issues.

Policy for a fleet-wide night vision capability is currently under consideration.

Non-British Naval Ships (UK Waters)

Mr. Rosindell: To ask the Secretary of State for Defence pursuant to his answer of 8 December 2003, *Official Report*, column 278W, if he will make a statement on co-ordination between external security measures taken by the UK and on-board security measures taken by a visiting nation during the docking of non-British naval ships in UK waters. [148966]

Mr. Ingram: External and on-board security measures put in place during the docking of a non-British naval ship in the United Kingdom waters are closely coordinated between the relevant UK authority and the visiting nation. Jurisdiction, however, is clearly delineated, with the visiting ships' Commanding Officer responsible for security within the confines of the ship while external security measures rest with the local police authority or the Naval Base Commander for visits to a Naval Base.

Oath of Allegiance

Mr. Rosindell: To ask the Secretary of State for Defence what plans the Government have to change the requirement that members of the armed forces take an oath of allegiance to Her Majesty the Queen, her heirs and successors. [148930]

Mr. Ingram: None.

Port Facilities (Iberian Peninsula)

Mr. Tynan: To ask the Secretary of State for Defence what preference is given to the use of port facilities at Gibraltar over those at other Iberian ports where Royal Navy, Royal Fleet Auxiliary or other vessels owned or chartered by his Department transit the Straits of Gibraltar or operate in, or transit, nearby waters. [148958]

Mr. Ingram: The goodwill generated from visiting foreign ports makes a significant contribution to Defence Diplomacy, the continuing development of bilateral relations and support to the United Kingdom Industry. A balanced approach is, therefore, taken to ensure that Gibraltar and other ports in the region, including those of other Iberian states, are visited on a regular basis. In addition, ships en route to or returning from deployments east of Suez and Atlantic Patrol Tasks are routinely programmed to visit Gibraltar.

Mr. Tynan: To ask the Secretary of State for Defence if he will list each *(a)* Royal Navy, *(b)* Royal Fleet Auxiliary and *(c)* other vessels owned or chartered by his Department which has visited (i) Gibraltar and (ii) other Iberian ports in the last year; and what the (A) date, (B) length and (C) location of each visit was. [148959]

Mr. Ingram: The following tables lists visits by Royal Navy, Royal Fleet Auxiliary and Ministry of Defence-owned or chartered vessels to Gibraltar and other Iberian ports over the 2003 calendar year.

Visits to Gibraltar by RN, RFA and MOD-owned/chartered vessels during 2003

Ship	*Arrival*	*Departure*
RFA Orangeleaf	13 January	13 January
RFA Orangeleaf	24 January	31 March

Territorial Army

Mr. Gray: To ask the Secretary of State for Defence how compulsory mobilisation of the Territorial Army in Operation Telic affects the continuity of Service calculations for the *(a)* Territorial Decoration and *(b)* other longer Service awards. [149280]

Mr. Caplin: The Territorial Decoration (TD) was replaced by the Volunteer Reserves Service Medal (VRSM) in 1999, although those members of the Territorial Army (TA) who had already completed a significant period of Service towards the award, can still receive the TD.

Periods of compulsory mobilisation by TA personnel on Operation Telic will count towards the TD, the VRSM or the Long Service and Good Conduct Medal.

Mr. Gray: To ask the Secretary of State for Defence (1) how compulsory mobilisation of the Territorial Army affects eligibility for annual training bounty; [149281]

(2) whether the Territorial Army's annual training bounty is payable in the respect of compulsory mobilisation service. [149282]

Mr. Caplin: While compulsory mobilisation does not in itself qualify members of the Territorial Army for their annual training bounty, certain aspects of that service can contribute towards the award. For example, mobilised service in theatre can be considered as meeting the requirement for a 15-day camp (or training in lieu).

Unexploded Ordnance

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 13 January 2004, *Official Report*, column 683W, on unexploded cluster bombs, if he will list each case for which compensation has been paid, to the victims of British cluster bombs in *(a)* Kosovo, *(b)* Afghanistan and *(c)* Iraq; and if he will make a statement. [149619]

Mr. Ingram: The Ministry of Defence has no record of compensation payments being made to victims of British cluster bombs in Kosovo, Afghanistan or Iraq.

INTERNATIONAL DEVELOPMENT

Colombia

Mr. Iain Luke: To ask the Secretary of State for International Development what steps the Government are taking to ensure that *(a)* UK and *(b)* EU aid to Colombia is not used in a way contrary to UN recommendations on human rights. [146755]

Mr. Gareth Thomas: I refer my hon. Friend to the response given by the Secretary of State to the hon. Member for Ayr on Thursday, 26 June 2003 *Official Report*, column. 941W.

DFID's one remaining government-to-government bilateral project in Colombia has now ended, This provided advice on improving the exchange of information between Non-Governmental Organisations working in agriculture. The project was consistent with the UN human rights recommendations.

Africa Peer Review Mechanism

Mr. Bercow: To ask the Secretary of State for International Development when he will report on the outcome of the technical reviews of economic governance carried out as part of the Africa Peer Review Mechanism. [149978]

Hilary Benn: The Africa Peer Review Mechanism is a voluntary process. Work by the Peer Review Secretariat and others involved in the technical assessment is ongoing. We will learn more about progress when the results of the first Peer Review have been published.

Sixteen countries have signed up for the Africa Peer Review Mechanism. There is no confirmation yet as to which country will be first, although it has been proposed that Ghana and South Africa may be among the first wave. Currently it appears unlikely that the technical assessments will be published separately, but as part of the overall report on each country. The reports will all be published by the NEPAD secretariat.

Democratic Republic of Congo

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the *(a)* resources available to and *(b)* effectiveness of the African Union presence in the Democratic Republic of the Congo. [149187]

Hilary Benn: I understand that the African Union is currently represented at an administrative level only in the DRC. At the present time it does not appear to have a significant profile in Kinshasa on DRC issues.

Debt Relief

Mr. Gardiner: To ask the Secretary of State for International Development what consideration is given to levels of HIV infection when approving a country for Heavily Indebted Poor Country debt relief. [149426]

Hilary Benn: The amount of debt relief a country receives under the Heavily Indebted Poor Countries (HIPC) Initiative is determined by its Debt Sustainability Analysis. A country's debt is compared with its export earnings and government revenue, and relief is provided either to bring the debt to export ratio down to 150 per cent., or the debt to government revenue ratio down to 250 per cent, whichever gives the greater amount of relief. This framework is straightforward and transparent. It also captures all of the factors that could affect a country's ability to service its debt, including levels of HIV infection, as these will affect the export and government revenue figures. Additional relief—or 'topping up'—can also be provided at Completion Point, for those countries that, as a result of exogenous shocks, risk exiting the Initiative with debts above the HIPC sustainability threshold.

Levels of HIV infection are also addressed directly through the development of Poverty Reduction Strategy Papers (PRSPs), which are a requirement for receiving HIPC debt relief. Governments in HIPC countries lead national processes to develop PRSPs. These strategies set out national priorities and include an estimate of the cost of reaching medium-term development targets. The planned use of HIPC debt relief, along with all other forms of assistance for addressing social problems, such as HIV/AIDS, are addressed in these strategies. For many HIPC countries, analysis of poverty trends in PRSPs shows HIV/AIDS is an important factor, and public action plans can be costed within national spending plans. In this way, savings made under the HIPC Initiative are channelled directly towards tackling this issue.

Ethiopia

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the extent of the food shortage in Ethiopia *(a)* in absolute terms and *(b)* by comparison with December 2002; and what measures are being taken to improve the situation. [148090]

Hilary Benn: In December 2003, the Government of Ethiopia appealed for food assistance for 7.2 million people, amounting to 964,690 metric tonnes of cereal. This is a 45 per cent. reduction from the 13.2 million people requiring relief in December 2002.

However, there is unlikely to be any overall shortage of food in Ethiopia during 2004. Some five to six million people require assistance every year even without shocks such as drought. For this group, we are working with Government to develop a safety net that will provide timely and sufficient resources to not only save lives but help people become more productive.

We also work with Government and others to promote long-term development and sustainably reduce vulnerability to shock. For example, we are expanding local level roads to improve access to markets and supporting the development of vulnerable groups such as pastoralists.

Global Alliance for Vaccines and Immunisation

Mr. Bercow: To ask the Secretary of State for International Development what the *(a)* nature and *(b)* cost is of his Department's support for the Global Alliance for Vaccines and Immunisation. [148556]

Hilary Benn: DFID provides financial support to the Global Alliance for Vaccines and Immunisations (GAVI) and works closely with the partnership to further its objectives. The UK was on the Board of GAVI for two years to July 2003. We remain engaged with GAVI work on the evaluation of its support to country health systems, on the introduction of new vaccines, and on initiatives to overcome health system barriers to increasing immunisation. DFID has supported GAVI since its inception, initially with a grant of £3 million and then a grant of £35 million over five years (2001–05).

Millennium Development Goals

Mr. Bercow: To ask the Secretary of State for International Development what the percentage change was between 1990 and 2003 in the numbers of underweight children under five years of age in each country covered by the millennium development goals. [149065]

Hilary Benn: The information readily accessible refers to the percentage of children in developing countries aged under five who are seriously underweight. The data are not collected on an annual basis and very few countries have data more recent than 2000. The table sets out the information on the prevalence of child malnutrition by country for the year which most closely approximates to 1990 and 2000[1]. Where the reference year is different from these two dates this is specified. The final column sets out the difference in percentage points between the two statistics.

[1] Countries without any internationally comparable data have been excluded from the table.

Percentage of underweight children (weight for age)

Country	*1990*	*Year*	*2000*	*Year*	*Change over period where appropriate (percentage points)*

Note:

Weight for age malnutrition is defined as the percentage of children under five whose weight for age are significantly below (in precise terms minus two standard deviations) the median for the international reference population of the same age group.

Statistics on International Development 2003

Security Passes

Mr. Oaten: To ask the Secretary of State for International Development how many security passes have been reported *(a)* lost and *(b)* stolen by staff in his Department in the last 12 months. [147980]

Hilary Benn: Staff in my department have reported losing 39 staff security passes during 2003. In addition a further four have been reported lost as a result of burglaries and theft of handbags and jackets outside of the office.

St. Helena (Airport)

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on constructing an airport on St. Helena. [150097]

Hilary Benn: The response to an international invitation, which had sought outline proposals for private sector participation and investment in possible development of air access, is being considered in consultation with the St Helena Government. An expert assessment of four expressions of interest in the possible venture was received last month. As the next step, we shall soon decide whether any or all of the existing proposals offer a suitable basis for proceeding further.

World Trade Organisation

Mr. Bercow: To ask the Secretary of State for International Development what discussions he has had with the Director General of the World Trade Organisation since 15 December 2003. [149069]

Hilary Benn: I have had no discussions with the WTO Director General, though the Secretary of State for Trade and Industry has.

Transport Infrastructure Projects

Tom Brake: To ask the Secretary of State for International Development what the five largest major or national transport infrastructure projects which his Department is funding are. [149169]

Hilary Benn: The five largest major transport and infrastructure projects which my Department is funding are listed as follows:

Project title	*Country*	*Value (£ million)*	*Purpose*
Rural Access Programme	Nepal	33	To improve poor people's access to the goods and services that they value in targeted hill areas through an improvement in basic transport, an increase in access for rural populations and the development of a strategy for the future organisation of infrastructure development in these areas.
Support to Rural Feeder Roads	Ghana	27	To improve access to services and markets in rural areas resulting from development of a sustainable rural road network.
Bhairab bridge	Bangladesh	22	To facilitate accelerated economic growth and reduced poverty in North East Bangladesh by the construction of a 4 lane road bridge over the Meghna river.
Institutional Dev Comp of Road Rehabilitation II & III	Bangladesh	19	To reduce the total cost of road transport by improving the road network through more effective design and construction of roads and more effective programming and implementation of road maintenance and improvement of operations of the Road Highways Department.
Rural Transport Project Phase II	Vietnam	19	To ensure an increased flow of people, goods and services in rural Vietnam by improving basic access for rural areas and providing a strategy for sustainable maintenance of rural roads nation wide

EDUCATION AND SKILLS

Classroom Assistants

Helen Jones: To ask the Secretary of State for Education and Skills how many classroom assistants were employed in schools in Warrington North *(a)* in 1997 and *(b)* at the last date for which figures are available. [148255]

Mr. Miliband: The full-time equivalent number of teaching assistants[1] in maintained schools is recorded in January of each year on the Annual School Census. In Warrington, North constituency there were 120 teaching assistants in maintained schools in 1997 and 230 in 2003.

[1] Includes teaching assistants, nursery assistants in nursery schools, special needs support staff and minority ethnic pupil support staff.

Higher Education Funding

Mr. Keith Bradley: To ask the Secretary of State for Education and Skills what (1) *(a)* proportion and *(b)* type of courses in higher education are subject to variable fees; [149432]

(2) what proportion of courses in colleges of further education are subject to variable fees. [149433]

Alan Johnson *[holding answer 20 January 2004]:* Fees for post graduate, part-time and overseas students in higher education are currently unregulated. Such students make up around 50 per cent. of the total. Fees for full-time undergraduates are currently set at a standard rate of £1,125 per year (for 2003–04): the Higher Education Bill contains provisions to allow higher education institutions and further education colleges that provide higher education to vary their fees for these students up to a maximum of £3,000, provided they have an access agreement approved by the Office for Fair Access.

Approximately 80 per cent., of further education provision for adults is subject to variable fees. Public funding through the Learning and Skills Council assumes a learner or employer contribution of 25 per cent. to the basic cost of the course. However, colleges are free to vary the fee charged between 0 per cent. and 75 per cent. of the basic cost. No fees may be charged for the 20 per cent. of provision not subject to variable fees. This comprises provision for adult learners on income based benefits and literacy and numeracy courses.

School Fruit Scheme

Andrew George: To ask the Secretary of State for Education and Skills which of the 50 most deprived council wards have schools taking part in the National School Fruit Scheme. [146014]

Miss Melanie Johnson: I have been asked to reply.

All local education authority schools with children aged four to nine years in four of the nine Government Regions had been invited to join the National School Fruit Scheme.

The information requested is shown in the table.

Ward	Local authority	Index of multiple deprivation score	Rank of index of multiple deprivation	Taking part in NSFS/date expected to join
Benchill	Manchester	83.77	1	Yes
Speke	Liverpool	83.13	2	Yes
Thorntree	Middlesbrough	82.52	3	March 2004
Everton	Liverpool	82.10	4	Yes

Kensington	Liverpool	73.05	48	YES
Weavers	Tower Hamlets	73.03	49	Yes
Noddle Hill	Kingston upon Hull, City of	72.91	50	Autumn 2004

School Meals

Mr. Burstow: To ask the Secretary of State for Education and Skills how much was spent on school meals per head by each local education authority in the last year for which figures are available. [147247]

Mr. Miliband: My Department does not collect this information from schools or local education authorities.

Higher Education Funding

Mr. Rendel: To ask the Secretary of State for Education and Skills on what amount of debt he has based his estimate of the length of time it will take the average graduate to complete graduate repayments after 2010; and what the change would be in this time if the annual income threshold for repayment was raised to *(a)* £18,000 and *(b)* £20,000. [147769]

Alan Johnson *[holding answer 19 January 2004]:* The estimate of the length of time to repay is the average across all students who take out a loan. This is different from the length of time it will take for some notional average graduate to repay. The estimate is from a model which simulates student loan repayments, based on assumed distributions of: length of time in Higher Education; size of means-tested loan taken out; size of fee loan, net of any fee remission; and borrower lifetime earnings. Some borrowers will repay more quickly than this estimated average and some less so.

As part of a package of reforms announced with the introduction of the Higher Education Bill, any debt outstanding after 25 years would be written-off. The threshold would increase to £15,000 in April 2005 and be increased with inflation from April 2010 onwards. The average time to repay would be around 13 years.

Under the same approach to uprating the threshold, the average time to repay would be around 15 years with an £18,000 threshold and around 16 years with a £20,000 threshold.

Mr. Rendel: To ask the Secretary of State for Education and Skills if he will estimate the additional cost to the Student Loans Company of administering student loans if top-up fees are introduced; and if he will make a statement. [148265]

Alan Johnson: The introduction of deferred fee loans will have a small effect on the Inland Revenue and the Student Loans Company. Any extra costs will be largely a function of the numbers of graduates repaying loans after 2010. There is also the need to monitor what fees a student is incurring for what courses. There will be one-off development costs to the SLC of introducing the change. DfES would meet the cost. No figures are yet available. Information on the proposals is set out in the Regulatory Impact Assessment (RIA), copies of which are in the House Libraries.

NORTHERN IRELAND

Crime Victims (Compensation)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what his policy is on compensation for victims of crime where the perpetrator of the crime is a member of the same household as the victim. [149204]

Mr. Spellar: The Chief Executive of the Compensation Agency has written to the hon. Gentleman. A copy of the letter has been placed in the Library.

Minority Liaison Officers

Mr. McNamara: To ask the Secretary of State for Northern Ireland how many minority liaison officers working with victims of crime are employed by the police and other institutions and agencies in the criminal justice system in Northern Ireland. [149231]

Mr. Spellar: The Police Service of Northern Ireland has an appointed Minority Liaison Officer in each of the 29 police districts established under the Racial Monitoring programme in 1997.

Other criminal justice agencies do not appoint Minority Liaison Officers, but continue to offer support to victims of crime within the criminal justice system. Support may include the provision of interpreters when required and special measures as provided for by the Criminal Evidence (Northern Ireland) Order 1999.

Moylinn GP Co-operative

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress has been made in identifying a new location for the Moylinn GP Co-operative. [148771]

Angela Smith: The Southern Health and Social Services Board (SHSSB) and the Association of Southern Areas Doctors On Call (ASADOC) have continued to work together and good progress has been made in identifying a new location for Moylinn Medical Centre. It is expected that an announcement on the outcome of these discussions will be made shortly.

Police Service

Lady Hermon: To ask the Secretary of State for Northern Ireland how many Police Service of Northern Ireland officers have been involved in policing operations outside Northern Ireland in each year since its formation; what the nature of the operations involved was; and how long each operation lasted. [142677]

Jane Kennedy: The information is not readily available in the format requested and could be obtained only at disproportionate cost. The table sets out the number of officers seconded outside Northern Ireland since 3 November 2001.

	Secondment to national police training	*Overseas Service*
2001	0	14
2002	9	44
2003	4	4
Total	13	62

The PSNI have deployed officers to Bosnia-Herzegovina, Kosovo, East Timor and Iraq. Officers deployed to Bosnia-Herzegovina were seconded to the International Police Task force (IPTF). The role of the IPTF is to monitor, advise and train police officers belonging to the Republic Srpska and Federation of Bosnia-Herzegovina police forces. A similar monitoring role was undertaken by officers deployed to East Timor.

Officers deployed to Kosovo are seconded to the United Nations Mission in Kosovo (UNMIK). The role of UNMIK is to maintain civil laws and orders with executive police powers. Officers perform border police duties at international border crossings also advise and assist in maintenance of public security and order.

A senior officer of the PSNI was deployed to Iraq to build capacity and oversee the implementation of the Iraqi national policy strategy and maintain and supervise a regional police training academy.

Polling Stations

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) if he will make a statement on the difficulties experienced in ensuring that enough staff were available at polling stations during the Assembly elections in November 2003; [149613]

(2) what plans he has to ensure that greater numbers of individuals will be available to staff polling stations at future elections. [148820]

Mr. Spellar: Difficulties were experienced in the recruitment of polling station staff for the recent Assembly elections. These difficulties arose in part because of the time of year. However, due to the efforts of the Electoral Office, which included using civil servants as polling station staff, it was possible to fill all positions and enable the elections to be conducted successfully.

The administration of elections is a matter for the Chief Electoral Officer. However, the Government will continue to work closely with the CEO in his planning to ensure that polling stations are correctly staffed.

Race Hate Crime

Mr. McNamara: To ask the Secretary of State for Northern Ireland what measures have been taken by the Northern Ireland Housing Executive to address race hate crime in Northern Ireland. [149234]

Mr. Spellar: The Northern Ireland Housing Executive has a Community Safety Strategy in place through which it can take action against perpetrators of racial harassment and intimidation. Until recently such action, which normally would have entailed steps to repossess property, was only possible in situations where the perpetrator was a Housing Executive tenant. With the introduction of the Housing (NI) Order 2003, the Housing Executive now has enhanced powers not only in terms of the action it can take against Housing Executive tenants but also through the use of injunctions to address race hate crimes occurring within its estates irrespective of the tenure of the perpetrator. The Housing Executive also assists victims of racial attacks through the provision of temporary accommodation pending enquiries into the circumstances pertaining to any individual case and permanent rehousing, where appropriate. It will also take measures to protect the properties and belongings of victims, if requested to do so.

Mr. McNamara: To ask the Secretary of State for Northern Ireland how many requests for assistance from victims of race hate crime were received in the last 12 months by the Northern Ireland Housing Executive; how many victims were rehoused; and what instructions have been circulated to local offices. [149240]

Mr. Spellar: During the 12-month period from 1 January 2003 to 31 December 2003 a total of 30 cases from ethnic minority backgrounds presented to the Housing Executive as homeless on grounds of intimidation. Of the 30 cases, 17 were accepted as homeless as a result of intimidation and eligible for housing assistance. The remaining 13 applicants either abandoned their application or were ineligible for assistance under immigration or homeless legislation. While no specific guidance has been issued to staff in respect of racial discrimination, they have been provided with written guidance and training to deal with housing and homeless applications to ensure that all incidents, whether racial, terrorist or sectarian intimidation, are treated with the same degree of urgency and sensitivity.

Rheumatoid Arthritis

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of rheumatoid arthritis sufferers in Northern Ireland who will commence *(a)* Enbrel and *(b)* Remicade treatment in 2004; and what the figures were in 2003. [148843]

Angela Smith: In 2003, nine patients commenced treatment on Enbrel and 16 patients commenced treatment on Remicade. I announced on 13 January that we would provide additional resources for such anti-TNF drugs for 2004–05. Decisions have yet to be taken on detailed funding allocations so it is not possible to estimate the number of patients who may benefit from these therapies in 2004.

Suicides

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of suicides that took place in Northern Ireland in 2003. [148952]

Mr. Pearson: Mortality statistics for 2003 have not been fully collated and therefore the latest available data relate to 2002. In 2002, there were 162 deaths registered in Northern Ireland due to "suicide and self-inflicted injury" and 21 deaths due to "undetermined injury whether accidentally or purposefully inflicted".

Traffic Calming

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will review the criteria used by Roads Service Northern Ireland to decide on areas to be included in traffic calming schemes. [149719]

Mr. Spellar: I have asked the Chief Executive of Roads Service to write to the hon. Gentleman in response to this question. A copy of the letter will be placed in the Library.

SCOTLAND

Departmental Advertising

Mr. Peter Duncan: To ask the Secretary of State for Scotland what the total expenditure on information campaigns and advertising was for his Department for each year since 1997. [145655]

Mrs. McGuire: The Scotland Office was established on 1 July 1999.

Since that date, expenditure on information campaigns and advertising has been as follows:

	£
1999–2000	26,861
2000–01	270,494
2001–02	186,564
2002–03	10,930

Note:
Most of the expenditure during this period related to electoral registration information.

Mr. Peter Duncan: To ask the Secretary of State for Scotland what systems are in place to ensure economies of scale in advertising purchasing between the Scottish Executive and his Department. [145679]

Mrs. McGuire: The Scotland Office works closely with the Scottish Executive on procurement and purchasing issues and participates in joint contracts, wherever possible.

Call Centres

Annabelle Ewing: To ask the Secretary of State for Scotland if he will make a statement on prospects for employment in Scottish call centres. [148752]

Mrs. McGuire *[holding answer 19 January 2004]:* Scotland is home to a significant proportion of the UK's call centres. The Government recognise the important role that call centres play in the Scottish job market and in the wider economy, and will work to ensure the continued development of the industry.

The DTI recently commissioned a study into the competitiveness of the UK call centre industry, and its initial findings will be available from the end of March.

Population Statistics

John Barrett: To ask the Secretary of State for Scotland what the population of Scotland is, broken down by postcode district. [149363]

Mrs. McGuire: Population statistics in Scotland is a matter for the General Register Office for Scotland, an associated department of the Scottish Executive.

Population statistics broken down by postcode district can be obtained from "Scotland's Census Records OnLine" (scrol) which is accessible through the General Register Office for Scotland's website at www.gro-scotland.gov.uk.

WORK AND PENSIONS

Appeals

Paul Holmes: To ask the Secretary of State for Work and Pensions how many appeals against decisions made at personal capability assessments were *(a)* heard and *(b)* decided in the appellant's favour in the last 12 months, broken down by benefit; what the average length of time between lodging an appeal against a personal capability assessment decision and having that appeal heard was in the last 12 months; and if he will make a statement. [147813]

Maria Eagle: This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Mr. Paul Holmes, dated 19 January 2004:

The Secretary of State has asked me to reply to your question regarding how many appeals against decisions made in personal capability assessments were *(a)* heard and *(b)* decided in the appellant's favour in the last 12 months, broken down by benefit; and what the average length of time between lodging an appeal against a personal capability assessment decision and having that appeal heard was in the last 12 months.

The first table shows the number of personal capability assessment appeals cleared and the number found in the appellant's favour, the second table shows the average clearance time in weeks.

I hope this reply is helpful.

Number of Personal Capability Assessment Appeals cleared at hearing and cleared in favour of the appellant, December 2002 to November 2003

	Total benefit claimants	*Cleared at hearing*	*Cleared in favour*	*Percentage cleared in favour*
PCA (Incapacity Benefit)	[1]2,400,500	41,570	20,130	48.4
PCA (Not Incapacity Benefit):				
Income Support	[2]4,016,000	435	190	43.7
Jobseekers Allowance	[3]911,300	[4]—	[4]—	Not applicable
Others	Not available	90	30	33.3
Severe Disablement Allowance	[5]315,300	35	20	57.1

Appeals Figures Notes:
1. All figures are subject to change as more up to date data becomes available. Figures for the latest months may rise significantly as information feeds through to the Appeals Service.
2. Caseloads are rounded to the nearest five and percentages to one decimal place.
Source:
100 per cent. download of the Generic Appeals Processing System.
Claimant Figures Notes:
[1] As of August 2003; Figures are rounded to the nearest hundred.
[2] As of August 2003; Figures are rounded to the nearest thousand.
[3] As of August 2003; Figures are rounded to the nearest hundred.
[4] Nil or negligible.
[5] As of August 2003; Figures are rounded to the nearest hundred.
Note:
Not all claimants of these benefits are subject to the PCA. Therefore comparisons between the claimant numbers and appeals should be taken with caution.

Departmental Office (Hebburn)

Mr. Hepburn: To ask the Secretary of State for Work and Pensions (1) how many staff will be relocated from his Department's offices in Hebburn; [146993]

(2) how many people will be employed at replacement sites for work previously undertaken at his Department's offices in Hebburn; [146994]

(3) where the replacement sites for the Department's offices in Hebburn will be located; and what the cost of relocation will be. [146995]

Maria Eagle: Inland Revenue (IR) is the major occupier of the Reyrolle Building, Hebburn with around 400 staff, and also manages the contract. The Department for Work and Pensions (DWP) rent space at Hebburn to accommodate around 60 staff from Benefit Fraud Inspectorate (BFI) and The Pension Service.

IR extended the lease on the building until 2006 to provide temporary accommodation for IR and DWP due to the ongoing redevelopment of the Longbenton estate and it will be available for occupation until then.

DWP Estates are looking at alternative accommodation within the area for DWP staff currently working in Hebburn. Staff are being consulted and factors such as accessibility, local facilities and public transport links will be taken into account.

Departmental Relocation

Ms Walley: To ask the Secretary of State for Work and Pensions (1) what assessment his Department has made of the benefits of re-location of staff to North Staffordshire; and if he will make a statement; [146873]

(2) what assessment he has made of the effect of proposals to relocate Government jobs on the Department's ability to meet *(a)* departmental policy objectives and *(b)* departmental public service agreements; [146884]

(3) what assessment his Department has made of the effect of possible relocation of staff in his Department to North Staffordshire on *(a)* job creation, *(b)* sustainable development, *(c)* the local economy and *(d)* tackling regional economic disparities; and if he will make a statement; [146898]

(4) what plans he has to establish procedures for assessing the impact of possible relocation of staff in his Department to the regions; and if he will make a statement. [146929]

Maria Eagle: I refer the hon. Member to the reply given by the my right hon. Friend the Member for Brent, South (Mr. Boateng) on 12 January 2004, *Official Report*, column 516W.

Local Government Finance (Taunton Deane)

Mr. Flook: To ask the Secretary of State for Work and Pensions what the *(a)* rent allowance, *(b)* council tax benefit and *(c)* non-housing revenue account rent allowance actual settlement was for Taunton Deane borough council for 2003–04; and what the provisional settlement for each was for 2004–05. [150064]

Maria Eagle: The information is not available.

All funding relating to indirect Housing Benefit and Council Tax Benefit subsidy will transfer to this Department from the Office of the Deputy Prime Minister in April 2004. As a result, we have reviewed all current subsidy rates and rules and will pay all Housing benefit and Council Tax Benefit subsidy direct to authorities from April. DWP Circular S9/2003 sets out all the changes in detail and explains the transitional protection measures to be put in place to protect local authorities who may receive less funding under the new rules. A copy of the circular is available in the Library.

Pension Payments (Edinburgh)

John Barrett: To ask the Secretary of State for Work and Pensions how many pensioners in the *(a)* City of Edinburgh local authority area and *(b)* Edinburgh West constituency have been written to by his Department regarding direct payment; how many have opted for a Post Office card account; how many have opted to have their money paid into a normal or new basic bank account; and how many have yet to express a preference. [142622]

Mr. Pond: We do not have the information in the format requested. This could be provided only at disproportionate cost.

Key figures on the progress of conversion to Direct Payment are available in the Library, updated every four weeks.

Women's Pensions

Mrs. Brooke: To ask the Secretary of State for Work and Pensions what recent assessment he has made of women's pension provision. [149755]

Malcolm Wicks: I refer the hon. Member to the reply I gave the hon. Member for Crosby (Mrs. Curtis-Thomas) on 12 January 2004, *Official Report*, column 505W.

FOREIGN AND COMMONWEALTH AFFAIRS

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him dated 15 December 2003 from the right hon. Member for Manchester, Gorton with regard to Muhammed Hussain Ahmed. [149544]

Mr. Mullin: I can confirm that my right hon. Friend the Foreign Secretary replied to my right hon. Friend's letter of 15 December 2003 on 13 January 2004.

Democratic Republic of Congo

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the steps that need to be taken to bring about peace in the Democratic Republic of Congo. [149198]

Mr. Mullin: The peace process in the Democratic Republic of Congo (DRC) took a big step forward in 2003 with the ratification of the Global Accord (signed in Pretoria on 17 December 2002) and the inauguration of an inclusive Transitional National Government (TNG) in July 2003.

The TNG now faces some significant challenges. These include preparation of the country for democratic elections in 2005, economic regeneration, establishing basic systems of governance to help prevent conflicts

and reduce poverty, and security sector reform. The UK Government will continue to work with our partners in a co-ordinated international effort to bring lasting peace. There has also been a large increase in British aid to the DRC.

Ghana

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit Ghana. [148156]

Mr. Mullin: Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel and occasionally not until they are under way. My right hon. Friend the Prime Minister visited Ghana in February 2002 and I visited Accra in 2003.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs when he next plans to visit Ghana. [149494]

Mr. Mullin: I refer my hon. Friend to the answer I gave him today.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure that the night goggles provided by the EU to Ghana are used in accordance with the country's undertakings. [149496]

Mr. Mullin: All EU members are required to assess rigorously all export licence applications on a case-by-case basis against the 1998 EU Code of Conduct on arms exports, taking account of the circumstances prevailing at the time, embargoes and other announced policies. The 1998 EU Code of Conduct on arms exports is available in the Library of the House. The criteria set out the EU's commitment to take account of the risk that exports might be used for either internal repression or external aggression.

The Ghanaian armed forces are professional and well respected. We have no reason to doubt that night vision equipment exported by the EU would be used for any other than legitimate purposes.

Iraq

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library full statements of income and expenditure by the Coalition Provisional Authority. [149086]

Mr. Rammell: The International Advisory and Monitoring Board (IAMB), established under the terms of UN Security Council Resolution 1483, is charged with auditing income to, and expenditure from, the Development Fund for Iraq by the Coalition Provisional Authority. The IAMB is made up of representatives from the United Nations, World Bank, International Monetary Fund and the Arab Fund for Social and Economic Development. As soon as the Board has reported on the accounts, I will place a copy of their report in the Library of the House.

Israel

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he is making to the Israeli authorities regarding the nature of charges being brought against the soldier arrested for the killing of Mr. Tom Hurndall. [148936]

Mr. Mullin: The Israeli soldier, held in connection with the shooting of Tom Hurndall, has been charged with aggravated assault, obstruction of justice and other offences. A second soldier has now been charged. We understand the Israelis are reviewing the charges in light of Mr. Hurndall's death. We are in regular contact with the family and will be discussing the response to these developments with them.

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he is making to the Israeli authorities to ensure that the family of Mr. Tom Hurndall will have access to all evidence relevant to the case. [148937]

Mr. Mullin: We have pressed the Israeli authorities for a full and transparent investigation into the shooting of Tom Hurndall. My noble Friend the Baroness Symons of Vernham Dean is writing to the Israeli authorities regarding the family's wishes to see the results of the investigation.

John Austin: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Israel about their plans to expand illegal settlements in the occupied Golan Heights. [149480]

Mr. Rammell: The Government regularly raise with the Government of Israel their concerns about continued Israeli settlement construction. Settlements are illegal under international law and an obstacle to a comprehensive peace in the region.

Organisation of African Unity

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to improve relations with the Organisation of African Unity. [149495]

Mr. Mullin: The UK has increasing contact, at senior official and ministerial level, with the African Union (AU) which formally replaced the Organisation of African Unity in 2002. I met the Chairman of the African Union Commission, Professor Alpha Konare on 19 January 2004.

The AU has set itself important objectives in promoting peace and security, governance and economic integration. The UK has provided support (£1,089,745) to the AU Conflict Management Centre and the AU's wider peacekeeping work (£5.9 million to the African Mission in Burundi, AMIB). We are also providing small-scale support to assist the current Chairman of the AU Assembly (HE Joaquim Chissano, President of Mozambique) with Mozambique's AU Presidency duties and English language teaching to the AU Commission Chairman.

The UK also gives strong support to the New Partnership for Africa's Development (NEPAD), a programme of the African Union, through our

commitments under the G8 Africa Action Plan and also through financial support (£500,000) managed through a UNDP trust fund to the NEPAD Secretariat.

Occupied Territories

John Austin: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government plan to provide a written statement to the International Court of Justice on the case, Legal Consequences of the Construction of a Wall in the Occupied Palestinian Territory. [149481]

Mr. Rammell: I refer my hon. Friend to the answer I gave my hon. Friend the Member for Birmingham, Northfield (Richard Burden) on 12 January 2004, *Official Report*, column 530W. I will place a copy of the letter in the Library of the House.

Subsidiarity

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the use of Article 308 EC as a sole legal base for European Union measures, its implications for defining the areas of competence of the Union and its implications for the principle of subsidiarity. [147531]

Mr. MacShane: Article 308 requires, in order for it to be used as a legal base for action, that a proposal be necessary for the attainment of a Community objective, and have unanimous support at the Council. We have given an undertaking that where the Commission puts forward a legislative proposal citing Article 308 as its legal base, we will provide the Scrutiny Committees with the Commission's justification of this choice of legal base. Any such proposal would need to respect the principle of subsidiarity set out in Article 5 TEC.

Terrorism

Mrs. Iris Robinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent of collaboration and sharing of expertise between terrorist organisations internationally. [148948]

Mr. MacShane: There are varying levels of contact between al-Qaeda and other international terrorist groups either related to al-Qaeda or sharing similar agendas, including sharing ideological ideas and expertise, and co-operating on funding, planning and facilitation. The loss of safe havens such as Afghanistan, and the successful pursuit and arrest of senior terrorists, have made this process more difficult. But terrorist individuals and groups continue to find ways to collaborate and communicate, including through use of the Internet.

Zimbabwe

Mr. Best: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Home Office about reducing the time taken by the Home Office to respond to requests for information made by the Visa Section of the British High Commission in Harare about visa applicants. [149487]

Mr. Mullin: With effect from 10 January, new procedures have been set in place to ensure that requests for information from our diplomatic posts overseas are dealt with expeditiously by the Home Office. In line with these new procedures, the Home Office will notify the Visa Section as soon as they receive the request for information and agree a timescale for providing it. It is envisaged that these measures will create a secure and faster system for exchanging information between the Visa Sections at all our posts including the British Embassy in Harare and the Home Office.

TREASURY

Mortality Statistics

Mr. Burstow: To ask the Chancellor of the Exchequer how many deaths from *(a)* circulatory disease and *(b)* cancer were recorded in each year since 1997. [149868]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Paul Burstow, dated 22 January 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths from *(a)* circulatory disease and *(b)* cancer were recorded in each year since 1997.(149868)

The latest year for which data are available is 2002. Figures for all circulatory diseases and cancer are shown in the table below for each year from 1997 to 2002.

Number of deaths from circulatory diseases and cancer[1], England and Wales, 1997 to 2002[2]

Calendar year	*(a) Circulatory diseases*	*(b) Cancer*
1997	228,443	137,618
1998	226,675	138,306
1999	219,087	136,181
2000	207,228	134,793
2001[3]	211,842	139,135
2002[3]	209,433	140,174

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9)for the years 1997 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) for 2001 and 2002. The codes used are listed below:
Diseases of the circulatory system—/CD-9 390–459; ICD-10100–199;
Neoplasms—ICD-9 140–239; ICD-10 COO-D48.

[2] Figures are based on deaths occurring in each calendar year.

[3] The introduction of ICD-10 for coding cause of death in 2001 means that data for circulatory diseases and cancer are not completely comparable with data for years before this date. The data should therefore be interpreted with caution. The effect of change in classification in 2001 on deaths from these causes is described in a report published in May 2002.*
Office for National Statistics. Results of the ICD-10 bridge coding study, England and Wales, 1999. Health
Statistics Quarterly 14 (2002), 75–83.

Child Care

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer what assistance with child care costs is provided through the child care element of the working tax credit. [150206]

Dawn Primarolo: The child care element of the working tax credit can provide help with up to 70 per cent. of eligible child care costs subject to weekly maximum limits. For one child the maximum cost that a family can claim for is £135 a week, increasing to £200 a week for the costs of two or more children. This means that the maximum weekly value of the child care element is £94.50 for one child and £140 for two or more children.

Double Taxation Agreement (Switzerland)

Mr. Rosindell: To ask the Chancellor of the Exchequer if he will make a statement on the standard for exchange of information set out in the Double Taxation Agreement between the UK and Switzerland. [149923]

Dawn Primarolo: In broad terms, the Agreement provides for each country to exchange such information at their disposal as is necessary for carrying out the provisions of the Agreement so long as doing so would not disclose any trade, business, banking, industrial or professional secret or trade process and would not be at variance with the regulations and practice of either country.

Mr. Rosindell: To ask the Chancellor of the Exchequer what assessment he has made of the implications for the current Double Taxation Agreement between the UK and Switzerland of the Organisation for Economic Co-operation and Development's Report on Improving Access to Bank Information for Tax Purposes: The 2003 Progress Report, with particular reference to exchange of information on criminal, civil and administrative matters. [149924]

Dawn Primarolo: This Government are committed to effective exchange of information between countries as a vital tool in the fight against cross border tax evasion and avoidance. We have been at the forefront of the Organisation for Economic Co-operation and Development's initiative on improving access to bank information for tax purposes. We shall continue to urge those countries that have not yet taken the necessary steps to allow appropriate access to bank information for all tax purposes, to do so as soon as possible.

Mr. Rosindell: To ask the Chancellor of the Exchequer what agreements the Government have entered into with Switzerland in compliance with the Organisation for Economic Co-operation and Development standard for exchange of information for tax purposes by 2006. [149925]

Dawn Primarolo: The UK has entered into no such agreements.

Mr. Rosindell: To ask the Chancellor of the Exchequer what assurances the Government has given to Switzerland in relation to the EU Directive on the Taxation of Savings Income, under the Double Taxation Agreement, with particular reference to exchange of information in criminal, civil and adminstrative matters. [149926]

Dawn Primarolo: The Government has not given any assurances to Switzerland under the Double Taxation Agreement in relation to the EU Directive on the Taxation of Savings Income.

Employer Compliance Review

Mr. Letwin: To ask the Chancellor of the Exchequer if he will make a statement on the progress of the Inland Revenue's Employer Compliance Review. [149860]

Dawn Primarolo: Employer compliance operations are under continuous review through the Inland Revenue's quality assurance programme.

Reviews of specific employers are confidential.

Financial Services (Mutual Ownership)

Dr. Cable: To ask the Chancellor of the Exchequer whether his Department plans to review the role of mutual ownership in the investment sector; what steps he is taking to ensure that investors have a choice of mutual ownership in that sector; and if he will make a statement. [149730]

Ruth Kelly: The Government recognise the contribution of the mutual sector, in competition with other service providers, to providing greater choice and diversity in the market. In the current market, consumers have a choice of ownership model for their investment.

Fuel Tax

Mr. James Gray: To ask the Chancellor of the Exchequer what estimate he has made of the tax revenue which would be lost if the Department for Environment, Food and Rural Affairs target for conversion of petrol cars to liquid petroleum gas was achieved. [149279]

John Healey: The Department for Environment, Food and Rural Affairs does not have a target for conversion of petrol cars to liquid petroleum gas.

Mr. Gray: To ask the Chancellor of the Exchequer how much revenue was raised in the last financial year from *(a)* four star petrol, *(b)* unleaded petrol and *(c)* liquid petroleum gas used in vehicles. [149278]

John Healey: The revenue raised by the Exchequer from fuel duties is published by HM Customs and Excise at www.uktradeinfo.com in the Hydrocarbon Oils Bulletin. The amounts for financial year 2002-03 are:

(a) 1.6 million from leaded petrol[1];

(b) 10.7 million from unleaded petrol;

(c) 8.1 million from road fuel gases[2]

[1] Revenue from leaded petrol is approximately equivalent to that from four star but includes other grades.

[2] Revenue from road fuel gases includes that from liquid petroleum gas (approximately 96 per cent.) and compressed natural gas (approximately 4 per cent.).

Income and Corporation Taxes Act

Mr. Letwin: To ask the Chancellor of the Exchequer how much tax revenue was raised under section 660A of the Income and Corporation Taxes Act 1988 in the last year; and if he will make a statement. [R] [149817]

Dawn Primarolo: The information requested is not available.

Income and Corporation Taxes Act/IR35

Mr. Letwin: To ask the Chancellor of the Exchequer what consultation he carried out before introducing the IR35 regulation. [R] [149814]

Dawn Primarolo: The intention to legislate the tax treatment of people working through intermediaries was announced in the 1999 Budget, a year before the changes were due to take effect. This was followed by extensive consultation. By the end of August 1999, the Inland Revenue had provided over 1,800 copies of the original proposals to whoever asked for them, and held consultative meetings with 38 representative bodies. Over 1,700 written comments and suggestions were received, considered and used to inform development of the intermediaries legislation.

Mr. Letwin: To ask the Chancellor of the Exchequer what consultation he carried out before reinterpreting section 660A of the Income and Corporation Taxes Act 1988. [R] [149813]

Dawn Primarolo: There has been no reinterpretation of Section 660A of the Income and Corporation Taxes Act 1988. The Inland Revenue published in April 2003 guidance on their existing interpretation.

Mr. Letwin: To ask the Chancellor of the Exchequer if he will make a statement on the progress of *(a)* the IR35 regulation and *(b)* section 660A of the Income and Corporation Taxes Act 1988 regulation in securing additional tax revenue. [R] [149861]

Dawn Primarolo: Those covered by the intermediaries legislation are required to register with the Inland Revenue as employers and to operate PAYE/NIC in accordance with the legislation. The Inland Revenue does not routinely collect data in respect of specific types of employer from either PAYE/NIC returns or in respect of its Employer Compliance Review programme. It is therefore not possible to isolate the increase to the exchequer arising from this legislation. Information on the amount of tax charged under Section 660A Income and Corporation Taxes Act 1988 is not available.

Inland Revenue

Mr. Goodman: To ask the Chancellor of the Exchequer what account is taken of best practice in relation to dealing with people with disabilities in leaflets produced by the Inland Revenue. [150415]

Dawn Primarolo: The Inland Revenue advertises the availability of leaflets in different formats on their internet site and in most leaflets. Some leaflets, such as the one about blind person's allowance, follow RNIB guidelines as standard.

Mr. Goodman: To ask the Chancellor of the Exchequer what plans the Inland Revenue has to introduce a leaflet available *(a)* in hard copy and *(b)* on the Inland Revenue website explaining revenue help for those with special needs and indicating the main areas of tax legislation giving reliefs for those with disabilities. [150417]

Dawn Primarolo: The Inland Revenue are researching the most appropriate methods, including leaflets, of effectively publicising the help available to those with special needs. The Inland Revenue have been working with the Low Incomes Tax Reform Group on this issue.

Mr. Goodman: To ask the Chancellor of the Exchequer whether the Orderline of the Inland Revenue is able to *(a)* take orders for large print editions of the most commonly requested leaflets and forms and *(b)* arrange for delivery on request. [150420]

Dawn Primarolo: The Inland Revenue are researching the most appropriate routes, including the Orderline, for taxpayers with special needs to obtain material in different formats. Currently they are asked to contact their Inland Revenue office or local Inland Revenue Enquiry Centre, if they require specialised products.

Mr. Goodman: To ask the Chancellor of the Exchequer whether *(a)* large print, *(b)* audio and *(c)* braille products are available on request from the Inland Revenue; and if he will make a statement. [150421]

Dawn Primarolo: Yes, large print, audio and braille products are available on request from the Inland Revenue. Currently the Inland Revenue are researching the most appropriate routes, including the Orderline, Inland Revenue offices and Inland Revenue Enquiry Centres, for taxpayers with special needs to obtain material in different formats.

Local Authority Housing Debt (Scotland)

Mr. Cousins: To ask the Chancellor of the Exchequer how much local authority housing debt he has written off to date under the special stock transfer arrangements for Scotland. [149644]

Mr. Boateng: Under the stock transfer arrangements, which are broadly similar to those in England, £1,055 million has been provided to repay local authority housing debt.

National Savings

Mr. Hancock: To ask the Chancellor of the Exchequer how many National Savings Ordinary Accounts have been *(a)* opened and *(b)* closed in each of the last five years for which records are available. [149484]

Ruth Kelly: The number of National Savings and Investments Ordinary Accounts opened and closed in each of the last five years is as follows:

Year	*Number opened*	*Number closed*
1999	228,432	436,295
2000	235,293	440,686
2002	216,057	445,067
2002	197,938	449,447
2003	201,169	415,840

Tax Collection

Mr. Letwin: To ask the Chancellor of the Exchequer what targets he has set for securing additional tax

revenue from investigations under *(a)* the IR35 regulation and *(b)* section 660A of the Income and Corporation Taxes Act 1988 regulation. [R] [149806]

Dawn Primarolo: The Chancellor has not set any targets for securing additional tax revenue from investigations under the intermediaries legislation or Section 660A Income and Corporation Taxes Act 1988.

Mr. Letwin: To ask the Chancellor of the Exchequer what procedures are in place to monitor the progress of investigations under *(a)* the IR35 regulation and *(b)* section 660A of the Income and Corporation Taxes Act 1988 regulation. [R] [149807]

Dawn Primarolo: The Inland Revenue has procedures in place to monitor all enquiry work including the intermediaries legislation and S660A Income and Corporation Taxes Act 1988. These procedures include regular reviews by the case officers and their line managers plus reviews by more senior officers in certain cases.

Mr. Letwin: To ask the Chancellor of the Exchequer (1) what penalties exist for late payment of tax; and how many times in each of the last five years these penalties have been used; [R] [149808]

(2) how many fines have been imposed for late payment of taxes in each of the last five years; and if he will make a statement. [R] [149811]

Dawn Primarolo: Whilst tax paid late might attract interest or surcharge, the tax legislation does not impose penalties or fines for late payment of tax.

Tax Avoidance

Mr. Letwin: To ask the Chancellor of the Exchequer (1) what steps he is taking to ensure that companies do not avoid paying tax in the UK; and if he will make a statement; [R] [149815]

(2) what steps he is taking to ensure that individuals do not avoid their tax responsibilities; and if he will make a statement. [R] [149816]

Dawn Primarolo: This Government are committed to tackling avoidance of tax and has introduced a number of anti-avoidance measures. We continue to monitor the position and shall not hesitate to introduce further legislation to protect the tax base when it is necessary to do so.

Working Tax Credit

Mr. Jim Cousins: To ask the Chancellor of the Exchequer how many claims for the working tax credit by *(a)* single persons and *(b)* couples without children there are in each region and nation of the UK; and if he will estimate how many will be eligible in each (i) region and (ii) country of the UK. [149641]

Dawn Primarolo: The number of couples and single adults receiving Child and Working Tax Credits in each country within the United Kingdom and in each region of England is shown at Table 8.1 of "Child and Working Tax Credit Statistics. October 2003", which is on the Inland Revenue web site at www.inlandrevenue.aov.uk/stats/personal-tax-credits/menu.htm.

Estimates for January 2004 will be published on 30 January 2004. No estimates will be available of the take-up rate of these tax credits until the Family Resources Survey for 2003–04 becomes available.

HEALTH

Infertility

Mrs. Spelman: To ask the Secretary of State for Health (1) by what means the Government will ensure implementation of the forthcoming National Institute for Clinical Excellence clinical guidance on the treatment and management of infertility; [147739]

(2) whether it is the Government's policy that infertility services should be made available on the NHS to all those with a clinical need. [147740]

Miss Melanie Johnson: The second draft of the guideline produced by the National Institute for Clinical Excellence (NICE) was published on 26 August 2003. NICE is considering comments made on that draft. It would not be appropriate to comment on implementation until NICE publishes its final guideline.

Bristol Royal Infirmary (Heart Surgery Inquiry)

Mr. Lansley: To ask the Secretary of State for Health if he will now respond substantively to recommendations 192 to 197 of the Report of the Public Inquiry into Children's Heart Surgery at the Bristol Royal Infirmary. [149268]

Dr. Ladyman: These recommendations were considered by the paediatric and congenital cardiac services review group which was established in March 2001. The report of the review group, which was published on 18 December 2003, offered advice on ways to ensure that standards are maintained and improved, based on the recommendations from this Inquiry. The report has been placed in the Library and is available on the Department of Health's website at www.doh.gsi.gov.uk/childcardiac

The review group did not support recommendation 197 that surgical services for children with very rare congenital heart conditions, or involving procedures undertaken very rarely, should only be performed in a maximum of two units and instead made their own recommendations for introducing new procedures.

With one exception, a recommendation to only keep centres carrying out at least 300 operations per year, the Government accepted all the review group's recommendations.

Care Homes

Sandra Gidley: To ask the Secretary of State for Health how many people have been commissioned by the National Care Standards Commission to inspect care homes for the elderly; and what the full-time equivalent is. [149797]

Dr. Ladyman: The National Care Standards Commission (NCSC) does not commission inspectors or inspections. It fulfils its statutory inspection duty by

employing 1,501 inspectors. This is the full-time equivalent of 1,414 people. In addition, the NCSC employs 79 locums.

Crisis Resolution Teams

Mrs. Roe: To ask the Secretary of State for Health with reference to the NHS Plan paragraph 14.31, how many crisis resolution teams have been established; and of these teams, how many are able to offer a 24-hour service. [148061]

Ms Rosie Winterton *[holding answer 20 January 2004]*: According to the Durham mental health service mapping database (http://www.dur.ac.uk/service.mapping/amh), there are 132 crisis resolution teams currently in operation, 81 of which are offering a 24-hour service.

Dentistry

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of the impact that an increased proportion of women in the dental workforce has had on the availability of full-time equivalent practising dentists. [147502]

Ms Rosie Winterton: The number of male dentists in the general dental service has increased during the past 10 years from 11,819 dentists at September 1993 to 12,607 at September 2003. The number of female dentists has increased from 3,954 to 5,930. The female proportion has risen from 25 per cent. to 32 per cent. The implications are discussed in the report of the Dental Workforce Review, which we will be publishing shortly.

Diabetes (South Sefton)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health (1) whether South Sefton's Primary Care Organisation has appointed a clinical champion for diabetes; [148997]

(2) what the percentage is of general practitioners providing *(a)* diabetes clinics and *(b)* other forms of structured diabetes care for South Sefton Primary Care Trust; [149000]

(3) whether people with diabetes are able to have *(a)* blood glucose tests with results on the same day, *(b)* urine tests with results on the same day, *(c)* access on the same day to specialist expertise within primary care and *(d)* access to equipment for retinopathy screening with interpretation on the same day, under South Sefton Primary Care Trust; [149018]

(4) whether South Sefton Primary Care Organisation has a protocol for the transfer of young people with diabetes from paediatric services to adult services; [149019]

(5) whether South Sefton Primary Care Organisation has a local diabetes implementation and planning group to lead service commissioning; [148998]

(6) whether South Sefton Primary Care Organisation *(a)* has a population-based register and *(b)* uses general practitioners' practice-based registers; [149001]

(7) whether South Sefton Primary Care Organisation has a strategy for early identification of people with diabetes; [149002]

(8) whether the South Sefton Primary Care Trust provided training in the management of diabetes in the last two years for *(a)* general practitioners and *(b)* diabetes clinics; [148999]

(9) whether South Sefton Primary Care Trust provides joint specialist diabetes and obstetric clinics for people in the area; [149020]

(10) whether the South Sefton Primary Care Trust provides joint specialist renal and diabetes clinics for people with diabetes who have renal complications; [149021]

(11) how often people are routinely recalled for retinopathy screening by South Sefton Primary Care Trust; and whether digital cameras are used; [149003]

(12) what percentage of people with diabetes were screened in the period April 2002 to March 2003 by South Sefton Primary Care Trust; [149004]

(13) whether people with diabetes in the South Sefton Primary Care Trust area are invited to diabetes education sessions with a healthcare professional; [149005]

(14) what written information is available on *(a)* diabetes, *(b)* self-management of diabetes, *(c)* personal diabetes record and care plans, *(d)* local diabetes services, *(e)* outcomes of care and *(f)* Diabetes UK to people diagnosed with diabetes by South Sefton Primary Care Trust; and in what languages this material is available; [149015]

(15) whether South Sefton Primary Care Trust's register enables the call and recall of invitations for people with diabetes to attend services; [149016]

(16) whether people with diabetes in the South Sefton Primary Care Trust area are able to access *(a)* routine diabetes care and *(b)* risk factor monitoring in a single visit; [149017]

(17) whether the South Sefton Primary Care Trust provides foot care clinics for those at high risk of developing lower limb complications. [149022]

Miss Melanie Johnson: This information is not collected centrally. However it can be obtained from the following website: www.drfoster.co.uk/diabetes/objectlist.aspx?obid = 271&w = 1&p = 1.

The website can be accessed via www.diabetes.org.uk.

Down's Syndrome

Mr. Laurence Robertson: To ask the Secretary of State for Health what *(a)* funding and *(b)* other support there is for parents with children with Down's Syndrome; what plans he has to increase *(i)* funding and (ii) other support; and if he will make a statement. [149419]

Dr. Ladyman: Over £3 billion a year is spent on health and social services for people with learning disabilities, including those with Down's Syndrome. People with

Down's Syndrome also use mainstream health and social services and benefit from increased expenditure on those services.

People with Down's Syndrome and their family carers will also benefit from our proposals for improving services for people with learning disabilities, their families and carers as set out in the White Paper "Valuing People: A New Strategy for Learning Disability for the 21st Century" (Cm 5086), published in March 2001. "Valuing People" sets out a comprehensive five year strategy to be implemented by the Government and by local agencies.

The White Paper also announced the creation of two new funds to support its priorities; the Implementation Support Fund (ISF) of £2.3 million a year from April 2001 and the Learning Disability Development Fund (LDDF), comprising of £23.1 million revenue and £20 million capital in 2003–04. Our annual report on learning disability, "Making Change Happen" (HC 514), published in April 2003, announced that the ISF would continue until March 2006. The LDDF will also continue until March 2006.

Families of children with Down's Syndrome have also benefited from Government programmes to support disabled children. As part of the "Quality Protects" (QP) programme, the disabled children's ringfenced grant rose from £15 million last year to £30 million this year. This, along with the yearly rises in the Carer's Grant, is leading to increases in the levels of provision of short term breaks for parents of disabled children. Direct payments were introduced in the Carers and Disabled Children Act 2000; one of the key aims is to give families greater choice and flexibility in how they receive services, including the range of short term breaks. As part of the development of national service framework for children, the Government are considering how best to support the particular needs of families with disabled children, who require flexible services responsive to their particular needs.

The Down's Syndrome Association has been awarded a grant of £28,000 for a two year project, "Planning for a Healthy Life". The project aims to produce web-based information on the specific health issues that need to be taken into account in health action planning for people with Down's Syndrome by medical students, general practitioners and health workers.

People with Down's Syndrome and their family carers will also benefit from the outcome of this project.

Environmental Impact Study

Dr. Kumar: To ask the Secretary of State for Health if he will commission a study on the environmental impact of staff and service users across the NHS. [148316]

Miss Melanie Johnson: It is Government policy that environmental considerations must be properly taken into account in all the activities and services provided by the national health service. It is for each individual hospital trust to undertake environmental impact assessments for the services it provides and the facilities used by its staff and service users.

Health and Social Services (Lincolnshire)

Mr. Simmonds: To ask the Secretary of State for Health how much funding *(a)* in absolute terms and *(b)* per head of population has been made available in (i) Lincolnshire and (ii) England for the provision of adult social services in each year since 1995. [148475]

Dr. Ladyman: The information requested is shown in the table.

Resources provided for adult social services[1]

	Total adult resources (£ million)	*Total per head of population (£)*
Lincolnshire		
1995–96	60	125
1996–97	67	139
1997–98	72	148
1998–99	73	149
1999–2000	78	156
2000–01	82	163
2001–02	88	173
2002–03	105	204
2003–04	114	221
2004–05	121	232
England		
1995–96	5,220	140
1996–97	5,746	154
1997–98	6,081	162
1998–99	6,458	172
1999–2000	6,827	181
2000–01	7,176	189
2001–02	7,701	201
2002–03	8,766	228
2003–04	9,527	246
2004–05	10,117	260

[1] The funding figures include both FSS and grants. The figures include some grants which can be used to support all social care services. These are Carers, Training Support Programme, Human Resources Development Strategy, Performance Fund and National Training Strategy Grants. It is not possible to split these grants between adult and children's services.

Health Services (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health how many people with dementia were in residential care in Lancashire in the last year for which figures are available; and how many people were funded by the NHS. [147856]

Miss Melanie Johnson: There were about 80 people with dementia receiving residential care in Lancashire in 2001–02. Information on the number of people with dementia in residential care funded by the national health service is not available.

Mr. Hoyle: To ask the Secretary of State for Health how many *(a)* doctors and *(b)* nurses work in the *(i)* Preston and (ii) Chorley hospitals; and what the pay costs were for each of the last three years. [147857]

Miss Melanie Johnson: The table shows the numbers and pay costs of doctors and nurses working in Preston and Chorley hospitals for the last three years of available data.

It should be noted that mental health services and acute services in this area were restructured in 2001–02, with some doctors and nurses previously counted within the returns for the acute trusts transferring to other trusts without hospital based care.

Staffing numbers and costs as at September

	Doctors	*Cost*	*Nurses*	*Cost*
2000 01				
Preston Acute Hospitals NHS Trust	355	19,265.4	1,256	26,285.5
Chorley & South Ribble NHS Trust	118	8,311.5	772	20,267.5
Lancashire Teaching Hospitals NHS Trust				
Total cost		27,576.9		46,553.0
2001 02				
Preston Acute Hospitals NHS Trust	348	22,277.1	1,330	30,616.0
Chorley & South Ribble NHS Trust	142	9,091.6	603	17,713.8
Lancashire Teaching Hospitals NHS Trust				
Total cost		31,814.3		53,102.4
2002 03[1]				
Preston Acute Hospitals NHS Trust				
Chorley & South Ribble NHS Trust				
Lancashire Teaching Hospitals NHS Trust	484	34,444.0	1,915	48,746.7
Total cost		36,298.7		74,330.4

[1] 2002 03 cost data is provisional

Department of Health General and Personal Medical Services Statistics

Intermediate Care

Sandra Gidley: To ask the Secretary of State for Health (1) for what reason figures are not available for the number of people who received intermediate care in 2000 01; [148872]

(2) for what reason figures are not available for the number of intermediate care beds there were in 2000 01. [148873]

Dr. Ladyman: The NHS Plan announced targets for intermediate care services in July 2000. A detailed retrospective survey was undertaken by the Department to establish baseline figures for 1999–2000. From April 2001, formalised data collecting began, following the publication of defining criteria in the January 2001 circular (HSC 2001/01: LAC(2001)1).

Lung Cancer

Mrs. Roe: To ask the Secretary of State for Health what steps his Department is taking to improve the *(a)* detection, *(b)* diagnosis and *(c)* treatment of lung cancer; and if he will make a statement. [148060]

Miss Melanie Johnson *[holding answer 20 January 2004]:* Early detection of all cancers improves a patient's chance of survival. In March 2000, "Referral Guidelines for Suspected Cancer" were published and sent to all general practitioners in order to help them identify those patients who are most likely to have cancer, so that they can be referred urgently to a specialist. The National Institute for Clinical Excellence (NICE) is in the process of updating these guidelines. The update is due to be published in February 2005.

In order to ensure that high quality services for cancer patients are provided across the country, the NHS Cancer Plan set out the following broad approach, which addresses the diagnosis process and treatment:

the development of a comprehensive package of guidance ("Improving Outcomes" guidance) on services which are most likely to improve outcomes for different types of cancer;

the translation of this guidance into measurable national standards (the "Manual of Cancer Standards"); and

a national programme of peer review to ensure compliance with these standards.

"Improving Outcomes Guidance on Lung Cancer" was published by the Department in 1998 and lung cancer services were peer reviewed on the resulting standards in 2001. The "Manual of Cancer Standards" is currently being updated and a three-year rolling programme of cancer peer review against this manual is expected to start in autumn 2004. In addition, NICE is preparing clinical guidelines for the national health service in England and Wales for the diagnosis and treatment of lung cancer. This is expected to be published in November 2004. NICE has also appraised four chemotherapy drugs for treatment of lung cancer and is in the process of appraising a fifth.

The work of the Modernisation Agency's Cancer Services Collaborative 'Improvement Partnership' (CSC 'IP') is central to the drive to improve the detection, diagnosis and treatment of lung cancer. A specific goal of the CSC 'IP' is to promote early diagnosis of lung cancer.

In November 2003, the establishment of a Lung Cancer Advisory Group was announced. This group, which will be meeting in March, will be chaired by Professor Mike Richards, the National Cancer Director and will advise on the development and delivery of lung cancer services, including relevant elements of the NHS Cancer Plan.

Merseyside Health Action Zone

Mrs. Curtis-Thomas: To ask the Secretary of State for Health if he will list the projects and their associated funding arising from the Merseyside Health Action Zone (MHAZ) since 1997; what the total amount

allocated to MHAZ is; and how many administrative posts are required to administer the funding. [147938]

Miss Melanie Johnson: A copy of the information requested on Merseyside Health Action Zones (MHAZ) projects and associated funding has been placed in the Library.

The Department does not hold information relating to the number of administrative posts that were required to administer the funding.

NHS Direct

Mr. Burstow: To ask the Secretary of State for Health how many calls relating to colds or influenza were made to NHS Direct in each week in November and December to date, broken down by the age groups *(a)* 0 to 4, *(b)* 5 to 14, *(c)* 15 to 44, *(d)* 45 to 64 and *(e)* 65 years and over. [149084]

Ms Rosie Winterton: The number of calls relating to colds or influenza that were made to NHS Direct in each week in November and December are shown in the table.

	Age groups					
Week	*0–4*	*5–14*	*15–44*	*45–64*	*65+*	*Total—all ages*
2003						
27 October to 2 November	97	129	789	211	110	1,336
3 November to 9 November	95	159	818	235	132	1,439
10 November to 16 November	112	280	820	238	109	1,559
17 November to 23 November	97	240	736	248	113	1,434
24 November to 30 November	92	182	635	217	100	1,226
1 December to 7 December	120	252	646	229	103	1,350
8 December to 14 December	73	129	537	183	84	1,006
15 December to 21 December	61	96	524	192	113	986
22 December to 28 December	85	108	683	290	235	1,401
Total—27 November to 28 December 2003	832	1,575	6,188	2,043	1,099	11,737

The figures provided in the answer are the total number of calls where a NHS Direct nurse has used the cold/flu clinical algorithm. These totals do not include NHS Direct callers with a cold or influenza where the NHS Direct nurse has not used the 'cold/flu' algorithm.

Dr. Kumar: To ask the Secretary of State for Health what figures he has collated on the use of NHS Direct *(a)* broken down by region and *(b)* within the constituency of Middlesbrough, South and Cleveland, East. [148404]

Ms Rosie Winterton: NHS Direct usage figures broken down by NHS Direct site for the last six months (July to December 2003) are shown in the table.

Calls answered by site by month for July 2003—December 2003

Site	*Calls answered*
Anglia	112,024
Avon, Gloucestershire and Wiltshire	127,050
Bedfordshire and Hertfordshire	132,909
East Midlands	199,630
Essex	165,545
Hampshire	146,462
Kent, Surrey, Sussex	211,104
Manchester	210,333
North and Central London	94,865
North East	158,149
North East London	77,912
North West Coast	193,686
South East London	93,783
South West London	74,757
South Yorkshire And South Humberside	120,679
Staffordshire	148,258
Tees, East and North Yorkshire	115,786
Thames Valley and Northamptonshire	136,650
West Country	188,582
West London	133,384
West Midlands	140,232
West Yorkshire	172,411
Grand total	3,154,191

The constituencies of Middlesbrough, South and East, Cleveland are covered by Middlesbrough Primary Care Trust (PCT). For the last six months, NHS Direct Tees, East and North Yorkshire have handled approximately 5,500 calls from patients located in the Middlesbrough PCT area.

Post Mortems

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the scoping study on less invasive approaches to post mortem examination referred to on the Chief Medical Officer's webpage. [148245]

Ms Rosie Winterton: The Chief Medical Officer recommended that research should be commissioned into less invasive forms of post mortem examination. In order to take this work forward a scoping study was commissioned by the Department of Health. This will be published shortly and a copy will then be placed in the Library.

Stroke (Gloucestershire)

Mr. Laurence Robertson: To ask the Secretary of State for Health how many stroke consultants are employed in the NHS in Gloucestershire; what plans there are to increase this number; and if he will make a statement. [149467]

Ms Rosie Winterton: Information for consultants in the specialties cardiology, clinical pharmacology and therapeutics, geriatric medicine, neurology, and rehabilitation medicine within Avon, Gloucestershire and Wiltshire Strategic Health Authority (SHA) is shown in the table.

In line with our policy of shifting the balance of power it is now for primary care trusts, in partnership with SHAs and other local stakeholders, to determine how

best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community. I am informed by Avon, Gloucestershire and Wiltshire SHA that there are no current plans for the recruitment of additional stroke consultants in Gloucestershire.

Hospital, Public Health Medicine and Community Health Services (HCHS): Consultants within Avon, Gloucestershire and Wiltshire SHA by organisation and specified specialties

Tuna (Mercury Contamination)

Norman Baker: To ask the Secretary of State for Health (1) what assessment his Department has made of research undertaken by the US Food and Drug Administration into mercury contamination of tuna; [148591]

(2) what advice his Department gives to consumers on the consumption of tuna, with particular reference to mercury content. [148593]

Miss Melanie Johnson: The Food Standards Agency advises that pregnant and breast-feeding women, and women who intend to become pregnant, should limit their consumption of tuna to no more than two medium size cans (drained weight approximately 140 g.) or one fresh tuna steak per week as a precaution due to the mercury content. Other consumers do not need to limit their consumption of tuna. This is in line with advice issued by the US Food and Drug Administration on fish consumption, based on surveys of the mercury content of fish.

HOME DEPARTMENT

Anti-Social Behaviour

Mr. Ben Chapman: To ask the Secretary of State for the Home Department what representations he has received regarding anti-social behaviour over Halloween. [145344]

Ms Blears: I have previously received a few representations about anti-social behaviour over the Halloween period. In particular the issues surrounding the increase of Trick or Treating by children.

The majority of children enjoy Halloween without causing problems to their community.

Where any individual causes anti-social behaviour at any time of year we are determined that their behaviour is challenged and stopped, and we have provided the tools to ensure this happens.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) which provisions of the Anti-social Behaviour Act 2003 will be brought into force on (*a*) 20 January and (*b*) 27 February; [149104]

(2) what steps he has taken to ensure that Chief Constables and the Crown Prosecution Service are fully aware of the Anti-social Behaviour Act 2003 provisions that come into force on (*a*) 20 January and (*b*) 27 February; [149105]

(3) when the timetable giving the dates for commencement of the sections of the Anti-social Behaviour Act 2003 that are not yet in force will be published; and which sections of the Anti-Social Behaviour Act 2003 have not yet been subject to commencement orders. [149106]

Ms Blears: We published "Together-Tackling Anti-Social Behaviour: A Guide to the Anti-Social Behaviour Act 2003" on 20 January 2004. This explains the Act's contents, how it can be used to deal with the anti-social behaviour and provides commencement dates for all measures in the Act. Copies of the Act will be sent to all Chief Constables in England and Wales and to the Crown Prosecution Service. Copies have also been sent to all Members of Parliament today.

Burglars

Mrs. Gillan: To ask the Secretary of State for the Home Department what proportion of burglars who are convicted in each of the areas of England and Wales are sentenced to prison. [147366]

Paul Goggins: The information requested is contained in the table.

Courts will approach the decision to sentence for offences of burglary on the basis of guidelines issued by the Court of Appeal in December 2002 and the Magistrates' Courts Sentencing Guidelines issued by the Magistrates' Association (most recent version effective from 1 January 2004). These Guidelines assist the courts in adopting a consistent approach. The new Sentencing Guidelines Council will take on responsibility for these guidelines and for monitoring the way in which the guidelines are used in order to ensure that there is a common approach to sentencing.

Number of persons sentenced for burglary[1] at all courts and those sentenced to immediate custody, by police force area, England and Wales 2002

Police force area	*Total persons sentenced for burglary*	*[2]Persons sentenced to immediate custody*	*Percentage sentenced to immediate custody*
Avon and Somerset	695	379	55
Bedfordshire	224	131	58
Cambridgeshire	335	174	52
Cheshire	500	288	58
Cleveland	677	377	56
Cumbria	253	120	47
Derbyshire	533	290	54
Devon and Cornwall	526	188	36
Dorset	244	131	54
Durham	432	217	50
Essex	434	230	53

[1] These data are on the principal offence basis

[2] Detention and training order, detention in a young offender institution, detention under secs 91/92 of the Criminal Courts (Sentencing) Act 2000 and unsuspended imprisonment.

Coroner's Court Hearings (South Gloucestershire)

Steve Webb: To ask the Secretary of State for the Home Department if he will ensure that coroner's court hearings affecting residents of South Gloucestershire will take place at locations convenient for residents of South Gloucestershire; and if he will make a statement. [148620]

Paul Goggins *[holding answer 19 January 2004]:* Any decision to hold an inquest at a particular location is a matter for the coroner concerned. I understand that following the closure of the coroner's court in Bristol the office has transferred to a site in Long Ashton. However, the inquest may be held at other locations subject to the needs of those wishing to attend and availability of accommodation.

Crime (North-West)

Mr. Woodward: To ask the Secretary of State for the Home Department how many incidents of (*a*) theft and (*b*) robbery of school property there were in (i) St. Helens, (ii) Merseyside, (iii) the north west region and (iv) England in each year since 1997. [147168]

Ms Blears: The Home Office does not collect information on the type of location for recorded crimes, except where it is implicit in the crime type (e.g. theft from a shop, or shop-lifting). It also does not collect information on ownership of property stolen. For these reasons, numbers of robberies and thefts involving school property are not collected separately.

Disability Discrimination Act

Tim Loughton: To ask the Secretary of State for the Home Department what incentives he is giving trusts to stay within the requirements of the Disability Discrimination Act 1995 not to discriminate against deaf people in terms of equitable access. [147695]

Dr. Ladyman: I have been asked to reply.

Trusts are responsible for fulfilling the requirements of the Disability Discrimination Act 1995 (DDA), including the provision of equitable access for deaf people. There are a number of means by which the Department and others continue to help them.

In 1999, the National Health Service Executive issued management guidance to NHS trusts, health authorities and primary care groups in implementing Part III of the DDA and a guide "Doubly Disabled" was published to increase managers' and staff's awareness of disabled people.

Currently, the Department is developing with the Disability Rights Commission a framework for partnership action on disability, which identifies key areas for joint action. This will deliver real improvements for disabled people as users and providers of health and social care. Access and communication has been identified as a priority and the Department is establishing a working group to oversee a range of initiatives on access, including the production of sector-specific guidance on good practice, and a programme to promote awareness of the access duties set out in the DDA. The NHSU is also working closely with the Disability Rights Commission and others to develop a framework and programme to address training on disabilities issues in health and social care.

Ford Open Prison

Mr. Gibb: To ask the Secretary of State for the Home Department how many prisoners absconded from Ford Open Prison in each year since 1990. [146473]

Paul Goggins: Information is available from 1992. The information recorded at Prison Service headquarters on the reported numbers of absconds from HMP Ford is set out in the following table:

Year	*Number of prisoners absconding from HMP Ford*
1992	59
1993	39
1994	40
1995	20
1996	46
1997	51
1998	41
1999	56
2000	69
2001	50
2002	86
2003	127

Figures are as recorded on the Prison Service incident reporting system and may not be entirely reliable, particularly prior to 1998 when changes were made to the electronic database.

Forensic Science Service

Mr. Hoyle: To ask the Secretary of State for the Home Department what proportion of the Forensic Science Service is contracted out to private operators in *(a)* Lancashire, *(b)* Cumbria, *(c)* Cheshire, *(d)* Greater Manchester, *(e)* Merseyside and *(f)* North Wales in 2003–04. [148212]

Ms Blears: The Forensic Science Service (FSS) has not contracted out any work received from the named police forces to private sector forensic service providers in the financial year to date.

Home Detention Curfew Scheme

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the effectiveness of the Home Detention Curfew. [148890]

Paul Goggins: The operation of the Home Detention Curfew (HDC) scheme is monitored on a weekly basis. Between January 1999, when the scheme was introduced, and 9 January 2004, over 86,000 prisoners have been released under the Home Detention Curfew scheme. At any one time about 3,600 low risk prisoners, who would otherwise be filling prison places, are serving the last part of the custodial portion of their sentence on HDC.

Since the scheme began 90 per cent. of those granted HDC have completed their curfew period without any problems at all and 2 per cent. are reported as having been convicted, cautioned or are awaiting prosecution for an offence committed whilst subject to HDC.

In addition, the Home Office published an evaluation of the operation of the first sixteen months of the scheme in June 2001 (Home Office Research Study 222: "Electronic Monitoring of released prisoners: an evaluation of the Home Detention Curfew scheme").

I am satisfied that the scheme continues successfully to provide suitable prisoners with a smoother and more effective re-integration back into the community by enabling them to be released from prison early while still subject to restrictions placed on their liberty.

Mrs. Gillan: To ask the Secretary of State for the Home Department further to his written statement of 14 January, *Official Report*, column 31WS, what other recent exceptional cases may be deemed unsuitable for the Home Detention Curfew Scheme. [149304]

Paul Goggins *[holding answer 20 January 2004]:* No cases have, so far, been referred to the Chief Executive, of the National Offender Management Service. The

policy will apply to any case where the applicant for Home Detention Curfew has been involved in a notorious crime or crime of concern to the public, where release would bring the scheme in to disrepute. Prisoners affected by this change will be able to make representations supporting their release to the Chief Executive of NOMS.

We expect that only a small number of cases will be referred to the Chief Executive.

Imprisonment (Costs)

Mr. George Osborne: To ask the Secretary of State for the Home Department what the total cost to public funds of the imprisonment of Sally Clarke, Angela Cannings and Trupti Patel has been. [144523]

Paul Goggins: The Prison Service does not maintain information on the cost of imprisonment of specific prisoners. However, as an alternative it is possible to provide the average cost of keeping a prisoner in the establishments in which the particular prisoners referred to in this question served their sentences. This suggests that the total cost to public funds of the imprisonment of Sally Clarke was in the region of £111,000. The cost of detaining Angela Cannings was approximately £57,000.

Trupti Patel did not spend time in prison custody, as she was bailed upon charge and subsequently acquitted.

Juvenile Prisoners

Mr. Oaten: To ask the Secretary of State for the Home Department what measures are in place to ensure that juvenile prisoners are fed adequately while being transported from court to prison. [144358]

Paul Goggins: Escort contractors have a contractual responsibility to provide meals to all prisoners, including juveniles, who are in their custody between 11:30 hours and 14:00 hours; and also in circumstances, such as a late court sitting, which would result in prisoners arriving at the prison after mealtime. The contract requires that meals must be sufficient to sustain the prisoners and meet dietary needs.

Mr. Liton Miah

Dr. Jack Cunningham: To ask the Secretary of State for the Home Department for what reasons the application by Mr. Liton Miah for a work permit under the business and commercial arrangements on Form WP1 (REF ISCO/BO 69511) was refused on the grounds that he was of too high a level of skill; for what reasons he was subsequently refused after applying for a work permit under the sector based schemes on the grounds that he was of too low a level of skill (REF DWA/BO 69511); and if he will make a statement. [144082]

Beverley Hughes *[holding answer 17 December 2003]:* I wrote to my right hon. Friend on 22 January 2004.

Police National Computer

Harry Cohen: To ask the Secretary of State for the Home Department how many updates of the Police National Computer took place in each of the last three years; how many people are authorised to insert, delete or change data on the Police National Computer; what checks are in place to ensure the accuracy of *(a)* data changes and *(b)* the data held; and if he will make a statement. [148414]

Ms Blears: The number of updates of the Police National Computer for the past three years is as follows:

	Number
2001	14,733,611
2002	15,185,975
2003	15,194,333

I regret that information on the number of people authorised to insert, delete or change data on the Police National Computer is not available. It is the responsibility of the Chief Officer of each police force to make the necessary arrangements.

It is also the responsibility of Chief Officers to have in place checking processes to ensure the accuracy of the data held and any changes that are made to it. All the Forces are inspected by Her Majesty's Inspectorate of Constabulary to ensure compliance with the Association of Chief Police Officers and Police National Computer Compliance Strategy. The Chief Constables' Council agreed the strategy on 27 April 2000. The Compliance Strategy sets a number of standards that forces are required to meet, in particular the entering of data on to the Police National Computer in a timely manner.

Prison Officers (Industrial Action)

Mrs. Iris Robinson: To ask the Secretary of State for the Home Department what steps he is taking in response to the decison by prison officers across the United Kingdom to take industrial action in support of their Northern Ireland colleagues. [147196]

Paul Goggins: Following detailed negotiations, the dispute between the Northern Ireland Prison Service and the Prison Officers' Association (POA) has been successfully resolved as a result, the threat of industrial action by POA members in England and Wales has been lifted.

Prisons

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures are in place to tackle bullying of prisoners by other inmates. [149101]

Paul Goggins: Prison Service Order 1702, Anti-Bullying Strategy, contains mandatory instructions to Governors to ensure that all prisons implement and maintain locally an appropriate, advertised anti-bullying strategy. The strategy must aim to prevent bullying behaviour and to address it constructively where it occurs.

It is mandatory for establishments to appoint an anti-bullying co-ordinator, who is responsible for monitoring that the nature and extent of bullying in the prison. They examine a number of factors including the number of requests to move wing and the number of applications to the Independent Monitoring Board, number of assaults. They are obliged to complete at least once every two years.

Unless the prison is particularly small, it is expected that establishments set up a multi-disciplinary anti-bullying committee that meets regularly and makes links with other related areas such as suicide prevention or the Incentives and Earned Privileges Scheme.

Reducing violence, in all its forms, is fundamental to the objectives of the Prison Service. By constructively and consistently taking action to prevent violence and promote fairness and decency, prisons can offer a structured environment in which to influence future behaviour, encourage positive communication and develop social skills that assist offenders with rehabilitation. Further, maintaining a safe environment reduces stress and anxiety, and promotes individual, organisational and public confidence.

Problems of inter-prisoner violence and bullying are being addressed through development of a Service-wide Violence Reduction Strategy. By the summer of 2004, each prison will have in place a local violence reduction strategy appropriate to needs. Intranet toolkits will help establishments to develop practical solutions, including environmental and physical measures as well as alternatives for behaviour management. Specific issues such as racism, substance misuse, violence, verbal abuse and various types of bullying will be covered with good practice examples. A whole prison approach will be encouraged, with the aim of reducing violence and fear of violence. A focus on personal safety, supporting victims, and repairing the physical and emotional harm caused by violence or abuse, will link closely with the suicide prevention strategy.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the cost is of keeping someone in prison per day. [148886]

Paul Goggins: The average cost per day of each prisoner during the financial year 2002–03 was £99.36. This figure covers the whole of the prison system, including public sector and contracted prisons, as well as an element of headquarters overheads.

The cost per prisoner varies according to the security of each prison establishment and other factors such as the gender and age of the prisoner. The range of daily costs for 2002–03 was £119 to £54, with the highest being for the High Security estate and the lowest for the Category C estate, which tends to hold a more settled population.

Rehabilitation Programmes

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what number and what percentage of short-term prisoners completed a fast track rehabilitation programme during their time in prison in each of the last five years; and what plans he has to increase this percentage over the next two years. [148908]

Paul Goggins: Information is not collected specifically on treatment provision by length of stay in prison. There is currently no system to "fast track" prisoners onto rehabilitation programmes. A short duration drug treatment programme is to be piloted in April 04, giving access to short term and remand prisoners. Detoxification is available immediately on reception into prison.

The Street Crime Initiative makes provision for prisoners to be fast tracked into drug treatment interventions. This includes CARAT services (Counselling, Assessment, Referral, Advice & Throughcare), as well as detoxification. From April-November 2003, 2,453 prisoners were referred to CARATs. Of those, 1951 were appropriate referrals, 1,807 received an initial assessment and 898 received detoxification.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has to extend the FOR rehabilitation programme which ran in South Wales to other areas. [148909]

Paul Goggins: The FOR resettlement programme for short-term prisoners is currently in development and being piloted in two establishments. The Prison Service will be seeking the advice of the Correctional Service Accreditation Panel on the programme and will take decisions about extending it to other areas in the light of the advice provided and resourcing available.

Scottish Police

Mr. Tynan: To ask the Secretary of State for the Home Department how many Scottish police officers are seconded to or are serving in a permanent capacity with UK-wide police bodies. [147524]

Mrs. McGuire: I have been asked to reply.

There are 23 Scottish police officers on secondment to the National Criminal Intelligence Service. Information is not held centrally on the number of Scottish officers seconded to or serving in other UK-wide police bodies such as the Police Information Technology Organisation and the Police Scientific Development Branch.

Terrestrial Trunked Radio

Mr. Chidgey: To ask the Secretary of State for the Home Department what research into the health and safety issues of terrestrial trunked radio his Department has collated since July 2001. [149196]

Ms Blears: On the recommendation of independent experts, the Home Office set up a comprehensive programme of work on TETRA health issues. The Home Office also funds TETRA-related research as an adjunct to the Mobile Telecommunications Research Programme co-ordinated by the Department of Health.

TETRA was found to have no effect on calcium exchanges in cells—the main concern of the Stewart report. Independent checks confirm that TETRA equipment fully conforms with health and safety regulations. Longer-term human volunteer studies are under way.

Mr. Chidgey: To ask the Secretary of State for the Home Department if he will commission further research into the health and safety issues of terrestrial trunked radio masts. [149197]

Ms Blears: The Government have no plans to commission any further research into the effects of Terrestrial Trunked Radio (TETRA) masts.

The National Radiological Protection Board's independent Advisory Group on Non-ionising Radiation (AGNIR) has recently published a report on "Health effects from radiofrequency electromagnetic fields". The report confirms that there is no reason to believe that signals from TETRA base stations should be treated differently from those from other base stations. The AGNIR experts do not suggest any further research on TETRA masts.

Independent checks of the TETRA masts used by the new police radiocommunications system, Airwave, have confirmed that they fully comply with international health and safety guidelines.

Young Offender Institutions

Mr. Oaten: To ask the Secretary of State for the Home Department how many children in *(a)* Stoke Heath and *(b)* Onley Young Offender Institutions have been placed in the segregation units of those Institutions since January; and for how long in each case. [144360]

Paul Goggins: Data on the number of children held in segregation at Stoke Heath and Onley Young Offender Institutions from January to November 2003 are shown in the following tables. This has been split to show the number of times the segregation unit was used for *(a)* less than seven days, *(b)* for longer than seven days and *(c)* for longer than 28 days during this period.

Data on Stoke Heath Young Offender Institution in 2003

	Number of Juveniles		
Month—2003	*Held for less than 7 days*	*Held for longer than 7 days*	*Held for longer than 28 days*
January	19	7	0
February	17	8	0
March	15	7	0
April	6	13	0
May	9	7	0
June	11	6	0
July	13	8	0
August	8	0	0
September	8	7	0
October	2	18	0
November	0	10	0

Data on Onley Young Offender Institution in 2003

	Number of Juveniles		
Month—2003	*Held for less than 7 days*	*Held for longer than 7 days*	*Held for longer than 28 days*
January	10	3	0
February	24	0	0
March	17	0	0
April	13	2	1
May	43	8	0
June	12	8	0
July	21	9	0
August	11	9	0
September	9	12	0
October	28	39	1
November	17	7	0

Mr. Oaten: To ask the Secretary of State for the Home Department what arrangements are made to provide juvenile female prisoners with clothing. [144366]

Paul Goggins: All young women under the age of 18 in custody wear their own clothing. However, every young woman received into custody automatically receives items of underwear and nightwear. If a young woman does arrive in custody with insufficient clothing she will be given additional clothing provided by the establishment.

CONSTITUTIONAL AFFAIRS

Departmental Minutes

Mr. Gordon Prentice: To ask the Parliamentary Secretary, Department for Constitutional Affairs in what circumstances decision-making meetings between civil servants and ministers are not minuted; and if he will make a statement. [148400]

Mr. Leslie: Detailed policies and procedures for the creation and management of all records relating to government business are the responsibility of the department concerned. However, the National Archives has a supervisory role in ensuring the safe-keeping of historical value. In this connection the National Archives has issued 'guidance on the management of private office papers', which is available on those records which, once created, are likely to be of enduring its website at: http://www.pro.gov.uk/recordsmanagement/standards/privateoffice.htm

Sentencing Decisions

Vera Baird: To ask the Parliamentary Secretary Department of Constitutional Affairs what the Appeal Court must conclude for a sentence to be reduced. [145969]

Mr. Leslie: Section 11(3) of the Criminal Appeals Act 1968 provides that an appeal may be allowed against sentence if the appellant may be sentenced "differently" from the way in which he was sentenced in the Crown Court. The Court of Appeal (Criminal Division) will always interfere and quash a sentence if it considers it "manifestly excessive". In addition there are a number of other reasons why an appeal against sentence may succeed. Circumstances between the date of sentence and the hearing of the appeal may change. For example, the CACD may be provided with information about help given by the individual defendant to the prosecuting or prison authorities, which justifies a reduction in sentence. The CACD itself often seeks and is provided with reports from prison, which may give grounds for concluding that although the sentence imposed at the Crown Court is not open to criticism, the sentence has had the necessary impact, and is no longer appropriate. This is of particular importance where the offender is young and his rehabilitation may progress more rapidly if, having served some time in custody, a community sentence was now imposed on him. Changes in relation to sentencing policy may also affect the result of a sentence appeal, where, for example, new "guidelines" have been provided after the sentence was imposed. Other circumstances which may affect the decision of the CACD include sentences imposed following procedural errors, or those which may create a justifiable sense of grievance because of sentences passed on other defendants.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many appeals *(a)* against sentence and *(b)* against conviction have been (i) successful and (ii) allowed in each of the last five years as a percentage of the total number of committals for trial for (A) the crown court and (B) magistrates court; [146017]

(2) how many sentencing decisions were made by each judge in the *(a)* crown court and *(b)* Court of Appeal in each of the last five years; [146060]

(3) how many sentencing decisions each serving circuit judge in England and Wales made in each of the last five years. [146061]

Mr. Leslie: We do not have this information in the form requested. We do not measure how many sentencing decisions individual judges make, and this will vary according to the types of case they deal with and the complexity and length of cases they hear. There are currently 604 Circuit Judges, Senior Circuit Judges and equivalents, and 1,326 Recorders; not all of whom sit in criminal cases.

In the five years to 2002, the Crown Court dealt with the following committals for trial or sentence:

Committals for trial

	Receipts	*Disposals*
1998	75,815	77,794
1999	74,232	73,539
2000	71,022	72,762
2001	80,551	75,565
2002	83,449	81,776

Committals for sentence

	Receipts	*Disposals*
1998	29,774	28,224
1999	31,928	30,641
2000	27,591	28,713
2001	25,960	25,717
2002	28,837	28,235

In the same period the Court of Appeal (Criminal Division) heard the following full appeals, excluding applications for leave to appeal which were dismissed. It should be tooted that cases heard in the Court of Appeal in a given year may well not have been heard by the Crown Court in the same year.

	Conviction		*Sentence*		*Retrials ordered*
	Allowed	*Dismissed*	*Allowed*	*Dismissed*	
1998	290	403	1,589	609	73
1999	171	380	1,564	614	70
2000	150	333	1,284	522	72
2001	135	313	1,101	561	58
2002	166	319	1,302	500	50

In the same period criminal proceedings were commenced in the magistrates' courts against the following numbers of defendants. These figures include all criminal prosecutions commenced, whether or not they were contested or proceeded to a full trial.

Year	
1998	1,951,915
1999	1,881,765
2000	1,904,677
2001	1,837,733
2002	1,924,828

In the same period the Crown Court heard the following numbers of appeals. These did not necessarily relate to prosecutions in magistrates' courts in the same year. These figures do not include appeals from the magistrates; courts to the High Court by way of case stated.

Appeals

	Receipts	*Disposals*
1998	16,278	16,473.
1999	15,413	15,381
2000	13,902	14,359
2001	12,596	12,679
2002	11,910	11,940

Correspondence

Mr. Allen: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he expects to write to the hon. Member for Nottingham, North to fulfil the undertaking given by his hon. Friend, 13 January 2004, *Official Report*, column 666. [149582]

Mr. Lammy: My letter of 15 January informed my hon. Friend that this is a matter for my hon. Friend the Under-Secretary of State for Trade and Industry (Nigel Griffiths), who has agreed to write in response to the points raised on 13 January.

Mr. Burns: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he will reply to the letter from the hon. Member for West Chelmsford of 21 October 2003 concerning Ms B. Quinn of Chelmsford. [149827]

Mr. Leslie: Lord Filkin wrote on 16 January 2004 to the hon. Member for West Chelmsford in response to his letter of 21 October 2003. I apologise for the delay, unfortunately administrative errors prevented an earlier reply.

Divorce

Mrs. Iris Robinson: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will take steps to standardise divorce court proceedings in England, Wales and Northern Ireland. [149616]

Mr. Leslie: Northern Ireland is a separate jurisdiction from England and Wales for the purposes of divorce proceedings. Provisions are in place for the mutual recognition of orders and the provision of financial relief as between the jurisdictions. Under the provisions of section 44 of the Family Law Act 1986 orders for divorce, nullity or judicial separation granted in one jurisdiction are recognised in the other. Under the provisions of the Matrimonial and Family Proceedings Act 1984 and the Family Proceedings (Northern Ireland) Order 1989 applications for financial relief can

be made in either jurisdiction in respect of divorces panted in the other. There is also provision for the reciprocal enforcement of maintenance orders.

There are no plans to standardise divorce law in England and Wales and Northern Ireland.

Expert Witnesses

Mrs. Anne Campbell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of criminal cases were overturned on appeal in each of the last five years; and what proportion involved evidence from expert witnesses. [147186]

Mr. Leslie: Figures showing *(a)* the number of defendants convicted in the lower courts, *(b)* those that appealed to the higher courts either against conviction and/or sentence and *(c)* the number of appeals allowed or varied are provided in the following tables. Information relating to the involvement of expert witnesses in criminal cases is not collected centrally and can be provided only at disproportionate cost.

Court of Appeal

	Convicted in the Crown court	*Lodged appeal*	*Conviction quashed or sentence varied*	*Appeal allowed as percentage of those convicted*	*Appeal allowed as percentage of appeals lodged*
1998	63,585	8,649	1,921	3.0	22.2
1999	57,615	8,274	1,690	2.9	20.4
2000	56,130	7,840	1,385	2.5	17.7
2001	55,164	7,440	1,202	2.2	16.2

Judges

Vera Baird: To ask the Parliamentary Secretary Department for Constitutional Affairs (1) whether the Department keeps centralised records for each serving Circuit Judge of the number of successful appeals on their *(a)* sentencing and *(b)* conviction; [145970]

(2) what process is in place *(a)* to monitor how many times a judge is known to have been successfully appealed against and *(b)* to investigate the reasons for the appeals to find out whether they are (i) on the basis of circumstances beyond the knowledge of the judge at the time the sentence was passed and (ii) on the basis of inappropriate sentences given; [146016]

(3) what action would be taken in the event that *(a)* a judge had been successfully appealed more than 50 times in six or seven years, *(b)* a judge had been found to have been unduly lenient in relation to the same kind of offence on four separate occasions and *(c)* a judge had been criticised for pressurising counsel on more than one occasion; [146069]

(4) what systems are in place to ensure that circuit judges are accountable for their professional performance. [146073]

Mr. Leslie: Judicial decisions are taken and explained in public (save where the circumstances of a case demand confidentiality) and any decision which a judge makes is liable to be scrutinised, and if necessary overturned, on appeal, which is also a public process. Judges are therefore fully accountable for their judicial decisions through the appeal system.

Judges are not, however, accountable through a political process for the decisions they take, as this would not be consistent with judicial independence. The Lord Chancellor and Secretary of State therefore does not monitor appeals against decisions made by individual judges, and it is not his role to intervene in judicial decisions or consider complaints about judicial decisions.

A successful appeal to a higher court does not of itself provide a basis for criticism of the trial judge. There are many reasons why an appeal may succeed. Where the Court of Appeal does record criticism of the trial judge, however, the judgment is given publicly and is available to representatives of the media as well as the public. It is always sent to the judge concerned, and where there is any reason for concern about the conduct of the judge it is sent to the relevant Presiding Judges. From time to time where it is thought that judges are not performing adequately they may be given advice and guidance, or training, or different workloads or types of workload by the responsible senior judiciary. Lord Justice Judge, the Deputy Chief Justice, is currently considering improvements to this procedure.

In cases where a judge's personal conduct (as opposed to his decision) is seriously criticised in an appeal decision, the Presiding Judges may decide to refer the matter to the Lord Chancellor and the Lord Chief Justice to consider. The Lord Chancellor is also able to consider complaints from the public about the personal conduct of judges.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what plans the Secretary of State has to introduce a system of formal appraisal and scrutiny of circuit judges' performances; [146057]

(2) whether the plans to widen the scrutiny, formal appraisal and accountability of judges will include scrutiny by, and accountability to, a body or panel which includes non-judges. [146062]

Mr. Leslie: A system of formal appraisal has been introduced for holders of certain part-time judicial posts. Consideration is now being given to extending appraisal to the remaining part-time posts including recorders. Formal appraisal is also being introduced for certain full time tribunal judges.

The aim of any appraisal scheme is not to question judicial decisions but to observe the conduct of the judicial process and to consider, positively and constructively with a judge, their approach to and

handling of cases. It is important, in order to maintain the independence of the judiciary and to ensure that appraisal is expert and informed, that it should be undertaken by judges. There are no plans to widen appraisal to include a body or panel which includes non-judges.

The Lord Chancellor has no current plans to extend formal appraisal more widely. In relation to circuit judges, the presiding judges of each circuit are of course in a position to raise with them any concerns about their performance.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) whether a judge may be removed from office for inappropriate sentencing; [146058]

(2) what criteria are used to define misconduct and inability in relation to the removal of judges from office; and whether either category includes a pattern of inappropriate sentencing by a judge; [146064]

(3) what sanctions may be taken against circuit judges whose professional performance regularly falls below acceptable standards; [146065]

(4) what disciplinary procedure is followed in the event that a judge continuously sentences inappropriately. [146074]

Mr. Leslie: In order to ensure their independence judges hold office during good behaviour. Judges of the High Court and above may only be removed by Her Majesty the Queen on an address from both Houses of Parliament. Circuit judges and below may be removed from office by the Lord Chancellor only for incapacity or misbehaviour.

What constitutes incapacity or misbehaviour would be a matter for decision in a particular case. However, the mere fact of having made decisions which had been reversed on appeal could not be said to constitute incapacity or misbehaviour.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) whether the Lord Chancellor has received complaints in relation to the use by judges of wasted costs orders; [146059]

(2) whether his Department keeps records of wasted costs orders imposed against barristers or solicitors. [146063]

Mr. Leslie: We have no record of receiving such complaints and keep no such records. A wasted costs order is an order of the court, and can only be challenged on appeal, not by complaining to the Lord Chancellor.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs which circuit judges are authorised to hear child custody cases; and whether any have had authorisation withdrawn because of concerns over their ability to handle such cases. [146066]

Mr. Leslie: 321 circuit judges hold 'private law authorisations' which enable them to deal with child contact and residence and other related matters. Authorisations are granted and withdrawn for a variety of reasons—most commonly they are withdrawn when the judge concerned no longer hears family cases by virtue of a changing role—such as becoming a designated civil judge for a court.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how the attention of the Lord Chief Justice is drawn to the suitability of a circuit judge to try rape cases; [146067]

(2) whether any circuit judges have had their rape case authorisation withdrawn because of concerns over their ability to handle such cases sensitively; [146068]

(3) which circuit judges hold a rape case authorisation authorising them to hear cases involving rape and other class 2 crimes; [146071]

(4) how many and which circuit judges and recorders have undergone additional specialist training that enables them to hear cases involving rape and other serious sexual offences; [146075]

(5) how the *(a)* effectiveness and *(b)* suitability of specialist training given to circuit judges and recorders is monitored. [146077]

Mr. Leslie: 471 circuit judges and recorders have undergone the additional specialist training that enables them to hear cases of rape and other serious sexual offences.

The authorisation of individual circuit judges to try rape and other serious sexual offences is made by the senior presiding judge on behalf of the Lord Chief Justice. Such judges are identified by the presiding judges of each circuit. The judge must have wide and significant experience of the criminal justice system, and must have demonstrated the necessary sensitivity for these cases. Before dealing with these cases, specialist training is provided for them by the Judicial Studies Board.

The withdrawal of a rape authorisation is decided by the Lord Chief Justice personally. The authorisation was withdrawn when the Court of Appeal criticised the way in which a trial judge had summed up a rape case to the jury. Such cases will no longer be listed before another judge who appears persistently to have ignored sentencing guideline decisions in such cases. For at least the last five years no authorisation has been withdrawn because of general concerns over any authorised circuit judge's ability to handle such sensitive cases. If there were evidence to suggest any lack of appropriate sensitivity it would be drawn to the attention of the Lord Chief Justice either by the Court of Appeal (Criminal Division) or by presiding judges or through the media, or by way of complaint.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many complaints against judges the Lord Chancellor has heard in each of the previous five years; and what details of these complaints and the outcome are publicly available; [146070]

(2) what *(a)* complaints and *(b)* disciplinary procedures will be put in place after the abolition of the post of Lord Chancellor. [146076]

Mr. Leslie: The Lord Chancellor typically receives between 1,000 and 1,200 complaints about judges each year. The majority of these turn out to be complaints

against judicial decisions and the complainant is advised that the appropriate remedy is by way of appeal. Those complaints which appear to relate to judicial conduct are investigated and both the complainant and the judge concerned are informed of the outcome. However, the results of this disciplinary process are not normally publicised more widely. Since May 1997, 27 judges have been reprimanded by the Lord Chancellor. These have included one High Court judge, 11 circuit judges, eight district judges, five recorders, and two deputy district judges.

The Lord Chancellor is currently considering the future arrangements for judicial complaints and discipline and hopes to be in a position to announce these shortly.

Public Defender Service

Mr. Garnier: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the set up costs were of each of the Public Defender Service's pilot offices; [149439]

(2) what assessment *(a)* he and *(b)* the Legal Services Commission has made of the average cost per case arising from the Public Defender Service's handling of criminal defence work in (i) 2001–02 and (ii) 2002–03; [149440]

(3) what assessment *(a)* he and *(b)* the Legal Services Commission has made of the Public Defender Service's performance; and how this has informed decisions regarding the extension of those pilots. [149441]

Mr. Lammy: The set up costs of the Public Defender Service (PDS) were as follows: Birmingham £193,312; Cheltenham £221,054; Darlington £126,867; Chester £175,225; Liverpool £141,663; Middlesbrough £166,479; Pontypridd £108,754; Swansea £254,014; Central £419,346. Total £1,806,714. These costs were reported in the first two PDS Annual Reports. Individual office costs include refurbishment, furniture, some IT hardware, software, office equipment and security systems. Central costs include purchase of case management system, integration into the Legal Services Commission (LSC) IT network, recruitment and induction.

Assessment of the average cost per case in the PDS is one element of an extensive Methodology (the Methodology Paper can be found at www.legalservices.gov.uk or available on request) developed by the independent research team. The researchers began to collect data at the beginning of the second year of the four-year pilot and are due to report in 2005. A full assessment of average case costs will not be possible until all the research has been completed. In part, this is because the offices need to develop foil caseloads in order for the assessment to be undertaken. All offices began with no clients and full case loads can only be developed over time.

The Department monitors the PDS by way of monthly reports from the LSC on the PDS and regularly meets with the LSC and the researchers. In order to better assess the performance of (he PDS the LSC, with the agreement of Ministers, increased the number of PDS offices from six to eight in 2003. Ministers will make a decision on the future of the PDS in the light of the research at the end of 2005. There are no current plans to open further offices but the Government and the LSC have always said that the PDS provides a flexible option to deliver criminal defence services where existing provision is low, or of poor quality.

Sentencing Policy

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent action has been taken to ensure consistency in sentencing; and what further action is planned. [146072]

Mr. Leslie: The Court of Appeal Criminal Division has issued sentencing guidelines in particular types of cases for over 20 years. They are widely publicised in legal journals and law reports. These decisions are also disseminated by the Judicial Studies Board during its regular seminars.

The Criminal Justice Act 2003 establishes the Sentencing Guidelines Council which will take over the Court of Appeal's present responsibility for issuing sentencing guidelines. Parliament will have a role in considering and scrutinising the draft guidelines drawn up by the Council.

The Council will be chaired by the Lord Chief Justice. It will have seven judicial members, drawn from every tier of court that deals with sentencing in criminal cases, and four non-judicial members (with experience of policing, criminal prosecution, criminal defence and the interests of victims). The Home Secretary will also appoint as an observer a person with experience of sentencing policy and the administration of sentences.

In every individual case, the judge or magistrate will continue to make his or her own decision as to sentence, but will be required to have regard to the Council's guidelines.

Video Equipment

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs, what system is in place to assess the impact of the quality of video facilities on the relative quality of evidence given in a case. [147669]

Mr. Leslie: An ongoing evaluation of all aspects of Special Measures provisions, including TV links, is being conducted by the Home Office. A report is due to be published by September 2004. Following visits to a number of courts and interviews with witnesses, initial findings have indicated that the new arrangements have been positively received and the quality of equipment is not an issue.

Voter Registration

Mr. Wyatt: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many *(a)* asylum seekers and *(b)* illegal immigrants are registered to vote. [148734]

Mr. Leslie: This information is not collected. Such persons are not eligible to register to vote, with the exception that a person from a Commonwealth country

who has leave to enter or remain in the United Kingdom and subsequently claims asylum may register to vote until that existing leave ceases.

DEPUTY PRIME MINISTER

Fire and Rescue Service

Mr. Bercow: To ask the Deputy Prime Minister what research relating to Buckinghamshire he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149567]

Mr. Flook: To ask the Deputy Prime Minister what research relating to Somerset he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149276]

Mr. Gray: To ask the Deputy Prime Minister what research relating to Wiltshire he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149283]

Mr. Hammond: To ask the Deputy Prime Minister (1) what research relating to Surrey he has commissioned to provide the evidential basis for his plans to regionalise the Surrey Fire and Rescue Service; [149354]

(2) what research has led him to the conclusion that the optimum suprabrigade structure for the Surrey Fire and Rescue Service is one based on the existing Government Office South East Region. [149359]

Mr. Pickles: To ask the Deputy Prime Minister what research relating to Essex he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149291]

Mr. Syms: To ask the Deputy Prime Minister what research relating to Dorset he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149458]

Mr. Paice: To ask the Deputy Prime Minister what research relating to Cambridgeshire he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149389]

Mr. Wilshire: To ask the Deputy Prime Minister what research relating to Surrey he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149394]

Mr. Raynsford: The Government have no plans at present to regionalise the Fire and Rescue service in the constituencies of the hon. Members. Their local Fire and Rescue Authorities will continue to be responsible for the service. The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service, but no referendum is currently planned for any region other than the North East, the North West and Yorkshire and Humberside. All local Fire and Rescue Authorities are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

The Government's conclusions about the benefits of a regional approach to the delivery of services are set out in the White Paper, and are informed by a number of reviews of the service, culminating in the report of the Independent Review of the Fire Service published in December 2002. These reports are listed in the White Paper.

Since then, further reports have been published which indicate the benefits of a regional approach. The Mott MacDonald report on the "Future of Fire and Rescue Service Control Rooms in England and Wales", published in December 2003, concluded that the optimum solution to secure efficiency and effectiveness in the delivery of fire and rescue service control rooms would be nine control rooms in England matched to the areas of the Government Offices for the Regions. The Government broadly accepts the conclusions of Mott MacDonald report, and is consulting on implementation. Copies of the report and a related one by Her Majesty's Fire Service Inspectorate are available in the Library of the House.

A recent report by Her Majesty's Fire Service Inspectorate also concluded that local purchasing arrangements based on individual preferences are not the most efficient means of obtaining goods, services and equipment. A copy of this report is available in the Library of the House.

Mr. John Bercow: To ask the Deputy Prime Minister (1) what discussions he has had with the Thames Valley Police Authority on his plans to regionalise the Fire and Rescue Service; [149566]

(2) what community consultation he has held in Buckinghamshire on his plans to regionalise the Fire and Rescue Service; [149568]

(3) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Buckinghamshire on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149569]

(4) what discussions he has had with Buckinghamshire county council on his plans to regionalise the Fire and Rescue Service in Buckinghamshire; [149571]

(5) whom he has consulted on the plans to regionalise Buckinghamshire's Fire and Rescue Service. [149573]

Mr. Flook: To ask the Deputy Prime Minister (1) whom he has consulted on the plans to regionalise Somerset Fire Service; [149270]

(2) what discussions he has had with Somerset county council on his plans to regionalise the Fire and Rescue Service; [149272]

(3) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Somerset on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149274]

(4) what community consultation he has held in Somerset on his plans to regionalise the Fire and Rescue Service; [149275]

(5) what discussions he has had with the Avon and Somerset Police Authority on plans to regionalise the Fire and Rescue Service. [149277]

Mr. Gale: To ask the Deputy Prime Minister (1) what discussions he has had with *(a)* Kent county council and *(b)* the Kent Police Authority on his plans to regionalise the Fire and Rescue Service; [149300]

(2) what community consultation he has held in Kent on his plans to regionalise the Fire and Rescue Service. [149301]

Mr. Gray: To ask the Deputy Prime Minister (1) what community consultations he has held in Wiltshire on his plans to regionalise the Fire and Rescue Service; [149284]

(2) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Wiltshire on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149285]

(3) what discussions he has had with *(a)* Wiltshire county council and *(b)* Wiltshire Police Authority on his plans to regionalise the Fire and Rescue Service; [149287]

(4) whom he has consulted on the plans to regionalise Wiltshire's Fire and Rescue Service. [149289]

Mr. Hammond: To ask the Deputy Prime Minister (1) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Surrey on his plans to regionalise the Surrey Fire and Rescue Service; and what the conclusions of those discussions were; [149352]

(2) what community consultation he has held in Surrey on his plans to regionalise the Surrey Fire and Rescue Service; [149353]

(3) what discussions he has had with the Surrey Police Authority on his plans to regionalise the Surrey Fire and Rescue Service; [149355]

(4) what discussions he has had with Surrey county council on his plans to regionalise the Surrey Fire and Rescue Service; [149357]

(5) whom he has consulted on the plans to regionalise Surrey's Fire and Rescue Service. [149358]

Mr. Paice: To ask the Deputy Prime Minister (1) what discussions he has had with Cambridgeshire county council on his plans to regionalise the Fire and Rescue Service; [149370]

(2) whom he has consulted on the plans to regionalise Cambridgeshire's Fire and Rescue Service; [149372]

(3) what discussions he has had with the Cambridgeshire Police Authority on his plans to regionalise the Fire and Rescue Service; [149388]

(4) what community consultation he has held in Cambridgeshire on his plans to regionalise the Fire and Rescue Service; [149390]

(5) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Cambridgeshire on his plans to regionalise the Fire and Rescue Service; and what their advice was. [149391]

Mr. Pickles: To ask the Deputy Prime Minister (1) what community consultation he has held in Essex on his plans to regionalise the Fire and Rescue Service; [149292]

(2) what discussions he has had with *(a)* retained and *(b)* full-time fire-fighters in Essex on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149293]

(3) what discussions he has had with *(a)* Essex county council and *(b)* Essex Police Authority on his plans to regionalise the Fire and Rescue Service; [149295]

(4) whom he has consulted on the plans to regionalise Essex Fire and Rescue Service. [149297]

Mr. Syms: To ask the Deputy Prime Minister (1) what discussions he has had with the Dorset Police Authority on his plans to regionalise the Fire and Rescue Service; [149457]

(2) what public consultation he has held in Dorset on his plans to regionalise the Fire and Rescue Service; [149459]

(3) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Dorset on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149460]

(4) what discussions he has had with local authorities in Dorset on his plans to regionalise the Fire and Rescue Service; [149461]

(5) whom he has consulted on the plans to regionalise Dorset Fire and Rescue Service. [149463]

Mr. Wilshire: To ask the Deputy Prime Minister (1) what discussions he has had with the Surrey Police Authority on his plans to regionalise the Fire and Rescue Service; [149374]

(2) what discussions he has had with Surrey county council on his plans to regionalise the Fire and Rescue Service; [149375]

(3) what discussions he has had with *(a)* retained and *(b)* full-time firefighters in Surrey on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149376]

(4) what community consultation he has held in Surrey on his plans to regionalise the Fire and Rescue Service; [149377]

(5) whom he has consulted on the plans to regionalise Surrey's Fire and Rescue Service. [149396]

Mr. Raynsford: The Government have no plans at present to regionalise the Fire and Rescue Service in the constituencies of the hon. Members. Their local Fire and Rescue Authorities will continue to be responsible for the service. The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service, but no referendum is currently planned for any region other than the north east, the north west and Yorkshire and Humberside. All local Fire and Rescue Authorities are, however, expected to establish, by 1 April 2004, regional

management boards to deliver the functions which are most efficiently and effectively performed at a regional level.

The Government are currently consulting on their draft National Framework for the Fire and Rescue Service. Those to whom the document has been sent include the chairs of individual fire authorities, the Local Government Association and a wide range of bodies representing both retained and full time staff. Police authorities have not been specifically consulted, but comments from all stakeholders are invited by 12 March 2004.

In addition, all aspects of fire modernisation are discussed when we meet interested parties from time to time in the course of our ministerial duties. Chief and assistant chief fire officers from nearly all the Fire and Rescue Authorities in Great Britain attended the 3 December 2003 Fire and Rescue Service seminar addressed by myself and my hon. Friend the Member for Corby; and officials from the Office of the Deputy Prime Minister are engaged in a rolling programme of visits to local Fire and Rescue Services to discuss the draft National Framework.

Mr. Bercow: To ask the Deputy Prime Minister (1) what change in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Buckinghamshire; [149570]

(2) what estimate he has made of the change in job numbers in Buckinghamshire's Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service. [149574]

Mr. Flook: To ask the Deputy Prime Minister (1) what estimate he has made of the number of job losses in the Somerset Fire Service which will result from the proposed regionalisation of the Fire and Rescue Service; [149269]

(2) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Somerset. [149273]

Mr. Gale: To ask the Deputy Prime Minister what change in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Kent. [149299]

Mr. Gray: To ask the Deputy Prime Minister (1) what change in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Wiltshire; [149286]

(2) what estimate he has made of the change in job numbers in Wiltshire Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service. [149290]

Mr. Hammond: To ask the Deputy Prime Minister (1) what estimate he has made of the job losses in Surrey Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service; [149356]

(2) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Surrey Fire and Rescue Service. [149361]

Mr. Paice: To ask the Deputy Prime Minister (1) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Cambridgeshire; [149369]

(2) what estimate he has made of the job losses in Cambridgeshire as a result of the proposed regionalisation of the Fire and Rescue Service. [149373]

Mr. Pickles: To ask the Deputy Prime Minister (1) what change in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Essex; [149294]

(2) what estimate he has made of the change in the number of jobs in Essex Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service. [149298]

Mr. Syms: To ask the Deputy Prime Minister what estimate he has made of the job losses in Dorset Fire and Rescue Service consequent upon the proposed regionalisation of the Fire and Rescue Service. [149456]

Mr. Wilshire: To ask the Deputy Prime Minister (1) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Surrey; [149393]

(2) what estimate he has made of job losses in Surrey Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service. [149397]

Mr. Raynsford: The Government has no plans at present to regionalise the Fire and Rescue Service in the constituencies of the hon. Members. Their local Fire and Rescue Authorities will continue to be responsible for the service. The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service, but no referendum is currently planned for any region other than the North East, the North West and Yorkshire and Humberside. All local Fire and Rescue Authorities are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

Under the Regional Management Board arrangements, staff numbers will continue to be a matter for the individual Fire and Rescue Authority employers concerned.

Mr. Bercow: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Buckinghamshire without the consent of Buckinghamshire County Council. [149572]

Mr. Flook: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Somerset without the consent of Somerset Fire Service. [149271]

Mr. Gray: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Wiltshire without the consent of Wiltshire County Council. [149288]

Mr. Hammond: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Surrey Fire and Rescue Service without the consent of Surrey County Council. [149351]

Mr. Paice: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Cambridgeshire without the consent of Cambridgeshire County Council. [149371]

Mr. Pickles: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Essex without the consent of Essex County Council. [149296]

Mr. Syms: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Dorset. [149462]

Mr. Wilshire: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Surrey without the consent of Surrey County Council. [149395]

Mr. Raynsford: The Government have no plans at present to regionalise the Fire and Rescue service in the constituencies of the hon. Members. Their local Fire and Rescue Authorities will continue to be responsible for the service. The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service, but no referendum is currently planned for any region other than the North East, the North West and Yorkshire and Humberside. All local Fire and Rescue Authorities are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

I hope these voluntary arrangements will succeed. There are, however, provisions in the Fire and Rescue Services Bill currently before the House to strengthen and streamline the power that already exists, in section 6 of the Fire Services Act 1947, to combine Fire and Rescue Authorities following consultation with the existing authorities and other persons affected.

David Davis: To ask the Deputy Prime Minister what research relating to Humberside he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149587]

Sir Nicholas Winterton: To ask the Deputy Prime Minister what reseach relating to Cheshire he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149415]

Mr. Greg Knight: To ask the Deputy Prime Minister what research relating to Humberside he has commissioned to provide the evidential basis for his plans to regionalise the Fire and Rescue Service. [149401]

Mr. Raynsford: The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service. Until this occurs, local Fire and Rescue Authorities will continue to be responsible for the service. They are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

The Government's conclusions about the benefits of a regional approach to the delivery of services are set out in the White Paper, and are informed by a number of reviews of the service, culminating in the report of the Independent Review of the Fire Service published in December 2002. These reports are listed in the White Paper.

Since then, further reports have been published which indicate the benefits of a regional approach. The Mott MacDonald report on the "Future of Fire and Rescue Service Control Rooms in England and Wales", published in December 2003, concluded that the optimum solution to secure efficiency and effectiveness in the delivery of fire and rescue service control rooms would be nine control rooms in England matched to the areas of the Government Offices for the Regions. The government broadly accepts the conclusions of Mott MacDonald report, and is consulting on implementation. Copies of the report and a related one by Her Majesty's Fire Service Inspectorate are available in the Library of the House.

A recent report by Her Majesty's Fire Service Inspectorate also concluded that local purchasing arrangements based on individual preferences are not the most efficient means of obtaining goods, services and equipment. A copy of this report is available in the Library of the House.

David Davis: To ask the Deputy Prime Minister (1) what community consultation he has held in Humberside on his plans to regionalise the Fire and Rescue Service; [149588]

(2) what discussions he has had with *(a)* retained and *(b)* full-time fire-fighters in Humberside on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149589]

(3) what discussions he has had with the East Riding of Yorkshire Council on his plans to regionalise the Fire and Rescue Service; [149591]

(4) whom he has consulted on the plans to regionalise the Humberside Fire and Rescue Service; [149594]

(5) what discussions he has had with the Humberside Police Authority on his plans to regionalise the Fire and Rescue Service. [149600]

Sir Nicholas Winterton: To ask the Deputy Prime Minister (1) whom he has consulted on the plans to regionalise Cheshire's Fire and Rescue Service; [149409]

(2) what discussions he has had with Cheshire County Council on his plans to regionalise the Fire and Rescue Service; [149411]

(3) what discussions he has had with the Cheshire Police Authority on his plans to regionalise the Fire and Rescue Service; [149416]

(4) what discussions he has had with *(a)* retained and *(b)* full-time fire-fighters in Cheshire on his plans to regionalise the Fire and Rescue Service; and what their advice was; [149413]

(5) what community consultation he has held in Cheshire on his plans to regionalise the Fire and Rescue Service. [149414]

Mr. Greg Knight: To ask the Deputy Prime Minister (1) what community consultation he has held in Humberside and East Yorkshire on his plans to regionalise the Fire and Rescue Service; [149402]

(2) whom he has consulted on the plans to regionalise the Humberside Fire and Rescue Service. [149403]

Mr. Raynsford: The White Paper, "Our Fire and Rescue Service" (Cm 5808), made clear that where voters choose to have an Elected Regional Assembly, there will be a Regional Fire and Rescue Service. Until this occurs, local Fire and Rescue Authorities will continue to be responsible for the service. They are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level. Our intention is that voters in the three northern regions should have an opportunity this autumn to vote in a referendum on whether they wish to establish an Elected Regional Assembly for their region.

The Government are currently consulting on their draft National Framework for the Fire and Rescue Service. Those to whom the document has been sent include the Chairs of individual Fire Authorities, the Local Government Association and a wide range of bodies representing both retained and full time staff. Police authorities have not been specifically consulted, but comments from all stakeholders are invited by 12 March 2004.

In addition, all aspects of fire modernisation are discussed when we meet interested parties from time to time in the course of our ministerial duties. Chief and Assistant Chief Fire Officers from nearly all the Fire and Rescue Authorities in Great Britain attended the 3 December 2003 Fire and Rescue Service seminar addressed by myself and my hon. Friend the Member for Corby; and officials from the Office of the Deputy Prime Minister are engaged in a rolling programme of visits to local Fire and Rescue Services to discuss the draft National Framework.

David Davis: To ask the Deputy Prime Minister (1) what change in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Humberside; [149590]

(2) what estimate he has made of the change in job numbers in the Humberside Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service. [149593]

Sir Nicholas Winterton: To ask the Deputy Prime Minister (1) what estimate he has made of the job losses in Cheshire Fire and Rescue Service as a result of the proposed regionalisation of the Fire and Rescue Service; [149408]

(2) what reduction in the number of managerial jobs he expects to result from the regionalisation of the Fire and Rescue Service in Cheshire. [149412]

Mr. Greg Knight: To ask the Deputy Prime Minister what estimate he has made of the job losses in Humberside, including east Yorkshire, as a result of the proposed regionalisation of the Fire and Rescue Service. [149400]

Mr. Raynsford: The White Paper "Our Fire and Rescue Service" (Cm 5808) made clear that where voters choose to have an Elected Regional Assembly there will be a Regional Fire and Rescue Service. Until this occurs, local Fire and Rescue Authorities will continue to be responsible for the service. They are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

Under the Regional Management Board arrangements, staff numbers will continue to be a matter for the individual Fire and Rescue Authority employers concerned. Where Regional Fire and Rescue Authorities are established, staff numbers will similarly be a matter for the new body. But a reduction in the number of individual Fire and Rescue Authorities is expected to lead to a reduction in the number of senior posts.

David Davis: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Humberside without the consent of the East Riding of Yorkshire Council. [149592]

Sir Nicholas Winterton: To ask the Deputy Prime Minister under what powers he would implement the regionalisation of the Fire and Rescue Service in Cheshire without the consent of Cheshire County Council. [149410]

Mr. Raynsford: The White Paper, "Our Fire and Rescue Service" (Cm 5808), made clear that where voters choose to have an Elected Regional Assembly, there will be a Regional Fire and Rescue Service. Until this occurs, local Fire and Rescue Authorities will continue to be responsible for the service. They are, however, expected to establish, by 1 April 2004, Regional Management Boards to deliver the functions which are most efficiently and effectively performed at a regional level.

I hope these voluntary arrangements will succeed. There are, however, provisions in the Fire and Rescue Services Bill currently before the House to strengthen and streamline the power that already exists, in section 6 of the Fire Services Act 1947, to combine Fire and Rescue Authorities following consultation with the existing authorities and other persons affected.

Provision for the establishment of a Regional Fire and Rescue Authority following a 'yes' vote in a referendum will be included in the proposed English Regional Assemblies Bill, a draft of which we will do our best to publish before the referendums in autumn 2004.

House Fire Deaths

Mrs. Iris Robinson: To ask the Deputy Prime Minister how many deaths from house fires there were in the United Kingdom in 2003. [148841]

Mr. Raynsford: The latest information available is for the calendar year 2002. The provisional UK figure for the number of deaths in dwelling fires in that period is 443. Of the 443 deaths in dwelling fires reported to the Office of the Deputy Prime Minister by Fire and Rescue Services in the UK in 2002, 364 were in accidental dwelling fires. This was 71 fewer than in 2001. Deaths in dwelling fires are now 21 per cent. below the level reported in 1997, and are the lowest on record.

Housing

Ms Oona King: To ask the Deputy Prime Minister how much social housing grant was spent by *(a)* the Housing Corporation and *(b)* local authorities in each region in *(i)* 2001–02 and (ii) 2002–03. [149404]

Keith Hill: Social housing grant (SHG) spent through the Housing Corporation's approved development programme (ADP) and local authority social housing grant (LASHG) for each region in 2001–02 and 2002–03 is tabled as follows:

£ million

	2001–02		*2002–03*	
	ADP	*LASHG*	*ADP*	*LASHG*
London	341.5	112.5	423.9	119.9
South East	93.5	140.9	113.1	186.2
South West	51.1	58.2	62.4	68.3
East	51.6	58.7	62.5	15.2
East Midlands	34.4	12.7	39.5	72.4
West Midlands	58.5	15.2	64.6	19.6
Yorkshire & Humberside	47.7	3.3	49.2	6.2

Merseyside	21.4	1.4	24.8	3.0
Total	774.6	410.4	919.9	499.2

Source:
Housing Corporation

Ms Oona King: To ask the Deputy Prime Minister how many social housing units were built with social housing grants by *(a)* the Housing Corporation, *(b)* local authorities and *(c)* registered social landlords without public subsidy, in each year since 1990. [149405]

Keith Hill: Estimates of the number of new social housing dwellings provided each year since 1991–2 are tabled as follows:

Financial year	*Number of social housing units built or otherwise acquired by RSLs with public subsidy Column A*	*Number of social units built by Las with public subsidy Column B*	*Number of units built by RSLs without public subsidy Column C*
1991–2	29,525	7,113	N a
1992–3	68,192	2,579	1,126
1993–4	64,834	1,451	1,137
1994–5	70,720	853	815
1995–6	69,397	757	1,964
1996–7	53,840	451	1,449
1997–8	49,258	323	2,434
1998–9	43,141	194	2,200
1999–2000	34,373	102	2,964
2000–1	31,339	389	3,495
2001–2	30,605	80	3,699
2002–3	31,074	271	2,995

Notes:
1. The figures in column A relate to the number of social dwellings acquired by RSLs with public subsidy – including new build. Separate figures on RSL new build are not available.
2. The types of dwellings shown include self-contained dwellings and bedspaces.

Data *Sources:*
Column A: Housing Corporation Stewardship Reports, Approved Development Programme, Local Authority Sponsored Programme, Revenue Grants & Voted Expenditure
Column B: Office of the Deputy Prime Minister, P2 returns from Local Authorities
Column C: Housing Corporation, Regulatory and Statistical Return

Ms Oona King: To ask the Deputy Prime Minister when he intends to publish *(a)* Table S127 (A1.24) Difference from the Bedroom Standard by Tenure, *(b)* Table S132 (A1.29) Trends in Difference from the Bedroom Standard 1984 to 2001–02 and *(c)* Table S140 (A9.6) Difference from the Bedroom Standard by Government Office Region from the Survey of English Housing 2001–02. [149406]

Yvette Cooper: All of these tables have already been published on the Office of the Deputy Prime Minister's website and they are available in the Library of the House. It is not intended to publish them in a printed report.

Ms Oona King: To ask the Deputy Prime Minister pursuant to his answer to the hon. Member for Tewkesbury of 3 November 2003, *Official Report*,

column 501W, on the tenancy deposit scheme, what the outcome was of the seminar held in December to discuss the case for linking legislation for compulsory measures to protect tenancy deposits to the Law Commission's findings. [149434]

Keith Hill: The Office of the Deputy Prime Minister is pleased to say that the seminar held on 19 December achieved a good attendance from those representing landlords, tenants, local authorities and housing professionals. It appeared to achieve a widespread understanding among those attending of the need to steer a course that considered the scope for linking legislation for compulsory measures to protect tenancy deposits to a need for written agreements for all tenants. A need for all tenants to have written agreements was proposed in the Law Commission's report 'Renting Homes' published in November.

Ms Oona King: To ask the Deputy Prime Minister if he will place in the Library copies of the papers presented at the seminar held in December to discuss the case for linking legislation for compulsory measures to protect tenancy deposits to the Law Commission's findings. [149435]

Keith Hill: With the approval of their authors the Office of the Deputy Prime Minister will do so.

Ms Oona King: To ask the Deputy Prime Minister if he will introduce a statutory national tenancy deposit scheme. [149436]

Keith Hill: The Office of the Deputy Prime Minister is considering in the light of the seminar of 19 December a full response to our consultation a year ago with the results of our consideration of proposals for future measures to provide for tenancy deposit protection that could encompass a range of approved but mandatory schemes.

Ms Oona King: To ask the Deputy Prime Minister what account his Department asked the Law Commission to take of the issue of protecting tenancy deposits as part of its project on tenure reform; and what evidence the Law Commission requested from consultees on this issue. [149437]

Keith Hill: The Law Commission consultation paper 162 of May 2002 stated in paragraph 1.85 that:

"The question of whether or not tenancy deposits should be regulated, and if so how—an issue covered in the legislation of many Commonwealth jurisdictions 38—is not considered here. It is currently the subject of pilot projects being run by the Department for Transport, Local Government and the Regions."

In the Law Commission's interim response to this consultation, their paper 284 of November 2003 stated in paragraph 2.27 that:

"During the period of our consultation, we were aware that schemes relating to tenancy deposits were being tested and evaluated by ODPM. In 2003, the outcome of this evaluation was produced. It has become clear that policy makers see considerable potential for building contractual obligations relating to the taking and repayment of deposits into the scheme we are proposing, even though we did not consider the issue as part of our project."

Further on in that report, in a footnote to paragraph 8.14 on key terms it is stated:

"We have considered whether we should recommend that the Secretary of State include in the secondary legislation a default term about whether fixtures and chattels are included in the agreement and whether an inventory must be provided. This issue ties in closely with work ODPM are doing on the regulation of deposits (as disputes are often about the existence or state of items which could have been listed in an inventory to avoid disputes). We do not wish to prejudge that work by proposing that there should be a compulsory minimum term on this issue in the Act."

Following the seminar on 19 December we are considering with the Law Commission how proposals for future provisions on the safeguarding of tenancy deposits could mesh in with what the Law Commission are proposing with regard to compulsory written agreements for all tenants.

Mr. Love: To ask the Deputy Prime Minister what assessment of the possible potential savings to health and social care budgets he has made from ensuring that a percentage of all new housing has wheelchair access; and if he will make a statement. [149609]

Yvette Cooper: All newly built homes must meet the requirements of Tart M' of the building regulations, which the Government revised in 1999 to improve the visitibility and convenience of new housing. The revised regulations include requirements to ensure that entrances, lifts, corridors, doorways and WCs are accessible, including to wheelchair users. The provisions are expected to enable occupants to cope better with reducing mobility and to live longer in their own homes, although not necessarily to facilitate folly independent living for all disabled people.

In addition, all new build schemes funded by the Government through the Housing Corporation must comply with the Corporation's scheme development standards, which adopt additional criteria for accessibility and internal environments.

No assessment has been made of the potential costs and benefits of setting a target for a proportion of all new housing to have particular standards of wheelchair access.

Mr. Love: To ask the Deputy Prime Minister what measures the Department will take to increase the number of new houses suitable for those who are wheelchair users. [149610]

Yvette Cooper: All newly built homes must currently meet the requirements of 'Part M' of the building regulations, which the Government revised in 1999 to improve the visitibility and convenience of new housing. The revised regulations include requirements to ensure that entrances, lifts, corridors, doorways and WCs are accessible, including to wheelchair users. The provisions are expected to enable occupants to cope better with reducing mobility and to live longer in their own homes, although not necessarily to facilitate fully independent living for all disabled people.

In addition, all new build schemes funded by the Government through the Housing Corporation must comply with the Corporation's scheme development standards which adopt additional criteria for accessibility and internal environments.

Mr. Laurence Robertson: To ask the Deputy Prime Minister if he will make a statement on his policy on the building of houses on flood plains. [149919]

Keith Hill: Policy is contained in Planning Policy Guidance Note 25: Development and Flood Risk, published in July 2001.

Mr. Laurence Robertson: To ask the Deputy Prime Minister what discussions he has had with planning inspectors about the building of houses in flood plains; and if he will make a statement. [149920]

Keith Hill: Officials at the Office of the Deputy Prime Minister have briefed Planning Inspectors on the policies dealing with housing and flooding out in Planning Policy Guidance Notes 3 (Housing) and 25 (Development and Flood Risk). They also provide on request advice to the Inspectorate centrally and to individual Inspectors on questions about the policy stated in these documents, but not on the interpretation of policy in cases.

Mr. Hoyle: To ask the Deputy Prime Minister whether local planning authorities can refuse new housing applications in areas where *(a)* sewage and *(b)* flooding problems are known to exist. [150017]

Keith Hill: Problems with sewage and flooding are material considerations in whether nor not to approve new housing applications, and local planning authorities should refuse permission where these cannot be satisfactorily resolved. Guidance on sewerage is given in paragraph 19 of Annex 3 to Planning Policy Guidance Note 23: Planning and Pollution Control. The fact that flood risk is a criterion in allocating land in plans for housing development is stated in paragraph 31 of Planning Policy Guidance Note 3: Housing, and the suitability of land at different levels of risk from flooding for residential development is set out in Table 1 of Planning Policy Guidance Note 25: Development and Flood Risk.

Local Government

Mr. Andrew Turner: To ask the Deputy Prime Minister what the value of the formula spending share for *(a)* each older person and *(b)* each older person for deprivation is for each local authority in 2004–05. [150069]

Mr. Raynsford: Older people form part of the population figures used to calculate several of the formula spending shares (FSS) formula, the exceptions being the education formulae and the children and younger adults social service formulae. Specific provision for older people is made in the FSS formula for older peoples social services.

The figures in the table detail the FSS and the deprivation top up per older person for the older peoples social services FSS for each social services/education authority, as announced in the 2004–05 provisional local government finance on 19 November 2003. The figures are taken from the 'Simple Presentation' guide to the funding formulae, which is available on the Office of the Deputy Prime Minister's website at http://www.local.odpm.gov.uk/finance/0405/simppres/index.htm

Sustainable Communities

Mr. Clifton-Brown: To ask the Deputy Prime Minister how many houses have been built under plans for the development of the *(a)* Milton Keynes, *(b)* Ashford and *(c)* Stansted Corridor Sustainable Communities; how many are social housing; how many houses will be built; and how many will be social housing. [148204]

Yvette Cooper: The Sustainable Communities plan was published in February 2003. The most recent annual housebuilding figures for the districts contained within the housing growth areas are for the year to September 2003.

Growth Area	*New build housing completions year to September 2003*
Milton Keynes South Midlands	6,622
London Stansted Cambridge	4974
Ashford	678

It should be noted that these figures are for new build only and do not include net additions to the housing stock derived from conversions and change of use less demolitions. Full net additions data for 2003–04 will be available in October 2004.

Plans are at a different stage in each of the three growth areas. In Milton Keynes South Midlands, regional partners published a draft Sub Regional Strategy on 18 July 2003. This sets out plans for around 133,400 homes in the period 2001–16. These plans will be subject to examination in public and the

consideration of the Secretary of State before incorporation into Regional Planning Guidance. Similarly, in July 2003, the South East England Regional Assembly published their proposed alterations to Regional Planning Guidance for Ashford, including a total of 13,100 homes in the period 2001–16. An examination in public was held in December 2003, and the panel is due to report in February 2004.

In London Stansted Cambridge, plans for the growth area are being considered as part of the development of RPG14 for the East of England, and the London Plan, and its Sub Regional Development Frameworks. A first draft of RPG14 is expected to be produced by the East of England Regional Assembly in February 2004.

The Government does not set annual targets centrally for local authorities on either affordable or social housing. Planning policies for affordable housing are set out in Planning Policy Guidance Note 3, "Housing", and in Circular 6/98, "Planning for Affordable Housing". They advise that where local planning authorities are able to demonstrate a lack of affordable housing to meet local needs, based on up-to-date surveys and other data, they should indicate in their local plan how many affordable homes need to be provided throughout the plan area, and set indicative targets for specific suitable sites (expressed either as numbers of homes or a percentage of the homes on the site). Local planning authorities should be monitoring their performance against their local plan policies and targets, but this information is not held centrally and could be provided only at disproportionate cost.

Telecoms Companies

Michael Fabricant: To ask the Deputy Prime Minister what estimate he has made of how much will be paid back to telecommunications companies in respect of appeals against business rates in England and Wales made since the conclusion of the administrative period for the 2000 list. [149195]

Phil Hope: None. The 2000–05 rating lists are still open to appeals by ratepayers against their rateable values. It is for the National Assembly for Wales to comment on the position in Wales.

Michael Fabricant: To ask the Deputy Prime Minister how many appeals by telecommunications companies in respect of the *(a)* 1995 and *(b)* 2000 list valuations remain outstanding. [149205]

Phil Hope: At the end of 2003, the numbers of outstanding appeals in England for telecommunication properties on a) the 1995–2000 lists and b) the 2000–05 lists were respectively a) 1,013 and b) 11,248. These figures include both telecommunication properties on the central rating list (in respect of which payments of rates are made direct to my right hon. Friend the Deputy Prime Minister), and properties such as telecommunication masts, telephone kiosks, telephone exchanges on the local rating lists (where payments are made to local authorities, and then forwarded by them to my right hon. Friend the Deputy Prime Minister).

In the case of Wales, it is matter for the National Assembly for Wales.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 416**

SESSION 2003–2004

5th January 2004—22nd January 2004

Printed indexes to Hansard

The volume index is one of three printed indexes to Commons Hansard produced from the House of Commons Library's Parliamentary On-Line Indexing Service (POLIS). It contains references to material in the bound volume of Hansard. The other indexes produced are:

- The index to the daily parts of Hansard. This covers the same date range as the volume index but references may be different as a result of changes to the text and column numbering.
- The sessional index to Hansard. This contains references to material in the bound volumes for a whole session.

Indexes on the Parliamentary website

Daily part and volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 416**

SESSION 2003–2004

5th January 2004—22nd January 2004

Printed indexes to Hansard

The volume index is one of three printed indexes to Commons Hansard produced from the House of Commons Library's Parliamentary On-Line Indexing Service (POLIS). It contains references to material in the bound volume of Hansard. The other indexes produced are:

- The index to the daily parts of Hansard. This covers the same date range as the volume index but references may be different as a result of changes to the text and column numbering.

Indexes on the Parliamentary website

Daily part and volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various POLIS thesauruses allow. For example, 'Education, Higher education, Universities or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, United Kingdom Passports Agency, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Communities and European institutions as bodies is entered under 'European Communities' and 'EC institutions'. Organisational material about specific communities and institutions is entered under the name of the body, for example 'European Coal and Steel Community' or 'European Parliament'. Material about what the Communities and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Guidance on headings

- *Cross references*—'See' references indicate all the material has been entered under another heading. 'See also' references indicate that additional information may be found under another heading.
- *Concept thesaurus*—A copy of the subject thesaurus to POLIS, listing the concept entries used in the index, is available on the Parliamentary website. A hard copy is available from the Head of the POLIS Unit, House of Commons Library, 1 Derby Gate, London, SW1A 2DG (020 7219 6456).

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements and written questions:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
